4. To determine whether the proposed construction involves the use of any critical materials.

5. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

6. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

7. To determine whether in view of the facts adduced under all of the issues, the granting of this application would serve public interest, convenience and necessity.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

IN RE APPLICATION OF ALBERT S. & ROBERT A. DROHLICH D/B AS DROHLICH BROTHERS (NEW)

NOTICE OF HEARING

In re application dated September 2, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Jefferson City, Missouri; operating assignment specified: Frequency, 800 kc.; power, 1 kw.; hours of operation, daytime only.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the character of the proposed program service.

2. To determine whether the proposed construction involves the use of any critical materials.

3. To determine the areas and populations which would receive primary service from the proposed station, and what broadcast service is already available to such areas and populations.

4. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Commission's Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

5. To determine the extent of any interference which would result from the simultaneous operation of the station proposed herein and Station KCMO as proposed in application B4-P-3389, as well as the areas and populations affected thereby and what broadcast service is available to these areas and populations.

6. To determine whether the granting of this application would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

7. To determine the areas and populations now receiving primary service from Station KDRO (licensed to the applicant) which would receive primary service from the proposed station.

8. To obtain full information respecting the plan of operation for the proposed station, particularly in view of the applicant partnership's status as licensee of Station KDRO.

9. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

IN RE APPLICATION OF UNIVERSITY OF FLORIDA (WRUF)

NOTICE OF HEARING

In re application dated June 13, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Gainesville, Florida; operating assignment specified: Frequency, 850 kc.; power, 5 kw. (DA-night); hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine what new areas and populations would receive service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

3. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (See Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

4. To determine the extent of any interference which would result from the simultaneous operation of Station WRUF as proposed and the operation of Station WRAL as proposed in Docket No. 6210 as well as the areas and populations affected thereby and what other broadcast service is available to these areas and populations.

5. To determine whether the operation of Station WRUF as proposed would be consistent with the Standards of Good Engineering Practice, particularly as to population residing within the "blanket area" (250 mv/m contour).

6. To determine the availability of a transmitter site in the Gainesville, Florida, area which would comply with the Standards of Good Engineering Practice in all respects.

7. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

8. To determine whether, in view of the facts adduced under the foregoing issues and the issues relating to the application of Capitol Broadcasting Company, Inc. (WRAL) Docket No. 6210, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382(b) of the Commission's Rules of Practice and Procedure. CERTIFICATION TO THE KENTUCKY UNEMPLOYMENT COMPENSATION COMMISSION

The Kentucky Unemployment Compensation Commission having duly submitted to the Social Security Board, pursuant to the provisions of section 1602 (b) (3) of the Internal Revenue Code, as amended, the Kentucky Unemployment Compensation Law, as amended; and

The Social Security Board having considered the provisions of said law to determine whether or not reduced rates of contributions are allowable thereunder under conditions fulfilling the requirements of section 1602 of the Internal Revenue Code;

The Board hereby finds that:

(1) The said law provides for the maintenance of reserve accounts as defined in section 1602 (c) (1) of the Internal Revenue Code, and

(2) Reduced rates of contributions under said law to such reserve accounts are allowable only in accordance with the provisions of section 1602 (a) (3) of the Internal Revenue Code, as effective January 1, 1942.

Pursuant to the provisions of section 1602 (b) (3) of the Internal Revenue Code, the Board hereby directs that the foregoing findings be certified to the Kentucky Unemployment Compensation Commission.

REGULATIONS FOR PAYMENT OF RATES AND CHARGES

MARCH 19, 1942.

Division Two of the Commission, to which Section 3 (2) of the Interstate Commerce Act is assigned under the current organization schedule and assignment of work and functions, has under consideration the question of adding to the regulations prescribed in the above-entitled proceeding (49 CFR 142) the following new section:

SECTION 142.15. Nothing in these regulations shall be interpreted as affecting the interline settlement of revenue from traffic which is transported over through routes composed of lines of common carriers subject to parts I, II, or III of the Interstate Commerce Act.

Persons wishing to state their views concerning the advisability of such an amendment may do so by sending written communications (4 copies) to the Commission not later than April 6, 1942.

IN THE MATTER OF APPLICATION FOR SPECIAL PERMISSION No. A–7622 OF B. T. JONES, AGENT SUPPLEMENTAL MATTER

Permission under section 6, 217 or 306 of the Interstate Commerce Act to depart from the requirements of the Commission's published tariff regulations.

The Commission[1] having under consideration an application for special permission dated October 30, 1941 (No. A–7622), as amended by Amendment No. 1 dated March 11, 1942, filed by B. T. Jones, Agent, for and on behalf of all carriers and their agents, seeking relief from the provisions of the Commission's tariff rules, on account of definite indications that there will be in the not distant future an inadequate supply of paper for use in tariff publication, due to discontinued importation of large quantities of woodpulp formerly received from the Scandinavian countries and also due to inadequate domestic production, as well as the extraordinary demands by and for account of the United States Government for a wide range of paper products in connection with the national defense program, and

It appearing that the public interest will not be adversely affected by a temporary waiver of Rule 9 (e) of Tariff Circular No. 20, Rule 6 (d) of Tariff Circular No. MF–3, and Rule 5 (g) of Tariff Circular No. 22.

It is ordered, That for the duration of the War and six months thereafter, the said rules be, and they are hereby, waived to the extent of permitting the number of supplements and the volume of supplemental matter as indicated below:

[1] Present, Clyde B. Aitchison, Commissioner, to whom the above-entitled matter has been assigned for action thereon.

Except as provided in exceptions numbered 1, 2, 3 and 4 below, tariffs containing

Number of pages	Number of supplements permitted	Volume of supplemental matter permitted
2 and not more than 4.	1	2 pages.
5 and not more than 8.	1	4 pages.
9 and not more than 16.	2	8 pages.
17 and not more than 80.	3 and 1 additional supplement of not to exceed 4 pages.	50 percent.
81 and not more than 200.	4 and 1 additional supplement of not to exceed 4 pages.	50 percent.
Over 200	5 and 1 additional supplement of not to exceed 4 pages.	50 percent.

Exception No. 1 (*applicable only to tariffs of more than 16 pages*). If the number of pages in the supplement which brings the volume of matter up to that authorized, is not evenly divisible by 4 the volume authorized may be exceeded to the extent necessary to bring the number of pages of such supplement to the next multiple of 4 and such supplement may be reissued, provided the number of pages of supplemental matter authorized for such supplement is not exceeded.

Exception No. 2. This relief shall not apply to tariffs now required to be reissued under outstanding permissions, if such tariffs are now beyond the limits of Rule 9 (e) of Tariff Circular No. 20, as modified by this permission, as to number and/or volume.

Exception No. 3. This relief shall not apply to tariffs of all-motor, all-water, or a combination of motor-water carriers now in excess of the number of supplements and/or volume of supplemental matter authorized by Rules 6 (d) or 5 (g) of Tariff Circulars No. MF–3 or No. 22 respectively, as modified by this permission.

Exception No. 4. This relief shall not apply to permissions listed below authorizing relief from the terms of Rules 4 (1) and 9 (e), or 9 (e) only, of Tariff Circular No. 20, in connection with tariffs involved in Ex parte 123, as now authorized by paragraph (c) of Permission No. 6730, as follows:

EXECUTIVE ORDER 9105

AMENDMENT OF EXECUTIVE ORDER No. 8704 OF MARCH 4, 1941, PRESCRIBING REGULATIONS GOVERNING THE GRANTING OF ALLOWANCES FOR QUARTERS AND SUBSISTENCE TO ENLISTED MEN

By virtue of the authority vested in me by section 11 of the act of June 10, 1922, c. 212, 42 Stat. 625, 630, as amended by the act of November 21, 1941 (Public Law 319, 77th Congress), Executive Order No. 8704 of March 4, 1941, as amended by Executive Order No. 8759 of May 24, 1941, prescribing regulations governing the granting of allowances for quarters and subsistence to enlisted men of the Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service who are not furnished quarters or rations in kind, is hereby further amended by inserting, before the last paragraph thereof, a new paragraph, reading as follows:

"Payments of allowances for quarters and subsistence may be made to enlisted men not more than one month in advance, except that as to men proceeding to or from a station beyond the continental limits of the United States or in Alaska, such payments may be made not more than three months in advance. The heads of the Departments concerned may prescribe such additional regulations as may be necessary to carry out the provisions of this paragraph."

EXCEPTING CERTAIN PERSONS FROM THE CLASSIFICATION OF "ALIEN ENEMY" FOR THE PURPOSE OF PERMITTING THEM TO APPLY FOR NATURALIZATION

WHEREAS section 326 of the Nationality Act of 1940, approved October 14, 1940 (54 Stat. 1150; U.S.C., title 8, sec. 726), reads as follows:

SEC. 326. (a) An alien who is a native, citizen, subject, or denizen of any country, state, or sovereignty with which the United States is at war may be naturalized as a citizen of the United States if such alien's declaration of intention was made not less than two years prior to the beginning of the state of war, or such alien was at the beginning of the state of war entitled to become a citizen of the United States without making a declaration of intention, or his petition for naturalization shall at the beginning of the state of war be pending and the petitioner is otherwise entitled to admission, notwithstanding such petitioner shall be an alien enemy at the time and in the manner prescribed by the laws passed upon that subject.

(b) An alien embraced within this section shall not have such alien's petition for naturalization called for a hearing, or heard, except after ninety days' notice given by the clerk of the court to the Commissioner to be represented at the hearing, and the Commissioner's objection to such final hearing shall cause the petition to be continued from time to time for so long as the Commissioner may require.

(c) Nothing herein contained shall be taken or construed to interfere with or prevent the apprehension and removal, agreeably to law, of any alien enemy at any time previous to the actual naturalization of such alien.

(d) The President of the United States may, in his discretion, upon investigation and report by the Department of Justice fully establishing the loyalty of any alien enemy not included in the foregoing exemption, except such alien enemy from the classification of alien enemy, and thereupon such alien shall have the privilege of applying for naturalization.

NOW, THEREFORE, by virtue of the authority vested in me by the foregoing statutory provisions, and in order to carry out the purposes thereof, I hereby except from the classification "alien enemy" all persons whom the Attorney General of the United States shall, after investigation fully establishing their loyalty, certify as persons loyal to the United States.

This order supersedes Executive Order No. 3008 of November 26, 1918, entitled "Excepting Certain Persons from the Classification of 'Alien Enemy' for the

EXECUTIVE ORDER 9108

DIRECTING THE DIRECTOR OF THE OFFICE OF DEFENSE TRANSPORTATION TO TAKE CONTROL OF THE TOLEDO, PEORIA, AND WESTERN RAILROAD COMPANY

WHEREAS, the national interest and security demands that there be no interruption in the flow of goods essential to effective prosecution of the war, and

WHEREAS, representatives of labor and industry, meeting at the call of the President, have agreed that there shall be no strikes or lockouts during the period of the war and that all labor disputes shall be settled by peaceful means, and, to further that agreement, the National War Labor Board has been established by Executive Order No. 9017[1] to bring about the peaceful settlement of all such labor disputes, and

WHEREAS, a labor dispute has existed between the employees and the management of the Toledo, Peoria and Western Railroad Company since December 29, 1941 and has interrupted the transportation of goods essential for the prosecution of the war, and

WHEREAS, the National War Labor Board, by order dated February 27, 1942, directed that the dispute be submitted to arbitration under the terms of Section 8 of the Railway Labor Act, and the representatives of the employees have agreed thereto, but the Company has refused and continues to refuse to submit the dispute to arbitration, despite urgent requests by the National War Labor Board and by the President that it do so; and

WHEREAS, for the time being and under the circumstances set forth, it is essential that the Toledo, Peoria and Western Railroad Company be operated by or for the United States in order to assure successful prosecution of the war;

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and laws of the United States, and as President of the United States and as Commander in Chief of the Army and Navy, it is hereby ordered:

1. The Director of the Office of Defense Transportation is directed to take immediate possession of all real and personal property, franchises, rights and other assets, tangible and intangible, of the Toledo, Peoria and Western Railroad Company, and to operate or arrange for the operation of such railroad in such manner as he deems necessary for the successful prosecution of the war, through or with the aid of such public or private agencies, persons or corporations, including the armed forces of the United States, as he may designate.

2. Such real and personal property, franchises, rights and other assets, tangible and intangible, of the Toledo, Peoria and Western Railroad Company as the Director of the Office of Defense Transportation deems unnecessary to carry on the operation of such railroad may, from time to time, in his discretion, be returned to the Toledo, Peoria and Western Railroad Company.

3. The Director of the Office of Defense Transportation shall manage or arrange for the management of said railroad under such terms and conditions of employment as he deems advisable and proper, pending such termination of the existing labor dispute as may be approved by the National War Labor Board. Nothing herein shall be deemed to render inapplicable existing state or Federal laws concerning the health, safety, security and employment standards of the employees of said railroad.

4. Except with the prior written consent of the Director of the Office of Defense Transportation, no attachment by mesne or garnishee process or on execution shall be levied on or against any of the real and personal property, franchises, rights and other assets, tangible and intangible, of the Toledo, Peoria and Western Railroad Company in the possession of the Director.

5. Possession and operation hereunder shall be continued only until the President determines that such temporary possession and operation are no longer required for successful prosecution of the war.

(d) The noncompetitive examination shall be conducted by or under the supervision of examining committees of three members to be appointed by the Chairman of the Board and such committees shall determine the eligibility or ineligibility of the candidate. The determination shall be based upon (1) the record and experience of the candidate, and (2) an oral examination. The oral examination may be waived in the case of appointments above P5 and in the case of any war service appointment, if the examining committee is satisfied, without regard thereto, that the candidate is eligible.

The following paragraph is added to § 17.2 of the regulations issued on August 6, 1941, effective as of August 15, 1941 (6 F.R. 4091), and issued on December 6, 1941 (6 F.R. 6471):

(g) Effective Mar. 16, 1942, all appointments to attorney and law-clerk trainee positions shall be for the duration of the present war and for six months thereafter unless otherwise specifically limited to a shorter period. Such appointments shall be effected under E.O. 9063, Feb. 16, 1942 (7 F.R. 1075), and persons thus appointed will not thereby acquire a classified status. No person shall be appointed unless (1) he has passed a noncompetitive examination prescribed by the Board, or (2) in case of special emergency, the Board has authorized his appointment subject to subsequent examination. Such appointments shall in other respects be governed by the requirements and procedures prescribed by the regulations in this part.

Section 17.6 (*Approval required for transfers of attorneys*), issued November 7, 1941 (6 F.R. 5799) is amended to read as follows:

§ 17.6 *Approval required for transfers of attorneys.* (a) Effective Mar. 16, 1942, all transfers from one attorney position to another such position shall be governed by Regulation IX of the War Service Regulations promulgated by the Commission, except that the determinations required thereunder shall be made by the Board of Legal Examiners.

(b) Incumbents of attorney positions who desire to transfer under the War Service Regulations shall file with the Board of Legal Examiners a statement to that effect, accompanied by Form 3821 (Application for Attorney Positions) unless this form has previously been filed with the Board.

By the United States Civil Service Commission.

H. B. MITCHELL,
President.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[B.E.P.Q.—Q. 48]

PART 301—DOMESTIC QUARANTINE NOTICES

JAPANESE BEETLE QUARANTINE[1]

Introductory Note

In the current revision of the Japanese beetle quarantine regulations, relatively small extensions of regulated areas are made in Maryland, New York, Pennsylvania, Virginia, and West Virginia. Additions to the regulated area in Maryland include portions of the counties of Allegany, Prince Georges, and Washington, and the previously unregulated portions of the counties of Carroll and Frederick. In New York, the town of Manchester, Ontario County, and the town of Pittsford and village of East Rochester, in Monroe County, are brought under regulation. Extension of the Pennsylvania regulated area is limited to the city of Meadville, in Crawford County. The cities of Charlottesville and Danville, the village of Schoolfield in Pittsylvania County, and the town of Front Royal in Warren County, Va., are added to the regulated area. The area in Warwick County, Va., has been slightly increased and described as the magisterial district of Newport, which includes the Camp Stuart locality heretofore under regulation. An addition to the West Virginia area was made by the inclusion of the magisterial district of Lincoln, Tyler County, and the town of Paden City, in Tyler and Wetzel Counties.

Areas from which the movement of fruits and vegetables is regulated (§ 301.48–5) have been further extended to include additional election districts and towns in Anne Arundel and Baltimore Counties, Md., and Berks, Cumberland, Lehigh, Northampton and York Counties, Pa. Charlottesville, Va., is now included with Toledo, Ohio, and Winchester, Va., as isolated regulated points to which fruit and vegetable shipments via refrigerator car or motortruck may move only under certification.

Soil-free rooted cuttings and fresh manure have been added to the list of exempted articles, and the special labeling requirements previously prescribed for containers of certain exempted articles have been removed.

Restrictions on the movement of cut flowers are now confined to shipments moving from the heavily infested area interstate to points outside the regulated areas. This heavily infested area (§ 301.48–5) is that from which the movement of fruits and vegetables is also restricted. This will relieve shippers of cut flowers located within the regulated area, but outside the heavily infested portion, from the necessity of obtaining certification for their shipments.

Minor changes have been made in § 301.48–6 relating to the maintenance of a classified status at an infested nursery or greenhouse.

[1] Revision of Regulations Effective March 24, 1942.

Authorization for the issuance of permits for the movement via motortruck of all restricted articles from a regulated area through a nonregulated area to another regulated area has been restored.

This revision supersedes the rules and regulations supplemental to the revision of Notice of Quarantine No. 48, which became effective February 12, 1941, as amended by administrative instructions (B.E.P.Q. 513), effective April 21, 1941.

Summary

Unless a certificate has been issued, these regulations, as now revised, prohibit the interstate movement between June 15 and October 15 (between June 1 and October 15 in the case of Accomac and Northampton Counties, Va.) of all fruits and vegetables by refrigerator car or motortruck, and cut flowers by any mode of transportation, from the District of Columbia, the State of Delaware, and parts of Maryland, New Jersey, Pennsylvania, and Virginia, as defined in § 301.48–5, to or through points outside the regulated areas as defined in § 301.48–3.

Also restricted in the regulations is the interstate movement of plants, sand, soil, earth, peat, compost, and manure from any part of the regulated areas to or through any outside point throughout the year unless a Federal permit or certificate has been obtained. For details and exceptions see §§ 301.48–6 and 7.

Included in the regulated areas are the District of Columbia, the entire States of Connecticut, Delaware, Massachusetts, New Jersey, and Rhode Island, and parts of Maine, Maryland, New Hampshire, New York, Ohio, Pennsylvania, Vermont, Virginia, and West Virginia, as described in § 301.48–3.

These regulations also specify the conditions governing the protection of restricted articles from infestation while in transit (§ 301.48–8), require thorough cleaning of vehicles, containers, and refrigerator cars which have been used in transporting restricted products (§§ 301.48–5 and 13), and provide other safeguards and conditions, as specified in the regulations.

To obtain permits and certificates, address the Bureau of Entomology and Plant Quarantine, 266 Glenwood Avenue, Bloomfield, N. J., or the nearest branch office listed in the appendix.

Determination of the Secretary of Agriculture

The Secretary of Agriculture, having determined that it was necessary to quarantine the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia, and the District of Columbia, to prevent the spread of the Japanese beetle (*Popillia japonica* Newm.), a dangerous insect new to and not theretofore widely prevalent or distributed within and throughout the United States, and having given the public hearing required by law, promulgated the thirteenth revision of Notice of Quarantine 301.48, part 301, chapter III, title 7, Code of Federal Regulations, and rules and regulations supplemental thereto, governing the movement of (1) fruits and vegetables; (2) nursery, ornamental, and greenhouse stock, and other plants; and (3) sand, soil, earth, peat, compost, and manure, from any of the above-named States or the District of Columbia, into or through any other State or Territory or District of the United States, §§ 301.48–1 to 14, inclusive, part 301, chapter III, title 7, Code of Federal Regulations [B.E.P.Q.—Q. 48, effective on and after February 12, 1941].

I have determined that it is necessary to revise the aforesaid rules and regulations for the purpose of extending the regulated areas owing to the discovery of substantial infestations of the Japanese beetle in additional sections, and to make other modifications.

Order of the Secretary of Agriculture

Pursuant to the authority conferred upon the Secretary of Agriculture by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 161), the subpart entitled "Japanese Beetle" of part 301, chapter III, title 7, Code of Federal Regulations [B.E.P.Q.—Q. 48, as revised] is hereby revised effective March 24, 1942, to read as follows:

SUBPART—JAPANESE BEETLE

Quarantine

§ 301.48 *Notice of quarantine.* Under the authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 161), I do quarantine the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, and the District of Columbia, to prevent the spread of the Japanese beetle. Hereafter (1) fruits and vegetables; (2) nursery, ornamental, and greenhouse stock, and other plants; and (3) sand, soil, earth, peat, compost, and manure, shall not be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved from any of said quarantined States or District into or through any other State or Territory or District of the United States in manner or method or under conditions other than those prescribed in the rules and regulations hereinafter made and amendments thereto: *Provided*, That the restrictions of this quarantine and of the rules and regulations supplemental thereto may be limited to the areas in a quarantined State now, or which may hereafter be, designated by the Secretary of Agriculture as regulated areas when, in the judgment of the Secretary of Agriculture, the enforcement of the aforesaid rules and regulations as to such regulated areas shall be adequate to prevent the spread of the Japanese beetle: *Provided further*, That such limitations shall be conditioned upon the said State providing for and enforcing such control measures with respect to such regulated areas as, in the judgment of the Secretary of Agriculture, shall be deemed adequate to prevent the spread of the Japanese beetle therefrom to other parts of the State: *And provided further*, That certain articles classed as restricted herein may, because of the nature of their growth or production or their manufactured or processed condition, be exempted by administrative instructions issued by the Chief of the Bureau of Entomology and Plant Quarantine when, in his judgment, such articles are considered innocuous as carriers of infestation: *And provided further*, That whenever, in any year, the Chief of the Bureau of Entomology and Plant Quarantine shall find that facts exist as to the pest risk involved in the movement of one or more of the articles to which the regulations supplemental hereto apply, making it safe to modify, by making less stringent, the restrictions contained in any such regulations, he shall set forth and publish such finding in administrative instructions, specifying the manner in which the applicable regulation should be made less stringent, whereupon such modification shall become effective, for such period and for such regulated area or portion thereof as shall be specified in said administrative instructions, and every reasonable effort shall be made to give publicity to such administrative instructions throughout the affected areas.*

*§§ 301.48 to 301.48–14, inclusive, issued under the authority contained in sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 161.

Meaning of Terms

§ 301.48–1 *Definitions.* For the purpose of these regulations the following words, names, and terms shall be construed, respectively, to mean:

(a) *Japanese beetle.* The insect known as the Japanese beetle (*Popillia japonica Newm.*), in any stage of development.

(b) *Infested, infestation.* The terms "infested," "infestation," and the like, relate to infestation with the Japanese beetle.

(c) *Quarantined area.* Any State or District quarantined by the Secretary of Agriculture to prevent the spread of the Japanese beetle.

(d) *Regulated area.* Any area in a quarantined State or District which is now, or which may hereafter be, designated as such by the Secretary of Agriculture in accordance with the provisos of § 301.48, as revised.

(e) *Fruits and vegetables.* For the list of restricted fruits and vegetables see § 301.48–5.

(f) *Nursery and ornamental stock.* Nursery, ornamental, and greenhouse stock, and all other plants, plant roots, cut flowers, or other portions of plants.

(g) *Sand, soil, earth, peat, compost, and manure.* Sand, soil, earth, peat, compost, or manure of any kind and as to either bulk movement or in connection with farm products or nursery and ornamental stock.

(h) *Certified sand, soil, earth, peat, compost, and manure.* Sand, soil, earth, peat, compost, or manure determined by the inspector as uninfested and so certified.

(i) *Certified greenhouse.* A greenhouse or similar establishment which has complied to the satisfaction of the inspector with the conditions imposed in § 301.48–6. This term may apply also to potting beds, heeling-in areas, hotbeds, coldframes, or similar plots or to storage houses, packing sheds, or stores treated or otherwise safeguarded in manner and method satisfactory to the inspector.

(j) *Inspector.* An inspector of the United States Department of Agriculture.

(k) *Moved interstate.* Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved or allowed to be moved from one State or Territory or District of the United States into or through any other State or Territory or District.

(l) *Certificate.* A valid form evidencing compliance with the requirements of these regulations as to movement of restricted articles to points outside the regulated areas.

(m) *Permit.* A valid form authorizing movement of restricted articles from a regulated area to a restricted destination in a separate regulated area.*

Limitation of Restrictions

§ 301.48–2 *Limitation of restrictions to regulated areas.* Conditioned upon the compliance on the part of the State concerned with the provisos to § 301.48, the restrictions provided in these regulations on the interstate movement of plants and plant products and other articles enumerated in said § 301.48 will be limited to such movement from the areas in such State now or hereafter designated by the Secretary of Agriculture as regulated areas.*

Areas Under Regulation

§ 301.48–3 *Regulated areas.* In accordance with the provisos to § 301.48, the Secretary of Agriculture designates as regulated areas for the purpose of these regulations the States, District, counties, townships, towns, cities, election districts, and magisterial districts listed below, including all cities, towns, boroughs, or other political subdivisions within their limits:

Changes in Regulated Areas

§ 301.48–4 *Extension or reduction of regulated areas.* The regulated areas designated in § 301.48–3 may be extended or reduced as may be found advisable by the Secretary of Agriculture. Due notice of any extension or reduction and the areas affected thereby will be given in writing to the transportation companies doing business in or through the States in which such areas are located and by publication in one or more newspapers selected by the Secretary of Agriculture within the States in which the areas affected are located.[*]

Movement of Fruits and Vegetables

§ 301.48–5 *Restrictions on the movement of fruits and vegetables*—(a) *Control of movement.* (1) Unless a certificate shall have been issued therefor, by an inspector, except as provided in subdivisions (i) to (iv), inclusive, of this section, no fruits or vegetables of any kind shall be moved interstate via refrigerator car or motortruck from any of the areas listed below to or through any point outside the regulated areas:

Delaware. The entire State.

District of Columbia. The entire District.

Maryland. Counties of Baltimore, Cecil, Harford, Kent, Queen Annes, Somerset, and Worcester; election districts Nos. 3, 4 and 5, in *Anne Arundel County;* the city of Baltimore; all of *Caroline County* except election districts of American Corners (No. 8), and Hillsboro (No. 5); election districts of Cambridge (No. 7), East New Market (No. 2), Hurlock (No. 15), and Williamsburg (No. 12), in *Dorchester County;* election districts of Elk Ridge (No. 1), and Ellicott City (No. 2), in *Howard County;* election districts of Camden (No. 13), Delmar (No. 11), Dennis (No. 6), Fruitland (No. 16), Nutters (No. 8), Parsons (No. 5), Pittsburg (No. 4), Salisbury (No. 9), Trappe (No. 7), and Willard (No. 14), and the town of Salisbury, in *Wicomico County.*

New Jersey. Counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Essex, Gloucester, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Salem, Somerset, and Union; townships of Lodi, Lyndhurst, Overpeck, Rochelle Park, Saddle River, and Teaneck, the cities of Englewood, Garfield, and Hackensack, and the boroughs of Bogota, Carlstadt, Cliffside Park, East Paterson, East Rutherford, Edgewater, Englewood Cliffs, Fair Lawn, Fairview, Fort Lee, Glenn Rock, Hasbrouck Heights, Leonia, Little Ferry, Lodi, Maywood, Moonachie, North Arlington, Palisades Park, Ridgefield, Rutherford, Teterboro, Wallington, and Wood Ridge, in *Bergen County;* townships of Chatham, Chester, Denville, East Hanover, Hanover, Harding, Menham, Morris, Morristown, Parsippany-Troy Hills, Passaic, Randolph, and Washington, and the boroughs of Chatham, Florham Park, Madison, Mendham, and Morris Plains, in *Morris County;* township of Little Falls, the cities of Clifton, Passaic, Paterson, and the boroughs of Haledon, Hawthorne, North Haledon, Prospect Park, Totowa, and West Paterson, in *Passaic County;* townships of Franklin, Greenwich, Lopatcong, Mansfield, Phillipsburg, Popatcong, and Washington, and the boroughs of Alpha and Washington, in *Warren County.*

Pennsylvania. Counties of Bucks, Chester, Delaware, Lancaster, Montgomery, and Philadelphia; all of *Berks County* except the townships of Albany, Bethel, Centre, Greenwich, Jefferson, Marion, North Heidelberg, Penn, Parry, Tilden, Tulpehocken, Upper Bern, Upper Tulpehocken, and Windsor, and the boroughs of Bernville, Centreport, Hamburg, Lenhartsville, Shoemakersville, Strausstown, and West Leesport; townships of Lower Allen and Upper Allen, and boroughs of Lemoyne, Mechanicsburg, and New Cumberland, in *Cumberland County;* townships of Londonderry, Lower Paxton, Lower Swatara, Susquehanna, and Swatara, the city of Harrisburg, and the boroughs of Highspire, Middletown, Paxtang, Penbrook, Royalton, and Steelton, in *Dauphin County;* all of *Lehigh County* except the townships of Heidelberg, Lowhill, Lynn, Washington, and Weisenberg, and borough of Slatington; all of *Northampton County* except the townships of Bushkill, Lehigh, Moore, Plainfield, Upper Mount Bethel, and Washington, and boroughs of Bangor, Chapman, East Bangor, Pen Argyl, Portland, Roseto, Stockertown, Walnutport, and Wind Gap; and the townships of Chanceford, Conewago, East Hopewell, East Manchester, Fairview, Fawn, Hellam, Hopewell, Lower Chanceford, Lower Windsor, Manchester, Newberry, Peach Bottom, and Springetsbury, the city of York, and the boroughs of Cross Roads, Delta, East Prospect, Fawn Grove, Goldsboro, Hallam, Lewisberry, Manchester, Mount Wolf, North York, Stewartstown, Wrightsville, Yorkana, and York Haven in *York County.*

Virginia. Counties of Accomac, Arlington, and Northampton.

Provided, That shipments of fruits and vegetables moving interstate from the area specified in paragraph (a) (1) of this section to other points in the regulated area and subsequently diverted to points outside the regulated area, shall be regarded as direct shipments from the point of origin. As such they require certification:

Provided further, That the Chief of the Bureau of Entomology and Plant Quarantine may by administrative instructions extend or reduce the areas specified in this section when in his judgment such action is considered advisable.

(i) No restrictions are placed on the interstate movement of fruits and vegetables between October 16 and June 14, inclusive, except that in the case of movement interstate from the following areas, the exemption applies only during the period from October 16 to May 31, inclusive:

Virginia. The counties of Accomac and Northampton.

(ii) No certificate or permit will be required for the interstate movement of fruits and vegetables when transported by a common carrier on a through bill of lading either from a point outside the area designated in this section through that area to another outside point, or from the area designated in this section through a nonregulated area to another regulated area, except that a certificate is required for interstate movement from the area specified in paragraph (a) (1) of this section to Toledo, Ohio, and Charlottesville and Winchester, Va.

(iii) No restrictions are placed on the interstate movement of fruits and vegetables when they shall have been manufactured or processed in such a manner that in the judgment of the inspector no infestation could be transmitted.

(iv) No restrictions are placed on the interstate movement of fruits and vegetables from the area listed in paragraph (a) (1) of this section to the remainder of the regulated area, other than as specified in subdivision (ii) of this paragraph.

(b) *Conditions of certification.*—Certificates may be issued for the interstate movement of fruits and vegetables between June 15 and October 15, inclusive (or between June 1 and October 15, inclusive, when consigned from Accomac County or Northampton County, Va.) under one of the following conditions:

(1) When the fruits and vegetables moving by motortruck have actually been inspected by the United States Department of Agriculture and found free from infestation. The number of inspection points for such certification will be limited and their location determined by shipping needs and further conditioned on the establishment at such points of provisions satisfactory to the inspector for the handling and safeguarding of such shipments during inspection. Such inspection may be discontinued and certification withheld by the inspector during periods of general or unusual flight of the beetles.

(2) When the fruits and vegetables have been handled or treated under the observation of an inspector in manner and by method to free them from any infestation.

(3) When the fruits and vegetables have originated outside the areas designated in this section, and are to be reshipped directly from freight yards, transfer points, or unloading docks within such areas, under provisions satisfactory to the inspector for safeguarding of such shipments pending certification and reshipment. Certificates on this basis will be issued without inspection only in cases where, in the judgment of the inspector, the shipments concerned have not been exposed to infestation while within such freight yards, transfer points, or unloading docks.

(4) When the fruits and vegetables were grown in districts where the fact has been established to the satisfaction of the inspector that no infestation exists and are to be shipped directly from the farms where grown to points outside the areas designated in paragraph (a) (1) of this section, or are shipped from infested districts where the fact has been established to the satisfaction of the inspector that the Japanese beetle has not begun or has ceased its flight.

(5) When the fruits and vegetables moving via refrigerator car from the area designated in this section have been inspected and loaded in a manner to prevent infestation, in a refrigerator car with closed or adequately screened doors and hatches, which car prior to loading has been determined by an inspector as fumigated or thoroughly swept and cleaned by the common carrier in a manner to rid it of infestation. During the interval between fumigation or cleaning and loading, such refrigerator car must be tightly closed and sealed. (For further requirements on the cleaning of refrigerator cars, see § 301.48–13.)

(6) When the fruits and vegetables moving via refrigerator car from the area designated in this section have been fumigated in the car, when deemed necessary in the judgment of the inspector, and when the doors and hatches of the car have been tightly closed or adequately screened under the supervision of an inspector.[*]

Movement of Nursery and Ornamental Stock

§ 301.48–6 *Restrictions on the movement of nursery and ornamental stock.* (a) *Control of movement.* Nursery and ornamental stock as defined in § 301.48–1 shall not be moved interstate from the regulated areas to or through any point outside thereof, unless a certificate or permit shall have been issued therefor by the inspector except as follows:

(1) The following articles, because of their growth or production, or their manufactured or processed condition, are considered innocuous as carriers of infestation and are, therefore, exempt from the requirements of certification.

(i) True bulbs, corms, and tubers, when dormant, except for storage growth, and when free from soil; and single dahlia tubers or small dahlia root divisions when free from stems, cavities, and soil. Dahlia tubers, other than single tubers or small root divisions meeting these conditions, require certification.

(ii) Cut orchids; orchid plants when growing exclusively in Osmunda fiber; Osmunda fiber, Osmundine, or orchid peat (*Osmunda cinnamomea* and *O. claytoniana*).

(iii) (*a*) Floral designs or "set pieces," including wreaths, sprays, casket covers and all formal florists' designs; bouquets and cut flowers not so prepared are not exempted; (*b*) trailing arbutus, or Mayflower (*Epigaea repens*), when free from soil, and when shipped during the period between October 16 and June 14, inclusive.

(iv) (*a*) Herbarium specimens, when dried, pressed, and treated; (*b*) mushroom spawn, in brick, flake, or pure culture form.

(v) (*a*) Sheet moss (*Calliergon schriberi* and *Thuridium recognition*); (*b*) resurrection plant or bird's-nest moss (*Selaginella lepidophylla*); (*c*) sphagnum moss, bog moss, or peat moss (*Sphagnaceae*); (*d*) dyed moss.

(vi) Soil-free dried roots incapable of propagation.

(vii) Soil-free rooted cuttings.

(2) No restrictions are placed on the interstate movement of nursery and ornamental stock imported from foreign countries when reshipped from the port of entry in the unopened original container and labeled as to each container with a copy certificate of the country from which it was exported, a statement of the general nature and quantity of the contents, the name and address of the consignee, and the country and locality where grown.

(3) No restrictions are placed on the interstate movement of soil-free aquatic plants, and of portions of plants without roots and free from soil, except that a certificate is required during the period June 15 to October 15, inclusive (or between June 1 and October 15, inclusive, when consigned from Accomac County or Northampton County, Va.), for the movement of cut flowers from the area designated in § 301.48–5 interstate to points outside the regulated areas (§ 301.48–3).

(4) No certificate or permit will be required for the interstate movement of nursery and ornamental stock when transported by a common carrier on a through bill of lading either from an area not under regulation through a regulated area, or from a regulated area through a nonregulated area to another regulated area.

(b) *Conditions governing the issuance of certificates and permits.* For the purpose of certification of nursery and ornamental stock, nurseries, greenhouses, and other premises concerned in the movement of such stock will be classified as follows:

(1) *Class I.* Nurseries, greenhouses, and other premises concerned in the movement of nursery and ornamental stock on or within approximately 500 feet of which no infestation has been found may be classified as class I. Upon compliance with the requirements of paragraph (b) (7) of this section nursery and ornamental stock may be certified by the inspector for shipment from such premises without further inspection, and without meeting the safeguards

prescribed as a condition of interstate shipment of plants originating in nurseries or greenhouses of class III.

(2) *Class III.* (i) Nurseries, greenhouses, and other premises concerned in the movement of nursery and ornamental stock on which either grubs in the soil or one or more beetles have been found, will be classified as class III, provided there are maintained on the premises subdivided class I areas, certified houses, frames, or plots or other certified areas. Such classification will not be granted to nurseries, greenhouses, and other premises that do not maintain certified or subdivided areas and require only infrequent certification. Such classification also may be given to nurseries, etc., where one or more beetles or grubs are found in the immediate proximity (within approximately 500 feet) of such nurseries, etc., on adjacent property or properties. In the case of nursery properties under single ownership and management but represented by parcels of land widely separated, such parcels may be independently classified either as class I or class III upon compliance with such conditions and safeguards as shall be required by the inspector. Similarly, unit nursery properties, which would otherwise fall in class III, may be open to subdivision, for the purpose of rating such subdivisions in classes I or III, when in the judgment of the inspector such action is warranted by scanty infestation limited to a portion of the nursery concerned: *Provided*, That the subdivision containing the infestation shall be clearly marked by boundaries of a permanent nature which shall be approximately 500 feet beyond the point where the infestation occurs.

(ii) Upon compliance with paragraphs (b) (3), (6), and (7) of this section, nursery and ornamental stock may be certified by the inspector for shipment from such premises under any one of the following conditions: (*a*) That the roots shall be treated by means approved by the Bureau of Entomology and Plant Quarantine in manner and by method satisfactory to the inspector; or (*b*) in the case of plants in which the root system is such that a thorough inspection may be made, that the soil shall be entirely removed from the stock by shaking or washing; or (*c*) that it shall be shown by evidence satisfactory to the inspector that the plants concerned were produced in a certified greenhouse.

(3) Greenhouses of class III may be certified upon compliance with all the following conditions with respect to the greenhouses themselves and to all potting beds, heeling-in areas, hotbeds, coldframes, and similar plots:

(i) Ventilators, doors, and all other openings in greenhouses or coldframes on premises in class III shall be kept screened in manner satisfactory to the inpector during the period of flight of the beetle, namely, south of the northern boundaries of Maryland and Delaware between June 1 and October 1, inclusive, or north thereof between June 15 and October 15, inclusive.

(ii) Prior to introduction into nurseries or greenhouses, sand, if contaminated with vegetable matter, soil, earth, peat, compost, or manure taken from infested locations or which may have been exposed to infestation, must be sterilized or fumigated under the direction and supervision of, and in manner and by method satisfactory to the inspector. If such sand, soil, earth, peat, compost, or manure is not to be immediately used in such greenhouses, it must be protected from possible infestation in manner and by method satisfactory to the inspector.

(iii) All potted plants placed in certified greenhouses of class III and all potted plants to be certified for interstate movement therefrom (*a*) shall be potted in certified soil; (*b*) shall, if grown outdoors south of the northern boundaries of Maryland and Delaware at any time between June 1 and October 1, inclusive, or north thereof at any time between June 15 and October 15, inclusive, be kept in screened frames while outdoors; (*c*) shall, if grown outdoors during any part of the year, be placed in beds in which the soil or other material shall have been treated in manner and by method approved by the Bureau of Entomology and Plant Quarantine to eliminate infestation; and (*d*) shall comply with such other safeguards as may be required by the inspector.

(4) Cut flowers may be certified for movement either (i) when they have been inspected by an inspector and found free from infestation, or (ii) when they have been grown on a class I establishment or in a certified greenhouse of class III and are transported under such safeguards as will in the judgment of the inspector prevent infestation. (See also paragraph (a) (3) of this section.)

(5) Nursery and ornamental stock originating on or moved from unclassified premises may be certified by the inspector under either one of the following conditions: (i) That the soil shall be entirely removed from the stock, or (ii) that the roots shall be treated by means approved by the Bureau of Entomology and Plant Quarantine in manner and by method satisfactory to the inspector, or (iii) that it shall be shown by evidence satisfactory to the inspector that the accompanying soil was obtained at such points and under such conditions that in his judgment no infestation could exist therein.

(6) Nurserymen, florists, dealers, and others, in order to maintain a class III status, shall report immediately on forms provided for that purpose all their sales or shipments of nursery and ornamental stock, sand, if contaminated with vegetable matter, soil, earth, peat, compost, and manure both to points outside the regulated areas and to other classified nurseries or greenhouses within the regulated area. Certification may be denied to any person who has omitted to make the report required by this section, and such denial of certification shall continue until the information so omitted has been supplied.

(7) Nurserymen, florists, dealers, and others, in order to maintain a class I status, or to maintain in a class III establishment, a class I subdivision, a certified plot, or a certified greenhouse, (i) shall restrict their purchases or receipts of nursery and ornamental stock, sand, if contaminated with vegetable matter, soil, earth, peat, compost, and manure, secured within the regulated area and intended for use on class I or certified premises, to articles which have been certified under these regulations as to each such article and the said certificate shall accompany the article when moved; (ii) shall obtain approval of the inspector before such articles are received on class I or certified premises or are taken into certified greenhouses; (iii) shall report immediately in writing all purchases or receipts of such articles secured from within the regulated area for use on such premises; and (iv) shall also report immediately on forms provided for that purpose all their sales or shipments of such articles both to points outside the regulated areas and to other classified nurseries or greenhouses within the regulated areas. Certification may be denied to any person who has omitted to make the report or reports required by this section, and such denial of certification shall continue until the information so omitted has been supplied.

(8) Nursery and ornamental stock imported from foreign countries and not reshipped from the port of entry in the unopened original container may be certified for movement under these regulations when such stock has been inspected by an inspector and found free from infestation.

(9) Nursery and ornamental stock originating outside the regulated areas and certified stock originating in classified nurseries or greenhouses may be certified for reshipment from premises other than those on which they originated, under provisions satisfactory to the inspector for the safeguarding of such stock from infestation at the point of reshipment and en route and when found advisable by the inspector after reinspection and determination of freedom from infestation.*

Movement of Soil and Similar Materials

§ 301.48–7 *Restrictions on the movement of sand, soil, earth, peat, compost, and manure*—(a) *Control of movement.* Sand, soil, earth, peat, compost, and manure shall not be moved interstate from any point in the regulated areas to or through any point outside thereof unless a certificate or permit shall have been issued therefor by the inspector, except as follows:

(1) No restrictions are placed on the interstate movement of (i) fresh manure; (ii) sand and clay when free from vegetable matter; (iii) greensand marl; and (iv) such other sands and clays as have been treated or processed and subsequently handled in such manner that in the judgment of the inspector no Japanese beetle could exist therein.

(2) No restrictions are placed on the *interstate movement of manure, peat, compost, or humus* (i) *when dehydrated, shredded, ground, pulverized, or compressed, or* (ii) *when treated with crude petroleum or any other product having high potency as an insecticide.*

(3) No restrictions are placed on the interstate movement of sand, soil, earth, peat, compost, and manure imported from foreign countries when reshipped from the port of entry in the unopened original container and labeled as to each container with the country of origin, and when the shipment is further protected in manner or method satisfactory to the inspector.

(4) No certificate will be required for the interstate movement of sand, soil, earth, peat, compost, and manure when transported by a common carrier on a through bill of lading either from an area not under regulation through a regulated area, or from a regulated area through a nonregulated area to another regulated area.

(b) *Conditions of certification.* Certificates for the movement of restricted sand, soil, earth, peat, compost, and manure may be issued under any one of the following conditions:

(1) When the articles to be moved have originated in districts included in the regulated area, but in which neither beetles nor grubs in soil have been found.

(2) When the material consists of mined, dredged, or other similar materials, and it has been determined by an inspector that no infestation could exist therein.

(3) When the material has been removed, under the supervision of an inspector, from a depth of more than 12 inches below the surface of the ground and either (i) is to be moved between October 16 and June 14, inclusive, or (ii) is loaded and shipped at points where it has been determined by an inspector that no general infestation of adult beetles exists, or (iii) when the cars and loading operations are protected by screening under the direction of and in manner and by method satisfactory to the inspector.

(4) When the material has been fumigated with carbon disulfide or otherwise treated under the supervision of and in manner and by method satisfactory to the inspector. Such fumigation or treatment will be required as a condition of certification of all restricted sand, soil, earth, peat, compost, and manure, except such as is loaded and shipped in compliance with subparagraphs (1), (2), or (3) of this paragraph.*

Protection of Articles in Transit

§ 301.48–8 *Conditions governing the protection of restricted articles from infestation while in transit.* Fruits and vegetables, nursery and ornamental stock, and sand, soil, earth, peat, compost, and manure, moving interstate from or through the regulated areas to points outside thereof between June 15, and October 15, inclusive, shall at all times while they are in the regulated areas be screened, covered, or otherwise protected in manner or method satisfactory to the inspector for safeguarding the articles from infestation.

Trucks or other road vehicles transporting restricted articles may be sealed by the inspector at the point of inspection, and all such seals shall remain intact as long as the vehicle is en route within the regulated area.*

Marking and Certification

§ 301.48–9 *Marking and certification a condition of interstate transportation.* (a) Every box, basket, or other container of restricted articles listed in §§ 301.48–5, 6, and 7 shall be plainly marked with the name and address of the consignor and the name and address of the consignee, and shall have securely attached to the outside thereof a valid certificate or permit issued in compliance with these regulations. In the case of lot shipments by freight, one certificate attached to one of the containers and another certificate attached to the waybill will be sufficient.

(b) In the case of bulk carload shipments by rail, the certificate shall accompany the waybill, conductor's manifest, memorandum, or bill of lading pertaining to such shipment, and in addition each car shall have securely attached to the outside thereof a placard showing the number of the certificate or certificates accompanying the waybill.

(c) In the case of shipment by road vehicle, the certificates shall accompany the vehicle.

(d) Certificates shall be surrendered to the consignee upon delivery of the shipment.*

Procedure for Applicants

§ 301.48–10 *General conditions governing inspection and issuance of certificates and permits.* (a) Persons intending to move interstate any of the articles the movement of which is restricted in §§ 301.48–5, 6, and 7, shall make application for inspection and certification as far as possible in advance of the probable date of shipment, specifying in the application the article and quantity to be shipped, method of shipment, name and address of the consignor, and name and address of the consignee.

(b) Applicants for inspection will be required to assemble the articles at such points as the inspector shall designate and so to place them that inspection may readily be made; if not so placed, inspection may be refused. All charges for storage, cartage, and labor incident to inspection, other than the services of the inspector, shall be paid by the shipper.

(c) Certificates and permits shall be used in connection with the transportation of only those articles intended to be covered thereby.

(d) Where the apparent absolute freedom from infestation of any of the articles enumerated cannot be determined by the inspector, certification will be refused.

(e) Permits may be issued for the interstate movement of restricted articles by truck or other road vehicle from a regulated area through a nonregulated area to another regulated area, except for the movement of fruits and vegetables as specified in paragraph (a) (1) (ii) of § 301.48–5.*

Certificates May Be Canceled

§ 301.48–11 *Cancelation of certificates.* Certificates issued under these regulations may be withdrawn or canceled by the inspector and further certification refused, either for any failure of compliance with the conditions of these regulations or violation of them, or whenever in the judgment of the inspector the further use of such certificates might result in the dissemination of infestation.*

Shipments Inspected en Route

§ 301.48–12 *Inspection in transit.* Any car, vehicle, basket, box, or other container moved interstate or offered to a common carrier for shipment interstate, which contains or which the inspector has probable cause to believe contains either infestations, infested articles, or articles the movement of which is restricted by these regulations, shall be subject to inspection by an inspector at any time or place, and when actually found to involve danger of dissemination of Japanese beetle to uninfested localities, measures to eliminate infestation may be required as a condition of further transportation or delivery.*

Cleaning of Vehicles

§ 301.48–13 *Thorough cleaning required of trucks, wagons, cars, boats, and other vehicles and containers before moving interstate.* Trucks, wagons, cars, boats, and other vehicles and containers which have been used in transporting any article covered by these regulations within the regulated areas shall not thereafter be moved interstate until they have been thoroughly swept and cleaned by the carrier at a point within the regulated area. Refrigerator cars originating in the area designated in § 301.48–5 into which fruits or vegetables are to be loaded for interstate movement from any regulated area shall be thoroughly swept or cleaned or fumigated prior to loading as may be required by the inspector.*

Articles for Experimental and Scientific Purposes

§ 301.48–14 *Shipments for experimental and scientific purposes.* Articles subject to restriction in these regulations may be moved interstate for experimental or scientific purposes, on such conditions and under such safeguards as may be prescribed by the Bureau of Entomology and Plant Quarantine. The container of articles so moved shall bear, securely attached to the outside thereof, an identifying tag from the Bureau of Entomology and Plant Quarantine showing compliance with such conditions.*

Chapter I—Bureau of Animal Industry

[Amendment 16 to B. A. I. Order 276]

PART 101—GENERAL PROVISIONS AND RULES OF PRACTICE

PART 118—HOG-CHOLERA VIRUS

PART 119—ANTI-HOG-CHOLERA VIRUS

MISCELLANEOUS AMENDMENTS

Pursuant to the authority conferred upon the Secretary of Agriculture by section 2 of the act of Congress approved February 2, 1903 (32 Stat. 792; 21 U.S.C. 111), and by the act of Congress approved March 4, 1913 (37 Stat. 832–833; 21 U.S.C. 151–158), and in order better to effectuate the purposes of these acts, Title 9, Code of Federal Regulations, Parts 101–119 [B.A.I. Order 276, August 18, 1922], as amended, is hereby further amended as follows:

(1) By adding to § 101.1 [sec. 1, reg. 1] a paragraph reading as follows:

§ 101.1 *Definitions.*

• • • • • •

(u) *Twenty-four hours.* Time elapsing between any regular working hour of one day and any regular working hour of the following day. [Par. 22]

(2) By revoking § 118.17 [par. 1, sec. 3, reg. 18], and substituting in lieu thereof the following section:

§ 118.17 *Simultaneous virus pigs; requirements.* For use in the production of simultaneous virus, licensed establishments shall inoculate young non-immune pigs of good quality with at least 2 cubic centimeters each of highly virulent virus. Such pigs when inoculated shall weigh not less than 40 pounds, nor more than 125 pounds.

(3) By revoking paragraph (b) of § 119.36 [Rule D, par. 2, sec. 5, reg. 19], as amended, and substituting in lieu thereof the following:

§ 119.36 *Rules for disposing of tested anti-hog-cholera serum.*

• • • • • •

(b) *Test; conditions under which to be declared "satisfactory for potency."* A serum test will be declared "satisfactory for potency" when at least two of the control pigs react as described in paragraph (a) and any one of the following conditions obtains:

(1) When all the serum-treated pigs remain well throughout the test period.

(2) When one or more of the serum-treated pigs become visibly sick after the time of inoculation and all fully recover before the test animals are released by a veterinary inspector, as provided in this part. Such sick pigs, however, will not be regarded as fully recovered until they have been in an apparently normal condition for at least three consecutive days.

This amendment, which for purpose of identification is designated Amendment 16 to B.A.I. Order 276, shall be effective on and after March 24, 1942.

Done at Washington this 21st day of March 1942. Witness my hand and the seal of the Department of Agriculture.

Chapter I—Civil Aeronautics Board

[Regulations, Serial Number 210]

PART 04—AIRPLANE AIRWORTHINESS

SPECIAL REGULATION, AUTHORIZING ADMINISTRATOR TO PERMIT AN AIR CARRIER TO EXCEED GROSS WEIGHT LIMITATIONS NECESSITATED BY WAR

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 14th day of March, 1942.

The Civil Aeronautics Board finding that its action herein is necessary to the successful prosecution of the war effort and acting pursuant to the Civil Aeronautics Act of 1938, particularly sections 205 (a), 601 (a) and 604 thereof, makes and promulgates the following special regulation:

Notwithstanding any provisions of the Civil Air Regulations to the contrary, the Administrator may in his discretion in particular instances permit an air carrier when engaged in overseas or foreign air transportation, other than foreign air transportation between any place in the United States and a place in the Dominion of Canada, to exceed the gross weight limitations now specified in its air carrier operating certificate and in the airworthiness certificates of its aircraft: *Provided*, That in any such instance the transportation of all cargo and passengers is necessary to the prosecution of the war effort or the preservation of life.

[Amendment No. 5 of Part 285]

PART 285—RULES OF PRACTICE

OBJECTION TO THE PUBLIC DISCLOSURE OF INFORMATION

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 16th day of March, 1942.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1933, as amended, particularly sections 205 (a) and 1104 thereof, and finding that its action is desirable in the public interest and is necessary to carry out the provisions of, and to exercise and perform its powers and duties under said Act, hereby makes and promulgates the following regulation:

Effective March 26, 1942, Part 285 of the Economic Regulations is amended by adding thereto § 285.12 [Rule 12] to read as follows:

§ 285.12 *Objection to public disclosure of information*—(a) *Information contained in paper to be filed.* Any person who objects to the public disclosure of any information contained in any paper filed in any proceeding, or in any application, report, or other document filed pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, or any rule, regulation, or order of the Board thereunder, shall segregate, or request the segregation of, such information into a separate paper and shall file it, or request that it be filed, with the examiner or the person conducting the hearing or proceeding, as the case may be, or with the person with whom said application, report, or document is required to be filed, separately in a sealed envelope, bearing the caption of the enclosed paper and the notation "Confidential Information". At the time of filing such paper, or, when the objection is made by a person not himself filing the paper, application, report or other document, within five days after the filing of such paper, the objecting party shall file a motion to withhold the information from public disclosure, in accordance with the procedure outlined in paragraph (d) of this section, except as hereinafter provided in paragraph (c). Notwithstanding any other provision of this section, copies of the filed paper and of the motion need not be served upon any other party unless so ordered by the Board.

(b) *Information contained in oral testimony.* Any person who objects to the public disclosure of any information sought to be elicited from a witness or deponent on oral examination shall, before such information is disclosed, make his objection known. Upon such objection duly made, the witness or deponent shall be compelled to disclose such information only in the presence of the examiner or the person before whom the deposition is being taken, as the case may be, the official stenographer and one attorney for and one lay representative of each party, (unless the objection to disclosure specifies that certain of the parties shall not be present, in which case the examiner or person before whom the deposition is being taken, as the case may be, shall designate the persons who may be present when the information is recorded), and after all present have been sworn to secrecy. The transcript of testimony containing such information shall be segregated and filed in a sealed envelope, bearing the title and docket number of the proceeding, and the notation "Confidential Testimony Given By (name of witness or deponent)." Within five days after such testimony is given, the objecting person shall file a motion, except as hereinafter provided in paragraph (c), in accordance with the procedure outlined in paragraph (d) of this section, to withhold the information from public disclosure. Notwithstanding any other provision of this section, copies of the segregated portion of the transcript and of the motion need not be served upon any other party unless so ordered by the Board.

(c) *Objection by governmental departments or representatives thereof.* In the case of objection to the public disclosure of any information filed by or elicited from any governmental department, or representative thereof, under paragraphs (a) or (b) of this section, the department, or person representing said department, making such objection shall be exempted from the provisions of paragraphs (a), (b), and (d) of this section in so far as said subsections require the filing of a written objection to such disclosure. However, any department, or person representing said department, if it so desires, may file a memorandum setting forth the reasons on the basis of which it is claimed that a public disclosure of the information should not be made. If such a memorandum is submitted, it shall be filed and handled as is provided by this Rule of Practice in the case of a motion to withhold information from public disclosure.

(d) *Form of motion to withhold information from public disclosure.* Subject to the exception of paragraph (c), no information covered by paragraphs (a) and (b) of this section need be withheld from public disclosure unless written objection to such disclosure is filed with the Board in accordance with the following procedure:

(1) The motion shall be headed with the title and docket number of the proceeding and shall be signed and verified by the objecting person, any duly authorized officer or agent thereof, or by counsel representing such person in the proceeding.

(2) The motion shall include (i) a description of the information sought to be withheld, sufficient for identification of the same, and (ii) a full statement of the reasons on the basis of which it is claimed that a public disclosure of the information would adversely affect the interests of the objecting person and is not required in the interest of the public, or that the information is of a secret nature affecting the national defense.

(3) Such motion shall be filed with the examiner or the person conducting the hearing or proceeding, as the case may be, or with the person with whom said application, report, or document is required to be filed.

(e) *Motion referred to the Board.* The order of the Board containing its ruling upon each such motion will specify the extent to which, and the conditions upon which, the information may be disclosed to the parties and to the public, unless, within five days after the date of the entry of the Board's order with respect thereto, a petition is filed by the objecting person requesting reconsideration by the Board, or a written and verified statement is filed indicating that the

[2] Acting pursuant to authority delegated by the Secretary of Agriculture under the Act of April 4, 1940 (54 Stat. 81; 6 F.R. 5192).

objecting person in good faith intends to seek judicial review of the Board's order.

(f) *Objection in proceeding before the Board.* Notwithstanding any of the provisions of any section or subsection of this Rule of Practice, whenever the objection to disclosure of information shall have been made, in the first instance, before the Board itself, the written motion of objection contemplated by paragraphs (a), (b), and (d) of this section shall not be necessary, but may be submitted if the parties so desire or if the Board, in a particular case, shall so direct.

By the Board.

[Docket No. 4593]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF INGENUITIES CORPORATION OF AMERICA, ET AL.

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.7 *Aiding, assisting and abetting unfair or unlawful act or practice:* § 3.55 *Furnishing means and instrumentalities of misrepresentation or deception:* § 3.66 (a7) *Misbranding or mislabeling—Composition:* § 3.96 (a) *Using misleading name—Goods—Composition.* In connection with the use of or the licensing of the use of the trade-mark "Silkallo", or the use of any other word or words of similar import or meaning indicative of silk, for use in designating necktie, fabrics or any other similar products offered, etc., in commerce, and on the part of respondent Ingenuities Corporation of America, its officers, etc., and among other things, as in order set forth, (1) using or authorizing the use of the unqualified term "silk" or any other term or terms of similar import or meaning indicative of silk to describe or designate any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm; and (2) using or authorizing the use of the term "Duo-Silk-Allo" or any other term of similar import or meaning to describe, designate or refer to any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm; prohibited, subject to the provision, however, as respects said first prohibition, that in the case of a fabric or product composed in part of silk and in part of materials other than silk such term or terms may be used as descriptive of the silk content if there are used in immediate connection or conjunction therewith in letters of at least equal size and conspicuousness words truthfully describing and designating each constituent fiber thereof. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Supp. IV, sec. 45b) [Cease and desist order, Ingenuities Corporation of America, et al., Docket 4593, March 13, 1942]

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.66 (a 7) *Misbranding or mislabeling—Composition:* § 3.71 (a) *Neglecting, unfairly or deceptively, to make material disclosure—Composition:* § 3.96 (a) *Using misleading name—Goods—Composition.* In connection with the offer, etc., in commerce, of neckties and other similar merchandise, and on the part of respondents Goldberg, Squire, Lesser and Cohen, Inc., and T. P. McCutcheon and Brother, Inc. (licensees of respondent Ingenuities Corporation of America), and on the part of their officers, etc., and among other things, as in order set forth, (1) using the unqualified term "silk", or any other term or terms of similar import or meaning indicative of silk, to describe or designate any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm; (2) using the term "Duo-Silk-Allo", or any other term of similar import or meaning, on labels or otherwise to describe, designate or refer to any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm; and (3) advertising, offering for sale, or selling neckties or other products composed in whole or in part of rayon without clearly disclosing the fact that such fabrics or products are composed of rayon; prohibited, subject to provision, however, as respects said first prohibition above set forth, that in the case of a fabric or product composed in part of silk and in part of materials other than silk, such term or similar terms may be used as descriptive of the silk content, if there are used in immediate connection and conjunction therewith in letters of at least equal size and conspicuousness words truthfully describing and designating each constituent fiber thereof; and subject to further provision as respects said third prohibition above set forth, that when such fabrics or products are composed in part of rayon and in part of other fibers or materials, such fibers or materials, including rayon, shall be named in letters of equal size and conspicuousness by words truthfully describing and designating each constituent fiber and material thereof; such disclosure of the fiber content of such fabrics or products to be made by accurately designating and naming each constituent fiber thereof in the order of its predominance by weight, beginning with the largest single constituent. (Sec. 5, 38 Stat. 719, as amended by Sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Ingenuities Corporation of America, et al., Docket 4593, March 13, 1942]

In the Matter of Ingenuities Corporation of America, a Corporation, Goldberg, Squire, Lesser and Cohen, Inc., a Corporation, and T. P. McCutcheon and Brother, Inc., a Corporation.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 13th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answers of the respondents, in which answers respondents admit all of the material allegations of fact set forth in said complaint, and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent Ingenuities Corporation of America, a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the use of or the licensing of the use of the trade mark "Silkallo" or the use of any other word or words of similar import or meaning indicative of silk for use in designating neckties, fabrics or any other similar products offered for sale, sold or distributed in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Using or authorizing the use of the unqualified term "silk" or any other term or terms of similar import or meaning indicative of silk to describe or designate any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm: *Provided, however*, That in the case of a fabric or product composed in part of silk and in part of materials other than silk such term or terms may be used as descriptive of the silk content if there are used in immediate connection or conjunction therewith in letters of at least equal size and conspicuousness words truthfully describing and designating each constituent fiber thereof;

(2) Using or authorizing the use of the term "Duo-Silk-Allo" or any other term of similar import or meaning to describe, designate or refer to any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm.

It is further ordered, That the respondents, Goldberg, Squire, Lesser and Cohen, Inc., a corporation, and T. P. McCutcheon and Brother, Inc., a corporation, their officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of neckties and other similar merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Using the unqualified term "silk", or any other term or terms of similar import or meaning indicative of silk, to describe or designate any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm: *Provided, however*, That in the case of a fabric or product composed in part of silk and in part of materials other than silk, such term or similar terms may be used as descriptive of the silk content, if there are used in immediate connection and conjunction therewith in letters of at least equal size and conspicuousness words truthfully describing and designating each constituent fiber thereof;

(2) Using or authorizing the use of the term "Duo-Silk-Allo", or any other term of similar import or meaning, on labels or otherwise to describe, designate or refer to any fabric or product which is not composed wholly of silk, the product of the cocoon of the silkworm;

(3) Advertising, offering for sale, or selling neckties or other products composed in whole or in part of rayon without clearly disclosing the fact that such fabrics or products are composed of rayon, and when such fabrics or products are composed in part of rayon and in part of other fibers or materials, such fibers or materials, including rayon, shall be named in letters of equal size and conspicuousness by words truthfully describing and designating each constituent fiber and material thereof; and such disclosure of the fiber content of such fabrics or products shall be made by accurately designating and naming each constituent fiber thereof in the order of its predominance by weight, beginning with the largest single constituent.

It is further ordered, That the respondent shall within sixty (60) days after the service upon them of this order file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

TITLE 20—EMPLOYEES' BENEFITS

Chapter II—Railroad Retirement Board

AMENDMENTS TO REGULATIONS UNDER THE RAILROAD RETIREMENT ACT OF 1937

Pursuant to the general authority contained in section 10 of the Act of June 24, 1937 (Sec. 10, 50 Stat. 314; 45 U.S.C. Sup. III, 228j), §§ 222.05, 225.03, and 265.04 (g) of the Regulations of the Railroad Retirement Board under such Act (4 F.R. 1477) are amended, effective March 12, 1942, by Board Order 42-126 dated March 12, 1942, to read as follows:

PART 222—DEFINITION AND CREDITABILITY OF COMPENSATION

§ 222.05 *Verification of compensation claimed.* (a) Compensation claimed shall be verified to the extent deemed necessary by the Board, to determine the "monthly compensation" referred to in § 225.03 of the regulations in this chapter and shall be verified from employers' pay roll or other detailed records; where such records are not available the compensation claimed shall be verified:

(1) By the employee submitting income tax records or a diary or other personal record: *Provided however*, That such records shall not be considered unless similar records are furnished covering a reasonable period of time for which employer records are available, and the difference between the amount of compensation shown by the employee's records and that shown by the employer's records is not more than 2 per centum.

(2) Except as otherwise provided in these regulations, if verification cannot be made under subparagraph (1) of this paragraph, by furnishing acceptable records showing that the employee was on a monthly salary corresponding to the compensation claimed: *Provided, however*, That when, in determining the "monthly compensation" under § 225.03 of the regulations in this chapter, compensation is verified for any month in the manner prescribed in this subparagraph, allowance shall be made for any months in which the employee did not work, and any compensation so verified shall also be reduced by 5 per centum.

(b) In any case involving verification of compensation the Board may prescribe the extent and manner in which such compensation shall be established.

(c) Notwithstanding the lack of some compensation records required to calculate the "monthly compensation" during the years 1924 to 1931, inclusive, the amounts of annuities may be determined finally under § 225.03 of the regulations in this chapter on the basis of such compensation records as are available. (Secs. 1, 3, 10, 50 Stat. 309, 311, 314; 45 U.S.C. Sup. III, 228a, 228c, 228j)

PART 225—COMPUTATION OF AN ANNUITY

§ 225.03 *Determination of "monthly compensation."* (a) Except as otherwise provided in the regulations in this chapter, the "monthly compensation" of an individual shall be,

(1) if his "years of service" include only service subsequent to December 31, 1936, the result obtained by totaling the compensation earned by him in his "years of service" and dividing that sum by the number of months in his "years of service";

(2) if his "years of service" include only service prior to January 1, 1937, his monthly compensation for service prior to January 1, 1937, determined as hereinafter provided;

(3) if his "years of service" include service subsequent to December 31, 1936, and service prior to January 1, 1937, the result obtained by (i) multiplying his monthly compensation for service prior to January 1, 1937, determined as hereinafter provided by the number of months in such portion of his "years of service" as is prior to January 1, 1937, (ii) adding to the product the total compensation earned by him in such portion of his "years of service" as is subsequent to December 31, 1936, and (iii) dividing the sum by the total number of months in his "years of service."

(b) Except as otherwise provided in the regulations in this chapter, an individual's "monthly compensation for service prior to January 1, 1937," shall be the result obtained by dividing (1) the total compensation earned by him in such portion of his "years of service" as is within the period 1924–1931 by (2) the number of months in such portion of his "years of service." In any case within the purview of paragraph (j), (k), (l), or (m) of this section, service in the period 1924–1931 is, in the judgment of the Board, insufficient to constitute a fair and equitable basis for determining the "monthly compensation for service prior to January 1, 1937," and it is, in the judgment of the Board, just and equitable that such monthly compensation be determined in the manner provided in the applicable provisions of such paragraphs.

(c) The term "higher paid occupation" as used in the regulations in this chapter shall mean any occupation for which the monthly average of employee earnings reported to the Interstate Commerce Commission for the year 1926 by all Class I carrier-employers is greater than such monthly average for the occupation with which such occupation is compared.

The term "lower paid occupation" as used in the regulations in this chapter shall mean any occupation for which the monthly average of employee earnings reported to the Interstate Commerce Commission for the year 1926 by all Class I carrier-employers is less than such monthly average for the occupation with which such occupation is compared.

The term "change in occupation" as used in the regulations in this chapter shall mean a change from a "higher paid occupation" to a "lower paid occupation," or from a "lower paid occupation" to a "higher paid occupation," and a "change in occupation" shall be considered to have occurred in the last month of service proved in the earlier occupation.

(d) The term "Interstate Commerce Commission average" as used in the regulations in this chapter shall mean the monthly average of the earnings reported to the Interstate Commerce Commission for the year 1926 by the employer for employees in the occupation in which the individual was employed during the period specified, or the month compared, or in an occupation essentially similar thereto. If a change in the occupation of the individual occurred during the period specified in the applicable paragraph hereof as the period to be used in determining the monthly compensation for service prior to January 1, 1937, the "Interstate Commerce Commission average" shall be obtained by multiplying such monthly average of earnings reported by the employer for each occupation by the number of months in which the individual was engaged in such occupation during the period specified, and dividing the sum of the products by the total number of months of service in all occupations in which he was engaged during such period. If the employer did not make such reports to the Interstate Commerce Commission for such year, there shall be used in lieu of such monthly average of earnings reported by the employer the first of the following which may be available:

(1) A consolidated monthly average of employee earnings reported to the Interstate Commerce Commission for the year 1926 by Class I carrier-employers of the district in which the employer was located, for employees in the occupation in which the individual was employed in the month compared or in the period specified, or in an occupation essentially similar thereto, or

(2) 90 per centum of the wage rate (converted into a monthly rate) for the year 1926, for employees in the occupation in which the individual was employed in the month compared or in the period specified, or in an occupation essentially similar thereto. If such wage rate is not available for the year 1926, there shall be substituted therefor, in applying the provisions of this subparagraph, the corresponding wage rate for the month compared or the period specified, or, if that is not available, the corresponding wage rate for any period determined to be suitable for this purpose. In converting the wage rate into a monthly rate, 204 hour or 25.5 days per month, and 12 months or 52½ weeks per year, shall be used.

If, under any paragraph of this section, the applicable per centum of the Interstate Commerce Commission average exceeds $300, $300 shall be used in lieu of such per centum.

(e) The term "exclusion rule" shall mean the provisions of this paragraph. In determining the monthly compensation for service prior to January 1, 1937, under any of the subsequent paragraphs of this section, there shall be excluded, whenever the "exclusion rule" is stated to be applicable,

(1) any month, and the compensation therefor, in a period not exceeding two consecutive calendar months, which period is preceded and followed by a period of one or more calendar months in which the individual earned no compensation, if the compensation for any such intervening month is less than 60 per centum of the Interstate Commerce Commission average;

(2) except as otherwise provided in subparagraph (1) of this paragraph, any month, and the compensation therefor, which is adjacent to a period of one or more calendar months in which the individual earned no compensation, if the compensation for such adjacent month is less than the compensation for the month immediately preceding or immediately following such adjacent month;

(3) if not otherwise excluded, the first month, and the compensation therefor, of the period specified in the applicable subsection as the period to be used in determining such monthly compensation, if no compensation was earned in the month immediately following such month, and if the compensation for such first month is less than 60 per centum of the Interstate Commerce Commission average, and

(4) if not otherwise excluded, the last month, and the compensation therefor, of the period specified in the applicable paragraph as the period to be used in determining such monthly compensation, if no compensation was earned in the month immediately preceding such month, and if the compensation for such last month is less than 60 per centum of the Interstate Commerce Commission average;

Provided, however, That in making the comparison provided by subparagraphs (1), (3), and (4) of this paragraph, there shall be used, instead of 60 per centum, 90 per centum in cases within the purview of paragraph (i) of this section, and 80 per centum in cases within the purview of paragraph (j) (1) of this section.

(f) For the purposes of the regulations in this chapter there shall be regarded as a month for which compensation records are available only a month of service for which all of the employee's claimed compensation can be verified in accordance with the provisions of § 222.05 (a) of this chapter or, for the purposes of paragraphs (g) and (h) of this section, in accordance with the provisions of § 222.05 (a) (1), and every other month of service shall be regarded as a month for which compensation records are missing: *Provided, however,* That in determining the monthly compensation for service prior to January 1, 1937, under any of the subsequent paragraphs of this section, a month of service with respect to which some but not all of the employee's claimed compensation can be so verified shall be treated as a month for which compensation records are available if the monthly compensation for service prior to January 1, 1937, would thereby be increased: *And provided further,* That in determining the monthly compensation for service prior to January 1, 1937, under any of the subsequent subsections of this paragraph, a month of service which would otherwise be treated as a month for which compensation records are missing shall be treated as a month for which compensation records are available, and the compensation for such month shall be taken to be the amount which the employee claims as compensation for that month, if such amount claimed as compensation is less than what would be the monthly compensation for service prior to January 1, 1937, if the month were treated as a month for which compensation records are missing.

(g) If 48 or more months of service during the period 1924–1931 are proved, no change in occupation occurred during that period, and compensation records are available for at least half, but not all, of the months in that period, the monthly compensation for service prior to January 1, 1937, shall be the monthly average of the compensation earned in months during the period 1924–1931 for which compensation records are available.

(h) If 48 or more months of service during the period 1924–1931 are proved, a change in occupation occurred during that period, and compensation records are available for not all but at least ⅞ of the months in that period and for at least ⅝ of the months in each calendar year during that period, the monthly compensation for service prior to January 1, 1937, shall be the monthly average of the compensation earned in months during the period 1924–1931 for which compensation records are available.

(i) Except as otherwise provided in the regulations in this chapter, if 48 or more months of service during the period 1924–1931 are proved, but compensation records are missing for some or all of the months in that period, the monthly compensation for service prior to January 1, 1937, shall be the monthly compensation as determined under the first of the following rules which may be applicable:

(1) If a change in occupation did not occur during the period 1924–1931, the monthly compensation shall be the monthly average of the compensation earned in months during the period 1924–1931 for which compensation records are available if such average is 90 or more per centum of the Interstate Commerce Commission average.

(2) If the monthly compensation would be determined under subparagraph (1) of this paragraph except for the fact that the average of the compensation earned in the months during the period 1924–1931 for which compensation records are available is less than 90 per centum of the Interstate Commerce Commission average and if, upon application of the exclusion rule, the average of the compensation earned in the months during the period 1924–1931 for which compensation records are available would be 90 or more per centum of the Interstate Commerce Commission average, the monthly compensation shall be 90 per centum of the Interstate Commerce Commission average.

(3) If the monthly compensation would be determined under subparagraph (2) of this paragraph except for the fact that, upon application of the exclusion rule, the average of the compensation earned in the months during the period 1924–1931 for which compensation records are available is less than 90 per centum of the Interstate Commerce Commission average, the monthly compensation shall be the result obtained by (i) multiplying the number of months during the period 1924–1931 for which compensation records are available by the average, upon application of the exclusion rule, of the compensation earned in such months, (ii) multiplying 90 percentum of the Interstate Commerce Commission average by a number of months which, if added to the number of months during the period 1924–1931 for which compensation records are available, would equal one-half the total number of months of service during such period, and (iii) dividing the sum of the amounts obtained under (i) and (ii) by the total number of months used thereunder.

(4) If the monthly compensation would be determined under one of the preceeding subparagraphs of this paragraph except for the fact that compensation records are not available for any of the months during the period 1924–1931, the monthly compensation shall be 90 per centum of the Interstate Commerce Commission average.

(5) If a change in occupation occurred during the period 1924–1931, the monthly compensation shall be the result obtained by (i) applying to each occupation, for some of the months of service in which during the period 1924–1931 compensation records are missing, the first of the preceding subparagraphs of this paragraph which would have been applicable if such occupation had been the only one in which service was performed during the period 1924–1931: *Provided, however,* That in thus applying subparagraph (3) of this paragraph, there shall be used for any occupation, for at least half the months of service in which during the period 1924–1931 compensation records are available, the monthly average, upon application of the exclusion rule, of the compensation earned in the months during that period for which compensation records are available, (ii) computing the monthly average of the compensation earned during the period 1924–1931 for each occupation, for all months of service in which during that period compensation records are available, (iii) multiplying the result obtained under (i) or (ii) for each occupation by the number of months of service during the period 1924–1931 in that occupation and dividing the sum of the products by the total number of months of service in the period 1924–1931.

(j) If service began prior to 1924, and some but less than 48 months of service during the period 1924–1931 are proved, the monthly compensation for service prior to January 1, 1937, shall be the monthly compensation as determined under the first of the following rules which may be applicable:

(1) If a change in occupation did not occur during the period 1924–1931, and a change to a lower paid occupation did not occur during the last 48 months of service in the period 1918–1931, or during the whole of such period if the total number of the months of service therein was less than 48, the monthly compensation shall be (i) 80 per centum of the Interstate Commerce Commission average if compensation records are not available for any of the months during the period 1924–1931, or (ii) if compensation records are available for some months during the period 1924–1931, whichever is the greater of (*a*) the monthly average of the compensation earned during the period 1924–1931, or (*b*) the monthly average, upon application of the exclusion rule, of the compensation earned during the months of service in the period 1924–1931 for which compensation records are available, or during all the months of service in that period for which compensation records are available if the total number of months of service in the period is less than 48, (ii) the monthly average of the compensation earned during the period 1924–1931, (iii) what would be the monthly compensation if the monthly compensation were determined under subparagraph (1) of this paragraph, or (iv) 60 per centum of the Interstate Commerce Commission average.

(3) If the individual did not render service during the period 1918–1923 or compensation records are not available for any of the months of service prior to January 1, 1924, included in the last 48 months of service in the period 1918–1931 or in the total number of the months of service in that period if the total number of the months of service therein was less than 48, and the monthly compensation would be determined under subparagraph (1) of this paragraph except for the fact that whichever is the greater of the monthly average of the compensation earned during the period 1924–1931, or the monthly average, upon application of the exclusion rule, of the compensation earned during the months of service in the period 1924–1931 for which compensation records are available, is less than 80 per centum of the Interstate Commerce Commission average, the monthly compensation shall be whichever is the greatest of (i) the monthly average, upon application of the exclusion rule, of the compensation earned during those of the last 48 months of service in the period 1918–1931 for which compensation records are available, or during all the months of service in that period for which compensation records are available if the total number of months of service in the period is less than 48, (ii) the monthly average of the compensation earned during the period 1924–1931, (iii) what would be the monthly compensation if the monthly compensation were determined under subparagraph (1) of this paragraph, or (iv) 60 per centum of the Interstate Commerce Commission average.

(4) If a change to a higher paid occupation occurred during the period 1924–1931, the monthly compensation shall be whichever is the greatest of (i) 60 per centum of the Interstate Commerce Commission average, (ii) the monthly average of the compensation earned during the period 1924–1931, or (iii) the result obtained by (*a*) securing, for each occupation, for some of the months of service in which during the period 1924–1931 compensation records are available, the monthly average, upon application of the exclusion rule, of the compensation earned during the months of service in the period 1924–1931 for which compensation records are available, (*b*) using 80 per centum of the Interstate Commerce Commission average for each occupation, for all months of service in which during the period 1924–1931 compensation records are missing, (*c*) multiplying the result obtained under (*a*) or (*b*) for each occupation by the number of months of service during the period 1924–1931 in that occupation, and dividing the sum of the products by the total number of months of service in the period 1924–1931.

(5) If a change to a lower paid occupation occurred during the last 48 months of service in the period 1918–1931 or during the whole of such period if the total number of months of service therein was less than 48, the monthly compensation shall be whichever is the greatest of (i) the monthly average, upon application of the exclusion rule, of the compensation earned during the months of service in the period 1924–1931 for which compensation records are available, (ii) the monthly average of the compensation earned during the period 1924–1931, (iii) 60 per centum of the Interstate Commerce Commission average, or (iv) the result obtained by (*a*) securing, for each occupation, for some of the months of service in which compensation records are available, the monthly average, upon application of the exclusion rule, of the compensation earned during those of the last 48 months of service in the period 1918–1931 for which compensation records are available, or during all of the months of service in that period for which compensation records are available if the total number of months of service in the period is less than 48, (*b*) for each occupation, for all of the last 48 months of service in which during the period 1918–1931 compensation records are missing, or for all of the months of service in which during the period 1918–1931 compensation records are missing if the total number of months of service in the period is less than 48, using 80 per centum of the Interstate Commerce Commission average if some of the months of service in that occupation for which compensation records are missing are in the period 1924–1931 and using 60 per centum of the Interstate Commerce Commission average if all of the months of service in that occupation for which compensation records are missing are prior to 1924, (*c*) multiplying the result obtained under (*a*) or (*b*) for each occupation by the number of months of service in that occupation during the last 48 months of service in the period 1918–1931 or during the whole of such period if the total number of months of service therein was less than 48, and dividing the sum of the products by 48, or by the total number of months of service in the period 1918–1931 if the total number of months of service therein was less than 48: *Provided, however,* That if employment in the higher paid occupation was preceded by employment in a lower paid occupation during the period 1918–1923, the service and compensation in such preceding lower paid occupation shall be disregarded in determining the monthly compensation if a reduction in the monthly compensation would result from the inclusion of such service and compensation.

(k) If no service was rendered during the period 1924–1931, and service was rendered during the period 1918–1923, the monthly compensation for service prior

to January 1, 1937, shall be whichever is the greater of (1) 60 per centum of the Interstate Commerce Commission average, or (2) the result obtained by (i) securing, for each occupation, for some of the months of service in which compensation records are available, the monthly average, upon application of the exclusion rule, of the compensation earned during those of the last 48 months of service in the period 1918–1923 for which compensation records are available, or during all the months of service in that period for which compensation records are available if the total number of months of service in the period is less than 48, (ii) using 60 per centum of the Interstate Commerce Commission average for each occupation, for all months of service in which compensation records are missing, (iii) multiplying the result obtained under (i) or (ii) for each occupation by the number of months of service in that occupation during the last 48 months of service in the period 1918–1923 or during the whole of such period if the total number of months of service therein was less than 48, and dividing the sum of the products by 48, or by the total number of months of service in the period 1918–1923 if the total number of months of service therein was less than 48.

(l) If no service was rendered during the period 1918–1931, and service was rendered prior thereto, the monthly compensation for service prior to January 1, 1937, shall be 60 per centum of the Interstate Commerce Commission average for the last occupation in which the individual was employed prior to 1918.

(m) If service began subsequent to December, 1923, and no months of service, or less than 48 months of service, during the period 1924–1931 are proved, the monthly compensation for service prior to January 1, 1937, shall be whichever is the greater of (1) the monthly average of the compensation earned during the period 1924–1931 or, if compensation records are missing for any of the months of service during that period, what would be the monthly compensation for service prior to January 1, 1937, determined in accordance with the provisions of paragraph (i) of this section, or (2) the monthly average of the compensation earned during the period 1924–1936 or, if compensation records are missing for any of the months of service during that period, what would be the monthly compensation for service prior to January 1, 1937, determined in accordance with the provisions of paragraph (i) of this section if the period 1924–1936 were substituted for the period 1924–1931 throughout that paragraph.

(n) No redetermination of the monthly compensation for service prior to January 1, 1937, shall be made under the provisions of this section in any case in which prior to March 12, 1942, (1) a final determination of the monthly compensation for such service has been made under this section as originally promulgated or as amended, or under any other authority, or (2) a certification has been made on the basis of a tentative determination of the monthly compensation for such service under authority other than the provisions of this section as originally promulgated or as amended, and a redetermination of the monthly compensation under the provisions of this section would result in a reduction in such monthly compensation: *Provided, however,* That the monthly compensation for service prior to January 1, 1937, shall be redetermined in any case in which compensation records become available for any month or months which in the making of the previous determination were regarded as a month or months for which compensation records were missing, and such redetermination would result in an increase in such monthly compensation. (Secs. 3 (c), 10, 50 Stat. 311, 314; 45 U.S.C. Sup. III, 228c, 228j)

PART 265—APPLICABILITY OF 1935 OR 1937 ACT

§ 265.04 *Adjudication under the 1935 Act.*

* * * * *

(g) *Application, beginning date and computation.* An annuity shall begin as of a date to be specified in a written application to be signed by the employee entitled thereto, and approved by the Board, which date shall not be more than sixty days before the filing of the application, nor before the date on which the first annuity shall have become due and payable. No annuity shall be due and payable until May 30, 1936. The annuity shall be payable on the 1st day of the month during the lifetime of the annuitant. Such annuity shall be based upon the service period of the employee and shall be the sum of the amounts determined by multiplying the total number of years of service not exceeding thirty years by the following percentages of the monthly compensation; 2 per centum of the first $50; 1½ per centum of the next $100; and 1 per centum of the compensation in excess of $150. The "monthly compensation" shall be the average of the monthly compensation paid to the employee by the carrier, except that where applicable for service before March 1, 1936, and where the service rendered during the period 1924–1931 is substantial, the monthly compensation shall be the average of the monthly compensation for all pay roll periods for which the employee shall have received compensation from any carrier during the period 1924–1931. In determining for the purposes of this paragraph whether service during the period 1924–1931 is substantial, consideration shall be given to both the number of months in which service was rendered and the proportion of the monthly earnings to Interstate Commerce Commission averages, but no consideration shall be given to whether the individual's occupation during the period 1924–1931 is substantially different from his occupation prior to that period, to irregularity of service during the period 1924–1931, or to any other factors which are unrelated to the issue whether the service during the period 1924–1931 is substantial. In any case in which the service during the period 1924–1931 is substantial, but compensation records are missing for some or all of the months in that period, the monthly compensation for service before March 1, 1936, shall be the monthly compensation determined under the first of the following which may be applicable: (1) § 225.03 (g) of this chapter; (2) § 225.03 (h), or (3) the first of the rules contained in § 225.03 (i) which may be applicable. The provisions of § 225.03 (n) of this chapter shall be applicable with respect to redeterminations, under this paragraph, of the monthly compensation for service before March 1, 1936. No part of any monthly compensation in excess of $300 shall be recognized in determining any annuity. Any employee who shall be entitled to an annuity with a commuted value determined by the Board of less than $300 shall be paid such value in a lump sum. (Sec. 3, 49 Stat. 969; 45 U.S.C. Sup. II, 217; Sec. 10, 50 Stat. 314; 45 U.S.C. Sup. III, 228j)

By Authority of the Board.

Secretary of the Board.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1059]

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD 3 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT 3, FOR RIVER AND EX-RIVER SHIPMENTS

A petition having been filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by District Board 3, requesting the establishment of price classifications and minimum prices for river and ex-river shipments for the coals of the Consolidation No. 93 Mine (Mine Index No. 42) of the Consolidation Coal Company and the Little Falls Mine (Mine Index No. 238) of the Little Falls Coal Company, both code members in District 3;

Petitions of intervention having been filed by District Boards 4 and 6 and the Consolidation Coal Company and a Notice of Appearance having been filed by the Bituminous Coal Consumers' Counsel;

Temporary relief, pending final disposition of the proceeding, having been granted by an Order of the Director dated November 12, 1941, 6 F.R. 6521;

Pursuant to Order of the Director and after due notice to all interested parties,[1] a hearing in this matter having been held on December 16, 1941, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard, and at which the petitioner, District Boards 2 and 4, the Consolidation Coal Company, and the Bituminous Coal Consumers' Counsel appeared;

The preparation and filing of a Report by the Examiner having been waived, and the record in the proceeding having thereupon been submitted to the undersigned;

A brief having been filed by the Bituminous Coal Consumers' Counsel;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That commencing thirty (30) days from the date of this Order, § 323.8 (*Special prices*—(d) *By-product, horizontal and vertical retort, or water gas use*), § 323.8 (*Special prices*—(e) *River coal*), and § 323.8 (*Special prices*—(f) *Ex-river coal*) in the Schedule of Effective Minimum Prices for District No. 3 for All Shipments Except Truck be and they are hereby amended by establishing the classifications and minimum prices for the coals of the Consolidation No. 93 Mine (Mine Index No. 42) of the Consolidation Coal Company as set forth in Supplements R–I, R–II, and R–III attached hereto and made a part hereof.

It is further ordered, That such price classifications and minimum prices shall be subject to the Order of October 21, 1941, 6 F.R. 5426, in Docket No. A–454, increasing the minimum prices set forth in the schedule of Effective Minimum Prices for District No. 3 for All Shipments Except Truck, 7½ cents per net ton for certain ex-river shipments, as specified therein, and the Order of October 4, 1941, 6 F.R. 5110, in Docket No. A–841, establishing minimum prices for ex-river shipments to Colonial Steel Company at Colona, Pennsylvania.

It is further ordered, That the prayers for relief contained in the petition filed herein are granted to the extent set forth above and in all other respects denied.

It is further ordered, That effective thirty (30) days from the date hereof, the temporary relief heretofore granted herein be and it hereby is revoked and withdrawn.

Dated: March 9, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[1] When shipments of classification "D" coal are made from mine index No. 42, the above prices must be increased ten cents (10¢) per net ton.

[2] A reduction of 44¢ may be made on size groups 7, 8, 9, and 10 when shipped to Toronto, Ohio.

[3] If the actual River transportation charge exceed the base charges of 30¢, 40¢, 45¢, or 55¢ per net ton, indicated above, the exact difference between the actual River transportation charge and the base River charge may be deducted from the f. o. b. mine prices. If the actual River transportation charge is less than the base River charge, the exact difference shall be added to the base mine prices shown above. In no case, however, shall the adjustment upward or downward exceed 10¢ per net ton.

[1] Although the Notice of and Order for Hearing was not published in the FEDERAL REGISTER until two days after the hearing, said Notice and Order was mailed, postage prepaid, to all district boards, statistical bureaus of the Division, code members in District 3, approved marketing agencies, registered farmers' cooperative organizations, and distributors in District 3, to the Bituminous Coal Consumers' Counsel, and to certain other interested persons. As set forth in the Opinion filed herewith, the undersigned considers this to be reasonable public notice. However, in order to make ample assurance that no possible prejudice has resulted to any person by virtue of the fact that the Notice of and Order for Hearing was not published in the FEDERAL REGISTER until after the hearing herein, this Order will be made effective thirty (30) days from the date hereof, during which time any person claiming to be prejudiced by virtue of the tardy publication of the Notice of and Order for Hearing in the FEDERAL REGISTER may file a petition to modify, terminate, or stay the effect of the Order entered herein or to reopen the hearing herein for the purpose of taking additional evidence.

[Docket No. A–1053 Part II]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION, AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES AND RAILROAD SHIPPING POINTS FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 8, FOR ALL SHIPMENTS EXCEPT TRUCK

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on September 18, 1941, by District Board 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests:

(a) The establishment of price classifications and minimum prices for rail shipments of coals of the following mines, originating at two shipping points:

Mine index No.	Code members	Shipping points
905	Lawrence Hensley	London & East Bernstadt, Ky.
928	J. P. Boggs	Chavies & Krypton, Ky.
953	John Mitchell	Richards & Garrard, Ky.
2122	K. W. Crabtree	Coeburn & Allen, Va.
3645	White Coal Company	Richards & Manchester, Ky.
3652	Harmon & Mitchell (Wm. Harmon).	Richards & Garrard, Ky.
3657	Shell Phillips	Richards & Manchester, Ky.
3650	Smith Brothers (Albert Smith).	Richards & Garrard, Ky.[1]

[1] The petition herein, originally designated Docket No. A–1053, requested the establishment of minimum prices for the coals of various other mines in District 8, as well as the establishment of minimum prices for truck shipments for some of the above-mentioned mines. By Order dated November 13, 1941, that portion of the petition relating to the matters set forth above was severed from the remainder of Docket No. A–1053 and designated Docket No. A–1053, Part II.

(b) The establishment of price classifications and minimum prices for the following truck mines for rail shipment over the facilities of the White Coal Company, from Richards, Kentucky:

Mine index No.	Code members	Shipping point
3649	Brumley Bros.	Richards, Ky.
922	Crooked Crook Coal Co.	Do.
3950	Ed. Gregory	Do.
3651	Samuel B. Gregory	Do.
3653	Hibbard Bros. (Theo. Hibbard).	Do.
2770	Hibbard, Oscar	Do.
3654	John Hughes	Do.
3652	Harmon & Mitchell (Wm. Harmon).	Do.
3655	Jones Bros. (Shelby Jones)	Do.
2773	Bates Lewis	Do.
953	John Mitchell	Do.
3656	Arkus Pennington	Do.
3657	Shell Phillips	Do.
3644	Phillips & White (W. H. Phillips).	Do.
3659	Smith Bros. (Albert Smith).	Do.
3645	White Coal Co.	Do.

(c) The establishment of price classifications and minimum prices for rail shipments from additional shipping points for the following mines:

Mine index No.	Code members	Additional shipping points requested
3039	J. H. Franks	Grundy, Va.
602	Phillips & White	Richards, Ky.
1603	Dill Jarvis	Do.
1609	Brown & Gregory	Do.
2397	Varney & Rose	Do.
3229	I. J. Dean	Williamson, W. Va.
3270	Betsy Layne Coal Corporation.	Betsy Layne, Ky.
3604	Lester Bros. (R. W. Lester).	Richards, Ky.

By Order of the Director dated November 13, 1941, 6 F.R. 6520, temporary price classifications and minimum prices were established for rail shipments originating at one of the two shipping points requested for coals of those mines listed in paragraph (a) above; and temporary permission was granted to those mines listed in paragraph (b) above to use the facilities of the White Coal Company for shipments from Richards, Kentucky. However, temporary relief was denied the request for establishment of price classifications and minimum prices for shipments from additional rail shipping points for those mines listed in paragraph (c) above.

On December 12, 1941, the petitioner filed a motion to amend the original petition with regard to the shipping point and freight origin group number of the Betsy Layne Coal Corporation Mine. Later, by its petition dated December 17, 1941, the District Board withdrew its request for an additional shipping point and requested that the shipping point for this mine be changed from Harold, Kentucky, to Betsy Layne, Kentucky, giving as a reason therefor, that the railroad had placed a switch for this mine at the latter point because there was not sufficient room for a switch at Harold, Kentucky. The petition of December 17, 1941 also requested permission to amend the original petition of the District Board with regard to the mines listed in paragraph (a) above in the respects mentioned *infra*.

Pursuant to an appropriate order of the Director and after due notice to all interested persons, a hearing in this matter was held on December 19, 1941, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner appeared. The preparation and filing of a report by the Examiner was waived and the matter was thereupon submitted to the undersigned.

The petitioner, by motions to amend, made before and at the hearing requested that the portion of its petition seeking permission for certain mines to load over the facilities of the White Coal Company (paragraph (b) above) be dismissed; that the shipping points of the Betsy Layne Mine (Mine Index No. 3270), the Dean Mine (Mine Index No. 3229), the Lester No. 12 and 2 Mine (Mine Index No. 3604), the Phillips and White Mine (Mine Index No. 602), and the Varney and Rose Mine (Mine Index No. 2397), be changed from those theretofore established for said mines; and that the name of the Phillips and White Mine (Mine Index No. 602) be changed to the Herd Branch Mine. The petitioner withdrew its request that additional shipping points be established for said mines and withdrew entirely its requested relief concerning the Jarvis Mine (Mine Index No. 1603), the Brown & Gregory Mine (Mine Index No. 1609), and the J. H. Franks Coal Company Mine No. 8 (Mine Index No. 3039).

The petitioner further requested, in regard to the mines listed in paragraph (a), above, that its original request be amended—

1. By eliminating London, Kentucky, as a shipping point of the Hensley Mine (Mine Index No. 905), and establishing East Bernstadt as the shipping point for that mine, as provided in the Order dated November 13, 1941, granting temporary relief.

2. By eliminating Chavies as a shipping point of the J. P. Boggs Mine (Mine Index No. 928), and establishing Krypton, Kentucky, as the shipping point for that mine, as provided in the Order dated November 13, 1941, granting temporary relief.

3. By eliminating Richards, Kentucky, as a shipping point of the Mitchell Mine (Mine Index No. 953) and establishing Garrard, Kentucky, as the shipping point of that mine.

4. By eliminating Coeburn, Virginia, as a shipping point of the Clinton Coal Company Mine (Mine Index No. 2122) and establishing Allen, Virginia, as the shipping point of that mine, as provided in the Order dated November 13, 1941, granting temporary relief.

5. By eliminating Richards as the shipping point of Steve Keith Mine (Mine Index No. 3645) and establishing Manchester, Kentucky, as the shipping point of that mine.

6. By eliminating Richards, Kentucky, as a shipping point of the Red Rooster Mine (Mine Index No. 3652) and establishing Garrard, Kentucky, as the shipping point of that mine.

7. By eliminating Richards, Kentucky, as a shipping point of the Phillips Mine (Mine Index No. 3657) and establishing Manchester, Kentucky, as the shipping point of that mine.

8. By eliminating Richards, Kentucky, as a shipping point of the Smith Mine (Mine Index No. 3659) and establishing Garrard, Kentucky, as the shipping point of that mine.

The questions to be determined therefore are whether the temporary prices established for the mines listed in paragraph (a), above, by the Order of the Director dated November 13, 1941, should be made permanent; whether the requested changes in shipping points should be made; and whether the name of the Phillips and White Mine (Mine Index No. 602) should be changed to Herd Branch Mine.

The record indicates that the temporary prices established by the Order of November 13, 1941, for the mines listed in paragraph (a) above are in line with the prices of similarly situated mines in the same subdistrict of District 8.

The District Board introduced evidence to show that the proposed shipping points are the shipping points most convenient and accessible to the code members involved.

No evidence was presented with regard to the change in name of the Phillips & White Mine. A petition under section 4 II (d) is not the proper means for securing a change in mine name. Order No. 288 of the Director, dated December 8, 1939, provides that where a change in mine name is desired, notification thereof shall be given to the Division within ten (10) days of such change, setting forth the name desired. Accordingly, the question of a change of name for this mine is not a proper question for decision here.

Upon the entire record, the undersigned finds and concludes that the relief requested in the petition, as amended, should be granted, except as to the requested change in name of the Phillips & White Mine, and that the establishment of the classifications, effective minimum prices, and shipping points as set out in Supplement R annexed hereto and made a part hereof will effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act and will comply with all the standards thereof.

Now, therefore, it is ordered, That § 328.11 (*Alphabetical list of code members*) in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck be and it hereby is amended, effective fifteen (15) days from the date hereof, in accordance with Supplement R annexed hereto and made a part hereof.

It is further ordered, That the temporary relief granted herein on November 13, 1941, be, and it hereby is, revoked and withdrawn effective fifteen (15) days from the date hereof.

It is further ordered, That the prayers for relief contained in petition filed herein, except as set forth above, be and they hereby are denied.

Dated: March 7, 1942.

Acting Director.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 8

An original petition, as amended, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 328.21 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–II, § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 328.42 (*General prices for low volatile coals*) is amended by adding thereto Supplement T–II, annexed hereto and made a part hereof, except with respect to the Crozier Red Ash Mine (Mine Index No. 5305) of J. B. Crozier (Crozier Red Ash Coal Co.). With respect to this mine, the price classifications and minimum prices set forth for it in the schedule marked "Supplement T–I" shall become effective fifteen (15) days from the date hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 5, 1942.

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF A. R. DISNEY (DISNEY COAL CO.) A CODE MEMBER IN DISTRICT NO. 13, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF HIS SEABOARD MINE (MINE INDEX NO. 1472)

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Seaboard Mine (Mine Index No. 1472) of A. R. Disney (Disney Coal Co.), a code member in District 13.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices*—(a) *Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, and § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated March 5, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 13

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto supplement R–I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices—(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–III, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof; and commencing forthwith, the shipping points and freight origin group numbers appearing in the aforesaid Supplement R–I for Mine Index Nos. 142, 193, 198, 411, 1010, 1059, 1174, 1215, 1276, 1317–1326, inclusive, are effective in place of the shipping points heretofore established for these mines.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein as to coals produced by the Connellsville Drift Mine, Mine Index No. 1466 of The Plateau Coal & Coke Co. in Size Group 11 for all shipments except truck; produced by the mines having Mine Index Nos. 113, 136, 141, 193, 198, 221, 298, 301, 317, 339, 342, 356, 367, 386, 744, 1059, 1128, 1215, 1271, 1276, 1318, 1360, and 1433 in Size Group 20 for all shipments except truck; or produced by The Jefferson No. 1 Mine, Mine Index No. 1458, of W. P. Headrick in Size Group 23 for truck shipments, for the reasons set forth in that portion of Docket No. A–1297 which relates to them as A–1297 Part II, granting temporary relief in part, and scheduling a hearing therein.

Dated: March 4, 1942.

[Docket No. A-623]

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER AND GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 11 FOR THE ESTABLISHMENT OF A PRICE OF $1.00 PER TON ON 1/4" X 0 SLUDGE, PRODUCED BY MINE INDEX 47, WHICH SIZE IS CURRENTLY EMBRACED IN SIZE GROUP 25

A petition, pursuant to the provisions of section 4 II (d) of the Bituminous Coal Act of 1937, having been filed with the Bituminous Coal Division by District Board 11, requesting the issuance of an order establishing for the ¼" x 0 sludge produced by the Princeton Mining Company at its King Station Mine, Mine Index No. 47, in District 11, the same effective minimum prices that are applicable to raw carbon produced by said mine, Size Group 15, in lieu of the prices applicable to washed screenings, Size Group 25, in which Size Group ¼" x 0 sludge would be classified, in effect requesting a reduction of 50¢ per net ton f. o. b. the mine in the effective minimum prices for ¼" x 0 sludge produced at Mine Index No. 47;

Pursuant to Orders of the Director, and after notice to all interested persons, a hearing having been held in this matter on March 4, 1941, before Charles O. Fowler, a duly designated Examiner of the Bituminous Coal Division, at a hearing room of the Division in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard;

The Examiner, Charles O. Fowler, having made and filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter, dated February 5, 1942, recommending that the relief prayed for by District Board 11 be granted to the extent of permitting a reduction of 40¢ per net ton in lieu of the amount requested in the petition;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions and supporting briefs having been filed;

The undersigned having determined that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That § 331.1 (*Price instructions and exceptions*—(b) *Price exceptions*) in the Schedule of Effective Minimum Prices for District No. 11 for All Shipments Except Truck be, and the same hereby is, amended by adding the following price exception: For Mine Index 47, the prices listed therein for Size Group 25 may be reduced 40¢ per net ton in the case of washed coal which is passed through a ¼" round hole shaker screen and loaded without dewatering or any other processing or treatment.

Dated: March 20, 1942.

Subchapter A—General Provisions

PART 903—DELEGATION OF AUTHORITY

AMENDMENT NO. 2 TO SUPPLEMENTARY DIRECTIVE NO. 1A—FURTHER AMENDMENT TO DEFINITION OF "PASSENGER AUTOMOBILES"

Paragraph (b) of Supplementary Directive No. 1A[2] (§ 903.2), issued February 2, 1942, as amended by Amendment No. 1 to said Directive, is hereby further amended to read as follows:

(b) As used in this Supplementary Directive, the term "New Passenger Automobile" means any 1942 model passenger automobile, built upon a standard or lengthened passenger car chassis, having a seating capacity of not more than ten persons, irrespective of the number of miles it has been driven, or any other such passenger automobile of earlier model which has been driven less than 1,000 miles, including taxis, but not including ambulances, hearses and station wagons. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Subchapter B—Division of Industry Operations

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 6 TO SUPPLEMENTARY ORDER NO. M-15-B,[1] TO RESTRICT THE USE AND SALE OF RUBBER

Section 940.3 (*Supplementary Order M-15-b*) is hereby amended as follows:

1. By changing subparagraph (a) (6) to read as follows:

(6) "Consume" means to use, process, stamp, cut or in any manner change the form, shape or chemical composition of any rubber, latex or reclaimed and scrap rubber.

2. By inserting immediately after subparagraph (a) (6) thereof the following new subparagraph designated (a) (7):

(7) "Reclaimed and scrap rubber" means all rubber and products and by-products of rubber commonly known as scrap rubber, whether vulcanized or not and whether or not contained in any mixture or compound, and all rubber reclaimed by any process, but does not include rubber or latex as defined in subparagraph (a) (1) hereof, balata, gutta-percha, gutta siak, gutta jelutong or pontianac.

3. By changing paragraph (h) thereof to read as follows:

(h) *Limitation of inventories.* No person shall purchase or receive delivery of rubber, latex or reclaimed and scrap rubber or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, in quantities which shall result in an inventory of such material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of rubber, latex and reclaimed and scrap rubber products by this Order. An inventory of rubber or latex in excess of a quantity reasonably expected to last not more than sixty days shall be deemed to be in excess of a practicable working inventory unless otherwise specifically authorized by the Director of Industry Operations or the Rubber Reserve Company. An inventory of reclaimed and scrap rubber in excess of a quantity reasonably expected to last not more than sixty days shall be deemed to be in excess of a practicable working inventory unless otherwise specifically authorized by the Director of Industry Operations: *Provided*, That this restriction on inventories of reclaimed and scrap rubber shall not apply to any person engaged in the business of reclaiming rubber.

4. By inserting immediately after paragraph (j) the following new paragraphs designated (k), (l), (m) and (n):

(k) *General restriction on the acquisition of reclaimed and scrap rubber.* No person shall purchase, accept delivery of or otherwise acquire any reclaimed or scrap rubber for any purpose except for the purpose of consuming the same in the manufacture of any of the products hereinafter permitted by paragraph (l): *Provided*, That nothing in this Order shall prevent any dealer in scrap rubber from acquiring reclaimed and scrap rubber in the usual course of his business for the purpose of selling the same to another dealer in scrap rubber or to any manufacturer of rubber products.

(l) *General restriction on the consumption of reclaimed and scrap rubber.* After March 31, 1942, no person shall consume any reclaimed and scrap rubber for any purpose except (subject to the provisions of paragraph (d)) one or more of the following:

(1) To manufacture any of the products for which rubber or latex may be consumed under the provisions of paragraph (b) and (c) hereof: *Provided*, That no person shall consume any reclaimed and scrap rubber to fill any war order until he has forwarded to the Rubber and Rubber Products Branch of the War Production Board a report complying with the requirements of subparagraph (b) (1).

(2) To manufacture products of the groups listed in List E: *Provided*, That no person shall consume more reclaimed and scrap rubber during any calendar month in the production of any such group of products than a quantity determined (by weight) as follows:

(i) Ascertain the average monthly consumption of reclaimed and scrap rubber consumed by such person in the manufacture of products of the same group during the last three months of the year 1941;

(ii) Add to the amount so ascertained an amount equal to 166⅔ percent of the amount (if any) of the average monthly consumption of rubber and/or latex by such person in the manufacture of such group of products during such three month's period;

(iii) Multiply the amount determined pursuant to subparagraph (ii), above, by the appropriate percentage, the percentage for each group of products being that set forth in List E opposite the heading of such group.

(3) To manufacture products of the groups listed in List F: *Provided*, That no person shall consume more reclaimed and scrap rubber during April, 1942, in the production of any such groups of

[1] 6 F.R. 6406, 6644, 6792; 7 F.R. 511, 1106, 1634.

products than a quantity determined (by weight) as follows:

(i) Ascertain the average monthly consumption of reclaimed and scrap rubber consumed by such person in the manufacture of products of the same group during the last three months of the year 1941.

(ii) Add to the amount so ascertained an amount equal to 166⅔ percent of the amount (if any) of the average monthly consumption of rubber and/or latex by such person in the manufacture of such group of products during such three month's period;

(iii) Multiply the amount determined pursuant to subparagraph (ii) above, by 60 percent.

Provided further, That beginning May 1, 1942, no person shall consume any reclaimed and scrap rubber for any such purpose without the prior approval of the Director of Industry Operations.

(m) *Limitation on consumption of reclaimed and scrap rubber during March 1942.* No person shall consume reclaimed and scrap rubber during that part of the month of March 1942, remaining after the effective date of this Order, in making any product, whether set forth in Lists E and F or not, at a rate in excess of his consumption of reclaimed and scrap rubber in making similar products during the corresponding portion of the month of February 1942.

(n) *General restriction on the destruction of certain rubber articles.* No person shall, unless expressly permitted by the Director of Industry Operations, destroy by burning or any other means, all or any part of any tire, tire casing or tire tube, or any waterproof footwear, heel, sole, hose, belting or storage battery box, whether worn out or not, which is composed in whole or in part of any kind of rubber (including but not limited to rubber and latex, as defined in paragraph (a) hereof, scrap rubber, reclaimed rubber and synthetic rubber), except in the following cases:

(1) The consumption of any such article by any manufacturer of rubber products as a necessary incident to his manufacturing operations.

(2) The consumption of any such article by any person engaged in the business of reclaiming scrap rubber as a necessary incident to such reclaiming operations.

(3) The destruction of any such article (without destroying the rubber therein) for the purpose of selling its component parts to any person engaged in the business of reclaiming rubber, or to a dealer in scrap rubber for resale by him to a person engaged in the business of reclaiming scrap rubber. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This Order shall be effective as of the date of its issuance.

Issued this 20th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1090—AGAVE FIBER

AMENDMENT NO. 2 TO GENERAL PREFERENCE ORDER M-84

Section 1090.1 (*General Preference Order M-84*)[1] is hereby amended in the following respects:

1. Paragraph (c) (3) is hereby amended to read as follows:

(3) by importers, dealers, jobbers, or processors to any one of the foregoing pursuant to contracts entered into on or before February 20, 1942.

2. Paragraph (c) is amended by adding thereto the following subparagraphs:

(5) where only tow, waste, bagasse, fiume, fiber less than 20" in length, and/or other qualities unsuitable for manufacture into cordage or twine is involved, by importers, jobbers, dealers, or processors to any one of the foregoing, provided that such fiber was on hand in the United States as of February 20, 1942, or is thereafter imported into the United States in accordance with paragraph (c) (3) hereof.

(6) by processors to processors.

3. Paragraph (f) is amended by adding at the end thereof the following:

Provided, however, That during the months of March and April, 1942, deliveries of binder twine may be made to persons having contracts for delivery of sand bags on defense orders in the minimum amounts necessary to enable such persons to make their required deliveries of such sand bags in such months and such binder twine may be used for such purpose. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W. P. B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This Amendment shall take effect immediately. Issued this 21st day of March 1942.

PART 1122—METAL HOUSEHOLD FURNITURE

LIMITATION ORDER L-62

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron or steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1122.1 *General Limitation Order L-62*—(a) *Definitions.* For the purposes of this Order:

(1) "Metal household furniture" means all household furniture containing more than 5% of metal in the net weight of the finished product (other than such minimum amount of iron or steel as is essentially required for nails, nuts, bolts, screws, clasps, rivets and other joining hardware for the construction and assembly of non-metal structural parts) and including but not limited to:

(i) Metal porch and garden furniture including chairs, tables, gliders, swings, seats, benches, urns, ferneries, ornamental wall brackets and hangers, refreshment carts, beach and lawn umbrellas, ornamental awning supports, weather vanes, stands, hammocks, sunshades, chaise longues (with or without wheels), sun tans, couch hammocks, and sand boxes;

(ii) Other metal furniture including tables (folding and non-folding), chairs (folding and non-folding), tea wagons, buffets, dressers, chiffoniers and chifferobes, vanities, wardrobes, benches, chests, (drawer type), kitchen cabinets and cupboards, undersink cabinets, broom cabinets, utility cabinets, Venetian blinds, stools, shoe racks, medicine cabinets, smoking stands and ash trays, radiator covers, porcelain table tops, settees, davenports, table desks, chiffodesks, knee-hole desks, flexible steel mats, metal picture frames and mirror frames, coat and hat racks, under-lavatory closets, clothes hampers, drapery attachments, flower vases, and broom racks;

(iii) But not including furniture such as cots, beds, studio couches, sofa beds, bunks, berths (all types), mattresses, and bed springs, or any wood upholstered furniture unless such wood upholstered furniture contains more than 5% of metal in the net weight of the finished product other than metal contained in springs or wire used in backs, seats, or cushions.

(2) "Iron and steel used" means:

(i) The aggregate weight of iron and steel cut or processed by any manufacturer subject to this Order for use in the production of metal household furniture, plus

(ii) The aggregate weight of iron and steel contained in purchased parts, when such parts are put into the production of metal household furniture.

(3) "Base period" means the period from July 1, 1940 to June 30, 1941.

(4) "Class A manufacturer" means those manufacturers who used during the base period more than 500 tons of iron and steel in the aggregate for the production of metal household furniture.

(5) "Class B manufacturers" means those manufacturers who used during the base period, less than 500 tons of iron and steel in the aggregate for the production of metal household furniture.

(6) "Restricted period" means the period from the effective date of this Order to March 31, 1942.

(7) "Average daily use" means the total amount of iron and steel in the aggregate used by a manufacturer from July 1, 1940 to June 30, 1941, divided by 365.

(b) *General restrictions.* (1) During the restricted period no manufacturer shall use for the production of metal household furniture a greater total of iron and steel in the aggregate than the percentage of his average daily use of iron and steel specified below multiplied by the number of days (including Sundays and holidays) contained in the restricted period:

(i) Class A manufacturers, 55%;

(ii) Class B manufacturers, 70% but not more than 23 tons.

(2) During the month of April, 1942, no manufacturer may use for the production of metal household furniture a percentage of the average monthly amount of iron and steel in the aggregate used by him during the base period greater than that specified below:

(i) Class A manufacturers, 45%;

(ii) Class B manufacturers, 60% but not more than 19 tons.

(3) During the month of May, 1942, no manufacturer may use for the production of metal household furniture a percentage of the average monthly amount of iron and steel in the aggregate used by him during the base period greater than that specified below:

(i) Class A manufacturers, 35%;

(ii) Class B manufacturers, 50% but not more than 16 tons.

(4) From the effective date of this Order no manufacturer may, in the production of metal household furniture:

(i) use any metal other than iron or steel;

(ii) procure or acquire any metal other than iron or steel from any source whatsoever; or

(iii) procure or acquire any iron or steel except from the inventories of other manufacturers of metal household furniture.

(5) From the effective date of this Order no manufacturer of metal household furniture may sell, lease, trade, lend, deliver, ship or transfer any metal other than iron or steel to any person whatsoever, except pursuant to specific authorization of the Director of Industry Operations.

(6) From May 31, 1942, no manufacturer of metal household furniture may sell, lease, trade, lend, deliver, ship or transfer any iron or steel to any person whatsoever, except pursuant to specific authorization of the Director of Industry Operations.

(c) *Prohibition of production after May 31, 1942.* No manufacturer shall after May 31, 1942, process, fabricate, work on or assemble any materials for use in the production of metal household furniture, nor shall any manufacturer produce or assemble any metal household furniture after that date.

(d) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Violations.* Any person who wilfully violates any provisions of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the "War Production Board, Washington, D. C., Ref: L-62", setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: L-62.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. PART 958—MAINTENANCE, REPAIRS AND OPERATING SUPPLIES

INTERPRETATION NO. 2 OF PREFERENCE RATING ORDER NO. P-100,[1] AS AMENDED

The following official interpretation is hereby issued by the Director of Industry Operations with respect to § 958.2 (Preference Rating Order No. P-100, as amended from time to time):

"Operating Supplies," as defined in paragraph (b) (5) of Preference Rating Order No. P-100, does not include typewriters, adding machines or other business machines, desks, filing cabinets or other such items of durable office equipment, and the preference rating assigned by Preference Rating Order No. P-100 may in no circumstances be applied to deliveries of such items. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 FR. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

PART 1010—SUSPENSION ORDERS

SUSPENSION ORDER NO. S-13

Stearns-Mishkin Construction Co., Inc.

Stearns-Mishkin Construction Company, Inc., Washington, D. C., engaged in the construction of Defense Housing Projects in the District of Columbia. On October 13, 1941, the Company filed an application for the issuance to it of Preference Rating Order P-55, covering the construction of a Defense Housing Project. The Company represented to the Director of Priorities, Office of Production Management, that the proposed sale price of each dwelling unit was $6,000. Pursuant to this application, Preference Rating Order P-55, Serial No. 77000-81-088-DC., was issued to the Company on October 31, 1941. Prior to the filing of this application the Company had sold sixteen of the dwelling units at prices in excess of $6,000 each. During the pendency of its application for the issuance of Preference Rating Order P-55 and subsequent to the issuance of this Order, the Company sold ten dwelling units for prices ranging from $6,690 to $7750 each. These sales were made by the Company despite the fact that it was aware that such prices were in excess of $6,000 which had been represented to the Director of Priorities as the proposed sale price for each dwelling unit. The Company also extended Preference Rating Order P-55 in order to obtain certain materials the delivery of which was not entitled to preference rating.

In view of the foregoing facts,

It is hereby ordered:

§ 1010.13 *Suspension order S-13.* (a) During the period in which this Order shall be in effect, deliveries of materials to Stearns-Mishkin Construction Company, Inc., Washington, D. C., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned or applied to such deliveries to Stearns-Mishkin Construction Company, Inc., its successors and assigns, by means of Preference Rating Certificates, Preference Rating Orders, General Preference Orders, or any other Orders or Regulations of the Director of Industry Operations.

(b) During the period in which this Order shall be in effect no Defense Housing Project or other construction being erected or to be erected in whole or in part by Stearns-Mishkin Construction Company, Inc., its successors and assigns, either for itself or for any other person, shall be accorded priority assistance by the issuance of Preference Rating Order P-19 or Preference Rating Order P-55 Amended or by any other Order or Certificate issued by the Director of Industry Operations.

(c) This Order shall take effect immediately and shall expire on March 1, 1943. Within 60 days after the effective date of this Order, Stearns-Mishkin Construction Company, Inc. may apply for the termination of this Order by submitting to the Compliance Branch of the Division of Industry Operations proof that it has complied with the following condition: that it has made restitution on account of the sale price or modified its contracts for the sale of those dwelling units of the Defense Housing Project described in Preference Rating Order P-55, Serial No. 77000-81-088-D. C., which were sold after October 13, 1941, so as to reduce the sale price of each such dwelling unit to $6,000; that it has sold or offered for sale the remaining dwelling units in the Defense Housing Project at not more than $6,000 per unit; and that with respect to those dwelling units included in the Defense Housing Project which were sold prior to October 13, 1941, it has made restitution or modified its contracts of sale so as to reduce the sale price of each such dwelling unit by 5%. Upon the submission of such proof, the Compliance Branch will recommend to the Director of Industry Operations that this Order be terminated. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. PART 1010—SUSPENSION ORDERS

SUSPENSION ORDER NO. S-15

Matthew G. Lepley

Matthew G. Lepley of Washington, D. C., is an architect and was employed by Stearns-Mishkin Construction Company, Inc., Washington, D. C., to obtain preference rating assistance for the construction of Defense Housing Projects. On the thirteenth and twenty-first days of October 1941, Matthew G. Lepley in behalf of the company filed applications for the issuance of Preference Rating Order P-55, covering the construction of two separate Defense Housing Projects. Matthew G. Lepley represented to the Director of Priorities, Office of Production Management, in each application that the proposed sale price per dwelling unit was $6,000 and that all of the dwelling units had been sold to Government employees. Pursuant to these applications, Preference Rating Orders P-55, Serial Numbers 77000-123-071-D. C. and 77000-81-088-D. C. were issued to the company on October 31, 1941. Upon the dates of the filing of these applications all of the dwelling units had not been sold to Government employees, and the representations that they had been sold to Government employees constituted misrepresentations to the Director of Priorities. During the pendency of the application for and after the issuance of Preference Rating Order P-55, Serial Number 77000-81-088-D. C., covering a Defense Housing Project consisting of thirty-six dwelling units, ten dwelling units thereof were sold for prices ranging from $6,690 to $7,750 each. Upon the date Matthew G. Lepley applied for the issuance of this Order, he was aware that the company intended to sell each of the dwelling units remaining unsold at a sale price in excess of $6,000, and his statement that the proposed sale price for each such dwelling unit was $6,000 constituted a misrepresentation to the Director of Priorities. In view of the foregoing:

It is hereby ordered:

§ 1010.15 *Suspension order S-15.* (a) During the period in which this Order shall be in effect, no application for priority assistance, now filed or hereafter to be filed by Matthew G. Lepley, Washington, D. C., either in his own behalf or in behalf of any company which he may represent, shall be granted.

(b) During the period in which this Order shall be in effect, no Defense Housing Project or other construction with which Matthew G. Lepley is directly or indirectly connected, or upon which he is employed shall be accorded priority assistance by the issuance of Preference Rating Order P-19 or Preference Rating Order P-55 Amended or by any other Order or Certificate issued by the Director of Industry Operations.

(c) This Order shall take effect immediately and shall expire on March 1, 1943. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.).

Issued this 21st day of March 1942.

Director of Industry Operations.

PART 1096—WOOD PULP

AMENDMENT NO. 1 TO § 1096.1 (GENERAL PREFERENCE ORDER M-93[1]).

Subsection (a) of § 1096.1 (General Preference Order M-93) is hereby amended to read as follows:

§ 1096.1 *General Preference Order M-93*—(a) (1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Limitation of inventory.* Until May 1, 1942, no person shall knowingly make or accept delivery of any grade of wood pulp, domestic or imported, if the inventory of such grade of wood pulp of the person accepting delivery, in the same or other forms, is, or will by virtue of such acceptance become, in excess of sixty calendar days' supply (excluding Sundays and holidays) of such grade, on the basis of current method and rate of operation during any ninety calendar days (excluding Sundays and holidays) of the previous six months, stored either at plant or in separate warehouse: *Provided, however,* That the foregoing shall not apply to groundwood pulp, or to wood pulp held for delivery under the Lend-Lease Act of March 11, 1941, or to wood pulp held for the manufacture of products for ordnance purposes, for the manufacture of photographic base paper, or for the manufacture of rayon or rayon staple. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This amendment shall take effect immediately.

Issued this 21st day of March 1942.

PART 1126—CAN ENAMEL

CONSERVATION ORDER M-108

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Enamel, as hereinafter defined, and of the materials entering thereinto, for defense, for private account and for export, and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1126.1 *Conservation order No. M-108*—(a) *Definition.* For the purpose of this Order:

(1) "Enamel" means any organic protective coating, lacquer, or varnish containing tung, perilla or oiticica oils; phenolic, alkyd, vinyl, cellulose resins; or fossil gums or combinations thereof.

(2) "Can" means any container which is intended for packing, packaging or putting up products of any kind and which is made, in whole or in part, of tinplate, terneplate, blackplate, or fiber, or any combination thereof, and includes closures, crowns and caps, but does not include any closures, crown or cap to be used on, or as a part of, a glass container.

(3) "Tinplate" means blackplate coated on one or both sides by dipping in molten tin.

(4) "Terneplate" means blackplate coated on one or both sides with a lead-tin alloy.

(5) "Blackplate" means any sheet steel plate suitable for manufacture into a container, and, for the purpose of this Order, shall also include any waste tinplate, terneplate, or scrap produced in the ordinary course of manufacturing cans out of tinplate or terneplate.

(b) *Prohibition of use of enamel.* No person shall hereafter manufacture Cans, including heat processed food Cans, with Enamel coating on the exterior surface of the ends thereof, where such ends are made of Tinplate or Terneplate: *Provided, however,* That the prohibitions and restrictions contained herein shall not prevent:

(1) The use of Enamel as an exterior coating on Can ends where required to protect from damage and deterioration lithographed printing thereon used to designate contents or to label such Cans where other means of labeling or designating the contents thereof are impracticable; or

(2) The use of Enamel to coat the exterior surface of Can ends made of electro-plated tinned sheet, Blackplate or of any untinned material; or

(3) The manufacture, closing, use or sale of Cans which were coated with Enamel prior to the effective date of this Order or the use in the manufacture of Cans of Materials, including Tinplate or Terneplate sheets, which were coated with Enamel prior to said date; or

(4) The use of Enamel in the manufacture of Cans pursuant to a specific contract or sub-contract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) to the extent that such use is required by the specifications of the prime contract.

(c) *Prohibition of sale of enamel and purchase of cans.* No person shall hereafter sell or deliver enamel to any person if he knows or has reason to believe that such enamel is to be used in violation of paragraph (b) hereof, nor shall any canner purchase or accept delivery of Cans which he knows or has reason to believe were manufactured in violation of said paragraph (b).

(d) *Further conservation of enamel.* All persons concerned with the manufacture of Cans and canning shall use their best efforts to effectuate conservation of Materials by reducing the dry film weight of Enamel coating upon the interior and exterior metal surfaces of Cans, where control of such weight is practicable, to nine-tenths of the weight considered standard practice in the Can and metal container manufacturing industry in 1940, or less where practicable.

(e) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Violations or false statements.* Any Person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(3) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Enamel conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the Director of Industry Operations by addressing a letter to the War Production Board, Chemicals Branch, Washington, D. C., Ref: M-108, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(f) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

ORDER DEFINING AND DELIMITING CERTAIN OF THE FUNCTIONS AND POWERS OF OFFICERS AND EMPLOYEES OF THE OFFICE OF PRICE ADMINISTRATION

Pursuant to the authority of the Emergency Price Control Act of 1942 and War Production Board Directive No. 1, as supplemented, the following order is prescribed:

§ 1305.2 *Defining and delimiting certain of the functions and powers of officers and employees*—(a) *Institution of civil proceedings.* The General Counsel or the Acting General Counsel, the Associate General Counsel or the Acting Associate General Counsel, and the Assistant General Counsel in charge of the Enforcement Section or the Acting Assistant General Counsel in charge of the Enforcement Section are each authorized to institute, in the name of the Administrator, appropriate civil actions or proceedings; and any of them may authorize any other attorney employed by the Office of Price Administration to institute any designated civil action or proceeding. Except as herein provided, no other officer or employee of the Office of Price Administration, whether employed in the principal office in Washington, D. C., or in any regional or field office, has authority to institute proceedings on behalf of the Administrator.

(b) *Service of process upon the Administrator.* Service of process upon the Administrator may be made by serving him personally, or by leaving a copy thereof at the Office of the Secretary, Office of Price Administration, Washington, D. C. No other officer or employee of the Office of Price Administration, whether employed in the principal office in Washington, D. C., or in any regional or field office, is authorized to accept service of process on behalf of the Administrator or enter his appearance in any action or proceeding, except as hereinafter provided.

(c) *Appearance for the Administrator.* The General Counsel or the Acting General Counsel, the Associate General Counsel or the Acting Associate General Counsel, and the Assistant General Counsel in charge of the Court Review, Research, and Opinion Section or the Acting Assistant General Counsel in charge of the Court Review, Research, and Opinion Section may each specifically authorize any attorney employed by the Office of Price Administration to enter an appearance for the Administrator in any action instituted against the Administrator or the Office of Price Administration in the Emergency Court of Appeals. The General Counsel or the Acting General Counsel, the Associate General Counsel or the Acting Associate General Counsel, and the Assistant General Counsel in charge of the Enforcement Section or the Acting Assistant General Counsel in charge of the Enforcement Section, may specifically authorize any attorney employed by the Office of Price Administration to enter an appearance on behalf of the Administrator or the Office of Price Administration in any other action or proceeding.

(d) *Effective date.* This order shall take effect March 20, 1942. (Public Law 421, 77th Cong., 2d Sess., January 30, 1942; 7 F.R. 562, 698, 925, 1493, 1669, 1792)

Issued this 20th day of March, 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1312—LUMBER AND LUMBER PRODUCTS

MAXIMUM PRICE REGULATION NO. 109—AIRCRAFT SPRUCE

In the judgment of the Price Administrator the prices of aircraft spruce are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of aircraft spruce prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.[1]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, Maximum Price Regulation No. 109 is hereby issued.

§ 1312.351 *Maximum prices for aircraft spruce.* On and after April 1, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver aircraft spruce, and no person shall buy or receive aircraft spruce, in the course of trade or business, at prices higher than the maximum prices set forth in Appendices A, B, and C hereof, incorporated herein as §§ 1312.360, 1312.361, and 1312.362; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of aircraft spruce to a purchaser if prior to April 1, 1942, such aircraft spruce had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.*

*§§ 1312.351 to 1312.362, inclusive, issued the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1312.352 *Less than maximum prices.* Lower prices than those set forth in Appendices A, B, and C (§§ 1312.360, 1312.361 and 1312.362) may be charged, demanded, paid or offered.*

§ 1312.353 *Conditional agreements.* No seller of aircraft spruce shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by §§ 1312.360, 1312.361 and 1312.362, in the event that this Maximum Price Regulation No. 109 is amended or is determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment (or for adjustment or for exception) has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or for exception).*

§ 1312.354 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 109 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to aircraft spruce, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited: Making terms or conditions of sale more onerous to the purchaser than those in effect or available to the purchaser on October 1, 1941; unnecessarily routing aircraft spruce through a distribution yard; unreasonably refusing to ship aircraft spruce except in specified widths or thicknesses; falsely or wrongly grading or invoicing aircraft spruce.*

§ 1312.355 *Records and reports.* (a) On and after April 1, 1942, every person, who, during any calendar month offers or agrees to sell, sells, or delivers, or offers or agrees to buy, buys, or receives a total of 1,000 board feet or more of aircraft spruce in the course of trade or business, shall keep for inspection by the Office of Price Administration for a period of not less than two years, a complete and accurate record of every such offer, agreement, purchase, sale or delivery, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity of each kind or grade purchased or sold.

(b) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.*

§ 1312.356 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 109 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 109 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.*

§ 1312.357 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 109 or any adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.*

§ 1312.358 *Definitions.* (a) When used in this Maximum Price Regulation No. 109, the terms:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Aircraft spruce" means spruce lumber, plank, boards, flitches and cants produced within the United States, exclusive of Alaska, suitable for use in the construction of aircraft.

(3) "Deliver" means to make physical transfer to the purchaser, or to a carrier not owned or controlled by the seller, for carriage to the purchaser, to whom the goods have been sold.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.*

§ 1312.359 *Effective date.* This Maximum Price Regulation No. 109 (§§ 1312.351 to 1312.362, inclusive) shall become effective April 1, 1942.*

[1] The statement of considerations has been filed with the Division of the FEDERAL REGISTER.

Random lengths and random widths	6' to 20' (average 13')	425.00	382.50	425.00	467.50	467.50	467.50	425.00

(1) For kiln dried the following additions to rough green prices may be made: 2" and thinner, add $30.00 per 1,000 ft. B. M.; for thicker than 2" add $30.00 per 1,00 ft. B. M., plus 10% of rough green price.

(2) In the case of random length groups other than those listed, the price shall be computed by determining the quantity falling into each of the named groups and pricing each such quantity at the random price listed for the group into which each such quantity falls.

(3) In the case of specified lengths, the price for any length shall be the same as the random length price listed for the group into which each such specified length falls.

(4) In the case of specified widths narrower than 7 inches the price for any width shall be the same as the random width price.

(b) Aircraft spruce sold under "American Specifications" is subject to the following rules:

(1) Aircraft Spruce shall be furnished rough sawn in only one quality.

(2) The following species of spruce may be used: Sitka spruce (Picea sitchensis), red spruce (Picea rubens), white spruce (Picea canadensis).

(3) All detail of workmanship in the manufacture of spruce lumber and its preparation for shipment shall be in accordance with high-grade commercial practice covering this class of work.

(4) The following detail requirements apply:

(i) The angle of deviation of the grain from a line parallel to the edges shall not exceed 1 inch in 15 inches.

(ii) Vertical or flat grain will be accepted provided each shipment does not contain more than 25 per cent of flat grain pieces.

(iii) There shall not be fewer than 6 annual rings in any 1 inch when measured in a radial direction on either end section.

(iv) The lumber shall be strong, tough, elastic, and not brashy.

(v) The specific gravity shall not be less than 0.36 based on volume and weight when oven dry.

(vi) The entire number of pieces in each shipment shall be free of knots, except that one knot ¼ inch or less in diameter will be permitted within any 3 square feet of the surface on which it appears.

(vii) All pieces shall be free of hard grain (compression wood).

(viii) At least 75 per cent of the entire number of pieces in each shipment shall be free of burly, curly, gnarly, or irregular grain. In the pieces comprising the remaining 25 per cent, burls or similar irregularities of grain and other defects will be allowed, provided that the purchaser is able to obtain from each piece clear, sound, straight-grained cuttings over 12 feet in length and not less than 4 inches wide, by sawing out and discarding not more than 30 per cent of the total volume of the piece.

(ix) One closed pitch pocket or seam not more than ¼ inch deep, ⅛ inch wide, or 2 inches long will be permitted for each 3 square feet of surface, or its equivalent in smaller ones provided they are not in the same adjacent rings of annual growth.

(x) All pieces shall be free of warp, shake, sap stain, rot, dote, red heart, purple heart, heart stain, and all other forms of decay. Bright sap is no defect.

(xi) Wane will be allowed on 5 per cent of the pieces, but it shall in no case exceed ¼ the thickness, ⅛ the width and ⅛ the length of the piece.

(xii) Thickness, widths, and lengths shall be as ordered. All dimensions shall

be full. Thickness will be measured in fractions of ¼ inch, widths in fractions of ½ inch, and lengths in fractions of ½ foot. Fractions of a foot are to be treated as follows: even half feet shall be alternately counted out and allowed as a whole foot. Fractions under a half foot shall be dropped; fractions over a half foot shall be allowed as a whole foot.

(xiii) When kiln dried is specified the moisture content shall not be less than 8 per cent or more than 15 per cent.

(5) The issue of the following specifications in effect on date of issuance of this Regulation forms a part of this specification:

U. S. Army---- 32–4 Wood, specific gravity of.
U. S. Army---- 33–13 Kiln-drying process for aircraft lumber (applicable when kiln dried is specified).
U. S. Army---- 100–2 Standard specifications for marking shipments.

(c) A delivered price in excess of the maximum f. o. b. mill prices set forth in this Appendix A may be charged, consisting of such maximum prices plus actual transportation costs paid by the seller. However, for the purposes of this section, the following two practices shall not be deemed a deviation from the use of actual transportation costs:

(1) the charging of a sum equivalent to the one-quarter of a dollar nearest to such actual transportation costs; and

(2) the adoption of the following estimated average weights of aircraft spruce per thousand feet board measure:

	Pounds per 1,000 feet
Aircraft spruce weights (all grades):	
Rough green, all sizes	3,500
Rough dry 1"	2,600
Rough dry 1¼, 1½, and 1¾, and 2"	2,800
Rough dry 2½" and thicker	2,900

§ 1312.361 *Appendix B: Maximum prices for aircraft spruce, United Kingdom specifications.* (a) The maximum prices per 1000 feet board measure for rough green aircraft spruce, F. A. S. Seattle, Washington; Tacoma, Washington; or Portland, Oregon, shall be as follows:

(1) *Selace Grade*---------- $265.00
The specifications for Selace grade are as follows:
Sizes: 2" and thicker by 4" and wider, 15 feet and longer (2" and 3" thicknesses must be edge grain; 4" and thicker may be Random, Flat or Edge (vertical grain)).
Deviation of grain: (maximum): 1" in 15"
Rate of growth: 7 annual rings minimum
Texture: Perfect
Description: Each piece shall contain 50 per cent of clear aero spars of minimum size 2" thick by 4" wide 15 feet in length. Hard grain not permitted in such cuttings. 12½ per cent of each such piece shall contain material of clear aero cuttings of minimum 4 feet in length. 25 per cent of each such piece shall contain useful short cuttings of clear lumber. 12½ per cent of waste allowed in each piece including sap and hard grain.

(2) *Ace High Grade:* Random, Flat or Edge (vertical) Grain---------- $215.00
The specifications for Ace High Grade are as follows:
Sizes: 2" and thicker by 4" and wider, 15 feet and longer. Same as Selace Grade Random except: 2" and 3" Flat grain must be 100 percent Selace quality.
Description: 4" and thicker to contain 40 per cent of material of clear aircraft grade of minimum size 2" thick by 4" wide, 15 feet in length. Balance of each such piece shall contain material of clear grade good texture which will develop at at least 70 per cent of clear lamina cuttings 15 feet and longer.

(3) *FLL Grade:* Random, Flat or Edge (vertical Grain)---------- $165.00
The specifications for FLL Grade are as follows:
Sizes: 3" and thicker by 4" and wider, 15 feet and longer; small percentage of 2" may be included.
Deviation of grain: (maximum) ½" in 12"
Rate of growth: 6 annual rings (minimum)
Texture: Good
Description: Each piece shall contain 70 percent clear lamina cuttings 15 feet and longer.

(4) *Thin Aero Grade:* Random, Flat or Edge (vertical) Grain---------- $155.00
The specifications for Thin Aero Grades are as follows:
Sizes: 1" to 3" thick by 3" and wider, 10 feet and longer, permitting 1" to 3" thick, 3" and wider, 6 to 9 feet in length at one-half price.
Deviation of grain: (maximum) 1" in 15".
Rate of growth: 7 annual rings (minimum).
Texture: Perfect.
Description: Each piece must be perfect Selace texture, free from defects including coarse, hard or brashy grain.

(5) *FLLS Grade:* Random, Flat or Edge (vertical) Grain---------- $90.00
The specifications for FLLS Grade are as follows:
Sizes: 3" and thicker by 4" and wider, 6 feet to 14 feet in length, small percentage of 2" permitted.
Deviation of grain: (maximum) 1" in 12".
Rate of growth: 6 annual rings (minimum).
Texture: Good.
Description: Each piece shall contain 70 percent clear lamina cuttings 7 feet and longer.

(6) *H. G. Grade:* Random, Flat or Edge (vertical) Grain---------- $130.00
The specifications for HG Grade are as follows:
Sizes: 2" and thicker, 4" and wider, 10 feet to 14 feet long
Deviation of grain: (maximum) 1" to 15"
Rate of growth: 7 annual rings (minimum)
Texture: Perfect
Description: Each piece must contain Selace quality cuttings 10 feet long or longer, only one cutout or defect per piece, such as a pitch pocket, small burl or knot, not affecting more than ⅓ the width of the piece.

(7) *HGS Grade:* Random, Flat or Edge (vertical) Grain---------- $100.00
The specifications for HGS Grade are as follows:
Sizes: 2" and thicker, 4" and wider, 5 feet to 9 feet in length (approximate 5 per cent of 4 feet permitted)
Deviation of grain: (maximum) 1" to 15"
Rate of growth: 7 annual rings (minimum)
Texture: Perfect
Description: Each piece must be Selace quality, no defects.

(b) The following provisions are applicable to all grades:

(1) All grades shall be clear Sitka spruce, 100 per cent heartwood, free from all defects including burly, curly, gnarly, spiral or irregular grain.

(2) No piece shall have a greater section than 72 square inches; e. g., maximum sizes are 5" x 14", 6" x 12", 7" x 10", and 8" x 9".

(3) Aircraft spruce furnished under these specifications shall represent a fair average assortment of the specified grades, lengths and widths.

(c) The following definitions are applicable to this Appendix B:

(1) "Edge (vertical) grain": Unless otherwise specified, a piece shall be considered "edge (vertical) grain" when the annual rings form an angle of not more than 45 degrees from vertical.

(2) "Flat (slash) grain": A piece shall be considered "flat (slash) grain" when the annual rings form an angle of more than 45 degrees from vertical.

(3) "Random (mixed) grain" means any combination of edge and/or flat grain.

(4) "Grain deviation" means the maximum deviation of the grain from a line parallel to the edges of the piece.

(5) "Rate of growth": The "rate of growth" specified shall be the minimum number of annual rings to each inch, measured at right angles to the direction of the rings, on both end sections.

(6) "Perfect" texture means that the fiber of the wood shall be strong, tough and elastic. It excludes brashy, short or hard grain (compression wood) or pieces of abnormally light weight.

(7) "Good" texture shall mean strong, tough and elastic lumber but possessing these qualities in a slightly lesser degree than "Perfect" texture, free from brashy, coarse, or hard grain, and free from pieces of abnormally light weight.

(8) "Lamina cuttings" shall mean material suitable for remanufacture into strips of any thickness required for use as members in built-up or glued lamination. Such material should be of clear type but may contain slight imperfections such as narrow pitch pockets, knots, slight stain, etc., but must be of "good" texture.*

§ 1312.362 *Appendix C: Maximum prices for non-standard grades and specifications.* For grades and specifications other than those for which maximum prices are provided in Appendices A (§ 1312.360) and B (§ 1312.361), of this Maximum Price Regulation No. 109, the maximum price shall be that of the most closely corresponding grade and specification of aircraft spruce for which a maximum price is provided in Appendix A or B.*

Issued this 20th day of March, 1942.

PART 1335—CHEMICALS

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 68[1] HIDE GLUE STOCK

A statement of the considerations involved in the issuance of this Amendment has been prepared, and is issued simultaneously herewith.[2]

The two existing paragraphs of § 1335.504 are designated (a) and (c) respectively, and a new paragraph (b) is added thereto, two new paragraphs (c) and (d) are added to § 1335.510, and new § 1335.509a is added, as set forth below:

§ 1335.504 *Records and reports.*
(a) * * *
* * * * *

(b) On or before April 10, 1942, and on or before the 10th day of each third month thereafter, every person who during the preceding three months has made a sale of Packers trimmings, consisting of cattle lips or snouts, for use as crab bait, in quantities of 100 pounds or more, whether for immediate or future delivery, shall submit to the Office of Price Administration a sworn affidavit showing for such previous three month period (1) the aggregate amounts of his sales of such material, (2) the price received therefor, and (3) such other information as the Office of Price Administration shall require.

(c) * * *

§ 1335.510 *Appendix A: Maximum prices for hide glue stock.*
* * * * *

(c) *Cattle lips and snouts; crab bait.* Regardless of any other provision of Revised Price Schedule No. 68 (including paragraph (b) of § 1335.508) the maximum prices established by §§ 1335.501 and 1335.510 thereof do not apply to the purchase or sale of Packers trimmings consisting of cattle lips or snouts when sold or marketed for use as crab bait.

(d) *Pre-existing contracts.* Any person who prior to January 20, 1942, had purchased hide glue stock and had the same in his possession or in the custody of a carrier or warehouse, other than a carrier or warehouse owned or controlled by the person from whom such hide glue stock was purchased, in order to fulfill a contract of sale entered into before January 20, 1942, may deliver such hide glue stock in accordance with such contract; and any person to whom such hide glue stock is delivered, and who had also entered into a contract for the sale thereof prior to January 20, 1942, may in turn deliver such hide glue stock in accordance with the terms of his contract: *Provided,* That any person making a delivery of hide glue stock pursuant to the provisions of this paragraph shall, within ten (10) days after such delivery, submit to the Office of Price Administration in Washington, D. C., a verified statement setting forth: (1) the date upon which he received delivery of such hide glue stock or the date upon which it was transferred to the custody of the carrier or warehouse; (2) the name and address of the supplier; (3) the name and address of the purchaser; (4) the date upon which the contract of sale was made; (5) the form of the contract, i. e. signed agreement, order form, exchange of letters, oral, etc.; (6) the quantity of hide glue stock delivered under the contract of sale after January 20, 1942, together with the date or dates of such deliveries; and (7) the selling price of the hide glue stock so delivered.

§ 1335.509a *Effective date of amendments to Revised Price Schedule No. 68.* (a) Amendment No. 1 (§§ 1335.504 (a) (b) and (c), § 1335.510 (c) and (d) and § 1335.509a) to Revised Price Schedule No. 68, shall become effective on March 24, 1942. Until such date Revised Price Schedule No. 68 continues in effect as if not amended by Amendment No. 1. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 21st day of March 1942.

PART 1335—CHEMICALS

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 76[1]—HIDE GLUE

A statement of the considerations involved in the issuance of this amendment has been prepared, and is issued simultaneously herewith.[2]

A new paragraph (d) is added to § 1335.704 new paragraphs (e) and (f) are added to § 1335.709, and a new § 1335.708a is added, as set forth below:

§ 1335.704 *Records and reports.*
* * * * *

(d) *Imported hide glue.* From and after March 24, 1942, every person making sales of imported hide glue in quantities of 100 pounds or more at prices based upon the landed cost thereof, as provided in paragraph (f) of § 1335.709, shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of each such sale showing the date thereof; the name and address of the buyer; the landed cost of such glue at the port of entry in the United States; each item entering into such landed cost; any additional charges made pursuant to paragraph (f) (2) of § 1335.709; and the specifications and quantity, including the kind and size of the containers, of the glue sold.

§ 1335.709 *Appendix A: Maximum prices for hide glue.*
* * * * *

(e) *Pre-existing contracts.* Any person who prior to January 28, 1942, had purchased hide glue and had such glue in his possession or in the custody of a carrier or warehouse, other than a carrier or warehouse owned or controlled by the person from whom such glue was purchased, in order to fulfill a contract of sale entered into before January 28, 1942, may deliver such glue in accordance with such contract; and any person to whom such glue is delivered, and who had also entered into a contract for the sale thereof prior to January 28, 1942, may, in turn, deliver such glue in accordance with the terms of his contract: *Provided,* That any person making a delivery of hide glue pursuant to the provisions of this paragraph shall, within ten (10) days after such delivery, submit to the Office of Price Administration in Washington, D. C., a verified statement setting forth: (1) the date upon which he received delivery of such glue or the date upon which such glue was transferred to the custody of the carrier or warehouse; (2) the name and address of the supplier; (3) the name and address of the purchaser; (4) the date upon which the contract of sale was made; (5) the form of the contract, i. e., signed agreement, order form, exchange of letters, oral, etc.; (6) the quantity of glue delivered under the contract after January 28, 1942, together with the date or dates of such deliveries; and (7) the selling price thereof.

(f) *Imported hide glue.* The maximum delivered prices for imported hide glue shall be either:

(1) The prices established in paragraphs (a) (b) (c) and (d) of this section; or

(2) At the option of the seller, if shipped in the containers in which it was imported and without admixture with any other glue or other substance, the actual landed cost of such glue, duty paid, at the port of entry in the United States, but in no event to exceed twenty-four cents (24¢) per pound, plus (i) the difference between the producers' maximum price and the jobbers' maximum price for the sale of the same grade of glue, as provided in paragraphs (a) (1) and (2) of this section; (ii) one cent (1¢) per pound when delivered in less than carload lots; and (iii) one-half cent (½¢) per pound when ground to 30 mesh or finer:

Provided, That in the case of imported hide glue with a jelly test in grams of less than 100, the maximum delivered price shall be, in all instances, the actual landed cost of such glue, duty paid, at the port of entry in the United States, but in no event to exceed twenty-four cents (24¢) per pound, *plus* (a) the difference between the producers' maximum price and the jobbers' maximum price for the sale of hide glue with a jelly test in grams of 100–121, as provided in paragraphs (a) (1) and (2) of this section; (b) one cent (1¢) per pound when delivered in less than carload lots;

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

AMENDMENT NO. 3—TO RATIONING ORDER NO. 2A [1]—NEW PASSENGER AUTOMOBILE RATIONING REGULATIONS

Section 1360.372 (c) is hereby repealed; § 1360.310 (f) and (i) are amended; a new paragraph (d) is added to § 1360.362; a new paragraph (c) is added to § 1360.442; and three new §§ 1360.406, 1360.407, and 1360.408 are added; as set forth below:

Definitions

§ 1360.310 *Definitions.*

• • • • •

(f) "New passenger automobile" means any 1942 model passenger automobile, built upon a standard or lengthened passenger car chassis having a seating capacity of not more than ten persons, irrespective of the number of miles it has been driven, or any other such passenger automobile of earlier model which has been driven less than 1,000 miles, including taxis, but not including ambulances, hearses, and station wagons.

• • • • •

(i) "Transfer" means sell, lease, trade, lend, give, deliver, ship, or physically transfer in any other way which involves the use of the automobile, after the transfer, by a person other than the transferor; but does not include delivery to a carrier for shipment, or delivery by a carrier to a consignee; does not include a lease or loan made in good faith for a period of one week or less; does not include a physical return or physical delivery of the automobile to the registered owner thereof, or a physical return or physical delivery by the registered owner to a person who satisfies the conditions of § 1360.407 (b) and (d); and does not include a technical transfer of title for security purposes to a person financing a conditional sale or similar type of transaction, made simultaneously with a transfer of the automobile itself to the conditional sales buyer. It also includes the change of the designation of the registered owner.

(1) The term "transfer" is intended to include the conversion to use of an automobile held for sale or resale, whether or not a change of ownership or possession is involved.

(2) The term "transfer" is not intended to include the registration of an automobile acquired or received under the conditions described in § 1360.407 in the name of the person so acquiring or receiving it.

Transfers Without Certificates

• • • • • •

§ 1360.362 *Persons eligible to acquire only for purposes of resale.*

• • • • • •

(d) Persons duly authorized by law to engage in the insurance business, by exercise of the right of subrogation, or in consequence of the payment of a claim.

Certificates for New Passenger Automobiles

• • • • • •

§ 1360.406 *Definitions.* When used in §§ 1360.407 and 1360.408 following:

(a) "Automobile salesman" means any person regularly employed for the purpose of selling passenger automobiles.

(b) "Acquired" means obtained in a manner consistent with an assertion of ownership by the person claiming acquisition.

(c) "Privately acquired" means acquired from a source other than a manufacturer, distributor, dealer, or other authorized channel of distribution of passenger automobiles.

§ 1360.407 *Conditions required for issuance of Clearance Statements.* Any person desiring to procure the registration, by a state or local agency empowered to register motor vehicles, of any new passenger automobiles acquired under any of the circumstances hereinafter described in paragraphs (a), (b), (c), (d), or (e) of this section, may apply to the appropriate Local Rationing Board for the issuance of a Clearance Statement on Form R–212. Such Board is hereby authorized to issue such Clearance Statement to an applicant therefor in the following cases:

(a) Where an applicant other than a manufacturer, dealer, distributor, or automobile salesman establishes either:

(1) That he acquired, accepted delivery, and had possession of such automobile prior to 6 P. M. EST., on January 1, 1942; or

(2) That such automobile was privately acquired by him and that he accepted delivery and had actual possession prior to February 2, 1942.

An applicant shall not be deemed to have had possession of such automobile for the purposes of this paragraph (a) while it was in the possession or physical control of the person from whom the applicant claims to have acquired it.

(b) Where an applicant other than a manufacturer, dealer, distributor, or automobile salesman shows that prior to February 2, 1942 such automobile was registered in the name of another person, with the knowledge and consent of the applicant, if it is also established:

(1) That the automobile was acquired by the applicant, or by such other person on his behalf, under conditions which satisfy the requirements of paragraph (a) above; and

(2) That prior to or simultaneously with such acquisition the applicant paid or agreed to pay the full purchase price of the automobile; and

(3) That the registration of such automobile in the name of such other person was pursuant to a written or oral agreement entered into at or prior to the date of such registration whereby such other person agreed to return or deliver the automobile to the applicant; and

(4) That such person has returned or delivered such automobile to the applicant and has received no payment or other consideration for such return.

(c) Where an applicant who is a manufacturer, distributor, dealer or automobile salesman establishes:

(1) That he acquired, accepted delivery and had possession of such automobile prior to 6 P. M. EST. on January 1, 1942; and

(2) That prior to 6 P. M. EST on January 1, 1942 such automobile was segregated by him for his personal use and ownership, from those held for sale or resale, and if such automobile was at any time carried on the books or records of a manufacturer, dealer, distributor or automobile salesman as held for sale or resale, that such books or records were changed, or a notation was made thereon prior to January 2, 1942 in some manner calculated to evidence such segregation.

(d) Where an applicant who is a manufacturer, distributor, dealer, or automobile saleman shows that prior to January 2, 1942 such automobile was registered in the name of another person, with the knowledge and consent of the applicant, if it is also established:

(1) That the automobile was acquired by the applicant or by such other person on his behalf under conditions which satisfy the requirements of paragraph (c) above; and

(2) That prior to or simultaneously with such acquisition the applicant paid or agreed to pay the full purchase price of the automobile; and

(3) That the registration of such automobile in the name of such other person was pursuant to a written or oral agreement entered into at or prior to the date of such registration whereby such other person agreed to return the automobile to the applicant; and

(4) That such person has returned such automobile to the applicant and has received no payment or other consideration for such return.

(e) Where any applicant shows by documentary evidence that such automobile was acquired by him pursuant to written authorization of the Administrator of the Office of Price Administration, or of the Director of Priority of the Office of Production Management or of the Director of Industry Operations of the War Production Board.

§ 1360.408 *Form of Clearance Statement R–212.* (a) The Clearance Statement, Form R–212 when issued in accordance with the provisions of § 1360.407, shall be signed by at least two members of the Local Rationing Board, and shall state that the Board has no objection to the registration of the designated new passenger automobile in the name of the applicant. Such Clearance Statement, when issued, shall not be construed as evidence of ownership of the automobile in question. The Clearance Statement shall be serially numbered, and divided into two parts, A and B.

(b) The whole Clearance Statement, together with a postpaid envelope addressed to the Board issuing it, shall be filed by the applicant with the State or Local agency having jurisdiction over the registration of motor vehicles.

(c) Such State or Local agency may retain Part B for its own files and shall forward Part A to the issuing board in the postpaid envelope provided.

(d) The Local Rationing Board shall keep records of all applications granted under this and the preceding section, which shall include Part A of Form R–212, when returned, together with any evidence or documents on the basis of which the application was granted. The Board shall also comply with the posting and release requirements of § 1360.421.

(e) If the new passenger automobile for which registration is sought, pursuant to § 1360.407, was included in the inventory of passenger automobiles made by direction of the Office of Price Administration on or about February 11, 1942, the applicant shall also file with the Board one copy of Form R–203. The Board shall, after registration has been completed and Part A of Form R–212 has been received from the State or Local agency having jurisdiction over the registration of motor vehicles, forward such Form R–203 to the Office of Price Administration, Automobile Inventory Unit, New York, N. Y. No new passenger automobile as to which a Form R–212 has been issued pursuant to §§ 1360.407 and 1360.408 shall be charged against the quota of the issuing board.

PART 1363—FEEDINGSTUFFS

MAXIMUM PRICE REGULATION NO. 74—ANIMAL PRODUCT FEEDINGSTUFFS

Revised Price Schedule No. 74 [1] (§§ 1363.51 to 1363.59, inclusive)—Animal Product Feedingstuffs is revoked and Maximum Price Regulation No. 74—Animal Product Feedingstuffs is hereby issued.

In the judgment of the Price Administrator the prices of animal product feedingstuffs have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of animal product feedingstuffs prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. The maximum prices established herein will have no effect on the prices received by producers of the agricultural commodities from which animal product feedingstuffs are manufactured, for the reason that the animal product feedingstuffs covered by this Regulation are remote by-products of the production of such agricultural commodities. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.[2]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulations No. 1,[3] issued by the Office of Price Administration, Maximum Price Regulation No. 74 is hereby issued.

§ 1363.51 *Maximum prices for animal product feedingstuffs.* On and after March 26, 1942, no person shall sell or deliver animal product feedingstuffs in the course of trade or business at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1363.61; and no person shall agree, offer, solicit, or attempt to do any of the foregoing, except that contracts entered into prior to March 26, 1942, providing for prices higher than the maximum prices, may be carried out at the contract prices. The maximum prices shall include commissions and all other charges.*

*§§ 1363.51 to 1363.61, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1363.52 *Exempt sales.* Sales at retail are excepted from the operation of this Maximum Price Regulation No. 74.*

§ 1363.53 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1363.61) may be charged, demanded, paid, or offered.*

§ 1363.54 *Conditional agreements.* No seller of animal product feedingstuffs shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1363.61, in the event that this Maximum Price Regulation No. 74 is amended or is determined by a court to be invalid or upon any other contingency: *Provided,* That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may

grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.*

§ 1363.55 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 74 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to animal product feedingstuffs, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.*

§ 1363.56 *Records and reports.* (a) Every person making a purchase or sale of animal product feedingstuffs in the course of trade or business, after January 20, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than two years complete and accurate records of each such purchase or sale, including the date thereof, the name of the seller or purchaser, the price paid or received, the amount sold or purchased, and the kind and grade of animal product feedingstuffs sold or purchased.

(b) Such persons shall submit such reports to the Office of Price Administration, and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require.*

§ 1363.57 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 74 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 74 or any price schedule, regulation, or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation, are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.*

§ 1363.58 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 74 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.*

§ 1363.59 *Definitions.* (a) When used in this Maximum Price Regulation No. 74, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Animal Product Feedingstuffs" means meat scraps and digester tankage used as such or as ingredients in the manufacture of mixed feeds for the feeding of livestock and poultry. The term "meat scraps" includes meat meal and meat scraps. The term "digester tankage" includes digester tankage, meat meal tankage, feeding tankage, digester tankage with bone, meat and bone meal digester tankage, meat and bone meal tankage, and feeding tankage with bone.

(3) "Grade" refers to the percentage of protein content per ton of feedingstuff.

(4) "Sale at retail" means a sale to the ultimate user: *Provided*, That no manufacturer, processor, or purchaser for resale shall be deemed to be an ultimate user.

(5) In the phrase "similar amount to the same type of purchaser," the word "similar" means that amount, and the word "same" means that type of purchaser with respect to which the same price did apply or would have applied under the seller's trade practices during the period January 20 to March 20, 1942.*

§ 1363.60 *Effective date.* This Maximum Price Regulation No. 74 (§§ 1363.51 to 1363.61, inclusive) shall become effective March 26, 1942.*

§ 1363.61 *Appendix A: Maximum prices for sales of animal product feedingstuffs.* (a) The maximum shipping point price for any grade of meat scraps shall be:

(1) Five dollars ($5.00) less than the highest shipping point price (or delivered price converted to a shipping point price) at which the seller sold, contracted, or agreed to sell at such shipping point such grade during the period January 20 to March 20, 1942, for delivery within thirty days, in a similar amount to the same type of purchaser; or

(2) If the seller did not sell, contract or agree to sell such grade during the period January 20 to March 20, 1942, for delivery within thirty days, in a similar amount to the same type of purchaser, the maximum shipping point price shall be five dollars ($5.00) less than the highest shipping point price (or delivered price converted to a shipping point price) at which the seller sold, contracted, or agreed to sell at such shipping point meat scraps of a different grade or in a different amount or to a different type of purchaser during the period January 20 to March 20, 1942, for delivery within thirty days, making the necessary adjustments for differences in grade, amount, or type of purchaser, in accordance with the seller's practice for determining price differentials existing in the period January 20 to March 20, 1942; or

(3) If the seller did not sell, contract, or agree to sell meat scraps in the period January 20 to March 20, 1942, for delivery within thirty days, the seller's maximum shipping point price for any one of the various grades of meat scraps shall be five dollars ($5.00) less than the shipping point price (or delivered price converted to a shipping point price) at which such grade was sold, contracted, or agreed to be sold in the market nearest the seller's shipping point in the period January 20 to March 20, 1942, for delivery within thirty days, in a similar amount to the same type of purchaser, making adjustment for the normal differential, if any, between the seller's shipping point price and the shipping point price in such market.

(b) The maximum shipping point price for any grade of digester tankage shall be:

(1) Six dollars ($6.00) less than the highest shipping point price (or delivered price converted to a shipping point price) at which the seller sold, contracted, or agreed to sell at such shipping point such grade in the period January 20 to March 20, 1942, for delivery within thirty days, in a similar amount to the same type of purchaser; or

(2) If the seller did not sell, contract, or agree to sell such grade during the period January 20 to March 20, 1942, for delivery within thirty day, in a similar amount to the same type of purchaser, the maximum shipping point price shall be six dollars ($6.00) less than the highest shipping point price (or delivered price converted to a shipping point price) at which the seller sold, contracted, or agreed to sell at such shipping point digester tankage of a different grade or in a different amount or to a different type of purchaser during the period January 20 to March 20, 1942, for delivery within thirty days, making the necessary adjustments for differences in grade, amount, or type of purchaser, in accordance with the seller's practice for determining price differentials existing in the period January 20 to March 20, 1942; or

(3) If the seller did not sell, contract, or agree to sell digester tankage in the period January 20 to March 20, 1942, for delivery within thirty days, the seller's maximum shipping point price for any one of the various grades of digester tankage shall be six dollars ($6.00) less than the shipping point price (or delivered price converted to a shipping point price) at which such grade was sold, contracted, or agreed to be sold in the market nearest the seller's shipping point in the period January 20, 1942 to March 20, 1942, for delivery within thirty days, in a similar amount to the same type of purchaser, making adjustment for the normal differential, if any, between the seller's shipping point price and the shipping point price in such market.

(c) The maximum delivered price to any point shall be the maximum shipping point price determined under paragraph (a) or (b), plus the transportation charge at the lowest available established rate available for an identical shipment to such point.*

PART 1410—WOOL

AMENDMENT NO. 1 TO MAXIMUM PRICE REGULATION NO. 106[3]—DOMESTIC SHORN WOOL

A statement of the considerations involved in the issuance of this Amendment No. 1 to Maximum Price Regulation No. 106 has been prepared and is issued simultaneously herewith.[4]

Sections 1410.5 and paragraph (e) of § 1410.10 are hereby amended and a new § 1410.9a is hereby added to read as follows:

§ 1410.5 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 106 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 106 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1410.10 *Appendix A: Maximum prices for domestic shorn wool.*

* * * * *

(e) *Brokers' commissions.* In cases where a purchaser or a seller of domestic shorn wool employs a broker or other agent to make a purchase or sale on his behalf, a commission of not to exceed 1% of the applicable maximum price may be charged for such services and added to the applicable maximum price set forth above. A commission may not be charged to both buyer and seller on the same lot of wool. Such commission shall be payable only if (1) the wool is purchased at a price not exceeding the maximum price established by Maximum Price Regulation No. 106, (2) it is shown as a separate charge on the invoice or similar document delivered to the purchaser and (3) the commission is not split or divided with the seller or with an agent or an employee of the seller.

No such commission may be charged and added to the maximum price by cooperative marketing associations or other persons making sales of wool held on consignment from the grower.

§ 1410.9a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1410.5, 1410.10 (e) and 1410.9a) to Maximum Price Regulation No. 106 shall become effective March 24, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 23d day of March 1942.

TITLE 42—PUBLIC HEALTH

Chapter I—United States Public Health Service Federal Security Agency

PART 10—GRANTS TO STATES FOR VENEREAL DISEASE CONTROL

AMENDMENT TO RULES AND REGULATIONS GOVERNING ALLOTMENTS AND PAYMENTS TO THE STATES FOR VENEREAL DISEASE CONTROL ACTIVITIES FOR THE FISCAL YEAR 1942.

Pursuant to authority contained in section 4d of Chap. XV of the Act of July 9, 1918, as added by the Act of May 24, 1938, 52 Stat. 439 (U. S. Code, title 42, sec. 25d), § 10.302[1] is amended to read as follows:

§ 10.302 *Allotments—Allotments of funds made available under Appropriation Act, 1942.* The Surgeon General, pursuant to the authority contained in section 4b of the Act, has determined that $5,566,600 (or 86.9%) of the total amount available for the fiscal year 1942 shall be allotted to the States, the District of Columbia, Alaska, Puerto Rico, the Virgin Islands, and Hawaii on the bases of (1) population; (2) the extent of the venereal disease problem; and (3) the financial needs of the respective States ". . . in establishing and maintaining adequate measures for the prevention, treatment, and control of the venereal diseases," in accordance with the following percentage distribution:

(1) *Population.* Allotments amounting to 26.0 percent of the available appropriations will be made to the several States in the ratio which the population of each State bears to the population of the United States, as shown by the census of 1940.

(2) *Extent of the venereal disease problem.* Allotments amounting to 34.9 percent of the available appropriations will be made to the several States on the bases of (i) the varying composite and racial prevalence rates for syphilis; (ii) the extent to which treatment facilities have been provided as evidenced by the population under treatment for syphilis; (iii) the varying costs of providing equal services as determined by the inverse function of the density and the direct function of the size of the population of each State and Territory; (iv) the need for training centers and demonstrations in selected areas; (v) the need for facilities for the prevention and control of the venereal diseases in localities where armed forces or civilian employees engaged in national defense activities are concentrated.

(3) *Financial needs.* Allotments amounting to 26.0 percent of the available appropriations will be made to the several States on the basis of their financial needs, as determined by the ability of the States to raise revenue, expressed in terms of per capita income differences obtained from data supplied by the Bureau of Foreign and Domestic Commerce for the five-year period 1935–1939.[1]

(b) *Allotments of funds made available under the First Deficiency Appropriation Act, 1942.* This paragraph shall be applicable only to the allotment of funds made available under the First Deficiency Appropriation Act, 1942. In order to carry out the recommendations of the Committee on Appropriations of the House of Representatives the Surgeon General, pursuant to the authority contained in section 4b of the act, has determined that $2,250,000 (or 90%) of the $2,500,000 deficiency appropriation available for the remainder of the fiscal year 1942 shall be allotted to the States, the District of Columbia, Alaska, Puerto Rico, the Virgin Islands, and Hawaii on

[Circular No. 1504]

PART 192—OIL AND GAS PERMITS AND LEASES

AMENDMENT OF OIL AND GAS LEASING REGULATIONS, AND FORMS OF LEASES, TO SECURE PROMPT FILING OF ASSIGNMENTS, AND LIMITATIONS OF OVERRIDING ROYALTIES

Circular No. 1453, approved November 18, 1938, containing §§ 192.42a to 192.42c, inclusive, of Title 43 of the Code of Federal Regulations, is hereby amended by adding the following:

§ 192.42d *Assignment of oil and gas lease or interest therein.* The lessee will be required to agree not to assign his lease, or any interest therein, whether by operating agreement, working or royalty interest, or otherwise, nor to sublet any portion of the leased premises, except with the consent in writing of the Secretary of the Interior. All assignments must be submitted in triplicate within 30 days from the date of execution and must contain all of the terms and conditions agreed upon by the parties thereto. If the consideration expressed in the agreement fails to describe the true consideration, an accompanying affidavit must be submitted stating the consideration in full. The affidavit will be treated as confidential and not for public inspection. No assignment of any kind will be recognized as valid which, exclusive of the royalty payable to the United States, shall create overriding royalty interests in the lease aggregating in excess of five per cent. Furthermore, no assignment providing for other payments out of production which constitute a burden upon lease operations prejudicial to the interests of the United States will be approved. (Sec. 32, 41 Stat. 450; 30 U.S.C. 189)

Oil and gas lease forms amended. Subsections 2 (p) of the standard lease form 4–208f (43 CFR 192.28; par. 13, Circ. 1386, May 7, 1936, 55 I.D., 508) and of the renewal lease form 4–973 (43 CFR 192.84; Circ. 1476, August 5, 1940) are hereby amended to read as follows:

2 (p). *Assignment of oil and gas lease or interest therein.* Not to assign this lease, or any interest therein, whether by operating agreement, working or royalty interest, or otherwise, nor to sublet any portion of the leased premises, except with the consent in writing of the Secretary of the Interior. All assignments must be submitted in triplicate within 30 days from the date of execution and must contain all of the terms and conditions agreed upon by the parties thereto. § 190.4 *Open season for fishing in Russian River, Buskin River, and tributary waters.* It is prohibited to fish for, catch, or kill any game fish in Russian River, flowing into Kenai River, and in waters within one-half mile of the mouth of Russian River, and in Buskin River, near Kodiak, and all lakes and tributaries thereof, except during the period from June 5 to September 30, both dates inclusive.*

§ 190.5 *Open season for fishing in Dewey Lakes and Salmon Creek Reservoir.* It is prohibited to fish for, catch, or kill any game fish in Dewey Lakes, near Skagway, and in Salmon Creek Reservoir, near Juneau, except during the period from May 1 to September 30, both dates inclusive.*

§ 190.6 *Limitations on daily catch and possession of game fish, Buskin River.* No one shall take in any one day from Buskin River and its tributaries and lakes more than a combined total of 5 game fish of all species or more than 5 pounds and 1 game fish of all species, and no person shall have in his possession at any one time more than a combined total of 10 game fish of all species or more than 10 pounds and 1 game fish of all species.*

§ 190.7 *Limitations on daily catch and possession of game fish, Russian River and other streams and lakes of Kenai Peninsula.* No one shall take in any one day from Russian River and other streams and lakes of Kenai Peninsula more than a combined total of 5 game fish of all species or more than 10 pounds and 1 game fish of all species, and no one shall have in his possession at any one time more than a combined total of 10 game fish of all species or more than 20 pounds and 1 game fish of all species.*

§ 190.8 *Limitations on daily catch and possession of game fish, Naknek River, Newhalen River, Naknek Lake, Iliamna Lake, Lake Clark, and their watersheds.* No one shall take in any one day from Naknek River and Newhalen River, and from Naknek Lake, Iliamna Lake and Lake Clark, and the streams of their watersheds more than a combined total of 10 game fish of all species or more than 15 pounds and 1 game fish of all species, and no one shall have in his possession at any time more than a combined total of 20 game fish of all species or more than 30 pounds and 1 game fish of all species.*

§ 190.9 *General limitations on daily catch and possession of game fish; exceptions.* No one shall take in any one day from the fresh waters of Alaska, except Buskin River and its tributaries and lakes, Russian River and other streams and lakes of Kenai Peninsula, Naknek River, Newhalen River, and in Naknek Lake, Iliamna Lake and Lake Clark and the streams of their watersheds, where special limitations apply, more than a combined total of 20 game fish of all species or more than 15 pounds and 1 game fish of all species, and no person shall have in his possession at any one time more than a combined total of 40 game fish of all species or more than 30 pounds and 1 game fish of all species.*

§ 190.10 *Commercial fishing for fresh-water game fish prohibited.* All commercial fishing for game fish, including fishing for feed for fur-bearing animals,

[1] These regulations supersede the Alaska fresh-water fisheries regulations promulgated by the Secretary of the Interior on July 1, 1941 (6 F.R. 3408).

is prohibited in the streams and lakes of Alaska.*

§ 190.11 *Waters in which commercial fishing for Dolly Varden trout is prohibited.* All commercial fishing for Dolly Varden trout (*Salvelinus malma*), including fishing for feed for fur-bearing animals, is prohibited in the streams and lakes of Alaska east of 150 degrees west longitude.*

§ 190.12 *Wanton waste of food or game fish prohibited.* It is unlawful for any person wantonly to waste or destroy any food or game fish taken or caught in any of the waters of Alaska.*

§ 190.13 *Penalties for violation of fresh-water fisheries regulations.* Any person who violates any of the provisions of these regulations shall, upon conviction therefor, be punished by a fine or imprisonment, or by both such fine and imprisonment, as provided for in section 6 of the act of June 6, 1924. (Sec. 6, 43 Stat. 466; 48 U.S.C. 226).

HAROLD L. ICKES,
Secretary of the Interior.

WAR DEPARTMENT.

INFORMATION GOVERNING TRANSFERS FROM CANADIAN ARMED FORCES TO ARMED FORCES OF THE UNITED STATES

1. *Who may apply.* Members of the Canadian Armed Forces who are United States citizens or former United States citizens who lost their citizenship by taking the oath of allegiance upon entering the Canadian Forces.

2. *How to apply.* Submit written request to your immediate commanding officer for authority to appear before Canadian-American Military Board.

3. *What to apply for.* Request discharge from Canadian Forces and appointment or enlistment in either the United States Army, Navy, or Marine Corps. (Aviation is an integral part of these services and is not separate, as in the case of the Royal Canadian Air Force.)

4. *When to apply.* Immediately, if possible, and *not later than* March 31, 1942. Applications filed after March 31, 1942, will not be considered.

5. *Applications may be withdrawn* at any time prior to actual appointment or enlistment in the American Forces.

6. *Release obtained from the Canadian Armed Forces* by action of the Canadian-American Military Board, and only after prior acceptance or appointment by this Board for service in the United States Forces.

7. *General qualifications.* All applicants for appointment or enlistment in the United States Forces must meet such physical and other standards appropriate to the position of service, as are required by current United States War or Navy Department regulations. The decision of the Canadian-American Military Board in all such matters will be final.

8. *Army Air Forces qualifications*—(a) *Pilot personnel.* Qualified pilots will be appointed or enlisted in the United States Army Air Forces as follows:

(1) *Officers.* Pilot officer to be commissioned as 2d lieutenant.

Flying officer to be commissioned as 1st lieutenant.

Flight lieutenant to be commissioned as 1st lieutenant or in exceptional cases as captain if in the opinion of the United States Board such commission is warranted.

(2) *Enlisted men.* Sergeant pilots who have 400 hours flying time with the Canadian Forces and who are recommended by appropriate Canadian commanders, to be commissioned as 2d lieutenant.

Other sergeant pilots to be enlisted and appointed staff sergeants.

(b) *Eligibility for rating as pilot.* (1) The flight test prescribed for the rating of pilots as set forth in Air Corps Circular 50-10, June 20, 1941, will be waived for active pilots with the Canadian Forces. Individuals will be rated pilots provided that—

(i) They are graduates of the standard Canadian course of flying instructions.

(ii) Nongraduates of the standard Canadian course of flying instruction who are currently on duty as a flying instructor in an Advanced School.

(iii) Other nongraduates of the standard Canadian course of flying instruction who have officially logged 300 hours flying time as pilot, 100 hours of which were solo; not less than 100 hours were in airplanes powered with engines of 200 or more horse power, at least 25 hours of which were alone and have completed 50 hours or more within the six months preceding date of appointment or enlistment.

(2) All other active pilots now flying with the Canadian Forces who are acceptable to the United States Board will be rated as service pilots.

9. *Grade and service for which application may be made* are those for which the individual feels qualified. In general, appointment or enlistment will be made only in the service and grade in which applicant is serving in the Canadian Forces.

10. *Arms and services of the United States Army* for which application may be made:

(a) *Enlisted men and officers.* Corps of Engineers, Army Air Forces, Signal Corps, Cavalry, Coast Artillery Corps, Field Artillery, Infantry, Quartermaster Corps, Medical Corps, Chemical Warfare Service, Finance Department, and Ordnance Department.

(b) *Officers only.* The Adjutant General's Department, the Judge Advocate General's Department, the Inspector General's Department.

11. *United States Navy*—(a) *General provisions.* The records of individuals appointed or enlisted in accordance with the following will be subject to review and investigation by the Navy Department. False statements made by applicants to obtain their appointments or enlistments will be grounds for discharge.

(b) *General information.* Accepted applicants will be commissioned or enlisted in the United States Naval Reserve, and assigned to the Naval Aeronautic Organization or other duties in the United States Navy for which qualified.

(c) *Officer personnel.* In general and if qualified, eligible applicants now holding commissions in the Canadian Armed Forces will, if accepted by the Navy, receive commission in the United States Naval Reserve on an equivalent rank basis, subject, however, to the following restrictions:

(1) No appointments may be made above the rank of lieutenant commander.

(2) In general, the minimum ages for original appointment will be as follows:

Lieutenant commander	42 years
Lieutenant	33 years
Lieutenant (junior grade)	27 years
Ensign	19 years

(3) The following table indicates equivalent ranks in the United States Navy and the Canadian Armed Forces:

COMPARATIVE RANKS

U. S. Navy	Canadian armed forces		
	Air forces	Army	Navy
Ensign	Pilot Officer	Second Lieutenant	Sublieutenant.
Lieutenant (junior grade)	Flying Officer	Lieutenant	
Lieutenant	Flight Lieutenant	Captain	Lieutenant.
Lieutenant commander	Squadron Leader	Major	Lieutenant Commander.

(d) *Enlisted personnel.* (1) Enlisted personnel acepted by the United States Navy will be enlisted in the United States Naval Reserve in ratings corresponding to those now held in the Canadian Armed Forces: *Provided*, That mark of not less than 75 is attained on a Navy General Classification Test.

(2) Sergeant pilots who have 400 hours flying time with the Canadian Forces and who are recommended by appropriate Canadian military authority may be commissioned as ensigns, United States Naval Reserve.

(3) Those individuals who have been selected for, or who are undergoing flight training in, the Royal Canadian Air Force may, if qualified, be appointed as Naval Reserve Aviation Cadets for flight training leading to commissions in the United States Naval Reserve or United States Marine Corps Reserve. Individuals who have previously failed any military flight training course will not be eligible for appointments as aviation cadets.

12. *United States Marine Corps*—(a) *General provisions.* The records of those persons appointed or enlisted will be subject to review and investigation. They will be required to furnish records of satisfactory service while in the Canadian Armed Forces. If the individual has prior military service in the United States Armed Forces, the separation therefrom must have been under honorable conditions. The civilian life of the individual is subject to investigation and must be satisfactory to the Marine Corps. Appointments or enlistments obtained by fraudulent representation by the individual will result in disciplinary action.

(b) *General information.* All commissions and enlistments of those accepted by the Marine Corps will be in the Marine Corps Reserve.

(c) *Officer personnel.* American citizens who are commissioned officers in the Canadian Armed Forces and who are acceptable to the Marine Corps Board will be commissioned in the Marine Corps Reserve corresponding to that held by the individual in the Canadian Armed Forces, with the exception that no commission will be given above that of captain in the Marine Corps Reserve. The following table shows the corresponding ranks in the United States Marine Corps:

United States Marine Corps	Canadian Army	Canadian Air Force
Second lieutenant	Second lieutenant	Pilot officer.
First lieutenant	Lieutenant	Flying officer.
Captain	Captain	Flying lieutenant.

(d) *Enlisted personnel.* (1) American citizens who are serving as enlisted personnel in the Canadian Armed Forces will be given an enlisted rank in the Marine Corps Reserve corresponding to that held by them in the Canadian Armed Forces. They will be allowed to hold this rank through a probationary period, the length of which will be determined later, but which will be considered of sufficient time for the individual to adjust himself to the requirements of the Marine Corps, in the rank to which the man is appointed.

(2) Sergeant pilots who have 400 hours flying time with the Canadian Armed Forces and who are recommended by appropriate Canadian commanders may be commissioned as second lieutenant, Marine Corps Reserve.

(3) All other enlisted pilots in the Canadian Armed Forces may be enlisted as Staff Sergeants in the Marine Corps Reserve.

(4) United States Marine Corps normally obtains its flying personnel from aviation cadets in the United States Navy. Therefore, individuals undergoing flight training in the Royal Canadian Air Force will not be accepted by the United States Marine Corps.

13. *Pay, promotion, or transfer in United States Forces.* Once in the United States forces, pay, promotion, or transfer will be governed by laws and regulations then existing. No transfers are made between the Army, Navy, and Marine Corps. Transfers are sometimes made from one arm or service in the Army to another, for example, from the Infantry to the Field Artillery.

14. *Transportation and quarters.* The United States Government will pay for the transportation of officers and enlisted men from point of acceptance to reception centers or replacement training centers. Government transportation will not be furnished to dependents. There are no Government quarters available at reception centers or replacement training centers for dependents of military personnel. Due to the expansion of the armed forces, and the utilization of all available space by military personnel, this condition in general holds true at all stations, military or naval.

15. *Distribution of accepted applicants*—(a) *United States Army Ground Forces*—(1) *Officers.* Officers appointed in the ground forces of the United States Army will be ordered on temporary duty to the nearest replacement training center of the arm or service in which appointed and furnished transportation thereto. The period of service at the replacement training center will vary according to individual needs but will probably be from two to ten weeks. Upon completion of this training, the individual officer will be assigned to a unit or installation.

(2) *Warrant officers.* Generally the same as for officers.

(3) *Enlisted men.* Men enlisted in the ground forces of the United States Army will be dispatched immediately, at Government expense, to the nearest reception center. There they will turn in their Canadian clothing and equipment and draw United States Army clothing. There they will be interviewed, classified as to abilities, and offered the opportunity of subscribing for Government insurance. Upon completion of this processing, they will be dispatched to the nearest replacement training center of the arm or service in which enlisted. Their stay at reception centers will probably be four days; and at the replacement training centers from one week to thirteen weeks, depending upon the amount of training found necessary. Upon completion of this course of instruction, enlisted men will be assigned to units of installations.

(b) *United States Army Air Forces*—(1) *Initial assignment.* Pilots who are accepted and appointed or enlisted in the United States forces will be initially ordered to duty as follows:

(i) From locations east of the 32d meridian to the Southeast Air Corps Training Center, Maxwell Field, Alabama.

(ii) From locations west of the 32d meridian and east of the 103d meridian to the Gulf Coast Air Corps Training Center, Randolph Field, Texas.

(iii) From locations west of the 103d meridian to the West Coast Air Corps Training Center, Mather Field, California.

(2) *Nonpilot flying personnel (navigators and bombardiers).* Provisions for grades, rating, and initial station assignment same as for pilots.

(3) *Ground officers.* Officers, other than flying personnel, who in the opinion of the board qualify for appointment as administrative or other specialists officers may be appointed in commissioned grades from 2d lieutenant to major. These officers will be initially assigned to Lowry Field, Denver, Colo., for duty and indoctrination.

(4) *Enlisted personnel.* Enlisted personnel, other than pilots, navigators and bombardiers, will be enlisted in the corresponding or equivalent grade which they hold in the Canadian Forces provided that they attain a mark of not less than 100 on Army General Classification test. Enlisted personnel who are accepted and enlisted in locations east of the 32d meridian will be initially assigned to Mather Field, California. No enlisted men, either qualified technicians or basic soldiers, will be assigned initially or in the immediate future to pursue a course of instruction at a technical school.

(5) *Classification and reassignment.* All officer and enlisted personnel will, on arrival at the stations specified above, be classified and thereafter assigned to duty in accordance with the best interest of the service.

(6) *Individuals in training.* Individuals undergoing training as pilots, navigators, and bombardiers may elect to transfer to the United States forces and will be authorized as mutually agreed upon by the United States and Canadian Boards to—

(i) Complete their training prior to their physical transfer to the United States forces.

(ii) Be immediately ordered upon enlistment or appointment to such training establishment in the United States as the Board may determine, except that any student pursuing a course of instruction in a Canadian school, who has previously been eliminated from flying training as an aviation cadet in the United States Force shall be ineligible for redetail for pilot training.

(c) *United States Navy.* All personnel accepted by the United States Navy will, in general, be ordered to brief periods of training and naval indoctrination before final assignment. Upon completion of training, they will be ordered to duty assignment in accordance with the requirements of the naval service.

(d) *United States Marine Corps.* All officer and enlisted personnel will, in general, be ordered to brief periods of training and Marine Corps indoctrination before being assigned to general duty. Upon completion of such training, they will be ordered to duty where it is deemed

consistent with the best interests of the United States Marine Corps. (R.S. 161; 5 U.S.C. 22) [Circular, W.D., March 9, 1942]

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. A-1345]

PETITION OF DISTRICT BOARD NO. 20 FOR THE INCLUSION OF FISCHER, IDAHO WITHIN THE LIST OF DESTINATIONS CONTAINED IN PRICE INSTRUCTION AND EXCEPTION NO. 10 IN THE SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 20, FOR ALL SHIPMENTS

NOTICE OF AND ORDER FOR HEARING

A petition and an amendment thereto, having been duly filed with this Division by the above-named party, pursuant to the Bituminous Coal Act of 1937;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on April 7, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, at Room 220, United States Post Office Building, in Salt Lake City, Utah.

It is further ordered, That Scott A. Dahlquist or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 1, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 20 for revision of Price Instruction and Exception No. 10 in the Schedule of Effective Minimum Prices for District No. 20 for All Shipments to include the destination Fischer, Idaho, thereby making available, in connection with shipments of coal to that destination, the reductions in minimum prices provided in such price instruction and exception.

Dated: March 20, 1942.

[Docket No. 509-FD]

APPLICATION OF CLEARFIELD BITUMINOUS COAL CORPORATION FOR EXEMPTION

ORDER DENYING EXEMPTION AND DISMISSING APPLICATION

An application having been filed with the National Bituminous Coal Commission (hereinafter called the "Commission") by Clearfield Bituminous Coal Corporation (hereinafter called the "Coal Corporation") on September 28, 1937, pursuant to Section 4-A of the Bituminous Coal Act of 1937, seeking an order declaring all coal produced by the Coal Corporation exempt from the provisions of section 4 and the first paragraph of section 4-A of the Act, in that: (1) such coal is produced solely for New York Central Railroad Company (hereinafter called the "Railroad Company"), the parent company of the Coal Corporation, which transports for itself and consumes "all of the coal loaded for shipment by the Applicant" (2) "Applicant's operations and sales or other disposition of coal * * * do not constitute transactions in or directly affecting interstate commerce in bituminous coal" (3) "Prior to June 16, 1933, (and continuing without interruption since that date) the entire output of Applicant has been sold to its parent company at cost pursuant to the terms of a bona fide contract" with the latter;

A public hearing in this matter having been held before W. A. Cuff, a duly designated Examiner of the Commission, at a hearing room thereof in Washington, D. C., at which the Railroad Company was granted leave to join in the application with the Coal Corporation;

Appearances having been entered for the Coal Corporation, the Railroad Company, the Consumers' Counsel Division (now the Bituminous Coal Consumers' Counsel), and District Board No. 1;

Briefs having been filed by the applicants and the Solicitor of the Commission, and a reply brief having been filed by the applicants;

Examiner Cuff having made and entered his Report, Proposed Findings of Fact, Conclusions, and Recommendation on October 31, 1939;

Applicants having filed a petition for further hearing on March 20, 1940, and exceptions to the Examiner's Report on April 30, 1940;

The petition for further hearing having been granted on June 18, 1941, for the sole purpose of receiving into the record a stipulation of facts entered into by counsel for the parties;

A record of the proceeding having been submitted to the undersigned; and the undersigned having made Findings of Fact, Conclusions of Law and having rendered an Opinion, which are filed herewith;

Now, therefore, it is ordered, That effective ten (10) days from the date hereof the exemption prayed for in the application herein of Clearfield Bituminous Coal Corporation be and it is hereby denied and the application of the New York Central Railroad be and it hereby is dismissed.

[Docket No. A-971]

PETITION OF CARL NYMAN FOR A REDUCTION IN THE EFFECTIVE MINIMUM PRICES FOR THE COALS PRODUCED AT THE NATIONAL MINE IN DISTRICT NO. 20, FOR SHIPMENT BY TRUCK

ORDER DISMISSING PETITION AND TERMINATING PROCEEDING

An original petition was filed with the Division in the above-entitled matter by Carl Nyman, while a code member in District No. 20, requesting a reduction in the minimum prices of the coals produced at the National Mine in that district, for shipment by truck, pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937.

The petition was deficient in form and substance, and the petitioner was advised in writing to that effect by letter of the Director of the Division under date of October 7, 1941. However, the petitioner made no response to that letter of the Director and took no steps to remedy the deficiency of his petition.

On February 23, 1942, an order effective fifteen days thereafter, was entered in Docket No. 1744-FD revoking and cancelling the code membership of the petitioner in the instant docket.

It appearing from the foregoing that the petitioner is no longer interested in this matter and is no longer legally qualified to prosecute any interest in this proceedings;

Now, therefore, it is ordered, That the original petition filed by Carl Nyman in the above-entitled matter be, and it hereby is, dismissed and that this proceeding be, and it hereby is, terminated.

Dated: March 23, 1942.

GIBB COAL COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 3442, RESPONDENT

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATIONS OF THE EXAMINER, AND ORDER SUSPENDING REGISTRATION

This proceeding having been instituted by the Bituminous Coal Division, pursuant to the provisions of § 304.14 of the Rules and Regulations for the Registration of Distributors, to investigate and determine whether or not Gibb Coal Company, the respondent, a registered distributor, Registration No. 3442, located in Albia, Iowa, has violated any of the provisions of the Bituminous Coal Act, the Marketing Rules and Regulations, the Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement executed on July 17, 1940, by the respondent;

A hearing in this matter having been held before Charles O. Fowler, a duly designated Examiner of the Division, at a hearing room thereof in Albia, Iowa, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard, and at which an appearance was entered for the Division and for the respondent;

The Examiner having made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in this matter, dated January 28, 1942, in which it was recommended that an order be entered providing that the registration of the respondent as a registered distributor be suspended for a period of ninety (90) days and that certain conditions be met by the respondent as a pre-requisite to reinstatement;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions or supporting briefs having been filed;

The undersigned having determined after consideration of the record that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the Undersigned;

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That the registration of the respondent, Gibb Coal Company, as a registered distributor, Registration No. 3442, be, and it hereby is, suspended for a period of ninety (90) days, effective fifteen (15) days from the date of this Order: *Provided, however*, That if the respondent shall not have complied with the provisions of § 304.15 of the Rules and Regulations for the Registration of Distributors at least five (5) days prior to the expiration of said suspension period, said suspension shall continue in full force and effect until five (5) days after the affidavit required by said § 304.15 shall have been filed with the Division; and *Provided further*, That the respondent be required to return to the following producers the following amounts representing improperly collected discounts as set forth in the Proposed Findings of Fact of the Examiner, and that a statement by the respondent that such refunds have been made shall be required to be included in the affidavit:

Blakesburg Deep Vein Coal Co	$99.00
Right Way Coal Co	73.16
Watkins Coal Co	34.56
Gilger Coal Co	106.98

HANNA COAL SALES COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 3961, RESPONDENT

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING, WITH MODIFICATIONS, THE PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER AND SUSPENDING REGISTRATION

This proceeding was instituted by the Bituminous Coal Division, pursuant to Section 304.14 of the Rules and Regulations for the Registration of Distributors, to investigate and determine whether the Hanna Coal Sales Company, a registered distributor (Registration No. 3961), 1300 Leader Building, Cleveland, Ohio, has violated certain provisions of the Bituminous Coal Act of 1937, the Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal, the Rules and Regulations for the Registration of Distributors, and the Agreement by Registered Distributor signed by Hanna on June 20, 1939.

A Notice of and Order for Hearing was duly issued and the respondent filed an answer;

Pursuant to appropriate Orders and after due notice to all interested persons, a hearing in this matter was held on May 28 and 29 and June 3 to 7, 1941, inclusive, before Charles O. Fowler, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The respondent appeared and subsequently filed with the Examiner its proposed findings of fact and proposed conclusions of law and a brief.

On February 6, 1942, the Examiner filed his proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter. The Examiner found that the respondent, both in handling 9,400.35 tons of coal, apparently as sales agent for the Gulf Smokeless Coal Company Laurel Creek Coal Company, and Laurel Smokeless Coal Company, code members in District 7, and Inland Steel Company, a code member in District 8; and 836.25 tons of coal purchased on its own account as a distributor from the Elmer Miller Coal Company, sales agent for the Clear Branch Mining Company and Beaver Coal and Mining Company, code members in District 8, had violated section 4 II (l) 3, 6, and 7 of the Act, Rules 3, 6, and 7 of section XIII and Rule 1 (J) of section VII of the Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal, § 304.12 (b) (3) and (5) of the Rules and Regulations for the Registration of Distributors, and the terms of the Agreement by Registered Distributor, executed by the Hanna Coal Sales Company on June 20, 1939, in that (1) the respondent prepaid freight charges on coal shipped to the J. J. Wallace Coal Company of Chicago, Illinois, a retailer, thereby granting said retailer a discriminatory credit allowance; (2) the respondent, by extending credit for the freight charges so prepaid and by other treatment accorded Wallace, granted credits and extended services and privileges to Wallace not extended to all purchasers under like terms and conditions or in similar circumstances; and (3) the respondent, by relieving Wallace from the necessity of making substantial investments in coal, granted a concession by which Hanna purchased the business of the J. J. Wallace Coal Company;

The Examiner recommended that an order be issued, pursuant to the Act, particularly section 4 II (h) thereof, and the Rules and Regulations for the Registration of Distributors, particularly § 304.14 thereof, providing that the registration of the Hanna Coal Sales Company as a registered distributor, Registration No. 3961, should be suspended for a period of 60 days from the date thereof; that the effect of such suspension should not be evaded directly or indirectly by the use of any device such as a sales agency agreement or any other device; that such suspension should not excuse the Hanna Coal Sales Company from all duties and functions imposed upon it by the Act and the Rules, Regulations, and Orders of the Division; and that such registration should be reinstated only upon condition that five days before the expiration of said 60-day period, the respondent file the affidavit required by § 304.15 of the Rules and Regulations for the Registration of Distributors;

On February 27, 1942, Hanna filed exceptions to the Examiner's Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations, and a supporting brief.

In summary, Hanna excepts to (1) the failure of the Examiner to make certain findings as requested by Hanna, (2) the Examiner's concluding findings of fact and conclusions of law, and (3) the Examiner's findings with reference to the good faith of Hanna in the transactions in question.

The respondent's exception to the Examiner's failure to make certain findings is concerned with findings proposed by the respondent which are based upon the underlying assumption that an agreement entered into between Hanna and Wallace on September 30, 1940, resulted in an arrangement whereby Hanna leased a part of the Wallace coal yard, shipped coal to that yard consigned to its own Inventory Account, and thereafter received payment for said coal as it was sold to Wallace by Wallace's withdrawing same from Hanna's Inventory Account. The Examiner has thoroughly considered these contentions and the facts as found by him and the inferences drawn therefrom are fully supported by the record. It is clear from the record, as found by the Examiner, that the lease by Hanna of part of the Wallace yard was one of form and not of substance, that the coal shipped by Hanna to the Wallace yard was actually shipped to Wallace, and that, except for changes in bookkeeping practices, Hanna continued to sell coal to Wallace after September 30, 1940, substantially as it had prior thereto. A detailed consideration of the facts leading to these conclusions is set forth in the Examiner's Report and repetition thereof is unnecessary. As found by the Examiner, whatever the validity of the September 30, 1940, lease and agreement as between Wallace and Hanna when that arrangement is sought to be squared against the Act and examined for substance rather than form, it is clear that the Hanna-Wallace arrangement subsequent to September 30, 1940, did not meet with the requirements of the Act or the rules and regulations thereunder. In view of the invalidity of Hanna's basic assumption, its exceptions based upon the Examiner's failure to make findings consistent with that assumption must be overruled.

The findings of fact and conclusions of law proposed by Hanna to the Examiner were the subject of careful consideration in the Examiner's report. The respondent has not brought to the attention of the undersigned any facts of record not considered by the Examiner which lead to conclusions different from those arrived at by the Examiner. Upon a review of the record, the rejection by the Examiner of the respondent's contentions appears fully justified.

Hanna contends that even if, for the purposes of argument, proof of technical violations be conceded nonetheless the proceeding should be dismissed because of the proof of the absence of wilfulness. Hanna contends that the Examiner in his Report made no mention of wilfulness and that the Congress did not intend that a distributor should be denied "his right to do business under the Act without proof of wilfulness any more than a code member may be so deprived." Hanna then claims that the evidence indicates that it exercised every effort to arrive at a lawful and proper method of solving the problem of the protection of its Wallace account. Hanna further submits that the Examiner erred in concluding that Hanna's good faith does not excuse its violation.

In this connection, Hanna excepts to the Examiner's failure to find, in summary, that Hanna was informed in September 1940 by its counsel that in order to retain title to coal shipped by it to the Wallace yard, it would be necessary for Hanna to ship the coal to itself for storage for resale on property under its control and that upon such advice Hanna entered into the September 30, 1940, arrangement; that from October 1, 1940, to March 27, 1941, Hanna filed reports with the Statistical Bureaus for Districts 7 and 8 on all coals shipped to the Wallace yard from those districts, respectively; and that on March 27, 1941, after being advised by the Division by letter dated February 1, 1941, that it appeared from the facts available that the Wallace arrangement was in violation of the Marketing Rules, Hanna cancelled the said arrangement, in so far as it related to the storage of coal and, on April 20, 1941, charged Wallace interest on its unpaid March balance. The evidence indicates and I find that Hanna entered into its arrangement of September 30, 1940, with Wallace after consultation with counsel, that Hanna filed reports with the District 7 and 8 Statistical Bureaus, that Hanna was advised by the Division on February 1, 1941, that the Wallace arrangement appeared to be in violation of the Marketing Rules, and that Hanna cancelled its Wallace arrangement of September 30, 1940, on March 27, 1941, and charged Wallace interest on what Hanna considered to be the March balance.

Neither the Act nor the Distributors' Rules requires that in order to suspend or revoke the registration of a registered distributor proof must be made that the distributors' infractions of the Act or rules and regulations thereunder were wilful. However that may be, here the violations committed were wilful. It is clear from the record, as the Examiner found, that the leasing arrangements between Hanna and Wallace do not reflect the true nature of the transaction between the parties and that the coals shipped to the Wallace yard by Hanna were actually shipped to Wallace itself. The effect of the September 30 arrangement, as the parties not only were aware but intended, was to enable Wallace to obtain coals on terms more favorable than those under which coals could be obtained in orthodox purchase and sale transactions. This, in itself, constituted

a doing of something which, the respondent well knew, the Act was designed to prevent. That Hanna had what to it was a good business reason for entering into the September 30 arrangement cannot absolve it from its responsibility for its acts in this respect.

In passing, it should be noted that Hanna, in entering into the September 30 arrangement, sought to avoid what it considered to be the illegality of a previous arrangement it had with Wallace. It thereupon entered into a new arrangement which accomplished all the objectives of the old arrangement in a different form. Yet Hanna did not, with respect to this new arrangement, seek from the Division a ruling as to its legality. Instead, Hanna proceeded to act without such ruling and at its own responsibility, to such an extent that, even though it was advised by the Division on February 1, 1941, that it appeared to be in violation of the Marketing Rules, Hanna did not cancel the Wallace arrangement with respect to coal until March 27. In these circumstances, there is no room to argue "good faith"[1] for the conclusion is inescapable that Hanna willfully violated the Act and the rules and regulations thereunder.

It should be noted that the Congress, in passing the Act, sought to terminate a chaotic condition in the coal industry brought about, in large part, through price cutting and other trade practices engaged in by producers and distributors frequently for the purpose of furthering their own business interests. It was this condition which the Act was intended to prevent. The purposes of the Act will not be served by tolerating the continuation of practices which led to its enactment.

I conclude that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified, are proper, that they should, as modified, be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned, and that the exceptions of the respondent should be overruled.

Now, therefore it is ordered, That the exceptions of the Hanna Coal Sales Company to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner be, and they hereby are, severally overruled.

It is further ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified, be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the registration of the Hanna Coal Sales Company as a registered distributor (Registration No. 3961) be, and it hereby is, suspended for a period of sixty (60) days beginning fifteen (15) days after the date of this Order: *Provided, however*, That if the respondent shall not have complied with the provisions of § 304.15 of the Rules and Regulations for the Registration of Distributors at least five days prior to the expiration of said suspension period, said suspension shall continue in full force and effect until five days after the affidavit required by said § 304.15 shall have been filed with the Division.

It is further ordered, That the effect of such suspension shall not be evaded directly or indirectly by the use of any device such as a sales agency agreement or any other device, and that such suspension shall not excuse the Hanna Coal Sales Company from all duties and functions imposed upon it by the Bituminous Coal Act of 1937 and the rules, regulations, and orders thereunder.

[1] Hanna excepted to the Examiner's statement that "Hanna's good faith * * * does not excuse Hanna's violation." Properly construed in its context I do not think this statement reflects a position inconsistent with the above. However that may be, the basis for my conclusion is as here stated, and to that extent the Examiner's Report is hereby modified.

THE SECRETARY OF THE INTERIOR.

SIR: The Act of October 5, 1914 (38 Stat. 727), authorizes the Secretary of the Interior to withdraw from other disposition public lands and reserve the same for county parks, public playgrounds, and community centers for use by the residents on Reclamation projects, as authorized under the Act of June 17, 1902 (32 Stat. 388).

The Town Council of the Town of Fairfield, Teton County, Montana, acting for the said town, has filed application in pursuance of the Act of October 5, 1914, supra, that the hereinafter described lands be reserved for community park, public playground, and community center. The area lies within the boundaries of the Greenfields Irrigation District of the Sun River project, Montana, and the said district, by resolution at the regular meeting of its Board of Commissioners on September 2, 1941, adopted a resolution recommending that the said tract be reserved in accordance with the provisions of the Act of October 5, 1914, supra.

It is therefore recommended that the following described land, now withdrawn under the first form as provided by Sec. 3, Act of June 17, 1902 (32 Stat. 388) in connection with the Sun River project, Montana, be withdrawn from other disposition and reserved for a public park, playgrounds and community center under the provisions and conditions of the Act of October 5, 1914, supra, for the benefit of the settlers on the Sun River project, Montana:

RECOMMENDATIONS OF THE BOULDER CANYON PROJECT WAGE BOARD TO THE SECRETARY OF THE INTERIOR IN THE MATTER OF WAGE RATES FOR FOREMEN

Pursuant to the Order[1] of the Secretary of the Interior dated December 6, 1941, and entitled "Wage Fixing Procedures, Boulder Canyon Project", the Boulder Canyon Project Wage Board determined prevailing wage rates for certain classes of laborers and mechanics, and these wage rates were approved by the Secretary of the Interior February 12, 1942, and concurred in by the Secretary of Labor on February 17, 1942

Wage rates for foremen. The Wage Board finds with respect to foremen who do not work with the tools of the trade that there is a prevailing differential between wages paid to foremen and wages paid to laborers and mechanics, namely, that foremen receive not less than twelve and one-half cents per hour in excess of the rate paid to the workers they supervise. The Wage Board recommends that the basic hourly wage rate for foremen employed by the Government on this project be fixed at twelve and one-half cents per hour in excess of the basic hourly rate established for the classification of labor supervised.

It is the understanding of the Wage Board that Bureau of Reclamation employees paid in accordance with this schedule will receive overtime pay on a basis of one and one-half times the basic hourly rate for all time worked in excess of forty hours in any one week. Refer to 40-hour week act (Sec. 23, Act of March 28, 1934; 48 Stat., 522).

Effective date. The Wage Board recommends that these recommendations be made effective as of the close of business December 15, 1941.

The foregoing recommendations approved and adopted by the Boulder Canyon Project Wage Board this tenth day of March, 1942.

DUNCAN CAMPBELL,
Chairman.

NOTICE OF HEARING WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER REGULATING THE HANDLING OF ORANGES GROWN IN THE STATE OF CALIFORNIA OR IN THE STATE OF ARIZONA

Notice is hereby given of a hearing to be held in Patriotic Hall, 1816 South Figueroa Street, Los Angeles, California, beginning at 10:00 a. m., P. W. T., April 13, 1942, with respect to a proposed marketing agreement and proposed order regulating the handling of oranges grown in the State of California or in the State of Arizona.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 CFR 900.4).

This public hearing is for the purpose of receiving evidence (a) as to the general economic conditions which may necessitate regulation in order to effectuate the declared policy of the act and (b) as to the specific provisions which a marketing agreement and order should contain.

The marketing agreement and order provide for (1) the establishment of a growers' control board of six members and for the appointment of a manager to administer the terms and provisions of the marketing agreement and order; (2) the regulation of oranges grown in the States of California and Arizona by limiting the quantity which may be shipped during specified periods; (3) the fixing of the total quantity of such oranges which each handler thereof has available for current shipment during the marketing season for each variety of oranges and allotting the total quantity which may be handled during a specified period among such handlers upon the basis of the quantity each such handler has available for current shipment.

In addition to those provisions and the provisions necessary and incidental to the operation of a marketing agreement and order providing for regulation by volume, at the suggestion of representatives of the industry, provisions have been included which would authorize the regulation of such oranges by limiting the shipment thereof to particular grades and sizes during a specified period and for determining the existence and extent of the surplus of such oranges and the method to be followed in providing for the control and disposition of such surplus.

Provisions are also included for the establishment of separate prorate districts, the making of reports on shipments, and the levying of assessments upon handlers of such oranges to pay the cost of administering the marketing agreement and order.

Copies of the proposed marketing agreement and order may be obtained from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 0312 South Building, Washington, D. C., or may be there inspected.

GROVER B. HILL,
Assistant Secretary of Agriculture.

[Docket No. 6293]

IN THE MATTER OF CHARGES, REGULATIONS AND PRACTICES, OF THE WESTERN UNION TELEGRAPH COMPANY WITH RESPECT TO DELIVERY OF DOMESTIC TELEGRAMS TO CLOSED OFFICE POINTS

INVESTIGATION AND HEARING

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of March, 1942;

It appearing, that The Western Union Telegraph Company has filed with the Commission a tariff schedule stating new regulations with respect to delivery of telegrams to "closed office points", to become effective on March 20, 1942, designated as follows: The Western Union Telegraph Company, Tariff F. C. C. No. 176, 3rd Revised Page 33, Paragraph X (c) of Rule 8;

It further appearing, that said schedule might have the effect of adding a new and additional charge with respect to the delivery of telegrams; that said schedule does not appear to be in conformance with the Commission's Rules and Regulations; that the interests of the public may be injuriously affected by the regulations stated therein; and it being the opinion of the Commission that the effective date of said schedule should be postponed pending hearing and decision concerning the lawfulness of the regulations stated therein, and the related charges, regulations and practices;

It is ordered, That the Commission upon its own motion without formal pleading, enter upon a hearing concerning the lawfulness of the regulations stated in said schedule, namely, paragraph X (c) of Rule 8 of 3d Revised Page 33 of The Western Union Telegraph Company Tariff F. C. C. No. 176;

It is further ordered, That the operation of the regulations contained in said schedule be suspended and that the use thereof be deferred until three months beyond the time when they would otherwise go into effect, unless otherwise ordered by the Commission; and during the said period of suspension, no change shall be made in such regulations, or in the charges, regulations and practices thereby sought to be altered, unless otherwise authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby instituted into the lawfulness of the charges, regulations, and practices of The Western Union Telegraph Company for and in connection with the delivery of interstate domestic telegrams to "closed office points";

It is further ordered, That a copy of this order be filed with said schedule in the office of the Federal Communications Commission, that copies hereof be forthwith served upon the carrier parties to such schedule, and that said carrier parties to such schedule be, and they are hereby made respondent to this proceeding;

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing at 10 a. m., beginning on the 21st day of April, 1942, at the offices of the Federal Communications Commission in Washington, D. C.

[Docket No. IT-5772]

IN THE MATTER OF CENTRAL ILLINOIS PUBLIC SERVICE COMPANY

ORDER POSTPONING HEARING

MARCH 21, 1942.

It appearing to the Commission that: (a) On March 20, 1942, Central Illinois Public Service Company filed a response to the Order to Show Cause adopted by the Commission in the above-entitled matter on February 20, 1942;

(b) In the response to the Order to Show Cause, Central Illinois Public Service Company represents that it proposes to make certain further studies and analyses for the purpose of determining and reclassifying the original cost of its property in accordance with the requirements of the Commission's Uniform System of Accounts and its order of May 11, 1937;

(c) In order to prepare the further studies and analyses, Central Illinois Public Service Company requests that the hearing set for March 23, 1942, in Springfield, Illinois, by the order of February 20, 1942, be indefinitely postponed;

The Commission *orders* that: The hearing in the above-entitled matter heretofore set for March 23, 1942, in the offices of the Illinois Commerce Commission in Springfield, Illinois, be and the same is hereby indefinitely postponed, subject to such further orders the Commission may make with respect thereto.

PETROLEUM COORDINATOR FOR NATIONAL DEFENSE.

TANKER COORDINATING BOARD, ESTABLISHMENT AND FUNCTIONS

Pursuant to the President's letter of May 28, 1941,[1] establishing the Office of Petroleum Coordinator for National Defense for the purpose, among others, of coordinating the Federal functions relating to petroleum problems by joint cooperative action with Federal departments and agencies exercising such functions there is hereby established a Tanker Coordinating Board. The members of the Board shall be the following: Ralph K. Davies, Deputy Petroleum Coordinator for National Defense, B. Brewster Jennings, of the United States Maritime Commission, Commander W. M. Callaghan, of the Department of the Navy, E. Holman, J. R. Parten, and a member to be named from District 5.

Nothing in this Order shall be construed as being in opposition to the provisions of Executive Order No. 9054,[2] of February 7, 1942, creating the War Shipping Administration.

Mr. Davies shall be Chairman of the Board, and Mr. Jennings shall be Vice-Chairman thereof. The members of the Board shall serve without compensation as such, but shall be entitled to be reimbursed for their actual and necessary transportation, subsistence, and other expenses incidental to the performance of their duties. The Deputy Petroleum Coordinator is authorized to appoint and fix the compensation of an Executive Secretary to the Board and such other personnel as may be necessary, with the approval of the Petroleum Coordinator.

The Tanker Coordinating Board shall direct its policies and operations toward the coordination of all effort bearing on the distribution and most efficient utilization of tanker transportation capacity owned, operated or controlled by, or under contract to, American companies, their affiliates and subsidiaries, excluding, however, tanker capacity requisitioned for war, defense, or other governmental purposes. The functions of the Tanker Coordinating Board shall be exercised with reference to tankers operated in the Western Hemisphere.

To this end, the Tanker Coordinating Board shall:

(1) Obtain from Federal agencies and, through the industry committees designated by this Office or otherwise, from the petroleum and allied industries, information concerning (a) the military and essential civilian needs for crude petroleum and the products thereof, (b) the tanker capacity required to supply petroleum transportation requirements, (c) the current amount, type, availability, and location of tanker capacity used or usable for the transportation of petroleum, and (d) the prior use of tanker capacity for supplying crude petroleum and the products.

(2) Determine the deficiency or surplus in tanker capacity available or which can be made available for the transportation of crude petroleum and the products thereof.

(3) Devise and prepare plans for the distribution and most efficient utilization of available tanker capacity.

In accomplishing the objectives above set out, the Tanker Coordinating Board shall:

(4) Assemble and analyze all pertinent statistical and other data and information available from any source.

[1] 6 F.R. 2760.

[2] 7 F.R. 837.

(5) Plan the distribution and utilization of tanker capacity available for the service of essential petroleum requirements in the Western Hemisphere on an equitable basis between all markets and elements of the petroleum industry therein and in accordance with principles to be formulated and issued by the Office of Petroleum Coordinator, or other governmental agencies having jurisdiction.

(6) In devising plans for the distribution and utilization of tanker capacity as hereinbefore directed, prescribe such schedules and formulas essential to obtaining the desired objectives in such detail that the effectuation of such plans will require, on the part of the committees or subcommittees having responsibility therein and the persons and companies affected thereby, only the mechanical and ministerial functions of making the necessary statistical calculations and scheduling tanker capacity in accordance therewith.

(7) Make, from time to time, to the appropriate governmental agency or agencies such recommendations as it may deem necessary or desirable.

In carrying out the functions hereinbefore prescribed, the Tanker Coordinating Board may:

(8) Create and establish, with the approval of the Deputy Petroleum Coordinator, such committees or subcommittees within the petroleum industry as are essential to the performance of its duties.

(9) Direct any such committees or subcommittees to gather and obtain such statistical and other data and information as the Tanker Coordinating Board may deem pertinent.

Pursuant to the authority contained in the President's letter of May 28, 1941, the Petroleum Coordinator will, upon his approval of a request by the Tanker Coordinating Board, make provision for necessary supplies, facilities, and services and for actual and necessary transportation, subsistence, and other expenses incidental to the performance of the duties of the Tanker Coordinating Board.

The Tanker Control Board is hereby abolished, and its personnel, records and property transferred to the Tanker Coordinating Board.

HAROLD L. ICKES,
Petroleum Coordinator for National Defense.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-455]

IN THE MATTER OF NORTHEASTERN WATER AND ELECTRIC CORPORATION, DENIS J. DRISCOLL AND WILLARD L. THORP, AS TRUSTEES OF ASSOCIATED GAS AND ELECTRIC CORPORATION, APPLICANTS-DECLARANTS

SUPPLEMENTAL ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania on the 19th day of March, A. D. 1942.

The Commission having previously entered its order herein on March 3, 1942, which order permitted the declarations to become effective and granted the applications herein, and which order approved a plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 and directed the taking of steps to carry out said plan;

Applicants-declarants having, on March 16, 1942 filed a supplemental Amendment to said declaration and application, said Amendment being Amendment No. 3, in which Amendment it is stated that there are to be no adjustments in the purchase price of $1,500,000 for the securities of certain companies operating in Ohio, which securities pursuant to said plan are being transferred by Northeastern Water and Electric Corporation to Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation.

Applicants-declarants having further, in said amendment, requested that the Commission amend its order for the purpose of specifically indicating the securities to be transferred as aforesaid for the said consideration; and

Applicants having further represented that said proposed transfers have been approved by the United States District Court for the Southern District of New York; and

Applicants having further requested that an order of the Commission be entered specifically directing said Denis J. Driscoll and Willard L. Thorp, as Trustees of aforesaid, to carry out the provisions of said order, and having requested that said order require that all steps necessary to carry out said plan be taken on or before July 1, 1942;

The Commission having examined said Amendment and finding that the taking of the action therein requested is necessary to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and the Commission therefore being of the opinion that said request may appropriately be granted;

It is hereby ordered, pursuant to Section 11 (e) and other applicable provisions of the Public Utility Holding Company Act, that the aforesaid plan pursuant to Section 11 (e) of said Act be and hereby is approved, and specifically, without limiting the generality of the foregoing, Northeastern Water and Electric Corporation is hereby directed to sell to Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation, on or before July 1, 1942, and said trustees are hereby directed to acquire from said Northeastern Water and Electric Corporation, on or before July 1, 1942, the following securities, being all the securities of General Utilities Company, The Ohio Northern Public Service Company and Western Reserve Power and Light Company, (the last mentioned company, in turn, owns all the securities of New London Power Company), all of said four last named companies being incorporated under the laws of, and operating in, the state of Ohio:

IN THE MATTER OF THE UNITED CORPORATION

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of March 1942.

The United Corporation, a registered holding company, having filed a declaration, and an amendment thereto, pursuant to Section 7 of the Public Utility Holding Company Act of 1935, regarding the reduction in the stated value of its outstanding 2,488,712⅛ shares of $3 Cumulative Preference Stock from $50 per share, as presently stated, to $5 per share; and

A public hearing having been held upon such declaration, as amended, after appropriate notice, and the Commission having considered the record and made and filed its Findings and Opinion herein;

It is ordered, That said declaration, as amended, be and the same hereby is permitted to become effective, subject to the terms and conditions prescribed in Rule U-24 and to the following further conditions:

(1) Without the prior approval of the Commission, no charge whatsoever shall be made to the account totalling $111,992,047.50 to be designated as capital surplus arising from the reduction in the stated value of the outstanding 2,488,712½ shares of $3 Cumulative Preference Stock from $50 per share, as presently stated, to $5 per share;

(2) The solicitation of the security holders of The United Corporation with respect to the approval of the reduction in the stated value of the Preference Stock and the accompanying restrictions to the capital surplus arising therefrom shall be submitted to the Commission for its approval pursuant to the applicable provisions of the Act and the Rules thereunder, jurisdiction being reserved for this purpose.

By the Commission.

IN THE MATTER OF THE MILWAUKEE ELECTRIC RAILWAY & TRANSPORT COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of March, A. D. 1942.

The above named party, a direct subsidiary of Wisconsin Electric Power Company and an indirect subsidiary of The North American Company, a registered holding company, having filed a declaration pursuant to Rule U-42 promulgated under section 12 of the Public Utility Holding Company Act of 1935, regarding the partial liquidation of its capital obligations by the redemption, at par, of $500,000 principal and par amount of its First Mortgage 4% Bonds, Wisconsin Electric Power Company being the owner of all of the outstanding securities of said party; such securities consisting of $9,700,000 principal amount of 4% bonds which are pledged under Wisconsin Electric Power Company's mortgage, dated October 28, 1938, and $24,300,000 of common stock which is a free asset; and

The declaration having been filed on February 19, 1942, and notice of said filing having been duly given in the form and in the manner prescribed by Rule U-23 promulgated under the Act, and the Commission not having received a request for a hearing with respect to the declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit the declaration, to become effective and finding with respect thereto that the transaction of said party in its own securities is not objectionable under Rule U-42; and

The Commission being satisfied that the date of permitting the declaration to become effective should be advanced;

It is hereby ordered, Pursuant to said Rule U-23 and Rule U-42 promulgated under the Act and the applicable provisions of the Act, that the aforesaid declaration be and the same hereby is permitted to become effective forthwith; subject, however, to the terms and conditions prescribed in Rule U-24 promulgated under the Act.

IN THE MATTER OF UNION ELECTRIC COMPANY OF MISSOURI AND UNION ELECTRIC COMPANY OF ILLINOIS

ORDER APPROVING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE AND POSTPONING ACTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of March, A. D. 1942.

Union Electric Company of Missouri, a registered holding company and a subsidiary of The North American Company, also a registered holding company, and Union Electric Company of Illinois, a subsidiary of Union Electric Company of Missouri, having filed a joint application and declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (b), 7, 10, 12 (b) and 12 (d) and Rules U-44 and U-45 promulgated thereunder regarding (1) the proposal by Union Electric Company of Missouri (a) to issue and sell $10,000,000 additional principal amount of its First Mortgage and Collateral Trust Bonds, 3⅜% Series due 1971, and publicly to invite sealed, written proposals for their purchase and to use the proceeds therefrom for new construction and for the purchase of additional common stock of its subsidiary, Union Electric Company of Illinois, (b) to purchase, from time to time during the period ending April 30, 1943, for cash, at the par value thereof, up to 500,000 shares having an aggregate par value of $10,000,000 of additional common stock of Union Electric Company of Illinois and to deposit all shares so purchased with the Trustee under the mortgage securing its First Mortgage and Collateral Trust Bonds, and (c) in the event all necessary steps prerequisite to the issue and sale of the common stock of Union Electric Company of Illinois have not been completed prior to the time when Union Electric Company of Illinois may be in need of additional funds, to advance to Union Electric Company of Illinois, from time to time during the period ending April 30, 1943, sums aggregating up to $1,000,000, without interest, to be applied against the purchase price of the common stock to be subsequently purchased as set forth in (b) above; and (2) the proposal of Union Electric Company of Illinois (a) to issue and sell to Union Electric Company of Missouri, from time to time during the period ending April 30, 1943, for cash at the par value thereof up to 500,000 shares having an aggregate par value of $10,000,000 of additional common stock and to use the proceeds therefrom for new construction, and (b) in case all necessary steps prerequisite to the issue and sale of its common stock have not been completed prior to the time when it may be in need of additional funds, to borrow from Union Electric Company of Missouri, from time to time during the period ending April 30, 1943, sums aggregating up to $1,000,000, without interest, to be applied against the purchase price of its common stock subsequently sold as set forth in (a) above and to use the proceeds from any such advances for new construction; and

Union Electric Company of Missouri having represented that pursuant to Rule U-50 it will publicly invite proposals for the purchase of the $10,000,000 additional principal amount of its First Mortgage and Collateral Trust Bonds, 3⅜% Series due 1971; and

Said application and declaration having been filed on March 6, 1942, and amendments thereto having been filed on March 14 and 20, 1942, respectively, and a notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect to said application and declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The above named applicants and declarants in an amendment filed March 20, 1942 having stated that the proceeds from the sale of the proposed bonds will be used by Union Electric Company of Missouri to purchase for cash, from time to time during the period ending April 30, 1943, up to $10,000,000 additional par value of the capital stock of Union Electric Company of Illinois, the type of capital stock to be purchased and the consideration to be paid therefor being subject to the approvals of regulatory bodies, and having requested by said amendment that action by the Commission on that portion of said application and declaration, as amended, relating to the issuance and sale by Union Electric Company of Illinois to Union Electric Company of Missouri of 500,000 shares of the former's common stock as set forth in (2) (a) in the first paragraph hereof and to the acquisition and pledge by Union Electric Company of Missouri of said stock as set forth in (1) (b) in said paragraph be temporarily postponed; and having further requested that said application, as amended, be approved and said declaration, as amended, be permitted to become effective in all other respects, subject to compliance with the provisions of Rule U-50, on March 21, 1942; and having also requested that the 10 day period prescribed by Rule U-50 (b) relating to the public invitation for proposals for the purchase of the bonds be shortened so that such public invitation could be published on March 23, 1942 and a contract for the purchase of said bonds could be executed on March 30, 1942; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to at this time approve said application, as amended, and to permit said declaration, as amended, to become effective, subject to compliance with the conditions imposed by Rules U-24 and U-50 (c) and to the reservation of jurisdiction over all fees and expenses incurred in connection with the proposed bonds, insofar as the same relates to (1) the proposal of Union Electric Company of Missouri (a) to issue and sell $10,000,000 additional principal amount of its First Mortgage and Collateral Trust Bonds, 3⅜% Series due 1971, and publicly to invite sealed, written proposals for their purchase and to use the proceeds therefrom for new construction and for the purchase of up to $10,000,000 additional par value of the capital stock of its subsidiary, Union Electric Company of Illinois; and (b) in the event all necessary steps prerequisite to the issue and sale of the capital stock of Union Electric Company of Illinois have not been completed prior to the time when Union Electric Company of Illinois may be in need of additional funds, to advance to Union Electric Company of Illinois, from time to time during the period ending April 30, 1943, sums aggregating up to $1,000,000, without interest, to be applied against the purchase price of the capital stock of Union Electric Company of Illinois to be subsequently purchased, and (2) the proposal of Union Electric Company of Illinois in case all necessary steps prerequisite to the issue and sale of its capital stock have not been completed prior to the time when it may be in need of additional funds, to borrow from Union Electric Company of Missouri, from time to time during the period ending April 30, 1943, sums aggregating up to $1,000,000, without interest, to be applied against the purchase price of its capital stock subsequently sold and to use the proceeds from any such advances for new construction; and finding with respect thereto that the requirements of section 7 (c) of said Act are satisfied and that no adverse findings are necessary under section 7 (d) thereof and that the provisions of Rule U-45 have been complied with; and that the 10-day period prescribed by Rule U-50 (c) should be shortened as requested; and that the date of its order should be advanced as requested;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act that said application, as amended, be approved and that said declaration, as amended, be permitted to become effective forthwith as regards only the proposals set forth in the preceding paragraph of this order; subject, however, to the terms and conditions prescribed by Rule U-24 and to the following further condition:

That Union Electric Company of Missouri report to the Commission the results of the competitive bidding as required by Rule U-50 (c) and comply with such supplemental order as the Commission may enter by reason of the facts disclosed thereby; jurisdiction is hereby reserved for such purpose;

It is further ordered, That our action on the proposals set forth in (1) (b) and (2) (a) in the first paragraph of this order be and the same is hereby postponed and jurisdiction over such proposals is hereby reserved.

It is further ordered, That jurisdiction over all fees and expenses incurred in connection with proposed bond issue be and the same is hereby reserved.

By the Commission, (Commissioner Healy dissenting for the reasons set forth in his Memorandum of April 1, 1940).

IN THE MATTERS OF THE UNITED LIGHT AND POWER COMPANY; THE UNITED LIGHT AND RAILWAYS COMPANY; AMERICAN LIGHT & TRACTION COMPANY; CONTINENTAL GAS & ELECTRIC CORPORATION; UNITED AMERICAN COMPANY; AND IOWA-NEBRASKA LIGHT AND POWER COMPANY, RESPONDENTS, AND THE UNITED LIGHT AND POWER COMPANY AND ITS SUBSIDIARY COMPANIES, RESPONDENTS, AND THE UNITED LIGHT AND POWER COMPANY, APPLICANT

NOTICE OF FILING OF RESPONDENTS' APPLICATION NO. 11 AND ORDER RECONVENING HEARING FOR PURPOSE OF CONSIDERING SAID APPLICATION NO. 11

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of March 1942.

The Commission having previously, by order dated March 20, 1941, under section 11 (b) (2) of the Public Utility Holding Company Act of 1935, ordered among other things the dissolution of The United Light and Power Company; and said order having provided that the respondents should make application to the Commission for the entry of such further orders as were necessary or appropriate for that purpose, and the Commission having reserved jurisdiction to enter such further orders as might be necessary or appropriate;

Notice is hereby given that The United Light and Power Company, a registered holding company, has filed on March 18, 1942 an application designated as "Application No. 11", requesting the entry of an order by this Commission under section 11 (c) of the Act extending the time for compliance with our order of March 20, 1941 for a period of one year.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that the hearings herein be reconvened for the purpose of considering said Application No. 11;

It is ordered, That the hearing in this proceeding shall be reconvened at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on such date by the Hearing Room Clerk, at 10:00 A. M. on the 30th day of March 1942. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by our Rules of Practice, Rule XVII, on or before March 28, 1942. At said reconvened hearing on that day the issues will be limited to a consideration of the request presented by said Application No. 11

All interested persons are referred to said Application No. 11 which is on file in the office of said Commission for full details concerning the application.

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at such hearing is hereby authorized to assert all powers granted to the Commission under section 18 (c) of the Act and to the trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said application, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether or not The United Light and Power Company has exercised due diligence in its efforts to comply with the order of this Commission dated March 20, 1941.

(2) Whether an extension of one year in which to comply with our order of March 20, 1941, as requested by the Company, is necessary or appropriate in the public interest or for the protection of investors or consumers, or whether a shorter period would be adequate.

Notice of such hearing is hereby given to the respondents and applicants herein, and to any other person whose participation in such proceedings may be in the public interest or for the protection of investors and consumers.

It is further ordered, That the Secretary of this Commission serve notice of the entry of this order by mailing a copy thereof by registered mail to the respondents and applicants and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

IN THE MATTER OF NEW ENGLAND GAS AND ELECTRIC ASSOCIATION, APPLIANCE CREDIT CORPORATION, AND NEGEA SERVICE CORPORATION

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its Office in the City of Philadelphia, Pa., on the 20th day of March, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named parties; and

Notice is further given that any interested persons may, not later than April

9, 1942, at 5:30 p. m. E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing therein. At any time thereafter, such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration and application which is on file in the office of said Commission for a statement of the transactions therein proposed, which are summarized below:

It is proposed that a merger of Appliance Credit Corporation and NEGEA Service Corporation, both subsidiary service companies of New England Gas and Electric Association, be made. NEGEA Service Corporation will issue for cash to New England Gas and Electric Association 500 additional shares of common stock of a par value of $100 per share. NEGEA Service Corporation will then purchase the assets, subject to the liabilities, of Appliance Credit Corporation for cash at the book value of $52,514.30 (figure as at December 31, 1941). New England Gas and Electric Association will then surrender to Appliance Credit Corporation its present holdings of 500 shares of common stock, of a par value of $100 per share, of the latter corporation and will receive, as a liquidation dividend, cash in the amount of $52,514.30 representing the par value of Appliance Credit Corporation stock plus earned surplus of $2,514.30. Appliance Credit Corporation will then cancel its common shares and dissolve. The surplus of $2,514.30 mentioned above represents accumulated surplus from earnings to the date of registration by Appliance Credit Corporation as a subsidiary service company.

By the Commission.

IN THE MATTER OF SOUTHWESTERN DEVELOPMENT COMPANY, WEST TEXAS GAS COMPANY, AMARILLO GAS COMPANY, AND PANHANDLE PIPE LINE COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of March 1942.

Southwestern Development Company, a registered holding company (a subsidiary of The Mission Oil Company, also a registered holding company) and its wholly-owned subsidiary companies, West Texas Gas Company, Amarillo Gas Company and Panhandle Pipe Line Company, having filed a declaration and application and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 7 and 10 thereof, regarding an issue or sale and acquisition involved in a proposed modification of Loan Agreements and certain Promissory Notes issued pursuant thereto and presently held by or pledged with Guaranty Trust Company of New York thereunder, more fully described as follows:

(1) Four 3% Promissory Notes of Southwestern Development Company, aggregating $4,413,695.77, due in serial installments of varying amounts up to and including July 1, 1945.

(2) One 3% Promissory Note of West Texas Gas Company in the amount of $2,400,000, due in serial installments of varying amounts up to and including January 2, 1945.

(3) One 3% Promissory Note of Amarillo Gas Company in the amount of $170,000, due in serial installments of varying amounts up to and including July 1, 1944.

(4) One 3% Promissory Note owned by Amarillo Gas Company and issued by Panhandle Pipe Line Company in the amount of $85,000, due in serial installments of varying amounts up to and including July 1, 1944.

The proposed modifications which will not change the aggregate amounts outstanding are as follows:

(1) Revising the serial maturities to provide that (a) Southwestern Development Company notes will mature in installments of varying amounts due July 1 of each year from 1943 to 1947 inclusive; (b) West Texas Gas Company notes will mature semi-annually in varying amounts on January 1 and July 1 of each year beginning July 1, 1942 and ending January 1, 1947; (c) Amarillo Gas Company note will mature in installments of various amounts beginning July 1, 1942 and ending July 1, 1946; (d) Panhandle Pipe Line Company note will mature in annual installments of varying amounts beginning July 1, 1942 and ending July 1, 1946;

(2) Reducing the interest rates on all notes to provide that (a) all installments maturing on or prior to July 1, 1946 shall bear interest from February 1, 1942 at the rate of 2½% per annum; and (b) amounts maturing after July 1, 1946 shall bear interest from February 1, 1942 at the rate of 2¾% per annum.

Said application and declaration having been filed February 16, 1942 and amendments thereto having been filed on February 26, 1942 and March 5, 1942, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for a hearing with respect thereto within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the aforesaid declaration under section 7 of said Act that the requirements of section 7 (c) of said Act are satisfied that section 7 (g) is inapplicable and that no adverse findings are necessary under section 7 (d) of said Act, and with respect to such application, insofar as the standards of section 10 of the Act are applicable, that no adverse findings are necessary under sections 10 (b) and 10 (c) (1) of said Act and that the transactions involved have the tendency required by section 10 (c) (2) of said Act;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration, as amended, be and it is hereby permitted to become effective forthwith, and the aforesaid application, as amended, be and it hereby is granted forthwith.

By the Commission (Commissioner Healy not participating).

IN THE MATTER OF COLUMBIA GAS & ELECTRIC CORPORATION, COLUMBIA OIL & GASOLINE CORPORATION, PANHANDLE EASTERN PIPE LINE COMPANY, MICHIGAN GAS TRANSMISSION CORPORATION, INDIANA GAS DISTRIBUTION CORPORATION, AND THE OHIO FUEL GAS COMPANY, RESPONDENTS

ORDER POSTPONING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of March 1942.

The Commission having, on February 28, 1942, issued its Notice of and Order (Holding Company Act Release No. 3359) reconvening the hearing in the above-entitled consolidated proceeding on March 24, 1942, at 10:00 a. m. in the offices of the Securities and Exchange Commission, Eighteenth & Locust Streets, Philadelphia, Pennsylvania; and

Columbia Oil & Gasoline Corporation and Columbia Gas & Electric Corporation having filed a request for postponement of such reconvened hearing to the 7th day of April 1942, stating as their reason that they require additional time to prepare for such hearing; and

The Commission having considered the request for postponement and being of the opinion that, under the circumstances, it should be granted;

It is further ordered, That the reconvening of the hearing in the above-entitled proceeding heretofore set for March 24, 1942, be and the same is hereby postponed to April 7, 1942, at 10:00 o'clock in the forenoon of that day at the same place and before the same officer of the Commission as specified in the aforesaid Notice and Order dated February 28, 1942; on such date the hearing room clerk in Room 318 will advise as to where the hearing will be held.

Notice of such hearing is hereby given to the applicants, declarants and respondents, to other interested parties, and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors and consumers.

By the Commission.

PROCLAMATION 2542

ARMY DAY—1942

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, in this crucial hour of history, we, the American people, are especially aware of the heroic service of the Army of the United States, whose Citizen Soldiers have always stood ready to make any sacrifice required for Freedom;

WHEREAS, aroused by Axis treachery and repudiation of all the ideals of honor and truth and decency which as a Free Nation under God we cherish, we have taken steps to mobilize a Citizens' Army from every corner of the Nation and all walks of life and are preparing to achieve that victory upon which may be built a firm structure of peace and freedom;

WHEREAS it is fitting that those of us who labor behind the lines to replenish the arsenal of democracy should firmly resolve to spare no effort which may contribute to the speedy creation of the arms and supplies indispensable to our Citizens' Army; and

WHEREAS Senate Concurrent Resolution 5, 75th Congress, 1st session, agreed to by the House of Representatives on March 16, 1937 (50 Stat. 1108), provides:

That April 6 of each year be recognized by the Senate and House of Representatives of the United States of America as Army Day, and that the President of the United States be requested, as Commander in Chief, to order military units throughout the United States to assist civic bodies in appropriate celebration to such extent as he may deem advisable; to issue a proclamation each year declaring April 6 as Army Day, and in such proclamations to invite the Governors of the various States to issue Army Day proclamations: *Provided*, That in the event April 6 falls on Sunday, the following Monday shall be recognized as Army Day;

NOW, THEREFORE, I, FRANKLIN D ROOSEVELT, President of the United States of America, do hereby proclaim Monday, April 6, 1942, as Army Day, and I invite the Governors of the forty-eight States to issue Army Day proclamations; as Commander in Chief, I hereby authorize officers of military units wherever feasible to aid civic bodies in the appropriate observance of Army Day; and I most strongly urge that the people of the United States can best observe Army Day by honoring our Citizen Soldiers and giving special thought to the great responsibility for contributing unstintedly of their effort and of their means in order that our armed forces may be adequately equipped for victory.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 20th day of March in the year of our Lord nineteen hundred and forty-two and of the Independence of the United States of America the one hundred and sixty-sixth.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF CORN PRODUCTS REFINING COMPANY, ET AL.

§ 3.45 (c) *Discriminating in price—Direct discrimination—Charges and prices:* § 3.45 (e) *Discriminating in price—Indirect discrimination—Charges and prices—Classifications generally.* In connection with offer, etc., in commerce, of products resulting from the grinding and refining of corn, and among other things, as in order set forth, (1) directly or indirectly discriminating in price between different purchasers of glucose or corn syrup unmixed of like grade and quality in the manner and degree set forth in paragraphs four and five of the findings as to the facts herein [i. e., as there in detail set forth, discriminating through systems of prices or pricing resulting in differentials which do not, as shown, make only due allowance for differences in the cost of manufacture, sale or delivery resulting from the differing methods or quantities in which such glucose is sold or delivered to purchasers thereof, to-wit, system of delivered prices based on respondents' Chicago price, plus freight to destination, irrespective of whether or not shipment is made from respondents' Chicago plant, or, as customary, from their Kansas City plant; and through a system of prices based upon their tank car prices plus certain differentials, depending upon type of container used], or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price; and (2) discriminating in price between purchasers of glucose or corn syrup unmixed by the methods set out in paragraph six of the findings as to the facts herein [i. e., as there in detail set forth, discriminating through the operation of its so-called booking system, under which customers are given, for certain period, and preceding increase in price, privilege of purchasing specified amounts for delivery within specified period at old prices, in such a way as to grant preferential treatment to favored customers, resulting in substantial discriminations in price among candy manufacturers purchasing from them, through extension of time or other variation of terms]; or otherwise discriminating in price between purchasers by means of the booking or entry of orders for glucose or corn syrup unmixed, where the price differences between purchasers resulting therefrom substantially approximate or exceed those set forth in paragraphs four or five of the findings as to the facts herein; prohibited, subject to provision that said prohibition immediately above set forth shall not prohibit actual sales of glucose or corn syrup unmixed for future delivery which do not involve such discriminations in price at the time of actual sale. (Sec. 2 (a), 49 Stat. 1526; 15 U.S.C., Sup. IV, sec. 13 (a)) [Cease and desist order, Corn Products Refining Company, et al., Docket 3633, March 16, 1942]

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Discounts and allowances.* In connection with offer, etc., in commerce, of products resulting from the grinding and refining of corn, and among other things, as in order set forth, directly or indirectly discriminating in price between purchasers of starch or starch products of like grade and quality in the manner and degree set forth in paragraph nine of the findings as to the facts herein, i. e., as there in detail set forth, discriminating in price through allowance of discounts, rebates, commissions, or other allowances, from their regular market or list prices to two customers on their puchases of many millions of pounds of such products, while selling to competitors of said purchasers substantial quantities of such products of like grade and quality at said corporations' regular market or list prices, and without any such discounts, etc., not shown as making no more than due allowance for differences, if any, in the cost of manufacture, sale or delivery of such products, resulting from differing methods or quantities, if any, in which the products are sold or delivered, and sufficient, if reflected in whole or substantial part in resale prices, to attract business to said favored concerns away from their competitors, or to force latter to resell products in question at substantially reduced profit, or to refrain from reselling], or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price; prohibited. (Sec. 2 (a), 49 Stat. 1526; 15 U.S.C., Sup. IV, sec. 13 (a)) [Cease and desist order, Corn Products Refining Company, et al., Docket 3633, March 16, 1942]

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Discounts and allowances.* In connection with offer, etc., in commerce, of products resulting from the grinding and refining of corn, and among other things, as in order set forth, directly or indirectly discriminating in price between different purchasers of corn gluten feed and corn gluten meal of like grade and quality in the manner and degree set forth in paragraph eight of the findings as to the facts herein, [i. e., as there in detail set forth, discriminating in price through according to at least six favored purchasers discounts of fifty cents a ton or more, as the case may be, from said respondents' regular market prices on sales and shipments of such feed and meal, while selling such products of like grade and quality to competitors of said favored concerns without according any such discounts, allowances, commissions, rebates or other compensation, sufficient, if reflected in whole or substantial part in resale prices, to attract business to said favored concerns away from their respective competitors, or to force latter to resell such products purchased from respondents at a substantially reduced profit, or to refrain from reselling, and sufficient substantially to increase the margins of profit of the favored customers over those otherwise obtainable, and which, as shown, do not make no more than due allowance for differences, if any, in the cost of manufacture, sale or delivery of said products resulting from the differing methods, or quantities, if any, in which sold and delivered], or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price; prohibited. (Sec. 2 (a), 49 Stat. 1526; 15 U.S.C., Sup. IV, sec. 13 (a)) [Cease and desist order, Corn Products Refining Company, et al., Docket 3633, March 16, 1942]

§ 3.45 (c) *Discriminating in price—Direct discrimination—Services and facilities.* In connection with offer, etc., in commerce, of products resulting from the grinding and refining of corn, and among other things, as in order set forth, furnishing advertising services to The Curtiss Candy Company as set forth in paragraph ten of the findings as to the facts herein [i. e., as there in detail set forth, under an understanding with said company (which, for a period of years, advertised its products approximately as much as all of the other candy manufacturers in the United States combined, and had as wide a distribution of its candy as any candy manufacturer in the United States) to induce it to use respondents' dry dextrose in its candies, and to advertise them as containing the same, and in consideration of the addition of the "Dextrose Message" to said company's advertising, appropriating various large sums of money for advertising in newspapers, magazines and on the radio, depicting the candy products of said company as "being rich in dextrose", or "enriched with dextrose"; while failing and declining to enter into any similar arrangements with any other of those buying such product from respondents, and to appropriate, or to pay to any one, any money with which advertising services could be purchased for the advertising of products of any purchaser of dry dextrose except said candy company; and failing to furnish any advertising services or facilities of any kind to other customer-purchasers of dry dextrose who compete with said candy company, user of such dextrose in most of its products in substantial, and frequently, major proportions], or directly or indirectly furnishing services or facilities to The Curtiss Candy Company or to any purchaser of dextrose or other of respondents' products in connection with the processing, handling, sale, or offering for sale thereof, when such services or facilities are not accorded to all competing purchasers of any such product on proportionally equal terms; prohibited. (Sec. 2 (e), 49 Stat. 1527; 15 U.S.C., Sup. IV, sec. 13 (e) [Cease and desist order, Corn Products Refining Company, et al., Docket 3633, March 16, 1942]

§ 3.39 *Dealing on exclusive and tying basis.* In connection with offer, etc., in commerce, of products resulting from the grinding and refining of corn, and among other things, as in order set forth, contracting to sell to, or selling to, the Huron Milling Company, the Keever Starch Company, or any other customer buying in quantities approximating those of the purchasers named, corn starch or other starch products, or fixing a price therefor or discount or rebate therefrom, on the condition, agreement, or understanding that any such purchaser shall not use or deal in corn starch or other starch products of a competitor or competitors of respondents, or from performing, enforcing, or continuing in operation or effect any such condition, agreement or understanding; prohibited. (Sec. 3, 38 Stat. 731, 15 U.S.C., sec. 14) [Cease and desist order, Corn Products Refining Company, et al., Docket 3633, March 16, 1942]

In the Matter of Corn Products Refining Company, Corn Products Sales Company, Inc.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 16th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondents, the amended complaint of the Commission and respondents' answer thereto, testimony and other evidence, briefs in support of the complaint and in opposition thereto, and oral arguments by counsel, and the Commission having made its findings as to the facts and its conclusion that respondents have violated subsections (a) and (e) of Section 2 and Section 3 of "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914

(Clayton Act) as amended by Act of June 19, 1936 (Robinson-Patman Act):

It is ordered, That respondents Corn Products Refining Company, a corporation, and Corn Products Sales Company, Inc., a corporation, and their officers, directors, representatives, agents, and employees, in connection with the offering for sale, sale, and distribution of products resulting from the grinding and refining of corn in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

(1) Directly or indirectly discriminating in price between different purchasers of glucose or corn syrup unmixed of like grade and quality in the manner and degree set forth in Paragraphs 4 and 5 of the findings as to the facts herein, or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price;

(2) Discriminating in price between purchasers of glucose or corn syrup unmixed by the methods set out in Paragraph 6 of the findings as to the facts herein, or otherwise discriminating in price between purchasers by means of the booking or entry of orders for glucose or corn syrup unmixed, where the price differences between purchasers resulting therefrom substantially approximate or exceed those set forth in Paragraphs 4 or 5 of the findings as to the facts herein, provided this shall not prohibit actual sales of glucose or corn syrup unmixed for future delivery which do not involve such discriminations in price at the time of actual sale;

(3) Directly or indirectly discriminating in price between different purchasers of starch or starch products of like grade and quality in the manner and degree set forth in Paragraph 9 of the findings as to the facts herein, or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price;

(4) Directly or indirectly discriminating in price between different purchasers of corn gluten feed and corn gluten meal of like grade and quality in the manner and degree set forth in Paragraph 8 of the findings as to the facts herein, or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price;

(5) Furnishing advertising services to The Curtiss Candy Company as set forth in Paragraph 10 of the findings as to the facts herein, or directly or indirectly furnishing services or facilities to The Curtiss Candy Company or to any purchaser of dextrose or other of respondents' products in connection with the processing, handling, sale, or offering for sale thereof, when such services or facilities are not accorded to all competing purchasers of any such product on proportionally equal terms;

(6) Contracting to sell to, or selling to, the Huron Milling Company, the Keever Starch Company, or any other customer buying in quantities approximating those of the purchasers named, corn starch or other starch products, or fixing a price therefor or discount or rebate therefrom, on the condition, agreement, or understanding that any such purchaser shall not use or deal in corn starch or other starch products of a competitor or competitors of respondents, or from performing, enforcing, or continuing in operation or effect any such condition, agreement, or understanding.

It is further ordered, That respondents shall, within sixty (60) days after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF CLINTON COMPANY, ET AL.

§ 3.45 (c) *Discriminating in price—Direct discrimination — Charges and prices:* § 3.45 (e) *Discriminating in price—Indirect discrimination—Charges and prices—Classifications generally.* In connection with offer, etc., in commerce, of glucose or corn syrup unmixed, (1) directly or indirectly discriminating in price between different purchasers of glucose or corn syrup unmixed of like grade and quality in the manner and degree set forth in paragraphs four and six of the findings as to the facts herein, [i. e., as there in detail set forth, discriminating through system of prices or pricing resulting in differentials which do not reflect actual differences in delivery costs to respondents, and brought about through sales of glucose of like grade and quality, fulfilled by shipments from respondents' Iowa plant to purchasers in various cities, at differing delivered prices, based upon respondents' Chicago tank car price, with addition thereto of the amount of the railroad tariff from Chicago to purchasers' locations in particular cities concerned; and through system or plan of adding to their base railroad tank car lot price for glucose, certain "container differentials", depending upon particular type of container used], or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price; (2) discriminating in price between different purchasers of glucose by the methods set out in paragraph five of the findings as to the facts herein [i. e., as there in detail set forth, discriminating through preferential operation or application of respondents' booking system under which purchasers, following announcement of new price increase, are granted option of purchase at current price provided shipment is made within thirty days after price increase date, through making shipments at times to various purchasers, after expiration of thirty-day period, at older and lower price, while concurrently charging and receiving from other and competing purchasers who order after expiration of the five-day period, the new increased and higher prices for similar products, and through accepting order for glucose at old and lower price and selling same at such price to favored purchaser, while concurrently selling same product of like grade and quality to other and competing purchasers at the new and higher price], or otherwise discriminating in price between purchasers by means of the booking or entry of orders for glucose or corn syrup unmixed, where the price differences resulting therefrom substantially approximate or exceed those set out in paragraphs four or six of the findings as to the facts herein; and (3) otherwise discriminating in price as between purchasers of glucose or corn syrup unmixed of like grade and quality where the effect may be substantially to lessen competition or tend to create a monopoly in the lines of commerce in which customers of respondent are engaged, or to injure, destroy, or prevent competition with any recipient of the benefit of such discrimination; prohibited, subject to provision as respects said second prohibition above set forth that same shall not prohibit actual sales of glucose or corn syrup unmixed for future delivery which do not involve such discriminations in price at the time of actual sale; and subject to further provision, as respects said third and last prohibition above set forth, that it shall not prevent price differences which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which said glucose is to such purchasers sold or delivered, and to further provision that it shall not prevent respondents from showing that any lower price to any purchaser was made in good faith to meet an equally low price of a competitor of respondents. (Sec. 2 (a), 49 Stat. 1526; 15 U.S.C., Sup. IV, sec. 13 (a) [Cease and desist order, Clinton Company, et al., Docket 3800, March 17, 1942]

In the Matter of Clinton Company, Clinton Sales Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 17th day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, respondents' answer thereto, certain stipulated facts read into the record and exhibits introduced, briefs filed herein, and oral arguments of counsel, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of subsection (a) of section 2 of "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914, (Clayton Act) as amended by the Act approved June 19, 1936, (Robinson-Patman Act):

It is ordered, That respondents Clinton Company, a corporation, and Clinton Sales Company, a corporation, and their officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of glucose or corn syrup unmixed in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

(1) Directly or indirectly discriminating in price between different purchasers of glucose or corn syrup unmixed of like grade and quality in the manner and degree set forth in Paragraphs 4 and 6 of the findings as to the facts herein, or in any manner or degree substantially similar thereto, or from continuing or resuming any such discriminations in price;

(2) Discriminating in price between different purchasers of glucose by the methods set out in Paragraph 5 of the findings as to the facts herein, or otherwise discriminating in price between purchasers by means of the booking or entry of orders for glucose or corn syrup unmixed, where the price differences between purchasers resulting therefrom substantially approximate or exceed those set out in Paragraphs 4 or 6 of the findings as to the facts herein, provided this shall not prohibit actual sales of glucose or corn syrup unmixed for future delivery which do not involve such discriminations in price at the time of actual sale;

(3) Otherwise discriminating in price as between purchasers of glucose or corn syrup unmixed of like grade and quality where the effect may be substantially to lessen competition or tend to create a monopoly in the lines of commerce in which customers of respondent are engaged, or to injure, destroy, or prevent competition with any recipient of the benefit of such discrimination, provided that this shall not prevent price differences which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods of quantities in which said glucose is to such purchasers sold or delivered, and provided further that this shall not prevent respondents from showing that any lower price to any purchaser was made in good faith to meet an equally low price of a competitor of respondents.

It is further ordered, That respondents shall, within sixty (60) days after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 24—HOUSING CREDIT

Chapter II—Federal Savings and Loan System

[Bulletin No. 1]

PART 202—INCORPORATION, CONVERSION, AND ORGANIZATION

AMENDMENT RELATING TO CHARTER AND BYLAWS

MARCH 23, 1942.

Section 202.9 of the Rules and Regulations for the Federal Savings and Loan System is hereby amended, effective March 23, 1942, to read as follows:

§ 202.9 *Charter and bylaws*—(a) *Issuance of Charter K.* If the Petition for Charter is approved, the following charter (hereinafter referred to as a "Charter K") shall be issued:

CHARTER K

Pursuant to the provisions of section 5 of the Home Owners' Loan Act of 1933, the following charter is hereby issued:

1. *Name.* The name of the Federal savings and loan association hereby chartered (hereinafter referred to as the "association") is ---------- Federal Savings and Loan Association ----------.

2. *Office.* The home office of the association shall be located at ----------, in the County of ----------, State of ----------. No office of the association shall be moved from its immediate vicinity except as may be provided in regulations made by the Federal Home Loan Bank Administration.

3. *Objects and powers.* The objects of the association are to promote thrift by providing a convenient and safe method for people to save and invest money and to provide for the sound and economical financing of homes. The statute, this charter, and rules and regulations made thereunder provide for examination and supervision and at the same time for the protection of all private rights concerned, and shall be construed in keeping with the best practices of local mutual thrift and home-financing institutions in the United States.

The association shall act as fiscal agent of the Government when designated for that purpose by the Secretary of the Treasury, under such regulations as he may prescribe, and shall perform all such reasonable duties as fiscal agent of the Government as he may require. The association may act as agent for any other instrumentality of the United States when designated for that purpose by any such instrumentality.

The association shall have perpetual succession and power to sue and be sued, complain and defend in any court of law or equity; to have a corporate seal, affixed by imprint, facsimile or otherwise; to appoint officers and agents as its business shall require, and allow them suitable compensation; to have bylaws not inconsistent with the Constitution or laws of the United States, this charter, and rules and regulations of the Federal Home Loan Bank Administration, providing for the management of its property and regulation and government of its affairs; to wind up and dissolve, merge, consolidate, or reorganize in the manner provided by law and rules and regulations made thereunder; and to conduct business in the territory of the United States except as otherwise limited in this charter. The association may purchase, hold, and convey real and personal estate consistent with its objects, purposes, and powers; may mortgage or lease any real and personal estate; and may take such property by gift, devise, or bequest. Unless authorized by the Federal Home Loan Bank Administration, the association may not invest in an office building or buildings for the transaction of the business of the association an amount representing the cost of land and buildings in excess of the sum of its undivided profits and reserve accounts.

In addition to the foregoing powers expressly enumerated, the association shall have power to do all things reasonably incident to the accomplishment of its express objects and the performance of its express powers. The association shall have such powers as are conferred by law and shall exercise its powers in conformity with the Home Owners' Loan Act of 1933 and all laws of the United States as they now are, or as they may hereafter be amended, and with the rules and regulations made thereunder which are not in conflict with this charter.

4. *Members.* All holders of share accounts of the association and all borrowers therefrom shall be deemed and held to be members thereof. In the consideration of all questions requiring action by the members, each holder of a share account shall be permitted to cast one vote for each $100, or fraction thereof, of the participation value of his share account. A borrowing member shall be permitted, as a borrower, to cast one vote, and to cast the number of votes to which he may be entitled as the holder of a share account. No member, however, shall cast more than 50 votes. Voting may be by proxy. Any number of members present at a regular or special meeting of the members shall constitute a quorum. A majority of all votes cast at any meeting of members shall determine any question. The members who shall be entitled to vote at any meeting of the members shall be those owning share accounts and borrowing members of record on the books of the association at the end of the calendar month next preceding the date of the meeting of members.

5. *Directors and officers.* The association shall be under the direction of a board of directors of not less than 5 nor more than 15, as determined and elected by the members. Directors shall be elected by ballot from the membership of the association, and a director shall cease to be a director when he ceases to be a member. At the first meeting of members of the association, directors shall be elected to serve until the first annual meeting and until their successors are duly elected and qualified. Thereafter directors shall be elected for periods of 3 years and until their successors are elected and qualified, but provision shall be made for the election of approximately one-third of the board of directors each year. In the event of a vacancy, including vacancies created by an increase by vote of the members of the number of directors within the limits hereinabove specified, the board of directors may fill the vacancy, if the members fail so to do, by electing a director to serve until the next annual meeting of the members, at which time a director shall be elected to fill the vacancy for the unexpired term. At its meeting, which shall be held as soon as practicable after the annual meeting of members, the board of directors shall elect a president, one or more vice presidents, a secretary, and a treasurer. It may appoint such additional officers and employees as it may from time to time determine. The offices of secretary and treasurer may be held by the same person, and a vice president may also be either the

secretary or the treasurer. The term of office of all officers shall be one year or until their respective successors are elected and qualified; but any officer may be removed at any time by the board of directors. In the absence of designation from time to time of powers and duties by the board of directors, the officers shall have such powers and duties as generally pertain to their respective offices.

6. *Share capital.* The share capital of the association shall consist of the aggregate of payments upon share accounts and dividends credited thereto less redemption and repurchase payments. The participation value in the share capital of each share account held by a member shall be the aggregate of payments upon such share account and dividends credited thereto less redemption and repurchase payments. Share accounts of $100 or multiples thereof may be known as investment share accounts, consisting of full-paid income shares. All other share accounts shall be known as savings share accounts. Payments upon share accounts shall be called share payments. Outstanding share accounts, if any, created pursuant to a previous charter of the association issued by the Federal Home Loan Bank Board or the Federal Home Loan Bank Administration shall continue to be known and treated as provided in the Federal charter in effect at the time each such share account was created, until exchanged for investment or savings share accounts. Share accounts may be issued for cash, or property in which the association is authorized to invest, and, in the absence of actual fraud in the transaction, the value of property taken in payment therefor, as determined by the board of directors, shall be conclusive. All share accounts shall be nonassessable, and no holder thereof shall be responsible for any losses incurred by the association beyond the loss of the participation value of his share accounts at the time the loss is determined.

7. *Ownership of share accounts.* All share accounts shall be represented by share account books containing a certificate of membership and evidencing the participation value of the share account, except that investment share accounts may be represented by separate membership certificates. Share accounts may be purchased and held absolutely by, or in trust for, any person, including an individual, male, female, adult or minor, single or married, a partnership, association, and corporation. The receipt or acquittance of any member, including a minor person or a married woman, who holds a share account shall be a valid and sufficient release and discharge of the association for any payment to such person on any share account. Two or more persons may hold share accounts jointly in any manner permitted by law. Trustees and other fiduciaries, including, but not limited to, fiduciaries empowered to invest in first mortgages, may invest in share accounts. Share accounts shall be transferable only upon the books of the association and upon proper application by the transferee and the acceptance of the transferee as a member upon terms approved by the board of directors. The association may treat the holder of record of share accounts as the owner for all purposes without being affected by any notice to the contrary unless the association has acknowledged in writing notice of a pledge. The association shall not directly or indirectly charge any membership, admission, repurchase, withdrawal, or any other fee or sum of money, for the privilege of becoming, remaining, or ceasing to be a member of the association.

8. *Power to obtain advances.* The association shall have power to obtain advances of not more than an amount equal to one-half of its share capital on the date of the advance. A subsequent reduction of share capital shall not affect in any way outstanding obligations for advances. The association shall not have power to obtain advances from any source other than a Federal home loan bank of more than an amount equal to 10 percent of its share capital on the date of the advance. The association may pledge or otherwise encumber any of its assets to secure its debts. The association shall not accept deposits from the public or issue any evidence of indebtedness except for advances. It shall not represent itself as a deposit institution.

9. *Reserves, undivided profits, and dividends.* As of June 30 and December 31 of each year, after payment or provision for payment of all expenses and appropriate transfers to the reserve required below, and additional transfers to other reserve accounts, and provision for an undivided profits account, the board of directors shall declare as dividends the remainder of the net earnings of the association for the 6 months' period. All dividends shall be declared as of said dividend dates. The board of directors may declare dividends as of said dividend dates payable out of the amounts remaining from previous periods in the undivided profits account. Profits to holders of share accounts shall be termed dividends (except bonus payments) and shall not be referred to as interest. The association shall maintain the reserve required for insurance of accounts by sufficient credits on each dividend date. If and whenever the aggregate reserves of the association (less reserve for bonus) are not equal to 10 percent of the share capital, the association shall, at each dividend date, transfer to reserves (other than reserve for bonus) a credit equivalent to at least 5 percent of the net earnings of the association, until such aggregate reserves are equal to 10 percent of the share capital. Any losses may be charged against reserves. Dividends upon investment share accounts shall be promptly paid in cash as of the dividend date. Dividends on savings share accounts shall be credited to such share accounts on the books of the association as of the dividend date. All holders of share accounts shall participate equally in dividends pro rata to the participation value of their share accounts; provided that the association shall not be required to credit dividends on inactive share accounts of $5 or less. Except as provided above, dividends shall be declared on the participation value of each share account at the beginning of the dividend period, plus the share payments made during the dividend period (less amounts repurchased and noticed for repurchase and, for dividend purposes, deducted from the latest previous share payments), computed at the dividend rate for the time invested, determined as provided below. The date of investment shall be the date of actual receipt of such share payments by the association, unless the board of directors fix a date, not later than the tenth of the month, for determining the date of investment of payments on either investment or savings share accounts or on both types of share accounts. Share payments, affected by such determination date, received by the association on or before such determination date, shall receive dividends as if invested on the first of such month. Share payments, affected by such determination date, received subsequent to such determination date, shall receive dividends as if invested on the first of the next succeeding month. All holders of share accounts shall be entitled to equal distribution of net assets, pro rata to the value of their share accounts, in the event of voluntary or involuntary liquidaton, dissolution, or winding up of the association.

10. *Bonus and bonus reserve.* In order to stimulate systematic thrift and to provide regular funds for the financing of homes, the members, by bylaw provision, may obligate the association to pay a cash bonus as follows:

(a) *Short-term bonus.* If, after the adoption of the bonus plan, a member desiring a short-term bonus shall agree to make regular monthly share payments of any specified amount on a savings share account until the participation value thereof shall equal 100 times the agreed monthly payment, and if the agreed monthly payments shall be made each and every month thereafter until the participation value thereof shall equal 100 times the agreed monthly payment, without a delay of more than 60 days in the payment of any monthly payment and without any prepayment of more than 12 months, and if during such period no application has been made for repurchase of any part of such savings share account, the bonus shall be payable on the date on which the participation value of such savings share account shall equal or exceed 100 times the agreed monthly payment. The bonus rate on such short-term savings share account shall be one-half of 1 percent per annum and the amount of the bonus shall be determined as follows: Divide the dollar amount of each semiannual dividend declared on such savings share account by a figure equal to twice the annual rate of percent of such semiannual dividend declared. The amount of the bonus is the sum of the quotients obtained.

(b) *Long-term bonus.* If, after the adoption of the bonus plan a member desiring a long-term bonus shall agree to make regular monthly share payments of any specified amount on a savings share account until the participation value thereof shall equal 200 times the agreed monthly payment, and if the agreed monthly payments shall be made each and every month thereafter until the participation value thereof shall equal 200 times the agreed monthly payment, without a delay of more than 60 days in the payment of any monthly payment and without any prepayment of more than 12 months, and if during such period no application has been made for repurchase of any part of such savings share account, the bonus shall be payable on the date on which the participation value of such savings share account shall equal or exceed 200 times the agreed monthly payment. The bonus rate on such long-term savings share account shall be 1 percent per annum and the amount of the bonus shall be determined as follows: Divide the dollar amount of each semiannual dividend declared on such savings share account by a figure equal to the annual rate of percent of such semiannual dividend declared. The amount of the bonus is the sum of the quotients obtained.

The members, by amendment of the bylaws, may abolish the bonus plan as to savings share accounts opened after the date of such repeal of the bonus plan.

Simultaneously with the declaration of each semiannual dividend after the adoption of the bonus plan, the board of directors shall transfer out of net earnings to an account designated "reserve for bonus" an amount, which, together with existing credits to such reserve is sufficient to pay the bonus on all savings share accounts then entitled to participation in such reserve in accordance with the provisions of this section. The board of directors may transfer any excess in such reserve to the undivided profits account.

11. *Redemption.* At any time funds are on hand for the purpose, the association shall have the right to redeem by lot, or otherwise as the board of directors may determine, all or any part of any of its share accounts on a dividend date, by giving 30 days' notice by registered mail addressed to the holders at their last address recorded on the books of the association. The association shall not redeem any of its share accounts when there is an impairment of

share capital or when it has applications for repurchase which have been on file more than 30 days and not reached for payment. The redemption price of share accounts redeemed shall be the full value of the share account redeemed, as determined by the board of directors, but in no event shall the redemption price be less than the repurchase value. If a share account which is redeemed is entitled to participate in the reserve for bonus, the amount of such accrued participation shall be paid as part of the redemption price. If the aforesaid notice of redemption shall have been duly given, and if on or before the redemption date the funds necessary for such redemption shall have been set aside so as to be and coptinue to be available therefor, dividends upon the share accounts called for redemption shall cease to accrue from and after the dividend date specified as the redemption date, and all rights with respect to such share accounts shall forthwith, after such redemption date, terminate, except only the right of the holder of record to receive the redemption price without interest.

12. *Repurchase.* The association shall have the right to repurchase its share accounts at any time upon application therefor and to pay to the holders thereof the repurchase value thereof. Holders of share accounts shall have the right to file with the association their written applications to repurchase their share accounts, in part or in full, at any time. Upon the filing of such written applications to repurchase, the association shall number and file the same in the order received and shall either pay the holder the repurchase value of the share account, in part or in full as requested, or, after 30 days from the receipt of such application to repurchase, apply at least one-third of the receipts of the association from holders of share accounts and borrowers, to the repurchase of such share accounts in numerical order: *Provided*, That if any holder of a share account applies for the repurchase of more than $1,000 of his share account or accounts, he shall be paid $1,000 in order when reached, and his application shall be charged with such amount as paid and shall be renumbered and placed at the end of the list of applications to repurchase, and thereafter, upon again being reached, shall be paid a like amount, but not exceeding the value of his account, and until paid in full shall continue to be so paid, renumbered, and replaced at the end of the list. When an application to repurchase is reached for payment as above provided, a written notice shall be sent to the applicant by registered mail at his last address recorded on the books of the association, and, unless the applicant shall apply in person or in writing for such repurchase payment within 30 days from the date of mailing such notice, no payment on account of such application shall be made and such application shall be cancelled. The board of directors shall have the absolute right to repurchase not exceeding $100 of any one share account or accounts of any one holder in any one month in any order regardless of whether or not such holder has filed an application for repurchase. Holders of share accounts filing written application for repurchase shall remain holders of share accounts until paid and shall not become creditors. Dividends upon a share account, to the extent of the amount of the application to repurchase all or part thereof, shall be discontinued while such share account remains upon the repurchase list. The repurchase value of share accounts of the association shall be the participation value thereof.

13. *Loans and investments.* The association may make loans to holders of share accounts on the sole security of their share accounts. To secure such loans the association shall obtain a lien upon, or a pledge of, the share account. Upon any default on any such loan, the association may, without any notice to or consent of the share-account holder, cancel on its books share accounts pledged and apply such share accounts in payment on account of the loan. No such loan shall exceed 90 percent of the repurchase value of the share account securing such loan. No such loan shall be made when the association has applications for repurchase which have been on file more than 30 days and not reached for payment.

The association may also lend its funds on the security of first liens upon homes, or combination of homes and business property, within 50 miles of its home office: *Provided*, That not more than $20,000 shall be loaned on the security of a first lien upon any property; except that not exceeding 15 percent of the assets of the association may be loaned on other improved real estate without regard to said $20,000 limitation, and without regard to said 50-mile limit, but secured by first lien thereon; and, *Provided further*, That the association may lend, without the requirement of amortization of principal, not exceeding 50 percent of the appraised value of the security of a first lien upon improved real estate, but the aggregate amount of such loans and of all other loans made pursuant to this sentence, without regard to the $20,000 limitation and without regard to the 50-mile limit, shall not exceed 15 percent of the assets of the association, without the prior written approval of the Federal Home Loan Bank Administration. The association, if converted from a State-chartered institution, may continue to make loans in the territory in which it made loans while operating under State charter. The association shall not make any loans to an officer, director, or employee, except loans on the sole security of share accounts owned by such officer, director, or employee, and except loans on the security of a first lien upon the home or combination of home and business property owned and occupied by such borrowing officer, director, or employee. The association may lend an amount not exceeding 75 percent of the value of the security of a home or combination home and business property, and may lend an amount not exceeding 50 percent of the value of the security of other improved real estate: *Provided*, That the association may lend a higher percentage of the value of any such security when authorized by the members of the association and by regulations made by the Federal Home Loan Bank Administration.

The association may invest without limit in obligations of, or obligations guaranteed as to principal and interest by, the United States, in obligations of Federal home loan banks, and in other securities approved by the Federal Home Loan Bank Administration. The association may also invest in stock of a Federal home loan bank.

No loans shall be made upon the security of real estate until at least two qualified persons selected by the board of directors shall have submitted a signed appraisal of the real-estate security for such loan. No loan shall be made when the borrower is required to pay to the association or to another person in connection with the loan any unreasonable or unlawful charge or fee. The association shall ascertain the total amount paid by each borrower to it and to any other person in connection with the loan, and furnish to each borrower upon the closing of the loan a loan settlement statement, indicating in detail the charges or fees such borrower has paid or obligated himself to pay to the association or to any other person in connection with such loan, and a copy of such statement shall be retained in the records of the association.

14. *Loan plan.* Loans on real estate shall be made on one of the following bases:

(a) Repayable in monthly installments, equal or unequal, beginning not later than 30 days after the date of the advance of the loan, sufficient to retire the debt, interest and principal, within 20 years: *Provided, however*, That the loan contract shall not provide for any subsequent monthly installment of an amount larger than any previous monthly installment; *And provided further*, That in the case of construction loans the first payment shall not be later than 4 months after the date of the first advance.

(b) To the extent permitted by this charter, repayable within 5 years from the date with or without any amortization of principal but with interest payable at least semiannually.

The monthly payments required shall be applied first to interest on the unpaid balance of the debt and the remainder to the reduction of the debt until the same is paid in full. The primary obligation shall be secured by a mortgage or other instrument constituting a first lien or the full equivalent thereof upon the real estate securing the loan according to any lawful and well recognized practice which is deemed best suited to the transaction. In keeping with the best loan practices in the territory, the instrument securing a loan on real estate shall provide for full protection to the association and shall be recorded. It shall provide specifically for full protection with respect to insurance, taxes, assessments, other governmental levies, maintenance, and repairs. It may provide for an assignment of rents and for such other protection as may be lawful or appropriate. The association may pay taxes, assessments, insurance premiums, and other similar charges for the protection of its interest in the property on which it has loans. All such payments may, when lawful, be added to the unpaid balance of the loan. The association may require life insurance to be assigned to the association by its borrowers as additional collateral for real-estate loans. The association may advance premiums on any life insurance held as additional collateral for real-estate loans if the association has a first lien on the policy. Such premium advances may, when lawful, be added to the unpaid balance of the loan. The association may require that the equivalent of one-twelfth of the estimated annual taxes, assessments, insurance premiums, and other charges upon real-estate security, or any of them, be paid in advance to the association in addition to interest and principal payments on its loans so as to enable the association to pay such charges as they become due from the funds so received. The association shall keep a record of the status of taxes, assessments, insurance premiums, and other charges on all real estate on which the association has made loans or which is owned by the association. The board of directors shall from time to time determine the rate of interest, premiums, fees, and other charges to be made in connection with loans by the association. In fixing such charges full consideration shall be given to sound and economical home financing in the territory in which the association operates. Borrowers shall have the right to prepay their loans without penalty; except that when the amount prepaid equals or exceeds 20 percent of the original principal amount of the loan, not more than 90 days' interest on the amount prepaid may be charged, provided the loan contract makes provision for such penalty. All loans on the security of real estate shall be made in accordance with this section unless the Federal Home Loan Bank Administration approves another loan plan upon application from the association for such approval.

15. *Evidence of corporate existence.* This charter, or a certified copy hereof under the seal of the Federal Home Loan Bank Administration, shall be evidence of the corporate existence of the association.

16. *Amendment of charter.* No amendment, addition, alteration, change, or repeal of this charter shall be made unless such proposal is made by the board of directors of the association, and submitted to and approved by the Federal Home Loan Bank Administration, and is thereafter submitted to and approved by the members at a legal meeting. Any amendment, addition, alteration, change, or repeal so acted upon and approved shall be effective, if filed with and approved by the Federal Home Loan Bank Administration, as of the date of the final approval by the members.

I, ----------, Secretary of the Federal Home Loan Bank Administration, do hereby certify that the foregoing is a true and correct copy of the charter of the ------ ---------- Federal Savings and Loan Association ---------- issued by the Federal Home Loan Bank Administration on the ------ day of ----------, 19--.

This, the ------ day of ----------, 19--.

[SEAL] ----------
Secretary.

Each such charter shall create the legal rights and duties intended by the parties; and after each such charter is issued, the Federal association shall be operated within the limits prescribed by section 5 of the Home Owners' Loan Act of 1933, and shall be subject to the provisions of its charter, its bylaws, and these rules and regulations, and any amendments thereof. Federal associations heretofore chartered (provided no preferred shares are outstanding) may amend their charter as an entirety by a majority vote cast at a regular or special meeting of members adopting a Charter K with the same name and office prescribed by their present charter and upon filing the following petition (hereinafter referred to as a "Petition for Amended Charter K"):

PETITION FOR AMENDED CHAPTER K

FEDERAL HOME LOAN BANK ADMINISTRATION

Washington, D. C.

The undersigned, pursuant to § 202.9 of the Rules and Regulations for Federal Savings and Loan Associations, respectfully petitions the Administration to issue an amended charter in the form of Charter K to the undersigned, fixing the name and home office of the undersigned which its present charter prescribes.

The undersigned, by its secretary, hereby certifies that the members at a regular (special) meeting duly adopted the following resolution:

"*Be It Resolved*, That the present charter of this association be amended to read in the form of Charter K, prescribing the present name and home office fixed by the present charter of this association."

In witness whereof, the Secretary of the undersigned has hereunto affixed his hand and the seal of the undersigned this ------ day of ----------, 19--.

---------- FEDERAL SAVINGS AND LOAN ASSOCIATION,

By ----------

[CORPORATE SEAL]

The Administration will issue to any such Federal association a Charter K fixing the name and the home office of the association which the present charter prescribes, unless the Administration when petitioned approves a change of name or location.

(b) *Bylaws (1936) prescribed.* Each Federal association having a Charter K shall operate under the following bylaws (hereinafter referred to as "Bylaws (1936)") unless and until other bylaws have been adopted by the association and have been approved by the Administration:

BYLAWS (1936)

FEDERAL SAVINGS AND LOAN ASSOCIATION

1. *Annual meetings of members.* The annual meeting of the members of the association for the election of directors and for the transaction of any other business of the association shall be held at its home office at 2 o'clock in the afternoon on the third Wednesday in January of each year, if not a legal holiday, or if a legal holiday then on the next succeeding day not a legal holiday. The annual meeting may be held at such other time on such day or at such other place in the same community as the board of directors may determine. At each annual meeting, the officers shall make a full report of the financial condition of the association and of its progress for the preceding year, and shall outline a program for the succeeding year.

2. *Special meetings of members.* Special meetings of the members of the association may be called at any time by the president or the board of directors, and shall be called by the president, a vice president, or the secretary upon the written request of members holding of record in the aggregate at least one-tenth of the share capital of the association. Such written request shall state the purposes of the meeting and shall be delivered at the home office of the association addressed to the president.

3. *Notice of meetings of members.* (a) Notice of each annual meeting shall be either published once a week for the two successive calendar weeks (in each instance on any day of the week) prior to the date on which such annual meeting shall convene, in a newspaper printed in the English language and of general circulation in the city or county in which the home office of the association is located, or mailed postage prepaid at least 15 days and not more than 30 days prior to the date on which such annual meeting shall convene to each of its members of record at his last address appearing on the books of the association. Such notice shall state the name of the association, the place of the annual meeting and the time when it shall convene. A similar notice shall be posted in a conspicuous place in each of the offices of the association during the 14 days immediately preceding the date on which such annual meeting shall convene. If any member, in person or by attorney thereunto authorized, shall waive in writing notice of any annual meeting of members, notice thereof need not be given to such member.

(b) Notice of each special meeting shall be either published once a week for the two consecutive calendar weeks (in each instance on any day of the week) prior to the date on which such special meeting shall convene, in a newspaper printed in the English language and of general circulation in the city or county in which the home office of the association is located, or mailed postage prepaid at least 15 days and not more than 30 days prior to the date on which such special meeting shall convene to each of its members of record at his last address appearing on the books of the association. Such notice shall state the name of the association, the purpose or purposes for which the meeting is called, the place of the special meeting and the time when it shall convene. A similar notice shall be posted in a conspicuous place in each of the offices of the association during the 14 days immediately preceding the date on which such special meeting shall convene. If any member, in person or by attorney thereunto authorized, shall waive in writing notice of any special meeting of members, notice thereof need not be given to such member.

4. *Meetings of the board of directors.* The board of directors shall meet regularly without notice at the home office of the association at least once each month at the hour and date fixed by resolution of the board of directors, provided that the place of meeting may be changed by the directors. Special meetings of the board of directors may be held at any place in the territory in which the association may make loans specified in a notice of such meeting and shall be called by the secretary upon the written request of the president, or of three directors. All special meetings shall be held upon at least 3 days' written notice to each director unless notice be waived in writing before or after such meeting. Such notice shall state the place, time, and purposes of such meeting. A majority of the directors shall constitute a quorum for the transaction of business. The act of a majority of the directors present at any meeting at which there is a quorum shall be the act of the board of directors. All meetings of the members and of the board of directors shall be conducted in accordance with Robert's Rules of Order.

5. *Resignation of directors.* Any director may resign at any time by sending a written notice of such resignation to the office of the association delivered to the secretary. Unless otherwise specified therein, such resignation shall take effect upon receipt thereof by the secretary. More than three consecutive absences from regular meetings of the board of directors, unless excused by resolution of the board of directors, shall automatically constitute a resignation, effective when such resignation is accepted by the board of directors.

6. *Powers of the board.* The board of directors shall have power—

(a) To appoint and remove by resolution the members of an executive committee, the members of which shall be directors, which committee shall have and exercise the powers of the board of directors between the meetings of the board of directors;

(b) To appoint and remove by resolution the members of such other committees as may be deemed necessary and prescribe the duties thereof;

(c) To fix the compensation of directors, officers, and employees; and to remove any officer or employee at any time with or without cause;

(d) To extend leniency and indulgence to borrowing members who are in distress and generally to compromise and settle any debts and claims;

(e) To limit share payments which may be accepted;

(f) To reject any application for share accounts or membership; and

(g) To exercise any and all of the powers of the association not expressly reserved by the charter to the members.

7. *Execution of instruments, generally.* All documents and instruments or writings of any nature shall be signed, executed, verified, acknowledged, and delivered by such officers, agents, or employees of the association or any one of them and in such manner as from time to time may be determined by resolution of the board of directors. All notes, drafts, acceptances, checks, endorsements, and all evidences of indebtedness of the association whatsoever shall be signed by such officer or officers or such agent or agents of the association and in such manner as the board of directors may from time to time determine. Endorsements for deposit to the credit of the association in any of its duly authorized depositaries shall be made in such manner as the board of directors may from time to time determine. Proxies to vote with respect to shares or accounts of other associations or stock of other corporations owned by or standing in the name of the association may be executed and delivered from time to time on behalf of the association by the president or a vice president and the secretary or an assistant secretary of the association or by any other person or persons thereunto authorized by the board of directors.

8. *Membership certificates.* One of the officers or an employee designated by the board of directors shall manually sign and deliver a membership certificate to each person upon the initial payment on a share account of the association or upon the making of a real-estate loan by the association.

9. *Seal.* The seal shall be two concentric circles between which shall be the name of the association. The year of incorporation, the word "incorporated", or an emblem may appear in the center.

10. *Amendment.* These bylaws may be amended at any time by a two-thirds affirmative vote of the board of directors, or by a vote of the members of the association. Each and every amendment shall be subject to the approval of the Federal Home Loan Bank Administration, and shall be ineffective until such approval shall be given, except that, without the approval of the Federal Home Loan Bank Administration, section 1 of the bylaws may be amended so that the time of day for convening the annual meeting may be fixed at any hour not earlier than 10 a. m. or later than 9 p. m., and a new section providing for a bonus may be added as provided in the rules and regulations for Federal savings and loan associations.

We, the undersigned officers, respectively, of the ---------- Federal Savings and Loan Association ----------, do hereby certify that the foregoing is a true and correct copy of the bylaws of said association.

---------- (President)

[SEAL] ---------- (Secretary)

(c) *Availability and delivery of charter and bylaws to members.* Each Federal association shall cause a certified copy of its charter and bylaws to be made available to members at all times in each office of the association, and shall deliver to each member upon admission to membership a true copy of its charter and bylaws as amended. A copy of each subsequent amendment, if directed by the Administration, shall be furnished to all members. (Sec. 5 (a), (b), (c), of H. O. L. A. of 1933, 48 Stat. 132, sec. 18, 49 Stat. 297, sec. 5 (k) of H.O.L.A. of 1933, as added by sec. 5, 48 Stat. 646; 12 U.S.C. 1464 (a), (b), (c), (k), and Sup.; E.O. 9070, 7 F.R. 1529)

This amendment is deemed to be of a minor and procedural character within the provisions of § 201.2 (c) of the Rules and Regulations for the Federal Savings and Loan System.

[SEAL] FRED T. GREENE,
Acting Deputy Governor.
HAROLD LEE,
General Counsel.
ORMOND E. LOOMIS,
Executive Assistant to the Commissioner.

TITLE 30—MINERAL RESOURCES

Chapter VI—Office of Solid Fuels Coordination

[Recommendation No. 1]

PART 601—ADMINISTRATIVE; GENERAL

SOLID FUELS ADVISORY WAR COUNCIL

In order to aid in the accomplishment of the purposes and objectives of the solid fuels coordination policy defined by the President of the United States in his letter of November 5, 1941, 7 F.R. 781, directing the Secretary of the Interior to act as Solid Fuels Coordinator, the Secretary of the Interior has established a Solid Fuels Advisory War Council and appointed to its membership representatives of the industries primarily affected by the program as well as representatives of labor and of the public. The purpose of the Council is to mobilize more effectively the resources and abilites of the solid fuels industries to deal with the emergency war time conditions and to provide a competent, responsible and representative body equipped and authorized both to advise the Secretary of the Interior with respect to the solid fuels industries and to carry into effect immediately measures affecting those industries recommended by the Secretary of the Interior as essential to the effective prosecution of the war program as it relates to solid fuels. It is vital to the national welfare that the Solid Fuels Advisory War Council be enabled to act swiftly and effectively to advise the Secretary of the Interior with respect to matters affecting the solid fuels industries and to carry into effect recommendations of the Secretary of the Interior.

Therefore, pursuant to the President's letter of November 5, 1941 directing the Secretary of the Interior to serve as Solid Fuels Coordinator, I do hereby recommend that immediately, and until further notice:

Sec.

601.1 Duties and functions.
601.2 Surveys and consultations.
601.3 Plans.
601.4 Organization of Council.

Bituminous Coal

§ 601.1 *Duties and functions.* The Solid Fuels Advisory War Council shall: (a) advise or inform the Secretary of the Interior and the Office of Solid Fuels Coordination with respect to any matter relating to the proper coordination of the solid fuels industries for war purposes submitted to it by the Secretary of the Interior or the Office of Solid Fuels Coordination for advice or information; (b) raise and consider on its own motion and, if deemed necessary or desirable, propose to the Secretary of the Interior or the Office of Solid Fuels Coordination any action relating to the proper coordination of the solid fuels industries for war purposes; (c) take any action or perform any duty or function specified in any formal recommendation of the Secretary of the Interior or the Office of Solid Fuels Coordination which has been duly submitted to the Attorney General and entered in the FEDERAL REGISTER, or in any approved plan effective under any such recommendation.*

*§§ 601.1 to 601.4, inclusive, issued under the authority contained in the President's letter of November 5, 1941, to the Secretary of the Interior, 7 F.R. 1781.

§ 601.2 *Surveys and consultations.* In accomplishing the purposes and objectives of the Solid Fuels Advisory War Council, defined in § 601.1, the Solid Fuels Advisory War Council is authorized to consult with any members of industries affected by the solid fuels coordination program, with any of committees or temporary or permanent subcommittees established by or under the authority of the Secretary of the Interior or the Office of Solid Fuels Coordination, and with any appropriate representative of the Office of Solid Fuels Coordination.*

§ 601.3 *Plans.* The Solid Fuels Advisory War Council shall, if the Council deems it necessary or desirable, formulate and reduce to writing such specific plan or proposal with respect to any matter which may be before it as shall seem necessary or appropriate and shall submit such plan or proposal, with a statement of facts and reasons, to the Secretary of the Interior or the Office of Solid Fuels Coordination, Washington, D. C.*

§ 601.4 *Organization of Council.* The Solid Fuels Advisory War Council may appoint such committees as it deems necessary for investigation and report on specific problems.

Minutes shall be kept of all meetings of the Council and two copies thereof shall be filed in the Office of Solid Fuels Coordination.*

Dated: March 20, 1942.

[SEAL] HAROLD L. ICKES,
Secretary of the Interior.

PART 1038—MADAGASCAR FLAKE GRAPHITE

INTERPRETATION NO. 1 OF CONSERVATION ORDER NO. M-61 [1] CURTAILING THE USE OF MADAGASCAR FLAKE GRAPHITE

In Order M-61 the phrases "Madagascar Flake Graphite which is of the grade that can be used for the manufacture of crucibles" and "Madagascar Flake Graphite of a grade which could have been used for the manufacture of crucibles" appear. These phrases are hereby officially interpreted to mean Madagascar Flake Graphite of a grade that will stand on a 35 mesh screen. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B., Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. PART 1047—PETROLEUM

CONSERVATION ORDER M-68-C AS AMENDED

Section 1047.4 (*Conservation Order M-68-c*) is hereby amended to read as follows:

§ 1047.4 *Conservation Order M-68-c*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision of this Order may be inconsistent therewith, in which case such provision shall govern.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(2) "Marketing" means the operation of all facilities (other than petroleum terminal or terminal storage facilities or marine, rail, pipeline or truck facilities used to transport petroleum) for distributing or dispensing petroleum (excluding natural gas), including without limitation the operation of service stations, substations, bulk plants, warehouses, wholesale depots, or facilities operated by "consumer accounts".

(3) "Petroleum" means petroleum, petroleum products, and associated hydrocarbons including but not limited to natural gas.

(4) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(5) "Structure" means any building, physical construction or portion thereof, used in marketing, but not including equipment used therein.

(6) "Equipment" means dispensing pumps and storage tanks having a capacity of more than 65 gallons used in marketing.

(7) "Advertising material" means any material (other than non-metallic material) used for such display or advertising purposes as are incident to marketing.

(8) Subject to subparagraph (10), "maintenance" means the upkeep of a structure or equipment in a sound working condition with a minimum expenditure of material.

(9) Subject to subparagraph (10), "repair" means the restoration of a structure or equipment to a sound working condition when such structure or equipment has been rendered unsafe or unfit for further service by wear and tear, damage, destruction or failure of parts or similar causes.

(10) The terms "maintenance" and "repair" do not include any of the following:

(i) The replacement of an item or part thereof where such replacement is carried on the books as a fixed asset;

(ii) The use of material for the improvement of a structure or equipment through the replacement of material in the existing installation, unless the item or part thereof which is replaced is beyond economic repair or has been rendered unusable by fire or other hazard or natural cause;

(iii) The use of material for additions to or expansion of a structure or equipment;

(iv) The use of material for a purpose which could not properly be charged on the books to "maintenance", "repair", or the equivalent in the established method of bookkeeping.

(c) *Conservation of material used in marketing.* Subject to the exceptions in paragraph (d) hereof, no person shall construct, reconstruct, expand, or remodel any Structure or install equipment or advertising material. Subject to the exceptions in paragraph (d) hereof, no person shall deliver or otherwise supply, or cause to be delivered or otherwise supplied, any Material which he knows, or has reason to believe, is intended for such uses.

(d) *Exceptions.* The provisions of paragraph (c) hereof shall not apply in the following instances:

(1) To any case where material is to be used by a person for the maintenance or repair of any structure or equipment.

(2) To any case where actual physical work of construction, reconstruction, expansion, or remodeling of any Structure or the installation of equipment or advertising material had commenced prior to January 14, 1942: *Provided*, That such work of construction, reconstruction, expansion, remodeling, or installation must then have been scheduled for completion and be actually completed on or before May 15, 1942.

(3) To any case where a structure or equipment is to be used exclusively for the official requirements of the armed forces of the United States.

(4) To any case where advertising material which was completely fabricated, but not necessarily assembled, on or before March 30, 1942 is to be installed at any structure.

(5) To any case where there occurs a transfer of title to or rights in any structure or equipment, which transfer does not involve the construction, reconstruction, expansion, or remodeling of such structure or the installation of equipment.

(6) To any case where equipment is to be installed as a replacement of equipment the repair of which cannot be effected on the premises: *Provided*, That:

(i) In the case of storage tanks having a capacity of more than 65 gallons, the capacity of the tank which is to be installed does not exceed the capacity of the tank which is to be replaced;

(ii) In the case of dispensing pumps, the pump which is to be installed is of the same type and design as the pump which is to be replaced.

(7) To any case where any dispensing pump is to be installed

(i) As a replacement of a dispensing pump manufactured not less than nine years prior to the date of such installation;

(ii) For use as a "drum" or "barrel" pump as these terms are known to the trade.

(8) To any case where equipment is to be installed to distribute petroleum to persons carrying out physical construction work on any project having a project rating higher than A-2: *Provided*, That such equipment shall be withdrawn from the location of the project upon the completion thereof and shall thereafter be subject to the provisions of this Order.

(9) To any case where equipment is to be installed, (i) to contain, distribute or Dispense Fuel Oil classified as grade No. 1, 2, 3, 4, 5 or 6 (including Bunker "C" Fuel Oil, kerosene, range oil, or gas oils) to consuming facilities: *Provided*, That such Equipment is not installed at any structure for use in carrying out marketing functions regularly performed by a service station, substation, bulk plant, warehouse, or wholesale depot, or (ii) to contain, distribute or dispense butane, propane, propylene, butene, or any combination or dilution thereof commonly known as liquefied petroleum gas.

(10) To any case where the Director of Industry Operations, War Production Board, has determined that construction, reconstruction, expansion or remodeling of any structure or the installation of any equipment is necessary and appropriate in the public interest and to promote the war effort. Application for such a determination shall be made by letter and filed with the Petroleum Coordinator for National Defense, Department of the Interior, Washington, D. C. Information to be submitted in such application shall be in accordance with OPC Form PD-215 (Revised), issued by the Office of Petroleum Coordinator.

(e) *Required certification.* Any person, acquiring any material for use in the construction, reconstruction, expansion, or remodeling of any Structure or any Equipment or Advertising Material for installation purposes, shall endorse on all copies of each purchase order or contract for such material which are placed with any Person, a statement in the following form signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

The material which is ordered in this purchase order (or contract) is to be used in conformity with the provisions of Conservation Order No. M-68-c, as amended, with the terms of which Order the undersigned is familiar.

Name of person

By ---
Signature of duly authorized official

Such endorsement shall constitute a representation to the War Production Board and the person with whom the purchase order or contract is placed that the Material obtained under such purchase order or contract will be used in accordance with the provisions of this Order. Such person shall be entitled to rely on such representation unless he knows or has reason to believe it to be false. No person shall, in the absence of such endorsement, deliver or otherwise supply, or cause to be delivered or otherwise supplied, any Material which he knows, or has reason to believe, is intended for uses restricted by paragraph (c) of this Order.

(f) *Violations.* Any person affected by this Order who violates any of its provisions or a provision of any other Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (a) of the Criminal Code (18 U.S.C. 80).

(g) *Revocation or amendment.* This section may be revoked or amended at any time as to any person. In the event of revocation, deliveries shall be made in accordance with the provisions of any applicable. Preference Rating Order without further restrictions, unless such deliveries have been specifically restricted.

(h) *Effective date.* This Order shall take effect on the date of issuance and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, EO. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

PART 1060—RAPESEED OIL

GENERAL PREFERENCE ORDER M-77—TO CONSERVE THE SUPPLY AND DIRECT THE DISTRIBUTION OF RAPESEED OIL

The national defense requirements for Rapeseed Oil and products made therefrom having created a shortage of the supply thereof for defense, for private account, and for export, and it being necessary in the public interest and to promote the national defense to conserve and allocate the supply thereof in the manner and to the extent hereinafter in this Order provided;

Now, therefore, it is hereby ordered, That:

§ 1060.1 *General Preference Order M-77*—(a) *Restrictions on use*—(1) *General restrictions effective April 1, 1942.* On and after April 1, 1942, except as specifically authorized by the Director of Industry Operations, no person shall use or consume Rapeseed Oil except in the manufacture of the following products:

(i) Marine engine oils, heavy machine engine lubricating oils and pneumatic tool oils.

(ii) Factice for compounding rubber.

(iii) Blown Rapeseed Oil, subject to paragraph (b) hereof.

(2) *Other restrictions.* No person shall in March, 1942, use or consume Rapeseed Oil in any manufacture or use other than the manufacture of the products specified in paragraphs (a) (1) (i), (ii), and (iii) hereof in an amount in excess of one hundred percent (100%) of one-twelfth of the oil used or consumed by him in such manufacture or use during the calendar year 1941.

(b) *Restrictions on processing.* No person shall hereafter blow any Rapeseed Oil except in preparation for the manufacture of the products specified in paragraph (a) (1) (i) hereof and except in preparation for any other manufacture or use permitted by paragraph (a) (2) hereof, and in either case only to the extent necessary to meet his normal production schedule, or if such oil is to be manufactured or used by another person, then the normal production schedule of such other person, insofar as either such schedule is not in violation of paragraph (a) (2) hereof.

(c) *Withholdings of rapeseed oil.* (1) Every person, other than a Producer of blown Rapeseed Oil, who on the inventory date has Rapeseed Oil in an amount in the aggregate in excess of 50,000 lbs. shall set aside an amount of such oil equal to his inventory quota. The quotas of all such persons shall provide the source of the allocation of such oil to all persons requiring such oil for use to the extent that the Director of Industry Operations on any appeal to him pursuant to paragraph (e) (6) hereof may determine such allocation to be appropriate or necessary in the avoidance of exceptional or unreasonable hardship or otherwise, and shall also constitute a reserve supply of such oils.

(2) The inventory quota so directed to be set aside shall be used, put in process, sold or delivered only upon express instruction of the Director of Industry Operations.

(3) On or before April 15, 1942, every person subject to the terms of paragraph (c) (1) hereof, and every person who on the inventory date had in his possession or under his control any Rapeseed Oil in the amount in the aggregate in excess of 50,000 lbs. by weight of oil but whether or not owned or under contract of purchase, shall report to the War Production Board, on Form PD-390, listing among other things such person's supply of such oil as of the inventory date, the degree, if any, to which the same has been processed, and in the case of supply which on such date was not owned by such person or was under contract of sale to another, the name of the owner thereof or of the person who has contracted to buy the same.

(d) *Restrictions on sales and deliveries.* No person shall on and after April 1, 1942, sell or deliver any Rapeseed Oil to any other person, except a dealer or a person using such oils for the manufacture of the products described in paragraph (a) (1) hereof, in the absence of specific authorization of the Director of Industry Operations, and no person shall prior to April 1, 1942, knowingly deliver any such oil to any other person for use in greater quantities or proportions than are specified in paragraph (a) (2) hereof.

(e) *Miscellaneous provisions*—(1) *Definitions.* For the purpose of this Order:

(i) "Rapeseed Oil" means that oil extracted by any means from the Rapeseed,

whether raw, filtered, or refined, and whether or not denatured.

(ii) "Dealer" means any person who imports, buys, sells, and/or distributes Rapeseed Oil.

(iii) "Producer of blown Rapeseed Oil" means a person who blows Rapeseed Oil for resale as blown Rapeseed Oil (whatever the trade name used) to other persons.

(iv) "Inventory" of a person at any time shall include all Rapeseed Oil to or in which he has any title or equity of redemption or which he has purchased for future delivery. The term includes the inventory of affiliates and subsidiaries of such person.

(v) "Inventory Quota" of a person means a percentage of such person's inventory of Rapeseed Oil as of the inventory date. Unless otherwise prescribed by the Director of Industry Operations, such percentage shall be thirty percent (30%).

(vi) "Inventory Date" means the close of business on the day prior to the date of issuance of this Order.

(2) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(3) *Intra-company transactions.* The prohibitions or restrictions contained in this Order, with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single enterprise, to another branch, division, or section of the same or any other enterprise owned or controlled by the same person.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C., Ref: M-77.

(5) *Violations.* Any person affected by this Order, who violates any of its provisions, or a provision of any other Order, direction, or regulation issued by the Director of Industry Operations, may be prohibited by the Director from making or receiving further deliveries of Rapeseed Oil, or of any other material subject to allocation, or he may be subjected to any other or further action which the Director may deem appropriate.

(6) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Rapeseed Oil conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board, Washington, D. C., Ref.: M-77, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(7) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329, E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 23d day of March 1942.

PART 1061—PORTABLE ELECTRIC LAMPS AND SHADES

GENERAL LIMITATION ORDER L-33

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1061.1 *General Limitation Order L-33—(a) Definitions.* For the purposes of this Order:

(1) "Portable Lamp" means any detachable device (excluding lamp shades, bulbs and tubes) the primary function of which is to furnish light for interior illuminating purposes by means of an incandescent or fluorescent electric lamp bulb or tube. This Order shall not be construed to cover flashlights or other battery-operated lighting devices, mechanics' lamps, or industrial lamps designed specifically to be part of an industrial machine or tool.

(2) "Socket" means any receptacle on a portable lamp designed to receive an incandescent or fluorescent lamp bulb or tube.

(3) "Lamp Cord" means any insulated cord used to conduct electricity to the socket on a portable lamp.

(4) "Plug" means any device attached to a lamp cord and fitting into a fixed receptacle for the purpose of transmitting electric current through the lamp cord.

(5) "Separate Switch" means any one- or two-circuit switch control which operates one or more sockets.

(6) "Floor Lamp" means any portable lamp designed to rest on the floor or ground.

(7) "Other Portable Lamps" means any portable lamps not included in subparagraph (6), including (but not limited to) table lamps, desk lamps, boudoir lamps, bed lamps, and "pin-up" lamps.

(8) "Lamp Shade" means any shade or metal reflector designed for use with a portable lamp.

(9) "Use" means the act of completing the manufacture of portable lamps or lamp shades. (Where a person is limited to a percentage of the number of parts or amount of material used in a base period, this limitation shall apply to the number of such parts or aggregate weight of such material contained in the finished portable lamps or lamp shades completed in the base period.)

(10) "First Restricted Period" means the period from the effective date of this Order to April 30, 1942, inclusive.

(11) "Average Daily Use" or "Average Daily Production" means the total use or production, respectively, in a specified period divided by the number of days (including Sundays and holidays) contained in such period.

(b) *General restrictions.* (1) During the first restricted period (i) no producer of portable lamps shall:

(a) Produce more portable lamps than 70% of his average daily production of portable lamps in the year 1940, multiplied by the number of days (including Sundays and holidays) in the first restricted period; or

(b) Use in the production of portable lamps more sockets, separate switches, plugs or lamp cords than 70% of his average daily use of sockets, separate switches, plugs or lamp cords, respectively, in the production of portable lamps in the year 1940, multiplied by the number of days (including Sundays and holidays) in the first restricted period; and

(ii) No producer of lamp shades shall:

(a) Produce more lamp shades than 70% of his average daily production of lamp shades in the year 1940, multiplied by the number of days (including Sundays and holidays) in the first restricted period, or

(b) Use in the production of lamp shades more iron and steel than 70% of his average daily use of all metals in the production of lamp shades in the year 1940, multiplied by the number of days (including Sundays and holidays) in the first restricted period.

(2) During the period from May 1, 1942, to June 30, 1942, inclusive, (i) No producer of portable lamps shall:

(a) Produce more portable lamps than two times 60% of the average monthly number produced by him in the year 1940; or

(b) Use in the production of portable lamps more than two times 60% of the average monthly number of sockets, separate switches, plugs or lamp cords, respectively, used by him in the production of portable lamps in the year 1940; and

(ii) No producer of lamp shades shall:

(a) Produce more lamp shades than two times 60% of the average monthly number of lamp shades produced by him in the year 1940, or

(b) Use in the production of lamp shades more iron and steel than two times 60% of his average monthly use of all metals in the production of lamp shades in the year 1940.

(3) During each succeeding period of three months, beginning July 1, 1942, and until otherwise ordered, (i) No producer of portable lamps shall:

(a) Produce more portable lamps than three times 60% of the average monthly number produced by him in the year 1940; or

(b) Use in the production of portable lamps more than three times 60% of the average monthly number of sockets, separate switches, plugs or lamp cords, respectively, used by him in the production of portable lamps in the year 1940; and

(ii) No producer of lamp shades shall:

(a) Produce more lamp shades than three times 60% of the average monthly number of lamp shades produced by him in the year 1940; or

(b) Use in the production of lamp shades more iron and steel than three times 60% of his average monthly use of all metals in the production of lamp shades in the year 1940.

(4) From the effective date of this Order (i) No producer of portable lamps shall use in the production of such lamps:

(a) Any iron and steel except for center pipes, steel wire harps, socket covers and husks, outer tubing and casings, seating and checking rings, locknuts, washers, screws and bolts;

(b) Any other metal or parts containing any other metal except sockets, separate switches, plugs, and lamp cords; or

(c) Any lamp cords of a greater length than 8½ feet with floor lamps and 7 feet with all other lamps, or of a greater size or gauge thickness than No. 20 A. W. G. with 1/64th or 1/32nd insulation;

except that he may use metal, metal parts, or lamp cords not meeting the foregoing specifications, which were in his inventory on the effective date of this Order for a period of thirty days thereafter; and

(ii) No producer of lamp shades shall use any silk in the production of lamp shades, except that he may use silk which was in his inventory on the effective date of this Order for a period of thirty days thereafter.

(c) *Avoidance of excessive inventories.* From the effective date of this Order manufacturers of portable lamps and lamp shades shall not receive any metal or articles containing metal for use in the production of such lamps for any purposes other than those set forth in subparagraph (b) (4) (i), or accumulate for use in the manufacture of such portable lamps and lamp shades inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of portable lamps and lamp shades at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production of portable lamps and shades to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C. Ref.: L-33.

(l) *Effective date.* This Order shall take effect on the date of its issuance, and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F. R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

PART 1076—PLUMBING AND HEATING SIMPLIFICATION

SCHEDULE V—PLUMBING FIXTURE FITTINGS AND TRIM

§ 1076.6 *Schedule V to Limitation Order L-42—(a) Definitions.* For the purposes of this Schedule:

(1) "Producer" means any person who manufactures, processes, fabricates or assembles fittings or trim.

(2) "Fittings and Trim" means plumbing fixture fittings and plumbing fixture trim.

(3) "Copper Base Alloy" means any alloy which contains 50% or more copper by weight.

(b) *General limitations.* Pursuant to Limitation Order No. L-42 the following general limitations are established for the manufacture of fittings and trim:

(1) No metal other than ferrous, lead, die-cast zinc, copper base alloy or copper may be used as the base metal in the manufacture of fittings or trim.

(2) No metallic coating may be used as a finish on my fittings or trim.

(3) No metal may be used in the manufacture of escutcheons.

(4) No copper or copper base alloy may be used in the manufacture of handles for any fittings or trim or in the manufacture of goosenecks, sprays, or any bathroom accessories such as soap dishes, towel racks, shelf-brackets or legs.

(5) No copper or copper base alloy drawn tubing for fittings for the uses permitted by this Schedule may be heavier than 20 gauge.

(6) Traps shall be ferrous metal or lead.

(c) *Specific limitations.* Pursuant to Limitation Order No. L-42 the following specific limitations are established for the manufacture of fittings and trim:

No copper, copper base alloy or die-cast zinc may be used in the manufacture of any fittings or trim except the articles specified below and then only provided it is limited to the minimum amount practicable:

(1) *Bathtub fittings:*

Supply fittings over the rim of a tub, with or without transfer valve for shower, provided the valves do not exceed ½ inch size. Copper, copper base alloy or die-cast zinc may not be used for connecting pipes, shower arms, or shower heads.

Valve inlets to be tapped not exceeding ½ inch Iron Pipe Size, no copper, copper base alloy or die-cast zinc to be used in unions except for sweated adaptor.

Double bath faucet not exceeding ½ inch.

Outlet plug and strainer for waste and overflow. No mechanical waste assembly shall be permitted.

(2) *Shower stall fittings:*

Hot and cold shower valve assembly, provided the valves do not exceed ½ inch.

Copper, copper base alloy or die-cast zinc may not be used for connecting pipes, shower arms or shower heads.

Valve inlets to be tapped not exceeding ½ inch Iron Pipe Size, no copper, copper base alloy or die-cast zinc to be used in unions except for sweated adaptor.

Receptor strainer grid.

(3) *Lavatory fittings:*

½ inch compression faucets.

Combination lavatory fitting, to include through the back fitting. No pop-up waste assembly shall be permitted.

Outlet plug with tailpiece not exceeding 1¼ inches, not over 4 inches long.

(4) *Water closet fittings:*

Flush valve.

Overflow pipe to be other than nonferrous metal.

Ball cock.

Float or hush tube to be other than metallic.

Tubing flush ell—not exceeding 2 x 4 x 6 inches.

Seat hinges with either: (i) Bearing surfaces only, (ii) Not more than one pair of brass bolts, or studs and nuts, and one pair of hinges, but not crossbars or hinges for cover.

Closet tank balls and floats to be nonmetallic except for spuds.

(5) *Kitchen sink fittings:*

Combination swing spout faucet, either exposed or concealed for deck installation. No transfer valve shall be permitted. Spout to be not over 6 inches long.

Compression faucets, not exceeding ½ inch, solid flange, tapped female.

Strainer with metal grid and tailpiece. Tailpiece for tray not to be over 4 inches long.

(6) *Laundry tray fittings:*

Combination rough copper base alloy or diet-cast zinc swing spout tray faucet, brass limited to valve body assembly and spout.

Separate faucets, not exceeding ½ inch.

Outlet plug and tailpiece not over 4 inches long.

(7) *Flush-o-meters:*

Type SC (1 inch only). No more copper or copper base alloy than required by Federal Specifications WW–P–541a.

Type SU (¾ inch only with ½ inch supplies (ferrous)). No more copper or copper base alloy than required by Federal Specifications WW–P–541a.

Back blow preventor.

(8) *Drinking fountains:*

Bubbler head, guard, and self-closing stop and automatic volume regulator. To be made according to the minimum requirements of the U. S. Public Health Service.

(9) *Wash sinks (industrial type):*

Combination wash sink faucet, ½ inch Iron Pipe Size with male connections only.

(d) *General exception.* The prohibitions and restrictions contained in this Schedule shall not apply to the use of copper, copper base alloy or die-cast zinc in the manufacture of articles or parts thereof which are being produced:

(1) under a specific contract or subcontract for use in chemical plants, research laboratories or hospitals, where and to the extent that the physical and chemical properties make the use of any other material impractical. Such use is not deemed impractical for ordinary plumbing fixtures and trim and the exception covers only those cases where the technical operation of the plant makes the use of other material impractical.

(2) under a specific contract or subcontract for use as part of the equipment of vessels other than pleasure craft and of aircraft where corrosive action makes the use of other material impractical.

(e) *Effective date of simplified practices; exceptions.* On and after April 1, 1942, no plumbing fixture fittings or trim which do not conform to the sizes and standards established by this Schedule shall be produced or delivered by any producer or accepted by any person from any such producer, except with the express permission of the Director of Industry Operations: *Provided, however,* That the foregoing shall not prohibit the delivery by any producer of such plumbing fixture fittings or trim as were in his stock in finished form on April 1, 1942, or which had, on said date, been cast, machined or otherwise processed in such manner that their manufacture in conformity with this Schedule would be impractical, nor the receipt of such fittings or trim from such producer.

(f) *Records covering excepted plumbing fixture fittings and trim.* Each producer shall retain in his files records showing his inventory of excepted plumbing fixture fittings and trim (by types and sizes) as of April 1, 1942, and such record shall be kept readily available and open to audit and inspection by duly authorized representatives of the War Production Board. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B., Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. PART 1112—OFFICE MACHINERY

AMENDMENT NO. 1 TO GENERAL LIMITATION ORDER NO. L–54–b [1]

Section 1112.3 (*General Limitation Order L–54–b*) is hereby amended as follows:

Paragraph (b) of said section is hereby amended to read as follows:

§ 1112.3 *General Limitation Order L–54–b.*

* * * * *

(b) *General restrictions.* (1) On and after the date of issue of this order, regardless of the terms of any contract of sale, purchase, rental, or other commitment, or of any preference rating, no Manufacturer, wholesaler, distributor, retailer, or other dealer shall accept any purchase, rental or other order for new office machinery, or attachments thereto, as listed in List A, except a purchase, rental or other order rated A–9 or better on Preference Rating Certificate PD–1A, PD–3A, PD–1 or PD–3; no Manufacturer, wholesaler, distributor, retailer, or other dealer shall sell, lend, lease, rent, deliver, or otherwise transfer any such new office machinery except to fill a purchase, rental or other order rated A–9 or better on Preference Rating Certificate PD–1A, PD–3A, PD–1 or PD–3; and no person shall purchase, borrow, lease, rent, receive delivery of, or otherwise acquire any such new office machinery except pursuant to a purchase, rental or other order rated A–9 or better on Preference Rating Certificate PD–1A, PD–3A, PD–1, or PD–3 issued to him.

(2) Any such Preference Rating Certificates PD–1A, PD–3A, PD–1, or PD–3 may be used to secure new office machinery only by the person to whom it was directly issued and only when such office machinery is expressly specified on the face of the Certificate; and nothing in this paragraph shall be construed to authorize any person to extend a Preference Rating Certificate PD–1A, PD–3A, PD–1, or PD–3 to secure new office machinery. Persons entitled to new office machinery by virtue of a Preference Rating Certificate PD–1A, PD–3A, or PD–3 need not surrender such Preference Rating Certificate, but shall furnish the certification required to be furnished by Priorities Regulation No. 3, as amended or supplemented from time to time.

(3) Nothing in the foregoing shall be construed to prohibit a Manufacturer from legally extending any such Preference Rating Certificate to secure materials to be used in the manufacture of office machinery.

(4) Nothing in this paragraph shall be construed to limit the right of Manufacturers to deliver new office machinery to wholesalers, distributors, retailers, or other dealers (i) to fill orders actually received by such dealers, rated A–9 or better on Preference Rating Certificates PD–1A, PD–3A, PD–1, or PD–3 for new office machinery, or (ii) to replace new office machinery delivered by such dealers in accordance with the terms of this order.

List A is hereby amended to read as follows:

1. Accounting and bookkeeping machines.
2. Adding machines.
3. Addressing machines (including, but not limited to, embossing machinery for plates).
4. Billing and continuous forms handling typewriters.
5. Billing and other forms writing machines (except autographic registers and manifolders).
6. Calculating and computing machines.
7. Dictating machines (including, but not limited to, transcribing and shaving machines).
8. Duplicating machines (including, but not limited to, ink ribbon, gelatin, off-set, spirit, stencil, reproducing typewriter principle, and photographic types; but not including photostating machines).
9. Interoffice communication systems and machines.
10. Punched card tabulating and accounting machines.
11. Time clock stamps and time recording machines.

PART 1139—CORRUGATED AND SOLID-FIBRE BOXES, WIRE-BOUND WOOD BOXES AND NAILED WOODEN BOXES FOR CAN MANUFACTURERS AND CANNERS

GENERAL INVENTORY ORDER NO. M–113

§ 1139.1 *General Inventory Order M–113*—(a) *Revocation of inventory restrictions as to corrugated and solid-fibre boxes, wire-bound wood boxes and nailed wooden boxes for can manufacturers and canners.* Notwithstanding the provisions of any regulation or order heretofore issued by the Director of Priorities of the Office of Production Management or by the Director of Industry Operations of the War Production Board, any person may make deliveries of corrugated and solid-fibre boxes, wire-bound wood boxes and nailed wooden boxes, and any can manufacturer or canner (both as defined in Conservation Order M–81) may accept deliveries thereof, although the inventory of such boxes in the hands of the can manufacturer or canner accepting such delivery is, or will by virtue of such acceptance become, in excess of a practicable working minimum: *Provided, however,* That the quantity of boxes so delivered shall not in any event exceed the reasonably anticipated requirements of any such can manufacturer or canner for the year 1942.

(b) *Applicability of Priorities Regulation No. 1.* Except to the extent that the provisions of paragraph (a) are inconsistent therewith, all transactions involving corrugated and solid-fibre boxes, wire-bound wood boxes and nailed wooden boxes shall be subject to the provisions of Priorities Regulation No. 1 as amended from time to time.

(c) *Effective date.* This Order shall take effect at once and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Chapter XI—Office of Price Administration

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 7 [1] COMBED COTTON YARNS AND THE PROCESSING THEREOF

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Section 1307.11 (h), is added; § 1307.12 (b) (1) (ii), including footnote 1 thereto, is amended to read as follows; § 1307.12 (d) (4) (vi) is revoked; § 1307.12 (d) (4) (vii) is re-designated § 1307.12 (d) (4) (vi); and § 1307.12 (d) (4) (viii) is amended to read as follows and re-designated § 1307.12 (d) (4) (vii).

§ 1307.11 *Effective dates of amendments.*

* * * * *

(h) Amendment No. 1 (§§ 1307.11 (h), 1307.12 (b) (1) (ii), (d) (4) (vi), (d) (4) (vii), and (d) (4) (viii)) to Revised Price Schedule No. 7 shall become effective March 28, 1942.

§ 1307.12 *Appendix A: Maximum prices for mercerizing, bleaching, and/or gassing thereof.*

* * * * *

(b) *Terms of sale.*

(1) *Freight.*

* * * * *

(ii) *Sales and deliveries of stock yarn.*[1] As applied to sales and deliveries of stock yarn, the maximum prices established herein are prices f. o. b. the stock-yarn seller's shipping point.

[1] As used in Revised Price Schedule No. 7, the term "stock yarn" means combed yarn owned by a person independent of the producer thereof and stored in space (1) owned or leased by such person on February 1, 1942; (2) owned or leased by such person and located within 25 miles of his principal place of business; or (3) approved by the Administrator, upon a duly filed petition for adjustment or exception, as a stock-yarn warehouse established to carry out a legitimate distributive function and not for the purpose of evading Revised Price Schedule No. 7; the term "independent" means not controlling, controlled by, or under common control with.

* * * * *

(d) *Maximum prices for combed yarns not covered by contract prior to December 24, 1941 and for mercerizing, bleaching, and/or gassing.*

* * * * *

(4) *Premiums.*

* * * * *

(vi) *Mercerized, bleached, and/or gassed yarns.*

* * * * *

(vii) *Other premium yarns; records to be kept and reports to be made in connection with sales thereof.* (a) For plies or for put-ups other than, or for twist slacker than, those included in the definition of base-grade yarn, a premium not exceeding the additional cost, if any, over base-grade plies, put-ups, or twist, respectively, may be charged.

(b) For combed yarns which, in order to meet breaking-strength or other requirements reasonably related to the use to which they are to be put, are made with American cotton of staple lengths greater than those provided for in the definition of base-grade yarn or of Sea Island, SXP, Pima, or Egyptian cotton, a premium not in excess of 130 per cent of the additional cost (as hereinafter defined) may be charged.

As used herein, the term "additional cotton cost" means the difference in cents per pound, adjusted for waste,[10] between the seller's actual weighted average cost for his net inventory,[11] on hand and on order, as of the last business day of the preceding month [12] of the kind, grade, and staple of cotton actually used for the premium yarn, and the latest weekly quotation [13] published by the Department of Agriculture [14] for middling cotton of the staple length specified for the same yarn number in the definition of the base-grade yarn.

[10] In adjusting for waste, the following net waste factors are to be used:

Cotton	Net waste factor
American:	
1 1/32"	1.26
1 1/16" and 1 3/32"	1.28
1 1/8" and 1 5/32"	1.31
1 3/16" and 1 7/32"	1.33
1 1/4" to 1 1/2, incl.	1.36
1 5/8" and over	1.38
Sea Island	1.43
SXP and Pima	1.35
Egyptian	1.33

[11] As used herein, the term "net inventory" means cotton on hand or on order, less such cotton as is required to manufacture yarn against firm sales commitments. Cotton not included in the seller's net inventory as of the last business day of the preceding month may be used in determining the actual weighted average cost to the extent that the cotton in the seller's net inventory is insufficient to cover the given contract of sale of premium yarn.

[12] The month and the quotation here referred to are those last preceding the date on which the contract for the sale of the premium yarn is made.

[13] Quotations are published by the Agricultural Marketing Service, Department of Agriculture, and issued weekly from Memphis. Since they do not cover staple lengths of 1 5/16" and 1 3/4", the prevailing market price for such staple lengths should be used in lieu of a Department of Agriculture quotation.

(c) In addition to the premium allowable under (b) above, a premium of not

more than six per cent of the maximum price exclusive of said premium may be charged for combed yarn sold to a manufacturer or converter of thread for use solely in the manufacture of thread: *Provided*, That no premium may be charged hereunder unless the seller receives a written statement from the buyer (which the seller shall preserve for not less than two years) that the yarn is to be used solely in the manufacture of thread.

(d) Every producer making sales of combed yarn after March 31, 1942, at a premium permissible under (b) above, shall keep for inspection by the Office of Price Administration for a period of not less than two years, complete and accurate records of his purchases and sales of raw cotton and a compilation of the actual weighted average cost of his net inventory, as of the last business day of each month, of each kind, grade, and staple of cotton on hand and on order.

(e) On or before April 10, 1942, and on or before the 10th day of each month thereafter, every producer who during the preceding calendar month has sold 5,000 pounds or more of combed yarn at a premium permissible under (a), (b), or (c) above, shall file with the Office of Price Administration a report of such sales on Form 107:3.

PART 1355—LEAD

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 69 [1]—PRIMARY LEAD

A statement of the considerations involved in the issuance of this Amendment No. 1 to Revised Price Schedule No. 69—Primary Lead, has been prepared and is issued simultaneously herewith.[2]

The last paragraph of § 1355.9 (a) is amended to read as set forth below, and a new § 1355.8a is added as set forth below:

§ 1355.9 *Appendix A: Maximum prices for primary lead*—(a) *Sold or shipped, delivered, or carried away in carload lots.*

* * * * *

The minimum quantity making up a carload lot for the purposes of Revised Price Schedule No. 69 shall be the minimum weight, as set forth in the tariffs of railroad carriers, upon which the lowest railroad carload rate from the point of shipment to the point of destination is based; *Provided, however*, That where a smaller quantity is shipped which would move at any railroad carload rate rather than at a railroad less-than-carload rate between such points, because a lower transportation charge is produced thereby, such smaller quantity shall be considered a carload lot. The seller may, upon shipping such smaller quantity, add to the carload lot prices applicable an amount per pound not to exceed the difference between (1) the rail transportation charge, on a per pound basis, actually paid for the quantity shipped and (2) the lowest railroad carload rate, on a per pound basis, applicable to a shipment from such point of shipment to such point of destination. Any such amount added as a transportation charge must be shown in all records or reports required to be kept or submitted in accordance with any provision of this Schedule or any amendment thereto, and in all price quotations, bills, and invoices.

Whenever primary lead of two or more grades or forms is sold, shipped, delivered or transferred to the same purchaser, consignee, or transferee in carload lots, the carload lot maximum price shall apply to each grade or form although the amount of any such grade or form so sold, shipped, delivered or transferred may not alone constitute a carload lot.

§ 1355.8a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1355.8a and 1355.9 (a)) to Revised Price Schedule No. 69 shall become effective March 24, 1942.

(Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 23d day of March 1942.

JOHN E. HAMM,
Acting Administrator.

Chapter XIII—Office of Petroleum Coordinator for National Defense

[Recommendation No. 19, Amendment]

PART 1503—PRODUCTION

WELLS, PROHIBITION AGAINST ESTABLISHING ALLOWABLES

To the Production Committee of District Five and to each producer, owner, transporter, purchaser or other person who produces, handles, or has an interest in any petroleum or natural gas in District Five:

Conservation Order M-68,[1] as amended, issued by the Office of Production Management which has been succeeded by the War Production Board, prohibits all of those who are engaged in the production of petroleum from ordering, purchasing, accepting delivery of, withdrawing from inventory, or in any other manner, directly or indirectly, securing or using Material for construction, reconstruction, expansion, remodeling, replacement, or improvement, of any facilities used in production, except in certain specified instances.

In order to assist in the enforcement of the provisions of such Order, to prevent any Operator who has violated the provisions thereof from benefitting by such wrongdoing, and to afford those who comply therewith protection against the injuries which would be sustained if such wrongdoers were permitted to enjoy the fruits of their violations, it is necessary and advisable to prevent the production of crude petroleum or natural gas from any well located in the State of California upon or in which any Material has been installed, or otherwise utilized in violation of prohibitions contained in such Order.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, § 1503.8 [2] of this chapter (Recommendation No. 19, dated December 11, 1941) is hereby amended by adding thereto the following paragraph designated paragraph (h) thereof:

§ 1503.8 *Production.*

* * * * *

(h) *Wells, prohibitions against establishing allowables.* No plan shall establish any allowable or production quota for any well upon or in which Material, as defined by the provisions of Conservation Order M-68, issued December 23, 1941, by the Office of Production Management (War Production Board), is installed or utilized in violation of any of the provisions of such Order or of any amendment or supplement thereof. Material shall be deemed to be installed upon or utilized in any designated well in violation of the provisions of such Order whenever the District Counsel for District Five of the Office of Petroleum Coordinator for National Defense has notified the Production Committee for District Five in writing that he has determined that such a violation has occurred with respect to such well. (President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

[Recommendation No. 40]

PART 1504—PROCESSING AND REFINING

REFINING AND DISTRIBUTION OF AUTOMOTIVE LUBRICANTS CONTAINING ADDITIVES

To all manufacturers and compounders of petroleum lubricating oils and greases, and all marketers of automotive lubricating oils and greases:

The War Production Board has declared that there are inadequate supplies of chemicals to meet all necessary requirements. Chemicals used in the manufacture of additives for lubricants will not be available in the quantities heretofore required, and it is expected that a decreasing volume of supplies may be available in the future. As certain service requirements demand petroleum lubricating oils and greases containing quantities of scarce chemicals in the form of additives, it is necessary that the use of such additives be restricted to minimum necessary requirements and in certain cases to use by the armed forces and "heavy duty" uses.

The War Production Board has requested the Petroleum Coordinator to advise the industry of this condition, and to affect the maximum conservation of those scarce chemicals and assure to the most essential uses their minimum necessary requirements.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

§ 1504.40 *Definitions.* For the purposes of §§ 1504.40 to 1504.49, inclusive, of this chapter, the following terms shall have the following meanings:

(a) "Passenger car" means any motor vehicle designed and used for the carrying of passengers, including but not limited to station wagons, delivery trucks under ¾ ton rated capacity, taxicabs, limousines and business cars, but not to include police cars or police motorcycles, ambulances, busses, or motor vehicles in the official use of the armed forces of the United States.

(b) "Additive" means any material which is added to and made a part of a finished petroleum product for the purpose of altering any characteristic of that product.

(c) "Cresol" means the phenol derivative known as Cresol, including all types of Cresol from whatever source derived.

(d) "Chlorine" means the chemical element chlorine, having atomic number 17.

(e) "Manufacturer" means any person who processes, reprocesses, or in any manner alters (including compounding and blending) petroleum or petroleum products into finished petroleum lubricating oils and greases.

(f) "Distributor" means any person who receives petroleum products from a Manufacturer or another Distributor for delivery to another Distributor, to a Retailer or to a consumer.

(g) "Retailer" means any person who delivers petroleum products to a consumer or into a consuming facility.*

*§§ 1504.40 to 1504.49, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1504.41 *Limitation on use of cresol.* All automotive lubricating oils or greases manufactured subsequent to April 6, 1942, and containing any Additive requiring Cresol in its manufacture shall be designated as "Not for use in passenger cars," and the words quoted shall appear plainly and prominently on all containers containing such products. All Manufacturers using Cresol in any additive shall immediately seek a substitute for Cresol in such use.*

§ 1504.42 *Limitation on use of detergent or detergent-disperser type additives:* All automotive lubricating oils or greases manufactured subsequent to April 6, 1942, and containing any Additive of the metallic detergent, or detergent-disperser, type shall be designated as "Not for use in passenger cars," and the words quoted shall appear plainly and prominently on all containers containing such products. Manufacturers shall immediately reduce the amount or use of the above type additive for all other purposes wherever and to whatever percentage possible and practicable.*

§ 1504.43 *Limitation on use of oxidation inhibitor type additive.* Manufacturers shall immediately reduce the use or amount of oxidation inhibitor type additives wherever and to whatever percentage possible and practicable.*

§ 1504.44 *Pour point depressants.* Manufacturers shall immediately reduce the use of pour point depressants to whatever extent possible and practicable by the following means:

(a) Lubricating oils shall be dewaxed to lower pour point specifications by utilizing dewaxing facilities to maximum capacity.

(b) Pour point specifications shall be revised to the highest allowable specifications to meet safely the temperature requirements of each locality.*

§ 1504.45 *Extreme pressure lubricants.* Manufacturers and Distributors of lubricating oils and greases shall reduce the use of additives required for extreme pressure lubricants in the following manner:

(a) All extreme pressure lubricants manufactured subsequent to April 6, 1942, shall be designated as "Not for use in passenger car transmissions," and the words quoted shall appear plainly and prominently on all containers containing such products. Manufacturers shall immediately provide as a substitute a straight mineral oil type lubricant for use in passenger car transmissions.

(b) Eliminate the manufacture of any chassis lubricant containing an additive requiring chlorine in its manufacture.

(c) Eliminate where possible, and where permissible by automotive manufacturer's specifications, the use of universal (all-purpose) type or any other type extreme pressure lubricants in the transmissions of equipment other than Passenger Cars. Where such products are required to be used, specifications for use shall be given on lubricating oil charts and on the containers containing such products.

(d) Eliminate to whatever extent possible and practicable the use of chlorine in the manufacture of extreme pressure lubricants, and replace wherever possible and practicable chlorinated extreme pressure lubricants with other types of mild extreme pressure or hypoid gear lubricants.*

§ 1504.46 *Distribution or dispensing of petroleum lubricating oils and greases.* No Distributor or Retailer shall receive any products designated and marked pursuant to §§ 1504.41, 1504.42, or 1504.45 of this chapter for uses restricted by such designation and marking, and no Distributor or Retailer shall place any such product in any Passenger Car or part thereof coming within such restrictions.

§ 1504.47 *Protective measures.* Manufacturers and Distributors of lubricating oils and greases shall make all necessary provisions for the proper designation and marking of products and containers to assure the distribution of all products affected by §§ 1504.40 to 1504.46, inclusive, of this chapter to their proper uses, and shall caution all employees and Retailers against the improper uses of such products. The manufacturers of automotive vehicles shall cooperate with the Manufacturers of lubricating oils and greases by specifying for use in Passenger Cars those products which conform to the restrictions effected by §§ 1504.40 to 1504.46, inclusive, of this chapter, and shall caution the public in the more careful use of Passenger Cars where such care becomes necessary because of the altered characteristics of such products.*

§ 1504.48 *Reports.* Within forty-five days after the effective date of §§ 1504.40 to 1504.49, inclusive, of this chapter all Manufacturers of lubricating oils and greases shall forward to the Office of Petroleum Coordinator for National Defense, Washington, D. C., reports showing the results which they have obtained through the application of said sections. Such reports shall show the former use of additives (total volume used and percentage of mix), and the change in quality or specifications of products brought about by substitution or reduction in the use of additives. Such reports shall classify such information as to all types of uses, classes of deliveries, and localities (where specifications vary as between localities).*

§ 1504.49 *Exception.* Any Manufacturer who has reason to believe that the use of materials restricted by §§ 1504.40 to 1504.48, inclusive, of this chapter, in any additive which he manufactures or employs for use in any lubricating oils or greases will not interfere with the war effort or seriously affect essential civilian needs, or any Manufacturer who believes that compliance with said sections will work an unnecessary and unreasonable hardship upon him, may apply to the Petroleum Coordinator for National Defense for an exception to any such section or provision thereof.*

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

PART 1504—PROCESSING AND REFINING

NEGOTIATION OF CONTRACTS WITH MACHINOIMPORT

To International Catalytic Oil Processes Corporation, Standard Oil Development Company, Standard Catalytic Company, Shell Development Company, Texaco Development Company, Standard Oil Company (Indiana), Universal Oil

[1] 7 F.R. 1939.

[2] 6 F.R. 6618.

Products Company, and The M. W. Kellogg Company and their respective affiliated companies and any and all others having any interest in any of the processes hereinafter mentioned:

Amtorg Trading Corporation on behalf of Machinoimport (a department of the Russian Government) has addressed inquiries to a number of American corporations concerning certain oil refining processes and the construction in Russia of plants for the practice of such processes, including particularly the following processes: thermal cracking and reforming, sulfuric acid alkylation, polymerization, catalytic cracking, hydroforming and dehydrocyclization.

International Catalytic Oil Processes Corporation (hereinafter called International Catalytic) has advised the Petroleum Coordinator for National Defense in substance as follows: In order to furnish to Machinoimport the most advanced catalytic processes involved in their said inquiries, it is necessary to place at their disposal the results of the research and development work of several companies. In each case the process involved belongs to the particular companies contributing to its development, and various of the above-named companies have different interests in different processes. As to some of such processes licensing arrangements have been completed whereby such processes are available through licensing agents, and as to others such arrangements have not as yet been completed, but as to the latter a general structure of an arrangement for the purposes of dealing with Machinoimport has been agreed upon in principle whereby International Catalytic shall acquire licensing rights outside the United States. In order to make available to Machinoimport promptly and effectively the processes for which a licensing structure has not been completed, as well as the other processes, through one source, thereby permitting the necessary coordination of engineering work, International Catalytic proposes to acquire from the respective owners their rights and technical data necessary for the construction and operation of the plants contemplated by Machinoimport's said inquiries. Thereupon, International Catalytic will offer to Machinoimport, for a consideration to be agreed upon, the rights of said companies in said processes and will furnish to Machinoimport the designs, specifications and other data for the construction and operation of the plants. For the purpose of preparing designs, specifications, and other data, the facilities of the various companies will be made available to International Catalytic. On the basis of such designs, specifications, and other data, contracts can then be let by Machinoimport for materials and actual construction. Machinoimport and its contractors will be required to keep confidential and use only for the purpose of the proposed plants the data furnished to them pursuant to these arrangements. In addition, International Catalytic will furnish to Machinoimport data necessary for the operation of the plants, including information as to developments during a reasonable period.

In the interest of furthering its program of national defense by aiding countries engaged in resisting aggression, it is the policy of the United States Government that Russia should be furnished promptly complete information concerning the design, construction, and operation of such oil refining plants as the United States Government shall find necessary in the present emergency.

The Office for Emergency Management has requested the above-named companies to proceed without delay with the negotiations involved in the furnishing to Machinoimport of the rights and technical data of said companies with respect to the processes covered by said inquiries.

Therefore, pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, I do hereby recommend that immediately and until further notice:

§ 1504.56 *Contracts to be negotiated with Machinoimport.* International Catalytic Oil Processes Corporation (hereinafter referred to as International Catalytic), on behalf and for the account of itself and Standard Oil Development Company, Standard Catalytic Company, Shell Development Company, Texaco Development Company, Standard Oil Company (Indiana), Universal Oil Products Company, and The M. W. Kellogg Company and the affiliated companies of the aforementioned, shall negotiate with Machinoimport for the sale to Machinoimport of the rights in certain oil refining processes, including particularly the following processes, thermal cracking and reforming, sulfuric acid alkylation, polymerization, catalytic cracking, hydroforming and dehydrocyclization, belonging to the aforementioned companies, and for the furnishing to Machinoimport of the designs, specifications, and other data necessary for the construction and operation of plants for the practice of such processes; any contract to be entered into with Machinoimport pursuant to such negotiations and the processes to be covered thereby first to be approved by the Petroleum Coordinator for National Defense.*

*§ 1504.56 and 1504.57, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of Interior (6 F.R. 2760).

§ 1504.57 *Action by companies to aid negotiations.* The several companies referred to above shall proceed with all steps and action necessary or appropriate in order to carry on said negotiations and fully to carry out any such contract so entered into, including, but without limitation; arrangements for preparation of designs and specifications and for doing other engineering work involved so that contractors or others selected by Machinoimport may construct such plants; arrangements whereby International Catalytic will acquire from the respective owners their rights and technical data necessary for the construction and operation of said plants; and arrangements pursuant to which cooperative development of said processes may be continued by the respective companies concerned so that the developments and improvements thereby perfected may be made available to Machinoimport.*

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

[Recommendation No. 12, Amendment]

PART 1505—TRANSPORTATION

DISTRIBUTION OF EXCESS COSTS AND COMPENSATING REVENUES

Pursuant to the President's letter of May 28, 1941, establishing the Office of Petroleum Coordinator for National Defense, §§ 1505.19 to 1505.21, inclusive, of this chapter (Recommendation No. 12, dated September 30, 1941, as amended October 18, 1941) are hereby amended to read as follows:

§ 1505.19 *Plan for distribution of excess costs and compensating revenues.* The Transportation Committee for District One shall obtain and analyze all pertinent and available facts, figures, and other data with respect to the use of tank cars and other alternative means of transportation in and to District One, and shall prepare therefrom a plan for submission to the Chief Counsel of the Office of Petroleum Coordinator for National Defense, for the equitable sharing and distribution, among suppliers of petroleum or petroleum products in said District, of the following:

(a) Extra expenses incurred in the transportation of petroleum and petroleum products to or in District One by railroad tank car or other alternative means of transportation, or any combinations thereof, over transportation by tanker under the Maritime Commission charter rate ceilings or other applicable rates established by the Maritime Commission.

(b) Revenues equivalent to the increases in maximum prices allowed for petroleum and petroleum products, by the Office of Price Administration, for the expressed purpose of compensating for extra expenses incurred in transportation by alternative means.

Such plan shall permit participation by any and all suppliers who import into District One crude petroleum for processing there or petroleum products for resale, and producers or manufacturers of petroleum products in said District, but shall not be conditioned upon participation by all such suppliers.*

*§§ 1505.19 to 1505.21, inclusive, issued under the authority contained in the President's letter of May 28, 1941, to the Secretary of the Interior (6 F.R. 2760).

§ 1505.20 *Approval and execution of plan.* Upon the approval by the Chief Counsel of the Office of Petroleum Coordinator for National Defense of a plan prepared pursuant to § 1505.19 of this chapter, and pursuant to the direction of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, the Transportation Committee for District One, any subcommittee designed pursuant to § 1505.21 of this chapter, and all participants in said plan shall carry into effect said plan according to its terms, conditions and intent.*

§ 1505.21 *Subcommittee; Meetings.* Subcommittee shall be designated by the Transportation Committee for District One, the membership of which shall be subject to the approval of the Petroleum Coordinator for National Defense or the Deputy Petroleum Coordinator, to assist in the effectuation of any approved plan prepared pursuant to the provisions of § 1505.20 of this chapter. In carrying out the duties, responsibilities, and functions under §§ 1505.19 to 1505.21, inclusive, of this chapter, and any approved plan thereunder, the subcommittee shall maintain such staff and appoint such persons as it finds necessary to carry out its duties, responsibilities and functions under this Recommendation. The Transportation Committee or the said Subcommittee may propose from time to time to the Petroleum Coordinator for National Defense or to the Deputy Petroleum Coordinator changes in the membership of the said Subcommittee and may submit nominations for new members.

Meetings of the Transportation Committee, of the said subcommittee, and of representatives of suppliers in District One may be held from time to time for the purpose of preparing any such plan, and after receipt of approval by the Chief Counsel of the Office of Petroleum Coordinator for National Defense and of the direction of the Petroleum Coordinator or Deputy Petroleum Coordinator to carry such plan into effect, for the purpose of carrying into effect such plan in accordance with such approval and direction.*

R. K. DAVIES,
Deputy Petroleum Coordinator for National Defense.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, War Department

PART 204—DANGER ZONE REGULATIONS[1]

Pursuant to the provisions of Chapter XIX of the Army Act, approved July 9, 1918 (40 Stat. 892; 33 U.S.C. 3), and Section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), the following regulations are hereby prescribed to govern the use and navigation of the waters of the Pacific Ocean, comprising the firing range of the U. S. Military Reservation of the Coast Artillery Replacement Training Center, Camp Callan, San Diego, California.

§ 204.99a *Pacific Ocean, La Jolla-Solana Beach, Calif.; Firing range U. S. Military Res., Camp Callan, San Diego, California*—(a) *The danger zone.* The area in the Pacific Ocean, located between an east-west line through Solana Beach, latitude 33°00' N. on the north and an east-west line through Scripp's Pier, latitude 32°52' N., on the south, and extending from shore to longitude 117° 26' (approximately 9 nautical miles), is designated as a danger zone. All bearings are referred to true meridian. (See U.S.C. and G.S. Chart No. 5101A.[2])

(b) *The regulations.* (1) Any vessel propelled by mechanical power at a speed greater than 5 miles per hour may proceed through the above area to and from points beyond (but not from one point in the above danger zone to another) without restriction, except when notified to the contrary.

(2) Fishermen desiring to fish in the above danger zone will be required to have written permits which will be issued by the Commanding General, Coast Artillery Replacement Training Center, Camp Callan, San Diego, California, upon application thereto.

(3) On days and nights when firing is in progress, no boat or vessel shall enter or remain in the danger zone, except vessels of the United States, or vessels proceeding across the zone as provided in regulation 1 above.

(4) Except under unusual circumstances, announcement of which will be communicated to the surrounding communities, the restricted area is open throughout the year to the public for fishing and traffic without restriction from 12:00 noon, Saturdays, to 8:00 a. m., Mondays, and national holidays from 5:00 p. m. of the preceding day to 8:00 a. m. on the day following the holiday. The area is also open to the public for fishing and traffic without restriction on other days when firing is not to be conducted.

(5) Notice of target practice within the firing range will be given by the Commanding General by one or more of the following methods:

(i) On days when firing, is to be held in all or part of the restricted area, large red flags will be displayed from elevated masts in the immediate vicinity of each firing point (near S. W. Range Tower, U. S. Navy) from which fire is to be conducted. These flags will be hoisted not later than 8:00 a. m. of the day on which firing is to be held and will be lowered when firing ceases for the day.

(ii) Notice published in San Diego daily papers.

(iii) Telephone advice to such fishermen's organizations as may request, in writing, that such direct advice be given.

(iv) Telephone advice to civil aircraft communication stations and naval air bases as may request, in writing, that such direct advice be given.

(v) Notice to individual craft by a visit of a United States vessel.

(6) During periods when antiaircraft firing is in progress, safety observers will be maintained for the protection of civil and naval aircraft.

(7) The regulations in this section shall be enforced by the Commanding General, Coast Artillery Replacement Training Center, Camp Callan, California. (Chapter XIX 40 Stat. 892; 33 U.S.C. 3, and Sec. 7, 40 Stat. 266; 33 U.S.C. 1) [Regs. March 2, 1942 (E.D. 7195 (Pacific Ocean—California)—1/7)]

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-229]

IN THE MATTER OF JAMES W. GRINDLE, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated February 11, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on February 14, 1942 by the Bituminous Coal Producers Board for District No. 10, a District Board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by James W. Grindle, (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 25, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Peoria County Court House, Peoria, Illinois.

It is further ordered, That Joseph D. Dermody or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible

under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above named Code member as follows: That said Code member, whose address is R. F. D. No. 1, Cuba, Illinois, and whose code membership became effective as of October 13, 1939, operator of mine designated as Mine Index No. 668, located in Putnam Township, Fulton County, Illinois, wilfully violated the Act, the Code and rules and regulations thereunder;

1. By failing during October, November, and December, 1940, to maintain and file at the field office in Chicago, Illinois, copies of the truck tickets, sales slips, invoices, and other memoranda or records relating to sales and shipments of coal by truck or wagon, as required by Order No. 296 dated September 23, 1940, and Order No. 297 dated October 22, 1940;

2. By failing to maintain copies of the truck tickets, sales slips, invoices, and other memoranda or records relating to sales and shipments of coal by truck or wagon, during January, February and March, 1941, as required by Order No. 307 dated December 11, 1940;

3. By failing to maintain copies of the truck tickets, sales slips, invoices and other memoranda and records relating to sales and shipments of coal by truck or wagon during the period from April 1, 1941 to December 1, 1941, both dates inclusive, as required by Order No. 312, dated February 24, 1941.

Dated: March 23, 1942.

[Docket No. B-218]

IN THE MATTER OF FORKS COAL MINING COMPANY, A CORPORATION, CODE MEMBER, DEFENDANT

ORDER GRANTING MOTION TO AMEND COMPLAINT, AMENDING NOTICE OF AND ORDER FOR HEARING, POSTPONING HEARING AND EXTENDING TIME WITHIN WHICH TO FILE ANSWER

A complaint dated February 3, 1942, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, having been duly filed on February 10, 1942, by Bituminous Coal Producers Board for District No. 1, a District Board, complainant, with the Bituminous Coal Division alleging wilful violation by the defendant of the Bituminous Coal Code or rules and regulations thereunder; and said matter having been scheduled for hearing on March 24, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at Room 203, Post Office Building, Altoona, Pennsylvania, pursuant to Notice of and Order for Hearing entered herein on February 18, 1942, and the place of said hearing having been changed to the Community Room of the City Hall, Altoona, Pennsylvania, by Order of the Acting Director, entered herein on March 5, 1942; and

Said complainant, by motion dated March 14, 1942, and filed with the Division on March 17, 1942, having moved that its said complaint filed herein be amended by deleting therefrom Subparagraph 2 of Paragraph III, relating to sales by Forks Coal Mining Company to Emerson Manufacturing Company, Suncook, New Hampshire, and inserting in lieu thereof the following, as Subparagraph 7 of Paragraph I:

7. DOWLING COAL COMPANY

[424 Bell Building, Manchester, N. H., Registered Distributor No. 2472]

Date of shipment	P. R. R. car No.	Size	Billed price per ton	Effective minimum price	Discount per ton allowed	Weight in tons
Jan. 20, 1941..	738618	M/M/R	$1.95	$2.20	$0.25	48.95
Mar. 5, 1941..	736735	M/M/R	1.95	2.20	.25	49.60
Mar. 17, 1941.	715201	M/R	1.95	2.20	.25	52.40
Mar. 24, 1941.	106196	M/R	1.95	2.20	.25	50.90
Mar. 28, 1941.	178232	M/R	1.95	2.20	.25	72.75

And said defendant having requested that the hearing in this matter be postponed for thirty (30) days, and that the time within which to file answer be extended for thirty (30) days; and

The Acting Director deeming it advisable that said complaint should be amended as hereinabove set forth, and that the defendant's said requests should be granted in part and denied in part, as hereinafter set forth;

Now, therefore, it is ordered, That the aforesaid motion filed herein by Bituminous Coal Producers Board for District No. 1, complainant herein, be and the same hereby is granted; and

It is further ordered, That the Notice of and Order for Hearing dated February 18, 1942, be and the same hereby is amended by deleting therefrom the tenth paragraph thereof, relating to sales of coal by Forks Coal Mining Company to Emerson Manufacturing Company, and inserting in lieu thereof the following:

"That said defendant also wilfully violated section 4 II (e) and (h) of the Act and Part II (e) and (h) of the Code and Rule 1 of section III of the Marketing Rules and Regulations, by allowing, during the period January 1, 1941, to March 31, 1941, both dates inclusive, a discount of 25 cents per net ton from the applicable minimum f. o. b. mine prices on the sales of approximately 274.6 net tons of modified mine run and mine run coal produced by said defendant at its said mine and sold to Dowling Coal Company, Registered Distributor, Registration No. 2472, whose address is 424 Bell Building, Manchester, New Hampshire, whereas the maximum discount prescribed by the Division on such sales is 12 cents per net ton, thereby selling and delivering said coal at $1.95 per net ton f. o. b. said mine, whereas this coal is classified as Size Group 3 and is priced at $2.20 per net ton f. o. b. the mine in the Schedule of Effective Minimum Prices for District No. 1 For All Shipments Except Truck"; and

It is further ordered, That the said hearing in the above-entitled matter be and the same hereby is postponed from March 24, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division, at the Community Room of the City Hall, Altoona, Pennsylvania, to April 13, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at Room 118, Fifth Floor, Colonial Hotel, Altoona, Pennsylvania, before the officer or officers previously designated to preside at said hearing, and that the time within which said defendant must file its answer herein be and the same hereby is extended to and including March 31, 1942; and

It is further ordered, That the said Notice of and Order for Hearing entered in the above-entitled matter on February 18, 1942, shall, in all other respects, remain in full force and effect.

Dated: March 23, 1942.

DEPARTMENT OF LABOR.

Children's Bureau.

NOTICE OF HEARING ON A PROPOSED FINDING AND ORDER RELATING TO THE EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE IN OCCUPATIONS IN THE BUILDING AND REPAIRING OF SHIPS

MARCH 23, 1942.

Notice is hereby given of a public hearing to be held on April 15, 1942, at 10 a. m. in room 7129, U. S. Department of Labor Building, 14th Street and Constitution Avenue, Washington, D. C., on a proposed Finding and Order, under section 3 (l) of the Fair Labor Standards Act of 1938, relating to the employment of minors between 16 and 18 years of age in certain occupations in the building and repairing of ships.

This proposed Finding and Order declares such occupations to be hazardous for the employment of minors between 16 and 18 years of age, and its effect, if issued, will be to raise the minimum age for employment from 16 to 18 years in occupations subject to it.

The proposed Finding and Order is based upon a report of an investigation of the shipbuilding and ship-repairing industry entitled "Occupational Hazards to Young Workers: Report No. 7—The Shipbuilding and Ship-Repairing Industry" which is available for inspection at the Office of the Children's Bureau, United States Department of Labor, Washington, D. C., and at other offices of the Children's Bureau and offices of the Wage and Hour Division. A list of these offices and their addresses is attached. Copies of the Report may be obtained upon request from any of these offices.

All parties desiring to appear at the hearing are requested to notify the Children's Bureau at least 5 days prior to the date fixed for the hearing. Any interested party who is unable to appear in person or by representative may submit a written statement to the Children's Bureau not later than the day prior to the date fixed for the hearing and the same will be made part of the record of the hearing.

The Finding and Order, as proposed, is as follows:

PROPOSED FINDING AND ORDER

Part 422—Occupations Particularly Hazardous for the Employment of Minors Between 16 and 18 years of Age or Detrimental to Their Health or Well-Being

§ 422.7 *Occupations in the building and repairing of ships—(a) Finding and declaration of fact.* By virtue of and pursuant to the authority conferred by section 3 (*l*) of the Fair Labor Standards Act of 1938[1] and pursuant to the regulation prescribing the procedure governing determinations of hazardous occupations;[2] an investigation having been conducted with respect to the hazards for minors between 16 and 18 years of age in employment in occupations involved in the building and repairing of ships; and a report of the investigation having been submitted to the Chief of the Children's Bureau;

Now, therefore, I, Katharine F. Lenroot, Chief of the Children's Bureau of the United States Department of Labor, hereby find and declare that the following occupations involved in the building and repairing of ships are particularly hazardous for minors between 16 and 18 years of age:

(1) Any work in the construction of the hull or superstructure of steel or wooden ships, including carpentering or shipwright work, crane operation, rigging, erecting, ship fitting, drilling, bolting, riveting, chipping, caulking, welding, burning, and unskilled labor. This shall include work in the building or preparation of the ways. It shall not include work in the subassembly of sections of the ships in the shops or yard, nor in the taking of measurements or the making of templates on board ship in connection with such subassembly work or with work in the mold loft.

(2) Any work in the fitting-out of ships performed on board ship either before or after launching, including crane operation, rigging, pipe fitting, plumbing, coppersmithing, sheet-metal work, joinery, electrical work, machinist work, painting, and unskilled labor. This shall not include the taking of measurements or the making of templates on board ship in connection with the making of equipment in the shops.

(3) Any work in the reconditioning, repair, or reconstruction of ships performed in drydocks, on marine railways, or at wharves (including the operation of drydocks or marine railways or the berthing of ships), except for the taking of measurements or the making of templates on board ship in connection with work in the mold loft or in other shops, and except for pipe fitting, plumbing, asbestos work, coopersmithing, sheet-metal work, joinery, electrical work, canvas work, and interior painting where such work is not carried on in connection with major overhaul, conversion, rigging, or the handling of heavy material.

(4) Any work in the plate and shape shop (other than subassembly work) or in the boiler shop, including any work of types regularly performed in such shops whether done in the specific shops or elsewhere in the yard. This shall not include the work of shop offices.

(5) Any work in the grinding or dry mixing of paints or in workrooms where these processes are carried on.

(6) Any work in the transportation or storage of steel plates or shapes or of heavy lumber.

(7) Any work in the powerhouse.

(b) *Definitions.* As used in this section, the term "building and repairing of ships" shall mean the construction or repair of ships or flat-bottomed craft of steel-plate construction or of wooden construction of heavy commercial type, when done in or about yards equipped with launching ways, marine railway, or drydock. It shall not include work in establishments not equipped with launching ways, marine railway, or drydock, nor shall it include the building or repairing of sheet-metal boats or wooden boats of light yacht-type construction.

(c) *Higher standards.* This order shall not justify noncompliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established herein.

(d) *Effective date.* This order shall become effective on June 1, 1942 and shall be in force and effect until amended or repealed by order hereafter made and published by the Chief of the Children's Bureau.

Application of A. M. Burton (New), Nashville, Tennessee, for Construction Permit

ORDER SUPPLEMENTING NOTICE OF HEARING

It is ordered, On the Commission's own motion this 19th day of March, 1942, that the notice of issues heretofore released on the application in Docket No. 6109, be, and it is hereby, supplemented, as follows:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine the areas and populations which would receive primary service from the proposed station and what broadcast service is available to such areas and populations.

3. To determine whether the granting of the application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials (see Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

[Docket No. 6210]

Application of Capitol Broadcasting Co., Inc., (WRAL)

NOTICE OF HEARING

Application dated April 28, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Raleigh, North Carolina; Operating assignment specified: Frequency, 850 kc.; power, 1 kw. night; 5 kw. day (DA—night), hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine whether the proposed construction involves the use of any critical materials.

2. To determine what new areas and populations would receive service as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

3. To determine what, if any, areas and populations would lose primary service from Station WRAL as a result of the proposed change in facilities and what broadcast service is already available to such areas and populations.

4. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

5. To determine whether the granting of this application would be consistent with the Standards of Good Engineering Practice, particularly in view of the expected nighttime interference limitation to the service of the proposed station.

6. To determine the extent of any interference which would result from the simultaneous operation of Station WRAL as proposed and the operation of Station WRUF as proposed in Docket No, 6281, as well as the areas and populations affected thereby, and what other broadcast service is available to these areas and populations.

7. To determine whether the granting of this application would tend toward a fair, efficient and equitable distribution of radio service as contemplated by Section 307 (b) of the Communications Act of 1934, as amended.

8. To determine whether in view of the facts adduced under the foregoing issues and the issues relating to the application of the University of Florida (WRUF), Docket No. 6281, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Capitol Broadcasting Co., Inc., Radio Station WRAL, 130 S. Salisbury St., Raleigh, North Carolina.

Dated at Washington, D. C., March 20, 1942.

[Docket No. 6279]

Application of Dyke Cullum and Harry R. England as Copartners, d/b as Radio Company of Annapolis (New)

NOTICE OF HEARING

Application dated November 28, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Annapolis, Maryland; operating assignment specified: Frequency, 1,040 kc.; power, 250 watts; hours of operation, limited time.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the qualifications of the applicant partnership to conduct and operate the proposed station.

2. To determine the character of the proposed program service.

3. To determine whether the proposed construction involves the use of any critical materials.

4. To determine the areas and populations which would receive primary service from the operation of the station proposed herein and what broadcast service is already available to such areas and populations.

5. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

6. To determine whether there are other assignments available which would permit operation during daytime hours only, in accordance with the Standards of Good Engineering Practice.

7. To determine the areas and populations now receiving primary service from Station WWDC, which would receive primary service from the proposed station.

8. To obtain full information respecting the plan of operation for the proposed station, particularly in view of the connection of Dyke Cullum (a member of the applicant partnership) with the licensee of Station WWDC.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules of Practice and Procedure.

The applicant's address is as follows:

Application of W. W. McAllister and Howard W. Davis, d/b as The Walmac Company, (New)

NOTICE OF HEARING

Application dated August 29, 1941, for construction permit; class of service, broadcast; class of station, broadcast; location, Alice, Texas; operating assignment specified: Frequency, 1,230 kc.; power, 250 watts; hours of operation, unlimited.

You are hereby notified that the Commission has examined the above described application and has designated the matter for hearing for the following reasons:

1. To determine the character of the proposed program service.

2. To determine whether the proposed construction involves the use of any critical materials.

3. To determine the areas and populations which would receive primary service from the operation of the station proposed herein and what broadcast service is already available to these areas and populations.

4. To determine whether the granting of this application would be consistent with the policy announced by the Commission with respect to authorizations involving the use of critical materials. (See Memorandum Opinion dated February 23, 1942, Mimeograph No. 58106).

5. To determine the areas and populations which would be deprived of primary service, particularly from Station WOAL, as a result of the operation of the station as proposed herein and what other broadcast service is available to these areas and populations.

6. To determine the availability of a transmitter site in the Alice, Texas area which would comply with the Standards of Good Engineering Practice.

7. To determine whether the proposed antenna would constitute a hazard to air navigation.

8. To determine whether the granting of this application would tend toward a fair, efficient, and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

9. To determine whether, in view of the facts adduced under the foregoing issues, public interest, convenience and necessity would be served through the granting of this application.

The application involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant on the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules of Practice and Procedure. Chapter VIII—Sugar Service, Agricultural Conservation and Adjustment Administration

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF PROPORTIONATE SHARES FOR FARMS IN THE MAINLAND CANE SUGAR AREA FOR THE 1942 CROP

Whereas, section 302 of the Sugar Act of 1937, as amended, provides in part as follows:

(a) The amount of sugar or liquid sugar with respect to which payment may be made

[1] 7 F.R. 1663.

[2] 7 F.R. 61.

shall be the amount of sugar or liquid sugar commercially recoverable, as determined by the Secretary, from the sugar beets or sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm, as determined by the Secretary, of the quantity of sugar beets or sugarcane for the extraction of sugar or liquid sugar required to be processed to enable the producing area in which the crop of sugar beets or sugarcane is grown to meet the quota (and provide a normal carry-over inventory) estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed.

(b) In determining the proportionate shares with respect to a farm, the Secretary may take into consideration the past production on the farm of sugar beets and sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets or sugarcane, and the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interests of producers who are cash tenants, share-tenants, adherent planters, or share-croppers;

And whereas, subsection (c) of section 301 of the said act provides, as one of the conditions for payment to producers of sugar beets and sugarcane, as follows:

(c) That there shall not have been marketed (or processed) an amount (in terms of planted acreage, weight, or recoverable sugar content) of sugar beets or sugarcane grown on the farm and used for the production of sugar or liquid sugar to be marketed in, or so as to compete with or otherwise directly affect interstate or foreign commerce, in excess of the proportionate share for the farm, as determined by the Secretary pursuant to the provisions of section 302, of the total quantity of sugar beets or sugarcane required to be processed to enable the area in which such sugar beets or sugarcane are produced to meet the quota (and provide a normal carry-over inventory) as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed;

Now, therefore, the following determination is hereby issued:

§ 802.26d *Proportionate shares of sugarcane for the mainland cane sugar area for the 1942 crop*—(a) *Farm proportionate share.* The proportionate share of sugarcane for the 1942 crop for any farm in the mainland cane sugar area shall be the number of acres planted thereon for the production of sugarcane to be marketed (or processed by the producer) for the extraction of sugar or liquid sugar during the 1942 crop season.

(b) *Tenant and sharecropper protection.* The provisions of this determination are subject to the following conditions:

(1) That no change shall have been made in the leasing or cropping agreements for the purpose of diverting to producers any payment to which tenants or sharecroppers would be entitled if their 1941 leasing or cropping agreements were in effect;

(2) That there shall have been no interference by any producer with any contracts heretofore entered into by tenants or sharecroppers for the sale of their sugarcane or their share of the sugarcane produced on the farm. (Sec. 302, 50 Stat. 910; 7 U.S.C., 1132)

Done at Washington, D. C., this 24th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of the Alien Property Custodian

PART 501—REGULATIONS RELATING TO PROPERTY VESTED IN THE ALIEN PROPERTY CUSTODIAN

These regulations are prescribed and issued by virtue of the authority vested in the Alien Property Custodian by the President pursuant to section 5 (b) of the Trading with the enemy Act, as amended by section 301 of the First War Powers Act, 1941.

§ 501.1 *Receipt and disposition of claims.* The following procedure is hereby established for the receipt and disposition of claims to property vested in the Alien Property Custodian pursuant to section 5 (b) of the Trading with the enemy Act, as amended by section 301 of the First War Powers Act, 1941:

(a) Claims to property vested in the Alien Property Custodian pursuant to section 5 (b) of the Trading with the enemy Act, as amended, shall be filed with the Alien Property Custodian on Form APC–1 in triplicate. Such claims shall be filed within such time, after the vesting in the Alien Property Custodian of the property to which they relate, as the Custodian shall prescribe. Form APC–1 may be obtained from the Alien Property Custodian, Washington, D. C. The original of each claim shall be executed under oath before an officer authorized to administer oaths, or if executed outside of the United States, before a diplomatic or consular officer of the United States.

(b) There shall be a committee to be known as the Vested Property Claims Committee, to be composed of three members designated by the Alien Property Custodian. The members of the Committee shall designate one of their number to be Chairman. The Committee is empowered to hear claims respecting property vested in the Alien Property Custodian pursuant to section 5 (b) of the Trading with the enemy Act, as amended, in accordance with rules and procedures to be formulated by the Committee. The Committee shall have all powers necessary to carry out its functions, including the power to call witnesses and to compel the production of books of accounts, records, contracts, memoranda, and other papers.

(c) The Alien Property Custodian shall transmit to the Committee claims relating to property vested in the Alien Property Custodian pursuant to section 5 (b) of the Trading with the enemy Act, as amended.

(d) Appropriate notice of hearing shall be given by the Committee at least 10 days before the time set for the hearing. This requirement of notice may be waived by any claimant.

(e) Claimants and the Alien Property Custodian shall be entitled to representation by counsel, or otherwise, before the Committee.

(f) The Committee shall have a seal which shall be affixed to all exemplifications of the records and such other documents, orders, or notices as the Committee may determine.

(g) A complete record, including a transcript of the testimony, shall be made of any hearing before the Committee. The Committee shall transmit the record, including its findings and recommendations, to the Alien Property Custodian.

(h) The Alien Property Custodian, after the examination of the record, will issue a decision and will give appropriate notice of the decision rendered. The Alien Property Custodian will take appropriate action to effectuate any decision so rendered. (Sec. 5 (b), 40 Stat. 415, 966, sec. 2, 48 Stat. 1, 54 Stat. 179, Pub. Law 354, 77th Cong.; E.O. 9095, 7 F.R. 1971)

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1201]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR REVISION OF THE PRICE CLASSIFICATIONS, MINIMUM PRICES, AND SEAM DESIGNATIONS FOR THE COALS OF CERTAIN MINES IN SUBDISTRICTS NOS. 7, 8, AND 9 IN DISTRICT NO. 8

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its petition proposed certain changes in the effective minimum prices and in the seam designations heretofore established and designated for the mines of certain code member producers in Buchanan, Russell and Tazewell Counties in Virginia. The petition further requests that certain errors in the listing of the location of mines be corrected.

Pursuant to an Order of the Acting Director, dated December 19, 1941, and after notice to all interested parties, a hearing was held before Joseph A. Huston, a duly designated Examiner of the Division at a hearing room of the Division at Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board 8, as well as Consumers' Counsel appeared. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of the District Board 8 herein requested a revision of the classifications and effective minimum prices for truck and rail shipments for the coals produced at some forty-seven mines located in Buchanan, Russell and Tazewell Counties, Virginia.

The testimony of the representative of District Board 8 shows that minimum prices were originally established for the coals in question. However, due to errors in properly designating the seams in which the coals were produced or the counties in which the mines were located, the classifications and minimum prices, which were established do not properly reflect the relative value of coals and they are not in proper coordination with other coals produced in District 8. The effect of the changes proposed would be to establish for the mines listed the proper prices applicable to the coals from the seams in which such mines are actually producing.

It appears that in some cases the change in seam designation will result in an increase in the effective minimum price, while in others the change in seam designation will result in a decrease in such prices. However, according to the testimony, the prices proposed for mines in each of these seams are identical with the prices presently effective for other mines located in the same seam.

The classifications and prices proposed by the Board will, it appears, reflect proper coordination between the coals to which said prices apply and competing coals.

Upon the basis of the uncontroverted evidence, I find that the classifications and minimum prices as well as the seam designations shown in the schedule hereto attached for the coals specified therein are proper and should be established; that such classifications and minimum prices conform in all respects to those heretofore established for comparable coals in District No. 8 and will preserve the fair competitive opportunities for the producers of said coal.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 328.11 (*Alphabetical list of code members*) is amended by adding thereto Supplement R § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 328.42 (*General prices for low volatile coals*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: March 16, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

PART 330—MINIMUM PRICE SCHEDULE DISTRICT NO. 10

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 10 FOR THE ESTABLISHMENT OF MINIMUM PRICES AND PRICE CLASSIFICATIONS FOR THE COALS PRODUCED AT THE MCLAREN (6TH VEIN) MINE (MINE INDEX NO. 1558) OF THE MCLAREN COAL COMPANY, A CODE MEMBER IN DISTRICT NO. 10, FOR ALL SHIPMENTS

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals produced at the McLaren (6th Vein) Mine (Mine Index No. 1558) of the McLaren Coal Company, a code member in District No. 10, for all shipments; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 330.2 (*Mine index numbers*) is amended by adding thereto Supplement R–I, § 330.10 (*Special prices*—(a) *Railroad locomotive fuel prices*) is amended by adding thereto Supplement R–II, and § 330.25 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 11, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 1043—METAL SIGNS

GENERAL LIMITATION ORDER L-29

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other metals for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote national defense.

§ 1043.1 *General Limitation Order L-29*—(a) *Definitions.* For the purposes of this Order:

(1) "Signs" means all devices having an area of more than 36 square inches designed primarily to deliver or convey information, messages or ideas, including (but not limited to) neon-tube and other electrical signs, bill-boards, outdoor and highway signs (other than traffic lights), name plates, store front signs and indoor signs. "Signs", however, shall not include

(i) Any type of plate, tag, emblem, insignia or marker which is or may be used by a Governmental Unit to evidence licensing or registration of any kind and for any purpose; or

(ii) Lamps or bulbs for electrical signs.

(2) "Metals" means all ferrous and non-ferrous metals except those contained in metallic paint.

(3) "Metal Signs" means signs, into the physical composition of which any metals are incorporated: *Provided*, That the weight of metals contained therein shall amount to at least 5 percent of the weight of the sign.

(4) "Accessories" means all wiring and other electrical equipment (other than lamps or bulbs), and frames, hanging brackets, stands, poles, booms, and other supporting devices designed primarily for use with signs.

(5) "New Accessories" means any accessories which have never been used with a sign.

(6) "Manufacturer" means any person who is customarily engaged in the business of producing metal signs and/or accessories.

(7) "To Use" material means to put that material into production for the first time. (When a person is limited to a percentage of the material used in a base period, this limitation applies to the aggregate weight of such material when first put into production by that person, whether in the form of raw materials or as purchased parts.)

(8) "Base Period" means the twelve months ending June 30, 1941.

(b) *General restrictions.* (1) During the period from the date of issuance of this Order to the last day of the calendar month in which it is issued inclusive, the average daily use of iron and steel by any manufacturer in the production and installation of metal signs and/or new accessories shall not exceed his average daily aggregate use of metals for such purposes during the base period, provided that a manufacturer may use more than his quota of iron and steel under this subparagraph if, but only if, he reduces his quota under subparagraph (2) by an equivalent amount of iron and steel.

(2) During the three months' period beginning with the first day of the first calendar month following the date of issuance of this Order, no manufacturer shall use in the production and installation of metal signs and/or new accessories more iron and steel than 12½ percent of his aggregate use of metals for such purposes during the base period.

(3) Effective the first day of the fourth calendar month following the date of issuance of this Order, no manufacturer shall use any metals in the production of metal signs and/or accessories.

(4) After the effective date of this Order no manufacturer shall sell, deliver or otherwise transfer in the form of raw or semi-processed materials, any part of his inventory of iron or steel which he holds for use in the production of metal signs or accessories, to any other person, or to any other department, division, or section of his concern not engaged in the production of metal signs, except

(i) To other manufacturers for their use in the production of signs and accessories as permitted under the provisions of subparagraphs (b) (1) and (b) (2), or of repair or maintenance parts for signs;

(ii) To any person (including any other department, division, or section of the manufacturer's concern not engaged in the production of metal signs) who is able to supply a preference rating of A-3 or higher;

(iii) To Defense Supplies Corporation, Metals Reserve Company, or any other corporation organized under section (5) (d) of the Reconstruction Finance Corporation Act as amended, or any person acting as agent for any such corporation; or

(iv) With specific consent of the Director of Industry Operations.

(c) *Avoidance of excessive inventories.* Manufacturers of metal signs shall not accumulate for use in the manufacture or installation of such signs and/or accessories inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production or installation of metal signs and/or accessories at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years, accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order, shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer shall file with the War Production Board on or before the fifteenth day of the fourth calendar month following the date of issuance of this Order, his inventory of iron and steel, and all other metals in the form of raw or semi-processed materials held for use in the production of signs and accessories, and such other reports and questionnaires as said Board shall from time to time prescribe.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production and installation of metal signs and/or accessories to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L-29.

(l) *Effective date.* This Order shall take effect on the date of its issuance, and shall continue in effect until revoked. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. PART 1119—METAL PLASTERING BASES AND METAL PLASTERING ACCESSORIES

LIMITATION ORDER NO. L-59

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of steel, zinc, and other metals for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1119.1 *General Limitation Order L-59*—(a) *Definitions.* For the purposes of this Order:

(1) "Metal Plastering Base" means any support or reinforcement, made in whole or in part of metal, which is of a type commonly used as a base for the application of interior or exterior plastering or stucco construction, including, but not limited to, the following: expanded metal lath, metal stucco mesh, sheet metal lath, wire lath, wire cloth, wire fabric (whether woven or welded) and any of the foregoing in combination with any other of the foregoing or with paper, fabric, or other backing.

(2) "Metal Plastering Accessory" means any article (other than a Metal Plastering Base or a nail) which is of a type commonly used as a guide, support, reinforcement or means of attachment for Metal Plastering Bases or other plaster bases, and which is made in whole or in part of metal, including but not limited to, the following: corner lath (cornerite), corner beads, base screed, corner bead clips, tie wire, metal partition studs, floor and ceiling track for partitions, steel plastering shapes such as channels and rods, and concealed picture mold and trim to be applied before plastering.

(3) "Zinc-Coated Metal Plastering Base and/or Metal Plastering Accessory" means any Metal Plastering Base and/or Metal Plastering Accessory into the physical composition of which there has been incorporated any metal which has a surface coating of zinc, whether wholly or partially covered with zinc, regardless of how or when that zinc coating was applied.

(4) "Class A Manufacturer" means any manufacturer of Metal Plastering Bases and/or Metal Plastering Accessories who incorporated 14,000 tons, or more, of metals into Metal Plastering Bases and/or Metal Plastering Accessories during the calendar year 1941.

(5) "Class B Manufacturer" means any manufacturer of Metal Plastering Bases and/or Metal Plastering Accessories who incorporated less than 14,000 tons of metals into Metal Plastering Bases and/or Metal Plastering Accessories during the calendar year 1941.

(b) *General Restrictions*—(1) *Class A manufacturers.* Except as provided in subparagraphs (3) and (4) of this paragraph, during the four months' period from March 1, 1942, to June 30, 1942, inclusive, no Class A Manufacturer shall incorporate into Metal Plastering Bases and/or Metal Plastering Accessories, other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories, any metal in excess of ⅙ of 50% (by weight) of the total quantity of that metal which was incorporated into Metal Plastering Bases and/or Metal Plastering Accessories other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941; nor shall such manufacturer incorporate into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories any metal in excess of ⅙ of 35% (by weight) of the total quantity of that metal which was incorporated into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941.

(2) *Class B manufacturers.* Except as provided in subparagraphs (3) and (4) of this paragraph, during the four months' period from March 1, 1942, to June 30, 1942, inclusive, no Class B Manufacturer shall incorporate into Metal Plastering Bases and/or Metal Plastering Accessories other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories any metal in excess of ⅙ of 75% (by weight) of the total quantity of that metal which was incorporated into Metal Plastering Bases and/or Metal Plastering Accessories other than Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941; nor shall such manufacturer incorporate into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories any metal in excess of ⅓ of 50% (by weight) of the total quantity of that metal which was incorporated into Zinc-Coated Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer during the calendar years 1940 and 1941.

(3) To the extent that any manufacturer does not incorporate into Metal Plastering Bases and/or Metal Plastering Accessories any quantity of zinc which he is permitted, by paragraphs (b) (1) and (b) (2) hereof to incorporate into Metal Plastering Bases and/or Metal Plastering Accessories, he may increase by an equal amount the weight of iron and/or steel which he incorporates into Metal Plastering Bases and/or Metal Plastering Accessories: *Provided,* That the total weight of all the metals which shall be incorporated by that manufacturer into all types of Metal Plastering Bases and/or Metal Plastering Accessories shall in no case be greater than the total weight of all metals which he is permitted to incorporate into all types of Metal Plastering Bases and/or Metal Plastering Accessories by the terms of paragraphs (b) (1) and (b) (2) hereof.

(4) Nothing in the Order shall limit and each manufacturer is specifically authorized to use, in addition to the quota set forth above, any amount of any materials required in the production of Metal Plastering Bases and/or Metal Plastering Accessories under specific contracts or orders placed by or for the account of, or to fulfill a contract with

(i) the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, and the Office of Scientific Research and Development;

(ii) the government of any of the following countries: the United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia, and Yugoslavia;

(iii) any agency of the United States Government for delivery to, or for the account of the government of any country listed above or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States". (Lend-Lease Act)

(c) *Avoidance of excessive inventories.* Manufacturers of Metal Plastering Bases and/or Metal Plastering Accessories shall not accumulate inventories of any materials (whether raw, semi-processed or processed) which enter into the production of Metal Plastering Bases or Metal Plastering Accessories in excess of the minimum amount necessary to maintain production of Metal Plastering Bases and/or Metal Plastering Accessories to the extent permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall execute and file with the War Production Board such other reports and questionnaires as said Board shall from time to time request.

(g) *Provisions for companies under common ownership.* For the purposes of this Order, a manufacturer's classification into Class "A" or Class "B" shall depend upon the total weight of metals incorporated into Metal Plastering Bases and/or Metal Plastering Accessories by that manufacturer, including all metals incorporated into Metal Plastering Bases and/or Metal Plastering Accessories by all subsidiaries, affiliates and other companies or enterprises under common ownership or control.

(h) *Violations or false statements.* Any person who violates this Order, or who wilfully falsifies any records, which he is required to keep by the terms of this Order, or by the Director of Industry Operations, or otherwise wilfully furnishes false information to the Director of Industry Operations or to the War Production Board, may be deprived of priorities assistance or may be prohibited by the Director of Industry Operations from obtaining any further deliveries of materials subject to allocation. The Director of Industry Operations may also take any other action deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(i) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Applicability of other orders.* Insofar as any other Order issued by the Director of Industry Operations, or to be issued by him hereafter, limits the use of any material to a greater extent than the limits imposed by this Order, the restrictions of such other Order shall govern, unless otherwise specified therein.

(l) *Routing of correspondence.* Reports to be filed and other communications concerning this Order shall be addressed to the War Production Board, Washington, D. C. Ref: L-59.

(m) *Effective date.* This Order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Industry Operations subject to such amendments or supplements thereto as may be issued from time to time by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.).

Issued this 25th day of March 1942.

PART 1143—RAZORS AND RAZOR BLADES

GENERAL LIMITATION ORDER L-72

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote national defense:

§ 1143.1 *General Limitation Order L-72*—(a) *Definitions.* For the purposes of this Order:

(1) "Safety razor" means any razor provided with a guard or guards for the blade to prevent cutting of the skin.

(2) "Straight razor" means any razor which is not a safety razor.

(3) "Razor blade" means any single-edged or double-edged steel blade intended for use in a safety razor.

(4) "Copper" means any copper or copper alloy or any unfinished parts containing any such Materials entering into the manufacture, fabrication or assembly of Safety Razors.

(5) "Base period" means the calendar year 1940.

(b) *General restrictions.* (1) During the period of ninety days beginning with the effective date of this Order:

(i) No manufacturer shall produce Safety Razors in an amount greater than three times 70% of the monthly average of units of such razors produced by him during the Base Period.

(ii) No manufacturer shall produce Razor Blades in an amount greater than three times 100% of the monthly average of units of Razor Blades produced by him during the Base Period.

(iii) No manufacturer shall produce Straight Razors in an amount greater than three times 100% of the monthly average of units of Straight Razors produced by him during the Base Period.

(2) During the period of sixty days beginning with the effective date of this Order, no manufacturer shall use in the production of Safety Razors any Copper in an amount exceeding two times 30% of his monthly average use of Copper during the Base Period.

(3) Beginning with the first day after the sixty-day period referred to in subparagraph (2), paragraph (a), no manufacturer shall use in the production of Safety Razors any Copper, except for plating. Such plating shall not exceed an average thickness of .0004 inches.

(c) *Dry shavers.* This Order shall not apply to dry shavers.

(d) *Avoidance of excessive inventories.* Manufacturers of Safety Razors, Straight Razors, or Razor Blades shall not accumulate inventories of raw materials, semi-processed materials or finished parts in quantities in excess of minimum practicable working inventories or 15% of the quantity used in production during the Base Period, whichever is lower, nor shall they accumulate inventories of assembled Safety Razors and Straight Razors and of completed Razor Blades in quantities in excess of minimum practicable working inventories or 15% of the quantity produced during the Base Period, whichever is lower.

(e) *Records.* All persons affected by this Order shall keep and preserve for not less than two years, accurate and complete records concerning inventories, production and sales.

(f) *Audit and inspection.* All records required to be kept by this Order, shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(h) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(i) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Applicability of other orders.* In so far as any other Order issued, or to be issued hereafter, limits the use of any material in the production of Safety Razors, Straight Razors and Razor Blades to a greater extent than the limits imposed by this Order, the restrictions in

such other Order shall govern unless otherwise specified therein.

(k) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(l) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L–72.

(m) *Effective date.* This Order shall take effect on the date of its issuance, and shall continue in effect until revoked. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

PART 1152—METAL WINDOWS

LIMITATION ORDER NO. L–77

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel, and other metals for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1152.1 *General Limitation Order L–77*—(a) *Definitions.* For the purposes of this Order:

(1) "Metal Window" means any metal sash, metal casement or other metal framework of any type produced for installation in an opening constructed in the side of a building primarily to admit light or air, and any component part of such a metal sash, metal casement or metal framework.

(2) "Manufacturer" means any Person who manufactures, fabricates or assembles a Metal Window.

(3) "Distributor" means any Person who receives physical delivery of a Metal Window from a manufacturer for sale or resale in the form received.

(b) *Restrictions.* (1) On and after the effective date of this Order, notwithstanding any contract or agreement to the contrary, no Person shall manufacture any Metal Window, except:

(i) Metal Windows manufactured pursuant to an order or contract which bears a preference rating better than A–2.

(ii) Metal Windows the manufacture of which had been begun prior to the effective date of this Order, pursuant to an order or contract already received.

(2) On and after the effective date of this Order, no Person shall take delivery of any material for manufacture into Metal Windows except deliveries pursuant to an order or contract placed by him which bears a preference rating assigned under the Production Requirements Plan.

(3) On and after the effective date of this Order no Manufacturer or Distributor shall sell, deliver, ship, transport or otherwise dispose of any Metal Window except pursuant to an order or contract which bears a preference rating of A–10 or better.

(c) *Avoidance of excessive inventories.* No Manufacturer shall accumulate an inventory of any material (whether raw, semi-processed or processed) which enters into the production of Metal Windows in excess of the minimum amount of such material necessary to maintain production of Metal Windows to the extent permitted by this Order.

(d) *Records.* All Persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each Manufacturer to whom this Order applies shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Violations or false statements.* Any Person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Industry Operations, or otherwise wilfully furnishes false information to the Director of Industry Operations or to the War Production Board may be deprived of priorities assistance or may be prohibited by the Director of Industry Operations from obtaining any further deliveries of materials subject to allocation. The Director of Industry Operations may also take any other action deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(h) *Appeals.* Any Person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem or unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board, setting forth the pertinent facts and the reasons why such Person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Applicability of other orders.* Insofar as any other Order issued by the Director of Industry Operations, or to be issued by him hereafter, limits the use of any material to a greater extent than the limits imposed by this Order, the restrictions of such Other Order shall govern, unless otherwise specified therein.

(k) *Routing of correspondence.* Reports to be filed and other communications concerning this Order shall be addressed to the War Production Board, Washington, D. C., Ref: L–77.

(l) *Effective date.* This Order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Industry Operations subject to such amendments or supplements thereto as may be issued from time to time by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Chapter XI—Office of Price Administration

PART 1306—IRON AND STEEL

ORDER NO. 1 UNDER REVISED PRICE SCHEDULE NO. 6 [1]—IRON AND STEEL PRODUCTS

On January 13, 1942, the Joslyn Manufacturing and Supply Company, Chicago, Illinois, filed an application for an exception to Price Schedule No. 6. This application has been considered as a petition under § 1306.7 of Revised Price Schedule No. 6, as revised by Amendment No. 2 thereto. Due consideration has been given to the petition, and an opinion in support of this Order No. 1 has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, it is hereby ordered:

§ 1306.31 *Order No. 1 under Revised Price Schedule No. 6.* (a) The Joslyn Manufacturing & Supply Company may sell and deliver, and agree, offer, solicit and attempt to sell and deliver, the kinds and grades of steel set forth in paragraph (b) of this section, at prices not in excess of those stated therein. Any person may buy and receive, and agree, offer, solicit and attempt to buy and receive, such kinds of steel at such prices from the Joslyn Manufacturing & Supply Company.

(b) (1) Hot rolled bars, 2.35 cwt., Base, Chicago; (2) Hot rolled strip, 2.30 cwt., Base, Chicago.

(c) This Order No. 1 may be revoked or amended by the Price Administrator at any time.

(d) The prices stated in this section may be applied to shipments of hot rolled bars and hot rolled strips made on and after January 1, 1942.

This Order No. 1 shall become effective March 25, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 24th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1306—IRON AND STEEL

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 6 [1]—IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Section 1306.7 is amended to read as follows:

§ 1306.7 *Petitions for amendment, adjustment or exception.* (a) Persons seeking any modification of this Revised Price Schedule No. 6 or an adjustment or exception not provided herein, may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

(b) Any person, who is prepared to show that (1) its cost of production of iron and steel products is above its mill net realization on such products at ceiling prices or (2) its mill net realization is inadequate in view of its high operating costs for continued operations at ceiling prices, may file a petition for an adjustment of the maximum prices established by Revised Price Schedule No. 6. In such cases the petitioner should submit, and the Office of Price Administration will consider, all relevant data, including the relation of the current, requested, and projected realization on the particular iron and steel products, or on the particular mill, to the total over-all return of the petitioner, and, the necessity, in terms of the war effort, for the granting of such adjustment or exception. The Office of Price Administration may require, in connection with any such petition, full data on costs, profits, and other relevant factors. Petitions for adjustment pursuant to this section shall be filed in the manner stated in §§ 1300.39 through 1300.41 of Procedural Regulation No. 1 issued by the Office of Price Administration.

(c) Any producer of iron and steel products may file a petition for an exception from the ceiling prices established by this Price Schedule for a sale or group of sales of iron and steel products which are necessitated by the war effort and involve shipment into areas not normally served by such producer or the absorption of abnormally high transportation costs resulting from the lack of customary means of transportation. In all such cases, the petitioner should submit, and the Office of Price Administration will consider data indicating the reasons for which the particular shipment is abnormal, and the relation of such shipments to the war effort. The petition must also state the absence of other provisions in Revised Price Schedule No. 6 which will afford relief to the petitioner. In considering such petitions, the Office of Price Administration may require data in the manner stated in paragraph (b) of this section. Relief granted may include, as well as such other provisions as may be appropriate, permission to sell iron or steel products on an f. o. b. mill basis. Petitions for exception pursuant to this section shall be filed in the manner stated in §§ 1300.39 through 1300.41 of Procedural Regulation No. 1 issued by the Office of Price Administration.

PART 1316—COTTON TEXTILES

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 89 [1]—BED LINENS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith: [2]

Sections 1316.104 and 1316.111 (d) (3) are amended to read as follows and new paragraph (e) is added to § 1316.109, new paragraph (b) is added to § 1316.110a, and new subparagraph (7) is added to § 1316.111 (d) as set forth below:

§ 1316.104 *Records and reports.* (a) Every person making a purchase or a sale of bed linens after February 2, 1942, shall, if such transaction is subject to the provisions of this Revised Price Schedule No. 89, keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of: (1) each such purchase or sale, showing the date thereof, the name and address of the buyer or the seller, the price paid or received, and the quantity in yards or dozens of pieces of each type of bed linens purchased or sold; and (2) in the case of manufacturers, the quantity in yards or dozens of pieces of each type of bed linens manufactured during each calendar month.

(b) On or before April 25th, 1942, every person making a sale of print-cloth bed linens shall, if such transaction is subject to the provisions of this Revised Price Schedule No. 89, report to the Office of Price Administration the differential described in and determined pursuant to § 1316.111 (d) (7) (ii) hereof.

(c) No bed linens (except print-cloth bed linens) shall be sold on or after March 2, 1942 in any transaction subject to the provision of this Revised Price Schedule No. 89 unless each piece bears a label containing:

(1) a statement of its type and size;
(2) if the piece is a second, the term "second"; and
(3) if the piece does not meet the minimum specifications set forth in Table I, the term "substandard."

(d) No print-cloth bed linens shall be sold on or after April 25th, 1942 in any transaction subject to the provisions of this Revised Price Schedule No. 89 unless each sheet or pillow case bears a label containing:

(1) the words "print cloth type";
(2) a statement of its torn or cut size;
(3) a statement of its grey construction, its grey width, and its grey weight in yards per pound; and
(4) if the piece is a second, the term "second."

(e) Persons affected by this Revised Price Schedule No. 89 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

* * * * * * *

§ 1316.109 *Definitions.*

* * * * * * *

(e) "Print-cloth bed linens" means finished sheets and finished pillow cases manufactured from print cloth under 42 inches in width, made from yarns averaging 33s or lighter and having a total thread count of 160 or less per square inch.

[Docket No. 3089-1-E]

PART 1316—COTTON TEXTILES

ORDER NO. 1 UNDER REVISED SCHEDULE NO. 89[1]—BED LINENS

On February 19, 1942, Deering Milliken Company, Incorporated 240 Church Street, New York, New York, filed a petition for an exception pursuant to § 1316.111 (d) (5) of Revised Price Schedule No. 89. Due consideration has been given to the petition, and an opinion in support of this Order No. 1 has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, it is hereby ordered:

§ 1316.152 *Granting exception to Deering Milliken Company, Incorporated.* (a) Deering Milliken & Company, Incorporated may sell and deliver, and agree, offer, solicit and attempt to sell and deliver, the kinds and grades of bed linens set forth in paragraph (b) of this section, at prices not in excess of those stated therein. Any person may buy and receve, and agree, offer, solicit and attempt to buy and receive, such kinds and grades of bed linens at such prices from Deering Milliken & Company, Incorporated.

(b) Sylvan Permanent Finish sheets and pillow cases and Domain Permanent Finish sheets, which are finished by the process described in the petition as "The Ceglin process," may be sold, delivered or offered for sale at a premium in excess of the applicable maximum prices established by Revised Price Schedule No. 89. Said premium shall not exceed an amount equal to 2½ per cent of the applicable base prices set forth in Table II of § 1316.111 (c) of said Revised Price Schedule No. 89.

(c) All prayers of the petition not granted herein are denied.

(d) This Order No. 1 may be revoked or amended by the Price Administrator at any time.

(e) Unless the context otherwise requires, the definitions set forth in § 1316.109 of Revised Price Schedule No. 89 shall apply to the terms used herein. (Pub. Law 421, 77th Cong. 2d Sess.)

This Order No. 1 shall become effective March 24, 1942. Issued this 23d day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1330—CONTAINERS

MAXIMUM PRICE REGULATION NO. 55—SECOND HAND BAGS

The title, preamble and §§ 1330.51 to 1330.60, inclusive, of Revised Price Schedule No. 55[1] are amended and renumbered, and are issued as Maximum Price Regulation No. 55—Second Hand Bags.

On December 16, 1941, because, in the judgment of the Administrator of the Office of Price Administration, the prices of second hand bags had risen and were further threatening to rise without justification, Price Schedule No. 55 was issued establishing maximum prices for each seller of second hand bags based upon his highest prices received on sales or deliveries during the period November 15 to December 6, 1941. It was stated in the preamble thereto that a revised schedule of maximum prices was contemplated after completion of studies by the Office of Price Administration. On February 2, 1942, Price Schedule No. 55 was amended changing the base period by which a seller was to determine his maximum prices to October 1 to October 15, 1941. Maximum Price Regulation No. 55 establishes specific maximum prices for second hand bags.

In establishing specific maximum prices the Price Administrator has ascertained and given due consideration to the prices of second hand bags prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of the Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.[2]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[3] issued by the Office of Price Administration, Maximum Price Regulation No. 55, amending Revised Price Schedule No. 55, is hereby issued.

AUTHORITY: §§ 1330.51 to 1330.61, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1330.51 *Maximum prices for second hand bags.* On and after March 30, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver second hand bags, and no person shall, in the course of trade or business, buy or receive second hand bags at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1330.61; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That contracts entered into prior to March 30, 1942, under the terms of and at prices in compliance with Revised Price Schedule No. 55 (§§ 1330.51 to 1330.60, inclusive) may be carried out at the contract price.

§ 1330.52 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1330.61) may be charged, demanded, paid, or offered.

§ 1330.53 *Conditional agreements.* No seller of second hand bags shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by Appendix A (§ 1330.61) in the event that this Maximum Price Regulation No. 55 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Price Administrator determines that an exception would be in the public interest pending such consideration, the Price Administrator may grant an exception from the provisions of this section permitting making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1330.54 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 55 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to second-hand bags, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1330.55 *Records and reports.* (a) Every person making sales of second hand bags and every person making purchases of second hand bags in the course of trade or business after March 30, 1942, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records (1) of each such sale or purchase in aggregate lots of 100 bags or more, showing the date thereof, the name and address of the seller or buyer, the price contracted for, received or paid, and the quantity of each type, size, weight and grade of second hand bags sold or purchased; (2) the quantity of each type, size and weight of second hand bags (i) on hand and (ii) on order, as of the close of each calendar month.

(b) Such persons shall submit such reports to the Office of Price Administration, and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may from time to time require or permit.

§ 1330.56 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 55 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 55 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1330.57 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 55 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1330.58 *Definitions.* (a) When used in this Maximum Price Regulation No. 55, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Second hand bag" shall include:

(i) A container composed of burlap, jute, sisal, istle, cotton cloth, gunny cloth, or other textile material, which has been used once or more to package any product and thereafter emptied and which is sold, offered for sale, purchased or leased for reuse as a container;

(ii) A used container composed of any of the above textile materials which material is of sound condition but which has been cut or torn to an extent that it cannot feasibly be mended or patched for reuse as a container, commonly referred to by the trade as an "unmendable" bag; and

(iii) A container manufactured from any of the above textile materials which material has itself been used once or more as a container or for any other commercial purpose; but shall not include

(iv) A used container composed of any of the above textile materials which material has deteriorated to an extent that the material is no longer sufficiently sound for reuse as a container, commonly referred to by the trade as "junk" or "waste" material.

(3) "Unprocessed" or "in order" bag means a second hand bag of sound material which, since its last use as a container, has been cleaned, patched or mended if necessary, and subjected to any other process of reconditioning necessary to render it fit for immediate reuse as a container.

(4) "Unprocessed" or "as rise" bag means a second hand bag of sound material which, since its last use as a container, has not been subjected to reconditioning, rendering it fit for immediate reuse as a container. It shall include a second hand bag which is of sound material but which is cut or torn to an extent that it cannot feasibly be mended or patched for reuse as a container, commonly referred to by the trade as an "unmendable" bag.

(5) "In line with" means having a justifiable price relationship to the prices set forth in Appendix A (§ 1330.61) with commensurate increases or decreases to take into account differences in type, size, and weight of the second hand bags involved.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1330.59 *Effective dates of Price Schedule No. 55 and amendments thereto.* (a) Price Schedule No. 55 (§§ 1330.51 to 1330.60, inclusive), shall become effective December 16, 1941.

(b) Amendment No. 1 (§§ 1330.51, 1330.54 and 1330.59) to Price Schedule No. 55 (§§ 1330.51 to 1330.60, inclusive) shall become effective February 3, 1942.

(c) Amendment No. 2 (§ 1330.59) to Price Schedule No. 55 (§§ 1330.51 to 1330.60, inclusive) shall become effective February 7, 1942.

§ 1330.60 *Effective date of Maximum Price Regulation No. 55.* Maximum Price Regulation No. 55 (§§ 1330.51 to 1330.61, inclusive), amending Revised Price Schedule No. 55 (§§ 1330.51 to 1330.60, inclusive) shall become effective March 30, 1942.

[1] The maximum price for second hand "unmendable" Cuban raw sugar bags shall be $0.17 each f. o. b. shipping point.

[2] The maximum price for second hand "unmendable" Puerto Rican raw sugar bags shall be $0.15 each f. o. b. shipping point.

(d) *Maximum prices for types, sizes and weights of second hand bags not specifically enumerated.* The maximum price for any type, size or weight of second hand bags not enumerated in paragraphs (a) (b), or (c) above, shall be a price in line with the maximum price enumerated therein for the nearest related type, size, and weight of second hand bag.

(e) *Resales of second hand processed or in order bags.* Any person who purchases processed or in order bags for resale may, on such resale, add to the maximum price determined in accordance with this Maximum Price Regulation No. 55, the actual freight incurred in bringing the processed or in order bags to his plant, and in addition may charge a premium not to exceed 5% of the maximum price determined in accordance with this Maximum Price Regulation No. 55: *Provided*, That:

(1) The re-sale is made to a consumer of second hand bags for use by such consumer in packaging a commodity;

(2) On re-sales of a quantity of second hand bags in excess of 1,000, the premium may be charged only on 1,000 bags;

(3) Such premium is not divided with any other person; and

(4) An invoice showing the amount of such charges is delivered to the purchaser.

(f) *Export sales.* Any person making an export sale of second hand bags may charge an amount in addition to the maximum price determined in accordance with this Maximum Price Regulation No. 55 which can be justified as commensurate with the additional cost of the particular export sale over and above the cost of a comparable domestic sale.

(g) *Deposit charges and liquidated damages in lease or loan arrangements.* The maximum amount which may be required by or paid to any person as a deposit on, or as predetermined liquidated damages for failure to return, a second hand bag leased or loaned by him as a part of a transaction involving the sale or delivery of a product packaged therein, shall be the maximum price for second hand unprocessed or as rise bags of the same type, size and weight determined in accordance with this Maximum Price Regulation No. 55.

(h) *Second hand bags sold in mixed lots.* When second hand bags are sold in lots containing more than one type, size, or weight of bags, for which different maximum prices are established by this Maximum Price Regulation No. 55, unless the quantity of each such type or grade is determined by actual inspection and each such quantity is separately priced at not exceeding the applicable maximum, the maximum price for the lot shall be the maximum price for that type, size or weight of second hand bag included in the lot which has the lowest established maximum price.

PART 1336—RADIO, X-RAY, AND COMMUNICATION APPARATUS

TEMPORARY MAXIMUM PRICE REGULATION NO. 14—RESALE OF NEW RADIO RECEIVING SETS AND PHONOGRAPHS — DISTRIBUTORS AND RETAILERS

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for new radio receiving sets and phonographs the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 14 is hereby issued.

AUTHORITY: §§ 1336.151 to 1336.161, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1336.151 *Maximum prices for radio receiving sets and phonographs.* On and after March 30, 1942, to and including May 28, 1942, regardless of any contract, agreement, lease, or other obligation, no distributor or retailer shall sell, offer to sell, or deliver any new radio receiving set or phonograph at a price higher than the maximum price. The provisions of this section shall not apply to sales or deliveries of radio receiving sets or phonographs to a purchaser if, prior to March 30, 1942, such radio receiving sets or phonographs have been received by a carrier other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(a) *Current models.* The maximum price for any current model of radio receiving set or phonograph shall be the highest net price for which such model was sold or contracted to be sold by the same seller on the 19th day of March 1942, to a purchaser of the same general class. If there was no such sale, the maximum price shall be the highest net price for which such model was sold or contracted to be sold by the same seller on the most recent date prior to March 19, 1942, to a purchaser of the same general class.

(b) *New models.* The maximum price for any new model shall be a price equal to the cost of such model to the seller, plus the maximum percentage of markup applied by such seller on March 19, 1942, to the most nearly comparable model then offered for sale by him to a purchaser of the same general class.

§ 1336.152 *Less than maximum prices.* Lower prices than those set forth in Temporary Maximum Price Regulation No. 14 may be charged, demanded, paid, or offered.

§ 1336.153 *Conditional agreements.* No distributor or dealer in radio receiving sets and phonographs shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided in § 1336.151, in the event that Temporary Maximum Price Regulation No. 14 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That, if a petition for amendment under § 1336.156 has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1336.154 *Evasion.* The price limitations set forth in Temporary Maximum Price Regulation No. 14 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to radio receiving sets and phonographs, alone or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge, or by alteration of any discount, premium, allowance or privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1336.155 *Records and reports.* (a) Every distributor and retailer making sales of radio receiving sets and phonographs between March 30, 1942, and May 28, 1942, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the prices received, the type and the quantity of radio receiving sets and phonographs sold.

(b) Persons affected by Temporary Maximum Price Regulation No. 14 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1336.156 *Notices to be posted.* Every retailer shall post in a conspicuous place on the premises where radio receiving sets and phonographs are offered for sale a legible notice setting forth the name and model number and maximum price under Temporary Maximum Price Regulation No. 14 of every model of radio receiving set or phonograph offered for sale on such premises.

§ 1336.157 *Enforcement.* (a) Persons violating any provision of Tempo-

[1] 7 F.R. 971.

rary Maximum Price Regulation No. 14 are subject to the criminal penalties and civil enforcement actions provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of Temporary Maximum Price Regulation No. 14 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1336.158 *Petitions for amendment.* Persons seeking modification of any provision of Temporary Maximum Price Regulation No. 14 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1336.159 *Replacement by regulation.* Temporary Maximum Price Regulation No. 14 may be replaced by a permanent maximum price regulation or order issued under the Emergency Price Control Act of 1942, which upon issuance shall have the effect of revoking Temporary Maximum Price Regulation No. 14.

§ 1336.160 *Definitions.* (a) When used in Temporary Maximum Price Regulation No. 14, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing;

(2) "Manufacturer" means any person regularly engaged in the manufacture or assembly, and sale, of radio receiving sets or phonographs;

(3) "Distributor" means a wholesaler, jobber, or any person, other than a manufacturer, who sells radio receiving sets and phonographs in the regular course of trade to purchasers other than ultimate consumers;

(4) "Retailer" means any person other than a manufacturer, distributor, wholesaler, or jobber, who sells radio receiving sets and phonographs;

(5) "Radio receiving set" means any of the following, alone or in combination with a record-playing device: home receiving sets, portable receiving sets, automobile receiving sets, television receiving sets, facsimile receiving sets;

(6) "Phonograph" means any device for the playing of records by the use of electrical amplification;

(7) "Model" means any radio receiving set or phonograph sold as a distinct item;

(8) "Current model" means a model first offered for sale on or before March 19, 1942;

(9) "New model" means a model first offered for sale after March 19, 1942.

(b) The definitions set forth in subparagraphs (5) and (6) of paragraph (a) of this section shall not include any equipment primarily designed for commercial, police, military or naval use or for use in aircraft or merchant marine.

§ 1336.161 *Effective period.* Temporary Maximum Price Regulation No. 14 shall become effective on March 30, 1942, and shall expire at midnight on May 28, 1942, unless earlier revoked.

Issued this 23d day of March, 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1356—DOMESTIC AND COMMERCIAL COOKING AND HEATING STOVES AND RANGES

TEMPORARY MAXIMUM PRICE REGULATION NO. 13—RESALE OF NEW DOMESTIC COOKING AND HEATING STOVES AND RANGES

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for the resale of new domestic cooking and heating stoves and ranges the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 13 is hereby issued.

AUTHORITY: §§ 1356.21 to 1356.31, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1356.21 *Maximum resale prices for stoves.* (a) On and after March 30, 1942, to and including May 28, 1942, regardless of any contract, agreement, lease, or other obligation, no distributor or dealer shall sell, offer to sell or deliver any stove at a price higher than the maximum price. The provisions of this section shall not apply to sales or deliveries of stoves to a purchaser, if prior to March 30, 1942 such stoves have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

[1] 7 F.R. 971.

(b) The maximum price for any model of new stove shall be the highest net price for which such model was sold, or contracted to be sold, by the same seller on March 19, 1942, to a purchaser of the same general class. If there was no such sale, the maximum price shall be the highest net price at which such model was sold, or contracted to be sold, by the same seller on the most recent date prior to March 19, 1942, to a purchaser of the same general class.

§ 1356.22 *Less than maximum prices.* Lower prices than those set forth in Temporary Maximum Price Regulation No. 13 may be charged, demanded, paid, or offered.

§ 1356.23 *Conditional agreements.* No distributor or dealer in stoves shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided in § 1356.21, in the event that Temporary Maximum Price Regulation No. 13 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That, if a petition for amendment under § 1356.28 has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1356.24 *Evasion.* The price limitations set forth in Temporary Maximum Price Regulation No. 13 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale or delivery of or relating to stoves, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or by alteration of any discount, premium, allowance or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1356.25 *Records and reports.* (a) Every distributor or dealer making sales of stoves in the regular course of trade or business, between March 30 and May 28, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each sale, showing the date thereof, the name and address of the buyer, the prices received, the make, model, and quantity of stoves sold.

(b) Persons affected by Temporary Maximum Price Regulation No. 13 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1356.26 *Notices to be posted.* Every dealer shall post in a conspicuous place on the premises where stoves are offered for sale a legible notice setting forth the make, model number and maximum price under Temporary Maximum Price Regulation No. 13 of every model of stove offered for sale on such premises.

§ 1356.27 *Enforcement.* (a) Persons violating any provision of Temporary Maximum Price Regulation No. 13 are subject to the criminal penalties and civil enforcement actions provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of Temporary Maximum Price Regulation No. 13 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1356.28 *Petitions for amendment.* Persons seeking modification of any provision of Temporary Maximum Price Regulation No. 13 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1356.29 *Replacement by regulation.* Temporary Maximum Price Regulation No. 13 may be replaced by a permanent maximum price regulation or order issued under the Emergency Price Control Act of 1942, which upon issuance shall have the effect of revoking Temporary Maximum Price Regulation No. 13.

§ 1356.30 *Definitions.* When used in Temporary Maximum Price Regulation No. 13, the term:

(a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(b) "Stoves" mean stoves of the type commonly used in the household, camps, or trailers, for cooking or heating purposes (irrespective of the fuel or power used) except (1) those intended to be built into or permanently attached to the premises, and (2) electric stoves under 2½ kw.;

(c) "Distributor" means a person, other than a manufacturer, who sells stoves in the regular course of trade to dealers;

(d) "Dealer" means a person, other than a manufacturer, who sells stoves in the regular course of trade to consumers;

(e) "Consumer" means a person purchasing for use rather than resale;

(f) "Model" means any stove offered for sale as a distinct item.

§ 1356.31 *Effective date.* Temporary Maximum Price Regulation No. 13 (§§ 1356.21 to 1356.31 inclusive) shall become effective on March 30, 1942, and shall, unless earlier revoked or replaced, expire at 12 o'clock midnight May 28, 1942.

Issued this 23d day of March 1942.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

AMENDMENT NO. 4 TO RATIONING ORDER NO. 2A[1]—NEW PASSENGER AUTOMOBILE RATIONING REGULATIONS

Section 1360.310 (h) is hereby amended, a new paragraph (j) is added to § 1360.310, a new paragraph (d) to § 1360.442, and five new sections, §§ 1360.336, 1360.337, 1360.338, 1360.339, and 1360.340, are added as set forth below:

Definitions

§ 1360.310 *Definitions.*

* * * * *

(h) "Pool car" means (1) any new passenger automobile which was not shipped by a manufacturer prior to January 16, 1942, to a person other than a person owned or controlled by the manufacturer, and (2) any new passenger automobile substituted for a "pool car" by authorization of the Office of Price Administration pursuant to the provisions of § 1360.337 hereof.

* * * * *

(j) "Pool sticker" means any label or other identification in a form authorized or prescribed by the Office of Price Administration affixed to a new passenger automobile for the purpose of identifying it as a pool car.

Restriction of Transfers

* * * * *

§ 1360.336 *Removal of certain automobiles from the pool.* Subject to the provisions of § 1360.337, the Office of Price Administration may, in its discretion, from time to time, issue authorizations to remove from the pool certain new passenger automobiles which fall under one or more of the following classifications:

(a) Automobiles which were ordered, or for which bids were requested in writing on or before January 1, 1942 by agencies of the Federal, State, Local or foreign governments or by the American Red Cross.

(b) Automobiles specially built, painted or equipped, on or before March 2, 1942 pursuant to orders of specific buyers.

[1] 7 F.R. 1542, 1647, 1756, 2108.

(c) Automobiles having a list price in excess of $2,000.00 pursuant to § 1360.61 of Revised Price Schedule No. 85, issued by the Office of Price Administration or any amendments thereto.

(d) Automobiles manufactured prior to March 2, 1942 for experimental purposes.

(e) Automobiles as to which a certificate on Form R–202 has been issued pursuant to paragraphs (a) or (b) of § 1360.102 of Rationing Order No. 2.

(f) Automobiles which, on or prior to January 16, 1942, were in the possession of, or in transit to, a branch or subdivision of a manufacturer: *Provided that:*

(1) Such branch or subdivision was engaged principally in the sale of automobiles at retail, or

(2) Such automobiles were, on or before such date, consigned, invoiced, billed, or otherwise identified for delivery to a person not owned or controlled by the manufacturer.

Provided, That as a condition of authorizing any removal, the Office of Price Administration may require substitution of a new passenger automobile for each automobile removed.

§ 1360.337 *Application for authorization to remove from the pool; authorization; substitution.* Any dealer, distributor, manufacturer or finance company owning an automobile falling within any of the classifications set forth in § 1360.336 may make application to the Office of Price Administration for authorization to remove such automobile from the pool and to remove the pool sticker, if any, therefrom. Application shall be made in writing, over the signature of the owner or his duly authorized agent, giving the make, body type, serial number and engine number of the automobile and the facts by reason of which the applicant believes the automobile to be eligible for removal from the pool. The applicant shall also set forth a complete description of each non-pool, new passenger automobile, if any, which the applicant is willing to place in the pool in substitution for each automobile sought to be removed. In any application the applicant may request removal of one or more automobiles.

If the Office of Price Administration finds that an automobile described in any such application is eligible for removal pursuant to the provisions of § 1360.336, and that its removal will not be detrimental to the purposes for which the pool was established, nor to the objectives of the rationing program, it may in its discretion issue an authorization permitting the owner or his authorized agent to remove such automobile from the pool and to remove the pool sticker therefrom. Upon removal of a pool sticker pursuant to any such authorization such automobile shall cease to be a pool car: *Provided*, That where an authorization of removal is conditioned upon the substitution of another automobile, such authorization shall not become effective until a pool sticker has been affixed to the automobile required to be substituted and upon such affixation the substituted automobile shall become a pool car.

§ 1360.338 *Inclusion of additional automobiles as "pool cars".—"pool stickers" to be affixed.* The Office of Price Administration may, from time to time, upon recommendation of the War Production Board, amend the definition of "Pool Car" to include additional classes of automobiles. On and after the effective date of any such amendment all such classes of automobiles shall be subject to the restrictions herein imposed upon "pool cars". Within 10 days after the effective date of any such amendment, the owner of any automobile therein defined as a "pool car" shall affix to each such automobile a "pool sticker".

§ 1360.339 *Application for authority to remove pool stickers erroneously placed on automobiles.* The owner of any automobile to which a pool sticker has been affixed, and who claims that such pool sticker was affixed by error and that such automobile is not a "pool car" as defined in § 1360.310 (h), may make application to the Office of Price Administration for authority to remove the pool sticker therefrom. Applications shall be made in writing, over the signature of the owner or his duly authorized agent, giving the make, body type, serial number, and engine number of the automobile and the facts by reason of which it is claimed that said automobile is not a "pool car". In any such application the applicant may request authority to remove stickers from one or more automobiles. In the Office of Price Administration finds that any such automobile is not a "pool car" as defined in § 1360.310 (h), it shall issue an authorization permitting the owner or his duly authorized agent to remove the pool sticker or stickers therefrom. No person shall remove any pool sticker from any new passenger automobile unless the removal thereof is authorized by the Office of Price Administration.

§ 1360.340 *Authorizations of removal do not permit transfers.* No authorization of removal from the pool and no authorization for the removal of a pool sticker pursuant to §§ 1360.337 or 1360.339 hereof shall constitute authority for the transfer of any new passenger automobile.

AMENDMENT NO. 2 TO TEMPORARY MAXIMUM PRICE REGULATION NO. 8 [1]—DRESSED HOGS AND WHOLESALE PORK CUTS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Paragraph (a) of § 1364.1 is amended as set forth below:

§ 1364.1 *Maximum prices for dressed hogs and wholesale pork cuts.* (a) From March 23, 1942 to May 21, 1942, inclusive, regardless of any contract, agreement, or other obligation, no person shall sell or deliver, or offer, solicit, attempt, or agree to sell or deliver dressed hogs or wholesale pork cuts at prices higher than the maximum prices therefor. The provisions of this Section shall not be applicable to sales or deliveries of dressed hogs or wholesale pork cuts to a purchaser if, prior to March 23, 1942, such dressed hogs or wholesale pork cuts have been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchasers; nor to sales or deliveries of dressed hogs or wholesale pork cuts for export under unrevoked export licenses issued prior to March 7, 1942, where the contracts to sell were made not later than three days after March 7.

PART 1364—FRESH, SMOKED AND CANNED MEAT PRODUCTS

AMENDMENT NO. 3 TO TEMPORARY MAXIMUM PRICE REGULATION NO. 8 [1]—DRESSED HOGS AND WHOLESALE PORK CUTS

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.[2]

Paragraphs (b) and (c) of § 1364.1 are amended, as set forth below:

§ 1364.1 *Maximum prices for dressed hogs and wholesale pork cuts*

* * * * *

(b) Except as provided in paragraph (c) of this section, the maximum price for each dressed hog or wholesale pork cut shall be the highest price at which such dressed hog or wholesale pork cut was listed in the price list or lists upon which the seller based his price quotations at the delivery point during the period March 3, 1942, to March 7, 1942, inclusive: *Provided* (1) That where the seller, because of unusual transportation, packaging and handling costs, customarily sold to certain buyers during the ninety day perior prior to March 9, 1942 at prices higher than the list prices, he may continue to include such unusual costs as are actually incurred in the sales to those buyers; and (2) That the seller must continue to allow all the shading privileges or discounts from his price list or lists which were customary during the ninety day period prior to March 9, 1942 and which were based on cost differentials arising from low transportation or packaging costs or any other saving in the cost of handling; except that the provisions of this Proviso No. 2 of paragraph (b) shall not apply to any sales of dressed hogs or wholesale pork cuts to the Federal Surplus Commodities Corporation or to any purchasing agency of the armed forces of the United States.

(c) (1) Where the seller customarily sold dressed hogs or wholesale pork cuts to certain buyers during the ninety day period prior to March 9, 1942 at prices based upon market quotations rather than upon his price list or lists, the maximum prices to such buyers shall be the highest prices at which such dressed hogs or wholesale pork cuts were listed in such market quotations during the period March 3, 1942, to March 7, 1942, inclusive, making adjustment for the transportation differentials which were in effect during the ninety day period: *Provided*, That in any sale to the Federal Surplus Commodities Corporation or to any purchasing agency of the armed forces of the United States the seller may add, to the maximum prices established by this paragraph, an amount not in excess of 2¢ per pound.

(2) In any sale of canned or packaged spiced ham or of canned or packaged spiced luncheon meat made entirely from pork to the Federal Surplus Commodities Corporation or to any purchasing agency of the armed forces of the United States, the maximum price shall be as follows:

[Per cwt.]

	12 ounce can	2½ pound can	6 pound can
Canned or packaged spiced luncheon meat made entirely from pork	$42.50	$39.75	$38.50
Canned or packaged spiced ham	44.00	41.25	40.00

* * * * *

§ 1364.13 *Effective dates of amendments.* Amendment No. 3 (§ 1364.1 (b) and (c)) to Temporary Maximum Price Regulation No. 8 shall become effective March 25, 1942. Until such date, Temporary Maximum Price Regulation No. 8 continues in effect as if not amended by Amendment No. 3.

PART 1370—ELECTRICAL APPLIANCES

MAXIMUM PRICE REGULATION NO. 111—NEW HOUSEHOLD VACUUM CLEANERS AND ATTACHMENTS

In the judgment of the Price Administrator the prices of household vacuum cleaners and attachments are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of new household vacuum cleaners prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.[1]

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, Maximum Price Regulation No. 111 is hereby issued.

AUTHORITY: §§ 1370.1 to 1370.13, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1370.1 *Maximum prices for household vacuum cleaners and attachments.* On and after March 30, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver any model of household vacuum cleaner and the attachments thereto at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1370.12; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of household vacuum cleaners and attachments to a purchaser if, prior to March 30, 1942, such household vacuum cleaners and attachments had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1370.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1370.12) may be charged, demanded, paid, or offered.

§ 1370.3 *Conditional agreements.* No seller of household vacuum cleaners and attachments shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Maximum Price Regulation No. 111 is amended or is determined by a court to be invalid or upon

any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this Section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition.

§ 1370.4 *New Models.* No manufacturer may sell or deliver any model of household vacuum cleaner or attachment other than one offered for sale by him in the period October 1, 1941, to March 30, 1942, inclusive, except as provided in paragraphs (a) and (b) of this section, and no manufacturer shall offer, solicit, attempt, or agree to sell or deliver such model.

(a) *Nonsubstantial changes.* Any model which differs from one offered for sale by the manufacturer in the period October 1, 1941, to March 30, 1942, inclusive, only by reason of the following nonsubstantial changes may be sold or delivered at a price no higher than the maximum prices established by § 1370.12 (d) (1):

(1) Changes in color, trim, or hardware

(2) Changes in, but not elimination of, any part, including the following: the light, the off-and-on switch, the adjustment devices, the bristle brush, the bearings on the revolving brush, the bumper, and the caster wheels:

Provided, That, such changes shall not substantially alter the power plant, housing, nozzle, dirt container or bag, the connecting cord, the bearings on the motor, and the cleaning attachments.

Each such model shall be reported to the Office of Price Administration in accordance with § 1370.7 (b) (1).

(b) *Substantial changes.* Any model which differs from those offered for sale by the manufacturer in the period October 1, 1941, to March 30, 1942 by reason of any other change (i. e., a substantial change) may be sold or delivered only after a maximum price for such model has been approved in writing by the Office of Price Administration on the basis of a report to it in accordance with § 1370.7 (b) (2).

§ 1370.5 *Evasion.* (a) The limitations set forth in this Maximum Price Regulation No. 111 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to household vacuum cleaners or attachments alone, or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, trade-in or exchange allowances, quantity purchase discounts or allowances for or absorption of transportation costs, below those in effect on October 15, 1941;

(2) Increasing charges for deferred payment, or for any other form of installment, or time payment or credit accounts, above those in effect on October 15, 1941;

(3) Failing to give or shortening the warranty or failing to give delivery and other services available or in effect to the same general class of purchaser in exchange for the prices prevailing on October 1–October 15, 1941, corresponding to the maximum prices established by Appendix A (§ 1370.12).

(4) Increasing the prices for extra attachments above those in effect to the same general class of purchaser on October 15, 1941;

(5) Failing to include the attachments included in the period October 1 to October 15, 1941, for the prices corresponding to the maximum prices established by Appendix A. (§ 1370.12).

§ 1370.6 *Records.* Every person making sales of household vacuum cleaners and attachments after March 30, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the model number or other designation of each model sold, the price received for each, the quantity sold and any discounts, allowances, or charges.

§ 1370.7 *Reports*—(a) *Models offered for sale October 1, 1941, to March 30, 1942, inclusive*—(1) *Manufacturers.* On or before April 20, 1942, every manufacturer shall submit to the Office of Price Administration a report on all models offered for sale by him in the period October 1, 1941, to March 30, 1942, giving the maximum prices established for each model by Appendix A (§ 1370.12) and the retail list price, if one exists, a description of each model, the terms of sale, and an indication of any models which may have been discontinued in such period. Manufacturers who have already submitted all or any part of this information need not duplicate such material, but shall send a reference to the material already submitted.

(2) *Distributors and dealers.* On or before April 20, 1942, every distributor and every dealer shall submit to the Office of Price Administration a report on all models currently offered for sale to consumers by him which do not appear in the list prices set forth in Appendix A (Section 1370.12), giving the maximum price established for each model for such sales by Appendix A, a description of each model, and the terms of sale.

(b) *New models*—(1) *Non-substantial changes.* On the date of offering for sale a model embodying any of the non-substantial changes set forth in § 1370.4 (a) (2) from a model offered for sale in the period October 1, 1941 to March 30, 1942, inclusive, the manufacturer shall submit to the Office of Price Administration a report on such model, indicating in detail the changes which it contains.

(2) *Substantial changes.* A manufacturer who wishes to offer for sale a model embodying any substantial change from a model offered for sale by him in the period October 1, 1941 to March 30, 1942, inclusive, shall submit to the Office of Price Administration a report on such model giving in detail the changes which it contains, the proposed maximum price, a description, and the terms of sale.

(c) *Monthly output of household vacuum cleaners and attachments.* On or before April 20, 1942, and on or before the fifteenth day of each month thereafter, every manufacturer shall report to the Office of Price Administration the total number of completed units of each model household vacuum cleaner and attachments produced by him in the preceding month. Such report shall refer to the model number or other appropriate designation of each such household vacuum cleaner and attachment. If a report containing such information is required to be submitted to any other Federal agency, a copy thereof may be filed with the Office of Price Administration instead of a separate report.

Persons affected by this Maximum Price Regulation No. 111 shall submit to the Office of Price Administration such other reports as it may, from time to time, require.

§ 1370.8 *Labels showing maximum prices.* Every person offering a model of household vacuum cleaner (or attachment) for sale to consumers shall attach to it a label setting forth legibly the following:

The maximum cash price for this household vacuum cleaner (or attachment) as established by the Office of Price Administration is $_____. Lower prices may legally be charged or demanded.

§ 1370.9 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 111 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 111 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1370.10 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 111 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1370.11 *Definitions.* (a) When used in this Maximum Price Regulation No. 111, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(2) "Manufacturer" means any person who operates a plant or factory which manufactures or assembles household vacuum cleaners, or vacuum cleaner attachments;

(3) "Distributor" means any person other than a manufacturer or a manufacturer's sales agent regularly engaged in the business of selling household vacuum cleaners or attachments to dealers;

(4) "Dealer" means any person other than a manufacturer or distributor regularly engaged in the business of selling household vacuum cleaners or attachments to consumers;

(5) "Consumer" means a person purchasing for use rather than resale;

(6) "Household vacuum cleaner" means a new vacuum cleaner of the type commonly used in the home;

(7) "Model" means any combination of specifications and equipment;

(8) "Net price" means the actual cash price to be received by the seller, exclusive of excise tax or sales taxes, inclusive or exclusive of transportation charges, whichever the price list or other regular quotation specifies, and exclusive of any charges for sales promotion or cooperative advertising;

(9) "Private-brand" means a vacuum cleaner not offered for sale as the manufacturer's regular brand, but manufactured for a particular person or persons, whether or not such person's name or brand name appears thereon;

(10) "Export agent" means any exporter who performs the duties of an agent directly to and for a foreign purchaser in a sale between any seller in the United States and such foreign purchaser, and who does not (i) take title to the goods being exported, nor (ii) assume a risk of loss because of demurrage, failure to secure shipping space, credits or otherwise;

(11) "Export commission house" means any exporter who acts as a principal, and (i) buys for his own account only upon his foreign customers' direct orders, at a fixed price or at a previously agreed upon commission, (ii) takes title to the goods directly or through an agent, and (iii) assumes all risk of loss or expense until the title of goods passes to his foreign buyers according to named terms of sales.

(12) "Export merchant" means any exporter who acts as a principal, and (i) buys for his own account in anticipation of foreign orders in general, (ii) takes title to the goods, and (iii) sells them direct, or through customary trade channels, to any or all buyers in the foreign country, and (iv) assumes all risks of loss or expense until title to the goods passes to a foreign buyer according to terms of sales.

§ 1370.12 *Appendix A: Maximum prices for household vacuum cleaners and attachments*—(a) *Maximum prices for sales to consumers of models having recommended retail prices and Montgomery Ward & Company and Sears Roebuck & Company models.* The maximum price for the sale to consumers of the following models shall be:

(b) *Maximum prices for sales at all levels of other models (except private-brand models) and maximum wholesale prices of models listed in paragraph (a).* The maximum price, exclusive of excise or sales taxes for the sale of any model set forth in paragraph (a) to purchasers other than consumers, and the maximum price for the sale of any other model (except a private-brand model) offered for sale by the seller in the period October 1, 1941 to March 30, 1942, inclusive, to any purchaser, shall be the highest net price in effect for such model, by the seller's price list or other regular quotation, to the same general class of purchaser, during the period October 1, 1941, to October 15, 1941, inclusive, or if such model was not offered for sale by the seller before October 16, 1941, during the period October 16, 1941, to March 30, 1942, inclusive.

(c) *Maximum price for private-brand models*—(1) *Sales by manufacturers.* (i) The maximum price, exclusive of excise or sales taxes for any private-brand model sold by the manufacturer at a specific price shall be the highest net price for which such model was sold or contracted to be sold to the same general class of purchaser during the period October 1, 1941, to October 15, 1941, inclusive, or if such model was not offered for sale by the manufacturer before October 16, 1941, during the period October 16, 1941, to March 30, 1942.

(ii) The maximum price exclusive of excise or sales taxes for deliveries of any private-brand model by the manufacturer in order to complete a cost-plus contract outstanding on March 30, 1942, shall be the price determined by the terms of such contract.

(2) *Sales by distributors and dealers.* The maximum price, exclusive of excise or sales taxes, for the sale of a private-brand model by a distributor or dealer shall be the highest net price in effect for such model, by the seller's price list or other regular quotation, to the same general class of purchaser, during the period October 1, 1941, to October 15, 1941, inclusive, or if such model was not offered for sale by the seller before October 16, 1941, during that period October 16, 1941, to March 30, 1942, inclusive.

(d) *Maximum prices for new models.* (1) The maximum price for any model embodying non-substantial changes from a model offered for sale by the seller in the period October 1, 1941, to March 30, 1942, inclusive, shall be the price established by this Appendix A (§ 1370.12) for such corresponding model: *Provided*, That if the Office of Price Administration determines that any such change results in the reduction of quality, convenience of operation, or efficiency of performance, it may at any time make an appropriate reduction of the maximum price for such model.

(2) The maximum price for any model embodying any substantial change from a model offered for sale by the seller in the period October 1, 1941, to March 30, 1942, inclusive, shall be the price approved in writing by the Office of Price Administration after the submission to it of a report in accordance with § 1370.7 (b) (2).

(e) *Export sales.* In the case of sales for export the maximum prices established by paragraphs (a), (b), (c) and (d) to each general class of purchaser shall apply f. o. b. port of exit. To these prices the exporter may add:

(1) The actual cost of packing for export or special fabrication, if such cost is customarily charged as a separate item or if, because of the special character of the packing, additional expense is customarily necessary in order to provide for the safe carriage of the shipment;

(2) On sales f. a. s. vessel, f. o. b. vessel, c. i. f. destination, or f. o. b. destination, an amount not in excess of the actual cost to the exporter of ocean freight, marine and war risk insurances, or other standard charges;

(3) The normal commission or markup charged by same general class of exporter (i. e., manufacturer, export agent, export commission house or export merchant) for buying or for a sale or delivery of a similar quantity, quality, type, and packing to the same or comparable foreign market and to a purchaser of the same general class in the period October 1 to October 15, 1941, inclusive.

§ 1370.13 *Effective date.* This Maximum Price Regulation No. 111 (§§ 1370.1 to 1370.13, inclusive) shall become effective March 30, 1942.

Issued this 23d day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1380—HOUSEHOLD AND SERVICE INDUSTRY MACHINES

MAXIMUM PRICE REGULATION NO. 110—RESALE OF NEW HOUSEHOLD MECHANICAL REFRIGERATORS

In the judgment of the Price Administrator prices for resale of household mechanical refrigerators are threatening to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices for resale of household mechanical refrigerators prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.[1]

Therefore, under the authority vested in the Price Administrator by the Emer-

gency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1 [1] issued by the Office of Price Administration, Maximum Price Regulation No. 110 is hereby issued.

AUTHORITY: §§ 1380.101 to 1380.111, inclusive, issued pursuant to Pub. Law 421, 77th Cong., 2d Sess.

§ 1380.101 *Maximum prices for resale of household mechanical refrigerators.* On and after March 30, 1942, regardless of any contract, agreement, lease, or other obligation, no distributor or dealer shall sell or deliver any new model of household mechanical refrigerator at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1380.110; and no distributor or dealer shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of household mechanical refrigerators to a purchaser if, prior to March 30, 1942, such household mechanical refrigerators had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1380.102 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1380.110) may be charged, demanded, paid, or offered.

§ 1380.103 *Conditional agreements.* No seller of household mechanical refrigerators shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Maximum Price Regulation No. 110 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this Section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition.

§ 1380.104 *Evasion.* (a) The limitations set forth in this Maximum Price Regulation No. 110 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to household mechanical refrigerator alone, or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, trade-in or exchange allowances, quantity purchase discounts or allowances for or absorption of transportation costs, below those in effect on February 2, 1942.

(2) Increasing charges for deferred payment, or for any other form of installment, or time payment or credit accounts, above those in effect on February 2, 1942.

(3) Failing to give or shortening the warranty or failing to give delivery, installation and other services available or in effect to the same general class of purchaser in exchange for the prices prevailing on February 2, 1942, corresponding to the maximum prices established by Appendix A (§ 1380.110).

§ 1380.105 *Records and reports.* (a) Every distributor or dealer making sales of household mechanical refrigerators after March 30, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the model number or other designation of each model sold, the price received for each, the quantity sold and any discounts, allowances, or charges.

(b) Such persons shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1380.106 *Notices to be posted.* Every dealer shall post in a conspicuous place on the premises where refrigerators are offered for sale a legible notice setting forth the make, model number and maximum price under Maximum Price Regulation No. 110 of every model of refrigerator offered for sale on such premises.

§ 1380.107 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 110 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 110 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1380.108 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 110 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1380.109 *Definitions.* (a) When used in this Maximum Price Regulation No. 110, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(2) "Manufacturer" means any person who operates a plant or factory which manufactures or assembles household mechanical refrigerators;

(3) "Dealer" means any person other than a manufacturer, regularly engaged in the business of selling household mechanical refrigerators to consumers;

(4) "Distributor" means any person other than a manufacturer, regularly engaged in selling household mechanical refrigerators to dealers;

(5) "Consumer" means a person purchasing for use rather than resale;

(6) "Household mechanical refrigerator" means any new refrigerator for household use which operates either by compression or absorption;

(7) "Model" means any combination of size and specifications of equipment;

(8) "Net price quoted" means the actual cash price to be received by the seller, exclusive of state and local sales taxes, but including charges for warranty and cooperative advertising, and inclusive or exclusive of transportation charges, or Federal excise tax, whichever the price list or other regular quotation specifies.

(9) "Private-brand" means a refrigerator not offered for sale as the manufacturer's regular brand, but manufactured for a particular person or persons, whether or not such person's name or brand name appears thereon:

(10) "Export agent" means any exporter who performs the duties of an agent directly to and for a foreign purchaser in a sale between any seller in the United States and such foreign purchaser, and who does not (i) take title to the goods being exported, nor (ii) assume a risk of loss because of demurrage, failure to secure shipping space, credits or otherwise;

(11) "Export commission house" means any exporter who acts as a principal, and (i) buys for his own account only upon his foreign customers' direct orders, at a fixed price or at a previously agreed upon commission, (ii) takes title to the goods directly or through an agent, and (iii) assumes all risk of loss or expense until the title of goods passes to his foreign buyers according to named terms of sales.

(12) "Export merchant" means any exporter who acts as a principal, and (i) buys for his own account in anticipation of foreign orders in general, (ii) takes title to the goods, and (iii) sells them direct, or through customary trade channels, to any or all buyers in the foreign country, and (iv) assumes all risks of loss or expense until title to the goods passes to a foreign buyer according to terms of sales.

§ 1380.111 *Appendix A: Maximum prices for the resale of household mechanical refrigerators*—(a) *Maximum prices for sales to consumers*—(1) *Models having recommended retail prices.* The maximum cash price for the sale to consumers of the following models shall be the prices listed in this subparagraph.

[1] 7 F.R. 971.

Prices on all models include delivery, installation, servicing, and a five-year warranty by the seller. Except as otherwise indicated with respect to certain 1941 models, all prices include the Federal excise tax, but do not include State or local taxes imposed at the point of sale. The limits of the numbered zones are those established by the manufacturer as of February 2, 1942.

[1] For sales outside the area covered by Zone 1, the seller may add to the Zone 1 price the normal differential existing for each model on February 2, 1942, in his locality.

[2] The seller may add to prices on 1941 models the actual amount of the additional 4¼% Federal Excise Tax if he paid the tax to his vendor.

[3] These zones cover all 48 states.

[4] For sales outside the area covered by these three zones, the seller may add to the 3d zone price the normal differential existing for each model on February 2, 1942, in his locality.

(2) *Other models.* The maximum cash price, exclusive of state or local sales taxes, for the sale to consumers of any model not set forth in subparagraph (1) but offered for sale by the distributor or dealer on February 2, 1942, shall be the highest net price in effect, by the distributor's or dealer's price list or other regular quotation, to consumers on February 2, 1942.

(b) *Maximum prices for sales to dealers.* The maximum price, exclusive of state or local sales taxes, for the sale of any model set forth in paragraph (a) to a dealer shall be the net price which will yield the seller the same percentage of the total dollar margin between the manufacturer's net price to him and the dealer's resale price to consumers, as he received during the period October 1, 1941 to October 15, 1941 for the sale of the same or the most comparable model to the same general class of dealer.

(c) *New models.* The maximum price for any model not covered by paragraph (a) or (b) shall be the price approved in writing by the Office of Price Administration.

(d) *Export sales.* In the case of sales for export the maximum prices established by paragraphs (a), (b) and (c) of this section to each general class of purchaser shall apply f. o. b. port of exit. To these prices the exporter may add:

(1) The actual cost of packing for export or special fabrication, if such cost is customarily charged as a separate item or if, because of the special character of the packing, additional expense is customarily necessary in order to provide for the safe carriage of the shipment;

(2) On sales f. a. s. vessel, f. o. b. vessel, c. i. f. destination, or f. o. b. destination, an amount not in excess of the actual cost to the exporter of ocean freight, marine and war risk insurances, or other standard charges;

(3) The normal commission or mark-up charged by same general class of exporter (i. e., manufacturer, export agent, export commission house or export merchant) for buying or for a sale or delivery of a similar quantity, quality, type, and packing to the same or comparable foreign market and to a purchaser of the same general class in the period October 1 to October 15, 1941, inclusive.

§ 1380.11 *Effective date.* This Maximum Price Regulation No. 110 (§§ 1380.101 to 1380.111, inclusive) shall become effective March 30, 1942.

Issued this 23d day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[F. R. Doc. 42-2551; Filed, March 24, 1942; 12:44 p. m.]

PART 1380—HOUSEHOLD AND SERVICE INDUSTRY MACHINES

TEMPORARY MAXIMUM PRICE REGULATION NO. 12—DOMESTIC WASHING MACHINES AND IRONING MACHINES—DISTRIBUTORS AND RETAILERS

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942, to establish temporarily as the maximum prices for domestic washing machines and ironing machines, the prices prevailing with respect thereto within five days prior to the issuance of this Temporary Maximum Price Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 12 is hereby issued.

AUTHORITY: §§ 1380.151 to 1380.161, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1380.151 *Maximum prices for domestic washing machines and ironing machines.* (a) On and after March 30, 1942, to and including May 28, 1942, regardless of any contract, agreement, lease, or other obligation, no distributor or dealer shall sell or deliver any domestic washing machine or ironing machine at a price higher than the maximum price, and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of domestic washing machines or ironing machines to a purchaser, if prior to March 30, 1942, such domestic washing machines or ironing machines had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The maximum price for any model of domestic washing machine or ironing machine shall be the highest price for which such model was sold by the same seller on March 19, 1942, to a purchaser of the same general class. If there was no such sale, the maximum price shall be the highest price for which such model was sold on the most recent date prior to March 19, 1942, on which such a sale was made.

§ 1380.152 *Less than maximum prices.* Lower prices than those set forth in this Temporary Maximum Price Regulation No. 12 may be charged, demanded, paid, or offered.

§ 1380.153 *Conditional agreements.* No seller of domestic washing machines or ironing machines shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1380.151, in the event that this Temporary Maximum Price Regulation No. 12 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition.

§ 1380.154 *Evasion.* The price limitations set forth in this Temporary Maximum Price Regulation No. 12 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of domestic washing machines or ironing machines, alone or

[1] 7 F.R. 971.

in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1380.155 *Records and reports.* (a) Every distributor or dealer making sales of domestic washing machines or ironing machines between March 30, and May 28, 1942, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the prices received, the type and the quantity of domestic washing machines and ironing machines sold.

(b) Persons affected by this Temporary Maximum Price Regulation No. 12 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1380.156 *Notices to be posted.* Every dealer shall post in a conspicuous place on the premises where washing machines or ironing machines are offered for sale a legible notice setting forth the make, model number and maximum price under Temporary Maximum Price Regulation No. 12 of every model of washing machine or ironing machine offered for sale on such premises.

§ 1380.157 *Enforcement.* (a) Persons violating any provision of this Temporary Maximum Price Regulation No. 12 are subject to the criminal penalties and civil enforcement actions provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 12 or any price schedule, regulation or order issued by the Office of Price Administration or any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1380.158 *Petitions for amendment.* Persons seeking modification of any provision of this Temporary Maximum Price Regulation No. 12 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1380.159 *Replacement by regulation.* This Temporary Maximum Price Regulation No. 12 may be replaced by a permanent maximum price regulation or order issued under the Emergency Price Control Act of 1942, which upon issuance shall have the effect of revoking this Temporary Maximum Price Regulation No. 12.

§ 1380.160 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 12, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successors or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Domestic washing machine" means a mechanically operated machine used in the home for washing clothes and other household articles.

(3) "Ironing machine" means a mechanically operated machine used in the home for ironing clothes and other household articles.

(4) "Distributor" means any person, other than a manufacturer, who sells domestic washing machines or ironing machines in the regular course of trade to purchasers other than ultimate consumers.

(5) "Dealer" means any person other than a manufacturer or distributor regularly engaged in selling domestic washing machines to ultimate consumers.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1380.161 *Effective period.* This Temporary Maximum Price Regulation No. 12 shall become effective on March 30 and shall, unless earlier revoked or replaced, expire at 12 o'clock midnight May 28, 1942.

Issued this 23d day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1396—OFFICE AND STORE MACHINES

TEMPORARY MAXIMUM PRICE REGULATION NO. 15—NEW TYPEWRITERS

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum prices for new typewriters the prices prevailing with respect thereto within five days prior to the issuance of this Regulation or on the nearest preceding date on which there were prevailing prices.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Maximum Price Regulation No. 15 is hereby issued:

AUTHORITY: §§ 1396.1 to 1396.11, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1396.1 *Maximum prices for new typewriters.* (a) On and after March 30, 1942, to and including May 28, 1942, regardless of any contract, agreement, lease, or other obligation, no persons shall sell, offer to sell or deliver any new typewriter, at a price higher than the maximum price established herein; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of new typewriters to a purchaser if, prior to March 6, 1942, such typewriters had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) The maximum price for any new typewriter shall be the net price quoted by the manufacturer, wholesaler, distributor, dealer, or other seller, for a typewriter of the same make and model in the manufacturer's price list in effect on March 5, 1942, to a purchaser of the same general class.

(c) There may be added to the maximum price established by this Temporary Maximum Price Regulation No. 15 the amount of tax levied by any Federal excise tax statute or any State or municipal sales, gross receipts, gross proceeds, or compensating use tax statute or ordinance, under which the tax is measured by gross proceeds or units of sale, if, but only if, (1) such statute or ordinance requires the vendor to state the tax, separately from the purchase price paid by the purchaser, consumer, or user, on the bill, sales check, or evidence of sale, at the time of the transaction; or (2) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer, or user with tokens or other media of State or municipal tax payment; or (3) such a statute or ordinance permits the vendor to state such tax separately, and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this provision shall in no event exceed that paid by the purchaser, consumer, or user.

§ 1396.2 *Less than maximum prices.* Lower prices than those set forth in this Temporary Maximum Price Regulation No. 15 may be charged, demanded, paid, or offered.

§ 1396.3 *Notices to be posted.* Every retail dealer in new typewriters shall post in a conspicuous place on his premises where new typewriters are offered for sale, a legible notice which shall set forth the make, model number and maximum price under Temporary Maximum Price Regulation No. 15 of every model of new typewriter offered for sale on such premises.

§ 1396.4 *Conditional agreements.* No seller of new typewriters shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Temporary Maximum Price Regulation No. 15 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That, if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section, permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1396.5 *Evasion.* (a) The price limitations set forth in this Temporary Maximum Price Regulation No. 15 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to new or used typewriters, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Decreasing cash discounts, trade-in or exchange allowances, rental credits on purchases, quantity or other purchase discounts, or allowances for or absorption of transportation costs, below those available or in effect on March 5, 1942. for a purchaser of the same general class.

(2) Increasing charges for deferred payment, or for any other form of installment, or time payment or credit accounts, above those available or in effect on March 5, 1942, for a purchaser of the same general class.

(3) Increasing charges for maintenance or repair service, or for shop overhauls, above those available or in effect on March 5, 1942, for a purchaser of the same general class.

(4) Shortening the effective period of guarantee or warranty of performance, or of maintenance or repair service, available or in effect on March 5, 1942, for a purchaser of the same general class.

(5) Making terms and conditions of sale less favorable to the purchaser than those available or in effect on March 5, 1942, for a purchaser of the same general class.

§ 1396.6 *Records and reports.* (a) Every person making sales of new typewriters after March 30, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, a complete and accurate record of each such sale, showing the date thereof, the name and address of the buyer or lessee, the make, the model, serial number, or other designation and the price received for each new typewriter, the discounts and trade-in allowances given, and the model, serial number, or other designation of each typewriter traded in.

(b) Persons affected by this Temporary Maximum Price Regulation No. 15 shall submit such reports to the Office of Price Administration as it may, from time to time, require.

§ 1396.7 *Enforcement.* (a) Persons violating any provision of Temporary Maximum Price Regulation No. 15 are subject to the criminal penalties and civil enforcement actions provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 15 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1396.8 *Petitions for amendment.* Persons seeking any modification of this Temporary Maximum Price Regulation No. 15 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1396.9 *Replacement by regulation.* Temporary Maximum Price Regulation No. 15 may be replaced by a permanent maximum price regulation or order issued under the Emergency Price Control Act of 1942, which upon issuance shall have the effect of revoking Temporary Maximum Price Regulation No. 15.

§ 1396.10 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 15, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing;

(2) "Typewriter" means any portable, office, commercial, noiseless or standard type of manually or electrically operated writing machine designed to be used for writing or copying letters or other documents, and does not include Braille typewriters, Linotype machines, Monotype machines, shorthand writing machines, telegraphically controlled typewriters, toy typewriters, or billing and continuous forms handling machines;

(3) "New typewriter" means any typewriter which has not, at any time, been delivered to any person acquiring it for use, and does not include rebuilt or reconditioned typewriters;

(4) "Manufacturer" means a person operating a factory or plant which manufactures or assembles typewriters;

(5) "Net price quoted" means the actual price after deducting trade-in allowances and quantity or other purchase discounts prevailing by virtue of the manufacturer's price list or schedule of allowances in effect on March 5, 1942.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, shall apply to other terms used herein.

§ 1396.11 *Effective date.* This Temporary Maximum Price Regulation No. 15 (§§ 1396.1 to 1396.11, inclusive) shall become effective March 30, 1942, and shall expire at midnight on May 28, 1942, unless earlier revoked.

Issued this 23d day of March 1942.

JOHN E. HAMM,
Acting Administrator.

PART 1398—OFFICE AND STORE MACHINES

REVISED RATIONING ORDER NO. 4[1]—NEW AND USED TYPEWRITERS

The title, preamble and §§ 1398.101 to 1398.109, inclusive, are amended and renumbered to read as set forth:

Pursuant to the authority vested in me by Directive No. 1 issued by the Chairman of the War Production Board on January 24, 1942, by Supplementary Directive No. 1D issued by the Chairman of the War Production Board on March 5, 1942, and Conversion Order No. L-54-A issued by the Director of Industry Operations of the War Production Board on March 17, 1942, it is hereby ordered that:

AUTHORITY: §§ 1398.101 to 1398.111, inclusive, issued under the authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483, War Production Board Directive No. 1 and Supplementary Directive No. 1D, 7 F.R. 562, 7 F.R. 1792, Conversion Order No. L-54-A, 7 F.R. 2130.

§ 1398.101 *Restriction of sales and deliveries of typewriters.* On and after the effective date of this Revised Rationing Order No. 4, regardless of any contract of sale, contract to sell, agreement, lease or other obligation, no person shall sell or deliver typewriters, and no person shall buy or receive typewriters, except as provided in §§ 1398.102, 1398.103, 1398.104, and 1398.105.

§ 1398.102 *Persons eligible to receive typewriters without application*—(a) *New typewriters.* Effective March 25, 1942, the following persons shall be eligible to buy or receive new typewriters, including portable and non-portable typewriters, without making application to a Local Rationing Board:

(1) Consignees of shipments of typewriters: *Provided*, That such typewriters were in transit on a carrier, other than a carrier owned or controlled by the consignor, on March 6, 1942.

(2) Manufacturers of typewriters at their places of business in the United States.

(3) Wholesalers or dealers in typewriters: *Provided*, That no manufacturer shall deliver new typewriters to a wholesaler or dealer except upon the presentation by the dealer or wholesaler of a purchase order dated after March 16, 1942, issued by the Army or Navy of the United States, in which case, the manufacturer may deliver the number of typewriters specified in the said purchase order.

(4) Persons entitled by distraint, levy, execution, attachment, or by similar forms of judicial process, including foreclosure or repossession by virtue of a bona fide lien, created prior to March 6, 1942, to the typewriters acquired.

(5) Persons entitled by will or by intestacy to the typewriter acquired.

(6) Trustees or receivers in bankruptcy, insolvency, or receivership, in cases where their trusteeship or receivership extends to the typewriters received.

(7) Persons entitled to redeem the typewriter acquired, if it was pledged before March 6, 1942.

[1] 7 F.R. 2003.

(8) The Army, Navy, and Procurement Division of the Treasury Department of the United States within their respective quotas assigned by the Director of Industry Operations of the War Production Board.

(b) *Used typewriters.* Effective March 25, 1942, the following persons shall be eligible to buy or receive used typewriters, including portables and non-portables, without making application to a local Rationing Board:

(1) Persons eligible to buy or receive new typewriters pursuant to paragraph (a) above of this section.

(2) Persons regularly engaged in the business of repairing, reconditioning, or rebuilding used typewriters may receive typewriters for repair, reconditioning, or rebuilding.

(3) Persons who have delivered used typewriters to others for repair, reconditioning, or rebuilding and are entitled to the return thereof.

(4) Any person acquiring a used typewriter for business purposes from a person other than a dealer or typewriter repairman: *Provided*, That the person from whom the used typewriter is acquired shall not own or possess, at the time of delivery of such typewriter, more than the one typewriter.

§ 1398.103 *Persons eligible to receive new or used typewriters upon certified application*—(a) *Non-portables.* On and after April 13, 1942, the following persons shall be eligible to buy or receive new or used non-portable typewriters in exchange for a certified application pursuant to § 1398.105, upon showing need therefor in accordance with the provision of paragraph (c) of this section: *Provided*, That no manufacturer (or branch, outlet, or sales agency of a manufacturer) shall deliver and no applicant shall receive from a manufacturer (or branch, outlet, or sales agency of a manufacturer) any new typewriter except as authorized by the War Production Board:

(1) Prime contractors with any agency of the government of the United States for the construction of a military or naval cantonment, shipyard, or air base.

(2) Persons who are engaged in the operation of a plant, factory, or shipyard, 70% of whose combined billings and accepted but unbilled orders (whether or not production has commenced pursuant to such orders), during the three-month period preceding the month in which the application is filed, consisted of billings and accepted but unbilled orders for ships, planes, tanks, guns, ammunition, powder, fire control apparatus, military or naval optical or communications equipment, armor plate, radiosondes, machine tools, lift trucks, welding machines, foundry equipment, cranes, metal working equipment, heat treating furnaces, or tackle blocks.

(b) *Portables.* On and after April 13, 1942, the following shall be eligible to buy or receive new or used portable typewriters for the purposes specified in this paragraph in exchange for a certified application pursuant to § 1398.105, upon showing need therefor in accordance with the provisions of paragraph (c) of this Section: *Provided*, That no manufacturer (or branch, outlet, or sales agency of a manufacturer) shall deliver, and no person shall receive from a manufacturer (or branch, outlet, or sales agency of a manufacturer) any new typewriter except as authorized by the War Production Board:

(1) Persons eligible to buy or receive non-portable typewriters pursuant to paragraph (a) of this section.

(2) State and local governments and agencies thereof, and accredited representatives of foreign governments.

(3) The legislative and judicial establishments of the United States for official use.

(4) Selective Service Boards for the official use of the Boards.

(5) Civilian aides of the War and Navy Departments, for official use at official centers.

(6) State Defense Councils, Local Defense Councils, and Volunteer aides of the Office of Civilian Defense, when typewriters are required for the performance of the official duties of such Councils or aides at control centers or warden posts.

(7) American Red Cross for its official use.

(8) Local Rationing Boards for official use.

(9) Ship's licensed radio operators when typewriters are required for the performance of their duties.

(10) Newspapers, periodicals, radio broadcasting stations, and other agencies regularly engaged in the dissemination of news or news comment.

(11) United States government-owned corporations.

(12) Any industrial or extractive establishment, construction project, lumber camp, or power-generation, transportation, or communication facility operating under an A-5 or higher priority rating from the War Production Board.

(c) *Applicant must show immediate need.* A person who applies for a typewriter under paragraph (a) or (b) of this section shall establish in his application immediate need therefor for the efficient conduct of the construction project, business, duties, or functions specified in paragraph (a) or (b) hereof. Immediate need is not shown by applicant if upon the acquisition of a typewriter applied for, he will have in his possession any typewriter which is idle or not in use, unless such typewriter idle or not in use is unserviceable and cannot be made serviceable by reasonable repairs.

§ 1398.104 *Rental of typewriters.* (a) Effective March 13, 1942, all persons shall be eligible to rent new or used portable typewriters, and used non-portable typewriters. New non-portable typewriters shall not be rented.

(b) Regardless of any agreement, lease or other obligation heretofore or hereafter entered into, all rentals, leasings, bailments, licenses, hirings, or loans of typewriters shall be subject to revocation or cancellation by lessors, bailors, licensors, or lenders, as the case may be, upon the issuance by the Office of Price Administration of Orders, Regulations, or Amendments requiring the recapture, repossession, or return of such typewriters. Upon the issuance by the Office of Price Administration of any such Orders, Regulations, or Amendments, all persons in possession of such typewriters shall return, deliver, or surrender such typewriters to their lessors, bailors, licensors, or lenders, as the case may be, at the time and in the manner provided for in such Orders or Regulations.

(c) *Rental-credit provisions and options to purchase.* Any rental-credit provision (or other provision for crediting rentals paid toward the purchase price of a rented typewriter) or option to purchase contained in an agreement for the rental of a typewriter made prior to March 6, 1942, which rental-credit provision or option was not prior to March 6, 1942 invoked or exercised in writing by the lessee, shall be enforceable only upon presentation of a certified application pursuant to §§ 1398.102 and 1398.104.

(d) *Bailment-leases.* A bailee-lessee under a bailment-lease agreement for the instalment purchase of a typewriter may complete the purchase provided the agreement therefor was executed and the typewriter was delivered prior to March 6, 1942.

§ 1398.105 *Procedure for buying typewriters*—(a) *Application.* Any person who believes that he is eligible to buy a typewriter or typewriters in accordance with the provisions of § 1398.103 shall make to the Local Rationing Board of the Office of Price Administration having jurisdiction over the area in which the typewriter is to be used, an application in triplicate on Form R-401 to be provided by the Local Rationing Board.

(b) *Certification of Application.* The Local Rationing Board, if it is satisfied that the applicant has properly executed his application, that the facts stated in the application are true, and that the applicant has satisfied all the applicable requirements of this Order, shall certify on the application its approval thereof and specify the number of each portable and non-portable typewriter to which the applicant is eligible. The Local Rationing Board shall retain one copy of the application and deliver the remaining two copies to the applicant for presentation to the seller.

(c) *Delivery.* The seller, if he knows nothing inconsistent with the facts set forth in an application of Form R-401, approved by a Local Rationing Board, may deliver the typewriter or typewriters specified in the Board's certification to the applicant, after executing the statement required of him on Form R-401, forwarding one copy to the Local Rationing Board as provided in § 1398.106 and retaining the other. If the seller knows any facts to be inconsistent with those set forth in the application, he shall retain the application, refuse to make the sale, and notify the Local Rationing Board thereof.

§ 1398.106 *Appeals*—(a) *Grounds.* Any applicant for a typewriter whose application has been denied by the Board and who believes that such action is in conflict with this Revised Rationing Order No. 4 may file an appeal from such action with the State Rationing Administrator.

(b) *Filing of appeals.* An appeal from an action taken by a Board may be filed only within 30 days after such action has been taken. The applicant shall file a statement in writing and under oath setting forth the specific section of Revised Rationing Order No. 4 which he believes to be inconsistent with the action taken by the Board and stating in full the facts on which he grounds his appeal.

(c) *Action on appeals.* The State Rationing Administrator may require the Board or the appellant to furnish pertinent information, in addition to that furnished before the Board, with respect to any appeal pending before him. The State Rationing Administrator may affirm the decision of the Board, or may reverse or modify such decision and remand the matter to the Board for consistent action. The State Rationing Administrator's ruling shall be in writing and shall be communicated to the appellant and to the Board. If he reverses or modifies the decision, he shall send a copy of his ruling to the Office of Price Administration. He shall act on the appeal within 30 days after its filing.

(d) *Review by the Office of Price Administration.* If an appellant feels aggrieved by the ruling of the State Rationing Administrator, he may, within 30 days thereafter, file a written petition for review with the Office of Price Administration, Washington, D. C. If the Office of Price Administration, in its discretion, elects to review the matter, it may require the furnishing of additional pertinent information. The Office of Price Administration may affirm the ruling of the State Rationing Administrator, or may reverse or modify such ruling and remand the matter to the Board for consistent action. The ruling of the Office of Price Administration shall be in writing and shall be communicated to the appellant, to the Board, and to the State Rationing Administrator.

§ 1398.107 *Records.* Every typewriter manufacturer, wholesaler, and dealer shall preserve for not less than two years, accurate and complete records concerning inventories and sales or rentals of used typewriters, (including, specifically, the use to which a rented typewriter is to be put) and such copies of forms as are required to be retained by them by the terms of this Revised Rationing Order No. 4.

§ 1398.108 *Reports.* (a) On or before April 6, 1942, every typewriter manufacturer, wholesaler, and dealer shall file with the Local Rationing Board, on a Form to be provided by the Board, an inventory report containing the information required by such Form.

(b) Persons affected by this Revised Rationing Order No. 4 shall submit such other reports to the Office of Price Administration as it may, from time to time, require.

§ 1398.109 *Violations.* (a) Any person who violates any provision of this Revised Rationing Order No. 4, who, by any act or omission, knowingly falsifies a statement or any record which he is required to keep by the terms of this Revised Rationing Order No. 4, or who otherwise knowingly furnishes false information to the Office of Price Administration, shall be subject to the penalties therefor, including a recommendation to the Attorney General for prosecution pursuant to section 35 (A) of the Criminal Code (Title 18 U.S.C. Sec. 80).

(b) In addition, the Office of Price Administration may deny him the right to receive any typewriter or any other commodity subject to rationing by the Office of Price Administration, and may recommend to the War Production Board that he be denied the right to receive any other materials which are now or in the future may be allocated by that Board.

§ 1398.110 *Definitions.* When used in this Revised Rationing Order No. 4, the term:

(a) "Dealer" means any person regularly engaged in the business of selling or renting typewriters to the ultimate user.

(b) "New" as applied to typewriters means any typewriter which has never been delivered to any person who has acquired it for use, and excludes repaired, rebuilt, or reconditioned typewriters.

(c) "Non-portable typewriter" means any typewriter other than a portable typewriter.

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative or any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Manufacturer" means any person operating a plant for the manufacture or assembly of typewriters and shall include sales and distribution outlets owned, operated, or controlled by a manufacturer.

(f) "Portable typewriter" means any typewriter weighing less than 25 pounds.

(g) "Typewriter," unless expressly otherwise stated, includes non-portable typewriters, (including noiseless and electric types) and portable typewriters. The term shall not include typewriters with inbuilt continuous forms handling features, or with inbuilt front feed or form collating features; shorthand writing machines; telegraphically controlled typwriters; Braille typewriters; toy typewriters; linotype machines or monotype machines.

(h) "Used" as applied to typewriters means any typewriter which at any time has been delivered to a person or persons acquiring it for use.

(i) "Wholesaler" means any person regularly engaged in the business of selling typewriters to manufacturers or other wholesalers or dealers.

§ 1398.11 *Effective dates of Rationing Order No. 4.* (a) Rationing Order No. 4 (§§ 1398.101 to 1398.109, inclusive) issued March 12, shall be in force and effect from March 13, 1942 until midnight March 24, 1942.

(b) Revised Rationing Order No. 4 (§§ 1398.101 to 1398.111) shall take effect March 25, 1942.

Issued this 24th day of March 1942.

PART 221—TIMBER

MODIFICATION OF REGULATION S-2

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35; 16 U.S.C. 551), and the act of February 1, 1905 (33 Stat. 628; 16 U.S.C. 472), the third sentence of Regulation S-2 of the rules and regulations governing the occupancy, use, protection, and administration of the national forests, which constitutes § 221.2 of Part 221, Chapter II, Title 36, Code of Federal Regulations, is hereby amended to read as follows:

§ 221.2 *Management plans, sustained yields, and community and industrial stability; exportation of national forest timber.* The Secretary of Agriculture will also issue such instructions as may be necessary in specific cases to insure an adequate and permanent supply of forest products for local requirements, or for established industries dependent upon national forest timber, or to promote the welfare of local communities dependent upon national forest operations for employment, or to require that national forest timber suitable for specialized use in the manufacture of products necessary to national defense shall not be diverted to other uses.

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the City of Washington, this 25th day of March 1942.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 17—FINANCE

DISPOSITION OF PATIENT'S PERSONAL EFFECTS AND FUNDS UPON DEATH OR DISCHARGE

§ 17.4819 *Public No. 382—77th Congress, December 26, 1941, Amending The Act of June 25, 1910 (24 U. S. Code, 136).* (a) Whenever any veteran (admitted as a veteran) shall die in any Veterans Ad-

ministration facility or in any hospital, Federal, State, or private, while being furnished care or treatment therein by the Veterans Administration, without leaving a will and without leaving any spouse, heirs or next of kin entitled to his personal property, all such property, including money and choses in action, shall immediately vest in and become the property of the United States as trustee for the sole use and benefit of the General Post Fund, subject to claim as elsewhere provided.

(b) "Personal Property" as used herein shall include cash, funds on deposit in Personal Funds of Patients, bank accounts, certificates of stock, bonds and notes the obligation of the United States or of others, money orders, checks, insurance policies the proceeds of which are payable to the veteran or his estate, postal savings certificates, and all other papers of every character; also clothing, jewelry and all other forms of personality, or evidences of interest therein. (March 26, 1942) (Public No. 382, 77th Cong.)

§ 17.4820 *Notice to veterans receiving treatment.* (a) Form P–10, Revised, Application for Hospital Treatment or Domiciliary Care, includes notice to the applicant that effective as of March 26, 1942, the acceptance of care or treatment by any veteran shall constitute acceptance of the provisions of the Act. Similar notice shall be given to each veteran receiving care as of March 26, 1942, by posting notice in a prominent place in each building wherein patients or members are housed. Such notices shall be posted immediately and kept posted.

(b) Since the provisions of the law are applicable to all veterans receiving care at the expense of the Veterans Administration (contract, Federal, State or private hospital) it shall be the responsibility of the Veterans Administration officer (field or central) authorizing admission of a veteran to other than a Veterans Administration facility, to cause the chief officer of such institution to post in a conspicuous place, in all buildings where veterans are housed, the provisions of § 17.4819 (a), or if he declines to post, notify the patients individually and supply a statement from each acknowledging notice. Such provisions supersede in part the provisions of Form P–10 executed prior to March 26, 1942. (March 26, 1942) (Public No. 382, 77th Congress)

§ 17.4821 *Action upon death of veteran in Veterans Administration facility.* Upon the death of a veteran at a Veterans Administration facility while receiving care or treatment therein and whom it is believed leaves no will or heirs or next of kin entitled to his personal property, regardless of whether Form 1170 executed by the veteran names a designate, an inventory of the effects and funds, Form 2687, will be promptly prepared and supplemented by all information or evidence available as to personal property owned by the veteran in addition to that left at the place of death; similar action will be taken when the death of such a veteran hospitalized by the Veterans Administration occurs at a contract hospital, Army, Navy, Marine or other hospital. Such inventories and information together with any bank books, stocks, bonds, or other valuable paper as enumerated in § 17.4819 (b) left in the effects of the veteran will be delivered to the manager of the Veterans Administration facility having jurisdiction, for his disposition in accordance with existing regulations. (March 26, 1942) (Public No. 382, 77th Congress)

§ 17.4822 *Disposition of personal effects upon death of veteran.* (a) Any assets heretofore or hereafter accruing to the benefit of the General Post Fund other than money, stocks, bonds, bank deposits, and similar assets, but including jewelry and other personal effects will be sold in accordance with the existing regulations, except that articles of personal adornment which are obviously of sentimental value shall, if unclaimed, be retained for five years from the date of death of the veteran, unless for sanitary or other reasons it is deemed unsafe to retain same. Possession of effects other than those located on the premises of a Veterans Administration facility will be obtained, except that if expense for transportation, storage, etc., is involved, prior authority of the director of finance will be secured. Proceeds of sale will be deposited to the credit of the General Post Fund.

(b) Stocks, bonds, bank deposit evidence (pass books, checks, time deposit certificates, etc.), and similar assets, actual or potential, will be promptly forwarded to the director of finance together with a copy of the inventory on which listed, in order that appropriate action may be taken to convert such assets into cash for deposit in the General Post Fund. Funds on deposit in Personal Funds of Patients will be deposited to the General Post Fund and Form 2687 promptly forwarded to the director of finance together with a statement that papers listed on the inventory were examined and nothing of value found, if such is a fact. Any claims against the estate of the deceased veteran will be filed with or, if received elsewhere, forwarded to the director of finance. (March 26, 1942) (Public No. 382, 77th Congress)

§ 17.4823 *Claims of creditors and heirs.* Effective December 26, 1941, the assets of the estate of a veteran theretofore or thereafter deposited to the General Post Fund and subject to the valid claims of creditors presented to the Veterans Administration within one year from the date of death or otherwise as provided by any applicable law. Any heir, next of kin, legatee or other person found to be legally entitled to the personal property of the veteran may claim same within five years from the date of the veteran's death. If claimant is under any legal disability (as a minor, incompetent, etc.) at the date of the veteran's death the five year period begins upon the termination of removal of legal disability. Such claims are for settlement by the director of finance. In the event of doubt as to entitlement or the necessity of legal proceedings to obtain assets for the benefit of the General Post Fund the case will be referred to the solicitor for appropriate action. Any necessary court costs or expenses will be paid from the appropriation salaries and expenses, Veterans Administration. (March 26, 1942) (Public No. 382, 77th Congress)

WAR DEPARTMENT.

[Public Proclamation No. 1]

HEADQUARTERS WESTERN DEFENSE COMMAND AND FOURTH ARMY, PRESIDIO OF SAN FRANCISCO, CALIFORNIA

MILITARY AREAS NOS. 1 AND 2 DESIGNATED AND ESTABLISHED

MARCH 2, 1942.

To: The people within the States of Arizona, California, Oregon, and Washington, and the Public Generally.

Whereas by virtue of orders issued by the War Department on December 11, 1941, that portion of the United States lying within the States of Washington, Oregon, California, Montana, Idaho, Nevada, Utah and Arizona and the Territory of Alaska has been established as the Western Defense Command and designated as a Theatre of Operations under my command; and

Whereas by Executive Order No. 9066, dated February 19, 1942, the President of the United States authorized and directed the Secretary of War and the Military Commanders whom he may from time to time designate, whenever he or any such designated commander deems such action necessary or desirable, to prescribe military areas in such places and of such extent as he or the appropriate Military Commander may determine, from which any or all persons may be excluded, and with respect to which the right of any person to enter, remain in or leave shall be subject to whatever restrictions the Secretary of War or the appropriate Military Commander may impose in his discretion; and

Whereas the Secretary of War on February 20, 1942, designated the undersigned as the Military Commander to carry out the duties and responsibilities imposed by said Executive Order for that portion of the United States embraced in the Western Defense Command; and

Whereas the Western Defense Command embraces the entire Pacific Coast of the United States which by its geographical location is particularly subject to attack, to attempted invasion by the armed forces of nations with which the United States is now at war, and, in connection therewith, is subject to espionage and acts of sabotage, thereby requiring the adoption of military measures necessary to establish safeguards against such enemy operations:

Now therefore, I, J. L. DeWitt, Lieutenant General, U. S. Army, by virtue of the authority vested in me by the President of the United States and by the Secretary of War and my powers and prerogatives as Commanding General of the Western Defense Command, do hereby declare that:

1. The present situation requires as a matter of military necessity the establishment in the territory embraced by the Western Defense Command of Military Areas and Zones thereof as defined in Exhibit 1, hereto attached, and as generally shown on the map attached hereto and marked Exhibit 2.[1]

2. Military Areas Nos. 1 and 2, as particularly described and generally shown hereinafter and in Exhibits 1 and 2 hereto, are hereby designated and established.

3. Within Military Areas Nos. 1 and 2 there are established Zone A–1, lying wholly within Military Area No. 1; Zones A–2 to A–99, inclusive, some of which are in Military Area No. 1, and the others in Military Area No. 2; and Zone B, comprising all that part of Military Area No. 1 not included within Zones A–1 to A–99, inclusive; all as more particularly described and defined and generally shown hereinafter and in Exhibits 1 and 2.

Military Area No. 2 comprises all that part of the States of Washington, Oregon, California and Arizona which is not included within Military Area No. 1, and is shown on the map (Exhibit 2) as an unshaded area.

4. Such persons or classes of persons as the situation may require will by subsequent proclamation be excluded from all of Military Area No. 1 and also from such of those zones herein described as Zones A–2 to A–99, inclusive, as are within Military Area No. 2.

Certain persons or classes of persons who are by subsequent proclamation excluded from the zones last above mentioned may be permitted, under certain regulations and restrictions to be hereafter prescribed, to enter upon or remain within Zone B.

The designation of Military Area No. 2 as such does not contemplate any prohibition or regulation or restriction except with respect to the zones established therein.

5. Any Japanese, German or Italian alien, or any person of Japanese Ancestry now resident in Military Area No. 1 who changes his place of habitual residence is hereby required to obtain and execute a "Change of Residence Notice" at any United States Post Office within the States of Washington, Oregon, California and Arizona. Such notice must be executed at any such Post Office not more than five nor less than one day prior to any such change of residence. Nothing contained herein shall be construed to affect the existing regulations of the U. S. Attorney General which require aliens of enemy nationalities to obtain travel permits from U. S. Attorneys and to notify the Federal Bureau of Investigation and the Commissioner of Immigration of any change in permanent address.

6. The designation of prohibited and restricted areas within the Western Defense Command by the Attorney General of the United States under the Proclamations of December 7 and 8, 1941, and the instructions, rules and regulations prescribed by him with respect to such prohibited and restricted areas, are hereby adopted and continued in full force and effect.

The duty and responsibility of the Federal Bureau of Investigation with respect to the investigation of alleged acts of espionage and sabotage are not altered by this proclamation.

[SEAL] J. L. DEWITT,
Lieutenant General, U. S. Army, Commanding.

[Docket No. 1718–FD]

IN THE MATTER OF RICHARD ALMOND AND GEORGE GALBAVY, DEFENDANTS

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A written complaint having been filed on May 9, 1941, by the Bituminous Coal Producers Board for District No. 22, as complainant, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act") alleging wilful violation by Richard Almond and George Galbavy of the Bituminous Coal Code and rules and regulations thereunder; and

An order having been entered herein on January 26, 1942, cancelling and revoking the code membership of Richard Almond and George Galbavy; and

Said Order of Cancellation and Revocation having been duly served upon Richard Almond and George Galbavy on February 4, 1942; and

Richard Almond and George Galbavy having filed with the Division their application, dated March 7, 1942, for restoration of their code membership to become effective as of the date of the payment of the tax referred to in the said Order dated January 26, 1942; and

It appearing from said application that Richard Almond and George Galbavy on February 11, 1942, paid to the Collector of Internal Revenue, Helena, Montana, the sum of $57.33 as provided in said Order dated January 26, 1942, as a condition precedent to the restoration of its code membership.

Now, therefore, it is ordered, That said application of Richard Almond and George Galbavy, dated March 7, 1942, for restoration of its code membership be, and the same hereby is granted; and

It is further ordered, That the code membership of Richard Almond and George Galbavy be and the same hereby is restored as of February 11, 1942.

Dated: March 24, 1942.

2. Admits that on various dates between May 27, 1941, and June 7, 1941, both dates inclusive, the applicant wilfully violated the provisions of the Bituminous Coal Act and Code, acting as sales agent for the code member producers hereinafter named by making the following substitution and sales:

(a) Substitution of 419.05 tons of 2" x 5" egg coal produced at the Sellards No. 1 Mine (Mine Index No. 2431) of Left Fork Fuel Company, Inc., a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company, specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine;

(b) Substitution of 418.5 tons of 2" x 5" egg coal produced at the Camp Creek Coal Company Mine (Mine Index No. 2420) of A. J. Fry, a code member in District No. 8 on railway fuel orders obtained from the Ann Arbor Railway Company specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine;

(c) Substitution of 200 tons of 2" x 5" egg coal produced at the Hall Brothers Mine (Mine Index No. 2421) of J. C. Fry and Andrew J. Fry, co-partners, doing business under the name and style of J. C. Fry and A. J. Fry, a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine; and

(d) Substitution of 152.2 tons of 2" x 5" egg coal produced at the Fry Mine (Mine Index No. 2703) of J. C. Fry and Andrew J. Fry, co-partners, doing business under the name and style of J. C. Fry and A. J. Fry, a code member in District No. 8, on railway fuel orders obtained from the Ann Arbor Railway Company specifying 6" resultant mine run coal, and sale of said coal to said railway company at the price of $1.85 per net ton f. o. b. said mine, the applicable mine price for such egg coal being $2.30 per net ton f. o. b. the mine;

all of said coal being handled in car load lots f. o. b. shipping point; resulting in violations of Rule 1 (f) of section XI of the Marketing Rules and Regulations and paragraphs (b) and (e) of Distributor's Agreement, and Rule 9 of section II of the Marketing Rules and Regulations and paragraph (e) of the Distributor's Agreement, and Rule 13 (a) of section II of the Marketing Rules and Regulations and paragraph (e) of the Distributor's Agreement.

3. Admits that the applicant received commissions in respect to the coal involved in the admitted violations as follows:

(a) 419.05 tons	$62.02
(b) 418.5 tons	61.94
(c) 200 tons	29.60
(d) 152.2 tons	22.53
Total Commission	176.09

4. States that to the best of the applicant's belief and knowledge, the applicant has not committed any violations of the Act, the Code or the regulations thereunder other than the violations specifically referred to and admitted in said application.

5. Consents to the entry of an order revoking or suspending its registration for a period of ten (10) days.

6. Agrees to restore to the code members referred to therein the amounts unlawfully accepted by it as commissions in the transactions involved in the admitted violations.

7. Agrees to pay all penalties, if any, to be imposed against the code members referred to, which are now pending, amounting to $1,031.55.

Interested parties desiring to do so may within fifteen (15) days from the date of this notice file recommendations or requests for informal conferences in respect to the above-described application.

Dated: March 24, 1942.

PETITION OF DELTA COAL MINING COMPANY, A CODE MEMBER IN DISTRICT NO. 10, FOR MINIMUM F. O. B. MINE PRICES FOR F. A. S. DELIVERY FROM MINES IN DISTRICT NO. 10 TO MINNEAPOLIS STREET RAILWAY COMPANY, AT MINNEAPOLIS, MINNESOTA, PURSUANT TO SECTION 3 (A), SPECIAL RIVER PRICE INSTRUCTIONS AND EXCEPTIONS, SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 10 FOR ALL SHIPMENTS EXCEPT TRUCK

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on April 15, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street N. W., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 13, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of Delta Coal Mining Company, a Code Member in District No. 10, for minimum f. o. b. mine prices for f. a. s. delivery from mines in District No. 10 to Minneapolis Street Railway Company, at Minneapolis, Minnesota, pursuant to section 3 (A), Special River Price Instructions and Exceptions, Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck, pursuant to Section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: March 24, 1942.

[Docket No. 1708-FD]

IN THE MATTER OF SHEBAN MINING COMPANY, CODE MEMBER

MEMORANDUM OPINION AND NOTICE OF AND ORDER FOR HEARING

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on June 11, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 4, alleging that the Sheban Mining Company, a code member in District 4, has wilfully violated the provisions of the Bituminous Coal Code or rules and regulations thereunder and praying that the Division either cancel and revoke the defendant's code membership or, in its discretion, direct the defendant to cease and desist from violations of the Code and rules and regulations thereunder.

Pursuant to an Order of the Acting Director, dated July 17, 1941, and after due notice to interested persons, a hearing in this matter was held on September 3, 1941, before W. A. Cuff, a duly designated Examiner of the Division, at a hearing room thereof in Youngstown, Ohio. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The code member appeared. The preparation and filing of a report by the Examiner was waived and the record in the proceeding was thereupon submitted to the undersigned.

On December 4, 1941, the undersigned issued Findings of Fact and Conclusions of Law and entered an Order in accordance therewith, cancelling and revoking the code member's code membership and providing that as a condition of reinstatement to membership in the Code the code member should be required to pay to the United States a tax in the amount of $4,117.16 as provided in section 5 (c) of the Act.

On January 16, 1942, the code member filed a petition for reconsideration, requesting that the Findings of Fact, Conclusions of Law, and Order issued herein be reconsidered; that the code member be granted an opportunity to present oral argument in support of its petition for reconsideration; and that it be permitted to introduce additional evidence.

In its petition for reconsideration, the code member claims that to suit the convenience of the Examiner and the Division attorney, and because it was led to believe by the Examiner and said attorney that the introduction of additional evidence by it would be merely a waste of time because no wilful violation had been shown, it did not introduce evidence other than a "statement"[1] by one witness. The code member also referred to a "promise" of the Examiner and the Division attorney that "they are fully convinced that there was no wilful violation of any rules or regulations and that they will see that the case be treated so upon their return to Washington." The code member further claimed that it was not afforded a fair and impartial hearing because the Examiner was prejudiced and did not permit counsel for the code member the same latitude in examining witnesses as he permitted the Division. The code member also made other charges impugning the fairness of the hearing. Aside from stating these charges, however, the code member did not specify what evidence it neglected to offer. Its charges concerning the prejudice of the Examiner and the unfairness and partiality of the hearing were also general and vague.

Because of the serious character of these charges, however, and of the importance of investigating the same, the undersigned, on February 4, 1942, entered an Order granting the code member's request for an oral argument upon its petition for reconsideration. Accordingly, such argument was held before the undersigned on February 10, 1942. At that argument, although counsel for the code member was permitted the fullest latitude in expressing himself and as much time for argument as he desired, and although he was urged by the undersigned to be specific in his charges, counsel for the code member did no more than reiterate the general and undocumented charges theretofore made by him concerning the alleged improper conduct of the Examiner who presided at the hearing herein and of the attorney who represented the Division at said hearing.

Again, because these charges, though general in nature, were serious, I did not consider it advisable to accept them or to base any action thereon, unless supported by sworn statements. To that end, on March 2, 1942, I ordered the defendant to file affidavits in support of the charges made, setting forth in detail the facts and circumstances concerning them. Thereafter, the affidavits of six persons were furnished the undersigned by the code member. These, again, are vague and unspecific with respect to the charges made. They state conclusions of the affiants based upon unspecified facts and are based, in considerable and highly material parts, upon a most objectionable sort of hearsay.

A reading of the record herein, the petition for reconsideration, the oral argument, and the affidavits filed thereafter have failed to convince me that the conduct of the Division's Examiner or attorney at the hearing herein was improper so as to prejudice the code member in any way.

While I do not believe that the Division Examiner or attorney misled the code member in any respect or acted to its prejudice, I think that it does appear, however, that the code member and its counsel were genuinely confused during the hearing herein. And it may well be that this confusion, in and of itself, may have resulted in the code member's not having obtained as adequate a hearing as it otherwise would have. This confusion is evident from the failure of the code member and its counsel to recognize, in the petition for reconsideration and at the oral argument herein, that the penalty imposed by the undersigned in the Order of December 4, 1941, was based upon only such tonnage as was originally included in the complaint herein, and not upon the larger tonnage concerning which violations were proved at the hearing.

While, upon investigation, the charges of the code member appear to lack substance and while there does not appear to have been any prejudice to the code member arising out of the hearing therein, nevertheless, because of this confusion and the resulting doubt, though slight, of whether the code member has placed into the record all relevant evidence concerning the violation, I consider it advisable to order a new hearing herein which will be free of the troublesome issues raised by the code member. I desire to reiterate that I do not find that such rehearing is essential in order to guarantee to the code member a fair hearing. I believe that the code member has already had that. However, even at the oral argument counsel for code member still appeared confused. Therefore, in order to insure that the record presented to me

[1] It should be noted that this was sworn testimony.

contains all the relevant evidence and out of an abundance of caution, I shall nevertheless order a new hearing.

The record heretofore made herein except for the complaint filed herein on June 11, 1941, will be stricken and the new hearing will be based upon the complaint as originally filed on June 11, 1941. The purported amendment to the Notice of and Order for Hearing, made at the earlier hearing herein, which has caused so much confusion and which I disregarded in reaching my decision herein on December 4, 1941, is hereby again disavowed by me, and the hearing to be held will be concerned only with the violations charged in the complaint filed by District Board 4 on June 11, 1941, and set forth in the Notice of and Order for Hearing. The new hearing will be conducted by an Examiner and the Division will be represented thereat by an attorney not heretofore connected with the proceeding.

Now, therefore, it is ordered, That the record in this matter be, and it hereby is, stricken, except with respect to the complaint filed herein by District Board 4 on June 11, 1941.

It is further ordered, That the Order entered herein by the undersigned on December 4, 1941, cancelling and revoking code membership, be and it hereby is revoked and withdrawn, without prejudice.

It is further ordered, That the petition for reconsideration filed herein by the code member on January 16, 1942, be and it hereby is, granted to the extent indicated above, and in all other respects denied.

It is further ordered, That a hearing in respect to the subject matter of the complaint filed herein on June 11, 1941, by District Board 4 to be held on April 6, 1942, at 10 o'clock in the forenoon, at a hearing room of the Division at the Post Office Building, Youngstown, Ohio.

It is further ordered, That C. R. Larrabee, or any other officer or officers of the Bituminous Coal Division duly designated for that purpose, shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, administer oaths and affirmations, examine witnesses, take evidence, continue said hearing from time to time and to such places as he may direct by announcements at said hearing or any adjourned hearing or by subsequent notice, prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

The matter concerned herewith is in regard to the complaint filed by District Board 4, alleging wilful violation by the above-named code member of the Bituminous Coal Code or rules and regulations thereunder, as follows: That the code member between October 1, 1940, and December 30, 1940, inclusive, sold a substantial quantity of 2" lump coal and mine run coal produced at its mine (Mine Index No. 2314) located in Mahoning County, Ohio, in District 4, for shipment via truck at a price of $2.50 per ton f. o. b. the mine for the 2" lump coal and at a price of $2.25 per ton f. o. b. the mine for the mine run coal, which prices were below the effective minimum prices for said coals as set forth in the schedule of Effective Minimum Prices for District No. 4 for Truck Shipments.

Notice is also hereby given that if it shall be determined that the code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the code member in the Bituminous Coal Code or directing the code member to cease and desist from violating the Bituminous Coal Code and regulations made thereunder.

Dated: March 24, 1942.

Agricultural Marketing Administration.

[Docket No. AO 72-A 5]

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO THE TENTATIVELY APPROVED MARKETING AGREEMENT, AS AMENDED, AND ORDER NO. 30, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE TOLEDO, OHIO, MARKETING AREA, INCLUDING A PROPOSAL TO INCREASE THE MARKETING AREA

Notice is hereby given of a hearing to be held at the Waldorf Hotel, Toledo, Ohio, beginning at 10:00 a. m., e. w. t., March 30, 1942, with respect to proposed amendments to the tentatively approved marketing agreement, as amended, and Order No. 30, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area, including a proposal to increase the marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the General Regulations of the Surplus Marketing Administration, United States Department of Agriculture (7 CFR 900.4).

This public hearing is for the purpose of receiving evidence with respect to the amendments which are hereinafter set forth in detail. These amendments have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the provisions to which such amendments relate. The amendments which have been proposed are as follows:

A. *Proposed by the Northwestern Cooperative Sales Association.*

1. Delete § 930.1 (a) (2) and substitute therefor the following:

(2) The term "Toledo, Ohio, marketing area," hereinafter called the "marketing area," means the territory within the corporate limits of the city of Toledo and the towns and villages of Ottawa Hills, Maumee, Sylvania, Harbor View, Rossford, and Trilby, in Lucas County, also the townships of Monclova, Springfield, Adams, Sylvania, Washington, and Oregon in Lucas County, and the township of Perrysburg, in Wood County, all in the State of Ohio, and the city of Monroe and village of Lakeside in Monroe County, and the townships of Whiteford, Bedford, Erie, LaSalle, Monroe, and Frenchtown, Monroe County, all in the State of Michigan.

2. Delete paragraphs (d) and (e) of § 930.4 and substitute therefor the following:

(d) *Computation of milk in each class.* For each delivery period, each handler shall compute, in the manner and on forms prescribed by the market administrator, the amount of milk in each class, as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk (a) received from producers, (b) produced by him, if any, (c) received from other handlers, if any, (d) received from other sources, if any, and (e) add together the resulting amounts.

(2) Determine the total pounds of butterfat received as follows: (a) multiply the weight of the milk received from producers by its average butterfat test, (b) multiply the weight of the milk produced by him, if any, by its average butterfat test, (c) multiply the weight of the milk received from other handlers, if any, by its average butterfat test, (d) multiply the weight of the milk received from other sources, if any, by its average butterfat test, and (e) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (a) convert to quarts the quantity of milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 2.15 (b) multiply the result by the average butterfat test of such milk, and (c) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to subparagraphs (4) (b) and (5) (b) of this paragraph, is less than the total pounds of butterfat received computed in accordance with subparagraph (2) of this paragraph, an amount equal to the difference shall be divided by 3.5 percent and added to the quantity of milk determined pursuant to (a) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (a) multiply the actual weight of each of the several products of Class II milk by its average butterfat test, (b) add together the resulting amounts, and (c) divide the result obtained in (b) of this subparagraph by 3.5 percent.

(5) Determine the total pounds of milk in Class III as follows: (a) multiply the actual weight of each of the several products of Class III milk by its average butterfat test, (b) add together the resulting amounts, (c) subtract the total pounds of butterfat in Class I milk and Class II milk, computed pursuant to subparagraphs (3) (b) and (4) (b) of this paragraph, and the total pounds of butterfat computed pursuant to (b) of this subparagraph, from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shinkage allowance exceed 3 percent of the total receipts of butterfat from producers and new producers by the handler) and shall be added to the result obtained in (b) of this subparagraph, and (d) divide the result obtained in (b) of this subparagraph by 3.5 percent.

(6) Determine the classification of milk received from producers and new producers as follows:

(i) Subtract pro rata out of each class the quantity of milk received from the handler's own farm.

(ii) Subtract from the total pounds of milk in each class the total pounds of milk which were received from other handlers and used in such class.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from producers.* (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is less than the receipts of milk from producers and new producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and new producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is greater than the receipts of milk from producers and new producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and new producers and the total utilization of milk by classes for such handler.

3. Delete subparagraphs (1), (2), and (3) of paragraph (a) of § 930.5, and substitute therefor the following:

(1) Class I milk—The price per hundredweight for Class I milk shall be $2.95 per hundred: *Provided*, That with respect to Class I milk disposed of by such handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price per hundredweight shall be such price for Class I milk less 46 cents.

(2) Class II milk—The price per hundredweight for Class II milk shall be the price for Class III milk determined by the market administrator pursuant to subparagraph (3) of this paragraph, plus 20 cents.

(3) Class III milk—The price per hundredweight for Class III milk shall be the price resulting from the following computation by the market administrator: determine the average of the basic, or field, prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the delivery period at the following plants and subtract 5 cents:

Concern:	*Location of plant*
Van Camp Milk Company...	Wauseon, Ohio.
Pet Milk Company.....	Delta, Ohio.
Pet Milk Company.....	Hudson, Mich.

Provided, That if the price so determined is less than the price per hundredweight computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and add 30 percent thereof.

4. Add as § 930.5 (c) the following:

(c) The classification prices effective in the city of Monroe and the Townships LaSalle, Monroe, and Frenchtown, all in the State of Michigan shall be the same as those set forth in paragraph (a), section 930.5, except that the Class I price in these four subdivisions of the State of Michigan shall be 20 cents lower than the Class I price set forth in subparagraph (1), paragraph (a), § 930.5.

5. Delete § 930.7 (a) and substitute therefor the following:

Payment for milk. (a) *Time and method of payment.* On or before the last day of each delivery period, each handler shall pay, with respect to all milk received during the first 15 days of such delivery period, the prices per hundredweight which equals such handler's blend price for milk testing 3.5 percent butterfat as announced by the market administrator for the preceding delivery period to each of his producers and one-half of such blend price to each of his new producers. In event any producer or new producer discontinues shipping during any delivery period, or delivers during the last 15 days of the delivery period less than 60 percent of his deliveries for the first 15 days, such producer shall receive $1.50 per hundredweight for milk delivered during the first 15 days of the delivery period and such new producer 75 cents per hundredweight for milk delivered during the first 15 days of the delivery period.

6. Delete from § 930.7 and all other sections, such paragraphs and subparagraphs as may be necessary to terminate the market sharing amendment.

B. *Proposed by Dairy and Poultry Branch.* 1. Reconsider the butterfat differential provided under § 930.7 (d).

2. Delete § 930.5 (b).

3. Reconsider § 930.1 (a) (4) and § 930.1 (a) (5).

It is hereby declared that an emergency exists in the handling of milk in the aforesaid area which requires a shorter period of notice than fifteen days, and it is hereby determined that the period of notice given is reasonable under the circumstances.

Additional copies of this notice of hearing and copies of Order No. 30, as amended, now in effect, may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0312, South Building, Washington, D. C., or may be there inspected.

IN THE MATTER OF THE CENTRAL KANSAS POWER COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23rd day of March, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named party; and

Notice is further given that any interested person may, not later than April 1, 1942 at 5:30 p. m., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

The Central Kansas Power Company, a subsidiary of United Utilities, Incorporated, a registered holding company, proposes to redeem 1,000 shares of its 4¾% Cumulative Preferred Stock at a price of $105 per share, plus accrued dividends thereon to the date of redemption, as provided in the charter of the company. The redemption will be financed by the company out of its current funds.

IN THE MATTER OF FLORIDA POWER CORPORATION, AND FLORIDA WEST COAST TOWING COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of March, A. D. 1942.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named parties;

Notice is further given that any interested persons may, not later than April 10, 1942, at 5:30 p. m., E. W. T., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing therein. At any time thereafter, such application-declaration, as filed or as amended, may become effective as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania. All interested persons are referred to said application-declaration which is on file in the office of said Commission for a statement of the transactions therein proposed which are summarized below:

Florida Power Corporation proposes to acquire the assets of Florida West Coast Towing Company, a wholly owned subsidiary with no outstanding publicly held obligations, in complete cancellation of the outstanding indebtedness and capital stock of Florida West Coast Towing Company.

As at December 31, 1941 the total capitalization of Florida West Coast Towing Company consisted of 175 shares of common stock with a stated aggregate value of $17,500, and outstanding indebtedness to Florida Power Corporation in the face amount of $6,432.08. The fixed capital of Florida West Coast Towing Company at the same date was stated at $38,635.18. The application-declaration reveals that no appraisal of the assets or of the securities involved in this transaction has been made but it asserted in the filing that, in the opinion of the companies, the book value of the assets of Florida West Coast Towing Company represents actual cost.

The application-declaration further reveals that Florida West Coast Towing Company was organized as a Florida corporation in 1928 as a subsidiary of Florida Power Corporation for the purpose of transporting oil of Florida Power Corporation to be used in its plant at Inglis, Florida, the oil being transported from Port Tampa, Florida. Florida West Coast Towing Company owns a tug which is registered in its name and leases barges from Florida Power Corporation.

The filings have specified sections 9 (a) (1), 10, 12 (c) and 12 (f) and Rule U-43 of the Act as being, in the judgment of the applicants-declarants, applicable to the proposed transactions.

IN THE MATTER OF YORK RAILWAYS COMPANY, DEBTOR IN POSSESSION

Applications by: Saul, Ewing, Remick & Harrison, Counsel for York Railways Company; Manuel Kraus, Special Counsel for York Railways Company; Tradesmens National Bank and Trust Company, Trustee for Bond Holders of York Railways Company; Evans, Bayard and Frick, Counsel for Tradesmens National Bank and Trust Company; Day & Zimmerman, Inc., Expert Witnesses for York Railways Company.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of March, A. D. 1942.

Notice is hereby given that applications have been filed by Saul, Ewing, Remick & Harrison, as counsel for York Railways Company debtor in possession; Manuel Kraus, as special counsel for said Debtor; Tradesmens National Bank and Trust Company, as trustee under the indenture of said Debtor; Evans, Bayard and Frick, as counsel for Tradesmens National Bank and Trust Company; and Day & Zimmerman, Inc., Engineers, expert witnesses for said Debtor, pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935 and Rule U-63 of the General Rules and Regulations promulgated thereunder, for approval by the Commission of the maximum amount that may be paid to said applicants for services rendered in connection with the reorganization of York Railways Company, a subsidiary of NY PA NJ Utilities Company, a registered holding company and an indirect subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company, such reorganization of said York Railways Company, in which the Debtor is in possession, being now pending before the United States District Court for the Eastern District of Pennsylvania.

Applicants seek approval of the following maximum amounts for allowances for the following services rendered:

Saul, Ewing, Remick & Harrison, as counsel to the Debtor (interim)	$20,000.00
Manuel Kraus, as special counsel to the Debtor in regard to tax matters	6,000.00
Tradesmens National Bank and Trust Company, as indenture trustee	2,500.00
Evans, Bayard and Frick, as counsel to the indenture trustee	5,000.00
Day & Zimmerman, Inc., as expert witnesses for the Debtor in matters before a special master	623.46

The request of Tradesmens National Bank and Trust Company is in addition to the annual payment of $500 it has been receiving as indenture trustee, the last of these $500 payments being for the period ended May 31, 1942.

It appearing to the Commission that it is appropriate and in the public interest and in the interest of investors and consumers that a hearing be held in connection with said application;

It is ordered, That a hearing on such matters under the applicable provisions of the Act and the Rules of the Commission thereof, be held at 10:00 a. m., on April 14, 1942, at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the Hearing Room Clerk will advise as to the room where such hearing will be held.

It is further ordered, That William W. Swift or any other officer of the Commission designated for that purpose shall preside at that hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said applications, particular attention be directed at said hearing to the following matters and questions:

1. Whether the efforts of individual applicants have been of any benefit to, necessary, or in the interest of, the York Railways Company, security holders of the Debtor, or the general public;

2. Whether the services for which compensation is sought were appropriately performed in compliance with the provisions of the Public Utility Holding Company Act of 1935 and of other applicable statutes;

3. Whether any of the individual applicants have represented conflicting claims;

4. Generally, whether such requests for compensation as presented are reasonable, in light of time spent, amount of charges in relation to the size of the estate of the Debtor, effect on financial condition of York Railways Company, extent of unnecessary duplication of effort, and other relevant factors;

Notice is further given that any interested public agency, municipality, security holder, or other person desiring to be heard or to intervene in such proceeding may file an appropriate notice, request, or application for that purpose with the Commission not later than April 11, 1942, stating the reasons for such request and the nature of his interest. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

By the Commission.

IN THE MATTER OF THE CENTRAL KANSAS POWER COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23rd day of March, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named party; and

Notice is further given that any interested person may, not later than April 1, 1942 at 5:30 p. m., E. S. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

The Central Kansas Power Company, a subsidiary of United Utilities, Incorporated, a registered holding company, proposes to redeem 1,000 shares of its 4¾% Cumulative Preferred Stock at a price of $105 per share, plus accrued dividends thereon to the date of redemption, as provided in the charter of the company. The redemption will be financed by the company out of its current funds.

IN THE MATTER OF FLORIDA POWER CORPORATION, AND FLORIDA WEST COAST TOWING COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of March, A. D. 1942.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above named parties;

Notice is further given that any interested persons may, not later than April 10, 1942, at 5:30 p. m., E. W. T., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing therein. At any time thereafter, such application-declaration, as filed or as amended, may become effective as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania. All interested persons are referred to said application-declaration which is on file in the office of said Commission for a statement of the transactions therein proposed which are summarized below:

Florida Power Corporation proposes to acquire the assets of Florida West Coast Towing Company, a wholly owned subsidiary with no outstanding publicly held obligations, in complete cancellation of the outstanding indebtedness and capital stock of Florida West Coast Towing Company.

As at December 31, 1941 the total capitalization of Florida West Coast Towing Company consisted of 175 shares of common stock with a stated aggregate value of $17,500, and outstanding indebtedness to Florida Power Corporation in the face amount of $6,432.08. The fixed capital of Florida West Coast Towing Company at the same date was stated at $38,635.18. The application-declaration reveals that no appraisal of the assets or of the securities involved in this transaction has been made but it asserted in the filing that, in the opinion of the companies, the book value of the assets of Florida West Coast Towing Company represents actual cost.

The application-declaration further reveals that Florida West Coast Towing Company was organized as a Florida corporation in 1928 as a subsidiary of Florida Power Corporation for the purpose of transporting oil of Florida Power Corporation to be used in its plant at Inglis, Florida, the oil being transported from Port Tampa, Florida. Florida West Coast Towing Company owns a tug which is registered in its name and leases barges from Florida Power Corporation.

The filings have specified sections 9 (a) (1), 10, 12 (c) and 12 (f) and Rule U-43 of the Act as being, in the judgment of the applicants-declarants, applicable to the proposed transactions.

By the Commission.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of March, A. D. 1942.

Notice is hereby given that applications have been filed by Saul, Ewing, Remick & Harrison, as counsel for York Railways Company debtor in possession; Manuel Kraus, as special counsel for said Debtor; Tradesmens National Bank and Trust Company, as trustee under the indenture of said Debtor; Evans, Bayard and Frick, as counsel for Tradesmens National Bank and Trust Company; and Day & Zimmerman, Inc., Engineers, expert witnesses for said Debtor, pursuant to section 11 (f) of the Public Utility Holding Company Act of 1935 and Rule U-63 of the General Rules and Regulations promulgated thereunder, for approval by the Commission of the maximum amount that may be paid to said applicants for services rendered in connection with the reorganization of York Railways Company, a subsidiary of NY PA NJ Utilities Company, a registered holding company and an indirect subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company, such reorganization of said York Railways Company, in which the Debtor is in possession, being now pending before the United States District Court for the Eastern District of Pennsylvania.

Applicants seek approval of the following maximum amounts for allowances for the following services rendered:

Saul, Ewing, Remick & Harrison, as counsel to the Debtor (interim)	$20,000.00
Manuel Kraus, as special counsel to the Debtor in regard to tax matters	6,000.00
Tradesmens National Bank and Trust Company, as indenture trustee	2,500.00
Evans, Bayard and Frick, as counsel to the indenture trustee	5,000.00
Day & Zimmerman, Inc., as expert witnesses for the Debtor in matters before a special master	623.46

The request of Tradesmens National Bank and Trust Company is in addition to the annual payment of $500 it has been receiving as indenture trustee, the last of these $500 payments being for the period ended May 31, 1942.

It appearing to the Commission that it is appropriate and in the public interest and in the interest of investors and consumers that a hearing be held in connection with said application;

It is ordered, That a hearing on such matters under the applicable provisions of the Act and the Rules of the Commission thereof, be held at 10:00 a. m., on April 14, 1942, at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the Hearing Room Clerk will advise as to the room where such hearing will be held.

It is further ordered, That William W. Swift or any other officer of the Commission designated for that purpose shall preside at that hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That without limiting the scope of issues presented by said applications, particular attention be directed at said hearing to the following matters and questions:

1. Whether the efforts of individual applicants have been of any benefit to, necessary, or in the interest of, the York Railways Company, security holders of the Debtor, or the general public;

2. Whether the services for which compensation is sought were appropriately performed in compliance with the provisions of the Public Utility Holding Company Act of 1935 and of other applicable statutes;

3. Whether any of the individual applicants have represented conflicting claims;

4. Generally, whether such requests for compensation as presented are reasonable, in light of time spent, amount of charges in relation to the size of the estate of the Debtor, effect on financial condition of York Railways Company, extent of unnecessary duplication of effort, and other relevant factors;

Notice is further given that any interested public agency, municipality, security holder, or other person desiring to be heard or to intervene in such proceeding may file an appropriate notice, request, or application for that purpose with the Commission not later than April 11, 1942, stating the reasons for such request and the nature of his interest. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

By the Commission.

Regulations for the Control of the Above Described Maritime Control Areas

1. A vessel not proceeding under United States naval or other United States authorized supervision shall not enter or navigate the waters of the said Maritime Control Areas except during daylight, when good visibility conditions prevail, and then only after specific permission has been obtained. Advance arrangements for entry into or navigation through or within the said Areas must be made, preferably by application at a United States Naval District Headquarters in advance of sailing, or by radio or visual communication on approaching the seaward limits of the area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 kcs, and permission to enter the port requested. The name of the vessel, purpose of entry, and name of master must be given in the request. If visual communications are used, the procedure shall be essentially the same.

2. Even though permission has been obtained, it is incumbent upon a vessel entering the said Areas to obey any further instructions received from the United States Navy, or other United States authority.

3. A vessel may expect supervision of its movements within the said Areas, either through surface craft or aircraft. Such controlling surface craft and aircraft shall be identified by a prominent display of the Union Jack.

4. These regulations may be supplemented by regulations of the local United States naval authority as necessary to meet local circumstances and conditions.

5. Should any vessel or person within the said Areas disregard these regulations, or regulations issued pursuant hereto, or fail to obey an order of the United States naval authority, or perform any act threatening the efficiency of mine or other defenses, or take any action therein inimical to the defense of the United States, such vessel or person may be subjected to the force necessary to require compliance, and may be liable to detention or arrest, or penalties or forfeiture, in accordance with law.

The Secretary of the Navy is charged with the enforcement of these regulations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of March in the year of our Lord nineteen hundred and
[SEAL] forty-two, and of the Independence of the United States of America the one hundred and sixty-sixth.

Rules, Regulations, Orders

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 36—CLAIMS AGAINST THE UNITED STATES[1]

§ 36.55 *Claims for damages occasioned by Army forces in foreign countries*—(a) *Claims Commission, duties.* The duties of the Commissions will be to consider, adjust, determine and make payment in full settlement of bona fide claims on account of damages caused by Army forces or individual members thereof, in a foreign country or possession thereof, including places located therein which are under the temporary or permanent jurisdiction of the United States, to the property, public or private, or the persons of inhabitants of such foreign countries where the amount of such claim does not exceed $1,000.

(b) *Application and scope*—(1) *Application.* The word "inhabitant" as used herein refers only to one who dwells or resides permanently in the country or possession in which the claim arose. The following classes of claimants are excluded:

(i) Army, Navy, and Marine Corps personnel.

(ii) Nationals or citizens of foreign countries at war with the United States.

(iii) United States citizens not permanent residents of the country involved.

(2) *Scope.* (i) No claim will be allowed where the evidence establishes that the damage has been caused in whole or in part by any negligence on the part of the claimant, his agent, or employee, when such negligence proximately caused or contributed to the damage.

(ii) With the exceptions set forth above, all other bona fide claims are within the statute, notwithstanding the fact that the damage may have been caused by officers or employees of the Government, acting outside the scope of their employment.

(c) *Procedure.* When any claim arises under this section claimant should submit his claim in writing to the commanding officer of the nearest Army post, camp, station, or force as provided in § 36.6. Upon the receipt of such a claim, the commanding officer will promptly refer it in the usual manner to an investigating officer or board of officers, as the case appears to warrant, who will take the action prescribed in § 36.7 so far as applicable, and subject to any special instructions which may be issued. The investigating officer or board of officers will not advise the claimant as to the merits of his claim or the action taken thereon unless and until so instructed by the Commission.

(d) *Action taken by Commission.* The Commission will consider the report of the investigating officer or board of officers which investigated the claim, together with the evidence attached thereto, and may base its award on that report, if deemed satisfactory, or may return it to the appointing authority for further action, or may make an independent investigation. Upon final action by the Commission upon the claim, the Commission will notify the claimant through official channels of the award made. If the claim as originally made or as amended does not exceed $1,000 and the claimant agrees to accept in writing the approved award in final settlement of the claim, the original and one copy of the claim, and the original and one copy of the award bearing the appropriate approval of the Commission will be filed with the disbursing officer making the payment. The president of the Commission will certify vouchers in payment of approved claims out of the appropriation "Pay of the Army" current at the date of payment.

(e) *Claims not within jurisdiction of Commission.* Claims which do not fall within the jurisdiction of the Commission will be returned to the proper military authority for disposition as prescribed in § 36.7a. (Act of January 2, 1942, Public Law 393—77th Congress) [AR 35-7090, Feb. 10, 1942, and letter AGO March 4, 1942, AG 150 (2-20-42) OF]

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1329]

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 2, FOR CHANGES IN FREIGHT ORIGIN GROUP NUMBERS AND SHIPPING POINTS FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 2 FOR RAIL SHIPMENTS

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party for changes in Freight Origin Group Numbers and shipping points for the coals of certain mines in District No. 2 for rail shipments; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 322.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, and § 322.9 (*Special prices*—(c) *Railroad fuel*) is amended by adding thereto Supplement R–II, which supplements are hereinafter set forth and hereby made a part hereof, and commencing forthwith the Freight Origin Group Numbers and shipping points appearing in the aforesaid Supplement R–I for the mines mentioned therein are effective in place of the Freight Origin Group Numbers and shipping points heretofore established for these mines.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 14, 1942.

[Docket No. A–1076, Part II]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION, AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF ADDITIONAL SHIPPING POINTS FOR THE COALS OF FRED S. GEER, INC., JIMTOWN MINE, MINE INDEX NO. 299, IRISH RIDGE COAL CO., IRISH RIDGE-DEEP MINE, MINE INDEX NO. 234, IRISH RIDGE COAL CO., IRISH RIDGE-STRIP MINE, MINE INDEX NO. 247, GEORGE LANTZ, LANTZ COAL CO. MINE, MINE INDEX NO. 2465, AND MINERAL CITY COAL CO., BLACK MINE, MINE INDEX NO. 278, IN DISTRICT NO. 4

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on September 19, 1941, by District Board 4, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the establishment of price classifications and minimum prices and dual shipping points, for all shipments except truck, for Jimtown Mine (Mine Index No. 299) of Fred S. Geer, Inc., Irish Ridge-Deep Mine (Mine Index No. 234) and Irish Ridge-Strip Mine (Mine Index No. 247) of Irish Ridge Coal Co. (Eugene Campbell), Lantz Coal Co. Mine (Mine Index No. 2465) of George Lantz, and Black Mine (Mine Index No. 278) of Mineral City Coal Co. (William T. Laughlin.)[1]

By order dated November 18, 1941, 6 F.R. 6536, temporary relief was granted by establishing price classifications and minimum prices for coals produced at Mine Index Nos. 234, 247, 278, 299, and 2465, and by establishing, for each of these mines, the one shipping point, of the two requested, which appeared to be nearest to the particular mine.

[1] The petition herein, originally designated as Docket No. A–1076, requested the establishment of price classifications and minimum prices for the coals produced at various other mines of code members in District 4. By Order dated November 18, 1941, 6 F.R. 6279, that part of the petition relating to price classifications and minimum price and dual shipping points, for all shipments except truck, for the above-mentioned coals was severed from the remainder of Docket No. A–1076 and was designated as Docket No. A–1076, Part II. By Order of November 18, 1941, in Docket No. A–1076, granting temporary and conditionally final relief, *inter alia*, minimum prices for truck shipments were established for coals produced at the Jimtown Mine (Mine Index No. 299) and the Black Mine (Mine Index No. 278).

District Board 2 filed a petition of intervention.

Pursuant to an Order of the Director and after due notice to all interested persons, a hearing in this matter was held on December 16, 1941, before Charles O. Fowler, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. The petitioner, District Board 4, the intervener, District Board 2, and Fred S. Geer appeared. Preparation and filing of a report by the Examiner was waived, and the matter was thereupon submitted to the undersigned.

Fred S. Geer, president and treasurer of Fred S. Geer, Inc., the code member operator of Jimtown Mine (Mine Index No. 299), appeared at the hearing in response to a registered letter from District Board 4. This letter was identical with letters sent by the petitioner by registered mail to each of the producers whose mines are involved in this proceeding. The letter stated that it would be necessary for the respective producers to attend the hearing and give their reasons for the necessity of having additional shipping points, such reasons being entirely within the knowledge of the producers.

The petition requested both East Palestine, Ohio, on the Pennsylvania Railroad ("PRR"), and Negley, Ohio, on the Pittsburgh, Lisbon and Western Railroad ("PL&N") as the shipping points for the Jimtown Mine.

Geer, the only witness, testified as follows:

The Jimtown Mine is located about the same distance by road—namely 3 miles—from both East Palestine and Negley. Fred S. Geer, Inc., owns and controls its shipping facilities at Negley, but has occasionally used the facilities of another at East Palestine for the shipment of coals produced at its other mines. The same markets are reached from each point and at the same freight rates. Operation of Jimtown Mine was begun in November 1941, and it is now operating at capacity, producing 300 to 400 tons of coal daily. No coal produced at the Jimtown Mine had been shipped by rail at the time of the hearing, but the intention was to ship, in the near future, 200 to 300 tons of coal daily by rail from this mine during the summer. East Palestine has not been used recently as a shipping point for coal produced at any of the Geer mines, "except a stray car now and then of particular coal." Service from Negley on the PL&W is said to be "almost perfect." That from East Palestine on the PRR is said to be "terrible", there being great delay in obtaining "empties." East Palestine was requested as an additional shipping point only because shipments of coal from other Geer mines had been formerly made from there when convenient. This producer stated that he was not particularly interested in East Palestine as a shipping point for the Jimtown Mine, as shipment from there is neither necessary nor desirable. Rail movement of Jimtown Coal from Negley to the Geer preparation plants in District 2 for processing is not contemplated.

Accordingly, I find that Negley, Ohio, should be established as the shipping point for the Jimtown Mine, in lieu of East Palestine over the PRR presently established under the Order of November 18, 1941, granting temporary relief.

Witness Geer further testified as follows:

Jimtown Mine is a strip mine now operating in Seam 7, but it probably will soon be operating in Seam 6. Its coals shipped by truck are now selling considerably above the effective minimum prices therefor. The analysis of this coal varies in moisture and B. t. u. content at different locations on the property, depending upon the overburden. An analysis made in September 1941 shows that the coal is especially high grade as compared with other coal from any district. It is higher in moisture, B. t. u. content, and ash fusion point, lower in volatile and ash, and probably lower in carbon than the deep mines of District 4 in Seam 8 having an "O" classification for rail shipments, which is 10 cents higher than the "Q" classification temporarily established for the Jimtown Mine by Order of November 18, 1941. The aforesaid analysis shows the sulphur content of the Jimtown coal is 0.42. The coal is identical in quality with the coal of the Geer mines in District 2 (except the White Mine, Mine Index No. 749), which mines have higher classifications for all shipments except truck than those now temporarily in effect for the Jimtown Mine. However, the witness feels that the prices of the coals produced at the Jimtown Mine for all shipments except truck should be the same as those of the other Columbiana County strip operations in Seams 6 and 7 which have comparable coals.[2] These other coals move to the same markets to which Jimtown railshipped coals would move in competition therewith. The coals are of approximately the same quality as those produced at Jimtown Mine and are all believed to be classified "Q" for all shipments except truck. However, Geer testified that the rail prices of these mines do not reflect accurately the quality of the coals produced, and that there is a wide disparity between the classifications of some coals in District 2 and those of the same quality in District 4.

Although the evidence indicates that, in comparison with the quality of the No. 8 seam coals in District 4 and some strip mine coals in District 2, the coals produced at the Jimtown Mine may be of high enough quality to warrant a higher classification than that proposed, since competing coals in the same seam as the Jimtown coals, said to be of the same quality, are classified "Q", I find that the coals of the Jimtown Mine (Mine Index No. 299) of Fred S. Geer, Inc., for all shipments except truck, should be classified "Q" in Size Groups 1 to 10 and 12 in accordance with the temporary relief now in effect under Order of November 18, 1941, and that the corresponding minimum prices should be assigned thereto.

The representative of District Board 4 stated that, as the operators of the 4 other mines involved in this proceeding failed to appear after notice of the necessity for them to present evidence regarding the need for dual shipping points, the petitioner had no evidence to present on the matter of shipping points for such mines.

Therefore, in the absence of any evidence of necessity for dual shipping points for these mines or evidence that the shipping point for each of the mines now in effect under the temporary Order of November 18, 1941, is unsatisfactory, I find that such shipping points presently in effect should be permanently established for Mine Index Nos. 234, 247, 278, and 2465.

The petition contains the information required under Orders 303 and 305 to be stated therein with regard to the establishment of price classifications and minimum prices. It sets out the names of mines in District 4 alleged to produce coal of similar quality, respectively, to that of each of the mines covered by this proceeding. In each instance, the requested classifications for all shipments except truck are the same as those of the mine with which the comparison is made, which classifications are temporarily in effect under Order of November 18, 1941. No objections were raised at the hearing with respect to the classifications of the mines temporarily in effect. Accordingly, I find that the price classifications now temporarily in effect for Mine Index Nos. 234, 247, 278 and 2465 should be permanently established in Supplements R–I, R–II, R–III, R–IV and R–V attached hereto and made a part hereof, except the temporary relief establishing East Palestine on the PRR as the shipping point in Ohio for the Jimtown Mine, Mine Index No. 299, of Fred S. Geer, Inc.

[2] In this group is the Aken No. 4 Mine (Mine Index No. 3) listed in the petition as producing coal of similar quality to that produced at the Jimtown Mine.

II. By continuing in effect, for fifteen (15) days from the date of this Order, the temporary relief establishing East Palestine, Ohio, on the PRR as the shipping point in Ohio for the Jimtown Mine (Mine Index No. 299) of Fred S. Geer, Inc., and by establishing, commencing thereafter, Negley, Ohio, on the PL&W as the shipping point for said mine, as set forth in Supplement R–I, attached hereto and made a part hereof.

It is further ordered, That in all other respects the prayers for relief contained in the petition be, and they hereby are, granted to the extent set forth above and in all other respects denied.

Dated: March 16, 1942.

DAN H. WHEELER,
Acting Director.

[Docket No. A–1269]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 4

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 4.

The petition requests that the price classifications and minimum prices proposed for the coals of the Owens Mine, Mine Index No. 649, of Heller and Soles Coal Company, a code member in District No. 4, for rail shipments be made effective from McLuney, Ohio, on Pennsylvania Railroad. It appears that McLuney, Ohio, is located about 160 miles from the said mine and that Mingo Junction, Ohio, is located about 2 miles therefrom and is the nearest rail shipping point to the said mine. Accordingly, the price classifications and minimum prices established herein for the coals of the said mine for rail shipments are effective from Mingo Junction, Ohio, on Pennsylvania Railroad in Freight Origin Group No. 15.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, that no partitions of intervention having been filed with the Division in the above-entitled matter; and that the following action is necessary in order to effectuate the purposes of the Act.

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 324.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 324.8 (*Numerical list of mines*) is amended by adding thereto Supplement R–II, § 324.2 (*Seasonal discounts*) is amended by adding thereto Supplement R–III, § 324.9 (*Recapitulation of price classifications*) is amended by adding thereto Supplement R–IV, § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) is amended by adding thereto Supplement R–V, § 324.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein as to the coals of Chilcote's Mine, Mine Index No. 980, of Chilcote Coal Co., Lee Mine, Mine Index No. 2757, of C. M. Farnsworth, Radford Coal Co. Mine, Mine Index No. 1307, of Radford Brothers, D. A. Thomas Mine, Mine Index No. 1317, of D. A. Thomas, Fairview Mine, Mine Index No. 1902, of J. E. Witchey, (Fairview Coal Co.), Centertown Coal Co. Mine, Mine Index No. 1932, of Centertown Coal Co., Tracey Mine, Mine Index No. 1318, of James E. Tracy, Vitko Bros. Mine, Mine Index No. 2998, of T. C. Hutson Company, and Bellaire No. 2 Mine, Mine Index No. 177, of the Bellaire Coal Co., for all shipments except truck, and as to the coals of Keystone No. 1 Mine, of Lawrence Williams (Keystone Coal Co.), and Darwin Coal Co. Mine, of Paul Strawser (Darwin Coal Co.), for all shipments except truck and for truck shipments, for the reasons set forth in the order designating that portion of Docket No. A–1269 relating to such coals as Docket No. A–1269 Part II, and granting, in part, temporary relief therein.

Dated: March 14, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

TEMPORARY AND CONDITIONALLY FINAL EFFECTIVE MINIMUM PRICES FOR DISTRICT NO. 4

NOTE: The material in this supplement is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 324, Minimum Price Schedule for District No. 4 and supplements thereto.

PART 327—MINIMUM PRICE SCHEDULE, DISTRICT NO. 7

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 7 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 7

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 7; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 327.11 (*Low volatile coals: Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 327.34 (*General prices in cents per net ton for shipment into any market area*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 11, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR REVISION OF THE MINIMUM PRICES AND CHANGE IN THE SEAM DESIGNATIONS OF THE CANNEL COALS OF CERTAIN CODE MEMBERS IN MORGAN COUNTY, KENTUCKY, SUBDISTRICT NO. 1, IN DISTRICT NO. 8, FOR TRUCK SHIPMENT

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its petition proposed an increase in the prices heretofore established for the cannel coals of certain code member producers in Morgan County, Kentucky, in Subdistrict 1 of District No. 8.

Pursuant to appropriate orders of the Acting Director and after notice to all interested parties, a hearing was held before Joseph A. Huston, a duly designated Examiner of the Division, at a hearing room of the Division, Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Petitioner, District Board 8, appeared as well as Consumers' Counsel. Preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of District Board 8 herein requested a revision of price classifications and effective minimum prices established for truck shipment for the cannel coals produced at 14 mines in District No. 8.[1] The testimony of a representative of District Board 8 was to the effect that minimum prices were originally established for the coals in question, but that due to errors in designating the seam in which the coals were produced and in failing properly to reflect the differential between inferior cannel coals and the cannel coals of this section, the classifications and minimum prices which were established do not properly reflect the relative value of the coals and they are not in proper coordination with other cannel coals produced in District No. 8.

It appears that the producers themselves desire the increase requested by the District Board and the request is based in part upon the previous market history of the coal.

The prices and classifications sought by the Board will, it was said, effect proper coordination between the cannel coals to which said prices are applied and the cannel coals of inferior quality, as well as place all mines in Morgan County producing cannel coal on a competitive basis with regard to price.

Upon the basis of the uncontroverted evidence, I find and conclude that the classifications and minimum prices as well as the seam designations shown in the schedule hereto attached for the coals specified therein are proper and should be established; that such classifications and minimum prices conform in all respects to those heretofore established for comparable coals in District No. 8 and will preserve the fair competitive opportunities for the producers of said coal.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: March 13, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

[1] The Notice of and Order for Hearing, dated December 19, 1941, specifically mentioned only eight code member producers. An additional six are named in the petition of the District Board. However, the subject matter in general was stated to be "revision of the minimum prices and change in the seam designations to increase the prices of the cannel coals of certain code members in Morgan County, Kentucky, Subdistrict No. 1 in District No. 8 for truck shipment" and, therefore, since the evidence was directed to the 14 mines, it appears appropriate to grant relief to all fourteen.

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR A REVISION OF THE MINIMUM PRICES AND A CHANGE IN THE SEAM DESIGNATIONS FOR THE COALS OF CERTAIN MINES IN LEE COUNTY, VIRGINIA, SUBDISTRICT NO. 7, AND HARLAN COUNTY, SUBDISTRICT NO. 2, IN DISTRICT NO. 8, FOR TRUCK SHIPMENT

This proceeding was instituted upon a petition filed with Bituminous Coal Division by District Board No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its petition proposed certain changes in the effective minimum prices heretofore established and certain changes in seam designation for the mines of certain code member producers in Lee County, Virginia and Harlan County, Kentucky.

In accordance with an Order of the Acting Director dated December 19, 1941, and after notice to all interested parties, a hearing was held before Joseph A. Huston, a duly designated Examiner of the Division, at a hearing room of the Division at Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board 8, and the Bituminous Coal Consumers' Counsel appeared. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of District Board 8 herein requested a revision of the price classifications and effective minimum prices for truck shipments for the coals produced at twenty-nine mines located in Lee County, Virginia, and one mine located in Harlan County, Kentucky; and a change in seam name only of four mines in Lee County, Virginia.

The uncontroverted testimony of the representative of District Board 8 shows that minimum prices were originally established for the coals in question but that due to errors in properly designating the seams in which the coals were produced, the classifications and minimum prices which were established do not properly reflect the relative value of the coals and they are not in proper coordination with other coals produced in District No. 8. The effect of the changes proposed would be to establish for the mines listed the proper prices applicable to the coals from the seams in which such mines are actually producing their coals.

It appears that in some cases the change in seam designation will result in an increase in the effective minimum price, while in others the change in seam designation will result in a decrease of the established price. In the case of four mines in Lee County, Virginia, the change in seam designation will not result in any change in prices or classifications. However, according to the testimony, the prices proposed for mines in each of these seams are identical with the prices at present effective for other mines located in the same seam.

The classifications and prices proposed by the Board will, it appears, reflect proper coordination between the coals to which said prices apply and competing coals.

Upon the basis of the uncontroverted evidence, I find that the classifications and minimum prices as well as the seam designations shown in the schedule hereto attached for the coals specified therein are proper and should be established; that such classifications and minimum prices conform in all respects to those heretofore established for comparable coals in District No. 8 and will preserve the fair competitive opportunities for the producers of said coal.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 328.34 (*General prices for high volatile coals in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: March 10, 1942.

Acting Director.

PART 332—MINIMUM PRICE SCHEDULE, DISTRICT NO. 12

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 12 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 12

An original petition, as amended, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 12; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 332.2 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 332.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 11, 1942.

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE RIVERSIDE MINE (MINE INDEX NO. 1261) OF THE PRATT-AMERICAN COAL COMPANY, AND THE CROSS ROAD MINE (MINE INDEX NO. 171) OF L. B. BAIRD

A petition having been filed in Docket No. A-1049 with the Bituminous Coal Division on September 4, 1941, by District Board No. 13, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for certain coals in District 13 for all shipments except truck and for truck shipments;

Temporary relief (which has since become permanent) having been granted in Docket No. A-1049 by Order of the Director dated October 17, 1941; 6 F.R. 5672, for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13, and specifically denying relief to the Riverside Mine (Mine Index No. 1261) of Pratt-American Coal Company, and Cross Road Mine (Mine Index No. 171) of L. B. Baird, these mines being affected by unique considerations set forth in a separate Order of the Director dated October 17, 1941, 6 F.R. 5651, severing from Docket No. A-1049 and designating as Docket No. A-1049, Part II that portion of the Docket relating to Mine Index No. 1261 and Mine Index No. 171;

A hearing having been held in this matter pursuant to an Order of the Director, on November 19, 1941, before Joseph D. Huston, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The preparation and filing of a report by the Examiner having been waived and the record in the proceeding having been submitted to the undersigned;

The undersigned having made Findings of Fact, Conclusions of Law, and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That commencing fifteen (15) days from the date of this Order, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, and § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof and the shipping points designated therein for Mine Index Nos. 1261 and 171 shall be in lieu of those previously designated.

It is further ordered, That the prayers of the original petition are granted to the extent set forth above, and in all other respects are denied.

Dated: March 17, 1942.

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 1 TO SUPPLEMENTARY ORDER NO. M-15-b-1 TO RESTRICT THE USE AND SALE OF RUBBER

Section 940.5 (*Supplementary Order No. M-15-b-1*[1]) is hereby amended as follows:

1. By changing subparagraph (b) (7) thereof to read as follows:

(7) Tires, tire casings, tire tubes, capping stock and camelback and compounds therefor. List 7

2. By substituting the attached lists designated Lists 6 and 7 for Lists 6 and 7, respectively, now attached to such Order.

3. By changing subdivision (a) of List 9 attached thereto to read as follows:

(a) Compounds used in the manufacture of tires and tire casings to fill War Orders shall be prepared in accordance with the specifications set forth in subdivision (a) of List 7 attached to this Order as such List may be revised from time to time.

4. By inserting the following new paragraph at the end of subdivision (b) of List 9 attached thereto:

With the types of formulas specified above, and with mold and gauges selected, a manufacturer can calculate the maximum amounts of rubber and whole tire reclaimed rubber which may be used in the manufacture of a tire or tire casing of any specified type and size. Within the maximum amounts of rubber thus calculated, a manufacturer may, in his discretion, shift the amounts between friction and tread, but may not use in the manufacture of any tire or tire casing more rubber or more whole tire reclaimed rubber than would be used in the manufacture of such tire or tire casing if the above specifications for

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 932—CORK AND PRODUCTS AND MATERIALS OF WHICH CORK IS A COMPONENT

AMENDMENT NO. 1 OF GENERAL PREFERENCE ORDER NO. M-8-A

Section 932.2 (General Preference Order No. M-8-a[1]) is hereby amended as follows:

Paragraph (a) (2) is amended to read as follows:

§ 932.2 *General Preference Order M-8-a.* (a) * * *

(2) The term "supplier" is hereby defined as any person in the United States who engages in the importation, sale, manufacture, or processing of Cork, or in the importation of manufactured Cork in finished or semi-finished form.

Paragraph (e) (2) is amended to read as follows:

(e) * * *

(2) Notwithstanding any general authorization for the processing or delivery of finished crowns granted in any monthly allocation schedule, except as authorized by the Director of Industry Operations no person shall make or receive delivery of crowns with cork discs, except for defense orders, for retail delivery for home usage, or for delivery beyond the limits of the continental United States, unless the purchaser to whom such crowns are to be delivered shall furnish to the seller a properly executed certificate on Form PD 384, certifying that the total of the crowns to be delivered under such certificate, all other crowns with cork discs owned or controlled by the purchaser, and all undelivered crowns with cork discs of which delivery has been requested by the purchaser, do not exceed 20% of the crowns with cork discs used or resold by the purchaser during the calendar year 1941.

Paragraph (f) is amended to read as follows:

(f) *Effective date.* This Order shall take effect on the First day of October, 1941; and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. tread and friction were followed, after allowing for tolerances permitted.

5. By changing subdivision (g) of List 9 attached thereto to read as follows:

(g) Maximum material volumes of tire tubes for passenger automobile tires and truck tires shall be subject to the limitations for those types of tubes as set forth in subdivision (d) of List 7 attached to this Order, as such List may be revised from time to time.

6. By inserting the figure "0" opposite the words "Twist to left—maximum degrees per foot" in each of the columns headed "1½ inch" and "2½ inch" under the heading "Single Jacket" in paragraph (8) of List 10 attached thereto.

7. By inserting the following new subparagraph immediately after subparagraph (b) (10) thereof:

(11) Truck tire flaps. List 11.

8. By attaching thereto the attached additional list designated List 11.

This Order and the specifications set forth in the lists attached hereto become effective on March 23, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Part 333—Minimum Price Schedule. District No. 13

ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE RIVERSIDE MINE (MINE INDEX NO. 1261) OF THE PRATT-AMERICAN COAL COMPANY, AND THE CROSS ROAD MINE (MINE INDEX NO. 171) OF L. B. BAIRD

A petition having been filed in Docket No. A-1049 with the Bituminous Coal Division on September 4, 1941, by District Board No. 13, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for certain coals in District 13 for all shipments except truck and for truck shipments;

Temporary relief (which has since become permanent) having been granted in Docket No. A-1049 by Order of the Director dated October 17, 1941; 6 F.R. 5672, for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13, and specifically denying relief to the Riverside Mine (Mine Index No. 1261) of Pratt-American Coal Company, and Cross Road Mine (Mine Index No. 171) of L. B. Baird, these mines being affected by unique considerations set forth in a separate Order of the Director dated October 17, 1941, 6 F.R. 5651, severing from Docket No. A-1049 and designating as Docket No. A-1049, Part II that portion of the Docket relating to Mine Index No. 1261 and Mine Index No. 171;

A hearing having been held in this matter pursuant to an Order of the Director, on November 19, 1941, before Joseph D. Huston, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduced testimony, and the record in the proceeding having been submitted to the undersigned:

The undersigned having made Findings of Fact, Conclusions of Law, and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That commencing fifteen (15) days from the date of this Order, § 333.6 (*General prices*) is amended by adding thereto Supplement R-I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R-II, and § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof and the shipping points designated therein for Mine Index Nos. 1261 and 171 shall be in lieu of those previously designated.

It is further ordered, That the prayers of the original petition are granted to the extent set forth above, and in all other respects are denied.

Dated: March 17, 1942.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 932—CORK AND PRODUCTS AND MATERIALS OF WHICH CORK IS A COMPONENT

AMENDMENT NO. 1 OF GENERAL PREFERENCE ORDER NO. M-8-A

Section 932.2 (General Preference Order No. M-8-a[1]) is hereby amended as follows:

Paragraph (a) (2) is amended to read as follows:

§ 932.2 *General Preference Order M-8-a.* (a) * * *

(2) The term "Supplier" is hereby defined as any person in the United States who engages in the importation, sale, manufacture, or processing of Cork, or in the importation of manufactured Cork in finished or semi-finished form.

Paragraph (e) (2) is amended to read as follows:

(e) * * *

(2) Notwithstanding any general authorization for the processing or delivery of finished crowns granted in any monthly allocation schedule, except as authorized by the Director of Industry Operations no person shall make or receive delivery of crowns with cork discs, except for defense orders, for retail delivery for home usage, or for delivery beyond the limits of the continental United States, unless the purchaser to whom such crowns are to be delivered shall furnish to the seller a properly executed certificate on Form PD 384, certifying that the total of the crowns to be delivered under such certificate, all other crowns with cork discs owned or controlled by the purchaser, and all undelivered crowns with cork discs of which delivery has been requested by the purchaser, do not exceed 20% of the crowns with cork discs used or resold by the purchaser during the calendar year 1941.

Paragraph (f) is amended to read as follows:

(f) *Effective date.* This Order shall take effect on the First day of October, 1941; and shall continue in effect until revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

This amendment shall take effect immediately.

Issued this 26th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 1 TO SUPPLEMENTARY ORDER NO. M-15-b-1 TO RESTRICT THE USE AND SALE OF RUBBER

Section 940.5 (*Supplementary Order No. M-15-b-1*[1]) is hereby amended as follows:

1. By changing subparagraph (b) (7) thereof to read as follows:

(7) Tires, tire casings, tire tubes, capping stock and camelback and compounds therefor. List 7

2. By substituting the attached lists designated Lists 6 and 7 for Lists 6 and 7, respectively, now attached to such Order.

3. By changing subdivision (a) of List 9 attached thereto to read as follows:

(a) Compounds used in the manufacture of tires and tire casings to fill War Orders shall be prepared in accordance with the specifications set forth in subdivision (a) of List 7 attached to this Order as such List may be revised from time to time.

4. By inserting the following new paragraph at the end of subdivision (b) of List 9 attached thereto:

With the types of formulas specified above, and with mold and gauges selected, a manufacturer can calculate the maximum amounts of rubber and whole tire reclaimed rubber which may be used in the manufacture of a tire or tire casing of any specified type and size. Within the maximum amounts of rubber and whole tire reclaimed rubber thus calculated, a manufacturer may, in his discretion, shift the amounts between friction and tread, but may not use in the manufacture of any tire or tire casing more rubber or more whole tire reclaimed rubber than would be used in the manufacture of such tire or tire casing if the above specifications for tread and friction were followed, after allowing for tolerances permitted.

5. By changing subdivision (g) of List 9 attached thereto to read as follows:

(g) Maximum material volumes of tire tubes for passenger automobile tires and truck tires shall be subject to the limitations for those types of tubes as set forth in subdivision (d) of List 7 attached to this Order, as such List may be revised from time to time.

6. By inserting the figure "0" opposite the words "Twist to left—maximum degrees per foot" in each of the columns headed "1½ inch" and "2½ inch" under the heading "Single Jacket" in paragraph (8) of List 10 attached thereto.

7. By inserting the following new subparagraph immediately after subparagraph (b) (10) thereof:

(11) Truck tire flaps. List 11.

8. By attaching thereto the attached additional list designated List 11.

This Order and the specifications set forth in the lists attached hereto become effective on March 23, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 25th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

List 6—*Specifications for the manufacture of water-proof boots, pacs, arctics, gaiters and overshoes.* (1) All such products shall be manufactured in a black color only.

(2) No rubber shall be used for label plasters.

(3) Production shall be confined to the following types, and the average amount of Rubber per pair used in the manufacture of each type shall not be greater than the indicated maximum weight:

	Average weight of rubber (in pounds) maximum
Boots:	
Men's short	1.25
Women's short	.75
Men's storm king	2.00

Youth's 3-buckle lightweight bal-rubber	.53
Women's 4-buckle height lightweight bal-rubber	.54
Men's 4-buckle lightweight cloth	.65
Gaiters:	
Women's 2-snap or slide rubber	.30
Misses' 2-snap rubber	.30
Child's 2-snap rubber	.27
Rubbers:	
Men's storms and/or semi-storms	.60
Boy's storms	.50
Men's storms and/or S. A. overs (full lined)	.35
Boy's storms and/or overs (full lined)	.30
Youth's storms and/or overs (full lined)	.25
Women's overs (full lined)	.25
Growing girls' storms (full lined)	.27
Misses' storms (full lined)	.20
Child's storms (full lined)	.20
Women's over-toe-rubbers	.13

	C	59.8	34.2

Variations from the above specifications are permitted as follows:

Rubber—Plus 0, minus 2.
Whole tire reclaimed rubber—Plus 2, minus (not limited).

In the event that no friction compound or tread compound in use by any person on January 26, 1942, contains as large a percentage of rubber as specified above, such person shall not use or adopt the grade A friction compound or the grade A tread compound without the prior approval of the Director of Industry Operations.

(b) *Tire casings and solid tires.* The friction and the tread, respectively, of each of the classes of tire casings and solid tires listed below shall be made from one of the grades of compounds listed in subdivision (a) of this list, the appropriate grade of compound to be used for each such respective friction or tread being that hereinbelow specified therefore opposite the description or designation of such class (provided that in no event shall any such tire herein required to be made of both grade F friction compound and grade F tread compound contain more than one pound Rubber:

(11) Mileage tires, city busses	B	C
(12) Mileage tires, intercity busses	A	A

With the types of formulas specified above, and with mold and gauges selected, a manufacturer can calculate the maximum amounts of Rubber and whole tire reclaimed rubber which may be used in the manufacture of a tire or tire casing of any specified type and size. Within the maximum amounts of Rubber and whole tire reclaimed rubber thus calculated, a manufacturer may, in his discretion, shift the amounts between friction and tread, but may not use in the manu-

facture of any tire or tire casing more Rubber or more whole tire reclaimed rubber than would be used in the manufacture of such tire or tire casing if the above specifications for tread and friction were followed, after allowing for tolerances permitted.

(c) *Capping stock and camelback.* (1) Capping stock and camelback shall be manufactured only from compounds of Grade C, as listed in subdivision (a) (1) of this list.

(2) Capping stock and camelback may be manufactured only in gauges of 10/32, 12/32, 14/32, 16/32, 18/32, 20/32, 22/32, and larger.

(d) *Maximum material volume of tire tubes.* No tire tube of any of the classes listed below shall be manufactured with a material volume in excess of the volume specified for such class as set forth below opposite the description or designation of such class:

Description of product		Maximum material volume (in cubic inches)

	15-30	595.0

Variations from the above maximum volumes shall be permitted to the extent of minus 3 per cent.

Sizes not specifically set forth shall have maximum volumes proportionate to the sizes listed.

In the event that the maximum volume herein permitted for a tube of a given type and size manufactured by any person on the effective date of this order is less than the maximum indicated above, such person shall make no change in the maximum volume of such tube as then manufactured by him without the prior approval of the Director of Industry Operations.

The foregoing restrictions on material volume of tire tubes do not apply to tire tubes for use with mileage tires.

List 11—*Specifications for the manufacture of truck tire flaps*—In the manufacture of truck tire flaps to fill all orders, including War Orders, but excluding mileage accounts, the maximum amount of Rubber per flap shall not exceed the amount set forth in the following table opposite the description of each type and size of flap:

PART 940—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 2[1] TO SUPPLEMENTARY ORDER NO. M-15-b-1 TO RESTRICT THE USE AND SALE OF RUBBER

Section 940.5 (Supplementary Order No. M-15-b-1) is hereby amended as follows:

1. By inserting the following new subparagraph immediately after subparagraph (b) (11) thereof:

(12) Specifications for the manufacture of insulated wire and cable. List 12.

2. By attaching thereto the attached additional list designated List 12.

This Order and the specifications set forth in the list attached hereto shall become effective on April 1, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.)

Issued this 25th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 949—CHROMIUM

SUPPLEMENTARY ORDER M-18-b—TO CONSERVE THE SUPPLY AND DIRECT THE DISTRIBUTION OF CHROMIUM

Whereas, increasing national defense requirements, including the need for adequate reserves occasioned by the uncertainty of future shipments from abroad have created a shortage in the supply of Chromium (as hereinafter defined) for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States further to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, That:

§ 949.3 *Supplementary order M-18-b*—(a) *Restrictions on use of chromium*—(1) *Prohibited uses.* Hereafter the use or consumption by any person of Chromium in the manufacture or processing of roofing materials, ceramics, soap or glass is prohibited.

(2) *Curtailment in certain uses.* Hereafter the aggregate Chromium oxide content of Chromium which may be used by any person in the following processes shall be curtailed or restricted to the following quantities:

(i) In the manufacture of chromium pigment (also known as dry colors) in any one calendar month commencing with March, 1942 to not more than ninety per cent (90%) of one-twelfth of the aggregate weight of such oxide content consumed by him for such purpose during the base period.

(ii) In the manufacture of chromic acid in any one calendar month commencing with March 1942 to not more than eighty percent (80%) of one-twelfth of the aggregate weight of such oxide content consumed by him for such purpose during the base period.

(iii) In leather tanning in any one calendar month commencing with March 1942 to not more than ninety percent (90%) of one-twelfth of the aggregate weight of such oxide content consumed by him for such purpose during the base period.

(iv) In any use of chromium other than the uses specified in subdivisions (i) (ii) and (iii) of this subparagraph, in any calendar month commencing with March 1942 to not more than one hundred percent (100%) of one-twelfth of the aggregate weight of such oxide content consumed by him in such use during the base period: *Provided, however,* That nothing herein shall be construed to restrict in any way any metallurgical or refractory use of chromium.

(v) In the case of any person requiring chromium for any use specified in this subparagraph but who was not a consumer in the base period, his permitted consumption shall be in the same proportions hereinabove indicated, but shall be based on his consumption during the month of September, 1941.

(b) *Restrictions on inventories.* No consumer of chromium shall accept delivery of chromium if the quantity of chromium accepted, taken together with the chromium then on hand, will, in terms of aggregate chromium oxide content, exceed an amount of chromium equal to one-twelfth of the aggregate weight of such oxide content used during the base period, or if such consumer was not in the business of using chromium continuously during the base period then an amount of chromium equal to the aggregate weight of such oxide content used during September, 1941: *Provided, however,* That the limitations of this paragraph shall not apply to chromium to be used for metallurgical and refractory purposes and that chromium used for such purposes in the base period (or September, 1941) shall not be taken into account: *And provided further,* That this paragraph shall not be construed to prevent any consumer from accepting delivery of his normal purchasing unit of chromium (for example, can, drum or carload) if such acceptance does not operate to give him a greater supply of chromium in the aggregate than one-sixth of the aggregate weight of such oxide content used during the base period.

(c) *Reports by consumers of primary chromium chemicals.* Except as specifically authorized by the Director of Industry Operations, no processor or dealer shall make, and no person shall accept, delivery of primary chromium chemicals in any month unless the person seeking delivery shall on or before the 8th day of such month have filed with the Processor a report on Form PD-54 and have sent a copy thereof to the War Production Board, or, if the delivery is made or accepted prior to the 8th day of a month, have filed such report and sent such copy on or before the 8th day of the preceding month. The filing of such form shall, in so far as concerns primary chromium chemicals, be in lieu of the filing of any form pursuant to paragraph (e) of General Preference Order M-18-a.

(d) *Additional restrictions on sales and deliveries.* (1) No processor or dealer shall knowingly sell or, directly or indirectly, deliver or cause to be delivered any chromium for any one or more of the uses specified in paragraph (a) (2) hereof in greater quantities than are therein specified nor for any use prohibited by paragraph (a) (1) hereof; and no Dealer or Consumer shall accept deliveries of chromium for any one or more of the uses specified in paragraph (a) (2) in greater quantities than for permitted consumption and inventory or for any prohibited use.

(2) No processor or dealer shall knowingly sell or, directly or indirectly, deliver or cause to be delivered any chromium intended for use in wood preserving unless a preference rating of A-10 or higher has been assigned to the order submitted to such Processor or Dealer for the material intended for such use.

(e) *Definitions.* For the purposes of this Order:

(1) "Chromium" means and includes:

(i) Chromium ores or concentrates;

(ii) The element chromium in pure form, ferrochromium, chrom-x, chrome briquettes, and other combinations of the element chromium with other elements in semimanufactured or manufactured form, commercially suitable for use in the manufacture of steel or for other metallurgical purposes;

(iii) All chemical combinations having chromium as an essential and recognizable component.

(iv) Those products containing chromium known commercially as refractories or refractory materials;

(v) All scrap or secondary material containing chromium as defined in (i), (ii), and (iii) above.

(2) "Primary chromium chemicals" means and includes bichromate of soda, bichromate of potash, sodium chromate and chromium tanning compounds.

(3) "Producer" means any person who mines or otherwise produces natural materials containing recoverable quantities of chromium.

(4) "Processor" means any person who uses ores or concentrates for the manufacture of, or which he converts into, chromium chemicals, chromium refractories or metallurgical forms of chromium.

(5) "Dealer" means any person who procures chromium either by importing or from domestic sources for sale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(6) "Base Period" means the period July 1, 1940 to June 30, 1941.

(f) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Intra-company transactions.* The prohibitions or restrictions contained in this Order with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise owned or controlled by the same person.

(3) *Violations.* Any person affected by this Order, who violates any of its provisions, or a provision of any other order, direction or regulation issued by the Director of Industry Operations, may be prohibited by the Director from making or receiving further deliveries of Chromium or of any other material subject to allocation, or he may be subjected to any other or further action which the Director may deem appropriate.

(4) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonable disproportionate compared with the amount of chromium conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board, Ref: M–18–b, attention Chemicals Branch, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(5) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Public Law 671, 76th Cong., 3d sess., as amended by Public Law 89, 77th Congress, 1st sess.)

Issued this 26th day of March 1942.

PART 978—UTILITIES—MAINTENANCE, REPAIR, AND SUPPLIES

PREFERENCE RATING ORDER P–46 AMENDED TO MARCH 26, 1942

Preference Rating Order P–46, as heretofore amended, is hereby amended to read as follows:

§ 978.1 *Preference Rating Order P–46*—(a) *Definitions for the purpose of this Order.* (1) "Producer" means any individual, partnership, association, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, engaged in, or constructing facilities for the purpose of engaging in, one or more of the following services, and includes any such Producer whether or not such Producer has applied the preference rating herein assigned:

(i) Supplying electric power directly or indirectly for general use by the public.

(ii) Supplying gas, natural or manufactured, directly or indirectly for general use by the public.

(iii) Supplying water directly or indirectly for general use by the public.

(iv) Supplying public sanitation services, but not including manufacturers of public sanitation products.

(v) Supplying central steam heating directly or indirectly for general use by the public.

(2) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(3) "Maintenance" means the upkeep of a Producer's property and equipment in sound working condition.

(4) "Repair" means the restoration of a Producer's property and equipment to sound working condition after wear and tear, damage, destruction of parts, or the like have made such property or equipment unfit or unsafe for service.

(5) "Operating Supplies" means:

(i) Material which is essential to the operation of any of the industries or services specified above and which is generally carried in Producer's stores and charged to operating expense accounts.

(ii) Material for additions to or expansion of property or equipment provided that such additions to or expansion of property or equipment shall not include any work order, job, or project in which the cost of Material shall exceed $1,500 in the case of underground construction and $500 in the case of other jobs and provided further that no single job shall be subdivided into parts in order to come below these limits.

(6) The terms "Operating Supplies", "Maintenance", and "Repair" include only Material which is essential to minimum service standards, and do not include Material for the improvement of a Producer's property or equipment through the replacement of Material which is still usable in the existing installation with Material of a better kind, quality, or design.

(7) "Supplier" means any person with whom a purchase order or contract has been placed for delivery of Material to a Producer or another Supplier.

(8) "Calendar Quarterly Period" means the quarterly periods commencing on the first day of the first, fourth, seventh, and tenth months of the calendar year and ending, respectively, on the last day of the third, sixth, ninth, and twelfth months of the calendar year, or the Producer's customary accounting periods closest to such periods.

(b) *Assignment of Preference Rating.* Subject to the terms of this Order the following Preference Ratings are hereby assigned:

(1) *Producers.* (i) A–2 to deliveries, to a Producer, of Material which is required by him for the Maintenance and Repair of production and pumping plant facilities, and to deliveries of Operating Supplies for such facilities.

(ii) A–5 to deliveries, to a Producer, of Material required by him for the Maintenance and Repair of all other facilities, and to deliveries of Operating Supplies for such facilities.

(iii) Subject to the provisions of paragraph (e) (2), A–5 to deliveries, to a Producer, of Material required by him for the construction of transmission, switching and distribution facilities necessary to serve new projects (other than

housing projects) bearing a rating of A–5 or better.

(iv) Subject to the provisions of paragraph (e) (2) A–5, to deliveries, to a Producer, of Material required by him for protection against sabotage, provided such protection is directed by an authorized federal or state agency.

(2) *Suppliers.* (i) A–2 to deliveries, to any Supplier, of Material required by the Producer for any of the purposes specified in paragraph (b) (1) (i) or to be physically incorporated in such Material so required by the Producer.

(ii) A–5 to deliveries, to any Supplier, of Material required by the Producer for any of the purposes specified in paragraph (b) (1) (ii) or to be physically incorporated in such Material so required by the Producer.

(iii) A–5 to deliveries, to any Supplier, of Material required by the Producer for any of the purposes and within the limits specified in paragraphs (b) (1) (iii) and (b) (1) (iv) or to be physically incorporated in such Material so required by the Producer.

(c) *Persons entitled to apply preference ratings.* The preference ratings hereby assigned may, in the manner and to the extent hereby authorized, be applied by:

(1) A Producer;

(2) Any Supplier, provided deliveries to a Producer or another Supplier are to be made by him, and are of the kind specified in paragraph (b) and have been rated pursuant to this Order.

(d) *Restrictions on use of rating*—(1) *Restrictions on Producer and Supplier.* The preference ratings hereby assigned shall not be applied by a Producer or Supplier:

(i) Unless the Material to be delivered cannot be secured when required without such rating;

(ii) To obtain deliveries of scarce Material, the use of which could be eliminated without serious loss of efficiency by substitution of less scarce Material or by change of design.

(2) *Restrictions on supplier.* (i) No Supplier may apply the rating to obtain Material in greater quantities or on earlier dates than required to enable him to make on schedule a delivery rated hereunder or, within the limitations of (ii) and (iii) below, to replace in his inventory Material so delivered. He shall not be deemed to require such Material if he can make his rated delivery and still retain a practicable working minimum inventory thereof; and if, in making such delivery, he reduces his inventory below such minimum, he may apply the rating only to the extent necessary to restore his inventory to such minimum.

(ii) A Supplier who supplies Material which he has in whole or in part manufactured, processed, assembled or otherwise physically changed may not apply the rating to restore his inventory to a practicable working minimum unless he applies the rating before completing the rated delivery which reduces his inventory below such minimum.

(iii) A Supplier who supplies Material which he has not in whole or in part manufactured, processed, assembled, or otherwise physically changed may, in restoring his inventory to a practicable working minimum, defer applications of the rating hereunder to purchase orders or contracts for such Material to be placed by him until he can place a purchase order or contract for the minimum quantity procurable on his customary terms: *Provided,* That he shall not defer the application of any rating for more than three months after he becomes entitled to apply it.

(e) *Application of preference rating.* (1) The Producer and each supplier, in order to apply the preference ratings to deliveries to them, must endorse the following statement, which must be applied on original and all copies of each purchase order or contract for Material, the delivery of which is entitled to the preference rating hereby assigned;

Rating A——. Material to be delivered pursuant to paragraph (b) — of Order P–46, Utilities Maintenance, Repair, and Supplies, with the terms of which I am familiar.

(Name of Producer or Supplier)

(Signature of Designated Official)

Such endorsement shall be manually signed by a responsible official duly designated for such purpose by such Producer or Supplier or in facsimile form in accordance with Priorities Regulation No. 7, (7 F.R. 1062), and shall constitute a representation to the War Production Board that such Material is required pursuant to the paragraph specified in the endorsement, and that the application of the rating is authorized by this Order.

(2) In addition to the requirements of paragraph (e) (1), a Producer in order to apply the preference rating assigned by paragraphs (b) (1) (iii), and (b) (1) (iv), must communicate with the Power Branch, War Production Board, Washington, D. C., Ref.: P–46, supplying in detail the following information:

(i) Description of the project to be built by the Producer.

(ii) Relation to military needs, war production, public health or safety.

(iii) Copy of customer's rating certificate or order, and in case of anti-sabotage materials, copy of order of federal or state agency.

(iv) Whether service can be rendered in any other way, or by any other Producer, with use of smaller quantities of critical materials.

(v) Cost of materials.

(vi) Total cost of Producer's project.

(vii) List of materials required for the construction. The Director of Industry Operations will notify the Producer whether and to what extent the application is approved. A copy of such notification shall be furnished by the Producer to any Supplier to evidence the proper rating granted pursuant to the provisions of this Order.

(3) A Supplier who has received from two or more Producers or Suppliers endorsed purchase orders or contracts for Material to the delivery of which the same rating has been applied in accordance with this Order, may include in a single purchase order or contract, and (within the limitations of paragraph (d) hereof) may apply the rating to any or all of the Material which he in turn requires to make such rated deliveries or to replace in his inventory Material so delivered.

(4) In addition to the records required to be kept under Priorities Regulation No. 1, the Producer, and each Supplier placing or receiving any purchase or contract rated hereunder, shall retain, for a period of two years, for inspection by representatives of the War Production Board, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such manner that they can be readily segregated for such inspection.

(f) *Restrictions on deliveries, withdrawals, and inventory.* (1) No Producer shall, in placing orders, schedule for delivery to him in any calendar quarterly period any items of Material (whether or not rated pursuant to this Order) to be used as Operating Supplies or for Maintenance or Repair or any other purpose, the aggregate dollar volume of which shall exceed 25% of the aggregate dollar volume of the withdrawals of items of Material of the same class from stores or inventory during the calendar year 1940.

(2) No Producer shall at any time accept deliveries (whether or not rated pursuant to this Order) of any item of Material to be used as Operating Supplies or for Maintenance or Repair or any other purpose until the Producer's inventory and stores of items of Material of the same class have been reduced to a practical working minimum. Such minimum shall in no case exceed the aggregate dollar volume of items of Material of the same class in inventory and stores on the most recent date during the calendar year 1940 on which the Producer's inventory was taken.

(3) No Producer shall (i) During any Calendar Quarterly Period, make withdrawals from stores or inventory of any items of Material to be used as Operating Supplies or for Maintenance or Repair or for any other purpose, the aggregate dollar volume of which shall exceed the aggregate dollar volume of the withdrawals of such items of Material of the same class during the corresponding quarter of 1940, or at Producer's option, 25% of the aggregate dollar volume of the withdrawals of such items of Material of the same class during the calendar year 1940.

(ii) Make withdrawals from stores or inventory of Material to be used for additions to or expansion of property or equipment, and no Producer shall, in the case of contract construction, accept de-

livery of Material for such purposes, unless

(a) The Producer's job or project is under construction and 40% of the total dollar value of the construction thereof was installed on December 5, 1941; or

(b) The cost of Material for the work order, job, or project is less than $1,500 in case of underground construction and $500 in the case of other jobs; *Provided, however*, That no single work order, job, or project shall be subdivided into parts in order to come below these limits, that in no event shall lines for the connection of new consumers be extended more than 250 feet from existing facilities, and that no addition to such extension shall be made within 90 days of the completion thereof.

(4) Notwithstanding the provisions contained in paragraphs (f) (1) (2) and (3), a Producer may:

(i) In any Calendar Quarterly Period increase the aggregate dollar volume of scheduled deliveries of Material for the Maintenance and Repair of, and for Operating Supplies for, generation, production, and pumping facilities, and withdrawals of Material for such use over the limits prescribed in paragraphs (f) (1) and (b) (3) respectively proportionately to the increase in system output in the preceding Calendar Quarterly Period over the system output in the calendar quarter of 1940 corresponding to such preceding Calendar Quarterly Period; and

(ii) Schedule for delivery in any Calendar Quarterly Period items of Material which will increase the aggregate dollar volume of inventory of Material for the Maintenance and Repair of, and for Operating Supplies for, generation, production and pumping facilities over the aggregate dollar volume of Material in inventory on the most recent date during the calendar year 1940 on which the Producer's inventory was taken, proportionately to the increase in system output during the preceding Calendar Quarterly Period over the system output in the Calendar Quarterly Period of 1940 corresponding to such preceding Calendar Quarterly Period; and

(iii) Schedule for delivery to him in any Calendar Quarterly Period consumers' meters and house-regulators or make withdrawals from stores or inventories of such meters and house-regulators in an amount not in excess of 25% of the number of such meters or house-regulators condemned and destroyed by the Producer in 1940 (or, at the Producer's option, not in excess of the number of such meters and house-regulators condemned and destroyed in the corresponding quarter of 1940) plus the number of meters and house-regulators necessary to serve the net increase in customers occurring in the current quarter. For the purposes of this subparagraph (iii), withdrawals of meters and house-regulators shall not include meters or house-regulators put in service to replace meters and house-regulators removed from service; and

(iv) In order to provide Material for unavoidable and emergency situations in cases where the inventory of a class of Material exceeds a practical working minimum, accept in any Calendar Quarterly Period deliveries of any short item of Material within such class, such deliveries, however, not to exceed 5% of the dollar volume of withdrawals of Material of the same class in the calendar year 1940; and

(v) Schedule Material for delivery in any Calendar Quarterly Period, or accept deliveries, or make withdrawals in such period of Material necessary for the Maintenance or Repair of the Producer's property or equipment which is damaged by acts of the public enemy, sabotage, explosion, fire, flood or other climatic conditions: *Provided*, That if the restrictions in paragraph (f) (1) (2) or (3) as modified by the provisions of paragraph (f) (4) (i) (ii) (iii) and (iv) are exceeded because of the scheduling or acceptance of such deliveries, or withdrawals, a full report thereof together with reasons therefor shall be made immediately to the Director of Industry Operations.

(5) The Director of Industry Operations may, on the application of any Producer, authorize such Producer to exceed the restrictions on deliveries, withdrawals, and inventories set forth in this paragraph (f). Nothing herein contained shall be construed to affect in any way any specific authorizations or approvals issued by the Director of Industry Operations pursuant to Preference Rating Order P-46 prior to the effective date of this Amendment.

(6) The provisions of this paragraph (f) shall not apply:

(i) To Material obtained through the application of the rating assigned in paragraphs (b) (1) (iii) and (b) (1) (iv) or to Material withdrawn from stores or inventory for the purposes specified in said paragraphs.

(ii) To fuel, water purification chemicals, wooden poles or wooden crossarms.

(g) *Audits and reports.* (1) Each Producer and each Supplier who applies the preference ratings hereby assigned, and each person who accepts a purchase order or contract for Material to which a preference rating is applied, shall submit from time to time to an audit and inspection by duly authorized representatives of the War Production Board.

(2) Each Producer and each such Supplier shall execute and file with the War Production Board such reports and questionnaires as said Office shall from time to time request. No such reports shall be filed until such time as the proper forms are prescribed by the War Production Board.

(3) Each Producer shall maintain a continuing inventory of Material included in stores accounts.

(h) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: P-46

(i) *Violations.* Any Person who willfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Revocation or amendment.* This Order may be revoked or amended at any time as to the Producer or any Supplier. In the event of revocation, deliveries already rated pursuant to this Order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by the Producer or Supplier affected by such revocation.

(k) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(l) *Effective date.* This Order shall take effect immediately, and shall continue in effect through June 30, 1942, unless sooner revoked. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., 3d Sess., as amended by Pub. Law 89, 77th Cong., 1st Sess.).

Issued this 26th day of March 1942.

Chapter XI—Office of Price Administration

PART 1306—IRON AND STEEL

ORDER NO. 2 UNDER REVISED PRICE SCHEDULE NO. 6 [1]—IRON AND STEEL PRODUCTS

On January 15, 1942, the Ford Motor Company, Dearborn, Michigan, filed an application for an exception to Price Schedule No. 6. This application has been considered as a petition under § 1306.7 of Revised Price Schedule No. 6, as amended by Amendment No. 2 thereto. Due consideration has been given to the petition, and an opinion in support of this Order No. 2 has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[2] issued by the Office of Price Administration, it is hereby ordered:

§ 1306.32 *Order No. 2 under Revised Price Schedule No. 6.* (a) That the petition of the Ford Motor Company be, and it is hereby denied, except in so far as the said petition requests permission to price rerolling billets f. o. b. Dearborn, Michigan. The Ford Motor Company is hereby ordered to sell rerolling billets at a price not in excess of $34.00 per gross ton, f. o. b. Dearborn, Michigan.

(b) All prayers of the petition not granted herein are denied.

(c) This Order No. 2 may be revoked or amended by the Price Administrator at any time.

This Order No. 2 shall become effective March 26, 1942. (Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 25th day of March 1942.

JOHN E. HAMM,
Acting Administrator.

[3] 7 F.R. 1371, 1798, 1799.

[4] 6 F.R. 5538.

[5] 7 F.R. 2169.

Section 1340.181 is amended and a new section, § 1340.183, is added as set forth below:

§ 1340.181 *Appendix A: Maximum prices for motor fuel sold at service stations in the curtailment area.* (a) The maximum price for each grade of motor fuel at each service station in the States of Florida east of the Apalachicola River, Georgia, Oregon, and Washington shall be the price posted at each service station for each grade of motor fuel at the close of business or at 11 o'clock at night on March 13, 1942.

(b) If the maximum price for any grade of motor fuel at a service station in the States of Florida east of the Apalachicola River, Georgia, Oregon and Washington cannot be determined under paragraph (a) above, the maximum price shall not be in excess of the price charged on the last delivery of such motor fuel made prior to March 13, 1942 at the same service station, provided such delivery was made after January 13, 1942.

(c) The maximum price for each grade of motor fuel at each service station in the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia and in the District of Columbia shall not be in excess of 0.5 of a cent per gallon above the price posted at such service station for each grade of motor fuel at the close of business or at 11 o'clock at night on March 13, 1942.

(d) Where the maximum price for any grade of motor fuel at a service station in the States of Connecticut, Delaware, Georgia, Florida east of the Apalachicola River, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia and in the District of Columbia cannot be determined under paragraph (c) above, the maximum price shall not be in excess of .5 of a cent per gallon above the price charged on the last delivery of such motor fuel made prior to March 13, 1942 at the same service station, provided that such delivery was made after January 13, 1942.

(e) Where the maximum price for any grade of motor fuel at a service station in the Curtailment Area cannot be determined under paragraphs (a) to (d) above, sellers may establish a temporary maximum price, which must be equal to or lower than the maximum price for that grade of motor fuel at other service stations in the locality, if any, which shall be submitted to the Office of Price Administration within ten days after the establishment of such price for approval or disapproval.

§ 1340.183 *Effective dates of amendments.* (a) Amendment No. 1 (§§1340.181, 1340.183) to Temporary Maximum Price Regulation No. 11 shall become effective March 26, 1942. Until such date Temporary Maximum Price Regulation No. 11 continues in effect as if not amended by Amendment No. 1.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 25—MEDICAL

TUBERCULOSIS; DIAGNOSTIC CRITERIA

§ 25.6021 *Criteria for tuberculous disease.* (a) A climant will be held to have had "a tuberculous disease," as related to determination of its complete arrest for the purposes of the statutory award, when the case history includes clinical and other records indicating previously active tuberculosis, the diagnosis of which, in the case of pulmonary tuberculosis, will have been supported by the findings specified in § 25.6022.

(b) It must be definitely understood that a claimant now presenting wholly negative physical and X-ray findings and without any clinical evidence of tuberculosis may have had an unmistakably manifest pulmonary tuberculosis in the not remote past, and that present negative findings will not outweigh a significant history and findings indicative of former active tuberculosis.

(c) Excepted from the requirement as to findings in paragraph (a) of this section are cases in which a diagnosis of active pulmonary tuberculosis appears in official service records, and has not been revised upon the basis of other medical evidence, covering a reasonable period after discharge from service, which establishes that the condition is due to some pathologic process other than tuberculosis. In such cases, the diagnosis in the official service records will be accepted, even if not supported by the findings specified in § 25.6022.

(d) The exception defined in paragraph (c) accords with the principle of attaching full weight to records of the Army and Navy relative to injury or disease of claimants during military or naval service, when other evidence and considerations do not show such records to be incorrect. Service connection of disability predicated upon a diagnosis of active tuberculosis by the Army or Navy, and consequent statutory awards in effect March 19, 1933 are entitled to the protection afforded by sections 27 and 28, Public No. 141, 73rd Congress. However, the authority in paragraph (c) is not to be interpreted as compelling service connection for disability from active tuberculosis. The intent of that exception is to insure appropriate recognition of a diagnosis of active tuberculosis that had been made during the claimant's military or naval service, medical officers of the Army and Navy not being informed at that time of the requirements of the Veterans' Administration governing the diagnosis of active pulmonary tuberculosis as set forth in § 25.6022. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 707)

§ 25.6022 *Findings required for the diagnosis of active pulmonary tuberculosis.* A diagnosis of active pulmonary tuberculosis will be considered as established upon consideration of the following findings:

(a) Sputum positive for tubercle bacilli.

(b) Pleurisy with effusion, in retrospect, if followed sometime later by clinical pulmonary tuberculosis (without obvious cause therefor, such as acute lobar pneumonia, acute bronchial influenza or trauma); or if followed by peritoneal or possibly some other form of extra-pulmonary tuberculosis. This rule will not apply in dry pleurisy, or in pleural exudates or transudates due to to cardiac, cardiorenal or malignant disease.

* * * * *

(g) A condition evidenced by definite toxemia of probable tuberculous origin, manifested by one or more of these

symptoms: fever, loss of weight and rapid "resting" pulse.

Any two or more of the foregoing findings, (a) to (g), will establish the diagnosis of active pulmonary tuberculosis. But, of this list, the first three, (a) to (c) inclusive, will be held as relatively more important; and any one of the said first three will be considered acceptable evidence of active pulmonary tuberculosis, in the absence of any other cause which would explain its exhibition. The absence of the other findings, (d) to (g) inclusive, is to be considered of less importance than the presence of any one of the first three, (a) to (c) inclusive. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 707)

Section 25.6024 canceled March 25, 1942.

§ 25.6025 *Determination of complete arrest of tuberculosis.* (a) A claimant, determined to have had active pulmonary tuberculosis in accordance with the specifications of § 25.6022, will be held to have reached a condition of complete arrest when there is compliance with the criteria for arrested pulmonary tuberculosis as defined by the National Tuberculosis Association and adopted by the Veterans Administration, viz.,

"All constitutional symptoms absent. Sputum, if any, must be concentrated and found microscopically negative for tubercle bacilli. Lesions stationary and apparently healed, according to X-ray examination. No evidence of pulmonary cavity. These conditions shall have existed for a period of six months, during the last two of which the patient had been taking one hour's walking exercise twice daily, or its equivalent."

(b) Arrest of extra-pulmonary forms of tuberculosis will be considered to have been reached when there is a healed lesion. If there are two or more foci of such tuberculosis, one of which is active, the statutory award for arrest will not be made until the tuberculous process has reached arrest in its entirety. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

Section 25.6028 canceled March 25, 1942.

EMERGENCY HOSPITALIZATION

§ 25.6035 *General authority for emergency hospital treatment.* All potential beneficiaries having prima facie entitlement therefor, who are in need of emergency hospital treatment, may be provided therewith, and such emergency hospital treatment may, if necessary, be continued until a definite decision is reached as to the eligibility of the applicant for medical treatment. This authority for emergency hospitalization carries authority to supply Government transportation and necessary meals and lodging en route to the facility designated for the emergency admission. Emergency hospitalization may also be provided applicants who have not completed a prescribed period of exclusion from hospitalization, imposed because of infraction of facility discipline; but Government transportation (and necessary meals and lodging en route) will not be supplied these applicants, unless they execute affidavit that they are unable to defray the expense of travel to the facility designated. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

HOSPITALIZATION AND DOMICILIARY CARE

§ 25.6045 *Persons entitled to hospital observation and physical examination.* Hospitalization for observation and physical (including mental) examination may be effected when requested by an authorized official, or when found necessary in physical examination of the following persons:

(a) Claimants or beneficiaries of the Veterans' Administration for purposes of disability compensation, pension, emergency officers retirement pay, and Government Insurance (including World War applicants for reinstatement, and applicants for National Service Life Insurance).

(b) Claimants or beneficiaries referred from a facility to a diagnostic center for study to determine the clinical identity of an obscure disorder, or for advice as to treatment.

(c) Employees of the Veterans' Administration, when necessary to determine their mental or physical fitness to perform official duties.

(d) Claimants or beneficiaries of other Federal agencies: (1) Bureau of War Risk Litigation, Department of Justice—plaintiffs in Government insurance suits. (2) United States Civil Service Commission—annuitants or applicants for retirement annuity, and such examinations of prospective appointees as may be requested. (3) United States Employees Compensation Commission—to determine identity, severity or persistence of disability. (4) Railroad Retirement Board—applicants for annuity under Public No. 162, 75th Congress. (5) Other Federal agencies.

(e) Pensioners of nations allied with the United States in the World War, upon authorization from accredited officials of the respective governments. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 707)

§ 25.6046 *Persons entitled to hospital treatment or domiciliary care.* Hospital treatment or domiciliary care may be provided, (a) subject to the eligibility provisions of § 25.6047 and § 25.6048, for:

(1) Persons discharged from the United States Army, Navy, Marine Corps or Coast Guard, after service in a war or peace time period; retired emergency officers of the World War.

(2) Persons retired from the Regular Establishment Army, Navy, Marine Corps or Coast Guard, including members of the Fleet Naval Reserve or Marine Corps Reserve on retainer pay, who had served honorably during a war period (Public No. 198, 76th Congress).

(b) Not subject to the eligibility provisions of § 25.6047 and § 25.6048, for:

(1) Persons retired from the United States Army, not Regular Establishment, and not having had war service (Public No. 18, 76th Congress and Public No. 262, 77th Congress). These may be supplied hospital treatment, but not domiciliary care, subject to conditions (payment of per diem hospital rate, etc.) attaching to officers of like grades, applying for treatment in a War Department hospital.

(2) Persons in active service with the United States Army (Public No. 852, 76th Congress), when duly referred with authorization therefor, may be provided hospital treatment. This will include officers, army nurses, warrant officers, cadets, enlisted men and contract surgeons (full-time), in the Federal military service, when on duty status, or while absent from duty on authorized leave, or while absent without leave.

(3) Persons in active service with the United States Navy or Marine Corps (Public No. 675, 70th Congress) including officers or enlisted men of the Navy or Marine Corps, becoming ill or injured while on permitted leave, may be authorized hospital treatment.

(4) Hospital treatment may be provided, upon authorization, for beneficiaries of the following Federal agencies: Public Health Service; Employees Compensation Commission; enrollees of and officers and enlisted men attached to the Civilian Conservation Corps; enrollees of the Work Projects Administration; enrollees of the National Youth Administration.

(5) Pensioners of nations allied with the United States in the World War, when duly authorized.

(c) Emergency hospital treatment may be provided for:

(1) Persons having no prima facie eligibility therefor, as a humanitarian service. (2) Persons admitted because of presumed discharge or retirement from the armed forces, but subsequently found to be ineligible as such. (3) Employees (not potentially eligible as ex-members of the armed forces) and members of their families, when residing on reservations of field stations of the Veterans Administration, and when they cannot feasibly obtain emergency treatment from private facilities.

(d) Persons comprehended under the provisions of paragraphs (b) and (c) of this section may be supplied hospitalization after the needs of applicants under paragraph (a) of this section are fully met. See currently effective medical procedure as to per diem rates for persons hospitalized under paragraphs (b) and (c) of this section. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6047 *Eligibility for hospital treatment or domiciliary care of persons discharged or retired from military or naval service.* Within the limits of Veterans Administration facilities, hospital treatment or domiciliary care may be furnished the following applicants in the specified order of preference:

(a) Hospital treatment for: (1) Persons who served during the period of the World War as defined in §35.10 (a) and (d), ae amended; or in any war prior to the Spanish-American War; or during the Spanish-American War, Philippine Insurrection or Boxer Rebellion from April 21, 1898 to July 4, 1902 (or to July 15, 1903, if the service was in Moro Province), when honorably discharged from their last period of war service, and when suffering from an injury or disease incurred or aggravated in line of duty in active military or naval service, and for which they are medically determined to be in need of hospital treatment.

(2) Retired officers and retired enlisted men of the Army, Navy, Marine Corps and Coast Guard, including members of the Fleet Naval Reserve or Marine Corps Reserve on retainer pay, who had honorable service in a period of war, as defined in paragraph (a) (1) of this section, and are medically determined to need hospital treatment for an injury or disease that was incurred in line of duty in active military or naval service (Public No. 198, 76th Congress; Public No. 365, 77th Congress).

(3) Persons included in paragraph III of § 35.011 who are suffering from injuries or diseases incurred in line of duty, for which they are receiving disability compensation, and for which they are in need of hospital treatment.

(b) Hospital treatment for: (1) officers and enlisted personnel of the Army, Navy, Marine Corps and Coast Guard, or reserve officers and members of the Enlisted Reserve, or officers and enlisted men of the National Guard of the United States, or persons accepted for selective training, who were honorably discharged from Federal service for disability incurred in line of duty, or who are in receipt of pension for service-connected disability, when suffering from injuries or diseases incurred or aggravated in line of duty in active Federal service, and for which they are medically determined to be in need of hospital treatment. Cadets and midshipmen discharged from the academies at West Point and Annapolis, who meet these requirements as to character of discharge or receipt of pension are eligible under this subparagraph, regardless of the requirement as to active military or naval service.

* * * * *

(c) (1) Hospital or domiciliary care, including emergency or extensive hospital treatment for: Veterans who served during a period of war as defined in paragraph (a) (1) of this section, who have an honorable discharge from their last period of war service; who served in the active military or naval service for 90 days or more, or who, having served for less than 90 days, were discharged for disability incurred in line of duty; who are suffering from a permanent disability, tuberculosis or neuropsychiatric ailment or such other conditions requiring emergency or extensive hospital treatment; and who are incapacitated from earning a living, and have no adequate means of support.

(2) Officers and enlisted men retired from the Regular Establishment—Army, Navy, Marine Corps, Coast Guard—who had served honorably in a war period, as defined in paragraph (a) (1), subject to the same requirements as in subparagraph (1) of this paragraph (Public No. 198, 76th Congress; Public No. 365, 77th Congress).

(3) The administrative determination of line of duty incurrence of disability, as prescribed in paragraph (b) (2) will also be applicable to veterans of wars under this paragraph (c).

* * * * *

(e) Hospital treatment or domiciliary care for:

(1) Veterans who served, regardless of length of service, during a period of war as defined in paragraph (a) (1), who were (i) not dishonorably discharged from their last period of war service; (ii) who swear that they are unable to defray the expense of hospitalization or domiciliary care, including the expense of transportation to and from a Veterans Administration facility; and (iii) who are suffering from a disability, disease or defect which, being susceptible of cure or decided improvement, indicates need for hospital care or which, being essentially chronic in type and not susceptible of cure, or decided improvement by hospital care, is producing disablement of such degree and of such probable persistency as will incapacitate from earning a living for a prospective period, and thereby indicates need for domiciliary care. The provisions of section 5, Public No. 304, 75th Congress, that "re-enlistment after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917, and November 11, 1918, shall be considered as World War Service," etc., will have no application to this paragraph, § 25.6047 (e).

(2) Retired officers and retired enlisted men of the Army, Navy, Marine Corps and Coast Guard, including members of the Fleet Naval Reserve or Marine Corps Reserve on retainer pay, who had honorable service in a period of war, as defined in paragraph (a) (1) of this section, and who meet the other eligibility requirements of subparagraph (1) of this paragraph (Public No. 198, 76th Congress; Public No. 365, 77th Congress). (March 25, 1942) (48 Stat. 9; 38 U.S.C. 707)

§ 25.6048 *Definitions applicable in determining eligibility for hospital treatment or domiciliary care.* (a) Under paragraphs (c) and (d) of § 25.6047:

(1) A "permanent disability" will be taken to mean such impairment of mind or body as may reasonably be expected to continue throughout the remainder of the applicant's life, or any condition listed in § 2.1086. A permanent disability must be such as would materially interfere with the following of any substantially gainful occupation. This must be for medical determination, which shall not be influenced by the applicant's inability—due to industrial conditions, lack of personal initiative, or any other reason than disability due to disease or injury—to secure gainful employment. The infirmities resulting from advancing years when taken collectively, while not considered a disease entity, may be interpreted to be within the meaning of "disease" as used herein. A person who, at the time of his application for domiciliary care has recently been rated 75 percent or more disabled for pension or disability compensation purposes will be held to be prima facie incapacitated within the meaning of this paragraph.

(2) A permanent disability, as contemplated, is exemplified in chronic, severe types of general medical diseases, such as myocarditis, valvalitis, cardiovascular disease, nephritis, arthritis, etc., and in blindness, loss of parts or use of parts, etc. But injuries or diseases such as reparable hernia, chronic appendicitis, cholecystitis, cholelithiasis, nephrolithiasis, etc., are not essentially permanent, as contemplated, in that surgical intervention may remove the disability. Applicants suffering from these conditions will not be considered for admission under the provision relating to "permanent disability," but under the provisions relating to "other conditions requiring emergency or extensive hospital treatment."

(3) "Such other conditions requiring emergency or extensive hospital treatment" will comprehend the following:

(i) Emergent hospital treatment will be provided for conditions endangering the life or health of the applicant, and requiring immediate hospital treatment.

(ii) Extensive hospital treatment will be provided for acute, subacute or chronic diseases or surgical conditions which may be improved or cured by operation or other therapy, when such diseases or conditions require extended hospital treatment. Admission will not be authorized for treatment of conditions usually and sufficiently treatable on an out-patient status: minor eye, ear, nose and throat conditions, such as tonsillitis, deviated nasal septum, etc., nor for dental relief, except when the hospital readmission is for the supplying of dentures to beneficiaries eligible therefor.

(4) "No adequate means of support". When an applicant is receiving an income of $50 or more per month from any source, this fact will be considered prima facie evidence that he has adequate means of support, except when he is in fact contributing in whole or part from such income to the support of a wife, child, mother or father. If the applicant alleges he is contributing to the support of dependents other than these, the alleged circumstances will be submitted to central office, for decision as to eligibility for admission. However, if the medical care and treatment will be needed for a period so extensive that the applicant could not possibly pay for such services for such time in a private hospital this $50 per month income provision may be waived.

(b) Under paragraph (e) of § 25.6047:

(1) "Any disability, disease or defect" will comprehend any acute, subacute or chronic disease (of a general medical, tuberculous or neuropsychiatric type) or any acute, subacute or chronic surgical condition, susceptible of cure or decided improvement by hospital care; or any condition which, not susceptible of cure or decided improvement by hospital care, indicates need for domiciliary care. Domiciliary care, as the term implies, is the provision of a home, with such inci-

dental medical care as is needed. To be entitled to domiciliary care the applicant must consistently have a disability, disease or injury which, chronic in type and not susceptible of cure or decided improvement by hospitalization, is producing disablement of such degree and probable persistency as will incapacitate from earning a living for a prospective period. Defects such as constitutional psychopathic inferiority or mental deficiency, without superimposed psychosis or psychoneurosis, will not indicate hospital treatment, but will entitle to domiciliary care, other requirements being met, if such defects are producing material social and industrial inadaptability.

(2) "Unable to defray expenses of hospitalization or domiciliary care, including transportation to and from a Veterans Administration facility." The affidavit of the applicant on Form P–10 (answer to question 9 thereon) that he is unable to defray the expenses of hospitalization or domiciliary care, including transportation to or from a facility, will constitute sufficient warrant to furnish Government transportation to cover transportation to the facility. But, having in mind the penal previsions of the law governing the making of false sworn statements, managers will report to central office any and all cases in which they suspect false statements as to inability to defray the expenses of hospitalization or domiciliary care, including transportation. Such reports will include all the facts, with comment and recommendation.

(c) Persons applying for treatment of conditions requiring extensive hospitalization, under paragraphs (c), (d) or (e) of § 25.6047, and who are potentially entitled to other hospital treatment because of membership in a union, fraternal organization, or group hospitalization plan; or under commercial insurance companies' policies covering illness or injury; or as beneficiaries of a state industrial commission or Employees Compensation Commission, etc., will be instructed to procure their hospital treatment from such sources. When, however, any such person is hospitalized in a Veterans Administration facility for treatment of a condition not service-connected, including any injury for which a third party is liable; and such person is potentially entitled to reimbursement for the costs of the treatment provided by the Veterans Administration, the service will not be rendered by the Veterans Administration without charge therefor to the extent of such reimbursement. Action will be taken to effect collection from the persons, companies, organizations or agencies (other than Federal) in the amounts determined payable under the terms of the applicable insurance policy, plan, agreement, or other undertaking. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 707)

§ 25.6050 *Utilization of facilities other than those under direct and exclusive jurisdiction of the Veterans Administration.*

* * * * *

(b) (1) Private facilities will not be used for hospitalization of beneficiaries except when facilities under direct and exclusive jurisdiction of the Veterans Administration or other Federal hospitals are not feasibly available, or when the physical or mental condition of beneficiaries will not allow of their transfer from a private, State or municipal hospital to a Federal hospital. Except for treatment of an emergent condition arising from a service-connected disorder, hospitalization of a *male* beneficiary will not be authorized in any private, State or municipal hospital, whether under or not under contract. In such medically emergent cases, authorization of admission to a private, State or municipal hospital may be given, subject to the conditions stipulated in subparagraph (2) of this paragraph; and, when so given, will be authority for payment of vouchers covering the cost of such hospitalization.

(2) The chief medical officer or his designate, of the regional office or facility with regional office having jurisdiction of the territory in which the concerned private, State or municipal hospital, contract or non-contract, is located, will, when informed of the emergent condition of the entitled beneficiary in time to authorize the hospital admission, or when requested to issue authorization to cover a hospital admission already effected, at once notify the superintendent of such hospital as follows: (i) That payment cannot be made by the Veterans Administration for any hospital service or supplies furnished prior to the date that authorization for admission had been issued, and that such authorization cannot be retroactively dated when issued. (ii) That—if the hospital concerned is under contract with the Veterans Administration—all services and supplies furnished the beneficiary must be charged for and paid only at rates in accordance with the terms of the contract. (iii) That—if the hospital concerned is not under contract—all services and supplies can be paid for only at rates in accordance with the schedule of fees, Veterans Administration. (iv) That, when possible, prior authority will be requested by the hospital for the furnishing of services or supplies other than those included in a contract, or other than those comprehending ordinary items. (v) But when the procurement of such prior authority is not possible, or when the emergent condition of the beneficiary is too urgent for delay, the hospital may furnish such necessary services or supplies, with the understanding that charges therefor will be subject to determination as to their reasonable necessity by the Chief Medical Officer or his designate. (See also §§ 25.6140–25.6148)

(c) In the territories and insular possessions of the United States, preference will be given to Federal hospitals, and contracts will be made with private or insular hospitals only when Federal hospitals are not available. Authorization of hospitalization by managers of insular offices is restricted to hospitals under agreements or contracts and admissions to private facilities not under contract will not be authorized in territories or insular possessions without prior approval of the medical director: *Provided*, That when immediate hospitalization is necessary for treatment of an emergent service-connected condition in a war veteran, the manager may authorize admission to an non-contract hospital if no Federal or contract private hospital be feasibly available, and that the stipulations specified in paragraph (b) (2) of this section are communicated to the superintendent of such non-contract private hospital. While admissions to private facilities in the territories and insular possessions will in general be restricted to applicants who had service in a war, such facilities may also be used for applicants who had peace time service only, if needed for treatment of an emergent service-connected condition. The use of such private facilities is prohibited for applicants who had peace time service only, if required for treatment of a disease or injury not attributable to military or naval service, or for a service-connected condition that is not medically emergent.

* * * * *

(h) The prior approval of the medical director must be secured for the use of private, State or municipal facilities covered by contracts, and located either within the continental limits of the United States or in the insular possessions or territories, for the hospitalization in such facilities of beneficiaries in excess of the number of beds contracted for, except where immediate hospitalization is indicated for treatment of a medically emergent service-connected disease or injury. The number of beds set apart by agreements with other Government facilities, for treatment of Veterans Administration beneficiaries may be exceeded during any month as necessitated: *Provided*, That the utilization thereof be correspondingly reduced in other months, so that the average monthly use of such beds, at the end of the fiscal year, will not have exceeded the total allocation.

(i) An applicant whose eligibility for hospitalization, (whether for observation or treatment, or whether for a service-connected or nonservice-connected condition) had been determined, whose admission to a Government facility had been authorized and who had been supplied transportation therefor, but who, while en route to the designated facility (or en route from it, after completion of service and regular discharge, to the point from which he had proceeded to the hospital), develops an unavoidable and unforeseen medical emergency that forbids continuance of such travel and requires admission to a private hospital or treatment by a private physician, will be entitled to such necessary services at the expense of the Government, including any extra transportation costs (ambulance or otherwise) that were actually necessitated in the circumstances. (1) If the chief medical officer or his designate of the territory concerned is informed of such emergency hospital admission or such physician's treatment before or shortly after the beginning of the services, authorization for the services, followed by payment of bills therefor, may be made in accordance with the terms of paragraph (b) (2) of this section. (2) If the chief medical officer or his designate had not authorized such hospitalization or such physician's services, he may nevertheless certify for payment bills from the hospital superintendent or the attending physician, provided determination is made of the actual necessity for the items of service rendered, and payment is at fees provided in the schedule of fees, Veterans Administration. (3) Subject to the same controlling conditions as in (2), the chief medical officer or his designate may authorize reimbursement of the beneficiary or his representative if either had paid bills submitted by the superintendent of the hospital or by the physician who had attended the beneficiary, and had submitted those receipted bills. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6060 *Out - patient treatment.* (a) Out-patient treatment, medical or dental, including necessary medicines, prosthetic appliances, and other supplies, may be rendered veterans of wars as defined in § 25.6047 (a) (1), and persons who were honorably discharged from the United States Army, Navy, Marine Corps or Coast Guard for disability in line of duty, or who are in receipt of pension for service-connected disability; *Provided*, That the disability from the disease or injury for which such veteran of a war or person applies for out-patient treatment has been adjudicated as service-connected, or the official service records show that such disease or injury was the one that led to the applicant's discharge for disability in line of duty in active service. A formal claim for disability compensation or pension will not be required of an applicant so eligible for out-patient treatment; and a denial of a claim for pension will not debar out-patient treatment if the official service records show that the disease or injury for which such person applies for such treatment was one the disability from which led to his discharge in line of duty in active service (see determination of line of duty, § 25.6047 (b) (4)).

(b) While out-patient treatment is primarily authorized only for service-connected conditions, adjunct out-patient treatment for a nonservice-connected condition which is associated with and held to be aggravating disability from a disease or injury service-connected may be also authorized in accordance with prescribed principles. The opinion of the medical director may be requested in any individual case where advice as to the propriety of furnishing adjunct treatment is desired.

(c) In addition to applicants entitled under paragraph (a) of this section, out-patient treatment may be rendered patients properly referred by authorized officials of the United States Employees Compensation Commission, Civilian Conservation Corps, Work Projects Administration, National Youth Administration or other Federal agencies for which the Administrator of Veterans Affairs may agree to render such service under conditions stipulated by him; and to Canadian and British pensioners, upon requests of the Department of Pensions and National Health, Canada. Charges for treatment of patients of the classes herein specified will be made at prescribed rates. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6066 *Disciplinary control of beneficiaries receiving hospital treatment or domiciliary care.* The good conduct of beneficiaries receiving hospitalization for observation and examination or for treatment, or receiving domiciliary care in facilities under direct and exclusive jurisdiction of the Veterans Administration, will be maintained by corrective and disciplinary procedure formulated by the Veterans Administration. Such corrective and disciplinary measures, to be selectively applied in keeping with the comparative gravity of the particular offense, will consist, in respect to hospital patients, of the withholding for a determined period of pass privileges, exclusion from entertainments, or disciplinary discharge; and, in respect to domiciled members, such penalties as confinement to barracks or grounds, deprivation of privileges, performance of extra duty without pay for a stated period, enforced furlough or dropping from rolls. Discharge for infraction of hospital discipline will carry the accompanying penalty of exclusion from rehospitalization, except in a medical emergency, and from domiciliation, for a prescribed period, with denial of Government transportation to cover return travel upon such discharge, or to cover rehospitalization in a medical emergency, unless the offender executes affidavit of inability to defray the expenses of such travel. Likewise, exclusion from domiciliary care for a stated period will exclude an offender from hospital treatment (except in a medical emergency), for such stated period. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

Section 25.6067 canceled March 25, 1942. (See § 25.6066)

§ 25.6100 *Transportation of claimants and beneficiaries.* Transportation at Government expense may be supplied eligible claimants and beneficiaries of the Veterans' Administration, for these purposes:

(a) (1) Hospital admission of applicants under § 25.6047 (a) and (b), for treatment of service-connected conditions.

(2) Hospital admission of applicants under § 25.6047 (c), (d) or (e) for treatment of nonservice-connected conditions, provided these applicants have made sworn statement upon application, Form P–10, that they are unable to defray expense of transportation.

(3) Hospital admission for observation and examination.

(4) Admission for domiciliary care of applicants under § 25.6047 (d) and (e), provided applicants have made sworn statement of inability to defray expense of transportation.

(b) *Readmissions.* (1) Hospital readmissions, when medically determined necessary to observe progress, modify treatment or diet, etc. (2) The furnishing of transportation incident to readmission for domiciliary care will require prior consent of the director of national homes. (3) No transportation will be furnished a person whose period of exclusion from hospital treatment or domiciliary care for infraction of facility discipline has not expired, except when emergent hospital treatment is required, and the applicant executes affidavit that he is unable to defray the expense of transportation to accomplish travel to a facility for such emergent hospital treatment.

(c) *Transfer.* Interfacility transfers for treatment, diagnosis or domiciliary care. Prior consent of the medical director will be had for transfers of patients en bloc. Transfers from hospital treatment to domiciliary care, or those between facilities for domiciliary care, will require prior consent of the director of national homes.

(d) *Discharge.* (1) Upon completion of hospitalization for treatment, or for observation and examination, and regular discharge, return transportation to the point from which the beneficiary had proceeded; or to another point if no additional expense be so caused the Government. (2) With prior approval of the medical director, a patient in a terminal condition may be discharged to his home, or transferred to a facility, suitable and nearest his home, regardless whether travel so required exceeds that covered in proceeding to the facility of original admission. (3) The furnishing of transportation to effect discharge of a member from domiciliary care will require prior consent of the director of national homes. (4) No return transportation will be supplied a patient who receives an irregular discharge from hospital treatment, unless he executes an affidavit of inability to defray the expense of return transportation.

(e) Out-patient physical examination, subject to exceptions defined in paragraph (g) of this section.

(f) *Out-patient treatment.* For service-connected conditions, including adjunct treatment thereof, subject to exceptions defined in paragraph (g).

(g) (1) Claimants or beneficiaries residing in the city or town where their out-patient examination is to be made or out-patient treatment rendered, or in such proximity to such city or town that it may be considered their place of residence, will not be furnished transportation for such out-patient service, except that a station vehicle may be used or expense of common carrier transportation allowed, when the fare involved exceeds ten cents each way, and the Administrator approves the exercise of this special authority at selected points. (2) Transportation for out-patient treatment will not be supplied an applicant whose period of exclusion from hospital treatment or domiciliary care for a disciplinary offense has not expired. (3) No return transportation will be supplied a claimant or beneficiary who has not completed an out-patient service, unless he executes an affidavit that he is unable to defray the expense of such return travel.

(h) All travel for the foregoing purposes, (a) to (f), must be authorized in advance. In emergent hospital admissions, such prior authority may be given by telephone or telegraph, subject to confirmation in writing by the authorizing employee.

(i) The accessories of transportation—means and lodging en route, Pullman accommodations, and accompaniment by an attendant or attendants—may be authorized when determined necessary for the travel.

(j) In furnishing transportation and other expenses incident thereto, as defined, the Veterans' Administration may (i) issue requests for transportation, meals and lodging; or (ii) reimburse the claimant, beneficiary or representative for payment made for such purpose, upon due certification of vouchers submitted therefor; or (iii) make mileage allowance.

(k) Transportation of beneficiaries of other Federal agencies, incident to medical services rendered upon requests of those agencies, will not be furnished by the Veterans' Administration. Transportation requests incident to medical services rendered Canadian and British imperial pensioners will be subject to reimbursement by the Department of Pensions and National Health, Canada. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

Sections 25.6101–25.6108 inclusive canceled March 25, 1942.

ORTHOPEDIC AND PROSTHETIC APPLIANCES

§ 25.6115 (a) Orthopedic or prosthetic appliances furnished entitled beneficiaries of the Veterans' Administration, will be of approved types. Repairs or replacements thereof may be made, as provided, when necessitated, in medical judgment, because of wear, loss not due to negligence or design of the beneficiaries and for other sufficient reasons.

(b) Dental prostheses are not comprehended as orthopedic and prosthetic appliances.

(c) Artificial limbs and other prosthetic or orthopedic appliances of a permanent type may be purchased, made or repaired for; and special clothing made necessary by wear of such appliances may be furnished to:

(1) Out-Patients, entitled to and in need of such appliances, etc., (i) for a disease or injury which is service-connected, or (ii) for an associated condition, not attributed to military or naval service, but held to be aggravating the disability from a service-connected disease or injury (adjunct treatment).

(2) Hospitalized patients, when medically held needed for (i) a service-connected condition; (ii) an associated disease or injury held to be aggravating disability from a service-connected disorder (adjunct treatment); (iii) a disease or injury, not attributed to military or naval service, for which hospitalization had been authorized; or (iv) for a condition, also not service-connected, that is associated with and held to be aggravating disability from the disease or injury for which the patient had been admitted to hospital (auxiliary treatment). Repair or replacement of a previously supplied artificial limb will not be considered invariably necessitated because of surgical treatment of a stump in itself, e. g., for ulcer or neuroma; but when, because of reamputation or other treatment, or a disease process resulting in atrophy, sufficient change in the contour of the stump occurs, alteration or replacement of a socket or other part of the artificial limb or, if necessary, the furnishing of a new limb, will be authorizable.

(3) Domiciled members, when medically held needed for (i) a service-connected condition; (ii) a disease or injury not service-connected, but held to be aggravating disability from a service-connected condition (adjunct treatment); (iii) appliances, except artificial limbs and hearing devices, not considered for furnishing under (i) or (ii), may nevertheless be procured or repaired for domiciled members, when medically determined necessary as an incident of domiciliary care. In individual cases when, in medical judgment, an artificial limb or hearing device (or repair to either) is held necessary as an incident of domiciliary care, and is not furnishable under (i) or (ii) hereof, a recommendation for such service, with a sufficient explanation of the circumstances, may be submitted to the medical director, whose approval or disapproval will decide whether such article is to be supplied. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6116 *Retired personnel, regular establishment*—(a) *Out-patients.* (1) In compliance with an Executive Order, effective December 1, 1930, relieving the Surgeon General, War Department, of the duty, the Veterans' Administration, under the provisions of chapter 5, sections 241–250, Title 38, United States Code, as amended, may provide an artificial limb or other apparatus, or commutation in lieu thereof, once every three years, for any officer or enlisted man retired from the Regular Establishment, who had lost a limb or the use thereof through injury or disease incurred in line of duty in the military or naval service at any time; and for any civilian employee of the Military or Naval Service, Regular Establishment, who had lost a limb or the use thereof through injury or disease incurred in line of duty as such, prior to September 7, 1916, (the date of the Federal Employees Compensation Act). An army nurse is to be considered a civilian employee within the meaning of the statute cited.

(2) Persons defined in (1) may elect to receive, once every three years, either a necessary artificial limb or limbs, or commutation in lieu at rates specified by law, but both such limb or limbs and such commutation cannot be supplied. If such person elects the furnishing of an artificial limb or other appliance in kind, it will be supplied under an approved contract, if obtainable at a price not to exceed $125.00; if not so obtainable, competitive bids therefor will be invited and the award made to the lowest responsible bidder, provided that bid does not exceed $125.00.

(3) Repairs of artificial limbs or other appliances furnished persons under (1) and (2) will not be made at Government expense, and no replacements will be effected under three years.

(4) Trusses will be supplied persons defined in (1) who had been ruptured in a war; and replacement of such truss can be effected when it becomes useless from wear, or is damaged or lost without negligence of the beneficiary; provided that application for a new truss will not be accepted more than once in two and one-half years.

(5) Transportation of such retired personnel, Regular Establishment, necessitated for fitting of an artificial limb, may be furnished by the Veterans Administration. Transportation for fitting of a truss is not authorized.

(6) Upon receipt, by the medical director, of requests from such retired persons for an artificial limb, other appliance or truss, eligibility of the applicants will be determined, and the managers of the field stations of the Veterans Administration which are nearest the place of residence of the applicants will be directed to arrange the procurement of the article from an approved contractor or approved bidder, respectively. Prosthetic Appliances Service Card, Form 2529, bearing the notation "Retired" for identification will be prepared, as for other beneficiaries. Vouchers for the purchased article will be forwarded to the medical director, with explanatory letter identifying the beneficiary as "Retired, Reg. Estab."

(b) *Hospitalized patients.* Retired personnel, Regular Establishment (Army, Navy, Marine Corps or Coast Guard) entitled to hospital treatment by the Veterans Administration because of honorable service in a war period (Public No. 198, 76th Congress and Public No. 365, 77th Congress) will be entitled to the furnishing of an artificial limb or other appliance during such hospitalization, subject to the conditions specified in paragraph (a) (1) to (4) of this section. Recommendations for this service, based upon the principles in § 25.6115 (c) (2) will be made to the medical director, whose approval or disapproval thereof will guide subsequent action. In such recommendations, the applicants will be identified as "Retired, Reg. Estab. (Pub., No. 198, 76th Cong. and Pub., No. 365, 77th Cong.)"

(c) *Domiciled members.* Retired personnel, Regular Establishment (Army, Navy, Marine Corps or Coast Guard) admitted for domiciliary care (Public No. 198, 76th Congress; Public No. 365, 77th Congress) will be supplied an artificial limb or other apparatus during domiciliation, subject to the conditions specified in paragraph (a) (1) to (4) of this section. Recommendations for such service, based upon the principles in § 25.6115 (c) (3), will be submitted to the medical director, with the identification provided in paragraph (b) of this section. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6117 *Retired personnel, not regular establishment.* Retired personnel, not Regular Establishment, as comprehended by Public No. 18, as amended by Public No. 213, 76th Congress, and by Public No. 262, 77th Congress, when granted hospitalization by the Veterans' Administration at the prescribed per diem rate, will not be entitled to the furnishing of permanent orthopedic appliances during such hospitalization. However, if such applicants for hospitalization had had previous military or naval service in war time, and are admitted as war veterans for hospital treatment, then they may be furnished orthopedic and prosthetic appliances in accordance with the provisions of § 25.6116 (b). (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

DENTAL SERVICES

§ 25.6120 *Authorization of dental examinations.* When a detailed report of dental examination is essential for a determination of eligibility for benefits, a chief dental officer or other empowered official may authorize dental examination for the following classes of claimants or beneficiaries:

(a) Those having a dental disability adjudicated as incurred or aggravated in military or naval service, in wartime or peacetime.

(b) Those having service-connected disability from disease or injury other than dental, but with an associated and not service-connected dental condition that is considered to be aggravating the basic service-connected disorder.

(c) Those for whom a dental examination is ordered as a part of a general physical examination.

(d) Those requiring dental examination during hospital treatment or domiciliary care.

(e) Those held to have suffered dental injury or aggravation of an existing dental injury as the result of examination, hospitalization, or medical or surgical (including dental) treatment that had been awarded.

(f) Those for whom a special dental examination is authorized by the medical director. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

Section 25.6122 canceled March 25, 1942.

§ 25.6123 *Authorization of dental treatment.* Dental treatment may be authorized for the following classes of beneficiaries:

(a) Class I—Those having service-connected compensable dental or oral disabilities.

(b) Class II—Those having service-connected noncompensable dental or oral disabilities.

(c) Class III—Those having a dental condition, not service-connected, but medically determined to be aggravating disability from an associated systemic disorder that is either service-connected or not service-connected (see adjunct and auxiliary treatment).

(d) Class IV—Those receiving domiciliary care who require dental treatment. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6124 *Emergency dental relief.* This will comprehend the alleviation of pain or extreme discomfort, or adequate remediation of a dental or oral condition which is determined to be immediately endangering the life or health of the individual. Such emergency relief, which may be furnished an applicant whose prima facie eligibility therefor has been shown, but whose claim for benefits has not yet received favorable adjudication, will not in itself entitle him to further dental treatment that may be indicated, unless and until his eligibility for such continuance of treatment is duly determined. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

Section 25.6126 canceled March 25, 1942.

§ 25.6128 *Authorization of emergency dental relief.* Emergency dental relief may be authorized by a chief medical officer, clinical director, a chief of service, chief dental officer, or other full time physician or dentist of the Veterans Administration. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

§ 25.6129 *Extent of dental treatment.* The type and extent of dental treatment in any individual case will be determined by a dental officer of the Veterans Administration in accordance with the following principles:

(a) In Class I (see § 25.6123) any dental treatment indicated as reasonably necessary to retain masticatory function in every way possible, may be authorized. Prior approval of the medical director will be secured for any treatment of a condition that is not specifically covered by the current dental disability rating.

(b) (1) In Class II, any treatment indicated as necessary for the correction of war time service connected dental disabilities may be authorized as well as for peace time service connected dental disabilities, provided the applicant was honorably discharged on account of disability incurred in line of duty, or is in receipt of pension for a service incurred disability. When diseased teeth (the disability from which is service-connected) are to be replaced by means of vulcanite dentures, all other diseased teeth in the same maxilla may be extracted, if necessary, and the dentures may be constructed accordingly. This principle will also apply when extraction is indicated for mechanical reasons; but in constructing bridges for missing teeth, the loss of which has not been attributed to military or naval service, only mechanical necessity will permit consideration of such missing teeth in designing the bridge.

(2) When service-connection has been established only for teeth missing from one maxilla, and vulcanite dentures for both jaws are determined necessary to meet proper treatment indications, extractions of teeth in the opposing maxilla may be made. Prior approval of the medical director will be secured for this type of service.

(3) Missing third molar teeth, loss of which has been attributed to military or naval service, will not be replaced; nor will such circumstance be held to call for replacement of other missing teeth whose loss is not service-connected.

(c) In Class III, treatment will be rendered, as adjunct or auxiliary measures, only for those dental conditions which, in sound professional judgment, are having a direct and material detrimental effect upon an associated basic disease.

(d) In Class IV sufficient treatment will be rendered domiciliary members to keep their mouths in a hygienic and comfortable condition, with sufficient masticatory surface to maintain health. (March 25, 1942) (48 Stat. 9; 38 U.S.C. 706)

REIMBURSEMENT OR PAY FOR EXPENSES OF UNAUTHORIZED MEDICAL SERVICES

§ 25.6141 *Classes of claims comprehended.* Claims for reimbursement of or payment for medical treatment obtained without prior authorization from the Veterans' Administration (including the necessary travel incidental to the procurement of such treatment) may be submitted and will be considered under the following conditions:

* * * * * *

(c) As to unauthorized treatment rendered subsequent to March 19, 1933, the eligibility criteria defined in paragraph (b) (1) (2) and (3) of this section will apply; and, in addition, it must be shown that, when the unauthorized expense was incurred, the disability from the disease or injury for which treatment had been rendered was service-connected. TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

PART 10—STEAM ROADS: UNIFORM SYSTEM OF ACCOUNTS

NOTE: An order of the Interstate Commerce Commission modifying the classifications of Investment in Road and Equipment; Income, Profit and Loss, and General Balance Sheet Accounts; also Accounting Bulletin No. 15, Interpretations of Accounting Classifications, for steam roads, dated March 12, 1942, effective January 1, 1943, was filed with the Division of the Federal Register on March 26, 1942 at 11:13 a. m. (F.R. Doc. 42–2635). Requests for copies should be addressed to the Interstate Commerce Commission.

PART 195—ACCIDENT REPORTS

MOTOR-CARRIER ACCIDENT REPORTS

At a Session of the Interstate Commerce Commission, Division One, held at its office in Washington, D. C., on the 19th day of March, A. D. 1942.

It appearing that by its order of May 27, 1939, Division Five of the Commis-

sion prescribed revised Motor Carrier Safety Regulations, 14 M.C.C. 669, in § 4.2 of which it was required that accidents resulting in property damage to an apparent extent of $25.00 or more be reported to the Commission;

And it further appearing that under present conditions it is desirable that the minimum amount of property damage in a reportable accident be increased to $100.00;

It is ordered, That § 4.2 of the Commission's revised Motor Carrier Safety Regulations and corresponding section of the Code of Federal Regulations be, and it is hereby, amended to read as follows:

§ 195.2 *Reportable accidents.* Every motor carrier shall report to the Commission in the manner hereinafter prescribed, every accident in which a motor vehicle operated by him or it is involved, and from which there results an injury to or death of any person, or property damage to any and all vehicles, cargo, or other property involved, to an apparent extent of $100.00 or more.

It is further ordered, That this order shall become effective May 1, 1942, and shall continue in effect until the further order of the Commission;

And it is further ordered, That notice of this order be given to all carriers by motor vehicle subject to Part II of the Interstate Commerce Act and to the public by publishing it in the FEDERAL REGISTER, and by depositing copies of the order in the office of the Secretary of the Commission in Washington, D. C. and in the office of each of the District Directors of the Bureau of Motor Carriers of the Commission.

By the Commission, Division One.

Bituminous Coal Division.

[Docket No. A-1359]

PETITION OF DISTRICT BOARD 14 FOR REVISION OF THE EFFECTIVE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT CERTAIN MINES IN PRODUCTION GROUP NO. 5 IN DISTRICT NO. 14

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937 having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on April 21, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, at Sebastian County Circuit Court, in Fort Smith, Arkansas.

It is further ordered, That Scott A. Dahlquist, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 15, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the request of District Board No. 14 for revision of the price classifications and minimum prices for the coals produced at the mines of certain code members in Production Group 5 in District No. 14, and, more particularly:

1. for the revocation of the price classifications and minimum prices for the coals in Size Groups 3 and 19 of Mine Index No. 511, operated by code member Paris Purity Coal Company;

2. for the establishment for the coals in Size Groups 4, 9, 10, 11, 13 and 17 of Mine Index No. 511 of the same price classifications and minimum prices as are effective for the coals in those size groups produced at Mine Index 13 operated by Boyd Excelsior Operating Co. and at the other so-called A Grade mines in Production Group 5;

3. for the establishment for the coals in Size Groups 10, 13 and 17 of Mine Index No. 195 operated by code member Harper-Thornton Coal Co. of the same price classifications and minimum prices as are effective for the coals in those size groups of Mine Index No. 13 and of the other A Grade mines in Production Group 5; and

4. for increases to the level of the price classifications and minimum prices now effective for the coals of Mine Index No. 13 and of the other A Grade mines in Production Group 5, in the price classifications and minimum prices for the coals of the following mines:

Mine Index No. 14—Boyd-Sicard Coal Company.
Mine Index No. 34—Excelsior Thin Vein Coal Company.
Mine Index No. 195—Harper-Thornton Coal Company, Inc.
Mine Index No. 558—Lewis-Excelsior Coal Company.
Mine Index No. 511—Paris Purity Coal Company.
Mine Index No. 176—Peerless Coal Co.
Mine Index No. 2—Watson Excelsior Coal Co.,

to the end that the coals of all of the mines named and referred to in this paragraph 4 will be subject to the following price classifications and minimum prices in cents per net ton f. o. b. the mines:

PETITION OF DISTRICT BOARD NO. 19 FOR THE ESTABLISHMENT OF A PRICE CLASSIFICATION AND MINIMUM PRICE FOR THE COALS IN SIZE GROUP 8 PRODUCED AT CERTAIN MINES IN DISTRICT NO. 19, FOR SHIPMENT BY RAIL INTO MARKET AREA 243 (ALASKA)

NOTICE OF AND ORDER FOR HEARING

A petition, pursuant to the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on April 7, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Room 220, United States Post Office Building in Salt Lake City, Utah.

It is further ordered, That Scott A. Dahlquist or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, to prepare and submit proposed findings of fact and conclusions of law and the recommendation of an appropriate order in the premises and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 1, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise or which may be necessary corollaries to the relief, if any, granted on the basis of the petition.

The matter concerned herewith is in regard to the request of District Board No. 19 for the establishment of a minimum price of $2.75 per net ton f. o. b. the mines for the coals in Size Group 8 (3" x 1⅝" nut) produced in Subdistricts 1 and 2 in District No. 19, for shipment by rail into Market Area 243 (Alaska).

PETITION OF STITH COAL COMPANY, A CODE MEMBER IN DISTRICT NO. 13, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES IN SIZE GROUPS 12, 16, 17 AND 22 FOR THE COALS OF ITS AMERICA NO. 5 MINE (MINE INDEX NO. 1453) FOR ALL SHIPMENTS EXCEPT TRUCK

ORDER DISMISSING PETITION

An original petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 was duly filed with this Division by the above named party on February 28, 1942 and requested the establishment of temporary price classifications and minimum prices for the coals of its America No. 5 Mine (Mine Index No. 1453) for all shipments except truck in Size Groups 12, 16, 17 and 22. In an order signed today in Docket A-1330 on the petition of District Board No. 13, temporary and conditionally final prices are established for the coals of this mine in these size groups exactly as sought by the original petitioner in the above entitled matter.

It appears, therefore, that there is no necessity for considering the request of the original petitioner and that this petition should be dismissed.

Now, therefore, it is ordered, That the above entitled proceeding be, and it hereby is, dismissed without prejudice.

PETITION OF DISTRICT BOARDS NOS. 19 AND 20 FOR THE INCLUSION OF FISCHER, IDAHO AMONG THE DESTINATIONS SET FORTH IN PRICE INSTRUCTION AND EXCEPTIONS NOS. 10 AND 11 IN THE SCHEDULES OF EFFECTIVE MINIMUM PRICES FOR ALL SHIPMENTS

ORDER OF CONSOLIDATION AND NOTICE OF AND ORDER FOR HEARING

Petitions presenting analogous issues having been duly filed with this Division by the above-named parties, pursuant to the Bituminous Coal Act of 1937; and

A hearing having been duly scheduled upon the petition of District Board No. 20 in Docket No. A-1345 to be held on April 7, 1942, at Salt Lake City, Utah;

It is ordered, That the above-entitled matters be, and they hereby are, consolidated for the purpose of hearing and for such other purposes as the officer designated to preside at such hearing may deem appropriate.

It is further ordered, That a hearing upon the petition of District Board No. 19 in Docket No. A-1365 under the applicable provisions of said Act and the rules of the Division be held on April 7, 1942, at 10 o'clock in the forenoon of that date at a hearing room of the Bituminous Coal Division, Room 220, United States Post Office Building in Salt Lake City, Utah.

It is further ordered, That Scott A. Dahlquist or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matters. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, to prepare and submit proposed findings of fact and conclusions of law and the recommendation of an appropriate order in the premises and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petitions is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before April 1, 1942.

All persons are hereby notified that the hearing in the above-entitled matters and any orders entered therein, may concern, in addition to the matters specifically alleged in the petitions, other matters necessarily incidental and related thereto, which may be raised by amendment to the petitions, petitions of intervention or otherwise or which may be necessary corollaries to the relief, if any, granted on the basis of the petitions.

The matter concerned herewith is in regard to:

(1) as to Docket No. A-1345, the request of District Board No. 20 for revision of Price Instruction and Exception No. 10 in the Schedule of Effective Minimum Prices for District No. 20 for All Shipments to include Fischer, Idaho, among the destinations therein named, so that the coals in Size Groups 10 and 11 produced in that district may be shipped at a 20¢ per ton reduction from the otherwise applicable minimum prices to consumers for consumption at Fischer, Idaho, subject to the limitations and conditions provided in that price instruction and exception; and

(2) as to Docket No. A-1365, the request of District Board No. 19 for revision of Price Instruction and Exception No. 11 in the Schedule of Effective Minimum Prices for District No. 19 for All Shipments to include Fischer, Idaho, among the destinations therein named, so that the coals in Size Groups 15, 16 and 17 produced in Subdistricts 1 and 2 in that district may be shipped at a reduction of 20¢ per ton below the otherwise applicable minimum prices to consumers for consumption at Fischer, Idaho, subject to the limitations and conditions provided in that price instruction and exception.

[Docket No. A-302]

PETITION OF THE FORD COLLIERIES COMPANY, A PRODUCER IN DISTRICT NO. 2, FOR A REDUCTION IN THE EFFECTIVE MINIMUM PRICES IN SIZE GROUPS 7 AND 8 COALS FOR SHIPMENT INTO MARKET AREA 10

ORDER ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATIONS OF THE EXAMINER, DENYING REQUEST FOR ORAL ARGUMENT, AND DENYING RELIEF

This proceeding having been instituted upon a petition, filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by the Ford Collieries Company, a code member in District 2, requesting a reduction in the classification of the coals of the petitioner's Berry Mine (Mine Index No. 12) and Francis Mine (Mine Index No. 72) in Size Groups 7 and 8, for shipment by rail to all destinations in Market Area 10, from C to E, and a consequent reduction in the effec-

tive minimum price of said coals from $2.05 to $1.95 per ton; or, in the alternative, that such change be restricted to one consumer in Market Area 10, the Hammermill Paper Company;

Petitions of intervention having been filed by District Boards 1, 2, and 3; by Carrier & Son, Elba Coal Company, Clarion Coal Mining Company, A. D. Grasso, P. & G. Coal Company, and Wolf-O-Lac Coal Company, producers in District 1; and by the Butler Consolidated Coal Company, the Cosco Gas Coal Company, and the Pittsburgh & Erie Coal Company, producers in District 2;

Temporary relief having been granted by the Director, limited to shipments to the Hammermill Paper Company and further limited to 80 per cent of the total tonnage purchased monthly by Hammermill;

Pursuant to Order of the Director, a hearing in this matter having been held before J. D. Dermody, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The Examiner having filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter, dated September 26, 1941, in which he recommended that the relief requested be denied;

The petitioner having filed exceptions to the Examiner's Report, and a brief in support thereof; District Board 2 having filed a reply to the brief of the petitioner; and the petitioner having filed a brief in reply to the reply brief of District Board 2;

The undersigned having made Findings of Fact and Conclusions of Law herein and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That the request for oral argument herein be, and it hereby is, denied.

It is further ordered, That the exceptions of the petitioner, the Ford Collieries Company, to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner be, and they hereby are, severally overruled.

It is further ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be and they hereby are approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the prayer for relief contained in the petition filed herein be, and they hereby are, denied.

It is further ordered, That the temporary relief heretofore granted herein by the Director, applicable on shipments to the Hammermill Paper Company to Market Area 10, be, and it hereby is revoked and withdrawn, effective fifteen (15) days from the date of this Order.

Dated March 25, 1942.

[Docket No. 1703-FD]

IN THE MATTER OF BENCHLEY & VERMILLION COAL COMPANY, DEFENDANT

ORDER GRANTING APPLICATION FOR RESTORATION OF CODE MEMBERSHIP

A written complaint having been filed on June 11, 1941 by the Bituminous Coal Producers Board for District No. 4, as complainant, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), alleging wilful violation by the defendant, Benchley & Vermillion Coal Company, a code member, of the Act, the Bituminous Coal Code (the "Code"), and the effective minimum prices established thereunder, and

A hearing having been held thereon on October 2, 1941, at Canton, Ohio; and

An order having been entered on March 9, 1942, cancelling and revoking the code membership of the defendant, Benchley & Vermillion Coal Company effective fifteen (15) days from and after the date of entry of said order; and

Benchley & Vermillion Coal Company having filed with the Division its application dated March 24, 1942, for restoration of its code membership to become effective simultaneously with the effective date of such cancellation and revocation of its code membership; and

It appearing from said application that said Benchley & Vermillion Coal Company duly paid to the Deputy Collector of Internal Revenue at Canton, Ohio, on March 24, 1942, the sum of $2,644.09, representing 39 per cent penalty tax as a condition precedent to restoration of its membership in the Bituminous Coal Code;

It is ordered, That said application of Benchley & Vermillion Coal Company dated March 24, 1942, for restoration of its code membership to become effective simultaneously with the effective date of said cancellation and revocation of code membership, be and the same hereby is granted.

It is further ordered, That said restoration of the code membership of Benchley & Vermillion Coal Company shall become effective simultaneously with the effective date of said cancellation and revocation of code membership.

[Docket No. B-58]

IN THE MATTER OF J. G. JORDAN AND W. R. MCCRAY, ALSO KNOWN AS J. G. JORDAN AND W. R. MCCRAY, INDIVIDUALS, TRADING AS JORDAN AND MCCRAY, A PARTNERSHIP, CODE MEMBER

CEASE AND DESIST ORDER

District Board No. 8, the complainant, having filed a complaint wtih the Bituminous Coal Division on September 26, 1941, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, alleging that J. G. Jordan and W. R. McCray, also known as J. G. Jordan and W. R. McCray, individuals, trading as Jordan and McCray, a code member in District No. 8, wilfully violated the Bituminous Coal Code or rules and regulations thereunder by selling on March 21, 1941, 6.5 tons of ¾" slack coal produced at the code member's mine (Mine Index No. 2333), to Basil Shore at 75 cents per ton f. o. b. the mine for shipment by truck, whereas the effective minimum price established for such coal was $1.50 per ton f. o. b. the mine, as set forth in the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments;

Pursuant to an order of the Director and after due notice to all interested persons, a hearing having been held in this matter on January 28, 1942 before Travis Williams, a duly designated Examiner of the Division, at a hearing room thereof at Abingdon, Virginia, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

The complainant and the code member having appeared at the hearing, and all interested parties having joined in waiving the preparation and filing of a report by the Examiner, and the record of the proceeding thereupon having been submitted to the undersigned for consideration;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion which are filed herewith;

Now, therefore, it is ordered, That J. G. Jordan and W. R. McCray, also known as J. G. Jordan and W. R. McCray, individuals, trading as Jordan and McCray, a partnership, their representatives, servants, agents, employees, attorneys, successors or assigns, and all persons acting or claiming to act in their behalf or interest, cease and desist and they are permanently enjoined and restrained from selling or offering for sale coal at prices below the effective minimum prices established therefor, or violating the provisions of the Bituminous Coal Act, the Bituminous Coal Code, the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments, and the Marketing Rules and Regulations.

It is further ordered: That if the code member or any of the partners thereof, fails or neglects to obey this Order, the Division may in its discretion forthwith apply to the Circuit Court of Appeals of the United States within any Circuit where such code member or any partner thereof carries on business for the enforcement thereof, or take any other appropriate action.

[File No. 70-433]

IN THE MATTER OF PUBLIC SERVICE COMPANY OF INDIANA, INC.

NOTICE REGARDING FILING OF AMENDMENT, AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 24th day of March, A. D. 1942.

Notice is hereby given that Public Service Company of Indiana has filed an amendment to its application-declaration previously filed with this Commission. All interested persons are referred to said document which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

The application-declaration contemplates the present issuance, at face value plus accrued interest, of $4,000,000 principal amount of First Mortgage Bonds, Series D, 3¾%, due 1971. It is proposed that the bonds will be sold to Massachusetts Mutual Life Insurance Company, The Penn Mutual Life Insurance Company, Aetna Life Insurance Company, and Pacific Mutual Life Insurance Company in the principal amounts of $1,500,000, $1,000,000, $1,000,000 and $500,000, respectively. Exemption is requested from the provisions of Rule U-50 with respect to the sale of said proposed bonds.

The application-declaration also proposes the issuance and sale, "if and as soon as bond market conditions are such as warrant the making of such sale," of an additional $38,000,000 principal amount of First Mortgage Bonds, of which the proceeds are proposed to be used for the redemption of presently outstanding $38,000,000 principal amount of First Mortgage Bonds, Series A, 4%, due 1969.

The application-declaration represents that it is proposed to secure the approval of the Public Service Commission of Indiana. An order of this Commission is requested exempting the proposed issuance from the declaration requirements of the Act, pursuant to section 6 (b) thereof.

The filing requests that the Commission modify the terms of a previous order issued on March 27, 1941 and applicable to Public Service Company of Indiana, Inc. (see Holding Company Act Release No. 2658) which order in effect provides that in addition to the sinking fund provisions of its outstanding long term debt the Company should retire by 1958 $3,859,500 additional amount of its long term debt. The bonds presently proposed to be issued are subject to certain sinking fund provisions. The effect of the proposed suggested modifications would be that the additional amount of long term debt to be retired by 1958 should aggregate $3,430,000 (the sinking fund provisions applicable to the new bonds would make the total retirement substantially that required by our order of March 27, 1941.)

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration, and that said application shall not be granted and such declaration not be permitted to

become effective except pursuant to further order of the Commission;

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the rules of the Commission thereunder be held on April 6, 1942 at 10:00 in the forenoon of that day at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the Hearing Room Clerk in room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why said declaration shall become effective;

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by the Commission for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act, and to a trial examiner under the Commission's Rules of Practice;

Notice of said hearing is hereby given to applicant-declarant, to all security holders thereof, to all interested state commissions, and to all other interested persons. Said notice shall be given by service of a copy of this order by registered mail to said applicant-declarant, and by publication in the FEDERAL REGISTER. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice or request to that effect with the Commission on or before April 1, 1942;

It is further ordered, That, without limiting the scope of issues presented by said declaration or application, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the proposed issuance of bonds is entitled to the exemption from the Holding Company Act of 1935 provided by the third sentence of section 6 (b) of said Act.

2. In the event that said application for exemption is granted, what terms and conditions, either by way of dividend restrictions or otherwise, should be imposed as being necessary or appropriate in the public interest or for the protection of investors or consumers.

3. Whether and to what extent the conditions previously imposed in the Commission's order of March 27, 1941 should be modified as requested by applicant-declarant.

4. Whether compliance with the requirements of Rule U-50 is not appropriate in the public interest or for the protection of investors or consumers as a condition to the exemption of the proposed issuance from the provisions of section 6 (a) of the Act, or to aid the Commission in determining what terms and conditions should be imposed with respect thereto.

By the Commission.

IN THE MATTERS OF STANDARD POWER AND LIGHT CORPORATION

ORDER CONSOLIDATING PROCEEDINGS AND NOTICE OF AND ORDER RECONVENING HEARINGS IN SAID PROCEEDINGS

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 25th day of March, A. D. 1942.

The Commission having heretofore instituted proceedings under section 11 (b) (2) of the Public Utility Holding Company Act of 1935 with respect to Standard Power and Light Corporation, a registered holding company (File No. 59-13), and a hearing having been held after due notice; and

The said company having filed on November 2, 1940, pursuant to section 11 (e) of said Act, an application for approval of a plan of reorganization and recapitalization to effectuate the provisions of section 11 (b) (File No. 54-29), and a hearing having been held after due notice; and

It appearing to the Commission that there are common issues of fact and of law arising in connection with said two matters; and that the administration of the Act will be facilitated by an order consolidating the two proceedings; and it further appearing that the hearings should be reconvened;

It is hereby ordered, That the proceedings heretofore commenced under section 11 (b) (2) of the Public Utility Holding Company Act of 1935 (File No. 59-13), and the application heretofore filed by Standard Power and Light Corporation pursuant to section 11 (e) of said Act (File No. 54-29), be and are hereby consolidated.

It is further ordered, That jurisdiction be and is hereby reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, the matters herein consolidated.

It is further ordered, That the hearings heretofore commenced in these proceedings, herein consolidated, shall be reconvened, on April 15, 1942, at ten o'clock in the forenoon of that day at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on such date by the hearing room clerk in room 318 before James G. Ewell, an officer of the Commission, or before such other officer as the Commission may hereafter designate. The officer so designated to preside at such reconvened hearing is hereby authorized to exercise all the powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the issuance of this notice and order and of the reconvening of said consolidated hearing by mailing a copy of this notice and order by registered mail to Standard Power and Light Corporation and to each of the attorneys of record herein and to each of the persons who have filed petitions for leave to intervene herein, and that notice of the reconvening of said hearings is hereby given to said company and all other persons, including the security holders and consumers of the said company, to all State commissions, State securities commissions, and all agencies, authorities or instrumentalities of one or more States, municipalities, or other political subdivisions having jurisdiction over any of the businesses, affairs, or operations of said company, such notice to be given by publication of this notice and order in the FEDERAL REGISTER, and by publication of this notice and order as a general release, distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

By the Commission.

IN THE MATTER OF PUBLIC SERVICE ELECTRIC AND GAS COMPANY

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 25th day of March 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Public Service Electric and Gas Company. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Public Service Electric and Gas Company, a New Jersey corporation and a subsidiary of Public Service Corporation of New Jersey, proposes, pursuant to the provisions of a Supplemental Indenture to be dated March 1, 1942, to issue and sell, at the price of 100% of the principal amount and accrued interest to the closing date, $15,000,000 of First and Refunding Mortgage Bonds, 3% Series, due 1972, to the following proposed purchasers, and in principal amounts as indicated: The Prudential Insurance Company of America, $3,000,000; New York Life Insurance Company, $3,000,000; Metropolitan Life Insurance Company, $3,000,000; The Mutual Benefit Life Insurance Company, $2,000,000; The Mutual Life Insurance Company of New York, $2,000,000; The Penn Mutual Life Insurance Company, $1,000,000; and Sun Life Assurance Company of Canada, $1,000,000.

It is further proposed that the proceeds of said issue and sale be applied, in part, to reimburse the company's treasury for expenditures for property additions and extensions, and, in part, to provide funds for further property additions and extensions.

In connection with said application or declaration, Public Service Electric and Gas Company has applied, pursuant to the provisions of Rule U-50 (a) (5), for exemption of the proposed issue and sale from the competitive bidding requirements of Rule U-50.

Section 6 (b) of the Act is designated as applicable to the proposed transactions.

On September 15, 1941, the Commission denied the application of Public Service Corporation of New Jersey, pursuant to section 2 (a) (8) of the Act, for an Order declaring it not to be a subsidiary of The United Gas Improvement Company and The United Corporation, both registered holding companies. On November 5, 1941, Public Service Corporation of New Jersey filed a Petition for Review of said Order in The United States Circuit Court of Appeals for the Third Circuit, which Petition is now pending. On November 19, 1941, said Court ordered a stay of the effective date of the Commission's Order pending disposition of said Petition for Review, and on March 4, 1942, ordered the Stay Order of November 19, 1941 modified so that the proposed issue and sale by Public Service Electric and Gas Company of $15,000,000 First and Refunding Mortgage Bonds, 3% Series, due 1972, shall be subject to the provisions of the Act, in the same manner and to the same extent as if the Order of November 19, 1941 had not been entered.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said matters, that said declaration shall not become effective nor said application be granted except pursuant to further Order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on April 2, 1942, at 10:00 o'clock, A. M., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pa. On such day the hearing-room clerk will advise as to the room where such hearing will be held. At such hearing, cause shall be shown why such declaratio: or application (or both) shall become effective or shall be granted. Notice is hereby given of said hearing to the above-named declarant and applicant and to all interested persons, said notice to be given to said declarant and applicant by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of issues presented by said declaration or application (or both) otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed issue and sale are solely for the purpose of financing the business of the issuer and have been expressly authorized by the State Commission of the State in which it is organized and doing business;

2. Whether and to what extent it is appropriate or for the protection of investors and consumers to attach terms and conditions with respect to said issue and sale; and

3. Whether it is appropriate in the public interest or for the protection of investors or consumers to exempt the proposed issue and sale, pursuant to the provisions of Rule U-50 (a) (5), from the competitive bidding requirements of Rule U-50.

IN THE MATTER OF PACIFIC POWER & LIGHT COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of March, A. D. 1942.

A declaration or application (or both) pursuant to the Public Utility Holding Company Act of 1935 having been duly filed with this Commission by the above named party, and notice having been given of the filing thereof by publication in the FEDERAL REGISTER and otherwise, as provided by Rule U-23 under said Act;

And the said declaration or application (or both) being concerned with the following:

(a) Pacific Power & Light Company ("Pacific"), as of November 30, 1941, owned all of the issued and outstanding shares (except directors' qualifying

shares) of the capital stock, all of no par value of Inland Power & Light Company ("Inland") and also owned Inland's 6% demand note now outstanding in the principal amount of $7,560,000. The proposed transactions involve the cancellation by Pacific of all of Inland's said 6% demand note indebtedness as a contribution by Pacific to the capital of Inland; consummation of this first step will increase the stated liability with respect to the capital stock of Inland from $1,545,369.27, as of November 30, 1941, to $9,105,369.27;

(b) Inland will then transfer to Pacific all the property, rights, licenses, and assets of Inland in consideration for (1) assumption by Pacific of Inland's indebtedness and liabilities including any liability arising *ex delicto*, (2) surrender and cancellation of the capital stock of Inland, as well as the cancellation by Pacific of all indebtedness and obligations of Inland to Pacific, and assumption by Pacific of Inland's obligations to governmental authorities, and (3) payment by Pacific of all fees, costs and expenses arising out of this transaction.

As a result of the above described transactions, Inland will cease to exist as a separate corporate entity.

It appearing to the Commission that it is appropriate in the public interest and the interests of investors and consumers that a hearing be held with respect to said declaration or application and that said declaration shall not become effective or said application be granted except pursuant to the further order of the Commission;

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the rules of the Commission thereunder be held on April 2, 1942, at 10:00 A. M. of such day at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in room 318 will advise as to the room in which such hearing shall be held. At such hearing cause shall be shown why said declaration or application shall be permitted to become effective or be granted:

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by the Commission for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act, and to a trial examiner under the Commission's Rules of Practice;

Notice of such hearings is hereby given to declarant or applicant and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors or consumers. It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect with the Commission on or before March 31, 1942.

It is further ordered, That, without limiting the scope of issues presented by said declaration or application, particular attention will be directed at said hearing to the following matters and questions:

1. Whether in all respects the proposed transactions are consonant with the provisions and standards of the Act.

2. Whether the proposed accounting treatment of the transactions on the books of Pacific is in all respects adequate and proper.

3. Whether in any other respect the terms and conditions of the proposed transactions are detrimental to the public interest or the interests of investors or consumers, or will tend to circumvent the provisions of the Act, or the rules, regulations or orders thereunder; and the extent to which terms and conditions should be imposed to insure adequate protection of such interests in compliance with the applicable provisions of the Act.

EXECUTIVE ORDER 9112

AUTHORIZING FINANCING CONTRACTS TO FACILITATE THE PROSECUTION OF THE WAR

WHEREAS in order that contracts of the War Department, the Navy Department, and the United States Maritime Commission (hereinafter referred to as Maritime Commission) which are now outstanding or may hereafter be entered into for war production, including the obtaining or conversion of facilities, may be promptly and effectively performed, it is essential that additional facilities be provided through governmental agencies to supply necessary funds to contractors, subcontractors and others engaged in such war production pursuant to such contracts;

WHEREAS the War Department, the Navy Department, and the Maritime Commission have available to them amounts appropriated by Congress which may be used for the purpose of making or guaranteeing loans, discounts or advances or commitments in connection therewith for the purpose of financing contractors, subcontractors and others engaged in such production or otherwise to expedite war production;

WHEREAS the guaranteeing or making of such loans, discounts, advances and commitments by the War Department, Navy Department and Maritime Commission will be expedited and facilitated by utilizing in this connection the Federal Reserve Banks and the Board of Governors of the Federal Reserve System, which are agencies of the Government exercising functions in connection with the prosecution of the war effort and which have offices and other facilities, including experienced personnel, located conveniently throughout the country and are in close and frequent contact with banking and other financing institutions; and

WHEREAS the guaranteeing or making of such loans, discounts, advances and commitments will greatly facilitate the participation of small business enterprises in war production;

NOW, THEREFORE, by virtue of the authority vested in me by the various provisions of the First War Powers Act, 1941, approved December 18, 1941, by all other Acts of Congress and by the Constitution of the United States, and as President of the United States and Commander-in-Chief of the Army and Navy of the United States, and deeming that such action will facilitate the prosecution of the war, I do hereby order as follows:

(1) The War Department, Navy Department and the Maritime Commission are hereby respectively authorized, without regard to the provisions of law relating to the making, performance, amendment or modification of contracts, (a) to enter into contracts with any Federal Reserve Bank, the Reconstruction Finance Corporation, or with any other financing institution guaranteeing such Reserve Bank, Reconstruction Finance Corporation, or other financing institution against loss of principal or interest on loans, discounts or advances, or on commitments in connection therewith, which may be made by such Reserve Bank, Reconstruction Finance Corporation, or other financing institution for the purpose of financing any contractor, subcontractor or others engaged in any business or operation which is deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the war, and to pay out funds in accordance with the terms of any such contract so entered into; and (b) to enter into contracts to make, or to participate with any Federal Reserve Bank, the Reconstruction Finance Corporation, or other financing institution in making loans, discounts or advances, or commitments in connection therewith, for the purpose of financing any contractor, subcontractor or others engaged in any business or operation which is deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the

(2) The authority above conferred may be exercised by the Secretary of War, the Secretary of the Navy or the Maritime Commission respectively or may also be exercised, in their discretion and by their direction respectively, through any other officer or officers or civilian officials of the War or Navy Departments or the Maritime Commission. The Secretary of War, the Secretary of the Navy, and the Maritime Commission may confer upon any officer or officers in their respective departments or civilian officials thereof the power to make further delegations of such powers within the War and Navy Departments and the Maritime Commission.

(3) Any Federal Reserve Bank or any officer thereof may be utilized, and is hereby authorized to act, as agent of the War Department, the Navy Department, or the Maritime Commission, respectively, in carrying out any of the provisions of this executive order, and the Secretary of the Treasury is hereby directed to designate each Federal Reserve Bank to act as fiscal agent of the United States pursuant to the provisions of section 15 of the Federal Reserve Act in carrying out any authority granted to it by or pursuant to this executive order. In any case in which any Federal Reserve Bank shall make or participate in making any loan, discount or advance or commitment as agent of the War Department, Navy Department or Maritime Commission under authority of this order, all such funds as may be necessary therefor shall be supplied and disbursed by or under authority from the War Department, Navy Department or Maritime Commission in accordance with such procedure as they may respectively require. Any amounts now or hereafter available under any appropriation act to the War Department, the Navy Department, or the Maritime Commission for the purpose of procuring materials, equipment or supplies, or of expediting production thereof, may be expended through the agency of the respective Federal Reserve Banks in accordance with the provisions of this executive order. In taking any action under any designation or authority given by or pursuant to this paragraph no Federal Reserve Bank shall have any responsibility or accountability except as agent of the War Department, Navy Department, or Maritime Commission, as the case may be.

(4) All actions and operations of any Federal Reserve Bank under authority of or pursuant to the terms of this executive order shall be subject to the supervision of the Board of Governors of the Federal Reserve System and to such directions and conditions as the Board of Governors of the Federal Reserve System may prescribe, by regulation or otherwise, after consultation with the Secretary of War, the Secretary of the Navy, or the Maritime Commission, or their authorized representatives.

(5) The War Department, the Navy Department and the Maritime Commission shall make reports of all contracts entered into by them respectively pursuant to the terms of this executive order, in accordance with the provisions of paragraph 1 of the regulations prescribed in Title II of Executive Order No. 9001[1] dated December 27, 1941.

(6) Interest, fees and other charges derived by the War Department, Navy Department and Maritime Commission, respectively, from operations pursuant to the terms of this executive order may be held by the Federal Reserve Banks and shall first be used for the purpose of meeting expenses and losses (including but not limited to attorneys' fees and expenses of litigation) incurred by the Federal Reserve Banks in acting as agents under or pursuant to the provisions of this executive order; and to the extent that the amount of such interest, fees or other charges is insufficient for this purpose the Federal Reserve Banks shall be reimbursed for such expenses and losses by the War Department, the Navy Department or the Maritime Commission, as the case may be.

TITLE 7—AGRICULTURE

Chapter VIII—Sugar Service, Agricultural Conservation and Adjustment Administration

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FARMING PRACTICES TO BE CARRIED OUT ON FARMS IN CONNECTION WITH THE PRODUCTION OF SUGAR BEETS DURING THE CROP YEAR 1942, PURSUANT TO SUBSECTION (e) OF SECTION 301 OF THE SUGAR ACT OF 1937, AS AMENDED

Pursuant to the provisions of subsection (e) of section 301 of the Sugar Act of 1937, as amended, the following determination is hereby issued:

§ 802.13g *Farming practices in connection with the production of sugar beets during the crop year 1942*—(a) *For farms in States other than California.* The requirements of subsection (e) of section 301 of the Sugar Act of 1937, as amended, shall be deemed to have been fulfilled with respect to the production of the 1942 crop of sugar beets on any farm in States other than California if the producer and the county agricultural conservation committee certify that there is carried out on land on the farm which is adapted to the production of sugar beets, not less than one-half acre of soil-conserving practices for each acre of sugar beets planted on the farm for harvest in 1942 for the extraction of sugar: *Provided, however,* That not in excess of 75 percent of the foregoing requirements in connection with rented acreage which would otherwise be part of another farm may consist of practices carried out on such farm in excess of any practices required thereon.

[1] 6 F.R. 6787.

For the purposes of paragraph (a) of this section:

(1) Each of the following shall be deemed to be one acre of soil-conserving practices:

(i) Maintaining until after July 1, 1942, one acre of a protective covering of adapted perennial or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(ii) Seeding in 1942 one acre of adapted perennial legumes (except alfalfa) or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(iii) Seeding in 1942 one-half acre of adapted alfalfa; or

(iv) Plowing under during 1942 one acre of a good stand and a good growth of an adapted green manure crop; or

(v) Applying during 1942 eight short tons of animal manure or the amount of manure normally produced in one year by any of the following: two head of cattle (of more than one year of age), two horses, two mules, four calves, four colts, ten sheep, or ten goats; or

(vi) Applying during 1942 to land on which sugar beets are planted for harvest in 1942, 75 pounds of net available nitrogen, potash and/or phosphoric acid in the form of commercial chemical fertilizer.

(2) Adapted perennial or biennial legumes, or adapted perennial grasses, or mixtures thereof, or adapted green manure crops, shall be deemed to be those perennial or biennial legumes, or perennial grasses, or mixtures thereof, or green manure crops, which are approved under the 1942 State Agricultural Conservation Program as being adaptable for the State in which the farm is located.

(b) *For farms in California.* The requirements of subsection (e) of section 301 of the Sugar Act of 1937, as amended, shall be deemed to have been fulfilled with respect to the production of the 1942 crop of sugar beets on any farm in California if the producer and the county agricultural conservation committee certify that there is carried out during the crop year 1942, on land on the farm which is adapted to the production of sugar beets, not less than one-half acre of soil-conserving practices for each acre planted to sugar beets: *Provided, however,* That one-fourth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1938, if a perennial legume was produced thereon in 1939, or if any legumes were produced thereon in 1940 or 1941; and three-eighths acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1939, if legumes were produced thereon in 1940 or 1941: *And provided further,* That in Area 1, if practice (i), (ii), or (iii), specified in subparagraph (3) of this paragraph, or any combination of such practices, is used to meet the requirements with respect to all the sugar beets on the farm, one-sixth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1938, if a perennial legume was produced thereon in 1939, or if any legumes were produced thereon in 1940 or 1941; one-fourth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1939, if legumes were produced thereon in 1940 or 1941; one-fourth acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1938; and one-third acre of soil-conserving practices shall be required for each acre planted to sugar beets on land which has not produced sugar beets since 1939: *Provided further,* That a portion of the acres of soil-conserving practices required for rented acreage of any farm which would otherwise be part of another farm may consist of acres of practices carried out on the latter farm in excess of any practices required thereon, but an acreage of soil-conserving practices equal to not less than 12.5 percent of the acres planted to sugar beets on such rented acreage shall be carried out on the farm of which such rented acreage is a part in excess of any practices which would be required if such rented acreage were not a part of such farm.

For the purposes of paragraph (b) of this section:

(1) The term "crop year" means the calendar year, except where the grower requests that the crop year be a 12-month period beginning 120 days prior to the normal planting date of sugar beets for the community, in which case the crop year shall be such 12-month period, if approval is given by the County Committee.

(2) The term "Area 1", as used in this paragraph, means all of the counties in California east of the west borders of Contra Costa, San Joaquin, Stanislaus, Merced, Fresno, Kings, and Kern Counties and north of the south border of Kern and Inyo Counties.

(3) Each of the following shall be deemed to be one acre of soil-conserving practices:

(i) Maintaining until after July 1, 1942, one acre of protective covering of adapted perennial or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(ii) Seeding during the crop year 1942 one-half acre of land to adapted perennial or biennial legumes, adapted perennial grasses, or mixtures of such legumes and grasses; or

(iii) Seeding and maintaining until after December 31, 1942, one acre of a good growth and a good stand of an adapted cover crop, or plowing under during the crop year 1942 one acre of a good stand and a good growth of an adapted green manure crop; or

(iv) Applying during the crop year 1942 eight short tons of animal manure, or the amount of manure normally produced in one year by any of the following: Two head of cattle of more than

one year of age, two horses, two mules, four calves, four colts, ten sheep, or ten goats; or

(v) Applying during the crop year 1942 not less than eight tons (air dry weight) of leguminous crop residues; or

(vi) Applying during the crop year 1942 three tons of lime, or 1,000 pounds of 18 percent gypsum or its sulphur equivalent; or

(vii) Applying during the crop year 1942 to land planted to sugar beets 75 pounds of available nitrogen and/or potash in the form of commercial chemical fertilizers; or

(viii) Applying during the crop year 1942 to land planted to sugar beets, or to or in connection with the seeding of perennial or biennial legumes or perennial grasses, 64 pounds of net available P_2O_5 in the form of commercial fertilizers.

(4) Adapted perennial or biennial legumes, or adapted perennial grasses, or mixtures thereof, or adapted green manure or cover crops, shall be deemed to be those perennial and biennial legumes or perennial grasses or mixtures thereof, or green manure crops, and cover crops, which are approved under the 1942 State Agricultural Conservation Program as being adaptable for the State.

(5) Acres of soil-conserving practices (other than acreage qualifying under practice (i)) carried out to meet similar requirements prescribed for the 1941 sugar beet crop shall not be used to meet the requirements set forth herein for the 1942 crop.

(c) *General provision.* All of the foregoing soil-conserving practices shall be carried out in accordance with the farming methods commonly used in the community in which the farm is located. (Sec. 301, 50 Stat. 909; 7 U.S.C. 1131)

Done at Washington, D. C., this 27th day of March, 1942. Witness my hand and the seal of the Department of Agriculture.

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

Sec.

927.0 Findings.
927.1 Definitions.
927.2 Market administrator.
927.3 Classification of milk.
927.4 Minimum prices.
927.5 Reports of handlers.
927.6 Determination of uniform prices to producers.
927.7 Payments to producers.
927.8 Expense of administration.
927.9 Suspension, termination, and liquidation.

The Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, issued, on March 30, 1940, and, on April 25, 1940, made effective, as of May 1, 1940, the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area.

There being reason to believe that amendment of said order, as amended, would tend to effectuate the declared policy of the act, a notice was given on the 20th day of September 1940, of a hearing which was held on October 7 and 8 at New York City; on October 9 and 10 at Syracuse, New York; on October 11 at Albany, New York; and on October 15 and 16 at New York City; at which times and places all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended, and thereafter Amendment No. 1 was issued, effective March 1, 1941.

There being reason to believe that further amendment of said order, as amended, would tend to effectuate the declared policy of the act, notice was given on the 6th day of May 1941, of a hearing which was held on May 14 and 15 at New York City; on May 16 and 17 at Albany, New York; and on May 19, 20, 21, 22, and 23 at New York City; at which times and places all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended, and thereafter Amendment No. 2 was issued, effective July 1, 1941.

There being reason to believe that further amendment of said order, as amended, would tend to effectuate the declared policy of the act, notice was given on the 25th day of July 1941, of a hearing which was held on August 1 and 2 at New York City; on August 5 and 6 at Watertown, New York; and on August 7 and 8 at Albany, New York; at which times and places all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended, and thereafter Amendment No. 3 was issued, effective October 1, 1941.

There being reason to believe that further amendment of said order, as amended, would tend to effectuate the declared policy of the act, notice was given on the 29th day of December 1941, of a hearing that was held on January 7, 8, and 9 at New York City; on January 12, 13, and 14 at Utica, New York; on January 15, 16, and 17 at Binghamton, New York; on January 19 and 20 at Utica, New York; and on January 21, 22, 23, 26, 27, and 28 at New York City; at which times and places all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

The requirements of section 8c (9) of the act have been complied with.

It is found, upon the evidence introduced at said latter hearing on proposed amendments, said findings being in addition to the findings made upon the evidence introduced at all prior hearings on said order and amendments thereto (which findings are hereby ratified and affirmed, save only as such findings are in conflict with findings hereinafter set forth):

AUTHORITY: §§ 927.0 to 927.9, inclusive, issued under the authority contained in 48 Stat. 31, 670, 675, (1933); 49 Stat. 750 (1935); 50 Stat. 246 (1937); 7 U.S.C. and Sup. 601 et seq.

§ 927.0 *Findings.* (a) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and section 8e of the act, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(b) That the order, as amended, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(c) That the issuance of the order, as amended, and all of its terms and conditions will tend to effectuate the declared policy of the act.

It is hereby ordered, That such handling of milk in the New York metropolitan marketing areas is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall, from the effective date hereof, be in compliance with the following terms and conditions:

§ 927.1 *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Secretary" means the Secretary of Agriculture of the United States.

(c) "New York metropolitan milk marketing area" means the city of New York, the counties of Nassau, Suffolk (except Fisher's Island), and Westchester, all in the State of New York, and is hereinafter called the "marketing area."

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Producer" means any person who produces milk which is delivered to a handler at a plant which is approved by any health authority for the receiving of milk to be sold in the marketing area.

(f) "Handler" means any person who engages in the handling of milk, or cream, or milk products therefrom, which milk was received at a plant approved by any health authority for the receiving of milk to be sold in the marketing area, which handling is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce. This definition shall be deemed to include a cooperative association of producers with respect to any milk received from producers at any plant for which approval is held by such association, or with respect to any milk which it causes to be delivered from producers to any other handler for the account of such association and for which such association receives payment.

(g) "Market administrator" means the agency, which is described in § 927.2, for the administration of this order.

(h) "Special cream area" means the territory, with the exception of the marketing area and Fisher's Island, which lies within the boundaries of the State of New York and of the following counties in the State of New Jersey:

Bergen.	Morris.
Essex.	Passiac.
Hudson.	Somerset.
Hunterdon.	Sussex.
Middlesex.	Union.
Monmouth.	Warren.

(i) "New England" means the territory which lies within the boundaries of the States of Connecticut, Maine, New Hampshire, Rhode Island, Vermont, the Commonwealth of Massachusetts, and Fisher's Island.

§ 927.2 *Market administrator — (a) Selection, removal, and bond.* The agency for the administration of this order shall be a market administrator who shall be a person selected and subject to removal by the Secretary. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) *Compensation.* The market administrator shall be entitled to such reasonable compensation as shall be determined by the Secretary.

(c) *Powers.* The market administrator shall have power to administer the terms and provisions hereof, and to receive, investigate, and report to the Secretary complaints of violations of this order.

(d) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records to examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose, after reasonable notice, the name of any person who has not made reports pursuant to § 927.5 (a), or made payments required by § 927.7;

(6) Prepare and disseminate, for the benefit of producers, consumers, and handlers, such statistics and information concerning the operation of this order, as amended, as do not reveal confidential information;

(7) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(8) Pay out of the funds received pursuant to § 927.8 the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties; and

(9) Maintain a main office and such branch offices as may be necessary.

(e) *Announcement of prices.* The market administrator shall compute and publicly announce prices as follows:

(1) Not later than the 25th day of each month, the average, for 30 days immediately preceding, of the prices reported daily by the United States Department of Agriculture for 92-score butter at wholesale in the New York market, and the average of all the hot roller process dry skim milk quotations for "other brands, animal feed, carlots, bags, or barrels" and for "other brands, human consumption, carlots, bags, or barrels" (using midpoint of any range as one quotation), published during the preceding 30 days in "The Producers' Price-Current," and the Class I, Class II-A, and the Class V-A prices to be in effect for the following month, pursuant to § 927.4 (a).

(2) Not later than the 5th day of each month, the prices for all other classes, pursuant to § 927.4 (a), and the differentials, pursuant to § 927.4 (b), in effect for the preceding month; and

(3) Not later than the 14th day of each month, the uniform price computed pursuant to § 927.6 (b).

§ 927.3 *Classification of milk*—(a) *Basis of classification.* All milk received during any month from producers by handlers shall be classified in the classes set forth in paragraph (b) of this section in accordance with the form in which it is held at or moved from, within 8 days after the end of the month, the plant where received from producers, including members of any cooperative association, except as set forth in subparagraphs (1) and (2) immediately below. In establishing the classification of any milk received at a plant from producers, the burden rests upon the handler who received the milk from producers to show that it should not be classified as Class I milk; likewise, having established the manufacture of cream, the burden rests upon such handler to show that the milk, the butterfat from which was manufactured into cream, should not be classified in Class II-A and that the skim milk, resulting from the manufacture of cream, should not be classified as Class V-A.

(1) Milk which is moved to a second plant outside the marketing area, or milk, the butterfat from which is moved to a second plant outside the marketing area, shall be classified at the first plant subject to the following conditions:

(i) If the second plant is approved for the sale of milk in the marketing area, and if some but not all of the products moved from or held at such plant would classify milk in classes to which diversion payments are applicable, the milk moved from the first plant shall be classified pro rata in accordance with the form in which all milk, all cream, or all of both, as the case may be, received during the month, was held at or moved from the second plant.

(ii) If the second plant is approved for the sale of milk in the marketing area, and all of the products or none of the products moved from or held at such plant would classify milk in classes to which diversion payments are applicable, the milk moved from the first plant may, at the option of the handler or handlers involved, be classified in accordance with any of the forms in which milk or milk products, as the case may be, was held at or moved from the second plant.

(iii) If the second plant is not approved for the sale of milk in the marketing area, the milk moved from the first plant shall be classified, in absence of proof of use in a specific class, pro rata in accordance with the form in which all milk, all cream, or all of both, as the case may be, received during the month, at the second plant, was held at or moved from such plant: *Provided*, That if such second plant is a plant the handling of milk at which is subject to another order of the Secretary for another marketing area, all milk which is shipped to such plant and not classified in Class I, and all milk the butterfat from which is shipped in the form of cream to such plant, shall be classified as Class II-D or Class II-E, unless such milk or cream was subsequently so handled as to classify the milk in Class II-A, Class II-B, or Class II-C.

(iv) If milk is moved to a second plant where it is separated into cream, and cream is moved from the second plant to a third plant, the milk from the first plant, the classification of which is based on the manufacture of such cream, may be classified according to the form in which cream was held at or moved from the third plant.

(2) Milk the butterfat from which is moved in the form of cream to a second plant which is located in the marketing area may be classified in classes other than Class I or Class II-A only if such cream was held at or moved from such second plant in the form of frozen desserts or homogenized mixtures.

(b) *Classes of utilization.* Subject to all of the conditions set forth in paragraph (a) of this section, the classes of milk shall be as follows:

(1) Class I milk shall be all milk which leaves a plant as milk, or cultured or flavored milk drinks containing 3.0 percent butterfat or more, and all milk the classification of which is not established in some other class named in this paragraph, except that loss or waste of milk in a plant where milk is received from producers, not to exceed 2 percent of the total quantity of milk received, may be prorated to each class or price subdivision of such class (except Class V–A and Class V–B) in the proportion which the milk in such class or price subdivision of such class is of the total quantity of milk received at such plant: *Provided*, That any loss or waste in excess of 2 percent shall be subject to the price set forth in § 927.4 (a) (1).

(2) Class II–A milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of cultured or flavored milk drinks containing less than 3.0 percent butterfat or in the form of cream, sweet or sour, unless such cream is established to have been subsequently so handled or marketed as to classify such milk in some other class.

(3) Class II–B milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of plain condensed milk, or, except as set forth in subparagraphs (5), (6), and (7) of this paragraph, frozen desserts or homogenized mixtures; or which leaves or is on hand at a plant in the form of cream which is subsequently held in a licensed cold storage warehouse at an average temperature below zero degrees Fahrenheit for 7 consecutive days and below 15 degrees Fahrenheit for at least 21 days thereafter, as shown by charts of a recording thermometer, and which is subject at all times to being inspected by a representative of the market administrator to determine the physical presence of the cream and the temperature of the room where stored. After the first 7 consecutive days such cream may be moved from one licensed cold storage warehouse to another: *Provided*, That the market administrator receives notice of such removal within 48 hours thereafter. Any handler whose report claimed the original classification of milk in this class shall be liable under the provisions of § 927.7 (j) for the difference between the Class II–B and Class II–A prices for the month in which the II–B classification was claimed on any such milk, if the storage of the cream does not comply with all the requirements of this subparagraph.

(4) Class II–C milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of cream which is delivered to a plant or a purchaser in the special cream area, is not moved as cream to a plant in the marketing area or delivered to a purchaser in the marketing area, and the classification of which is not established in some other class.

(5) Class II–D milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of cream or in the form of frozen desserts or in the form of homogenized mixtures used in frozen desserts, which is delivered to a plant or a purchaser outside the marketing area, outside the special cream area and outside New England: *Provided*, That the cream is not moved to a plant in the marketing area, in the special cream area, or in New England, or delivered to a purchaser in the marketing area, in the special cream area, or in New England: *And provided further*, That the frozen desserts, or the homogenized mixtures used in frozen desserts are not moved to a plant in New York City, or delivered to a purchaser in New York City.

(6) Class II–E milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of cream or in the form of frozen desserts or in the form of homogenized mixtures used in frozen desserts, which is delivered to a plant or a purchaser in New England: *Provided*, That the cream is not moved to a plant outside New England or delivered to a purchaser outside New England: *And provided further*, That the frozen desserts or homogenized mixtures used in frozen desserts are not moved to a plant in New York City or delivered to a purchaser in New York City.

(7) Class II–F milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of frozen desserts or in the form of homogenized mixtures used in frozen desserts, except as set forth in subparagraphs (5) and (6) of this paragraph, provided the frozen desserts in both instances were moved to a plant or delivered to a purchaser outside New York City and remained outside New York City; or all milk the butterfat from which leaves or is on hand at a plant in the form of cream cheese.

(8) Class III milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of evaporated milk in hermetically sealed cans, sweetened condensed milk, milk chocolate and other candy products, milk powder, malted milk powder, or cheeses other than those specified in subparagraphs (7) and (10) of this paragraph.

(9) Class IV–A milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of butter.

(10) Class IV–B milk shall be all milk the butterfat from which leaves or is on hand at a plant in the form of Cheddar cheese, American Cheddar Cheese, Colby cheese, washed curd cheese, or part-skim Cheddar cheese.

(11) Class V–A milk shall be the skim milk in all milk which is classified pursuant to subparagraphs (2), (3), (4), (5), (6), (7), and (9) of this paragraph, which skim milk enters the marketing area in the form of fluid skim milk or cultured or flavored milk drinks, and which is not utilized in some other product outside the marketing area: *Provided*, That for the purposes of this subparagraph and of subparagraph (12) of this paragraph, there shall be 91.25 pounds of skim milk in each 100 pounds of milk having a butterfat content of 3.5 percent, plus an additional 0.25 pound of skim milk for each point of butterfat in such milk below 3.5 percent or minus an additional 0.25 pound of skim milk for each point of butterfat in such milk above 3.5 percent.

(12) Class V–B milk shall be the skim milk in all milk which is classified pursuant to subparagraphs (2), (3), (4), (5), (6), (7), and (9) of this paragraph, which skim milk is not classified pursuant to subparagraph (11) of this paragraph.

§ 927.4 *Minimum prices.* For milk received during each month from producers or cooperative associations of producers, each handler shall pay per hundredweight not less than the prices set forth in this section. Any handler who purchases or receives, during any month, milk from a cooperative association of producers which is also a handler shall, on or before the 15th day of the following month, pay such cooperative association in full for such milk at not less than the minimum class prices applicable pursuant to this section.

The prices for milk classified pursuant to subparagraphs (2), (3), (4), (5), (6), (7), and (9) of paragraph (b) of this section shall represent the value of the 40 percent cream equivalent of the milk. The value of any excess skim milk in such milk shall be represented by either the Class V–A or the Class V–B price.

(a) *Class prices.* (1) For Class I milk the price per hundredweight during each month shall be, except as specified in subparagraphs (2), (3), and (4) of this paragraph, as set forth in the table in this subparagraph:

92-score butter, wholesale, at New York, average price per pound announced pursuant to § 927.2 (e), plus an amount calculated as follows: deduct 4 cents from the average dry skim milk quotation per pound, announced pursuant to § 927.2 (e), and multiply by 1.8	Class I price

(2) For Class I milk sold by a handler in the marketing area under a program approved by the Secretary and upon which payment is made out of Federal funds, the price shall be 57 cents per hundredweight less than the price in effect pursuant to subparagraph (1) of this paragraph.

(3) For Class I milk which has not passed through the marketing area, but which is ultimately distributed in an area regulated by another order of the Secretary, the price shall be the Class I price set forth in such order for milk sold in such marketing area subject to the butterfat and transportation differentials set forth in such other order.

(4) For Class I milk which has not passed through the market area, but including Class I milk which was received direct from producers at a plant in the marketing area, and which is ultimately distributed in an area not regulated by an order of the Secretary, the price shall be the uniform price computed by the market administrator pursuant to § 927.6 (b) plus 20 cents per hundredweight included in the net pool obligation for such milk pursuant to § 927.6 (a).

(5) For Class II–A milk the price during each month shall be as set forth in the following table:

(6) For Class II–B milk the price during each month shall be 12 cents less than the Class II–A price.

(7) For Class II–C milk the price during each month shall be 10 cents higher than the price computed pursuant to subparagraph (9) of this paragraph.

(8) For Class II–D milk the price during each month shall be a price calculated by the market administrator as follows: Add all weekly market quotations (using midpoint of any weekly range as one quotation) of prices reported by the United States Department of Agriculture for the month during which such milk was received from producers for a 40-quart can of 40 percent sweet cream approved for Pennsylvania only, and for Pennsylvania, Newark, and Lower Merion Township, divide by the number of quotations, subtract 28 cents, divide by 33.48, multiply by 3.5, subtract 21.5 cents: *Provided*, That in no event shall the Class II–D price be lower than the Class IV–A price plus 10 cents.

(9) For Class II–E milk the price during each month shall be a price calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, as reported by the United States Department of Agriculture for the month during which such milk was received from producers, or the last such price reported for a month; if no such price is reported for the month during which such milk was received, multiply by 3.5, subtract 21.5 cents: *Provided*, That in no event shall the Class II–E price be lower than the Class IV–A price plus 10 cents.

(10) For Class II–F milk the price during each month shall be the price for Class II–E milk.

(11) For Class III milk the price during each month shall be 10 cents higher than the average, computed by the market administrator, of prices, as reported to the United States Department of Agriculture, paid during such month to farmers by each of the evaporated milk plants which purchase milk at places listed in this subparagraph and for which prices are reported: *Provided*, That in no event shall the Class III price be less than a price computed by the market administrator as follows: to the average price of 92-score butter at wholesale in the Chicago market for such month, as reported by the United States Department of Agriculture, add 30 percent, multiply by 3.5, and add 7 cents.

(12) For Class IV–A milk the price during each month shall be a price computed by the market administrator as follows: from the average of the highest prices reported daily during such month by the United States Department of Agriculture for 92-score butter at wholesale in the New York market, deduct 4 cents, add 20 percent, and multiply by 3.5.

(13) For Class IV–B milk the price during each month shall be a price computed by the market administrator as follows: from the average of weekly quotations at the Wisconsin Cheese Exchange, Plymouth, Wisconsin, for Cheddars, or in the absence of such quotations for Cheddars, the weekly quotations at the Wisconsin Cheese Exchange for Twins, subtract ¾ cent and multiply the result by 9.45.

(14) For Class V–A milk the price during each month shall be the difference between the price for Class I milk set forth in subparagraph (1) of this paragraph and the price for Class II–A milk set forth in subparagraph (5) of this paragraph, and the result divided by 0.9125: *Provided*, That any excess of Class V–A milk over the amount of skim milk to be accounted for pursuant to § 927.3 (b) (11) shall be paid for at a rate equal to the difference between the Class V–A and Class V–B prices.

(15) For Class V–B milk the price during each month shall be a price computed by the market administrator as follows: from the average of all the hot roller process dry skim milk quotations for "other brands, animal feed, carlots, bags, or barrels" and for "other brands, human consumption, carlots, bags, or barrels" (using midpoint of any range as one quotation), published for the delivery period in "The Producers' Price Current," subtract 4 cents, and multiply by 8.3.

(b) *Butterfat differentials.* The minimum prices for Class I milk specified in paragraph (a) of this section shall be plus or minus 4 cents for each one-tenth of 1 percent of butterfat therein above or below 3.5 percent. The minimum price for Class IV–B milk containing more or less than 3.5 percent butterfat shall be plus or minus, for each one-tenth of 1 percent of butterfat above or below 3.5 percent, an amount equal to the price set forth in subparagraph (13) of paragraph (a) of this section, divided by 9.45 and multiplied by 0.23. The minimum prices for each of the other classes except Classes V–A and V–B containing more or less than 3.5 percent butterfat shall be plus or minus, for each one-tenth of 1 percent of butterfat above or below 3.5 percent, an amount equal to the respective prices set forth in paragraph (a) of this section, divided by 35.

(c) *Transportation differentials.* (1) The market administrator shall, from time to time, publicly announce for each plant outside the marketing area, operated by each handler, the freight zone set forth in the schedule below in this section according to the railway mileage distance from New York City terminals of its nearest railway shipping point, or its highway mileage distance from New York City, if the latter is less than the former by more than 5 miles. Any such mileage distance shall be that recognized for rate-making purposes by the Interstate Commerce Commission. For the purposes of this paragraph each plant within the marketing area shall be assigned by the market administrator to the 1–10 mile freight zone. The minimum prices set forth in paragraph (a) of this section shall be plus or minus the amounts as set forth in the following schedule:

(2) For each plant classifying milk in Class II–D, the market administrator shall determine a zone based on its highway mileage distance from the City Hall in Philadelphia, Pennsylvania. Any such mileage distance shall be that recognized for rate-making purposes by the Interstate Commerce Commission. The minimum price for Class II–D milk shall be subject to the minus differentials set forth in the following table applicable to the location of the plant at which the milk was received from producers:

Miles:	*Cents*
0–30	0
31–70	−3.5

311–390	−7.5
391–470	−8.5

Provided, That in no case shall the amount subtracted reduce the Class II–D price at any plant below the Class IV–A price plus 10 cents.

(3) For each plant classifying milk in Class II–E or Class II–F, the market administrator shall determine a zone based on its highway mileage distance from the State House in Boston, Massachusetts. Any such mileage distance shall be that recognized for rate-making purposes by the Interstate Commerce Commission. The minimum prices for Class II–E and Class II–F shall be subject to the minus differentials set forth in the following table applicable to the location of the plant at which milk was received from producers:

Miles:	*Cents*

Provided, That in no case shall the amount subtracted reduce the Class II–E or Class II–F price at any plant below the Class IV–A price plus 10 cents.

§ 927.5 *Reports of handlers*—(a) *Monthly reports.* On or before the 10th day of each month, each handler shall report to the market administrator, in the manner and on forms prescribed by the market administrator, with respect to milk received at each plant during the preceding month:

(1) The total quantity of milk, with the average butterfat content thereof, received from producers, from other plants, from such handler's own farm, and from other handlers;

(2) The total quantity of such milk and of each product of such milk moved out of, or on hand at, such plant within 3 days after the end of such month, the butterfat content of each product, and the destination of any milk which moved out of such plant;

(3) If the classification of any milk is claimed by such handler on the basis of disposition in some other plant, the disposition of such milk at such other plant covered by statement signed by the operator of the other plant if not a handler; and

(4) The computation, pursuant to § 927.6 (a), of such handler's net pool obligation.

(b) *Producer pay roll reports.* Each handler shall report with respect to producers as follows:

(1) On or before the 10th day after the end of each month, the information required by the market administrator with respect to producer additions, producer withdrawals, and changes in names of farm operators; and

(2) On or before the last day of each month, such handler's producer pay roll for the preceding month, which shall show for each producer:

(i) The total delivery of milk with the average butterfat test thereof,

(ii) The amount of payment due such producer,

(iii) Any deductions and charges made by the handler,

(iv) The net amount of payment to such producer made pursuant to § 927.7, and

(v) Such other information with respect thereto as the market administrator may require.

(c) *Verification of reports and payments.* The market administrator shall promptly verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose disposition of milk such handler claims classification, and each such handler shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities, of his own or of other persons, as will enable the market administrator to:

(1) Verify the receipts and disposition of all milk required to be reported pursuant to this section, and, in case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content the milk received from producers and any product of milk upon which classification depends;

(3) Verify the payments to producers prescribed in § 927.7; and

(4) Verify all claims for payments pursuant to § 927.7 (d), (e), and (f).

§ 927.6 *Determination of uniform prices*—(a) *Net pool obligation of handlers.* The net pool obligation of each handler for milk received from producers during each month shall be a sum of money computed of such month as follows:

(1) Determine the total quantity of milk in each class at each plant;

(2) Subtract pro rata out of each class the quantity of milk received from the handler's own farm or from a farm in Nassau or Suffolk Counties, not approved for sale of milk in New York City;

(3) Prorate, in the case of each plant where milk is received from producers, to each class or price subdivision of each class, the loss or waste of milk at such plant not to exceed 2 percent of the total quantity of milk in all classes (except Class V–A and Class V–B) and calculate any remainder as Class I milk subject to the price set forth in § 927.4 (a) (1); add to Class V–A the necessary number of pounds to bring the total pounds of skim milk in both Class V–A and Class V–B to the amount of skim milk in pounds to be accounted for pursuant to § 927.3 (b) (1), and subtract from Class V–B any excess of skim milk over that to be accounted for pursuant to § 927.3 (b) (11);

(4) Subtract from the remaining quantity of milk, or skim milk as the case may be, in each class, the quantity of such milk, or skim milk, as the case may be, received from any other plant, or received from any other handler in each class at each plant;

(5) Subject to adjustment for appropriate differentials applicable pursuant to § 927.4 (b) and (c), multiply the Class I milk priced pursuant to § 927.4 (a) (4) by 20 cents per hundredweight, multiply the remaining milk or skim milk, as the case may be, in each class by the class price, and add together the resulting values;

(6) Deduct, in the case of each plant where the average butterfat content of all milk received from producers is in excess of 3.5 percent and add, in the case of each plant where the butterfat content of all milk received from producers is less than 3.5 percent, the total value of the butterfat differential applicable pursuant to § 927.7 (c);

(7) Deduct, in the case of each plant nearer New York City than the 201–210 mile zone, and add, in the case of each plant farther from New York City than the 201–210 mile zone, the sum obtained by multiplying the milk received from producers by the zone differential set forth in column B of the schedule in § 927.4 (c) (1) applicable to the plant;

(8) With respect to milk received from producers, deduct 30 cents per hundredweight at plants in the marketing area; and 20 cents per hundredweight at plants located at Accord, Ellenville, Gardiner, Kyserike, New Paltz, Phinney's Crossing, Wallkill, and West Coxsackie, New York, and in the following counties:

New Jersey Counties: Burlington, Essex, Hunterdon, Morris, Passaic, Somerset, Sussex, Union, and Warren.
New York Counties: Columbia, Dutchess, Orange, Putnam, and Rockland.
Connecticut: Litchfield.
Massachusetts: Berkshire.

(9) Add together the handler's net pool obligation for all plants at which milk was received from producers.

(b) *Computation of the uniform price.* The market administrator shall, on or before the 14th day of each month, audit for mathematical correctness and obvious errors the report submitted for the preceding month by each handler. If the unreserved cash balance in the producer-settlement fund to be included in the computation is less than 2 cents per hundredweight of milk received from producers on all reports, the report of any handler who has not made payment of the last monthly pool debit account rendered pursuant to § 927.7 (g) shall not be included in the computation of the uniform price. The report of such handler shall not be included in the computation for succeeding months until he has made full payment of outstanding monthly pool debits. Subject to the aforementioned conditions the market administrator shall compute the uniform price in the following manner:

(1) Combine into one total the net pool obligations of all handlers;

(2) Subtract the total of payments required to be made for such month by § 927.7 (d) and the total of payments claimed pursuant to § 927.7 (e);

(3) Add the amount of unreserved cash in the producer-settlement fund;

(4) Subtract an amount equal to not less than 4 cents nor more than 5 cents per hundredweight of milk received from producers to provide against the contingency of errors in reports and payments or of delinquencies in payments by handlers;

(5) Subtract from the total milk received from producers by all handlers whose reports are included in this computation the Class I milk priced pursuant to § 927.4 (a) (4); and

(6) Divide the result obtained in (4) by the result obtained in (5). The result shall be known as the uniform price for milk containing 3.5 percent butterfat received from producers at plants in the 201–210 mile zone.

§ 927.7 *Payment to producers*—(a) *Time of payment.* On or before the 25th day of each month each handler shall make payment to each producer for all milk delivered by such producer during the preceding month at not less than the uniform price subject to differentials set forth in paragraphs (b) and (c) of this section: *Provided*, That each handler which is also a cooperative marketing association determined by the Secretary to be qualified under the Capper-Volstead Act, may, with respect to producers who are members of and under contract with such association, make distribution, in accordance with the contract between the association and such members, of the net proceeds of all its sales in all markets in all use classifications.

(b) *Transportation and location differentials.* The uniform price at any plant shall be—

(1) Plus or minus the differential shown in column B of the schedule contained in § 927.4 (c) (1) for the zone of the plant in effect pursuant to § 927.4 (c) (1); and

(2) Plus the differential, if any, applicable pursuant to § 927.6 (a) (8) plus 5 cents.

(c) *Butterfat differential.* The uniform price shall be plus or minus, as the case may be, 4 cents per hundredweight for each one-tenth of 1 percent above or below 3.5 percent of average butterfat content of milk delivered by any producer during any month.

(d) *Cooperative payments.* Any cooperative association of producers may apply to the Secretary for a determination of its qualifications to receive payments pursuant to this paragraph by reason of its having and exercising full authority in the sale of the milk of its members; arranging for and supplying, in a manner commensurate with the marketing capacity of the several types of cooperative associations designated in this paragraph, in times of short supply, Class I milk to the marketing area; securing utilization of milk, in times of long supply, in a manner to assure the greatest possible returns to all producers; having its entire activities under the control of its members; and complying with all provisions of this order applicable to it.

After the Secretary has determined any cooperative to be qualified to receive payments pursuant to this paragraph, such cooperative shall, from time to time, as requested by the market administrator, make reports to the market administrator with respect to services rendered to the market and the use of the sums received under this paragraph. Whenever the market administrator has reason to believe that any cooperative qualified by the Secretary is failing to perform the obligations covered by the payments under this paragraph, he shall suspend and hold in reserve such payments, notifying the Secretary and the cooperative of his action and the reasons therefor. Such suspended payments shall be held in reserve until the Secretary has, after hearing, disqualified such cooperative or ruled upon the performance of the cooperative and either ordered the suspended payments to be paid to the cooperative in whole or in part or disqualified the cooperative, in which event the balance of payments held in reserve shall be returned to the producer-settlement fund.

The market administrator shall make the payments authorized by this paragraph, or issue credit therefor, out of the producer-settlement fund on or before the 25th day of each month, subject to verification of the reports upon which such payment is based. Such payments shall be made to each cooperative association of producers under the following conditions and at the following rates:

(1) Three-quarters of one cent per hundredweight of milk received from producers at any handler's plant which was caused to be delivered from its members by such associations and on which such handler has made the reports and payments required by this order;

(2) Except as set forth in subparagraph (3) of this paragraph, two cents per hundredweight of milk received from producers at plants of other complying handlers which was reported and collected for by such association; and

(3) Four cents per hundredweight of milk received from producers at plants operated by such association and, if, in addition to the other qualifications, such association has been determined by the Secretary to have sufficient plant capacity to receive all the milk of producers who are members and to be willing and able to receive milk from producers not members, four cents per hundredweight of milk received from producers which was caused by it to be delivered to any other complying handler and which is reported and collected for by such association.

(e) *Diversion payments.* Any handler may make claim, on forms supplied by the market administrator, for payments out of the producer-settlement fund, under the conditions set forth in this paragraph, with respect to milk which was received from producers at a plant not having any equipment other than that needed for the receiving and shipping of milk and which was moved to a second plant outside of the marketing area and there manufactured. The market administrator shall make payment to such handler, subject to audit, out of the producer-settlement fund, or issue credit against balances due by such handler to the producer-settlement fund, at the following rates and under the following conditions:

(1) Payments may be made only on milk which has been, pursuant to § 927.3, properly classified, for any month of the year in Classes III and IV–B.

(2) No claim shall be allowed if the milk on which the claim is made is manufactured at a second plant which is one-half mile or less from the first plant.

(3) Claims shall be paid at a rate for handling through the receiving plant of 17 cents per hundredweight, plus a hauling allowance at the rate of ¼ cent per hundredweight per mile for 20 miles and 1/10 cent per hundredweight per additional mile for the shortest highway distance between the two plants: *Provided, however*, That no claim for a hauling allowance shall be paid for a haul greater than 65 miles.

(4) The market administrator shall from time to time cause inspections to be made of the buildings, facilities, and surroundings of plants, and shall notify handlers of his determination as to what constitutes the plant and its equipment for the purpose of this § 927.7 (e). Such

determination shall be ruling for all other purposes under this order.

(5) Diversion payments shall not be paid to any handler making claim therefor if, during the month for which such claim is made, such handler has a less proportion of milk received from producers in Class I than the proportion of total milk received from producers in Class I of all other handlers, and if such handler has refused to sell milk to other handlers who do not operate or control country receiving plants or has refused to sell to such handlers milk of a butterfat test nearest to that desired by the purchaser (if available in the seller's country plants which are eligible for diversion payments), provided the offer of purchase met the following conditions:

(i) Cash on delivery for a quantity of not less than 200 cans per shipment; method of delivery at the option of the buyer; and

(ii) Purchase price equal to the price applicable pursuant to § 927.4 (a) (1), subject to the differentials applicable pursuant to § 927.4 (b) and § 927.4 (c), plus not more than 23 cents per hundredweight for handling through the country plant, and plus the payments provided by § 927.8.

(f) *Storage cream payments.* With respect to butterfat in frozen cream held in one or more licensed cold storage warehouses for more than 28 days under the conditions set forth in § 927.3 (b) (3), the handler whose net pool obligations included such butterfat as Class II–B milk may make claim, on forms supplied by the market administrator, for payments out of the producer-settlement fund, if such butterfat was stored during the months of April to September, inclusive, and was used in Classes II–D, II–E, or II–F during the months of October to March, inclusive, or in Class IV–A during the months of January to March, inclusive. The market administrator shall, after investigation and audit of such claim, make payment to such handler out of the producer-settlement fund, or issue credit against balances due from such handler to the producer-settlement fund, in an amount equal to the difference between the Class II–B price and the class price for such utilization in effect for the month during which the milk was received from producers.

(g) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as "the producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (h) and (j) of this section and out of which he shall make all payments to handlers pursuant to paragraphs (e), (f), and (j) of this section, and to cooperative associations of producers pursuant to paragraph (d) of this section: *Provided*, That the market administrator shall offset any such payment due to any handler against payments due from such handler. Immediately after computing the uniform price for each month the market administrator shall compute the amount by which each handler's net pool obligation is greater or less than the amount obtained by multiplying the uniform price by the quantity of such handler's milk received from producers remaining after subtracting therefrom the Class I milk priced pursuant to § 927.4 (a) (4), and shall enter such amount on each handler's account as such handler's pool debit or credit, as the case may be, and render such handler a transcript of his account.

(h) *Payments to the producer-settlement fund.* On or before the 18th day of each month, each handler shall make full payment of any pool debit balance shown on the account rendered pursuant to paragraph (g) of this section, for the preceding month.

(i) *Payments out of producer-settlement fund.* On or before the 20th day of each month the market administrator shall remit to each handler the pool credit of such handler, if any, for the preceding month less any unpaid obligations. If, at such time, the balance in the producer-settlement fund is insufficient to make full payment due to each handler, the market administrator shall reduce uniformly the payments made to each handler and shall complete such payments as soon as the necessary funds are available. No handler who, on the 25th day of the month, has not received the balance of such reduced payment from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his total payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

(j) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount, and such handler shall, within 5 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler the market administrator shall, within 5 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment next following such disclosure.

§ 927.8 *Expense of administration*—(a) *Payment by handlers.* As his prorata share of the expense of administration hereof, each handler shall, on or before the 20th day of each month, pay to the market administrator a sum not exceeding 2 cents per hundredweight on the total quantity of milk which was received from producers at plants operated by such handler, directly or at the instance of a cooperative association of producers, and which was properly classified in Classes I, II–A, and II–B, the exact amount to be determined by the market administrator subject to review by the Secretary. This section shall not be deemed to duplicate any similar payment by any handler under an order issued by the Commissioner of Agriculture and Markets of the State of New York, with respect to the marketing area.

§ 927.9 *Suspension, termination, and liquidation*—(a) *Continuing obligation of handlers.* Unless otherwise provided by the Secretary in any notice of amendment, termination, or suspension of any or all of the provisions hereof, such amendment, termination, or suspension shall not affect, waive, or terminate any right, duty, obligation, or liability which shall have risen or may thereafter arise in connection with any provision of this order; release or waive any violation of this order occurring prior to the effective date of such amendment, termination, or suspension; or affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

(b) *Continuing power and duty of market administrator.* The market administrator shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, to such person as the Secretary shall direct; and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator pursuant hereto.

(c) *Liquidation.* Upon the termination or suspension hereof, the market administrator shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such termination or suspension. Any funds collected for expenses, pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator in liquidating the business of the market administrator's office shall be distributed by the market administrator to handlers in an equitable manner.

Issued at Washington, D. C., this 26th day of March, 1942, to become effective on and after the 1st day of April, 1942. Witness my hand and the official seal of Department of Agriculture.

PART 961—MILK IN THE PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

ORDER REGULATING THE HANDLING OF MILK IN THE PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

Sec.

961.0 Findings.
961.1 Definitions.
961.2 Market administrator.
961.3 Classification of milk.
961.4 Minimum prices.
961.5 Reports of handlers.
961.6 Application of provisions.
961.7 Determination of uniform prices to producers.
961.8 Payments for milk.
961.9 Expense of administration.

Under the terms and provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, the Secretary of Agriculture of the United States is empowered, after due notice and opportunity for hearing, to enter into marketing agreements with processors, producers, associations of producers, and others engaged in such handling of any agricultural commodity or product thereof as is in the current of interstate or foreign commerce or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodity or product thereof.

Under the terms and provisions of said act, the Secretary of Agriculture is empowered to issue orders applicable to processors, producers, associations of producers, and others engaged in the handling of any agricultural commodity or product thereof specified in subsection (2) of section 8c, such orders to regulate only such handling of such agricultural commodity or product thereof as is in the current of interstate or foreign commerce or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodity or product thereof.

The Secretary, having reason to believe that the execution of a marketing agreement and the issuance of an order with respect to the handling of milk in the Philadelphia, Pennsylvania, milk marketing area would tend to effectuate the declared policy of the act, gave, on October 10, 1941, notice of a hearing, which hearing was held on October 28 through October 31, November 10 through November 14, November 17 through November 19, November 28, and December 1 through December 5, 1941, at Philadelphia, Pennsylvania, at which all interested parties were afforded an opportunity to be heard on the proposed marketing agreement and proposed order.

Following the tentative approval by the Secretary on March 6, 1942, of a marketing agreement regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area in the same manner as this order, handlers of more than fifty (50) percent of the volume of milk covered by this order which is marketed within the marketing area, refused or failed to sign such tentatively approved marketing agreement.

The Secretary determined on March 25, 1942, that the issuance of this order is approved or favored by at least three-fourths of the producers, as defined in the order, who during the month of December 1941 (said month having been determined by the Secretary to be a representative period) were engaged in the production of milk for sale in said marketing area.

The provision of the order providing for the payment to all producers delivering milk to the same handler of uniform prices for all milk delivered by them is approved or favored by at least three-fourths of the producers who during the month of December 1941 were engaged in the production for market of milk covered by such order, said approval being separate and apart from the approval of producers as set forth above.

The Secretary has found and proclaimed the period from August 1919 to July 1929 to be the base period to be used in connection with the ascertainment of the purchasing power of milk handled in the Philadelphia, Pennsylvania, milk marketing area.

The Secretary finds that the expenses which the market administrator will necessarily incur during any 12-month period of time for the maintenance and functioning of such agency for the administration of this order will be approximately $160,000, and that the payment by each handler of 2 cents per hundredweight on all milk received from producers is a proper maximum prorata share of such expenses.

AUTHORITY: §§ 961.0 to 961.9, inclusive, issued under the authority contained in 48 Stat. 31, 670, 675 (1933); 49 Stat. 750 (1935); 50 Stat. 246 (1937); 7 U.S.C. and Sup. 601 et. seq.

§ 961.0 *Findings.* The Secretary finds, upon the evidence introduced at said hearings:

(a) That the prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and section 8 (e) of said act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for such milk, and that the minimum prices set forth in this order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(b) That all handling of milk sold or disposed of by handlers as defined in section 1 (a) (5) of this order is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk or its products, and that handlers as defined in such section are engaged in the handling of milk which is in the current of interstate commerce or which directly burdens, obstructs, or affects interstate commerce in milk or its products;

(c) That the order regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement upon which a hearing has been held;

(d) That a prorata assessment on handlers as set forth in section 9 of this order at a rate not to exceed two cents per hundredweight on all milk received from producers or an association of producers or produced by them during each delivery period will provide funds necessary to pay such expenses while such order is in effect as will necessarily be incurred by the market administrator under such order for the maintenance and functioning of said market administrator's office; and

(e) That orderly conditions for milk flowing into the Philadelphia, Pennsylvania, milk marketing area are so disrupted as to result in the impairment of the purchasing power of such milk and that the issuance of this order, and all of its terms and conditions, will tend to effectuate the declared policy of the act.

The Secretary of Agriculture, pursuant to the authority vested in him by the act, hereby orders that such handling of milk in the Philadelphia, Pennsylvania, milk marketing area, as is in the current of interstate commerce, or as directly burdens, obstructs, or affects interstate commerce shall, from the effective date hereof, be in compliance with the following terms and conditions:

§ 961.1 *Definitions*—(a) *Terms.* The following terms shall have the following meanings:

(1) The term "act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(2) The term "Secretary" means the Secretary of Agriculture of the United States.

(3) The term "Philadelphia, Pennsylvania, milk marketing area," hereinafter called "the marketing area," means all the territory in the Commonwealth of Pennsylvania situated within the following boundary line:

Beginning at a point in the Pennsylvania State line opposite the confluence of Pennypack Creek with the Delaware River thence along Pennypack Creek to the boundary of Montgomery County; thence northerly along the boundary of Montgomery County to the Bucks County line; thence westerly along the Bucks County line to the Trenton cut-off of the Pennsylvania Railroad; thence westerly along said railroad to the Upper Dublin Township line; thence first easterly, and then southerly along the Upper Dublin Township line, then northeasterly to the Whitemarsh Township line; thence southerly along the Whitemarsh Township line to the Schuylkill River; thence westerly along the Schuylkill River to West Conshohocken Borough; thence westerly along the southern border of West Conshohocken Borough to the Upper Marion Township line; thence along the Upper Merion Township line

as it runs to the Delaware County line; thence southeasterly along the Delaware County line as it runs to and along Brandywine Creek and the Delaware State line to the Delaware River; thence northeasterly along the Pennsylvania State line to the Delaware River to the point of beginning.

(4) The term "person" includes any individual, partnership, corporation, association, or any other business unit.

(5) The term "producer" means any person, irrespective of whether such person is also a handler, who produces milk which is received directly at (i) a plant at a location listed below, which is operated by a handler, except (a) during such period of time as any such plant has been stopped by the Pennsylvania Department of Health from shipping milk or cream for consumption as fluid milk or fluid cream, or (b) during any month when no milk or cream is disposed of in the marketing area from such a plant, if the handler has notified the market administrator 5 days or more prior to such month that it is no longer a part of his supply for the marketing area and if no milk or cream has been shipped from it to the marketing area for the three months next preceding such month; or (ii) a pasteurizing and bottling plant from which milk is disposed of as Class I milk in the marketing area; or (iii) any other plant of a handler from which milk is supplied to such a pasteurizing and bottling plant: *Provided*, That farmers delivering milk to a plant falling in this category for less than 20 days during any one of the months of October, November, December, and January, shall not for such month be included in this definition.

Location: Bedford, Pa., Boiling Springs, Pa., Brandtsville, Pa., Byers, Pa., Carlisle, Pa., Chambersburg, Pa., Clayton, Del., Coudersport, Pa., Curryville, Pa., Delta, Pa., Denton, Md., Easton, Md., Fairdale, Pa., Glenroy, Pa., Goldsboro, Md., Goshen, Pa., Hagerstown, Md., Harrington, Del., Honeybrook, Pa., Huntington, Pa., Hurlock, Md., Kelton, Pa., Kimberton, Pa., Leaman Place, Pa., Lewistown, Pa., Mainland, Pa., Massey, Md., Mercersburg, Pa., Millville, Pa., Mt. Pleasant, Del., Nassau, Del., New Holland, Pa., Oxford, Pa., Fort Allegany, Pa., Pottstown, Pa., Princess Anne, Md., Quakertown, Pa., Richlandtown, Pa., Snow Hill, Md., Spring Creek, Pa., Sudlersville, Md., Townsend, Del., Waynesboro, Pa., Worton, Md.

This definition shall not be deemed to include any person defined as a producer under an order of the Secretary regulating the handling of milk in the New York metropolitan milk marketing area.

(6) The term "handler" means any person, irrespective of whether such person is also a producer or an association of producers, wherever located or operating, who engages in the handling of milk which is disposed of in the marketing area as milk, or skim milk.

(7) The term "market administrator" means the person designated pursuant to § 961.2 as the agency for the administration hereof.

§ 961.2 *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof; and

(2) To receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof.

(c) *Duties.* The market administrator shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein and shall surrender the same to his successor or to such other person as the Secretary may designate;

(2) Submit his books and records to examination by the Secretary at any and all times;

(3) Furnish such information and verified reports as the Secretary may request;

(4) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(5) Publicly disclose to handlers and to producers, unless otherwise directed by the Secretary, the name of any person who, within 15 days after the date upon which he is required to perform such acts, has not (i) made reports pursuant to § 961.5 (a), or (ii) made payments pursuant to § 961.8;

(6) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(7) Obtain a bond with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(8) Pay, out of the funds provided by § 961.9 (i) the cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, (ii) his own compensation, and (iii) all other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties; and

(9) Promptly verify the information contained in the reports submitted by handlers.

§ 961.3 *Classification of milk*—(a) *Basis of classification.* Milk received by each handler, including milk produced by him, if any, shall be classified, in the classes set forth in paragraph (b) of this section, in accordance with its utilization by such handler, subject to paragraphs (c) and (d) of this section.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk (i) sold, distributed, or disposed of as or in milk, including sales of skim milk and flavored milk drinks, containing not more than 18 percent butterfat, and (ii) all other milk not accounted for as Class II.

(2) Class II milk shall be (i) all milk disposed of in products other than those included in § 961.3 (b) (1) (i), and (ii) all milk accounted for as actual plant shrinkage but not to exceed 2 percent of the milk received from producers: *Provided*, That if milk or cream is received from producers, from other handlers, or from other plants, such actual shrinkage shall be prorated between the milk received from each source in proportion to the volume of milk and cream received from each.

(c) *Transfers of milk.* (1) Milk or skim milk received at a plant from another plant at both of which milk is received from producers shall be allocated to Class I milk: *Provided*, That if a different allocation is agreed upon in writing between such receiving handler and such selling handler and is submitted to the market administrator, then the milk or skim milk shall be allocated according to such written agreement: *And provided further*, That the amount so allocated to any class shall not be greater than the amount used in that class by the receiving handler after deduction of any milk pursuant to subparagraph (2) of this paragraph.

(2) Milk or skim milk received at a plant at which milk is received from producers from a plant at which no milk is received from producers shall be allocated to Class II, except that any of this milk in excess of the amount of Class II milk used by the receiving handler shall be Class I, and except as provided in subparagraph (3) of this paragraph.

(3) Milk or skim milk received at a plant at which milk is received from producers from a plant under another Federal milk marketing agreement or order shall be allocated to Class I milk or Class II milk in accordance with its classification as determined by the market administrator under the latter order.

(4) Milk or skim milk moved directly from a plant at which milk is received from producers to a plant at which no milk is received from producers shall be Class II milk if less than 20 percent of the milk received at the latter plant is moved therefrom as fluid milk, and Class I milk if more than 20 percent of the milk received is moved as fluid milk from the latter plant, except that any of this milk in excess of the amount of fluid milk moved from the latter plant during the month shall be allocated to Class II milk: *And provided further*, That all milk moved as fluid milk more than 400 miles directly from a plant at which milk is received from producers to a plant at which no milk is received from producers shall be allocated to Class I milk.

(5) Milk or skim milk disposed of from a handler's plant to retail establishments which dispose of milk for both fluid and other uses shall be Class I milk.

(d) *Transfers of cream.* Cream received or disposed of by a handler shall be considered Class II.

§ 961.4 *Minimum prices*—(a) *Class prices.* Except as set forth in subparagraph (d) of this section, each handler shall pay, at the time and in the manner set forth in § 961.8, for milk received during each month from producers or an association of producers not less than the following prices, subject to the differentials set forth in paragraphs (b) and (c) of this section:

(1) Class I milk—$3.58 per hundredweight during delivery periods prior to July 1, 1942, and thereafter $3.70 per hundredweight.

(2) Class II milk—The price per hundredweight during each month shall be the sum of the respective values of butterfat and skim milk, calculated as follows by the market administrator:

(i) Butterfat—Add all market quotations (using midpoint of any weekly range as one quotation) of prices for a 40-quart can of sweet cream approved either for Pennsylvania only, or for Pennsylvania, Newark, and Lower Merion Township, in the Philadelphia, Pennsylvania, market, reported for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract 28 cents, divide by 33.48, multiply by 4, and subtract 23½ cents: *Provided*, That for butterfat used to make butter, which butterfat is in excess of the pounds of butterfat contained in any cream received, plus 5 percent of the pounds of butterfat contained in milk received from producers, the price shall be 4.8 times the average of the highest prices for 92-score butter at wholesale in the New York market, reported daily by the United States Department of Agriculture, for the month for which payment is to be made, which shall be known as the "butter-value" for such butterfat.

(ii) Skim milk—Any plus amount which is equal to 7.5 times the average of all the hot roller process dry skim milk quotations for "other brands, animal feed" and for "other brands, human consumption," carlots, bags, or barrels, in both cases (using midpoint of any range as one quotation) as published for such month in the "Producers' Price Current," less 4.5 cents.

(b) *Butterfat differential.* The Class I and Class II prices shall be subject to a butterfat differential for each one-tenth of 1 percent variation above or below 4.0 percent calculated as follows: divide the average of the cream quotations used in calculating the Class II price by 334.8, and subtract 0.67 cent; or in the case of butterfat in Class II to which the "butter-value" is applicable, divide the "butter-value" by 40.

(c) *Differentials for place of receipt of milk.* In the case of milk received from producers by any handler at plants 31 miles or more from the City Hall in Philadelphia, there shall be deducted from the prices set forth in paragraph (a) of this section the following amounts:

(1) Class I milk—At plants 31 to 40 miles from the City Hall in Philadelphia, 31 cents per hundredweight, and for plants within each additional 10 miles in excess of 40 miles, an additional 1 cent, provided the total amount does not exceed 64 cents per hundredweight. For the purposes of this subparagraph the Class I milk shall be considered to have been, first, that milk received from producers' farms at such handler's plant located less than 31 miles from the City Hall in Philadelphia, then that milk which was shipped from the nearest plant located 31 miles and farther from the City Hall in Philadelphia: *And provided*, That Class I milk moved directly from a plant at which milk is received from producers to a plant at which no milk is received from producers, both of which are outside the marketing area, and Class I milk distributed for fluid consumption from a plant at which milk is received from producers, shall be allocated to the plant at which it is received from producers.

(2) Class II milk—At plants 31 to 70 miles from the City Hall in Philadelphia, 4 cents per hundredweight, and for plants within each additional 70 miles an additional cent.

The distance of any plant from the City Hall in Philadelphia shall be that recognized by the Interstate Commerce Commission for rate-making purposes on highways over which the Highway Departments of the several States permit milk tank trucks to move, or if no such distance is recognized, the distance shall be that ascertained and announced by the market administrator.

(d) *Class I milk disposed of outside the marketing area.* The price to be paid by handlers for Class I milk disposed of outside the marketing area on any wholesale or retail routes from which no milk is disposed of in the marketing area on the same trip, in lieu of the price otherwise applicable pursuant to this section, shall be, as ascertained by the market administrator, such price as is being paid to farmers in the market where such milk was disposed of, for milk of equivalent use, less the applicable transportation allowance in such outside market, but in no case more than 64 cents: *Provided*, That Class I milk disposed of in markets where the market administrator is unable to determine such a price, and to Government institutions and establishments on a basis of bids, the Class I price plus or minus the applicable differentials specified in this order shall apply: *And provided further*, That when sold in an area regulated by another marketing order of the Secretary the price effective under such other order shall apply.

§ 961.5 *Reports of handlers*—(a) *Periodic reports.* On or before the 8th day after the end of each month each handler, with respect to milk or cream which was, during such month, (1) received from producers, handlers, or other sources; and (2) produced by such handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(i) The receipts at each plant from producers who are not handlers;

(ii) The receipts at each plant from any other handler, including any handler who is also a producer;

(iii) The quantity, if any, produced by such handler;

(iv) The receipts at each plant from any other source;

(v) The respective quantities of milk and milk products disposed of or on hand, with the butterfat content thereof; and

(vi) The shipments of milk to the marketing area from each plant.

(b) *Reports of handlers who receive no milk from producers.* Handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(c) *Reports as to producers.* Each handler shall report to the market administrator:

(1) Within 10 days after the market administrator's request, with respect to any producer for whom such information is not in the files of the market administrator, and with respect to a period or periods of time designated by the market administrator, (i) the name and address, (ii) the total pounds of milk received, (iii) the average butterfat test of milk received, and (iv) the number of days upon which milk was received; and

(2) As soon as possible after first receiving milk from any producer, (i) the name and address of such producer, (ii) the date upon which such milk was first received, and (iii) the plant at which such milk was received.

(d) *Reports of payments to producers.* Each handler shall submit to the market administrator on or before the 25th day after the end of each month his producer pay roll for such month which shall show for each producer (1) the net amount of such producer's payment with the prices, deductions, and charges involved, and (2) the total delivery of milk with the average butterfat test thereof.

(e) *Outside cream purchases.* Each handler shall report as requested by the market administrator his purchases, if any, of sweet cream showing the quantity and source of each such purchase and the cost thereof at Philadelphia.

(f) *Verification of reports.* Each handler shall permit the market administrator or his agent, or such other person as the Secretary may designate, during the usual hours of business, to (1) verify the information contained in reports submitted in accordance with this section, and (2) weigh milk received from each producer and sample and test milk for butterfat.

§ 961.6 *Application of provisions*—(a) *Handlers who receive no milk from producers.* The provisions hereof, except those set forth in § 961.5, shall not apply to a producer-handler who receives no milk from producers nor to a handler whose sole source of milk supply consists of receipts from other handlers.

§ 961.7 *Determination of uniform prices to producers*—(a) *Computation of the value of milk for each handler.* For each month the market administrator shall compute, subject to the provisions of § 961.6, the value of milk of produc-

ers disposed of by each handler, by (1) multiplying the hundredweight of such milk in each class, computed pursuant to § 961.3, by the prices applicable pursuant to § 961.4, plus or minus the applicable differentials in § 961.4; and (2) adding together the resulting values.

(b) *Computation and announcement of uniform price for each handler.* The market administrator shall compute and announce for each handler the uniform price per hundredweight of milk received by him at each plant from producers during each month as follows:

(1) Add to the value computed pursuant to paragraph (a) of this section the amount of the adjustment to be made pursuant to § 961.8 (d), and add or subtract the amount to be subtracted or added, respectively, by the handler pursuant to § 961.8 (c);

(2) Divide the amount computed in subparagraph (1) of this paragraph by the total quantity of milk received from producers, including milk of his own production; and

(3) On or before the 15th day after the end of each month, notify each handler and publicly announce the uniform price computed for each handler pursuant to this section with the differentials applicable pursuant to § 961.8.

§ 961.8 *Payments for milk*—(a) (1) *Semimonthly payments.* On or before the last day of each month each handler shall make a payment to producers for milk delivered during the first 15 days of such month at not less than a rate per hundredweight which he estimates will be his uniform price for such month.

(2) *Final payment.* On or before the 20th day after the end of each month, each handler shall make full payment, subject to paragraphs (c), (d), (e), (f), and (g) of this section, to each producer, for the total value of milk received from such producer during such month, at not less than the uniform price per hundredweight computed for such handler pursuant to § 961.7, after taking credit for payment made pursuant to § 961.8 (a) (1).

(b) *Errors in payment.* Errors in making payments for milk shall be corrected not later than the date for making payments next following the determination of such errors.

(c) *Butterfat differential.* If any handler has received from any producer, during the month, milk having an average butterfat content other than 4.0 percent, such handler, in making payments pursuant to paragraph (a) of this section, shall add to the uniform price for such producer for each one-tenth of 1 percent of average butterfat content in milk above 4.0 percent not less than, or shall deduct from the uniform price for such producer for each one-tenth of 1 percent of average butterfat content in milk below 4.0 percent not more than 4 cents per hundredweight.

(d) *Location differentials.* In making payments pursuant to paragraph (a) of this section, each handler shall deduct, with respect to milk received from producers at a plant located 31–40 miles from City Hall in Philadelphia, 22 cents per hundredweight, and at plants within each additional 10 miles an additional 0.7 cent per hundredweight. Such deductions shall be computed on the same distance for each plant as that pursuant to § 961.4 (c).

(e) *Additional deductions.* In the case of milk received from producers at plants more than 11 miles from City Hall in Philadelphia, the handler may deduct from the payments otherwise specified in this section to be paid, 7 cents per hundredweight at plants 11 to 16 miles from the City Hall in Philadelphia, an additional 2 cents per hundredweight for plants within each additional 5 miles in excess of 16 miles but less than 31 miles, and 3 cents per hundredweight at plants 31 miles or more from the City Hall in Philadelphia.

(f) *Flat price payments.* Any handler may, in lieu of the requirements of paragraphs (a) and (b) of this section, elect to pay producers, not later than the 15th day of each month, at not less than the per quart equivalent (considering 46.5 quarts per hundredweight) of the Class I price for all milk delivered during the preceding month, in which event such handler may report only his total receipts from each producer and his total payment to each producer.

(g) *Premium for Grade A milk.* In addition to the uniform price and all other payments required pursuant to this section, each handler shall pay for milk, which is qualified under the Commonwealth of Pennsylvania Department of Health or the New Jersey Department of Health requirements for sale as Grade A milk and which is delivered to a plant similarly qualified (so long as such requirements are in effect as a separate grade), 40 cents per hundredweight of Grade A milk received from producers of 10,000 bacteria or less per c. c. and 25 cents per hundredweight of Grade A milk received from producers of more than 10,000 but less than 25,000 bacteria, times the ratio of Grade A milk sold either in fluid form or as products manufactured from Grade A milk to the total quantity of Grade A milk received from producers, plus 2 cents for each one-tenth of 1 percent that the butterfat content is above 3.7 percent.

§ 961.9 *Expense of administration*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler, on or before the 20th day after the end of each month shall pay to the market administrator, with respect to all milk received by him from producers or an association of producers, or produced by him during such month, an amount not exceeding 2 cents per hundredweight, the exact amount to be determined by the market administrator. Each handler, who is a cooperative association of producers shall pay such prorata share of expense only on that milk received from producers at any plant of such association.

Issued at Washington, D. C., this 26th day of March 1942, to become effective on and after the 1st day of April 1942. Witness my hand and the official seal of the Department of Agriculture.

Chapter VII—Personnel

PART 73—APPOINTMENT OF COMMISSIONED OFFICERS, WARRANT OFFICERS, AND CHAPLAINS [1]

§ 73.218 *Waiver of physical defects.* (a) Deviations from normal physical standards (§ 73.216) that will not interfere with nor prevent the full and satisfactory performance of the duty for which the individual is being appointed, or is being ordered to active duty, and that are not of a nature likely to be aggravated to a disabling degree by active military service, may be waived in the manner and under the conditions authorized in current War Department instructions applicable to members of the Officers' Reserve Corps ordered to extended active duty.

(b) The following will govern in regard to original appointments and assignment of officers to extended active duty:

(1) It will be the policy of the Secretary of War to approve for appointment or for extended active duty individuals qualified for limited assignments who have minor physical defects which would disqualify them under current physical standards but which will not interfere with the satisfactory performance of the duties contemplated, *provided the defects are stationary in character and are not likely to be aggravated as a result of active military service.* (In examining individuals for limited service great care will be exercised to elicit any history, symptoms, or objective evidence of constitutional disease, cardiovascular degeneration, or mental disorder which may be present.)

(2) Reports of Physical Examination (W.D., A.G.O. Form No. 63) of individuals examined for appointment or for assignment to extended active duty for limited service will have typed in capital letters immediately above the instructions near the top of the form the words "Limited Service" and will be accompanied by the following affidavit. In case a Reserve officer declines to sign an affidavit, the facts will be fully set forth on the report of physical examination and the report forwarded without affidavits.

TITLE 15—COMMERCE

Subtitle A—Office of the Secretary of Commerce

[Order No. 232]

PART 3—AWARD OF FELLOWSHIPS IN METEOROLOGY AND HURRICANE FORECASTING.

Pursuant to the authority contained in R. S. 161, 5 U.S.C. 22, and in Section 8 of the President's Reorganization Plan, IV, 5 U.S.C. 133t, and subject to appropriations available, the Secretary of Commerce of the United States of America will award fellowships in meteorology and hurricane forecasting to qualified applicants from other American republics, and in accordance with the following authority:

(a) Public No. 355, 76th Congress, approved August 9, 1939 (53 Stat. 1290) authorizing the President to utilize the services of the Departments, agencies and independent establishments of the Government of the United States for the purpose of rendering closer and more effective the relationship between the American republics; (See Resolution No. 81, adopted at the Eighth International Conference of American States held at Lima, Peru, December 9–27, 1938, recommending scientific and technical research by institutes, laboratories, and men of science officially recommended by the American Governments); and

(b) The Department of State Appropriation Act, 1942, approved June 28, 1941, appropriating funds for compensation, tuition, monthly allowances while not in travel status, and traveling expenses in the United States and abroad, in accordance with the Standardized Government Travel Regulations and the Act of June 3, 1926, as amended, of educational, professional, and artistic leaders, and professors, students, and internes, who are citizens of the United States or the other American republics.

Fellowships will be awarded as follows:

Sec.
2.1 Type of fellowship
2.2 Qualifications
2.3 Award of fellowships
2.4 Benefits
2.5 Duration
2.6 Official notification.

AUTHORITY: §§ 2.1 to 2.6 inclusive, issued under the authority contained in R.S. 161, 5 U.S.C. 22; section 8 of the President's Reorganization Plan IV, 5 U.S.C. 133t; 53 Stat. 1290, 22 U.S.C. 249, 249a and the Department of State Appropriation Act, 1942, approved June 28, 1941, Public 135, 77th Congress.

§ 2.1 *Type of fellowship.* Fellowships shall be of the interne-training type, comprising instruction by the United States Weather Bureau in certain branches of meteorology, including the forecasting of tropical weather conditions and hurricanes, and the climatology of tropical regions.

§ 2.2 *Qualifications.* Applicants selected for these fellowships shall be:

(a) Bona fide citizens of any of the American republics other than the United States;

(b) In possession of a certificate of medical examination issued by a licensed physician within sixty days of the date of application, describing the applicant's physical condition, and stating that he is free from any communicable disease or disability that would interfere with the proper pursuit of studies or research or the performance of any activity incident to the fellowship;

(c) Able to speak, read, write and understand the English language; (These requirements are preferred but not mandatory.)

(d) Of good moral character and shall possess intellectual ability and suitable personal qualities; and shall have successfully completed their academic professional training in a recognized school in any one of the branches related to the science of meteorology, including among others, meteorology, climatology, physics, mathematics, engineering, physical geography, et cetera; and

(e) Preferably employees of the official meteorological services of the American republics from which selected.

§ 2.3 *Award of fellowships.* Fellowships will be awarded by the Secretary of Commerce upon the recommendation of the Chief of the Weather Bureau, and with the approval of the Secretary of State or his duly authorized representative. No applicant therefor shall be approved unless his application shall have been transmitted by the Government of the country of which he is a citizen through the diplomatic mission of the United States of America located in the Republic concerned.

§ 2.4 *Benefits.* Applicants awarded fellowships may be entitled to any or all of the following benefits upon recommendation of the Chief of the Weather Bureau:

(a) *Transportation expenses.* Transportation expenses from the home of the applicant to the place or places in the United States or its territories or possessions where the studies or research are to be pursued and return to the home of the applicant, including travel from the place of study or research to Washington, D. C., and return to that place or his home, in accordance with the Standardized Government Travel Regulations and the Act of June 3, 1926, as amended, in which connection claim for reimbursement may be made only for the following items:

(1) *Rail.* First class fare. If travel is performed on an extra fare train, expenses in excess of the first class fare

must be borne by the traveler. No receipts are necessary.

(2) *Pullman.* Lower berth or parlor car seat. No receipts are necessary if Government transportation requests are used. If purchased with cash, the Pullman stub must be attached to the reimbursement voucher.

(3) *Steamer.* Not exceeding the lowest minimum first class fare of the ship on which the travel is performed. American vessels must be used if available, (Section 901 of the Merchant Marine Act of 1936, 49 Stat. 2015). No receipts are necessary.

(4) *Airplane.* Transportation by air will be allowed regardless of the cost when authorized by the Chief of the Weather Bureau. When air travel has not specifically been authorized the traveler may proceed by air with the understanding that he may claim reimbursement therefor only in an amount not exceeding what it would have cost had the travel been performed by public conveyance over land or water. No receipts are necessary.

(5) *Taxicab.* At the beginning and termination of the journey and at all points where a change of conveyance is necessary while in a direct travel status. No receipts are necessary.

(6) *Excess baggage charges.* For personal effects (not household furniture) which are not carried free by the transportation company. Receipts are necessary and they should indicate that the traveler has availed himself of the free allowance, if such an allowance is granted.

(7) *Drayage or transfer of baggage.* For the hauling of the personal effects from the home to the station or dock, et cetera. Receipts are not necessary but should be submitted if possible. Charges by porters for handling the bags or baggage will not be allowed.

(8) *Steamer rug and steamer chair.* Receipts are necessary. Charges for steamer cushions will not be allowed.

(9) *Tips and gratuitous fees.* Will not be reimbursed.

In all cases round trip tickets must be purchased if possible. In the event the return portion of the ticket cannot be used, it should be returned to the United States Weather Bureau, Department of Commerce for collection of the refund.

(b) *Per diem while in a travel status.* Per diem in lieu of subsistence at not to exceed the following rates: $5.00 overland or by air in and outside the continental limits of the United States; $3.00 on vessels outside the United States.

(c) *Monthly allowance.* A monthly allowance of $120.00 during the entire period of studies in the United States or its territories or possessions when the fellow is not in a travel status.

§ 2.5 *Duration of fellowships.* Fellowships will be awarded for periods of not to exceed six months each.

§ 2.6 *Official notification.* Applicants recommended for fellowships by the Chief of the Weather Bureau and approved by the Secretary of Commerce and the Secretary of State, or the duly authorized representative of the Secretary of State, shall be notified of their award through diplomatic channels.

[SEAL] F. W. REICHELDERFER,
Chief, Weather Bureau.

Approved:
JESSE H. JONES,
Secretary of Commerce.

Chapter I—Federal Trade Commission

[Docket No. 4475]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF BOYER BROTHERS

§ 3.99 (b) *Using or selling lottery devices—In merchandising.* In connection with offer, etc., in commerce, of candy, or any other merchandise, (1) selling, etc., any merchandise so packed or assembled that sales thereof to the public are to be made, or may be made, by means of a game of chance, gift enterprise, or lottery scheme; (2) supplying, etc., others with push or pull cards, punch boards, or other lottery devices, either with assortments of merchandise or separately, which said push or pull cards, punch boards, or other lottery devices are to be used, or may be used, in selling or distributing said merchandise to the public; and (3) selling, etc., any merchandise by means of a game of chance, gift enterprise, or lottery scheme; prohibited. (Sec. 5, 39 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Boyer Brothers, Docket 4475, March 23, 1942]

In the Matter of William E. Boyer, and Robert J. Boyer, Individually and Trading as Boyer Brothers

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23rd day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondents, testimony and other evidence in support of and in opposition to the allegations of said complaint taken before an examiner of the Commission theretofore duly designated by it, and brief in support of the complaint, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent William E. Boyer, an individual, and respondent Robert J. Boyer, an individual, jointly or severally, their representatives, agents, and employees, directly or through any corporate of other device, in connection with the offering for sale, sale, and distribution of candy or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Selling or distributing any merchandise so packed or asembled that sales of such merchandise to the public are to be made, or may be made, by means of a game of chance, gift enterprise, or lottery scheme;.

(2) Supplying to, or placing in the hands of, others push or pull cards, punch boards, or other lottery devices, either with assortments of merchandise or separately, which said push or pull cards, punchboards, or other lottery devices are to be used, or may be used, in selling or distributing said merchandise to the public.

(3) Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

Subchapter C—Miscellaneous Excise Taxes

Chapter I—Bureau of Internal Revenue

[T. D. 5129]

PART 101—TAXES ON ADMISSIONS, DUES AND INITIATION FEES[1]

AMENDMENT

Regulations 43 (1941 Edition) [Part 101, Title 26, Code of Federal Regulations, 1941 Supp.], as amended by Treasury Decision 5096, approved November 1, 1941, relating to the taxes on admissions, dues, and initiation fees under Chapter 10 of the Internal Revenue Code, as amended, are hereby further amended as follows:

Paragraph (a) of § 101.5 is amended to read as follows:

§ 101.5 *Free and reduced rate of admissions*—(a) *General rule.* A person admitted free or at a reduced rate to any place at a time when and under circumstances under which an admission charge is made to other persons, is liable to tax (except as provided in paragraph (b) of this section), in an amount equivalent to the tax on the amount paid by such other persons for the same or similar accommodations.

Where persons in a certain group or class, such as students 12 years of age or over, women, or members of a particular organization, are admitted at a price less than the established price of admission to the public generally, they are liable for tax based on the established price of admission to other persons for the same or similar accommodations. Women admitted free or at reduced rates to dances or any other place are liable for tax based on the established price of admission to other persons.

If tickets or cards of admission are issued the tax should be collected at the time of the issuance of such tickets or cards, while if no tickets or cards are used tax should be collected when the persons are admitted. (Sec. 3791 of the Internal Revenue Code (53 Stat. 467; 26 U.S.C., 1940 ed., 3791))

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 962—STEEL

AMENDMENT NO. 1 TO SUPPLEMENTARY ORDER M-21-d[2]—CORROSION AND HEAT RESISTANT CHROME STEEL

Supplementary Order M-21-d (§ 962.5) is hereby amended to reads as follows, effective immediately:

§ 962.5 *Supplementary Order M-21-d*—(a) *Restrictions on deliveries, use, etc.* Except pursuant to specific authorization or direction of the Director of Industry Operations, no person shall consume, use, process, fabricate, or deliver corrosion or heat resistant alloy iron or alloy steel containing 4 percent or more of chromium except in accordance with the following:

(1) The above prohibition shall not apply to material to be delivered by the holder on a preference rating of A-1-k or higher.

(2) The above prohibition shall not apply to fully fabricated articles. It shall apply to raw steel stock in the form received, or cut to size for further processing or fabrication.

(b) *Violations.* Any person who violates this Order may be deprived of priorities assistance or may be prohibited by the War Production Board from obtaining any further deliveries of materials subject to allocation. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(c) *Appeal.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, or would result in a serious problem of unemployment in the community, or would disrupt or impair a program of conversion from nondefense to defense work may appeal for relief by a letter addressed to War Production Board, Washington, D. C., Reference: M-21-d, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(d) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 989—DOMESTIC MECHANICAL REFRIGERATORS

AMENDMENT NO. 2 TO SUPPLEMENTARY GENERAL LIMITATION ORDER L-5-b[1]

Section 989.3 (*Supplementary General Limitation Order L-5-b*) is hereby amended in the following particulars:

Subparagraph (a) (4) is hereby amended by inserting therein the words "or The Panama Canal" after the words "United States Maritime Commission."

Paragraph (a) is hereby further amended by adding thereto new subparagraphs (5) and (6) as follows:

(5) Any person may sell, lease, trade, deliver, ship or transfer any new domestic mechanical refrigerators to be physically incorporated into a defense project or defense housing project to which a preference rating of A-10 or higher has been assigned: *Provided*, That a written order or contract for such refrigerators was placed on or before February 13, 1942.

(6) Effective March 26, 1942, in addition to and without limiting the provisions of the foregoing subparagraphs, (i) any dealer, or any other person who is not a manufacturer or distributor, may sell, lease, trade, deliver, ship or transfer:

(*a*) Any new electric domestic mechanical refrigerators from his stock of new refrigerators to any person, and

(*b*) Any new gas or kerosene domestic mechanical refrigerators to a distributor or manufacturer;

(ii) Any Distributor may sell, lease, trade, deliver, ship or transfer (*a*) any new electric mechanical refrigerators:

To a manufacturer;

From his stock of new refrigerators in fulfillment of a contract or order bearing a Preference Rating of A-10 or higher;

From his stock of new refrigerators to any person that proportion of such stock which the number of new electric domestic mechanical refrigerators sold by him at retail during the year 1941 bears to the total number of new electric domestic mechanical refrigerators sold by him during the year 1941.

(*b*) Any new gas or kerosene domestic mechanical refrigerators to a manufacturer;

Paragraph (b) is hereby amended by adding thereto new subparagraphs (3), (4), (5), (6) and (7), as follows:

(3) "Manufacturer" means any person who manufactures or assembles completed new domestic mechanical refrigerators, excluding all factory branches and subsidiaries which qualify as distributors under the following subparagraph.

(4) "Distributor" means any person (including a factory branch or subsidiary of a manufacturer) engaged in the business of selling new domestic mechanical refrigerators to dealers for resale. A factory branch or subsidiary shall be considered a distributor only if it was performing the functions of a distributor prior to February 14, 1942.

(5) "Dealer" means any person (other than a Manufacturer) customarily engaged in the business of making sales at retail. A distributor shall be considered a dealer only if prior to February 14, 1942, he had a separate department or division through which he carried on his sales at retail, independent from his business as a distributor.

(6) "Retail sale" means any sale of not more than three domestic mechanical refrigerators to an ultimate consumer. Sales to builders, apartment house owners, institutions, governmental

[1] 7 F.R. 1063, 1493, 1670.

agencies, or employees of the seller shall not be considered retail sales.

(7) "Stock of new refrigerators" means those new domestic mechanical refrigerators which were in the inventory of a person or in transit to him at 10 A. M. Eastern War Time, February 14, 1942. Any new Domestic mechanical refrigerators which were reported to the War Production Board as being in the inventory of a manufacturer at 10 A. M. Eastern War Time, February 14, 1942, shall not be considered part of the stock of new refrigerators of any person other than such manufacturer.

Paragraph (c) is hereby amended by adding a new subparagraph (3) as follows:

(3) Each person (including a department or agency of the United States) affected by this Order shall file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

This amendment shall take effect immediately. Issued this 26th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 997—PRODUCTION AND DELIVERY OF MACHINE TOOLS, GAGES, AND CHUCKS

AMENDMENT NO. 1 TO GENERAL PREFERENCE ORDER NO. E-1-a,[1] REVISED

General Preference Order No. E-1-a, Revised, (§ 997.1) is hereby amended as follows:

1. The word "chucks" in paragraph (a) (1), Group I, is hereby amended to read "All types of chucks, except drill chucks".

2. Paragraph (d) (1) (iv) is amended to read as follows:

(iv) (a) No purchase order received after March 25, 1942 for any machine tool shall be given priority standing in production and delivery schedules unless a preference rating has been assigned thereto by either a Preference Rating Certificate *PD-1A*, by a Preference Rating Certificate *PD-3A* or by a Preference Rating Order *P-19-h*. Delivery of the Preference Rating Certificate itself to the Producer is no longer required but each purchase order must carry the proper endorsement thereon prescribed by such Certificate PD-1A, PD-3A or Preference Rating Order P-19-h.

(b) Purchase orders for gages and chucks shall be scheduled only upon receipt of a preference rating assigned thereto by a Preference Rating Certificate, or by any preference rating order of the P-Series, except Nos. P-90 and P-100.

3. Paragraph (d) (2) (ii) is amended by adding the following after the words "machine tools":

(ii) * * * and accessories thereto specified in the same purchase order. * * *

4. Paragraph (d) (2) (iii) is amended to read as follows:

(iii) Where two or more purchasers do not appear on the List, and their contracts or purchase orders for machine tools, gages or chucks have required delivery dates which conflict, and which bear the same preference rating, the sequence of deliveries shall be determined by the respective dates on which the producer received the application of the preference rating to the purchase orders for such deliveries. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

This Order shall take effect immediately. Issued this 26th day of March 1942.

PART 1031—MOLASSES

GENERAL PREFERENCE ORDER NO. M-54, AS AMENDED MARCH 27, 1942

Section 1031.1 (*General Preference Order No. M-54*) is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Molasses for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1031.1 *General Preference Order M-54* — (a) *Definitions.* For the purposes of this Order:

(1) "Molasses" means any molasses, sirup, sugar solution, or any form of fermentative sugar including Hydrol (derived from sugar cane, sugar beets or corn) other than direct-consumption sugar (as defined in General Preference Order No. M-55 As Amended January 24, 1942) or sugar intended for and used for manufacture into direct-consumption sugar. Blackstrap molasses is any final molasses produced in the manufacture of sugar from sugar cane or from the refining of raw sugar and includes all beet molasses produced in the manufacture of sugar from sugar beets. Invert molasses is any molasses made from sugar cane without extraction of sugars. Hydrol is corn sugar molasses. For the purpose of this Order one gallon of invert molasses is to be construed as 1½ gallons of blackstrap molasses and one gallon of Hydrol is to be construed as one gallon of blackstrap molasses.

(2) "Producer" means any person engaged in the production of Molasses and includes any person who has Molasses produced for him pursuant to toll agreement.

(3) "Importer" means any person who transports Molasses in any manner into the continental United States. Release from the bonded custody of the United States Bureau of Customs shall be deemed a transportation.

(4) "Primary Distributor" means any person, other than an Importer or a Producer, who sells Molasses which he has acquired (other than as Broker) from an Importer or a Producer.

(5) "Secondary Distributor" means any person, other than an Importer, Producer or Primary Distributor, who sells Molasses which he has acquired (other than as Broker) from some person other than an Importer or Producer.

(6) A person may, at the same time, be an Importer, a Producer, a Primary Distributor and a Secondary Distributor. His classification, in a particular case, will be determined by the source of the Molasses involved; i. e., with respect to Molasses imported, he will be an Importer, with respect to Molasses acquired from a Producer, he will be a Primary Distributor, etc.

(7) "Broker" means any person who buys and sells Molasses on a fee basis as agent either for the buyer or the seller or both.

(8) "Class 1 Purchaser" means any person who requires Molasses in the manufacture of any one or more of the following products:

(i) Insecticides.
(ii) Lactic Acid.
(iii) Graphite Paste.
(iv) Printing Rollers.
(v) Dye Stuffs.
(vi) Ink.
(vii) Ephedrine.
(viii) Sugar for Human Consumption (Produced From Beet Molasses).
(ix) Denatured Rum for Flavoring.
(x) Biological and Pharmaceutical Products for Human and Veterinary Uses.

and any person who requires Molasses for any one or more of the following purposes:

(xi) Dust Extraction.
(xii) Leather Tanning.

(9) "Class 2 Purchaser" means any person who requires Molasses in the manufacture (including custom grinding) of mixed feeds (including Molasses treated beet pulp).

(10) "Class 3 Purchaser" means any person who requires Molasses in the manufacture of any one or more of the following products:

(i) Yeast.
(ii) Citric Acid.

[1] 7 F.R. 541, 1640.

(11) "Class 4 Purchaser" means any person who requires Molasses in the manufacture of vinegar and any person who requires Molasses for foundry purposes.

(12) "Class 5 Purchaser" means any person who requires Molasses in the manufacture (including blending and/or packaging) of any one or more of the following products:

(i) Molasses (Edible).
(ii) Sirup (Edible).

(13) "Class 6 Purchaser" means any person who requires Molasses for sale directly (without the intervention of any other handler) to persons who require the same for ensilage or direct feed.

(14) "Class 7 Purchaser" means any person who requires Molasses for use in the manufacture of other products for human consumption (not specified above).

(15) "Calendar Quarter" means the several three month periods of the year commencing January 1, April 1, July 1, and October 1.

(16) "Calendar Quarterly Supply" means a quantity of Molasses not in excess of the quantity used by a purchaser listed above during a corresponding Calendar Quarter in the twelve month period ended June 30, 1941. Purchasers shall determine a Calendar Quarterly Supply with respect to each use specified in the applicable subparagraph above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(17) "30 Day Supply" means a quantity of Molasses not in excess of one-twelfth of the quantity used by a purchaser listed above during the twelve month period ended June 30, 1941. Purchasers shall determine a 30 Day Supply with respect to each use specified in the applicable subparagraphs above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(18) "Calendar Year" means the twelve month period commencing January 1 and ending December 31.

(19) "Yearly Supply" means a quantity of Molasses not in excess of the quantity used by a purchaser listed above during the twelve month period ended June 30, 1941. Purchasers shall determine a Yearly Supply with respect to each use specified in the applicable subparagraph above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(b) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Restrictions on deliveries.* Anything in Priorities Regulation No. 1 to the contrary notwithstanding:

(1) No Class 1, 2, 3, 4, 5, 6 or 7 Purchaser shall, during any Calendar Quarter (Calendar Year in the case of a Class 3 or 5 Purchaser), accept deliveries of Molasses in excess of the quantity set forth below less any quantity in excess of a 30 Day Supply on hand on the first day of the Calendar Quarter (Calendar Year in the case of a Class 3 or 5 Purchaser) in which delivery is to be made:

(i) Class 1 Purchaser—during any Calendar Quarter, 100% of a Calendar Quarterly Supply.

(ii) Class 2 Purchaser—during the Calendar Quarter commencing January, 1942, 55% of a Calendar Quarterly Supply; during any Calendar Quarter thereafter, 50% of a Calendar Quarterly Supply.

(iii) Class 3 Purchaser—during a Calendar Year, 110% of a Yearly Supply.

(iv) Class 4 Purchaser—during any Calendar Quarter, 110% of a Calendar Quarterly Supply.

(v) Class 5 Purchaser—during a Calendar Year, 100% of a Yearly Supply.

(vi) Class 6 Purchaser—during any Calendar Quarter, 100% of a Calendar Quarterly Supply.

(vii) Class 7 Purchaser—during any Calendar Quarter, 100% of a Calendar Quarterly Supply.

(2) Prior to delivery of Molasses, within the limitations of subparagraph (c) (1) hereof, the prospective deliveree, if he be a Class 1, 2, 4, 6 or 7 Purchaser, shall submit to the deliveror a certificate in substantially the following form, properly filled out and manually signed by a duly authorized official:

The delivery, in the Calendar Quarter ended , of gallons of Molasses (blackstrap molasses basis), in connection with which this certificate is furnished, will not, taking into consideration Molasses received and to be received during the same Calendar Quarter from all sources and inventory on hand on the first day of such Calendar Quarter, be in excess of per cent of a Calendar Quarterly Supply to which the undersigned, as a Class Purchaser, is entitled pursuant to General Preference Order No. M-54, amended, with the terms of which Order the undersigned is familiar.
Dated:

(Name of purchaser)
By
(Duly authorized official)

Prior to delivery of Molasses, within the limitations of subparagraph (c) (1) hereof, the prospective deliveree, if he be a Class 3 or 5 Purchaser, shall submit to the deliveror a certificate in substantially the following form, properly filled out and manually signed by a duly authorized official:

The delivery of gallons of Molasses (blackstrap molasses basis), in connection with which this certificate is furnished, will not, taking into consideration Molasses received and to be received during this Calendar Year from all sources and inventory on hand on the first day of this Calendar Year, be in excess of per cent of a Yearly Supply to which the undersigned, as a Class Purchaser, is entitled pursuant to General Preference Order No. M-54, amended, with the terms of which Order the undersigned is familiar.
Dated:

(Name of purchaser)

(Duly authorized official)

(3) No person shall knowingly deliver Molasses to any Class 1, 2, 3, 4, 5, 6 or 7 Purchaser in violation of the terms of subparagraphs (c) (1) and (2) hereof.

(4) Except as otherwise provided in paragraph (d) hereof, on and after January 1, 1942, no deliveries of Molasses shall be made by any Producer, Primary

Distributor, or Importer unless the same shall have been specifically authorised by the Director of Industry Operations; and no person shall accept delivery of Molasses if such delivery would be made in violation of the foregoing clause. At the beginning of each Calendar Quarter the Director of Industry Operations will issue to all Producers, Primary Distributors and Importers specific directions covering deliveries of Molasses which may be made by such Producers, Primary Distributors and Importers during such Calendar Quarter. Such directions will be primarily to insure the satisfaction of all defense requirements and to provide an adequate supply for essential civilian uses, and they may be made at the discretion of the Director of Industry Operations without regard to any preference rating assigned to particular contracts or orders.

(d) *Unrestricted deliveries.* Subject to the provisions of Priorities Regulation No. 1, amended, (and more particularly the inventory provisions thereof) and paragraphs (f) and (g) hereof, the following deliveries of Molasses shall not be subject to the provisions of paragraph (c) (4) hereof:

(1) Within the limitations of subparagraphs (c) (1) and (2) hereof, deliveries to purchasers specified in paragraph (a) hereof.

(2) Deliveries to Secondary Distributors for purposes of resale.

(3) Deliveries by a Class 7 Purchaser (of Molasses to which he is entitled pursuant to subparagraph (c) (1) (vii) hereof) to persons who require Molasses for ensilage or direct feed. Such deliveries should be made as equitably as possible among the persons requiring Molasses in the area which such Class 7 Purchaser serves.

(4) Deliveries of any one of the products specified in subparagraph (a) (12) hereof which after manufacture (including blending and/or packaging) fall within the definition of Molasses.

(5) Deliveries originating, completed and for use outside of the continental United States.

(6) Deliveries to an Importer originating outside of the continental United States.

(e) *Restrictions on consumption.* Unless otherwise authorized by the Director of Industry Operations, no purchaser specified in paragraph (a) hereof shall, during any Calendar Quarter commencing with the month of January 1942, use or consume more Molasses:

(1) Than he would be permitted to receive during such Calendar Quarter in the case of a Class 1, 2, 4, 6 or 7 Purchaser (assuming that such purchaser had no Molasses on hand on the first day of the Calendar Quarter).

(2) Than 110% of a Calendar Quarterly Supply, in the case of a Class 3 Purchaser.

(3) Than a Calendar Quarterly Supply, in the case of a Class 5 Purchaser.

(f) *Restrictions with respect to beverage spirits.* Except as may be otherwise provided by the Director of Industry Operations, after January 15, 1942, no person shall deliver, use, or accept delivery of Molasses for the manufacture of beverage spirits.

(g) *Restrictions on export.* No Molasses shall be exported by any person except upon express authorization of the Director of Industry Operations.

(h) *Intra-company transactions.* The prohibitions or restrictions contained in this Order with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of the same or any other enterprise owned or controlled by the same person.

(i) *Prior authorizations.* Specific mail or telegraphic authorizations hertofore issued by the Director of Industry Operations by way of relief from the provisions of this Order as it existed prior to this Amendment shall not be prejudiced or in any manner affected hereby.

(j) *Reports.* Reports shall be made at such times, on such forms and with respect to such matters as shall be prescribed by the Chemicals Branch of the War Production Board.

(k) *Notification of customers.* Producers, Distributors and Importers shall, as soon as practicable, notify each of their regular customers of the requirements of this Order, but the failure to give such notice shall not excuse any person from the obligation of complying with the terms of this Order.

(l) *Violations or false statements.* Any person who violates this Order or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Industry Operations, or otherwise wilfully furnishes false information to the Director of Industry Operations or to the War Production Board may be deprived of priorities assistance or may be prohibited by the Director of Industry Operations from obtaining further deliveries of materials subject to allocation. The Director of Industry Operations may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(m) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Molasses conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board, Reference: M-54, attention Chemicals Branch, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(n) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1032—DIRECT-CONSUMPTION SUGAR

AMENDMENT NO. 2 TO GENERAL PREFERENCE ORDER M-55, AS AMENDED JANUARY 24, 1942, TO CONSERVE THE SUPPLY AND DIRECT THE DISTRIBUTION OF DIRECT-CONSUMPTION SUGAR

Section 1032.1 (General Preference Order M-55, as amended January 24, 1942),[1] paragraph (d) (5) providing for "Deliveries not charged against quota" is hereby amended by the addition of two subparagraphs numbered (xi) and (xii) and reading as follows:

(xi) Any person requiring additional supplies for feeding bees when sufficient other suitable feed is not available, provided that such person must file with his supplier of sugar under this provision a written statement in substantially the following language, manually signed by a person authorized to make such representation.

I own or have charge of -------- colonies of bees, -------- nuclei and/or -------- packages of bees. I have in my possession or under my control -------- pounds of sugar or sugar syrup. To feed the above-mentioned bees within the next 30 days, -------- pounds of sugar are needed in addition to my inventory. I am able to obtain -------- pounds from --------
(Name)
of --------, my usual supplier,
(Address)
based on my quota or on my equitable share of his normal supply. I will therefore need, in addition, -------- pounds of quota-exempt sugar and order it herewith. I shall use this sugar solely for bee feeding and will comply with any applicable War Production Board orders.

Firm Name --------
Address --------
By --------

A copy of such writing must be filed with the Director of Industry Operations. Such statement shall constitute a representation to the War Production Board and the supplier that the signer is entitled to receive the amount stated. The supplier shall be entitled to rely on such representation, unless he knows or has reason to believe it to be false.

(xii) The United Service Organizations. (P.D. Reg. 1, amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

This Amendment shall take effect immediately. Issued this 26th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1032—DIRECT-CONSUMPTION SUGAR

SUPPLEMENTARY ORDER M-55-C

Pursuant to Order M-55, which this Order supplements:

§ 1032.4 *Supplementary Order M-55-c*—(a) *Restrictions on primary distributors.* Primary Distributors of Beet Sugar are hereby required to set aside for shipment as ordered by the Director of Industry Operations, 15% of the refined Direct-Consumption Sugar, derived from Sugar Beets, in their possession or control at any or all points on the effective date of this Order. Primary Distributors are further required to set aside at the end of each month for shipment and sale as the Director of Industry Operations may order, 15% of their production during such month, after the effective date of this Order, unless the Director of Industry Operations shall prescribe some greater or less percentage.

(b) *Reports.* Within fifteen (15) days after the effective date of this Order the Primary Distributors affected thereby shall notify the War Production Board in writing of the location and amount of Direct-Consumption Sugar set aside by them pursuant to this Order. Within five (5) days after the end of each calendar month each Primary Distributor affected by this Order shall similarly report to the Director of Industry Operations the amount and location of Direct-Consumption Sugar set aside by him out of production during such month.

(c) *Release.* If, within sixty (60) days after mailing of notification as prescribed in paragraph (b), the Director of Industry Operations shall not have instructed a Primary Distributor further with regard to the shipment and sale of such sugar or part thereof, such sugar shall be deemed released and may be disposed of or held by the Primary Distributor in any manner consistent with other laws, and orders and regulations of the War Production Board and the Office of Price Administration.

(d) *Effective date and termination.* This Order shall take effect immediately and unless sooner modified, amended, or revoked, shall continue in effect until December 31, 1942. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 27th day of March, 1942.

PART 1032—DIRECT CONSUMPTION SUGAR

SUPPLEMENTARY ORDER M-55-d

Pursuant to Order M-55, which this Order supplements:

§ 1032.5 *Supplementary Order M-55-d*—(a) *Definitions of zones.* (1) "Zone 1" means Maine, New Hampshire, and Vermont.

(2) "Zone 2" means Massachusetts, Rhode Island, and Connecticut.

(3) "Zone 3" means New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia.

(4) "Zone 4" means North Carolina.

(5) "Zone 5" means South Carolina, Georgia, and Florida east of the Apalachicola River.

(6) "Zone 6" means Tennessee and Kentucky.

(7) "Zone 7" means Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas, Missouri, Illinois, Indiana, Ohio, and Florida west of the Apalachicola River.

(8) "Zone 8" means the balance of the continental United States excluding Alaska and the Canal Zone.

(b) *Shipments permitted.* Until further Order of the Director of Industry Operations Direct-Consumption Sugar derived from sugar cane may be shipped or sold for shipment only to destinations within zones as follows:

(1) From points in Zones 1 and 2, only to points in Zones 1 and 2.

(2) From points in Zone 3, only to points in Zones 2, 3, and 4.

(3) From points in Zone 4 only to points in Zone 4.

(4) From points in Zone 5, only to points in Zones 4, 5, and 6.

(5) From points in Zone 6, only to points in Zone 6.

(6) From points in Zone 7, only to points in Zones 6 and 7.

(7) From points in Zone 8, only to points in Zone 8, and Texas, Oklahoma, Missouri and Illinois.

(c) *Sugar shipped before date of Order.* Direct-Consumption Sugar refined by Primary Distributors in any of the zones set forth in paragraphs (a) and (b), and shipped to points outside the areas to which shipment is permitted by paragraph (b) prior to the effective date of this Order, but still owned or controlled by such Primary Distributors on such effective date, may be sold at or near the points to which they were shipped only within one month after the effective date of this Order.

(d) *Other restrictions.* Primary Distributors shall sell sugar equitably among their customers, and shall so far as possible not discriminate in favor of or against any area or class of customers open to them under this Order: *Provided, however,* That this Order shall not be construed to require any Primary Distributor to ship outside his normal trading area unless he is specifically so ordered by the Director of Industry Operations.

(e) *Applicability of Order.* This Order does not apply to raw, dry invert or liquid invert Direct-Consumption Sugar, or to soft Sugar in bulk or to confectioner's, brown, loaf, tablet, and other specialty Direct-Consumption Sugar, in one and two pound packages, or to Direct-Consumption Sugar refined or processed outside the continental United States.

(f) *Effective date and termination.* This Order shall take effect immediately and unless sooner modified, amended, or revoked shall continue in effect until December 31, 1942. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.).

Issued this 27th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1032—DIRECT-CONSUMPTION SUGAR

SUPPLEMENTARY ORDER M-55-e

§ 1032.6 *Supplementary Order No. M-55-e.* (a) The Director of Industry Operations hereby determines that during the month of April, 1942, the quota of Direct-Consumption Sugar permitted Receivers under Paragraph (d) of Order M-55, as amended, shall be a minimum practicable working inventory not exceeding 80% of use or resale during the base period of 1941 as prescribed by the said Order No. M-55.

(b) During the said month of April 1942, no person, other than a Receiver, using sugar in the manufacture of any other product for resale, shall accept delivery of more Direct-Consumption Sugar than he would be permitted to accept if he were a Receiver, and no jobber or wholesaler shall sell or deliver Direct-Consumption Sugar to any person with knowledge or reason to believe that such person is prohibited from accepting delivery of such sugar by this paragraph. This paragraph does not apply to purchase or use of sugar for preparation of meals to be served in hotels or restaurants. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 27th day of March 1942.

PART 1032—DIRECT-CONSUMPTION SUGAR

RAW OR INVERT SUGAR

Pursuant to Order M-55, which this Order Supplements:

§ 1032.7 *Supplementary Order M-55-f*—(a) *Special quota for raw or invert direct-consumption sugar.* The term "Invert Direct-Consumption Sugar" includes such sugar whether partially inverted, fully inverted, or in liquid or congealed form. If any person used Raw or Invert Direct-Consumption Sugar in 1941 in the manufacture of any product other than refined Sugar, and customarily accepted delivery thereof in barrels, drums, or smaller containers, he may, at his election, accept delivery of a special annual quota of such Raw or

Invert Direct-Consumption Sugar at any time or times during the year 1942. Such quota shall be Seventy percent of his 1941 use, but not over 10,000 pounds of sugar content may be accepted in any one month. Any person so electing may accept delivery of Raw or Invert Direct-Consumption Sugar from a Primary Distributor, even though he accepts delivery of other types of Direct-Consumption Sugar from Secondary Distributors. Notice of such election shall be given by letter to the War Production Board on or before April 15, 1942, stating such person's use of such Sugar during each month of 1941 and the amount of such Sugar received during 1942. Thereafter, the periodic quotas of other types of Direct-Consumption Sugar, as provided for in Order M-55, as amended, or in regulations of the Office of Price Administration, shall, for any person so electing, be calculated on a basis excluding his 1941 use or resale of Raw or Invert Direct-Consumption Sugar during the base period.

(b) *Report.* Any person electing to accept delivery of a special quota as authorized by paragraph (a) shall report in writing to the War Production Board when he has accepted delivery of his entire quota.

(c) *Persons not electing.* Any purchase or acceptance of delivery of raw or invert Direct-Consumption Sugar by any Person not electing to accept delivery of the special quota as prescribed in paragraph (a) shall be governed by the general provisions and quota limitations of Order M-55 so far as they are applicable.

(d) *Effective date and termination.* This Order shall take effect immediately and unless sooner amended, modified, or revoked, shall expire on December 31, 1942. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong. as amended by Pub. Law 89, 77th Cong.)

Issued this 27th day of March 1942.

PART 1150—HONEY

GENERAL PREFERENCE ORDER NO. M-118

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of honey for defense, private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1150.1 *General Preference Order M-118*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions for the purposes of this Order.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Honey" means the exudations of plants gathered, modified and stored in the comb by honey-bees, and includes honey in any comb or extracted form and any syrup or compound in which the main ingredient is honey.

(c) *General restrictions.* (1) Except as permitted by this Order or as otherwise authorized by the Director of Industry Operations, no person may use honey in the manufacture of any other product.

(2) From the effective date of this Order to April 30, 1942, and during each month thereafter in 1942, any person may use, in the manufacture of any other product, either as much honey as he used in the corresponding month or other period of 1941 or one-third of the total amount of honey he used in the three-month period ending December 1941, whichever is greater.

(3) Notwithstanding the restrictions of subparagraph (c) (2), any person may use, in the manufacture of any product, not over sixty (60) pounds of honey from the effective date of this Order to April 30, 1942, and the same amount in each succeeding month of 1942.

(4) No person may accept delivery of honey, for use in manufacture of any other product, in excess of his minimum practicable working inventory needs in view of the foregoing restrictions.

(5) No person shall deliver honey to any other person with the knowledge or reason to believe that such person is not entitled to accept such delivery.

(6) Notwithstanding other provisions of this Order, any person may use any amount of honey in the manufacture of any product for use by or to fill actual orders by or contracts held by any person with:

(i) The War Department of the United States.

(ii) The Navy Department of the United States.

(iii) Any agency of the United States Government for materials, supplies, or equipment to be delivered to, or for the account of the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act.)

(d) *Applicability of order.* This Order applies to use of domestic or imported honey in the continental United States (excluding Alaska and Panama).

(e) *Records.* Each person packing honey, selling honey at wholesale, or using more than sixty (60) pounds of honey per month in the manufacture of any other product shall keep and preserve for a period of not less than two (2) years accurate and complete records of his inventories, production, purchases, sales and use of honey.

(f) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* Every person (other than the agencies specified in paragraph (c) (6)) who, at the opening of business on the effective date of this Order, has in his possession or under his control 1,200 pounds or more of honey shall, within thirty (30) days after that date, report to the War Production Board, on Form PD-392, the amount of honey in his possession or under his control, provided that no such report is required of any retailer who has in his possession or under his control honey only in packages of ten (10) pounds or less for retail sale. Failure to make such a report by any person shall be deemed a representation to the Government, subject to the penalties of Section 35 (A) of the United States Criminal Code (18 U.S.C. 80), that such person has in his possession or under his control less than 1,200 pounds of honey or is a retailer whose stock of honey is in containers of ten (10) pounds or less for retail sale. Every person (other than the agencies specified in paragraph (c) (6)) who hereafter purchases, at any one time, 10,000 pounds or more of honey, shall report each such purchase in writing to the War Production Board, specifying the seller, the amount purchased and the intended use of the honey. Every person participating in any transaction to which this Order applies shall also execute and file with the War Production Board such other reports and questionnaires as said office shall from time to time request.

(h) *Violations.* Any person who willfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(i) *Appeal.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may appeal to the War Production Board, setting forth pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M-118.

(k) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 26th day of March 1942.

PART 1112—OFFICE MACHINERY

AMENDMENT NO. 1 TO CONVERSION ORDER NO. L-54-a [1]

Section 1112.2 (*Conversion Order No. L-54-a*) is hereby amended as follows:

Paragraph (a) (4) of said section is hereby amended to read as follows:

§ 1112.2 *Conversion Order L-54-a*—(a) *Definitions. For the purpose of this order:*

* * * * *

(4) "Typewriter," unless expressly otherwise stated, includes non-portable typewriters, (including noiseless and electric types) and portable typewriters, and unless expressly otherwise stated, refers only to new typewriters. The term shall not include billing and continuous forms handling typewriters; shorthand writing machines; telegraphically controlled typewriters; Braille typewriters; toy typewriters; linotype machines or monotype machines. The term "new typewriter" means any typewriter which has not been delivered to any person acquiring it for use, but does not include rebuilt typewriters. The term "used typewriter" means any typewriter which at any time has been delivered to any person acquiring it for use, and includes rebuilt typewriters.

Paragraph (c) (2) is hereby amended to read as follows:

(c) *Authorized production quotas.*

* * * * *

(2) *Sets of parts for export.* Each Manufacturer may produce for export during the period commencing March 15, 1942 and ending May 31, 1942, and the month of June, 1942, respectively, a number of Sets of Parts for non-portable and portable typewriters, not in excess of the following percentages of the average monthly number of Sets of Parts for non-portable and portable typewriters, respectively, shipped from his factories during 1941:

Name of manufacturer	Nonportable production	
	March 15-May 31, 1942	June 1942
	Percent	*Percent*
Underwood Elliott Fisher Co.	2½ times 75	53
Remington Rand, Inc.	2½ times 75	53
Royal Typewriter Company, Inc.	2½ times 75	53
L. C. Smith & Corona Typewriters, Inc.	2½ times 75	53
International Business Machine Corp.	2½ times 75	53
Woodstock Typewriter Co.	2½ times 90	75

Name of manufacturer	Portable production	
	March 15-May 31, 1942	June, 1942
	Percent	*Percent*
Underwood Elliott Fisher Co.	2½ times 36	11
Remington Rand, Inc.	2½ times 36	11
Royal Typewriter Company, Inc.	2½ times 36	11
L. C. Smith & Corona Typewriters, Inc.	2½ times 36	11

The right to produce and export any such Sets of Parts shall not be construed to authorize the export of such Sets unless export licenses can be secured.

Provided, however, That any Manufacturer who is unable to ascertain the physical quantity of Sets of Parts for nonportable or portable typewriters which he shipped from factories during 1941 may produce for export a dollar value of such non-portable or portable Sets of Parts not in excess of the above-mentioned percentages of the average monthly dollar value of Sets of Parts for non-portable or portable typewriters, respectively, shipped from his factories during 1941.

The quantity of Sets of Parts for nonportable and portable typewriters so produced shall be over and above the production quotas for non-portable and portable typewriters. No Manufacturer so producing and exporting Sets of Parts shall, directly or indirectly, import any typewriters into the United States. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R.561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a) Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1131—ROUGH DIAMONDS

GENERAL PREFERENCE ORDER NO. M-109

It is essential that an adequate supply of Rough Diamonds be available to fulfill the war requirements of the United States, and that the distribution of

Rough Diamonds to consumers for industrial uses shall not be disturbed or retarded by hoarding or speculation; and the following Order is deemed necessary and appropriate in the public interest and to promote the defense of the United States.

§ 1131.1 *General Preference Order M–109*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected hereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* As used in this Order:

(1) "Rough Diamonds" means any diamond material that has not been cut and polished as a gem stone, and shall include Rough Diamonds incorporated in an unused tool or other device.

(2) "Crushing Bortz" means the lowest grade of Rough Diamonds, useful only after having been crushed into powder.

(c) *Reports of stocks and inventories.* Every person who, on the 31st day of March 1942, or on the last day of any calendar quarter thereafter, has title to, or possession or control of, ten (10) or more carats of Rough Diamonds, including Rough Diamonds incorporated in any unused tool or other device, shall, on or before the close of business on the 15th day of the succeeding month, report to the War Production Board in duplicate on Form PD–376, the quantity and description of Rough Diamonds owned by him or in his possession or control, the business in which he is engaged, the name of any other person having any interest in such Rough Diamonds, and such other information as may be required. Failure on the part of any person to make such a report on or before the 15th day of April 1942, or the 15th day of the month following any calendar quarter thereafter, shall be deemed a representation to the Government, subject to the penalties of section 35 (a) of the United States Criminal Code, that such person did not have title to, or possession or control of, such quantity of Rough Diamonds on the last day of the preceding calendar quarter.

(d) *Reports of sales or transfers of loose rough diamonds in quantities greater than five (5) carats and of crushing bortz in quantities greater than fifty (50) carats.* After the effective date of this Order, any person purchasing or otherwise acquiring title to, or possession or control of, any Crushing Bortz in a quantity in excess of fifty (50) carats, or any other Rough Diamonds which have not been incorporated in a tool or other device in a quantity in excess of five (5) carats, in any calendar month, shall furnish to the seller or to the person from whom title to, or possession or control of such Rough Diamonds is acquired, a certificate, in quadruplicate, on Form PD–377, manually signed by the Purchaser or a responsible official, stating the name of the person purchasing or otherwise acquiring such Rough Diamonds, a description of the Rough Diamonds to be acquired, the price or other consideration for the transfer, the business of the purchaser or transferee, the proposed use to be made of such Rough Diamonds, and such other information as may be required. The Seller's Certificate on such Form shall be signed by the seller, and one copy of the completed Form shall be returned to the purchaser, one copy shall be retained by the seller, and two copies shall be filed by the seller with the War Production Board within ten (10) days after the date of the sale or transfer to which such certificate relates. Such statement shall constitute a representation to the War Production Board by the purchaser of the facts stated in the purchaser's certificate, and by the seller of the facts stated in the seller's certificate appearing on said statement. No person shall transfer to any other person, Crushing Bortz in a quantity greater than fifty (50) carats, or any other Rough Diamonds which have not been incorporated in a tool or other device in a quantity greater than five (5) carats, in any calendar month, without obtaining from the purchaser or transferee, and forwarding to the War Production Board a signed certificate in the form prescribed by this paragraph, covering all transfers made to such Purchaser during such calendar month.

(e) *Reports of imports.* Imports of Rough Diamonds shall not be subject to the provisions of paragraph (d) hereof. Every person who, after the effective date of this Order, imports any Rough Diamonds, shall, within ten (10) days thereafter, file with the War Production Board, a report, on Form PD–377, manually signed by such importer, or a responsible official, giving all the information required thereby to be furnished by the purchaser. Such report shall give the name of, but need not be signed by, the person from whom such imported Rough Diamonds were acquired.

(f) *Reports of sales or transfers of rough diamonds in quantities less than five (5) carats, crushing bortz in quantities less than fifty (50) carats, and of rough diamonds in tools.* Every person who, after the effective date of this Order, makes any sale or transfer of loose Rough Diamonds in a quantity of five (5) carats or less, or Crushing Bortz in a quantity of fifty (50) carats or less, or of Rough Diamonds physically incorporated in an unused tool or other device, with respect to which no Certificate is required under paragraph (d) hereof, shall file with the War Production Board on or before the 15th day of the succeeding month, a report in duplicate on Form PD–378 of the total number of sales or transfers and the quantity of Rough Diamonds transferred during the preceding month not covered by certificates filed with the War Production Board in accordance with paragraph (d) hereof.

(g) *Appeals.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(h) *Communications.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board Washington, D. C. Ref.: M–109.

(i) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 27th day of March 1942.

PART 1134—TEA

CONSERVATION ORDER M–111

The uncertainty of shipments of Tea from abroad, and the fulfillment of requirements for the defense of the United States has created a shortage in the supply of Tea for defense and for private account; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1134.1 *Conservation Order M–111*—(a) *Applicability of priorities Regulation No. 1.* This Order, and all transactions affected thereby, are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Definitions for the purpose of this Order.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Packer" means any Person engaged in the packaging of Tea.

(3) "Receiver" means any person who buys or accepts delivery of Tea from any one or more Packers otherwise than at retail, or who has done so at any time since January 1, 1941.

(4) "Corresponding Quarter in 1941" means the one of the several three-month periods in the year 1941, commencing January 1, April 1, July 1, and October 1, which includes the corresponding monthly period for which a quota is prescribed as provided for herein.

(5) "Inventory" of a Receiver shall include all Tea held or controlled by him or in transit to him in the continental United States; and shall include the inventory of affiliates and subsidiaries of such Receiver, and the inventory of others where such Inventory is under the control of, or in the common control with, or reserved for the use of such Receiver, but shall not include Tea held in any retail store or other retail outlet for sale at retail.

(6) "Normal Supply" means the average monthly deliveries of Tea accepted by a Receiver during the corresponding quarter in 1941.

(c) *General restrictions.* (1) No receiver shall buy or accept delivery of Tea from any source except as permitted by this Order.

(2) No Person shall sell or deliver Tea to any Receiver with knowledge or reason to believe that such Receiver is not entitled to accept delivery thereof pursuant to this Order.

(3) Receivers shall sell Tea equitably to purchasers, and shall not favor purchasers who purchase other products from them nor discriminate against purchasers who do not purchase other products from them.

(d) *Quota restrictions and exceptions thereto*—(1) *Receivers in business in corresponding period of 1941.* In any calendar month any Receiver may, subject to the inventory restrictions as provided for in paragraph (e), accept delivery of Tea up to his quota for such month which shall be such percentage of the average monthly deliveries of Tea accepted by him in the corresponding quarter of 1941, as the Director of Industry Operations may from time to time determine.

(2) *Receivers not in business in the corresponding period of 1941.* Any Receiver who was not in business during the whole of the corresponding quarter of 1941, but was in business during the whole of the months of October, November and December, 1941, may, subject to the inventory restrictions as provided for in paragraph (e), in any calendar month accept delivery of Tea up to his quota for such month, which shall be such percentage of the average monthly deliveries of Tea accepted by him in October, November and December, 1941, as the Director of Industry Operations may determine.

(3) *Packers not selling through own retail outlets.* No Packer shall in any calendar month sell, transfer or deliver to any Receiver a quantity to Tea in excess of such Packer's quota for such month, which shall be such percentage of his average monthly deliveries of Tea to such Receiver in the corresponding quarter of 1941, as the Director of Industry Operations may from time to time determine.

(4) *Packers selling through own retail outlets.* No Packer who sells Tea at retail directly to consumers through retail stores or other retail sales outlets which he owns, operates or controls shall in any calendar month sell, transfer or deliver Tea in excess of his quota for such month, which shall be such percentage of his average monthly warehouse deliveries of Tea for sale through such retail stores or other retail sales outlets in the corresponding quarter period of 1941, as the Director of Industry Operations may from time to time determine.

(5) *Deliveries not charged against quota.* Notwithstanding the foregoing limitations, any Packer may deliver Tea to any Person, and any Receiver may accept delivery of Tea, without charging it against his quota, and may sell and deliver Tea to any Person, if such delivery or acceptance is specifically authorized by the Director of Industry Operations, or if such Tea is to be used or to be physically incorporated in materials to be used to fill actual orders by or contracts held by any person with:

(i) The War Department of the United States;

(ii) The Navy Department of the United States;

(iii) Any Agency of the United States Government for materials, supplies, or equipment to be delivered to, or for the account of the Government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(e) *Restrictions relating to receiver's inventory.* Anything in this Order to the contrary notwithstanding:

(1) No Receiver shall accept deliveries of Tea which will increase such Receiver's Inventory of Tea to an amount in excess of his Normal Supply, as defined above.

(2) Except as specifically authorized by the Director of Industry Operations, or for the purpose of filling actual orders of contracts as provided in paragraph (d) (5) above, no Receiver having an Inventory of Tea in excess of his Normal Supply, as defined above, shall make resales or deliveries in any calendar month in excess of the quota provided for in paragraphs (d) (1) or (d) (2) for such month.

(f) *Limitation on size of packages.* (1) From and after the 15th day from the effective date of this Order no Packer shall pack Tea for sale at retail in a package or container containing more than one-fourth of one pound of Tea.

(2) From and after the 15th day from the effective date of this Order no Packer shall pack Tea bags or Tea balls (defined for purposes of this Order as a Tea bag or Tea ball containing 1/10 of one ounce or less of Tea) for sale at retail in a package or container containing more than 50 such Tea bags or Tea balls.

(g) *Existing contracts.* The fulfillment of existing contracts in violation of this Order is prohibited regardless of whether such contracts were entered into before or after the effective date of this Order.

(h) *Reports.* (1) Every Packer, Receiver and every Person who imports Tea into the continental United States, having title, possession, or control of 500 or more pounds of Tea on the effective date of this Order (excluding Tea held in retail stores or other retail sales outlets for sale at retail) shall, on or before the close of business on the 10th day after the effective date of this Order, file with the War Production Board, Ref.: M–111, all the information required by Form No. PD–374. Failure to make such report on the part of any Packer, Receiver, or Person who imports Tea into the continental United States shall be deemed a representation to the Government, subject to the penalties of section 35 (A) of the United States Criminal Code, that such person does not have title to, possession or control of such quantities of Tea.

(2) Each person participating in any transaction to which this Order applies shall execute and file with the War Production Board such other reports and questionnaires as such Board may from time to time request.

(i) *Records.* Each Packer and Receiver participating in any transaction to which this Order applies shall keep and preserve for a period of not less than two years accurate and complete records of his inventories of the product to which such Order relates and of the details of all transactions in such product. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and any preference rating certificates accompanying them, the dates of actual deliveries thereunder, description of the Tea covered by such contracts or purchase orders, description of deliveries by types, quantities and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of Defense Orders and all other rated orders either accepted or offered and rejected, and other pertinent information.

(j) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(k) *Violations.* Any Person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(l) *Appeal.* Any Person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may appeal to the War Production Board, setting forth pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(m) *Communications to the War Production Board.* All reports required to

be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M–111.

(n) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1134—TEA

SUPPLEMENTARY ORDER NO. M–111–a

§ 1134.2 *Supplementary Order M–111–a.* (a) The Director of Industry Operations hereby determines that for the period from March 27, to April 30th inclusive (which shall be considered as the month of April in determining quotas under Order No. M–111), and for each calendar month thereafter until further notice:

(i) The quota of Tea permitted a Receiver as provided for in paragraph (d) (1) and (d) (2) of Order No. M–111, shall be 50 percent.

(ii) The quota of Tea deliveries to Receivers permitted a Packer as provided for in paragraph (d) (3) of Order No. M–111 shall be 50 percent.

(iii) The quota of Tea sales and deliveries to retail stores or other retail sales outlets owned, operated or controlled by a Packer, as provided for in paragraph (d) (4) of Order No. M–111, shall be 50 percent.

(b) All quotas provided for herein shall be calculated quantitatively on the basis of pounds.

(c) This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1142—FLASHLIGHT CASES AND FLASHLIGHT BATTERIES

LIMITATION ORDER NO. L–71

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of various materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1142.1 *General Limitation Order L–71.*—(a) *Definitions.* For the purposes of this Order:

(1) "Flashlight case" means any portable device weighing not more than two and one-half pounds, specifically designed and produced for the purpose of holding a flashlight bulb and a Flashlight Battery or miniature dynamo so as to provide a portable light.

(2) "Flashlight battery" means any "dry cell" battery of a type used to furnish electric current for flashlights.

(b) *General restrictions.* (1) After March 31, 1942, no Person shall incorporate into Flashlight Cases or Flashlight Batteries any of the following materials:

(i) Aluminum,
(ii) Crude rubber,
(iii) Chromium,
(iv) Nickel,
(v) Tin, except that contained in solder, or
(vi) Brass or copper other than used in electrical contact fittings: *Provided,* That brass and copper may be used in electrical contact fittings only in the minimum quantities required to provide suitable electrical contact and practical operation.

(2) After May 31, 1942, no Person shall incorporate into Flashlight Cases and/or Flashlight Batteries any iron or steel other than that used in reflectors, contact fittings, battery top seals, battery outer jackets, eyelets, rivets, end caps or end ferrules.

(3) During the period from the effective date of this Order until April 1, 1942, no Person shall incorporate into Flashlight Cases and/or Flashlight Batteries any material in a quantity in excess of 1/24th of the quantity (by weight) of that material which he incorporated into Flashlight Cases and/or Flashlight Batteries during the calendar year 1940.

(4) In each period of three calendar months, beginning with the three months period which begins April 1, 1942, no Person shall incorporate into Flashlight Cases and/or Flashlight Batteries any material in a quantity greater (by weight) than one-fourth of the quantity of that material which was incorporated into Flashlight Cases and/or Flashlight Batteries by him during the calendar year 1940.

(5) Where, after December 31, 1940, a Person, in the production of Flashlight Cases and/or Flashlight Batteries, shall have substituted for any scarce material a material which is less scarce, that Person may, as between the two materials (the substituted material and the material for which the substitution has been made), adjust the permissible amounts of those materials to be used but, in such case, the total weight of those two materials which shall be incorporated into Flashlight Cases and/or Flashlight Batteries by that Person shall not exceed the total weight of those two materials which he is permitted to use by the terms of this Order exclusive of this subparagraph.

(6) Nothing in the Order shall limit, and every Person is specifically authorized to use, in addition to the quota set forth above, any amount of any materials required in the production of Flashlight Cases and/or Flashlight Batteries under specific contracts or orders placed by or for the account of, or to fulfill a contract with

(i) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development;

(ii) The government of any of the following countries: The United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, The Kingdom of the Netherlands, Norway, Poland, Russia, and Yugoslavia; or

(iii) Any agency of the United States Government for delivery to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(c) *Avoidance of excessive inventories.* No Person shall accumulate, for use in the manufacture of Flashlight Cases and/or Flashlight Batteries, inventories of any materials (whether raw, semi-processed or processed) in excess of the minimum amounts necessary to maintain production of Flashlight Cases and/or Flashlight Batteries at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(g) *Violations or false statements.* Any person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director of Industry Operations, or otherwise wilfully furnishes false information to the Director of Industry Operations or to the War Production Board may be deprived of priorities assistance or may be prohibited by the Director of Industry Operations from obtaining any further deliveries of materials subject to allocation. The Director of Industry Operations may also take any other action deemed appropriate, including the making of a recommendation for prosecution under Section 35 (a) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Applicability of other Orders.* Insofar as any other Order heretofore or hereafter issued by the Director of Priorities or the Director of Industry Operations limits the use of any material in the production of Flashlight Cases and/or Flashlight Batteries to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern, unless otherwise specified therein.

(k) *Routing of correspondence.* All reports to be filed, appeals and other communications concerning this Order shall be addressed to the War Production Board, Washington, D. C., Ref: L–71.

(l) *Effective date.* This Order shall take effect on the date of its issuance and shall continue in effect until revoked by the Director of Industry Operations subject to such amendments or supplements thereto as may be issued from time to time by the Director of Industry Operations. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. PART 1155—OUTBOARD MOTORS AND PARTS

LIMITATION ORDER L–80

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1155.1 *Limitation Order L–80.*—(a) *Definitions.* For the purposes of this Order:

(1) "Outboard Motor" means any detachable motor (electric or internal combustion motor) for the propulsion of rowboats, canoes, dinghies, or any other type of boat.

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(3) "Producer" means any person fabricating, processing, manufacturing or assembling any Outboard Motor or component part thereof.

(4) "Horse Power Rating" means the rating applied to Outboard Motors by the National Outboard Motor Association (Pittsburgh Testing Laboratories) or by the Society of Automotive Engineers.

(5) "Preferred Order" means any order or contract for Outboard Motors or Parts to be delivered to or for the account of the Army or Navy of the United States, U. S. Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, and the Office of Scientific Research and Development.

(b) *General restrictions.* (1) Except as provided in subparagraph (b) (2), from the effective date of this Order, no Producer shall process, fabricate, work on or assemble any materials for use in the production of Outboard Motors or Parts, nor shall any Producer manufacture or assemble any Outboard Motors or Parts except to the extent required to fill Preferred Orders.

(2) During the month of April and during each month thereafter, until otherwise ordered, no Producer shall manufacture more repair and replacement parts than 75% of his average monthly production of such repair and replacement parts for Outboard Motors during the calendar year 1941.

(3) From the effective date of this Order, no Producer shall lease, trade, lend, deliver, ship or transfer any Outboard Motors of 6 Horse Power Rating or more to any Person whatsoever, except pursuant to specific authorization of the Director of Industry Operations. The restrictions contained in this subparagraph shall not apply to any Outboard Motors which were actually in transit at the close of business on the effective date.

(c) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales.

(d) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the War Production Board, Washington, D. C., Ref.: L–80, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(h) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref.: L–80.

(i) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 27th day of March 1942.

Chapter XI—Office of Price Administration

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

AMENDMENT NO. 2 TO REVISED PRICE SCHEDULE NO. 7 [1]—COMBED COTTON YARNS AND THE PROCESSING THEREOF

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

Section 1307.12 (d) (4) (vii) is amended to read as follows and § 1307.11 (i), reading as follows, is added:

§ 1307.12 *Appendix A: Maximum prices for combed yarns and for mercerizing, bleaching, and/or gassing thereof.*

* * * * * *

(d) *Maximum prices for combed yarns not covered by contract prior to*

December 24, 1941, and for mercerising, bleaching, and/or gassing.

* * * * *

(4) *Premiums.*

* * * * *

(vii) *Other premium yarns; reports to be made in connection with sales thereof.* (a) For plies or for put-ups other than, or for twist slacker than, those included in the definition of base-grade yarn, a premium not exceeding the additional cost, if any, over base-grade plies, put-ups, or twist, respectively, may be charged.

(b) For combed yarns which, in order to meet breaking-strength or other requirements reasonably related to the use to which they are to be put, are made with American cotton of staple lengths greater than those provided for in the definition of base-grade yarn or of Sea Island, SXP, Pima, or Egyptian cotton, a premium not in excess of 130 per cent of the additional cost (as hereinafter defined) may be charged.

As used herein, the term "additional cotton cost" means the difference in cents per pound, adjusted for waste,[11] between the market value[12] of the specific kind, grade, and staple of cotton used or to be used in the premium yarn, and the market value[12] of middling American cotton of the staple length specified for the same yarn number in the definition of base-grade yarn.[11]

[11] In adjusting for waste, the following net waste factors are to be used:

Cotton	Net waste factor
American:	
1 1/32"	1.26
1 1/16" and 1 3/32"	1.28
1 1/8" and 1 5/32"	1.31
1 3/16" and 1 7/32"	1.33
1 1/4" to 1 11/32", incl.	1.36
1 3/8" and over	1.38
Sea Island	1.43
SXP and Pima	1.35
Egyptian	1.33

[12] As of the date the contract of sale of premium yarn is made.

[12] Determination of the market values referred to herein shall be made from such weekly quotations, appropriately adjusted for location, as are or may hereafter be published by the Agricultural Marketing Service, Department of Agriculture, or, in the case of kinds, grades, and staples of cotton for which such quotations are not published, from actual quotations or sales made by brokers, shippers, or dealers customarily acting as sources of supply for such cotton.

(c) In addition to the premium allowable under (b) above, a premium of not more than six per cent of the maximum price exclusive of said premium may be charged for combed yarn sold to a manufacturer or converter of thread for use solely in the manufacture of thread: *Provided*, That no premium may be charged hereunder unless the seller receives a written statement from the buyer (which the seller shall preserve for not less than two years) that the yarn is to be used solely in the manufacture of thread.

(d) On or before April 10, 1942, and on or before the 10th day of each month thereafter, every producer who during the preceding calendar month has sold 5000 pounds or more of combed yarn at a premium under (a), (b), or (c) above, shall file with the Office of Price Administration a report of such sales on Form 287.3.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

AMENDMENT NO. 1 TO MAXIMUM PRICE REGULATION NO. 107[1]—USED TIRES AND TUBES

A statement of the considerations involved in the issuance of this Amendment No. 1 has been prepared and issued simultaneously herewith.[2]

Subparagraphs (9) and (11) of paragraph (a) of § 1315.1358 and the column headings in Table I–A of § 1315.1360 and in Table I–B of § 1315.1361 are amended to read as follows, and a new § 1315.1359a and a new sub-paragraph (12) to paragraph (a) of § 1315.1358 are added.

§ 1315.1358 *Definitions.*

(a) * * *

* * * * *

(9) "Tread design depth" means the thickness of that part of the tread depth only which includes the pattern impressed into the rubber on the running surface of the tire whether originally or in retreading or recapping, and does not include designs, patterns, or impresses made by regrooving or remolding.

* * * * *

(11) "Basic tire carcass" means a used rubber tire with a smooth tread or a regrooved or remolded non-skid pattern of not more than 2/32" depth when measured at the shallowest point of such non-skid pattern;

(12) "Remolded tire" means a used rubber tire into the worn tread of which a new non-skid pattern has been impressed, or the old non-skid pattern made deeper, by any means other than regrooving, and on which the resulting non-skid pattern is greater than 2/32" depth when measured at the shallowest point of the non-skid pattern, without exposing the breaker strip or fabric foundation.

PART 1333—TIN

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 17[2]—PIG TIN

A statement of the considerations involved in the issuance of this Amendment No. 1 to Revised Price Schedule No. 17—Pig Tin—has been prepared and is issued simultaneously herewith.[3] A new paragraph (d) is added to § 1333.10, and a new § 1333.9A is added as set forth below:

§ 1333.10 *Appendix A; maximum prices for pig tin.*

* * * * *

(d) *Differentials for export sales.* (1) On all export sales, whether from dock, store, steamer with transshipment privileges, free port, or any other point, an amount not exceeding that set forth in the following table may be added by the exporter to the maximum prices set forth above:

For sales of pig tin in lots of:	*There may be added to the maximum price*
11,200 lbs. or more	1¢ per lb.
2,240 to 11,199 lbs	1½¢ per lb.
Less than 2,240 lbs	2¢ per lb.

Where export shipment requires packaging of pig tin, the actual cost to the exporter of such packaging may be added to the maximum prices set forth above.

Whenever Pig Tin is sold, offered for sale, delivered or transferred by the exporter at prices delivered buyer's receiving point under the terms of sale, the total delivered price on a per pound basis shall not exceed the maximum price established by this Schedule by an amount greater than the total of those of the following charges which are actually incurred by the exporter.

(i) Additional transportation charges which are actually incurred to effect delivery;

(ii) Those of the following additional standard charges under the terms of sale, which are actually incurred to effect delivery to foreign buyer's receiving point:

(*a*) Consular forms and visa fees, including certificates of origin, bills of lading and commercial invoices.

(*b*) Marine and War risk insurance.

(iii) Foreign agent's commission, unless the foreign agent's commission or any part thereof is received by the exporter directly or indirectly for his own use.

All such additional charges must be shown as separate items upon records, bills and invoices.

(2) Any contract of sale or purchase, or other commitment entered into prior to March 30, 1942, for an export sale of pig tin from a steamer with transshipment privileges at prices higher than the maximum prices established in Revised Price Schedule No. 17 may be completed at contract prices provided that

(i) Full details of each such contract or commitment and such other pertinent information as may be requested shall be reported by the seller to the Office of Price Administration on or before April 13, 1942, and

(ii) All such deliveries at prices higher than the maximum prices established by Revised Price Schedule No. 17 shall be completed on or before April 27, 1942, or such later date as may be permitted upon application made to the Office of Price Administration with respect to each specific sale.

§ 1339.9a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1333.10 (d) and 1333.9a) to Revised Price Schedule No. 17 shall become effective March 30, 1942: *Provided*, That commitments entered into prior to March 30, 1942, for an export sale of pig tin from a steamer with transshipment privileges at prices higher than the maximum prices established by Revised Price Schedule No. 17 may be completed at contract prices: *Provided*, That full details of such commitments and such other pertinent information as may be requested shall be reported by the seller to the Office of Price Administration on or before April 13, 1942: *And provided further*, That all deliveries pursuant to such commitments shall be completed on or before April 27, 1942, or such later date as shall be permitted upon application made to the Office of Price Administration with respect to each specified sale.

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS

TEMPORARY MAXIMUM PRICE REGULATION NO. 16—STANDARD NEWSPRINT PAPER

In the judgment of the Price Administrator it is necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942 to establish temporarily as the maximum price for Standard Newsprint Paper the prices prevailing with respect thereto within five days prior to the issuance of this Regulation.

Therefore, under the authority vested in me by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Temporary Price Regulation No. 16 is hereby issued.

AUTHORITY: §§ 1347.201 to 1347.211, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1347.201 *Maximum prices for standard newsprint paper.* On and after April 1, 1942, to and including May 30, 1942, regardless of any contract, agreement, lease, or other obligation theretofore or thereafter entered into, no person shall sell or deliver Standard Newsprint Paper, and no person shall buy or receive Standard Newsprint Paper in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1347.211; and no person shall offer, solicit, attempt or agree to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of Standard Newsprint Paper to a purchaser if, prior to April 1, 1942, such had been received by a carrier other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1347.202 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1347.211) may be charged, demanded, paid, or offered.

§ 1347.203 *Conditional agreements.* No seller of Standard Newsprint Paper shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by Appendix A (§ 1347.211), in the event that this Temporary Maximum Price Regulation No. 16 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provision of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1347.204 *Evasion.* The price limitations set forth in this Temporary Maximum Price Regulation No. 16 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to Standard Newsprint Paper, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1347.205 *Records and reports.* (a) Every person making a purchase or sale of Standard Newsprint Paper in the

course of trade or business, or otherwise dealing therein, on and after April 1, 1942, shall keep for inspection by the Office of Price Administration for a period of two years complete and accurate records of each such purchase or sale showing the date thereof, the name and address of the buyer or seller, the price paid or received, and the quantity of Standard Newsprint Paper purchased or sold in roll or sheet form.

(b) Such persons shall submit such reports to the Office of Price Administration as it may from time to time require.

§ 1347.206 *Enforcement.* (a) Persons violating any provision of this Temporary Maximum Price Regulation No. 16 are subject to the civil and criminal penalties provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Temporary Maximum Price Regulation No. 16 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1347.207 *Petitions for amendment.* Persons seeking any modification of this Temporary Maximum Price Regulation No. 16 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1347.208 *Definitions.* (a) When used in this Temporary Maximum Price Regulation No. 16, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or rerpesentative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Standard Newsprint Paper" includes the form, class, or standard of newsprint paper manufactured and sold, irrespective of its actual use, for use for printing newspapers, and conforming to the following specifications:

(i) *Weight.* 500 Sheets, each 24 x 36 inches, shall weigh not less than 30 pounds nor more than 35 pounds.

(ii) *Rolls.* The paper shall be in rolls not less than 16 inches wide and 28 inches in diameter.

(iii) *Sheets.* The sheets shall not be less than 20 x 30 inches in size.

(iv) *Stock.* The paper shall contain fiber consisting of not less than 70 per cent of groundwood, and the remainder unbleached chemical pulp.

(v) *Finish.* The average of five tests in machine direction and five tests in cross direction on both sides, moving the paper after each test, made with the Ingersoll Glarimeter, shall be not more than 50 per cent gloss.

(vi) *Ash.* The ash content of the paper shall be not in excess of 6.5 per cent.

(vii) *Degree of sizing.* The time of penetration of water shall not be more than 10 seconds by the groundglass method or five seconds by the alternate methods. (Valley Size tester or curl method.)

(viii) *Color.* The paper shall consist of such colors as are used in the publication of newspapers.

(ix) *Thickness.* The thickness of the paper shall not be in excess of 0.004 of an inch.

(3) "Manufacturer" includes any person who manufactures Standard Newsprint Paper, and any person who distributes or sells Standard Newsprint Paper as a del credere agent or other representative of a manufacturer.

(4) "Merchant or Distributor" includes any person who buys Standard Newsprint Paper in any quantity from a manufacturer or other seller and resells such paper but does not divide in any manner or degree with any manufacturer or other merchant or distributor the difference between the amount paid for the paper and the price at which it is sold.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1347.209 *Replacement of regulation.* This Temporary Maximum Regulation No. 16 may be replaced by a permanent Maximum Price Regulation or Order issued under the Emergency Price Control Act of 1942.

§ 1347.210 *Effective period.* This Temporary Maximum Price Regulation No. 16 (§ 1347.201 to § 1347.211, inclusive) shall become effective on April 1, 1942, and shall, unless earlier revoked or replaced, expire at midnight of May 30, 1942.

§ 1347.211 *Appendix A: Maximum prices for standard newsprint paper.* (a) (1) The maximum price[2] per ton of 2,000 pounds for a carload lot of white Standard Newsprint Paper, as defined in § 1347.208, to be shipped in rolls to destinations in Zone 4,[3] shall be $51.00. The prices herein are the maximum prices f. o. b. mill, lowest carload rate of freight allowed to destination point. Lowest carload rate of freight means the lowest freight rate for shipment of carload quantities by the means of transportation available at the time of shipment.

(2) For shipments of white Standard Newsprint Paper in rolls to destinations in zones other than Zone 4, zone price differentials prevailing during the period from March 20, 1942 to March 24, 1942, inclusive, in the appropriate case, shall be subtracted from or may be added to, $51.00 per ton of 2,000 pounds.

(b) *Differentials for color and sheets.* There may be added to the maximum prices established herein price differentials for color, sheets, or special packing equivalent to the differentials actually charged in sales by the seller of Standard Newsprint Paper during the period from March 20, 1942 to March 24, 1942, inclusive. If no such sale was made during such period, there may be added to the maximum prices the price differentials which would have been charged during such period using such cost factors as would have been used to compute such differentials during the period from March 20, 1942 to March 24, 1942, inclusive.

(c) *Imports.* The maximum prices established herein are applicable to all imports of Standard Newsprint Paper.

(d) *Merchants' or distributors' maximum selling prices*—(1) *For sheets.* The maximum price at which a merchant or distributor may sell Standard Newsprint Paper in sheets shall not exceed the maximum price, established hereinabove for Standard Newsprint Paper in sheets, plus the following mark-ups:

Quantity	Percentage of Maximum Price[4] Established in paragraphs (a), (b), and (c)
1 ream[5] to less than 1 bundle[6]	100
1 bundle to less than 500 pounds	90
500 pounds to less than 2,000 pounds	50
2,000 pounds to less than 5,000 pounds	30
5,000 pounds to less than 10,000 pounds	20
10,000 pounds to less than 40,000 pounds	15
40,000 pounds or more	7

[4] All prices in quantities of less than 2,000 pounds may be computed to the nearest 25¢ per cwt., e. g. 12.5¢ per cwt. may be taken as 25¢ per cwt. In quantities of 2,000 pounds and over, prices may be computed to the nearest 5¢ per cwt., e. g. 2.5¢ per cwt. may be taken as 5¢ per cwt.

[5] Sales in lots of less than one ream may be made at a price not in excess of the one ream price per pound plus 50%. One ream of newsprint is a sealed or banded package containing 500 sheets of newsprint paper.

[6] One bundle of newsprint is a unit of measure of newsprint paper weighing approximately 125 pounds.

(2) *For rolls.* A merchant or distributor shall not sell Standard Newsprint Paper in rolls at a price in excess of the maximum price established in this paragraph for such paper in sheets less the differential for sheets as provided in paragraph (b) of this section.

(3) *For sales from a merchant's or distributor's warehouse stocks.* The maximum price at which a merchant or distributor may sell Standard Newsprint Paper from its warehouse stocks is the maximum price established in this paragraph (d) f. o. b. such seller's warehouse.

(4) *For sales involving shipment from the manufacturer to a person purchasing from a merchant or distributor.* The maximum price at which a merchant or distributor may sell Standard Newsprint Paper to be shipped by the manufacturer directly to the person purchasing from such merchant or distributor is the maximum price established hereinabove for shipments by such manufacturer to such purchaser plus the merchants' or distributors' mark-up provided for hereinabove.

(5) *For sales to other merchants or distributors.* The maximum price at which a merchant or distributor may sell Standard Newsprint Paper to another merchant or distributor for resale shall not exceed the maximum prices established for sales by merchants or distributors hereinabove, less the following discounts:

Quantity	Discount (percent)
1 ream to less than 1 bundle	28
1 bundle to less than 500 pounds	25
500 pounds to less than 2,000 pounds	18
2,000 pounds to less than 5,000 pounds	12½
5,000 pounds to less than 10,000 pounds	9
10,000 pounds to less than 40,000 pounds	7
40,000 pounds or more	3½

(e) *Exports.* The maximum price of Standard Newsprint Paper, as defined in § 1347.208, to be exported shall not exceed the maximum price established in this Appendix for a destination at the port of export. Actual costs for packing, transportation, etc., incident to export may be added to the maximum prices established herein, provided that such costs are actually incurred and are set forth as separate items in the billing.

PART 1410—WOOL

REVISED PRICE SCHEDULE NO. 58[1] AS AMENDED—WOOL AND WOOL TOPS AND YARNS

A statement of the considerations involved in the issuance of this Revised Price Schedule No. 58, as amended, has been prepared and is issued simultaneously herewith.[2]

Sections 1354.1 to 1354.13, inclusive, of Revised Price Schedule No. 58, formerly embraced under Part 1354—Wool and Wool Products are amended and redesignated §§ 1410.51 to 1410.66, inclusive, as set forth below:

AUTHORITY: §§ 1410.51 to 1410.66, inclusive, issued pursuant to the authority contained in Pub. Law 421, 77th Cong.

§ 1410.51 *Maximum prices for wool and wool tops and yarns.* (a) On and after February 2, 1942, no person shall sell, offer to sell, deliver or transfer wool or wool tops or yarns at prices higher than the maximum prices established herein: *Provided*, That contracts entered into prior to December 18, 1941, calling for a price higher than the maximum prices may be carried out at the contract price.

(b) (1) The maximum price for wool and wool tops and yarns, except the types and grades enumerated in Appendices A, B, C, D, E and F hereof (incorporated herein as §§ 1410.61 to 1410.66, inclusive) shall be the highest price contracted for or received by the seller for the sale or delivery during the period between October 1, 1941 and December 15, 1941, in-

[1] 7 F.R. 1316, 1836, 2000, 2136.

clusive, of such wool or wool tops or yarns of the same class, kind, type, condition, and grade to a purchaser of the same general class: *Provided*, That if during said period no such sale or delivery were made, the maximum price shall be a price in line with the maximum prices for related kinds, types, conditions, and grades of such wool or wool tops or yarns, determined in accordance with this paragraph (b) (1), to a purchaser of the same general class.

(2) The maximum price for wool sold by the importer thereof shall be increased or decreased by an amount equal to the actual increase or decrease in war risk insurance rates and freight rates over those prevailing for wool of the same class, kind, type, condition and grade during said period: *Provided*, That in all cases where the price is so increased, the invoice or similar document delivered to the purchaser shall show the amount of such increase.

(c) On and after March 27, 1942, notwithstanding the provisions of paragraphs (a) and (b) above, no person shall sell, offer to sell, deliver or transfer wools or wool tops or yarns of the types and grades enumerated in Appendices A, B, C, D, E, and F hereof, incorporated herein as §§ 1410.61 to 1410.66, inclusive, and no person shall buy, offer to buy, or accept delivery or transfer of such wools or wool tops or yarns at prices higher than the maximum prices set forth in Appendices A, B, C, D, E, and F: *Provided*, That contracts entered into prior to December 16, 1941, calling for a price higher than the maximum prices may be carried out at the contract price.

(d) Sales at retail are exempted from the operation of Revised Price Schedule No. 58, as amended.

(e) The maximum prices determined in accordance with this Revised Price Schedule No. 58, as amended, shall be the maximum prices for all transactions except

(1) The maximum price for grease wool futures contracts traded on the Wool Associates of the New York Cotton Exchange, Inc. shall be 103.5 cents per pound, and

(2) The maximum price for wool top futures contracts on said Exchange shall be 140 cents per pounds; except that such maximum price shall be increased or decreased by one cent per pound for each 1% that the war risk insurance rate on wool imported from Australia prevailing on the date such contract is made is, respectively, above or below 7½%:

Provided, That contracts entered into prior to December 18, 1941, calling for a price higher than the maximum price may be carried out at the contract price.

§ 1410.52 *Less than maximum prices.* Lower prices than the maximum prices established by Revised Price Schedule No. 58, as amended, may be charged, demanded, paid or offered.

§ 1410.53 *Evasion.* The price limitations set forth in Revised Price Schedule No. 58, as amended, shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of wool or wool tops or yarns, alone or in conjunction with any other material, or by way of any premium, commission, service, transportation, or other charge, or by a tying-agreement or other trade understanding, or by any other means.

§ 1410.54 *Records and reports.* (a) Every person making purchases or sales of wool or wool tops or yarns in the course of trade or business after December 17, 1941, shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of each such purchase and sale, showing the date thereof, the name and address of the buyer and the seller, the price contracted for or received and the quantity of each class, kind, type, condition and grade of wool or wool tops or yarns sold.

(b) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may, from time to time, require or permit.

§ 1410.55 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule No. 58, as amended, are subject to the civil and criminal penalties provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 58, as amended, or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1410.56 *Petitions for amendment.* Persons seeking any modification of this Revised Price Schedule No. 58, as amended, or an adjustment or exception not provided for therein, may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1 (§§ 1300.1–1300.56) issued by the Office of Price Administration.

§ 1410.57 *Definitions.* (a) When used in Revised Price Schedule No. 58, as amended, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Wool" means the fibers from the fleece of the sheep or lamb, or hair of the Angora or Cashmere goat or of the camel, alpaca, llama or vicuna, and shall include noils, wool waste, clips and rags and reworked wool of all grades and mixtures, except that sales of unscoured wool shorn from sheep or lambs in the continental United States are excepted from the operation of this Revised Price Schedule No. 58, as amended.

(3) "Wool tops" means tops made wholly or in part of wool;

(4) "Yarns" means yarns containing 10% or more wool by fiber weight, except yarns dyed and converted for the hand knitting trade.

(5) "Sales at retail" means sales to the ultimate consumer: *Provided*, That no manufacturer, processor, purchaser for resale or commercial user shall be deemed to be an ultimate consumer.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1410.59 *Effective date of price schedule No. 58.* Price Schedule No. 58 (§§ 1354.1 to 1354.9, inclusive) shall become effective December 16, 1941.

§ 1410.60 *Effective dates of amendments.* (a) Revised Price Schedule No. 58, as amended, (§§ 1410.51–1410.66, inclusive) shall become effective March 27, 1942: *Provided*, That firm commitments entered into after December 17, 1941 and prior to March 27, 1942, for the sale of wool or wool tops or yarns at prices not exceeding the maximum prices established by Revised Price Schedule No. 58, may be completed at contract prices.

§ 1410.61 *Appendix A; Maximum prices for domestic pulled wools.* The prices set forth below are maximum prices for domestic pulled wools of average to good character. The maximum prices for wools of choice character, for off color wools and for inferior wools shall be determined in accordance with paragraphs (b), (c) and (d) of this section.

All maximum prices are prices per pound f. o. b. shipping point and shall include all commissions and other charges except as provided in paragraph (e) of this section. Terms of sale shall be cash less 1% up to 10 days or 60 days net cash.

The maximum prices for Gray and Black wools of average character shall be 3 cents per pound less than the applicable maximum price for off color pulled wools of choice character set forth above.

(d) *Inferior pulled wools.* The maximum prices for inferior pulled wools shall be determined by deducting from the applicable maximum price for pulled wools of good character, set forth in paragraph (a) of this section the following amounts:

(1) Slightly tinged wools—2 cents per lb.

(2) Yellow or heavily stained wools—5 cents per lb.

(3) Seedy or burry wools which, in accordance with established trade practice, do not require carbonizing—3 cents per lb., after adjustment has been made for color in accordance with subparagraphs (1) and (2) above.

(4) Seedy or burry wools which in accordance with established trade practice, require carbonizing, 10 cents per lb., after adjustment has been made for color in accordance with sub-paragraphs (1) and (2) above: *Provided*, That where such wools are sold in a carbonized state the actual carbonizing charges plus an allowance for actual shrinkage may be added to the maximum price so long as such charges and shrinkage allowance are set forth in the invoice or similar document delivered to the purchaser.

(e) *Brokers' commissions.* In cases where a purchaser or a seller of domestic pulled wool employs a broker or other agent to make a purchase or sale on his behalf, a commission of not to exceed 1% of the applicable maximum price may be charged for such services and added to the applicable maximum price. A commission may not be charged to both buyer and seller on the same lot of wool. Such commission shall be payable only if (1) the wool is purchased at a price not exceeding the applicable maximum price, (2) it is shown as a separate charge on the invoice or similar document delivered to the purchaser, and (3) the commission is not split or divided with the seller or with an agent or an employee of the seller.

§ 1410.62 *Appendix B: Maximum prices for wool tops and noils*—(a) *Wool tops.* The prices set forth below are maximum prices for oil combed wool tops (15% regain, 3¼% oil and grease). The maximum prices for dry combed tops shall be the maximum prices set forth below plus 2¼%.

The maximum prices set forth below shall be adjusted to take into account changes in war risk insurance rates in accordance with subparagraph (1) of this paragraph.

The maximum prices for wool tops made of blends of foreign and domestic wools or of different types of foreign wools shall be determined in accordance with subparagraph (2) of this paragraph.

All maximum prices are prices per pound f. o. b. combing plant and shall include all commissions and other charges except as provided in subparagraph (3) of this paragraph.

Terms of sale shall be cash less 1% up to 10 days or 60 days net cash.

(1) *Adjustments for increases or decreases in war risk insurance rates.* (i) The maximum prices set forth above for tops made of South American wools of 56's grade or finer shall be increased or decreased by one cent per pound for each 1% that the war risk insurance rate prevailing on the date the contract of sale is made is, respectively, above or below 2½%. For grades coarser than 56's such adjustment shall be one-half cent per pound for each such 1% increase or decrease in the war risk insurance rate.

(ii) The maximum prices set forth above for tops made of Australian or New Zealand wools of 56's grade or finer shall be increased or decreased by one cent per pound for each 1% that the war risk insurance rate prevailing on the date the contract of sale is made is, respectively, above or below 7½%. For grades coarser than 56's such adjustment shall be one-half cent per pound for each such 1% increase or decrease in the war risk insurance rate.

(iii) The maximum prices set forth above for tops made of South African wools of 56's grade or finer shall be increased or decreased by one cent per pound for each 1% that the war risk insurance rate prevailing on the date the

contract of sale is made is, respectively, above or below 4%. For grades coarser than 56's such adjustment shall be one-half cent per pound for each 1% increase or decrease in the war risk insurance rate.

(2) *Maximum prices for wool tops made of blends of foreign and domestic wools or of different types of foreign wools.* In cases where wool tops are made of blends of foreign and domestic wools or of different types of foreign wools, as classified by place of origin in the table above, the maximum prices for such blends shall be based upon the applicable maximum prices for the unblended wool tops set forth above weighted in proportion to the amounts of such different types of wools contained in the blended top.

(3) *Broker's commissions.* In cases where a purchaser or a seller of wool tops employs a broker or other agent to make a purchase or sale on his behalf, a commission of not to exceed 1% of the applicable maximum price may be charged for such service and added to the applicable maximum price. A commission may not be charged to both buyer and seller on the same lot of wool tops. Such commission shall be payable only if (i) the wool tops are purchased at a price not exceeding the applicable maximum price, (ii) it is shown as a separate charge on the invoice or similar document delivered to the purchaser, and (iii) the commission is not split or divided with the seller or with an agent or employee of the seller.

(b) *Wool noils.* The prices set forth below are maximum prices for wool noils in cents per pound ex combing plant or ex warehouse, and shall include all commissions and other charges except as provided in subparagraph (1) of this paragraph (b).

Terms of sale shall be cash less 1% up to 10 days or 60 days net cash.

All other grades	3¢

(j) *Broker's commissions.* In cases where a purchaser or a seller of wool noils employs a broker or other agent to make a purchase or sale on his behalf, a commission of not to exceed 1% of the applicable maximum price may be charged for such service and added to the applicable maximum price. A commission may not be charged to both buyer and seller on the same lot of wool noils. Such commission shall be payable only if (i) the wool noils are purchased at a price not exceeding the applicable maximum price, (ii) it is shown as a separate charge on the invoice or similar document delivered to the purchaser and (iii) the commission is not split or divided with the seller or with an agent or employee of the seller.

§ 1410.63 *Appendix C: Maximum prices for scoured domestic shorn wools.* The maximum prices for scoured domestic shorn wools shall be the applicable maximum clean basis prices set forth in § 1410.10 of Maximum Price Regulation No. 106,[1] Domestic Shorn Wool, for unscoured wool to which may be added the following conversion charges:

(a) Actual charges paid for scouring;

(b) Transportation charges to scouring plant actually paid but in no case in excess of $0.50 per hundred weight of grease wool;

(c) Actual charges paid for sorting but in no case in excess of $1.00 per hundred weight of grease wool; and

(d) Actual loss incurred for depreciation due to off-sorts but in no case in excess of $1.50 per hundred weight of grease wool:

Provided, That the amount of each such charge shall be separately set forth in an invoice or similar document delivered to the purchaser.

§ 1410.64 *Appendix D: Maximum prices for wool yarns.* The maximum prices for Bradford weaving yarns, Bradford knitting yarns and French spinning yarns are set forth below in paragraphs (a), (b) and (c). In paragraphs (d) and (e) below there are set forth the provisions for determining the maximum prices for yarns spun from blended foreign and domestic wool, and for yarns spun from blended wool and other fibers.

(a) *Bradford weaving yarns.* The prices set forth below are maximum prices per pound, f. o. b. shipping point, for Bradford weaving yarns of the base count of 2/30s on Dresser spools or skeins. The maximum prices for yarns of other counts, for yarns on cones or cheeses, and for yarns sold in the dyed state shall be determined in accordance with subparagraphs (1), (2), and (3) below.

Terms of sale shall be cash less 2% up to 10 days or 60 days net cash.

(1) *Inferior wools.* The maximum prices for inferior wools shall be determined by deducting from the applicable maximum prices for shorn foreign wools imported in the greasy or washed condition, set forth in this paragraph (a), the following amounts:

(i) Slightly Stained Wools, 2¢ per lb.

(ii) Yellow or Heavily Stained Wools, 5¢ per lb.

(iii) Seedy or Burry Wools not Requiring Carbonizing, and cotts, 3¢ per lb., after adjustment has been made for color in accordance with (i) and (ii) above.

(iv) Seedy or Burry Wools Requiring Carbonizing, 10¢ per lb., after adjustment has been made in accordance with (i) and (ii) above: *Provided*, That where such wools are sold in a carbonized state the actual carbonizing charges plus an allowance for actual shrinkage may be added to the maximum price so long as such charges and shrinkage allowance are set forth in the invoice or similar document delivered to the purchaser.

(2) *Wools of choice character.* Maximum prices for wools of choice character shall be the maximum prices set forth above plus the following amounts:

(i) Grades 70s to 58s, 60s, inclusive, 3¢ per lb.

Provided, That the wools show good marino character in fully skirted super fleeces, freedom from burrs or other deleterious vegetable matter, freedom from kempy or hairy fibers, freedom from tender wools, evenness of grade and length, and good strength.

(ii) Grades 56s, 58s to 46/48s, inclusive, 5¢ per lb. and

(iii) Grades 46s to 40s and below, inclusive, 8¢ per lb.

Provided, That wools of the grades enumerated in paragraphs (ii) and (iii) show good medium or coarse crossbred or Lincoln character, unusual length and evenness in length and grade in fully skirted super fleeces, freedom from burrs and other deleterious vegetable matter, freedom from hairy or kempy fibers, freedom from tender wool, good strength and a high degree of lustre.

(3) *South American wools imported in the scoured state.* Maximum prices for shorn foreign wools imported in the scoured state shall be 2¢ per pound scoured above the applicable clean basis prices listed for shorn wools imported in the greasy or washed condition.

(4) *South American wools scoured in the United States.* The maximum prices for South American wools scoured in the United States shall be the applicable maximum clean basis prices set forth above for unscoured wool to which may be added the following conversion charges:

Actual charges paid for scouring;

Transportation charges to scouring plant actually paid but in no case in excess of $0.50 per hundredweight of grease wool;

Actual charges paid for sorting but in no case in excess of $1.00 per hundredweight of grease wool; and

Actual loss incurred for depreciation due to off-sorts but in no case in excess of $1.50 per hundredweight of grease wool:

Provided, That the amount of each such charge shall be separately set forth in an invoice or similar document delivered to the purchaser.

(5) *Maximum prices for sales of South American wools by dealers.* For the purposes of this Section, the term "dealer" shall be restricted to persons who purchase wool before it is landed in the United States and either resell it to a topmaker, spinner, or manufacturer for his own consumption, after it has been shipped from the country of origin, or resell it after it has been landed in the United States.

When South American wools are sold by a dealer, the applicable maximum price set forth above may be increased by an amount not exceeding 10% of the applicable in bond maximum price or 5 cents per lb. clean basis, whichever is greater, plus charges actually paid for marine and war risk insurance on the wool sold: *Provided*, That an invoice or similar document delivered to the purchaser shall show separately (i) the applicable maximum price of the wool, (ii) the dealer's markup per pound, (iii) the charges actually paid for marine insurance and (iv) the charges actually paid for war risk insurance. Persons buying any such wool after it has once been sold by a dealer may resell it at a price not higher than the maximum price applicable to the sale by the dealer under this paragraph.

(6) *Brokers' commissions.* In cases where a purchaser or a seller of South American wool employs a broker or other agent to make a purchase or sale on his behalf, a commission of not to exceed 1% of the applicable in bond maximum price may be charged for such services and added to the applicable maximum price. Such a commission may not be added to the increased maximum price applicable to sales by dealers provided for in paragraph (5) above. A commission may not be charged to both buyer and seller on the same lot of wool. Such commission shall be payable only if (i) the wool is purchased at a price not exceeding the applicable maximum price (ii) it is shown as a separate charge in the invoice or similar document delivered to the purchaser and (iii) the commission is not split or divided with the seller or an agent or an employee of the seller.

(b) *Australian, New Zealand, South African and other British wool control wool—(1) Maximum prices for sales by dealers.* For the purposes of this Section, the term "dealer" shall be restricted to persons who purchase wool before it is landed in the United States and either resell it to a topmaker, spinner, or manufacturer for his own consumption, after it has been shipped from the country of origin, or resell it after it has been landed in the United States.

The maximum prices for sales of such wools by dealers shall be the actual cost thereof landed in bond in the United States, plus an amount not exceeding 10% of such cost or 5 cents per pound, clean basis, whichever is greater, plus charges actually paid for marine and war risk insurance on the wool sold: *Provided*, That an invoice or similar document delivered to the purchaser shall show separately (i) such actual cost of the wool, (ii) the dealer's markup per pound, (iii) the charges actually paid for marine insurance, and (iv) the charges actually paid for war risk insurance. Persons buying any such wool after it has once been sold by a dealer may resell it at a price not higher than the maximum price applicable to the sale by the dealer under this paragraph.

(2) *British wool control wools scoured in the United States.* The maximum prices for wools scoured in the United States shall be the applicable dealer's maximum price set forth above for unscoured wool to which may be added the following charges:

(i) Actual charges paid for scouring;

(ii) Transportation charges to scouring plant actually paid, but in no case in excess of $.50 per hundredweight of grease wool;

(iii) Actual charges paid for sorting but in no case in excess of $1.00 per hundredweight of grease wool; and

(iv) Actual loss incurred for depreciation due to off-sorts but in no case in excess of $1.50 per hundredweight of grease wool:

Provided, That the amount of each such charge shall be separately set forth in an invoice or similar document delivered to the purchaser.

(3) *British wool control wools sold duty paid.* When British Wool Control wools are sold on a duty paid basis, the applicable maximum price may be increased by the amount of duty actually paid.

§ 1410.66 *Appendix F: Maximum prices for foreign pulled wools.* The prices set forth below are maximum prices per pound for foreign pulled wools of average to good character, duty paid, f. o. b. warehouse, pullery or scouring plant. Such prices do not include marine and war risk insurance charges which may be added as set forth in paragraph (e) below. Terms of sale shall be cash less 1% up to 10 days, or 60 days net cash.

Chapter XV—Defense Communications Board

[Order No. 3]

PART 1702—SECURITY OF MILITARY AND NAVAL MESSAGES

Whereas The Defense Communications Board has, by Executive Order No. 8964 of December 10, 1941 and Executive Order No. 9089 of March 6, 1942, been authorized, if the national security and defense and the successful conduct of the war so demand, to prescribe classes and types of radio stations and stations for wire communications and facilities or portions thereof which shall be subject to the use, control, supervision, inspection, or closure in accordance with such prescription, by the Department of War, Department of Navy, or other agency of the United States Government, designated by the Board;

And whereas it is necessary in the interest of the national security and defense, and for the successful prosecution of the war that the Government of the United States safeguard the security of all military and naval messages handled by means of radio communication and wire communication, as defined in the Communications Act of 1934, under the jurisdiction of the United States;

And whereas The Defense Communications Board has determined that the national security and defense and the successful conduct of the war so demand;

Now, therefore, By virtue of authority vested in the Board under the aforementioned Executive Orders, the Board hereby authorizes:

§ 1702.1 *Authorization of the Secretary of War and the Secretary of the Navy to take appropriate measures to safeguard the security of military and naval messages handled by means of radio communication and wire communication.* The Secretary of War and the Secretary of the Navy, acting jointly or severally, to take such steps, institute such measures, and issue such regulations and orders as shall be necessary to safeguard all military and naval messages handled by means of radio communication and wire communication under the jurisdiction of the United States in order to ensure that all such communications be transmitted rapidly, securely, and inviolate and further to ensure that no communication of spurious origin, purporting to be a military or naval communication, be transmitted by means of radio or wire communication. (E.O. Nos. 8964, 9089; 6 F.R. 6367, 7 F.R. 1777.)

Subject to such further order as the Board may deem appropriate.

By the Defense Communications Board.

JAMES LAWRENCE FLY,
Chairman.

[Public Proclamation No. 2.]

HEADQUARTERS WESTERN DEFENSE COMMAND AND FOURTH ARMY PRESIDIO OF SAN FRANCISCO, CALIFORNIA

ESTABLISHMENT OF MILITARY AREAS 3, 4, 5, AND 6

MARCH 16, 1942.

To: The people within the States of Washington, Oregon, California, Montana, Idaho, Nevada, Utah and Arizona, and the Public Generally.

Whereas by virtue of orders issued by the War Department on December 11, 1941, that portion of the United States lying within the States of Washington, Oregon, California, Montana, Idaho, Nevada, Utah and Arizona and the Territory of Alaska has been established as the Western Defense Command and designated as a Theatre of Operations under my command; and

Whereas by Executive Order No. 9066,[1] dated February 19, 1942, the President of the United States authorized and directed the Secretary of War and the Military Commanders whom he may from time to time designate, whenever he or any such designated commander deems such action necessary or desirable, to prescribe military areas in such places and of such extent as he or the appropriate Military Commander may determine, from which any or all persons may be excluded, and with respect to which the right of any persons to enter, remain in, or leave shall be subject to whatever restrictions the Secretary of War or the appropriate Military Commander may impose in his discretion; and

Whereas the Secretary of War on February 20, 1942, designated the undersigned as the Military Commander to carry out the duties and responsibilities imposed by said Executive Order for that portion of the United States embraced in the Western Defense Command; and

Whereas the Western Defense Command by its geographical location is particularly subject to attack, to attempted invasion by the armed forces of nations with which the United States is now at war, and, in connection therewith, is subject to espionage and acts of sabotage, thereby requiring the adoption of military measures necessary to establish safeguards against such enemy operations:

Now therefore, I, J. L. DeWitt, Lieutenant General, U. S. Army, by virtue of the authority vested in me by the President of the United States and by the Secretary of War and my powers and prerogatives as Commanding General of the Western Defense Command, do hereby declare that:

1. The present situation requires as a matter of military necessity the establishment in the territory embraced by the Western Defense Command of Military Areas and Zones in addition to those established in Public Proclamation No. 1, this headquarters, dated March 2, 1942.

2. Pursuant to the determination and statement of military necessity in paragraph 1 hereof, there are hereby designated and established the following Military Areas:

Military Area No. 3, embracing the entire State of Idaho.

Military Area No. 4, embracing the entire State of Montana.

Military Area No. 5, embracing the entire State of Nevada.

Military Area No. 6, embracing the entire State of Utah.

3. Within Military Areas Nos. 1 and 2 as designated and established in Public Proclamation No. 1, above mentioned, and within Military Areas Nos. 3, 4, 5 and 6, as defined herein, there are hereby established, pursuant to paragraph 1 hereof, Zones A–100 to A–1033, inclusive, all as more particularly described and defined in Exhibit 1, hereto attached, and as generally shown on the maps attached hereto and marked Exhibits 2, 3, 4, 5, 6, 7, 8 and 9.[2]

4. Such persons or classes of persons as the situation may require will by subsequent proclamation be excluded from Zones A–100 to A–1033, inclusive.

The designation of Military Areas Nos. 3, 4, 5, and 6 as such does not contemplate any prohibition, regulation or restriction except with respect to the Zones established therein, and except as provided in paragraph 5 hereof.

5. Any Japanese, German or Italian alien, or any person of Japanese ancestry now resident in the states of the Western Defense Command, namely, Washington, Oregon, California, Montana, Idaho, Nevada, Utah and Arizona, who changes his place of habitual residence is hereby required to obtain and execute a "Change of Residence Notice" at any United States Post Office within any of the states mentioned. Such notice must be executed at any such Post Office not more than five nor less than one day prior to any such change of residence. Nothing contained herein shall be construed to affect the existing regulations of the U. S. Attorney General which require aliens of enemy nationalities to obtain travel permits from U. S. Attorneys and to notify the Federal Bureau of Investigation and the Commissioner of Immigration of any change in permanent address.

6. The duty and responsibility of the Federal Bureau of Investigation with respect to the investigation of alleged acts of espionage and sabotage are not altered by this proclamation.

Lieutenant General, U. S. Army,
Commanding.

[Docket No. A–1262]

PETITION OF DISTRICT BOARD NO. 8, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 8 PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER MODIFYING RELIEF

An order in the above-entitled matter dated January 24, 1942, 7 F.R. 1001, granted temporary relief and conditionally provided that the relief should become final in sixty (60) days. Subsequently, on March 10, 1942, the original petitioner moved that the relief therein granted in respect to the Red Jacket Mine (Mine Index No. 5246) of the Red Jacket Coal Corporation be continued as temporary relief until August 1, 1942.

The classifications established for Mine Index No. 5246 in the Order dated January 24, 1942, were those of coals in the Powellton seam alleged to be comparable to the coals of Mine Index No. 5246. It appears that subsequent investigation by petitioner indicates that the coals of Mine Index No. 5246 may be comparable to the coals of certain mines

[1] 7 F.R. 1407.

[2] Filed as part of the original document.

in the Campbells Creek seam and that a change, therefore, in the classifications of the coals of Mine Index No. 5246 may be necessary, but that a definitive determination of this question must await further sampling of the coals from Mine Index No. 5246 to be made after the mine enters into commercial production about June 1, 1942.

It appears that a reasonable showing of necessity has been made for the granting of the motion of the original petitioner. No petitions of intervention have been filed with the Division in the above-entitled matter, and the following action is deemed necessary in order to effectuate the purposes of the Act.

Now, therefore, it is ordered, That the order dated January 24, 1942, in the above-entitled proceeding be amended and that the price established therein for the coals of the Red Jacket Mine (Mine Index No. 5246) of the Red Jacket Coal Corporation remain temporary unless it shall otherwise be ordered.

It is further ordered, That in all other respects the said Order of January 24, 1942, in the above-entitled proceeding, be and it hereby is, continued in full force and effect unless otherwise ordered.

Dated: March 25, 1942.

[Docket No. 1540-FD]

IN THE MATTER OF COSTANZO COAL MINING COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 1897, RESPONDENT

ORDER APPROVING AND ADOPTING WITH MODIFICATION THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATIONS OF THE EXAMINER AND SUSPENDING REGISTRATION

This proceeding having been instituted by the Bituminous Coal Division pursuant to the provisions of the Bituminous Coal Act of 1937, in order to investigate and determine whether the Costanzo Coal Mining Company, a registered distributor (Registration No. 1897), of Wheeling, West Virginia, had violated certain provisions of the Rules and Regulations for the Registration of Distributors promulgated pursuant to section 4 II (h) of the Act;

A Notice of and Order for Hearing having been issued and duly served on the Respondent on April 26, 1941, and the Respondent having filed an answer on May 6, 1941;

A hearing in this matter having been held on June 9, 10, 11, 12, 13, 16, and 17 and July 1, 1941, before W. A. Cuff, a duly designated Examiner of the Division, at hearing rooms thereof in Pittsburgh, Pennsylvania, and Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard and at which the Respondent appeared;

The Examiner having filed his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations in this matter on November 19, 1941, in which he recommended that the registration of the Respondent as a registered distributor be revoked;

The Respondent having filed exceptions thereto on December 27, 1941, and requested an oral argument thereon;

An oral argument having been held on these exceptions before the undersigned on January 14, 1942;

The undersigned having made Findings of Fact and Conclusions of Law herein and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That the exceptions of the Respondent, Costanzo Coal Mining Company, to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations of the Examiner be and they hereby are severally overruled except as otherwise indicated in the Findings of Fact, Conclusions of Law, and Opinion of the undersigned filed herewith.

It is further ordered, That the Proposed Findings of Fact and Proposed Conclusions of the Examiner be and they hereby are modified as indicated in the Findings of Fact, Conclusions of Law, and Opinion of the undersigned filed herewith.

It is further ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified, be and they hereby are approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the registration of the Respondent, Costanzo Coal Mining Company, registered distributor (Registration No. 1897) be and it hereby is suspended for a period of nine months, effective 15 days from the date of this Order: *Provided, however*, That if the Respondent shall not have complied with the provisions of § 304.15 of the Rules and Regulations for the Registration of Distributors at least five days prior to the expiration of said suspension period, said suspension shall continue in full force and effect until five days after the affidavit required by said § 304.15 shall have been filed with the Division: *And provided further*, That the Respondent be required to return to the producers all sales agent's commissions and distributor's discounts collected by it on sales made by the Respondent in violation of the Act, the rules and regulations and Orders thereunder, or the Agreement, and that a statement by the Respondent that such refunds have been made shall be included in the aforesaid affidavit.

Dated: March 26, 1942.

DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Administration

DETERMINATION PURSUANT TO SECTIONS 608c (9) AND (17), TITLE 7, U.S.C. 1940 EDITION, WITH RESPECT TO THE ISSUANCE OF ORDER NO. 27, AS AMENDED REGULATING THE HANDLING OF MILK IN THE NEW YORK METROPOLITAN MARKETING AREA [1]

Pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, there was issued, effective May 1, 1940, "Order No. 27, As Amended" regulating the handling of milk in the New York metropolitan marketing area.

A marketing agreement regulating the handling of milk in the New York metropolitan marketing area was tentatively approved on March 30, 1940.

Subsequently, three different amendments to "Order No. 27, As Amended" were made effective on March 1, 1941, July 1, 1941, and October 1, 1941, respectively.

There being reason to believe that the execution of amendments to the tentatively approved marketing agreement and of further amendments to the order regulating the handling of milk in the New York metropolitan marketing area would tend to effectuate the declared policy of said act, notice was given, on December 29, 1941, of a public hearing, which was held on January 7, 8, and 9 at New York City, on January 12, 13, and 14 at Utica, New York, on January 15, 16, and 17 at Binghamton, New York, on January 19 and 20 at Utica, New York, and on January 21, 22, 23, 26, 27, and 28 at New York City, on certain proposals to effectuate such further amendments. At such times and places all interested parties were afforded an opportunity to be heard on these proposals.

After such hearing, and after the tentative approval by the Secretary of Agriculture of the said amendments to the tentatively approved marketing agreement, handlers of more than fifty (50) percent of the volume of milk covered by the order refused or failed to sign the marketing agreement.

It is hereby determined, pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, that:

1. The refusal or failure of said handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

2. The issuance of a new Order No. 27, as amended, is the only practical means pursuant to such policy of advancing the interests of the producers of milk which

[1] See Title 7, Chapter IX, *supra*.

is produced for sale in the New York metropolitan marketing area; and

3. The issuance of said new Order No. 27, as amended, is approved or favored by over two-thirds of the producers who, during the month of February 1942, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area and who voted in a referendum concluded on March 21, 1942.

Done at Washington, D. C., this 25th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

Secretary of Agriculture.

DETERMINATION PURSUANT TO SECTIONS 608c (9) AND (17), TITLE 7, U.S.C., 1940 EDITION, WITH RESPECT TO THE ISSUANCE OF ORDER NO. 61 REGULATING THE HANDLING OF MILK IN THE PHILADELPHIA, PENNSYLVANIA, MARKETING AREA [1]

Claude R. Wickard, Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, having reason to believe that the execution of a marketing agreement and an order regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area would tend to effectuate the declared policy of said act, notice was given, on October 10, 1941, of a public hearing which was held in Philadelphia, Pennsylvania, on October 28 through October 31, November 10 through November 14, November 17 through November 19, November 28, and December 1 through December 5, 1941, on a proposed marketing agreement and order, and at such time and place all interested parties were afforded an opportunity to be heard on the proposed marketing agreement and order.

After such hearing and after the tentative approval on March 6, 1942, of the marketing agreement regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area, handlers of more than fifty (50) percent of the volume of milk covered by this order, which is marketed within the Philadelphia, Pennsylvania, marketing area, refused or failed to sign such tentatively approved marketing agreement relating to milk.

It is hereby determined, pursuant to the powers conferred upon the Secretary of Agriculture by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, that:

1. The refusal or failure of said handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

2. The issuance of Order No. 61, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area, is the only practical means pursuant to such policy of advancing the interests of the producers of milk which is produced for sale in the Philadelphia, Pennsylvania, marketing area;

3. The issuance of such order is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary and who, during the month of December 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area; and

4. The provision of such order providing for the payment to all producers delivering milk to the same handler of uniform prices for all milk delivered by them is approved or favored by at least three-fourths of the producers who, during the month of December 1941, were engaged in the production for market of milk covered by such order, said approval being separate and apart from the approval of producers as set forth above.

Done at Washington, D. C., this 25th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

Approved:

FRANKLIN D. ROOSEVELT,
The President of the United States.

Dated: March 25, 1942.

PROCLAMATION CONCERNING THE BASE PERIOD TO BE USED IN CONNECTION WITH THE EXECUTION OF A MARKETING AGREEMENT AND THE ISSUANCE OF AN ORDER REGULATING THE HANDLING OF MILK IN THE PHILADELPHIA, PENNSYLVANIA, MILK MARKETING AREA [1]

Pursuant to the powers conferred by the terms and provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, it is hereby found and proclaimed that, in connection with the execution of a marketing agreement and the issuance of an order regulating the handling of milk in the Philadelphia, Pennsylvania, milk marketing area, the purchasing power of such milk during the base period August, 1909–July 1941 cannot be satisfactorily determined from available statistics of the Department of Agriculture, but that the purchasing power of such milk can be satisfactorily determined from available statistics in the Department of Agriculture for the period August 1919–July 1929; and the period August 1919–July 1929 is hereby found and proclaimed to be the base period to be used in connection with ascertaining the purchasing power of milk handled in the Philadelphia, Pennsylvania, milk marketing area, for the purpose of the execution of a marketing agreement and the issuance of an order regulating the handling of milk in that area.

Done at Washington, D. C., this 26th day of March 1942.

TRUNK LINE TERRITORY MOTOR CARRIER RATES

Order at a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 26th day of March, A. D. 1942.

It appearing, that on August 14, 1940, Division 5 entered its report, 24 M.C.C. 501, and order in the above-entitled proceeding in which minimum reasonable class and commodity rates, classifications, exceptions thereto, and rules and regulations were prescribed for the transportation of property, with certain exceptions, by common carriers by motor vehicle between certain points in New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, West Virginia, and North Carolina, which order was modified in part by orders subsequently entered from time to time;

[1] *Infra.*

It further appearing, that by order of the Commission of February 10, 1942, the proceeding was reassigned to Division 2;

It further appearing, that the principal reasons, among others, for the entry of the minimum rate order were to halt destructive rate cutting and to place all respondents on one general minimum rate level;

And it further appearing, that there has been a substantial accomplishment of the purposes for which the minimum rate order was entered, and that respondents should be permitted to propose necessary changes in their rates without waiting for a modification of the minimum rate order upon petition:

It is ordered, That the parties to the proceeding be, and they are hereby, required to show cause in writing on or before April 27, 1942, why the effectiveness of the orders heretofore entered in the proceeding prescribing minimum rates should not be suspended.

It is further ordered, That any party desiring to reply to the response of any other party to this order may do so in writing on or before May 7, 1942.

It is further ordered, That the responses to this order and the replies thereto shall be divided into two parts, one to contain the statements of the facts relied upon, properly verified by someone having knowledge of those facts, and the other to contain argument based upon the facts.

It is further ordered, That six copies of such responses and the replies thereto shall be filed in the Office of the Secretary of the Commission, of which only the original need be verified.

And it is further ordered, That a copy of this order be sent to all counsel in the proceeding and that notice of this order be given to all other interested parties and to the general public by publishing it in the FEDERAL REGISTER, and by depositing copies thereof in the office of the Secretary of the Commission in Washington, D. C.

By the Commission, division 2.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 37-55]

IN THE MATTER OF D. E. ACKERS, NORTH AMERICAN LIGHT & POWER COMPANY AND KANSAS POWER AND LIGHT COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 26th day of March, A. D. 1942.

D. E. Ackers having filed an application for exemption from the provisions of section 13 (a) of the Public Utility Holding Company Act of 1935 with respect to the following transaction setting forth that:

(1) D. E. Ackers is presently president of and drawing compensation from Kansas Power and Light Company, a subsidiary of North American Light & Power Company, a registered holding company and a subsidiary of The North American Company, a registered holding company;

(2) Said D. E. Ackers has been a director of said North American Light & Power Company for the past nine months and it is now proposed that he become president of said company;

(3) As president of said North American Light & Power Company it is proposed that said D. E. Ackers will be compensated for services rendered on a per diem basis by said North American Light & Power Company and that at the same time he will continue as president of said Kansas Power and Light Company drawing compensation from the latter company; the aggregate compensation not to exceed the present rate of compensation from said Kansas Power and Light Company;

(4) The Commission on December 30, 1941, entered an order under section 11 (b) (2) of said Act requiring said North American Light & Power Company to liquidate and terminate its existence;

(5) Said D. E. Ackers states that he is generally familiar with the business and activities of said North American Light & Power Company and for that reason is able to expedite compliance by said North American Light & Power Company with said order of December 30, 1941, and by virtue thereof substantial economies will be effected in connection with said liquidation;

(6) The office of said president of North American Light & Power Company is presently vacant, Mr. Allen Van Wyck, its former president, having recently resigned;

It appearing to the Commission that a hearing should be held for the purpose of determining whether the proposed transaction under which Kansas Power and Light Company will pay D. E. Ackers a salary for rendering services to Kansas Power and Light Company while said D. E. Ackers may be president of North American Light & Power Company should be exempted from the provisions of section 13 (a) of said Act pursuant to the provisions thereof;

It is ordered, That a hearing for the purpose hereinafter provided be held on April 6, 1942, at 10:00 o'clock in the forenoon of that day at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On that day the hearing room clerk in Room 318 will advise as to where such hearing will be held.

It is further ordered, That at such hearing there shall be determined whether the proposed transaction, hereinabove described involves special or unusual circumstances or is not in the ordinary course of business, so as to make it necessary or appropriate in the public interest or for the protection of investors or consumers that the Commission by order conditionally or unconditionally exempt said transaction pursuant to the provisions of section 13 (a) of said Act.

It is further ordered, That Edward C. Johnson or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing ordered herein. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That notice of said hearing be and hereby is given to Kansas Power and Light Company and North American Light & Power Company, such notice to be given by service of a copy of this order by registered mail, and that notice is hereby given to all other persons whose participation in these proceedings may be in the public interest or for the protection of investors or consumers, such notice to be given by publication in the FEDERAL REGISTER. It is requested that any person desiring to be heard or to be admitted as a party in said proceedings shall file notice to that effect with the Commission on or before April 4, 1942.

By the Commission.

IN THE MATTER OF ILLINOIS IOWA POWER COMPANY

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 25th day of March, A. D. 1942.

Illinois Iowa Power Company, a registered holding company, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935, particularly section 12 (d) thereof and Rule U-44 promulgated thereunder with regard to the sale by said declarant to Commonwealth Edison Company, a non-affiliate, of all the real estate and personal property constituting the substation site known as the Oglesby Substation located near Oglesby, Illinois and all 132 kv. switching and accessory equipment connected therewith except (a) the 33 kv. substation structure, transformer and accessory equipment, and (2) the 2.3 kv. substation structure, transformer and accessory equipment, for and in consideration of the payment by said purchaser of an amount equivalent to the original cost to the declarant of the property to be transferred less depreciation plus the purchaser's pro rata share of current annual real estate and property taxes; and

Said declaration having been filed on January 29, 1942, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice or otherwise and not having ordered a hearing thereon; and the declarant having requested that the effective date of said declaration be postponed until this date; and

The Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective, and finding with respect to said declaration that the requirements of section 12 (d) of said Act and of Rule U-44 promulgated thereunder are satisfied;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that declarant, upon the completion of the proposed sale, report to this Commission the exact amount of the purchase price of the property to be sold on the basis of original cost as set forth in the first paragraph of this order, that said declaration be and the same is hereby permitted to become effective forthwith.

By the Commission. (Commissioner Healy dissents for reasons stated in his memorandum of April 1, 1940).

TITLE 7—AGRICULTURE

Chapter VII—Agricultural Adjustment Agency, Agricultural Conservation and Adjustment Administration

[ACP–1940–17]

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART B–1940

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, (49 Stat. 1148, 1915, 50 Stat. 329, 52 Stat. 31, 204, 205, 53 Stat. 550, 573; 16 U.S.C. 1940 ed. 590g to 590q), the 1940 Agricultural Conservation Program, as amended, is hereby further amended as follows:

1. Section 701.104 (a) is amended by adding the following subparagraph and renumbering the present subparagraphs (2) and (3) to be (3) and (4), respectively.

§ 701.104 *Division of payments and deductions*—(a) *Payments and deductions in connection with general soil-depleting crops, crops for which special crop acreage allotments are determined, and restoration land.*

* * * * *

(2) In cases where the landlords, tenants, or sharecroppers have lost their interests in the general soil-depleting crops or any crops for which special crop acreage allotments are determined, after planting but prior to harvest thereof, by reason of the acquisition of title to, or lease of, their farms for use in the national defense program, the net payment or deduction computed with respect to such crops shall be divided among such persons in the same proportion that the county committee determines that such persons would have been entitled, as of the time of harvest, to share in the proceeds of such crops except for such acquisition of title or lease.

2. Section 701.110 (a) (1) is amended to read as follows:

§ 701.110 *General provisions relating to payments*—(a) *Payment restricted to effectuation of purposes of the program.* (1) All or any part of any payment which otherwise would be computed for any person under the 1940 program may be withheld or required to be returned (a) if he adopts or has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1940 or previous agricultural conservation programs, (b) if, by means of any corporation, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or has participated in offsetting, in whole or in part, the performance for which such payment is otherwise authorized, or (c) if, with respect to forest land or woodland owned or controlled by him, he adopts or has adopted any practice which the Agricultural Adjustment Agency of the Agricultural Conservation and Adjustment Administration finds is contrary to sound conservation practices.

3. Section 701.111 (a), item (1), is amended to read as follows:

§ 701.111 *Application for payment*—(a) *Persons eligible to file applications.* * * *

(1) who at the time of its harvest is entitled to share in any of the crops grown on the farm under a lease or operating agreement, or who is a landlord, tenant, or sharecropper who lost his interest in the general soil-depleting crops or any crops for which special crop acreage allotments are determined, after planting but prior to harvest thereof, by reason of the acquisition of title to, or lease of, the farm for use in the national defense program and who did not otherwise receive full compensation for the amount of the payments in connection with such acquisition of title or lease, or

PART 741—PARITY PAYMENTS

SUBPART C—1941

By virtue of the authority vested in the Secretary of Agriculture by the item entitled "Parity Payments" contained in the Department of Agriculture Appropriation Act, 1941 (Public Law No. 658, 76th Congress, approved June 25, 1940; 54 Stat. 532, 563), as amended by the item entitled "Parity Payments" contained in the Department of Agriculture Appropriation Act, 1942 (Public Law 144, 77th Congress, approved July 1, 1941; 55 Stat. 408, 436), and pursuant to the provisions of sections 301 and 303 of the Agricultural Adjustment Act of 1938, approved February 16, 1938, as amended (52 Stat. 43, 45; 7 U. S. C. 1940 ed. 1301, 1303), the 1941 Parity Payment Regulations, as amended, are hereby further amended as follows:

1. Section 741.205 is amended to read as follows:

§ 741.205 *Aggregate performance.* Notwithstanding any other provisions of these regulations, the payment to any person whose aggregate share of the 1941 acreage of wheat, cotton, corn, rice, and tobacco on all farms in the county does not exceed his aggregate share of the allotments or permitted acreages under the 1941 Agricultural Conservation Program on such farms, or, in areas designated by the Agricultural Adjustment Agency of the Agricultural Conservation and Adjustment Administration as areas containing a substantial number of combination farms, where the sum of the acres of such commodities on all the farms in the county in which he has an interest does not exceed the sum of the permitted acreages or allotments on all such farms, shall not be less than the sum of his shares of the payments computed under § 741.202 hereof, with respect to each such allotment on each farm on which (1) the acreage of a commodity on the farm does not exceed the acreage allotment determined for the commodity under the 1941 Agricultural Conservation Program and (2) the sum of the acreages of corn, cotton, wheat, rice, and tobacco does not exceed the sum of the allotments or permitted acreages of such crops under the 1941 Agricultural Conservation Program, unless the State committee finds that such person's aggregate share of the 1941 acreages of wheat, cotton, corn, rice, and tobacco on all farms in which he has an interest exceeds his aggregate share of the allotments or permitted acreages for such commodities under the 1941 Agricultural Conservation Program for such farms to such an extent as to offset substantially the performance on the farm or farms with respect to which payment might otherwise be made.

2. Section 741.206 is amended by adding the following sentence at the end thereof:

§ 741.206 *Division of payment.* * * * In cases where the landlords, tenants, or sharecroppers have lost their interests in any commodity after planting but prior to harvest thereof, by reason of the acquisition of title to, or lease of, their farms for use in the national defense program, the net payment computed with respect to such commodity shall be divided among such persons in the same proportion that the county committee determines that such persons would have been entitled, as of the time of harvest, to share in the proceeds of such commodity except for such acquisition of title or lease.

PART 741—PARITY PAYMENTS

SUBPART C—1941

By virtue of the authority vested in the Secretary of Agriculture by the item entitled "Parity Payments" contained in the Department of Agriculture Appropriation Act, 1941 (Public Law No. 658, 76th Congress, approved June 25, 1940; 54 Stat. 532, 563), as amended by the item entitled "Parity Payments" contained in the Department of Agriculture Appropriation Act, 1942 (Public Law 144, 77th Congress, approved July 1, 1941; 55 Stat. 408, 436), and pursuant to the provisions of sections 301 and 303 of the Agricultural Adjustment Act of 1938, approved February 16, 1938, as amended (52 Stat. 43, 45; 7 U.S.C. 1940 ed. 1301, 1303), the 1941 Parity Payment Regulations, as amended, are hereby further amended as follows:

Section 741.209 is amended to read as follows:

§ 741.209 *Application for payment.* Payment will be made only upon application submitted through the county office on or before a date fixed by the Regional Director but not later than April 30, 1942, except (1) where farm applications are used the timely filing of an application by one person on a farm shall constitute a timely filing on behalf of all persons on that farm, and (2) an application for payment may be accepted if the State committee or its designated representative determines, in accordance with instructions issued by the Regional Director with the approval of the Administrator, that the failure to file the timely application was not due to the fault of the applicant. Applications filed under exceptions (1) and (2) above must be filed before expiration of the period for obligating the appropriation (June 30, 1943). The Secretary reserves the right (1) to withhold payment from any applicant who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another person for a share of the crops grown thereon, and (2) to refuse to accept any application for payment if any form or information required is not submitted to the county office within the time fixed by the Regional Director.

At least two weeks notice to the public shall be given of the expiration of a time limit for filing prescribed forms, and any time limit fixed shall be such as affords a full and fair opportunity to those eligible to file the form within the period prescribed. Such notice shall be given by mailing the same to the office of each county committee and making copies of the same available to the press.

Done at Washington, D. C., this 28th day of March 1942. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Assistant Secretary of Agriculture.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of the Alien Property Custodian

PART 502—VESTING ORDERS

VESTING OF PROPERTY OF I. G. FARBENINDUSTRIE, STANDARD-I. G. CO., AND OTHERS

§ 502.1 *Vesting Order No. 1.* (a) I, Leo T. Crowley, Alien Property Custodian, acting under and by virtue of the authority vested in me by the President pursuant to Section 5 (b) of the Act of October 6, 1917, as amended by Section 301 of the First War Powers Act, 1941, finding upon investigation that the property set forth in the list attached hereto marked Exhibit "A" and made a part hereof, is the property of Nationals of a Foreign Country designated in Executive Order No. 8389, as amended,[1] as defined therein, and that the action herein taken is in the public interest, do hereby order and declare that such properties including all interest therein are hereby vested in the Alien Property Custodian to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

(b) Such property and any proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return or compensation should be made.

(c) Any person not a national of a foreign country designated in Executive Order No. 8389, as amended, asserting any interest in said properties, or any party asserting any claim as a result of this order, may file with the Alien Property Custodian a notice of his claim, together with a request for hearing thereon, on Form No. APC-1 within one year of the date of this order, or within such further time as may be allowed by the Alien Property Custodian. (E.O. 9095, 7 F.R. 1971.)

This order shall be published in the FEDERAL REGISTER.

LEO T. CROWLEY,
Alien Property Custodian.

MARCH 25, 1942.

EXHIBIT A

LIST OF THE PROPERTY OF I. G. FARBENINDUSTRIE, AN ENEMY CORPORATION, VESTED IN THE ALIEN PROPERTY CUSTODIAN BY VESTING ORDER PURSUANT TO SECTION 5 (b) OF THE TRADING WITH THE ENEMY ACT, AS AMENDED

All right, title, and interest of I. G. Farbenindustrie, A. G. in:

(a) The following contracts and agreements, including all extensions, modifications, and renewals thereof:

1. Division of Fields Agreement of November 9, 1929, and the Jasco Agreement of September 30, 1930.
2. Four Party Agreement of November 9, 1929.
3. Coordination Agreement of November 9, 1929.
4. German Sales Agreement of November 9, 1929.
5. Series of agreements with Rahr-Chemie, I. G., Shell, and Kellogg dated October 7, 1938 (re hydrocarbon sythesis).
6. C. R. A. memoranda of October 12, 1938; August 15, 1939; April 17, 1940; and July 9, 1940.
7. Letter dated May 11, 1940, by I. G. to Standard re C. R. A.
8. Alcohol-Alkyl Chloride Agreement between Standard and I. G. of September 28, 1936.
9. Hague Memorandum dated September 25, 1939, effective as of September 1, 1939.
10. Trust Agreement (Schaefer and Koechling), executed March 8, 1940, effective as of September, 1939.
11. Paraflow Agreement of April 1, 1932.
12. Hydrogenation agreements.
13. Alcohol Agreement (unsigned memorandum of September 24, 1936 between Development and I. G.
14. Trust Agreement of August 31, 1939, between Frank A. Howard and W. E. Carrie and P. L. Young.

(b) Stock, patents, contracts, and other rights in and of the Standard Catalytic Company.

(c) All patents listed in schedule A attached hereto.

(d) All patents listed in schedule B attached hereto.

(e) All patents listed in schedule C attached hereto.

(f) The capital stock of Jasco, Inc., including the five certificates of stock therein held by Walter Schaefer and Harold E. Koechling, Trustees, and the patents, contracts, and other rights in and of Jasco, Inc.

(g) All patents listed in schedule D attached hereto.

(h) All other patents and patent applications held by or in the name of Standard-I. G. Company, Standard Catalytic Company, Jasco, Inc., or W. E. Currie.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 36—CLAIMS AGAINST THE UNITED STATES[1]

§ 36.6a *Procedure upon receipt of claim.*

• • • • • •

(b) *Action of commanding officer.* After an administrative examination to determine whether or not the claimant has supplied the necessary information, the commanding officer will refer the claim to a board of one or more officers, or, in the case of a claim not requiring such action, will forward it through channels to the Chief of Finance. In case the claim arose in connection with an accident involving a Government-owned motor vehicle, the commanding officer will refer the claim and his copy of the corresponding report of investigation, War Department Form No. 39 or Standard Form No. 27 (Investigating Officer's Report—Accident, Motor Transportation), with its attached copies of sworn statements, to the investigating-surveying officers appointed under paragraph 17, AR 850–15,[2] who will constitute a board to investigate and report upon the claim. (R.S. 161, 5 U.S.C. 22) [Par. 7b, AR 35–7020, Dec. 1, 1938, as amended by Cir. 84, W.D., March 23, 1942]

§ 36.7 *Action to be taken by board of officers.*

• • • • • •

(b) *Testimony to be reduced to writing.* (1) All testimony heard by the board will be reduced to writing and a transcript thereof certified as correct by the senior member of the board, and except as otherwise provided signed copies of all sworn statements or other evidence obtained by the board will be incorporated in the report of the proceedings. The signed originals of such sworn statements or other evidence will be attached to the original of the board's report and certified true copies will be prepared and attached to each copy of the report. Claimants should not be requested to furnish sworn claims in more than one originally executed copy, nor should repair bills or estimates be required to be authenticated under oath or submitted in several copies. (R.S. 161; 5 U.S.C. 22) [Par. 8b (1), AR 35–7020, Dec. 1, 1938, as amended by Cir. 84, W.D., March 23, 1942]

• • • • • •

§ 36.19 *Procedure of § 36.2 to 36.8 applicable.* Insofar as applicable, the procedure set forth in § 36.2 to 36.8 will be adopted as to claims arising under the provisions of the act cited in § 36.18 (a). If the claim is in connection with an accident involving a Government-owned motor vehicle, the board of officers to investigate the claim will whenever practicable be the board appointed under the provisions of paragraph 17, AR 850–15.[2] Otherwise the board of officers to investigate the claim will be appointed by the commanding officer of the troops involved, e. g., the commanding general of an army in cases of claims arising as the result of army maneuvers. (Act Feb. 12, 1940, Public No. 415, 76th Congress) [Par. 3a, AR 35–7030, May 15, 1940, as amended by Cir. 84, W. D., March 23, 1942]

§ 36.20 *Conditions precedent to payment.*

• • • • • •

(b) Each claim must be substantiated by a report of a board of officers appointed in accordance with § 36.19. (Act Feb. 12, 1940, Pub. Law 415, 76th Congress) [Par. 5b AR 35–7030, May 15, 1940, as amended by Cir. 84, W. D., March 23, 1942]

§ 37.3 *Method of ascertaining amount of damage.* (a) In case the damaged article of Government property (e. g. motor vehicle, building, etc.) is recommended or has been ordered by competent authority to be repaired and continued in service the amount of damage will be determined as follows:

• • • • • •

(b) In case the damaged article of Government property is not recommended or ordered to be repaired and continued in service, the amount of the damage will be determined as follows:

(1) Ascertain the fair value of the article immediately prior to the time of the damage, taking into consideration the original cost price, date of purchase, period of use, and depreciation in service. From this amount, subtract the salvage value of the article in its damaged condition. The difference obtained will be taken as the amount of the damage, except as provided in subparagraph (2) below.

(2) In case the amount of damage determined under subparagraph (1) above exceeds the estimated cost of repairs determined under paragraph (a) of this section, the amount computed in accordance with paragraph (a) above will be taken as the amount of the damage regardless of the fact that repairs will not actually be made. (R.S. 161; 5 U.S.C. 22) [Par. 3, AR 35–7220, March 10, 1936, as amended by Cir. 84, W.D., March 23, 1942]

§ 37.4 *Demand upon defendant for settlement of claim.*

• • • • • •

(b) After completing the investigation, ascertaining the amount of the damage, and fixing the responsibility therefor, the surveying officer or board will, except in cases where the damage has been completely repaired by or on behalf of the person responsible for it, or when settlement in full has been made in compliance with the demand made under paragraph (a) above, cause a demand in writing for the settlement in full of any claim found to exist in favor of the Government to be presented by an officer or other representative to the defendant. This demand will contain a full description of the claim and the grounds thereof. (R.S. 161; 5 U.S.C. 22) [Par. 4b, AR 35–7220, March 10, 1936, as amended by Cir. 84, W.D., March 23, 1942]

TITLE 13—BUSINESS CREDIT

Chapter I—Reconstruction Finance Corporation

CHARTER OF U. S. COMMERCIAL COMPANY

MARCH 26, 1942.

FIRST. The name of the company shall be U. S. Commercial Company.

SECOND. The location of the principal office of the company shall be in the City of Washington, D. C.

THIRD. The objects, purposes and powers of the company shall be:

(a) To produce, acquire, carry, sell or otherwise deal in strategic and critical materials as defined by the President.

(b) To purchase, acquire, exchange, carry, sell or otherwise deal in and distribute such other commodities, products, raw materials, manufactured or semi-processed articles and other objects and articles of commerce as may be deemed necessary to expedite the national defense program.

(c) To do and perform all acts and things whatsoever which are necessary, suitable, convenient or proper in connection with or incidental to the foregoing objects, purposes, and powers, including, but without limitation, the power to borrow and hypothecate, to lend money, to adopt and use a corporate seal, to make contracts, to acquire, hold and dispose of real and personal property and to sue and be sued in any court of competent jurisdiction.

FOURTH. The company including its franchise, its capital, reserves, surplus, and income shall be exempt from all taxation (which shall, for all purposes, be deemed to include sales, use, storage, and purchase taxes) now, or hereafter imposed by the United States, or any territory, dependency or possession thereof, or by any State, County, municipality or local taxing authority, except that any real property (or buildings which are considered by the laws of any State to be personal property for taxation purposes) of the company shall be subject to State, territorial, county, municipal or local taxation to the same extent according to its value as other real property is taxed.

FIFTH. That the company shall be an instrumentality of the United States Government, shall be entitled to the free use of the United States mails, and shall in all other respects be possessed of the privileges and immunities that are conferred upon the Reconstruction Finance Corporation under the Reconstruction Finance Corporation Act, as amended.

SIXTH. That the total authorized capital stock of the company shall be Five Million Dollars ($5,000,000), of which One Million Dollars ($1,000,000) shall be paid in immediately, and the balance as called. Such stock shall be of one class, shall have a par value of $100 per share, and shall be issued for cash only. Reconstruction Finance Corporation shall subscribe for all of the capital stock of the company and such stock shall not be transferable.

SEVENTH. That the company shall have existence until dissolved by Reconstruction Finance Corporation or by Act of Congress.

EIGHTH. That the stockholder shall not be liable for the debts, contracts, or engagements of the company except to the extent of unpaid stock subscriptions.

NINTH. That the affairs and business of the company shall be managed by a board of directors who shall be appointed by Reconstruction Finance Corporation pursuant to the provisions of this Charter and the By-laws of the company.

TENTH. That this Charter and the By-laws may be amended at any time by Reconstruction Finance Corporation.

In witness whereof, Reconstruction Finance Corporation has caused this Charter to be signed by its executive officer, Chairman of its Board of Directors, attested by its Acting Secretary, and has caused its seal to be hereunto affixed this 26th day of March, 1942.

RECONSTRUCTION FINANCE CORPORATION,
By CHARLES B. HENDERSON,
Chairman.

[Docket No. 4063]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

IN THE MATTER OF WARNER'S RENOWNED REMEDIES COMPANY

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product:* § 3.6 (x) *Advertising falsely or misleadingly—Results.* In connection with offer, etc., of respondent's preparations designated "Warner's Renowned Prescription No. 6", Warner's Renowned Laxative Tablets", and "Warner's Renowned Alkaline Douche Tablets", either singly or in combination under the designations "Prescription No. 6 Complete", "Prescription No. 6 Method", or "Formula No. 6 Method", or with offer, etc., of any other similar products, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of its said preparations, which advertisements represent, directly or through inference, that respondent's preparations, either singly or in combination, (1) are cures or remedies for, or constitute competent or effective treatments for, functional sterility; (2) have any therapeutic value in the treatmen of any form of sterility; (3) possess any properties which have any value in promoting or aiding the functioning of the female reproductive organs; (4) possess any properties which will in any way affect the timing between ovulation and menstruation, or serve to synchronise such phenomena; or which advertisements, as aforesaid, represent, (5) that the use of said preparations, either singly or in combination, will be effective in relaxing the womb, cause the mouth of the womb to be sufficiently open to permit pregnancy, or prevent toxic accumulations; or (6) that the use of respondent's "Warner's Renowned Alkaline Douche Tablets" has any value in the treatment of sterility by neutralising the acid condition of the vagina, or that the use of said preparation will remove toxic accumulations or any barrier in the cervix, or in any way affect sterility or make fertilization and pregnancy possible; or which advertisements, as aforesaid, represent, that the use of said preparations, either singly or in combination, (7) will tone up the female organs, relieve sluggishness, or overcome sterility, or (8) can in any way affect the sensations of the breasts associated with menstruation or that said preparations have any therapeutic value in the treatment of itchy, sensitive, tender, or sore breasts associated with the menstrual period; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Warner's Renowned Remedies Company, Docket 4063, March 23, 1942]

At a regular sesion of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23d day of March, A. D., 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondent, testimony and other evidence taken before Arthur F. Thomas and Robert S. Hall, trial examiners of the Commission theretofore duly designated by it, in support of the allegations of said complaint and in opposition thereto, report of Trial Examiner Arthur F. Thomas upon the evidence and exceptions filed thereto, and briefs in support of the complaint and in opposition thereto; and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Warner's Renowned Remedies Company, a corporation, trading as Warner's Renowned Medicine Company or under any other trade name, and its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of its preparations designated "Warner's Renowned Prescription No. 6," "Warner's Renowned Laxative Tablets," and "Warner's Renowned Alkaline Douche Tablets," either singly or in combination under the designations "Prescription No. 6 Complete," "Prescription No. 6 Method," or "Formula No. 6 Method," or any other products of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other name or names, do forthwith cease and desist from:

1. Disseminating, or causing to be disseminated, any advertisement by means of the United States mails, or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference,

a. That respondent's preparations, either singly or in combination, are cures or remedies for, or constitute competent or effective treatments for, functional sterility;

b. That respondent's preparations, either singly or in combination, have any therapeutic value in the treatment of any form of sterility;

c. That respondent's preparations, either singly or in combination, possess any properties which have any value in promoting or aiding the functioning of the female reproductive organs;

d. That respondent's preparations, either singly or in combination, possess any properties which will in any way affect the timing between ovulation and menstruation, or serve to synchronize such phenomena;

e. That the use of said preparations, either singly or in combination, will be effective in relaxing the womb, cause the mouth of the womb to be sufficiently open to permit pregnancy, or prevent toxic accumulations;

f. That the use of respondent's preparation "Warner's Renowned Alkaline Douche Tablets" has any value in the treatment of sterility by neutralising the acid condition of the vagina, or that the use of said preparation will remove toxic accumulations or any barrier in the cervix, or in any way affect sterility or make fertilization and pregnancy possible.

g. That the use of said preparations, either singly or in combination, will tone up the female organs, relieve sluggishness, or overcome sterility;

h. That the use of said preparations, either singly or in combination, can in any way affect the sensations of the breasts associated with menstruation or that said preparations have any therapeutic value in the treatment of itchy, sentitive, tender, or sore breasts associated with the menstrual period;

2. Disseminating, or causing to be disseminated, any advertisement, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act of respondent's preparations, which advertisement contains any of the representations prohibited in paragraph 1 hereof and the respective subdivisions thereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., Sup. IV, sec. 45b) [Cease and desist order, Folding Furniture Works, Inc., etc., Docket 4611, March 23, 1942]

In the Matter of Folding Furniture Works, Inc., a Corporation, Also Doing Business as Coast to Coast Distributors and Manufacturers and National Mercantile Reporters

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23rd day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint, and states that it waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Folding Furniture Works, Inc., a corporation, also doing business as Coast to Coast Distributors and Manufacturers and as National Mercantile Reporters, and its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its children's cribs and bassinets, tables and other furniture in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing that it is the largest manufacturer of low-priced children's cribs in the world, or the largest exclusive manufacturer of children's cribs and beds in the world, or the largest crib manufacturers in the world, or the largest exclusive manufacturer of this line in the world, or that it has an annual production capacity of over 100,000 cribs, or any other quantity of cribs in excess of its actual annual production capacity;

2. Representing that its business is so large and the quantity of its production such as to require and justify warehouses and branch offices, or that it maintains warehouses and branch offices, at various points throughout the United States;

3. Representing that it maintains branch offices or warehouses in New York, New York; Buffalo, New York; St. Louis, Missouri; Dallas, Texas; or San Francisco, California; or at any other point, unless such warehouses and branch offices are actually maintained by respondent;

4. Representing that the business conducted under the name "Coast to Coast Distributors and Manufacturers" is separate and distinct from and not connected with the business conducted under respondent's corporate name, "Folding Furniture Works, Inc.", or dealing with customers under two or more names without disclosing to such customers that the business operated under the several names is one and the same;

5. Representing that "National Mercantile Reporters" is an independent, bona fide collection agency not connected with the business of respondent or that it has a business in Chicago, Illinois, which maintains branch offices at various other points, and prepares accurate reports on paying ability, unpaid accounts and trade experience, and makes collections of mercantile accounts for various manufacturers;

6. Engaging in the practice of "padding" orders received from customers by shipping goods to such customers in excess of the quantity ordered or attempting to collect the price of such unordered goods by threats of suit or other forms of intimidation; or of advising such customers to retain such unordered goods because the return thereof will mean unnecessary expense to such customers.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

In the Matter of Associated Motor Oils, Inc., a Corporation, Also Doing Business Under the Name of Associated Products Company

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 23rd day of March, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint and states that it waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its

conclusion that respondent has violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondent, Associated Motor Oils, Inc., its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of its motor oils and greases, or any products of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

(1) Representing, directly or by implication, that Associated Motor Oils, Inc., owns, controls, or operates a refinery wherein its said products are made or refined;

(2) The use of any design, insignia, or emblem in advertising or on containers, labels, or in any other manner, which simulates the emblem or insignia of the Pennsylvania Grade Crude Oil Association;

(3) The use of the word "Pennsylvania" or any abbreviation or colorable simulation thereof, or the use of an outline of the State of Pennsylvania, in advertising or on containers, labels, or in any other manner to designate or describe any oil product which is not composed wholly of oil derived from the Pennsylvania oil fields, provided, however, that in the case of a product composed in part of oil derived from the Pennsylvania oil fields and in part from oil derived from other oil fields, such word or abbreviation thereof may be used as descriptive of the proportion of the oil derived from the Pennsylvania oil fields if there are used in immediate connection therewith, in type of at least equal size and conspicuousness, words or figures truthfully disclosing or describing the percentage of oil in said product which is derived from the Pennsylvania oil fields;

(4) Representing, directly or by implication, that any oil product sold and distributed by the respondent which is not composed in its entirety of oils produced and having their origin in the Pennsylvania oil fields, is a pure Pennsylvania motor oil;

(5) Representing, directly or by implication, that the respondent's oils and greases have been tested and approved by a disinterested laboratory as to quality, value and efficacy in use, unless said oils and greases have been tested and approved by a bona fide, disinterested automotive oils testing laboratory;

(6) The use of any letters or numbers developed by the Society of Automotive Engineers which do not indicate the true, relative viscosity of respondent's products;

(7) Representing, directly or by implication, that its product now designated "Zerol Motor Oil," or any motor oil of similar character or quality, will flow more freely and lubricate more perfectly in lower temperatures than many other oils; or that its product now designated "Three Star Penn Motor Oil," or any motor oil of similar quality or character, will not thin out, break down, or sludge under service or that it will hold its body under high temperatures; or that its product now designated "Penn-Durance Motor Oil," or any motor oil of similar quality or character, will not break down or thin out, or that it is a super-refined oil; or that the use of its product now designated "Ultra Penn," or any motor oil of similar quality or character, as compared with other standard motor oils, will effect a saving up to 50%, or any substantial percentage, of motor oils, or result in a saving of 10%, or any substantial percentage, of the usual wear on motor parts; or that its product now designated "Graf-O-Lyne," or any motor oil of similar quality or character, will consistently double, or to any substantial extent increase, motor life and reduce the danger of scored cylinders more than any other lubricants on the market.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1321]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following acting[1] being deemed necessary in order to effectuate the purposes of the Act;

[1] So in original document.

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated: March 19, 1942.

[SEAL] DAN H. WHEELER, *Acting Director*.

[Docket No. A-1024 Part II]

PART 322—MINIMUM PRICE SCHEDULE, DISTRICT NO. 2

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING THE EXAMINER'S PROPOSED FINDINGS OF FACT AND PROPOSED CONCLUSIONS OF LAW AS MODIFIED IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 2 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 2

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on August 22, 1941, by District Board 2, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests the establishment of price classifications and effective minimum prices for the coals of certain mines in District 2.

Pursuant to an Order of the Director dated October 21, 1941, 6 F.R. 5768, temporary relief was granted in Docket No. A-1024 to certain mines listed in Supplement R-I and R-II attached thereto and made a part thereof. Relief was denied to several other mines and it was directed that they be given separate consideration. To that end, that portion of Docket No. A-1024 which related to them was severed from the matter and designated as Docket No. A-1024 Part II. By further Order of the Director dated October 21, 1941, 6 F.R. 5785, temporary relief was also granted to certain mines in Docket No. A-1024, Part II as set forth in Supplements R and T attached thereto and made a part thereof.

A petition of intervention was filed by Fred S. Geer, Inc., a code member in District 2, operating the Sunnyside Mine (Mine Index No. 2024) and Mt. Nebo Mine (Mine Index No. 2125), requesting that the rail shipping points for these mines be designated as East Palestine, Ohio, for shipment over the Pennsylvania Railroad, and Negley, Ohio, for shipment over the Pittsburgh, Lisbon and Western Railroad.

Pursuant to an Order of the Director and after due notice to all interested persons, a hearing in this matter was held on November 18, 1941, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. District Board 2, Fred S. Geer, Inc., and Rothey Bros., Inc., appeared.

On November 27, 1941, a motion was submitted by District Board 2, requesting leave to amend its original petition by eliminating therefrom the proposal for classifications and effective minimum prices for the Rothey Brothers' No. 1 Mine (Mine Index No. 2115) for the reason that the evidence presented at the hearing on behalf of this company was at variance with information previously submitted by said company to the District Board and upon which the proposals of the District Board were predicated. On the same day a petition was filed by Fred S. Geer, Inc., requesting leave to amend its petition of intervention to designate the Freeport and Mahoning Seam as Freeport No. 6 and Freeport No. 7 Seams, respectively; and requesting further that the Director assign price classifications separately for the coals produced in each seam in the Sunnyside and Mt. Nebo Mines.

Under date of January 22, 1942, Examiner McGown made his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendations ("Examiner's Report"), in which it was recommended, *inter alia*, that the seams of coal in the Sunnyside and Mt. Nebo Mines be designated as the Freeport No. 6 and Freeport No. 7 and that the loading points for these mines be established at East Palestine, Ohio, and Negley, Ohio, respectively. On February 12, 1942, exceptions were filed by Fred S. Geer, Inc. to the Examiner's Report, insofar as it concerned the loading points and price classifications for the coals of his Sunnyside and Mt. Nebo Mines produced for all shipments except truck. No exceptions were filed by it to that part of the Examiner's Report concerning the seam designations of these mines nor to the Examiner's recommended minimum prices for its Mt. Nebo coals for truck shipment.

1. *The Examiner's Report concerning the Sunnyside and Mt. Nebo Mines.* The Examiner found that prior to the filing of the District Board's original petition, Fred S. Geer, Inc. ("Geer") had submitted to the District Board three possible loading points for the Sunnyside and Mt. Nebo Mines producing coals in Pennsylvania, and that through a misunderstanding the District Board had selected Darlington, Pennsylvania, as the loading point to the exclusion of East Palestine, Ohio, and Negley, Ohio, although Geer had no loading facilities at Darlington. The Examiner noted that in addition to the expense of building loading facilities at Darlington, Geer would have the continued additional expense of a higher haulage cost for the approximate 8-mile haul from these mines to Darlington as compared with the 2-mile haul from the Sunnyside Mine to East Palestine and the 1¼-mile haul from Mt. Nebo Mine to Negley, at both of which destinations Geed had available loading facilities.

The Examiner found further that the use of East Palestine and Negley, Ohio, as loading points for Geer's Pennsylvania produced coals would not give Geer a competitive advantage over Ohio producers as the Geer coals competed only with those Ohio coals produced by code members who used the East Palestine and Negley loading facilities, shipped to the same market areas, and produced coals comparable in quality with the Geer coals. The Examiner found that, in fact, these Ohio producers would have an advantage over Geer of lower freight rates for coals shipped into Ohio market areas, but that Fred S. Geer, President of Fred S. Geer, Inc., had testified that he would not object to the presently effective delivered prices for the Sunnyside and Mt. Nebo coals if the loading points were changed.

2. *Geer's exception to the Examiner's Report.* Geer claimed in its exceptions that there was no foundation in the record for the statement by the Examiner in his Report to the effect that Fred S. Geer testified that he would not object to the presently effectively[1] delivered prices for the Sunnyside and Mt. Nebo coals if the loading points were changed. In its brief in support of its exceptions, Geer specifically referred to testimony by the witness Fred S. Geer to the effect that he would acquiesce only in prices for coals from the Sunnyside and Mt. Nebo Mines which would result in the same delivered prices to Market Areas 11 and 13 as those applicable to comparable coals produced by neighboring mines just across the state line in Ohio which were also loaded at Negley and at East Palestine and entered into competition therewith. On Examination of the record, I find that as Geer contended, the witness Fred S. Geer had stated that effective minimum prices should be established for the Geer coals which would result in the same delivered prices therefor in Market Areas 11 and 13 as competing Ohio coals of the same quality and loading at the same points. This exception goes, however, only to the prayer for relief and is not to be considered as bearing on the necessity therefor.

Geer also excepted to the minimum prices recommended by the Examiner for its coals produced for all shipments except truck on the ground that these recommended prices if adopted would result in delivered prices for the Sunnyside and Mt. Nebo coals in excess of the delivered prices in the same consuming markets for coals produced by neighboring mines in District 4 and thereby deprive Geer of its existing fair competitive opportunities. Geer stated in its brief that the record indicated that the coals produced from the Sunnyside and Mt. Nebo mines on the Pennsylvania side of the state line were comparable with coals produced not only by certain mines of Fred S. Geer, Inc., just across the line in Ohio but also with the coals produced there by a number of competing mines. Geer also stated that the coals produced at these neighboring mines, whether located within Ohio or Pennsylvania, were loaded at Negley or East Palestine, Ohio, and were sold principally in Cleveland (Market Area 13) and Youngstown (Market Area 11) and at the Great Lakes ports, and that the mere fact that some mines were a few yards to the east of the state line and other mines a few yards to the west thereof did not justify any difference in delivered prices as between the coals they produce. Hence, Geer contended, effective minimum prices which resulted in discrimination between the prices of the coals from these respective mines when delivered in their principal consuming markets were inconsistent with the requirements of the Act. Geer contended further that to fix effective minimum prices for the Sunnyside and Mt. Nebo Mines which would result in delivered prices in Market Areas 11 and 13 equal to those for coals from adjacent Ohio mines would not materially affect other mines in District 2, with the exception of one mine, which was the only remaining mine on the Pennsylvania side immediately adjacent to the Sunnyside and Mt. Nebo Mines, and that that mine would be exhausted by the end of the winter.

However, the record fails to disclose that there was a past movement of coals from the producing district in which its Sunnyside and Mt. Nebo Mines are located to the destinations in Market Areas 11 and 13 for which it seeks relief. The price classifications temporarily established for the coals of these two mines and recommended by the Examiner seek to put them on a fair competitive basis with other District 2 coals. If intervenor could show that the past movement of other District 2 coals (comparable to Sunnyside and Mt. Nebo coals) was such that the existing fair competitive opportunities could not be preserved unless minimum f. o. b. mine prices be established for these coals so as to allow them to deliver in Market Areas 11 and 13 at a price parity with District 4 coals shipping thereto, then its request for relief—a loading point in District 4—might be granted. But such is not the case.

3. *Other mines.* The Examiner in his Report also found that price classifications and loading points proposed by District Board 2 for certain other mines were proper; that its petition in so far as it concerns the No. 1 Mine of Rothey Brothers, Inc. (Mine Index No. 2115) should be dismissed; and that the loading point for the John Minnich Mine (Mine Index No. 901) should be Queens Junction on the Western Allegheny Railroad. No exceptions or supporting briefs have been filed in these other matters.

After a review of the record and upon the basis of the foregoing, I conclude that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified herein, are proper and should be adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, as modified herein, be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That § 322.7 (*Alphabetical list of code members*), § 322.9 (*Special prices*—(c) *Railroad fuel*) and § 322.23 (*General prices*) in the Schedules of Effective Minimum Prices for District No. 2 for All Shipments Except Truck and for Truck Shipments be and they hereby are amended to include the seam designations, shipping points, freight origin group numbers, price classifications, and effective minimum prices set forth for the mines listed in Supplements R-I, R-II, and T attached hereto and made a part hereof.

It is further ordered, That the prayers for relief contained in the petitions filed herein be and they hereby are granted to the extent set forth on the attached Supplements R-I, R-II, and T and in all other respects denied.

Dated: March 18, 1942.

[Docket No. A-1147 Part II]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING PERMANENT RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 256, 1301, 1016, AND 1436, AND FOR THE ESTABLISHMENT OF ADDITIONAL SHIPPING POINTS FOR THE COALS OF MINE INDEX NOS. 877, 938 AND 2739, IN DISTRICT NO. 4, FOR ALL SHIPMENTS EXCEPT TRUCK

A petition having been filed with the Bituminous Coal Division on November 3, 1941, by District Board 4, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment of price classifications and minimum prices for certain coals in District 4, for all shipments except truck;

A hearing having been held in this matter pursuant to an order of the Acting Director, on December 2, 1941, before a duly designated examiner of the Bituminous Coal Division at a hearing room thereof in Washington, D. C., at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

A preparation and filing of the report having been waived and the matter having been submitted to the undersigned;

The undersigned having made findings of Fact and Conclusions of Law and having rendered an Opinion in this matter which are filed herewith;

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 324.7 (*Alphabetical list of code numbers*) is amended by adding thereto Supplement R–I, § 324.8 (*Numerical list of mines*) is amended by adding thereto Supplement R–II, § 324.2 (*Seasonal discounts*) is amended by adding thereto Supplement R–III, § 324.9 (*Recapitulation of price classifications*) is amended by adding thereto Supplement R–IV, and § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) is amended by adding thereto Supplement R–V, which supplements are hereinafter set forth and hereby made a part hereof, and the Shipping points designated in said "Supplement R–I" shall be in lieu of all shipping points previously designated for the mine as specified therein.

It is further ordered, That the prayers contained in the original petition are granted to the extent set forth above and in all other respects are denied.

Dated: March 18, 1942.

PART 331—MINIMUM PRICE SCHEDULE, DISTRICT NO. 11

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 11, FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 11, FOR TRUCK SHIPMENTS

An original petition as amended, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 11, for truck shipments; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 331.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

Dated, March 19, 1942.

PART 342—MINIMUM PRICE SCHEDULE, DISTRICT NO. 22

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 22 FOR REVISION OF CERTAIN PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE MILLS MINE (MINE INDEX NO. 202) IN DISTRICT NO. 22 AND FOR THE ESTABLISHMENT OF A MINIMUM PRICE OF 95 CENTS PER TON FOR ¾" SLACK COAL OF THE A. C. M. #4 MINE (MINE INDEX NO. 1) IN THAT DISTRICT FOR SALE IN CARLOAD LOTS TO THE GREAT NORTHERN RAILWAY COMPANY

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 22 pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. In its petition the District Board proposed a change in the classification of the Mills Mine, Mine Index No. 202, from Subdistrict 1 to Subdistrict 9 in District No. 22, together with a revision of the effective classifications and minimum prices for truck shipments for the coals of that mine; and in addition the Board requested the revision of the minimum price for ¾" slack coal produced by the Gerber Coal Company at its A. C. M. #4 Mine, Mine Index No. 1, when sold in carload lots to the Great Northern Railway Company for railway use.

Pursuant to appropriate orders of the Division, and after notice to all interested parties, a hearing in this matter was held before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room of the Division at Cheyenne, Wyoming. All interested parties were afforded an opportunity to be pres-

ent, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board No. 22 appeared. While the Consumers' Counsel intervened, it was not represented at the hearing; although later, on March 2, 1942, it filed a brief in support of its statement that any revision to grant the relief requested should be applicable to all code members in the District. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of District Board No. 22 herein requested a change in the subdistrict designation of the Mills Mine, Mine Index No. 202, operated by Arthur Mills, a code member in District No. 22, from Subdistrict No. 1 to Subdistrict No. 9, and the establishment of minimum prices and classification for that mine as are established for mines in Subdistrict No. 9. The second request of the District Board was for the establishment of a minimum price of 95 cents per ton f. o. b. the mine for ¾" slack coal produced by the Gerber Coal Company, operating the A. C. M. Mine #4 (Mine Index No. 1) in Subdistrict No. 7 of District No. 22, when sold in carload lots to the Great Northern Railway for railway use. It appears that this size coal, ¾" slack, is at present included in Size Group No. 11, for which the established minimum price is $1.00 per ton f. o. b. the mine, for rail shipments.

The original petition of District Board No. 22 was amended on December 23, 1941. By its petition dated December 23, 1941, the District Board amended that portion of its original petition requesting the establishment of a special price for ¾" slack coal of the Gerber Coal Company when intended for railway use. The amendment requested that immediate temporary relief be granted. The Division on January 10, 1942, 7 F.R. 230, denied the prayer of the petitioner for immediate relief.

With regard to the first part of the petition, the testimony of D. F. Buckingham, witness for the District Board, was to the effect that the Mills Mine operates in the McCleary Seam and is at present the only mine operating in that seam. He further stated that in his judgement the mine was improperly classified in the proceedings held in General Docket No. 15 in that the McCleary Seam coal is inferior in quality to coals from other seams in Subdistrict No. 1. He expressed the belief that the Mills Mine should be grouped with the Mammoth Seam mines in Subdistrict No. 9. It appears from the record that the transfer of this mine from Subdistrict No. 1 to Subdistrict No. 9 would result in more properly reflecting the relative value of its coals and would properly coordinate it with other coals produced in District No. 22.

Regarding the second part of this petition the claim of the representative of District Board No. 22, that the requested relief is desired in order to provide for surplus or emergency coal for which there is no other market and which the Great Northern Railway Company has refused to purchase at the minimum price now established for that size, is not entirely borne out by the record. While it appears that at the present time the Gerber Coal Company is producing ¾" slack as a result of its production of other sizes, it also appears that by a change in the screening equipment of the Gerber Coal Company, the size of the coal resulting from the production of larger sizes would be ½" slack, and it further appears that the Railway Company is perfectly willing to buy ½" slack at the effective minimum price for such coal of 80 cents per ton.

This code member is the only code member in District 22, according to the information of the District Board, that has any direct rail connection with the Great Northern Railway and, therefore, no other producer would be adversely affected by the relief sought. However, the mere fact that no other producers in the subdistrict are at present so situated as to be affected, does not justify the granting of a preferential price to any one consumer. It appears that the Great Northern Railway Company is not the only market for this ¾" slack, although it was testified that that market is declining because of the inroads of natural gas and oil. Moreover, to grant this relief is to grant a preferential price to one consumer. Consumer inequality is to be avoided wherever possible.[1]

Upon the basis of the uncontroverted evidence, therefore, I find that the requested change in subdistrict designation of the Mills Mine, Mine Index No. 202, from Subdistrict No. 1 to Subdistrict No. 9 and the establishment of classifications and minimum prices for the mine in Subdistrict No. 9 are proper and should be granted, that such subdistrict designation, classifications and minimum prices conform in all respects as those heretofore established for comparable coals in District No. 22, and will preserve the fair competitive opportunities for the producers of such coal.

However, based on the record, I find that the request of District Board No. 22 for the establishment of a minimum price of 95 cents per ton for ¾" slack coal produced by the Gerber Coal Company for sale only in railroad carload lots to the Great Northern Railway Company for railway use would constitute the establishment of a preferential price for a particular consumer and is, therefore, improper.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof § 342.4 (*Code member price index*) is amended by adding thereto Supplement R, and § 342.21 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That the petition of District Board No. 22 for the establishment of a minimum price of 95 cents for ¾" x 0 slack coal produced by the Gerber Coal Company for railway use be and the same hereby is denied.

Dated: March 21, 1942.

Acting Director.

TITLE 32—NATIONAL DEFENSE

Chapter VIII—Expert Control

Subchapter B—Proclaimed List of Certain Blocked Nationals

SUPPLEMENT 2, MARCH 27, 1942 TO REVISION I OF FEBRUARY 7, 1942

By virtue of the authority vested in the Secretary of State, acting in conunction with the Secretary of the Treasury, the Attorney General, the Secretary of Commerce, the Board of Economic Warfare, and the Coordinator of Inter-American Affairs, by Proclamation 2497 of the President of July 17, 1941 (6 F.R. 3555), the following Supplement 2 containing certain additions to, deletions from, and amendments to The Proclaimed List of Certain Blocked Nationals, Revision I of February 7, 1942,[1] is hereby promulgated.

By direction of the President.

SUMNER WELLES,
Acting Secretary of State.
D. W. BELL,
Acting Secretary of the Treasury.
FRANCIS BIDDLE,
Attorney General.
JESSE H. JONES,
Secretary of Commerce.
MILO PERKINS,
Executive Director, Board of Economic Warfare.
NELSON A. ROCKEFELLER,
Coordinator of Inter-American Affairs.

MARCH 27, 1942.

GENERAL NOTES: (1) The Proclaimed List is divided into two parts: part I relates to listings in the American republics; part II relates to listings outside the American republics.

(2) In part I titles are listed in their letter-address form, word for word as written in that form, with the following exceptions:

If the title includes a full personal name, that is, a given name or initial and the surname, the title is listed under the *surname.*

Personal name prefixes such as de, la, von, etc., are considered as part of the surname and are the basis for listing.

The listing is made under the next word of the title when the initial word or phrase, or abbreviation thereof, is one of the following Spanish forms or similar equivalent forms in other languages:

Compañía; Cía.; Comp.
Compañía Anónima; C. A.; Comp. Anón.

Chapter IX—War Production Board

Subchapter B—Division of Industry Operations

PART 933—COPPER

INTERPRETATION NO. 2 OF CONSERVATION ORDER M-9-c[1] AS AMENDED, CURTAILING THE USE OF COPPER IN CERTAIN ITEMS, TO THE PRINTING, PUBLISHING AND RELATED INDUSTRIES

Introduction. Copper Conservation Order M-9-c as amended December 10, 1941, restricts the use of Copper and Copper Base Alloy for decorative purposes under paragraph (a). This paragraph prohibits the use of Copper or Copper Base Alloy for the purposes referred to therein after December 31, 1941, in certain instances and in other instances after March 31, 1942. If this paragraph permits the use of Copper or Copper Base Alloy at all after December 31, 1941, it restricts its use during the period from October 15, 1941, to March 31, 1942 to either the amount of Copper or Copper Base Alloy used during the last quarter of 1940 or to a fourth of the amount used in the year 1940, with a proviso giving a different base period if the particular manufacturer was not in business in 1940.

Paragraph (c) of the Order governs the use of Copper and Copper Base Alloy in the printing, publishing and related industries where such use is not decorative. This paragraph restricts the use of Copper or Copper Base Alloy in any quarter to an amount not in excess of 70% of the use in the last quarter of 1940, 17½% of the use in the year 1940 or 50% of the use in the third quarter of 1941.

Some confusion exists today on the question of what constitutes the use of Copper or Copper Base Alloy in these industries and as to whether particular uses are deemed decorative and as a result covered by paragraph (a).

Interpretation. All use of bronze powder, bronze paste, bronze leaf and bronze ink in the printing, publishing and related trades is deemed decorative and must stop on March 31, 1942, under the terms of Copper Conservation Order M-9-c in its present form. In addition, since December 31, 1941, no printer, publisher or lithographer has been entitled to use any bronze powder, bronze paste, bronze leaf or bronze ink which he did not have in his inventory on or before December 1, 1941, and even the material in his inventory on that date could only be used at the curtailed rate provided in paragraphs (a) (4) and (a) (1) of the Order.

Paragraph (c) of the Order restricts the aggregate use of Copper or Copper Base Alloy by weight employed in the production of plates by photo and other engravers; printing plate shells by electrotypers; machine and foundry type matrices; brass bookbinders' and embossing dies; wallpaper copper and brass rolls; block-cutting brass; to a percentage of the weight of Copper or Copper Base Alloy used during a selective base period. PART 933—COPPER

SUPPLEMENTARY CONSERVATION ORDER M-9-C-3

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Copper for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 933.8 *Supplementary Conservation Order No. M-9-c-3*—(a) *Curtailment of certain uses of copper in printing.* During the period between March 31, 1942 and May 31, 1942, no Person may use in relief, planographic or intaglio printing or in stamping, dusting or similar processes more than 16⅔% of the amount of Bronze Powder, Bronze Paste, Bronze Ink or Bronze Leaf used by him in printing, paper coating and similar processes during the entire year of 1941; and no Person may use in relief, planographic or intaglio printing or in stamping, dusting or similar processes at any time any Bronze Powder, Bronze Paste, Bronze Ink or Bronze Leaf delivered to him after the effective date hereof.

(b) *Prohibition of certain uses of copper in printing after May 31, 1942.* After May 31, 1942, no Person may use in relief, planographic or intaglio printing or in stamping, dusting or similar processes any Bronze Powder, Bronze Paste, Bronze Ink and Bronze Leaf.

(c) *Reports.* Each Person who uses in relief, planographic or intaglio printing or in stamping, dusting or similar processes any Bronze Powder, Bronze Paste, Bronze Ink or Bronze Leaf after the effective date hereof, shall file with the War Production Board on or before April 20, 1942 a letter in quadruplicate describing his inventory of Bronze Powder, Bronze Paste and Bronze Ink in pounds and his inventory of Bronze Leaf by thousands of sheets of a stated size, as of the close of business on March 31, 1942, and further describing the amount of his use of Bronze Powder, Bronze Paste and Bronze Ink in pounds and his use of Bronze Leaf by thousands of sheets of a stated size, in relief, planographic or intaglio printing or in stamping, dusting or similar processes during the year 1941.

(d) *Communications to War Production Board.* All reports required to be filed hereunder, and all appeals and communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref.: M-9-c-3.

(e) *Violations.* Any Person who wilfully violates any provision of this Order, or who by an act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Appeal.* Any Person affected by this Order who considers that compliance therewith would impair war work, may appeal by letter to the War Production Board, Washington, D. C., Reference M-9-c-3, setting forth the pertinent facts and the reasons why he deems that obedience to the terms of this Order will interfere with war work.

(g) *Effect on Order M-9-c.* After the effective date of this Order, the Order shall govern the use of Bronze Powder, Bronze Paste, Bronze Ink and Bronze Leaf in relief, planographic or intaglio printing or in stamping, dusting or similar processes to the exclusion of Conservation Order M-9-c.[1]

(h) *Applicability of Order.* The prohibitions and restrictions contained in this Order shall apply to the use of Bronze Powder, Bronze Paste, Bronze Leaf and Bronze Ink in relief, planographic or intaglio printing or in stamping, dusting or similar processes, whether or not such use is pursuant to a contract made prior or subsequent to the effective date hereof, or whether or not such use is pursuant to a contract supported by a preference rating.

(i) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 28th day of March 1942.

SUPPLEMENTARY ORDER NO. M-11-j

§ 937.11 *Supplementary Order M-11-j.* (a) The Director of Industry Operations hereby determines that the amount of Metallic Zinc, Zinc Oxide and Zinc Dust to be set aside by Producers under paragraph (c) of Section 937.1 as extended, for the month of April, 1942, and for each month thereafter until otherwise determined by him, shall be as follows:

(1) Metallic Zinc—An amount equal to 60% of Producer's January 1942 production of High Grade and/or Special High Grade Zinc, and 40% of Producer's January 1942 production of all other grades of Zinc.

(2) Zinc Oxide—None.

(3) Zinc Dust—None.

(b) This Order shall take effect on the 1st day of April, 1942. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Variations from the above maximum volumes shall be permitted to the extent of minus 3 per cent.

Sizes not specifically set forth shall have maximum volumes proportionate to the sizes listed.

In the event that the maximum volume herein permitted for a tube of a given type and size manufactured by any person on the effective date of this order is less than the maximum indicated above, such person shall make no change in the maximum volume of such tube as then manufactured by him without the prior approval of the Director of Industry Operations.

The foregoing restrictions on material volume of tire tubes do not apply to tire tubes for use with mileage tires.

PART 947—PIG IRON

AMENDMENT NO. 2 AND EXTENSION NO. 2 TO GENERAL PREFERENCE ORDER M-17[1]

General Preference Order M-17 (§ 947.1) is hereby amended to read as follows:

(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time.

[1] 6 F. R. 3920, 5254, 5994.

except to the extent that any provision thereof may be inconsistent herewith, in which case the provisions of this Order shall govern.

(b) *Additional definitions.* For the purposes of this Order (1) "Pig Iron" means iron produced by smelting iron ore in a blast furnace and having a content of silicon of less than 5 percent.

(2) "Producer" means any person producing pig iron.

(c) *Deliveries by other than Producers.* Except with specific permission of the Director of Industry Operations, no person other than a Producer shall make delivery of pig iron to any person, and no person shall accept delivery thereof except from a Producer.

(d) *Customers' orders and reports.* (1) Each person desiring to obtain pig iron from a Producer during any month shall file with such Producer on or before the fifth day of the preceding month an order on form PD–69.

(2) Each purchaser of pig iron shall file with the War Production Board on or before the fifth day of each month a report on form PD–70 showing inventory and consumption of pig iron.

(e) *Producers' reports.* Each Producer shall file with the War Production Board on or before the twelfth day of each month schedules on forms PD–71 and PD–71d showing all pig iron ordered by customers on form PD–69 for shipment by the Producer during the following month and proposed shipments by Producer. The Director of Industry Operations may make such changes in the schedule as to him shall seem appropriate and may from time to time issue supplementary instructions with regard to shipments of pig iron.

(f) *Restrictions on deliveries.* (1) No Producer shall deliver or use pig iron, and no person shall accept delivery thereof from a Producer unless such pig iron has been reported on form PD–69 filed by such person or has been specifically allocated to such person by the Director of Industry Operations.

(2) No Producer shall deliver or use pig iron at any time except in accordance with such Producer's schedule on form PD–71, as modified by the Director of Industry Operations, or in accordance with such supplementary authorizations or directions as may from time to time be issued by the Director of Industry Operations.

(g) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked.

This amendment shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942; 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 28th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 989—DOMESTIC MECHANICAL REFRIGERATORS

AMENDMENT NO. 2 TO SUPPLEMENTARY GENERAL LIMITATION ORDER L–5–C

Section 989.4 (*Supplementary General Limitation Order L–5–C*[1]) is hereby amended in the following particulars:

Paragraph (a) is hereby amended to read as follows:

(a) *Restriction of production of domestic mechanical refrigerators after April 30, 1942.* Effective May 1, 1942, no Manufacturer shall produce any Domestic Mechanical Refrigerators, except that any Manufacturer may produce Kerosene Refrigerators thereafter to the extent expressly permitted by the Director of Industry Operations. Such permission will only be granted to a Manufacturer who is able to comply with the minimum specifications for such refrigerators established by the United States Army and by other governmental agencies.

Paragraph (e) is hereby amended by adding a new subparagraph (2) as follows:

(3) "Kerosene Refrigerator" means any New Domestic Mechanical Refrigerator of the absorption type which is operated by kerosene.

This amendment shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a) Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 28th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1010—SUSPENSION ORDERS

SUSPENSION ORDER NO. S–29

Penn Metal Co., Inc.

Penn Metal Company, Inc., Los Angeles, California, is a steel warehouse with branches at Los Angeles, California and San Francisco, California. It is engaged in the receipt of physical deliveries of steel from a producer or producers for sale or resale in the form received, and is subject to the provisions of Supplementary Order M–21–b. During the calendar quarter beginning October 1, 1941, and ending December 31, 1941, the Company accepted from its producer or producers deliveries of 92.7 tons of Schedule A products which was 49.5 tons in excess of the quota established for the Company by the Director of Priorities.

Acceptance by the Company of deliveries in excess of its quota was made in wilful disregard of the provisions of Supplementary Order M–21–b and constituted a violation thereof. In view of the foregoing facts,

It is hereby ordered:

§ 1010.29 *Suspension Order S–29.* (a) During the calendar quarter beginning April 1, 1942, and ending June 30, 1942, no quota of Schedule A steel products shall be established for Penn Metal Company, Inc., Los Angeles, California, or for any of its branches, under the provisions of Supplementary Order M–21–b, as amended. Penn Metal Company, Inc., shall not accept deliveries of any Schedule A steel products during the period this Order shall be in effect unless specifically authorized by the Director of Industry Operations.

(b) During the calendar quarter beginning July 1, 1942, and ending September 30, 1942, the quota of Schedule A steel products which Penn Metal Company, Inc., Los Angeles, California, would be entitled to receive in all of its branches, under the provisions of Supplementary Order M–21–b, shall be reduced by 6.3 tons. Such reduction shall be applied against individual quotas as Penn Metal Company, Inc. shall elect. During the aforesaid calendar quarter, Penn Metal Company, Inc. shall accept deliveries of not more than 36.9 tons of Schedule A steel products unless specifically authorized by the Director of Industry Operations to accept greater deliveries.

(c) This Order shall remain in effect from the first day of April, 1942, to the 30th day of September 1942. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R 561, EO. 9024, Jan. 16, 1942, 7 F.R. 329; EO 9040, Jan 24, 1942, 7 F.R. 527; sec. 2 (a). Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 27th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1125—CASKETS, SHIPPING CASES, AND BURIAL VAULTS—LIMITATION ORDER L–64

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel, and other metals for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1125.1 *General Limitation Order L–64*—(a) *Definitions.* For the purposes of this Order:

(1) "Casket" means a container in which it is intended to place a human corpse for interment.

(2) "Shipping case" means a container in which it is intended to place a casket containing a human corpse for transportation.

(3) "Burial vault" means a container in which it is intended to place a casket containing a human corpse for interment.

(4) "Manufacturer" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not, engaged in the production of caskets, shipping cases or burial vaults.

(5) "Production" means the fabrication or processing of raw material or of semi-fabricated material or the assembly of finished parts into caskets, shipping cases or burial vaults.

(6) "Iron and steel used" means the weight of iron and steel in the aggregate contained in the finished caskets, shipping cases or burial vaults, other than such iron and steel not exceeding 10 pounds per casket, shipping case or burial vault as is essentially required in casket hardware, shell hardware or fastenings.

(7) "Restricted period" means the period from the effective date of this Order to March 31, 1942.

(8) "Average daily use" means the total amount of iron and steel in the aggregate used by a manufacturer during the calendar year 1940, divided by 365.

(b) *General restrictions.* (1) During the restricted period no manufacturer shall use in the production of caskets, shipping cases, and burial vaults a greater total of iron and steel in the aggregate than 75% of the average daily use multiplied by the number of days (including Sundays and Holidays) contained in the restricted period.

(2) During the month of April, 1942, no manufacturer shall use in the production of caskets, shipping cases, and burial vaults more than 75% of the average monthly amount of iron and steel in the aggregate used by said manufacturer in such production during the calendar year 1940.

(3) During the month of May, 1942, no manufacturer shall use in the production of caskets, shipping cases, and burial vaults more than 50% of the average monthly amount of iron and steel in the aggregate used by said manufacturer in such production during the calendar year 1940.

(4) During the month of June, 1942, no manufacturer shall use in the production of caskets, shipping cases, and burial vaults more than 25% of the average monthly amount of iron and steel in the aggregate used by said mnufacturer in such production during the calendar year 1940.

(5) No manufacturer shall, after June 30, 1942, process, fabricate, work on, or assemble any iron and steel for use in the production of caskets, shipping cases and burial vaults.

(6) After June 30, 1942, no manufacturer shall sell, lease, trade, lend, deliver, ship, or transfer any iron and steel to any person whatsoever, except pursuant to specific authorization of the Director of Industry Operations.

(7) The restrictions contained in subparagraphs (b) (1), (b) (2), (b) (3), (b) (4), (b) (5) and (b) (6) shall not apply to the use of iron and steel

(i) in casket hardware, shell hardware, or fastenings, provided the total amount of iron and steel in the aggregate so used does not exceed ten pounds per casket, shipping case, or burial vault;

(ii) in the production of metal liners for wooden caskets or of metal shipping cases provided that such metal liners for wooden caskets and metal shipping cases are manufactured for the purpose of providing hermetically sealed containers necessary for compliance with State laws regarding the transportation of human corpses, and that for each article sold for this purpose the manufacturer obtains from the purchaser a written affidavit stating that the article is to be used for the purpose of fulfilling the requirements of a State law and setting forth the details of such law.

(6) From the effective date of this Order, no manufacturer shall use any metal other than iron, steel, gold or silver in the production of caskets, shipping cases, or burial vaults. Any manufacturer who possesses in his inventory any metal other than iron, steel, gold or silver shall not sell, lease, trade, lend, deliver, ship, or transfer any such metal, except pursuant to the specific authorization of the Director of Industry Operations.

(c) *Substitution of iron or steel for other materials.* Any manufacturer who during the calendar year 1940 used metals other than iron or steel in the production of caskets, shipping cases, or burial vaults may for the purpose of computing his allowable production add the weight of such other metals used during the calendar year 1940 to the weight of iron or steel used during the calendar year 1940.

(d) *Avoidance of excessive inventories.* No manufacturer of caskets, shipping cases and burial vaults shall accumulate for use in the manufacture of such caskets, shipping cases and burial vaults inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of caskets, shipping cases and burial vaults at the rates permitted by this Order.

(e) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales.

(f) *Audit and inspection.* All records required to be kept by this Order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Reports.* Each manufacturer to whom this Order applies, shall file with the Electrical Appliances and Consumers' Durable Goods Branch of the Division of Industry Operations of the War Production Board such reports and questionnaires as said officer shall from time to time specify.

(h) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving futher deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(i) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the "War Production Board, Washington, D. C., Ref; L–64" setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C., Ref: L–64".

(k) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.).

(l) *Effective date.* This Order shall take effect immediately. Issued this 28th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1137—CLOSURES AND ASSOCIATED ITEMS

GENERAL LIMITATION ORDER L–68

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of closures and associated items for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1137.1 *General Limitation Order L–68*—(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) *Restrictions on the manufacture and use of slide fasteners.* (1) No person shall, on or after April 1, 1942:

(i) Use in any calendar quarter any steel, zinc, or zinc base alloy in the manufacture or production of slide fasteners or their component parts in excess of 50% of the average quarterly poundage of metals used in the aggregate by such person for similar purposes during the year ending June 30, 1941;

(ii) Use any copper or copper base alloy in the manufacture or production of any slide fasteners or their component parts, except as provided in paragraph (b) (1) (iv);

(iii) Produce or manufacture any slide fastener which exceeds ten inches in length, except such slide fasteners, not exceeding twelve inches in length, as are produced for use as fly fasteners on trousers; also except such slide fasteners of the separating type, not exceeding twenty inches in length, which are for use on work jackets; and also except as provided in paragraph (b) (1) (iv);

(iv) Produce, manufacture, or deliver to any other person any slide fasteners or their component parts manufactured from steel, zinc, zinc base alloy, copper, or copper base alloy for use on any of the garments or articles listed on Appendix A, which is attached hereto and made a part hereof, except to the extent that such slide fasteners or their component parts in such person's possession on the date of this Order are not adaptable for any other use, or are for pocket applications on garments including those listed on Appendix A: *Provided, however,* That no person shall exceed the restrictions upon the use of copper or copper base alloy in the Conservation Orders of the M–9–c series applicable to such person.

(v) Produce or manufacture any bead pulls, chain pulls, or similar items from steel, zinc, zinc base alloy, copper, or copper base alloy, except to the extent that such are in process on the date of this Order;

(vi) Use in any calendar quarter in the manufacture or production of slide fasteners or their component parts, for sale on notion cards, or otherwise, for home use, any steel, zinc, or zinc base alloy in excess of 50% of the average quarterly poundage of metals used in the aggregate by such person for similar purposes during the year ending June 30, 1941.

(2) No person shall, on or after June 1, 1942, use any slide fasteners or their component parts in the manufacture or production of the garments and articles listed on Appendix A, with the exception that this prohibition shall not apply to the use of slide fasteners for pocket applications on garments, including those listed on Appendix A.

(c) *Restrictions on the manufacture of hooks and eyes and brassiere hooks.* No person shall, on or after April 1, 1942:

(1) Use any copper or copper base alloy in the manufacture or production of hooks and eyes or brassiere hooks;

(2) Use in any calendar quarter:

(i) Any steel, zinc, or zinc base alloy in the manufacture or production of hooks and eyes and brassiere hooks other than those specified in subparagraph (c) (2) (ii) in excess of 100% of the average quarterly poundage of metals used in the aggregate by such person for all such purposes during the year ending June 30, 1941;

(ii) Any steel, zinc, or zinc base alloy in the manufacture or production of hooks and eyes and brassiere hooks for sale on notion cards, or otherwise, for home use, in excess of 50% of the average quarterly poundage of metals used in the aggregate by such person for all such purposes during the year ending June 30, 1941.

(d) *Restrictions on the manufacture of sew-on, machine-attached, or riveted snap fasteners or grippers.* No person shall, on or after April 1, 1942:

(1) Use any copper or copper base alloy in the manufacture or production of sew-on, machine-attached, or riveted snap fasteners or grippers;

(2) Use in any calendar quarter any steel, zinc or zinc base alloy in the manufacture or production of sew-on, machine-attached, or riveted snap fasteners or grippers other than those specified in subparagraph (d) (3) hereof in excess of 50% of the average quarterly poundage of metals used in the aggregate by such persons for all such purposes during the year ending June 30, 1941, except in the manufacture or production of sew-on, machine-attached, or riveted snap fasteners or grippers for use on work clothing or women's and children's wear, in which case the aggregate amount of steel, zinc, and zinc base alloy used shall not exceed 100% of the average quarterly poundage of metals used in the aggregate by such person for all such purposes during the year ending June 30, 1941;

(3) Use in any calendar quarter any steel, zinc, or zinc base alloy in the manufacture or production of sew-on, machine-attached, or riveted snap fasteners or grippers, for sale on notion cards, or otherwise, for home use, in excess of 50% of the average quarterly poundage of metals used in the aggregate by such person for similar purposes during the year ending June 30, 1941.

(e) *Restrictions on the manufacture of metal buttons, rivets and burrs, and insignia.* No person shall, on or after April 1, 1942, use any copper or copper base alloy in the manufacture or production of metal buttons, metal rivets and burrs, or insignia for apparel, except in the manufacture of such metal buttons, metal rivets and burrs, or insignia as are used on uniforms for the following:

(1) U. S. Army Officers.
(2) U. S. Navy Officers and Chief Petty Officers.
(3) U. S. Marine Corps Officers.
(4) U. C. Coast Guard Officers and Chief Petty Officers.
(5) U. S. Coast and Geodetic Officers.
(6) U. S. Government Military and Naval Academy and Training School Students.
(7) Maritime Commission Employees

and with the further exception that metal buttons for uniforms of, and identification badges for, public-carrier employees, police and fire department employees, and military school students may be plated with copper or copper base alloy.

(f) *Restriction on the use of copper and copper base alloy in the manufacture of certain items.* No person shall, after April 1, 1942, use any copper or copper base alloy in the manufacture or production of the following items:

Buckles (other than dress buckles covered by Conservation Order M-9-c).
Corset Clasps.
Eyelets.
Furniture Glides.
Garter Trimmings.
Hose Supporters.
Identification Badges and Similar Items, except as provided in paragraph (e).
Loops.
Mattress Buttons.
Personal Hardware.
Pin Fasteners.
Staples.
Slides.
Tacks.
Trouser Trimmings.

(g) *General exceptions.* (1) The prohibitions and restrictions contained in this Order shall not apply to the manufacture, delivery, or use of any item which is being produced under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act), if in any such case the use of such items to the extent employed is required by the specifications of the prime contract.

(2) The prohibitions and restrictions contained in this Order shall not apply to purchases or deliveries for, or uses of, any item for application in the home and not for resale, except as expressly so provided.

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of metal conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or telegram, Reference L-68, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time. No reports or questionnaires are to be filed by any person until forms therefor have been prescribed by the War Production Board.

(k) *Reports and communications.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C., Reference L-68."

(l) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1145—OFFICE SUPPLIES

GENERAL LIMITATION ORDER L-73

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron, steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1145.1 *General Limitation Order L-73*—(a) *Definitions.* For the purposes of this Order:

(1) "Office supplies" means manufactured products (other than furniture and machinery) designed for use in an office, notwithstanding their auxiliary use for industrial purposes.

(2) "Group I products" means the following types of office supplies: wire staples, whether preformed or continuous roll.

(3) "Group II products" means the following types of office supplies: clips, clamps, pins, and thumb-tacks; copyholders; eyelet and round and flat-head fasteners; eyeleters; file fasteners; pencil sharpeners; punches and perforators; stapling and fastening machines.

(4) "Group III products" means the following types of office supplies: adhesive and gummed tape dispensers; arch and clip board files; calendar stands; desk accessories; inked ribbon spools and containers; list finders; rulers and yardsticks; staple removers; stationery sundries, not elsewhere classified.

(5) "Producer" means any person engaged in the fabrication, assembly, or any other operation or process connected with the manufacture of office supplies.

(6) "Prohibited materials" means copper, tin, nickel, chromium, zinc, cadmium, and crude rubber in any form whatever.

(7) "Federal specifications" means specifications (including emergency alternate specifications) approved from time to time by the Director of Procurement for use of all departments and establishments of the Federal Government, and any amendments thereof.

(8) "Iron and steel used" means the aggregate weight of iron and steel when first put into production in the manufacture of office supplies whether in the form of raw materials or as semi-processed or finished parts.

(9) "Preferred order" means any order or contract for office supplies to be delivered to or for the account of

(i) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, and the Office of Scientific Research and Development;

(ii) The government of any of the following countries: The United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia;

(iii) Any agency of the United States Government for delivery to, or for the account of the government of any country listed above or any country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act).

(b) *General restrictions.* (1) During the period of three months beginning with the first day of the first calendar month following the date of issuance of this Order, no Producer shall use

(i) In the manufacture of Group I Products more iron and steel than 25% of the aggregate weight of all metals used by him in the manufacture of Group I products during 1940.

(ii) In the manufacture of Group II products more iron and steel than 20% of the aggregate weight of all metals used by him in the manufacture of Group II Products during 1940.

(iii) In the manufacture of Group III products more iron and steel and 12½% of the aggregate weight of all metals used by him in the manufacture of Group III products during 1940.

(2) During each period of three months, beginning with the first day of the fourth calendar month following the date of issuance of this Order until otherwise ordered no producer shall use

(i) In the manufacture of Group I products more iron and steel than 25% of the aggregate weight of all metals used by him in the manufacture of Group I products during 1940.

(ii) In the manufacture of Group II products more iron and steel than 15% of the aggregate weight of all metals used by him in the manufacture of Group II products during 1940.

(iii) In the manufacture of Group III products more iron and steel than 12½% of the aggregate weight of all metals used by him in the manufacture of Group III products during 1940.

(3) A producer having preferred orders may exceed the foregoing restrictions in any period of three months to the extent of the amount of iron and steel necessary to fill such preferred orders provided that his quota of iron and steel for the following three months shall be reduced by an equivalent amount of iron and steel.

(4) From the effective date of this Order, no producer shall use in the manufacture of any Group I, II or Group III products any prohibited materials except that zinc may be used for galvanizing to the extent necessary for practicable use and wear. This provision shall not apply to the use of prohibited materials which on the date of issuance of this Order have been processed beyond the first stage of cutting or stamping.

(5) From the effective date of this Order, no producer shall manufacture any Group I, Group II or Group III products which exceed the minimum requirements of applicable specifications, as defined in subparagraph (7), paragraph (a) hereof, in respect to any metal or other critical material contained therein.

(c) *Avoidance of excessive inventories.* No manufacturer of Office Supplies shall accumulate for use in the manufacture of Office Supplies inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of Office Supplies at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board such reports and questionnaires as said Office shall from time to time request.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense work to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* Insofar as any other Order issued, or to be issued hereafter, restricts the use of any material in the manufacture of Office Supplies to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports, appeals and other communications concerning this Order should be addressed to the "War Production Board, Washington, D. C. Ref.: L-73."

(l) *Effective date.* This Order shall take effect on the date of its issuance and continue in effect until revoked. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 28th day of March 1942.

PART 1162—DYESTUFFS

CONSERVATION ORDER NO. M-103

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of organic dyestuffs for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense;

§ 1162.1 *Conservation Order M-103*—(a) *Restrictions on use of the organic dyestuffs.* (1) Curtailment to December 31, 1942, of dyestuffs appearing on List "A". Except as provided in paragraph (b) and paragraph (c) (2) hereof, no person shall hereafter sell or deliver any of the dyestuffs appearing on List "A", to any person, and no person shall use any of the dyestuffs appearing on List "A".

(2) *Curtailment in second quarter of anthraquinone vat dyes not on List "A".* No person, except as provided in paragraph (b) hereof, shall deliver to any other person, during the period beginning April 1, 1942, and ending June 30, 1942, an amount of anthraquinone vat dyes not appearing on List "A", and no person shall accept delivery of or use an amount of anthraquinone vat dyes not appearing on List "A", in excess of 12½ percent of the amount of such anthraquinone vat dyes delivered to such other person, or used by such other person, as the case may be, in the period from January 1, 1941, to December 31, 1941. For the purposes of this subparagraph, amounts of anthraquinone vat dyes shall be calculated in pounds of equivalent single strength anthraquinone vat dyes.

(3) *Restrictions on purchase and sale of all other anthraquinone dyes.* No person, except as provided in paragraph (b) hereof, shall deliver to any other person, during the period beginning April 1, 1942, and ending June 30, 1942, an amount of anthraquinone dyes other than those mentioned in (1) and (2) above and no person shall accept delivery of or use an amount of such anthraquinone dyes, in excess of 12½ per cent of the amount of such anthraquinone dyes delivered to such other person or used by such other person, as the case may be, in the period from January 1, 1941, to December 31, 1941.

(b) *General exception.* The prohibitions and restrictions contained in paragraph (a) shall not apply to the sale, delivery or use of dyestuffs for the manufacture of any item which is being produced under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of such dyestuff to the extent employed is required by the specifications of the prime contract.

(c) *Restrictions on export.* (1) No producer may hereafter sell or set aside for export, during the period beginning April 1, 1942, and ending June 30, 1942, from the Continental United States, upon orders other than defense orders, in any calendar month, more dyestuffs requiring anthraquinone derivatives in their manufacture than 8 per cent of the total of such dyestuffs produced in such month by him.

(2) During the period from April 1, 1942, to June 30, 1942, notwithstanding the provisions of paragraph (a), but subject to the limitation of subparagraph (1) above, each producer of any of the dyestuffs appearing on List "A" may export in any month an amount of such dyestuffs not in excess of 3 per cent of his total monthly production thereof, upon orders accompanied by export licenses issued by the Board of Economic Warfare.

(d) *Return of excess dyestuffs to manufacturers.* Each person, other than a manufacturer of dyestuffs, who, on the effective date of this Order, shall have in his inventory, or who shall acquire prior to April 1, 1942, an amount of any of the dyestuffs appearing on List "A" which required the use of anthraquinone or anthraquinone derivatives in the manufacture thereof, in excess of the amount thereof scheduled to be used by him prior to April 30, 1942, shall, within five days after the effective date of this Order, or after the receipt of such subsequent acquisition, as the case may be, resell, or return for credit, to the manufacturer thereof, such excess amount, and shall deliver the same as instructed by the said manufacturer.

(e) *Prohibitions against sales or deliveries.* No person shall hereafter sell or deliver any dyestuffs to any person, if he knows, or has reason to believe, such material is to be used in violation of the terms of this Order.

(f) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as may be required by said Board from time to time. No reports or questionnaires are to be filed by any person until forms therefor have been prescribed by the War Production Board.

(g) *Miscellaneous provisions*—(1) *Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of dyestuffs conserved, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegraph, Reference M-103, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Applicability of Order.* The prohibitions and restrictions contained in this Order shall apply to the use of material in all articles hereafter manufactured, irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. In so far as any other Order of the Director of Industry Operations may have the effect of limiting or curtailing to a greater extent than herein provided the use of any dyestuffs in the production of any article, the limitation of such other Order shall be observed.

(4) *Violations or false statements.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Definitions.* For the purposes of this Order. (i) "Dyestuffs" means any coloring matter, with the exception of coloring matter the chemical constituents whereof are entirely inorganic in nature. As used herein, the word "dyestuffs" does not include inorganic pigments which may be extended or otherwise processed with substantially colorless organic material, and shall not include dyes certified under the provisions of the Federal Food, Drug and Cosmetic Act (52 Stat. 1040, Ch. 675) and which are sold and used exclusively for use in foods, drugs, and cosmetics, as defined in the said Act.

(6) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 28th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 927—NICKEL

GENERAL PREFERENCE ORDER NO. M-6-a (AS AMENDED MARCH 30, 1942)

Section 927.2 (*General Preference Order M-6-a*) is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of nickel for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 927.2 *General Preference Order M-6-a*—(a) *Definition.* (1) "Nickel" means and includes:

(i) Any primary metallic nickel, either alloyed or unalloyed, ferro nickel, and nickel matte of any description;

(ii) Any solutions, concentrates, residues, or speiss containing nickel (commericially recoverable);

(iii) Nickel salts, oxides and carbonates.

(b) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Directions as to deliveries and melting; allocations.* Hereafter, no person shall make or accept delivery of nickel unless specifically authorized by the Director of Industry Operations: *Provided, however,* That nickel may be delivered without the specific authorization of the Director of Industry Operations to the Metals Reserve Company or to any other Corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended (15 U.S.C., section 606 (b)), or to any duly authorized agent of such Corporation. The Director will from time to time allocate the supply of nickel and specifically direct the manner and quantities in which deliveries thereof may be made and accepted; and the Director may also issue specific directions as to the manner and quantities in which allocations of nickel may be melted or otherwise processed for particular purposes or end uses. In his discretion, the Director may require any person seeking to place a purchase order for nickel to place the same with one or more particular suppliers. Such allocations and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(d) *Applications for nickel.* Unless otherwise ordered by the Director of Industry Operations, no person shall be entitled to receive an allocation of nickel unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board and any supplier with whom he may have placed a purchase order for nickel, Form PD-27, or such other form as may be from time to time prescribed by the War Production Board, in the manner indicated on such form. Failure by any person to file an application in the manner and on the date required by this paragraph may be construed as notice to the Director of Industry Operations that such person does not desire an allocation of nickel during the period to which the same would have been applicable.

(e) *Violations or false statements.* Any person who wilfully violates this Order, or who any act [1] or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(f) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C., Reference: M-6-a.

(g) *Effective date.* This Order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, as amended 6 F. R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 984—LEAD

SUPPLEMENTARY ORDER NO. M–38–g

§ 984.8 *Supplementary Order M–38–g.* (a) The Director of Industry Operations hereby determines that the amount of lead to be set aside by each refiner pursuant to paragraph (c) (2) of § 984.1 (*General Preference Order M–38*) for the month of April, 1942, shall be equal to 15% of the total amount of lead produced by such refiner during the month of February, 1942.

(b) *Communications to War Production Board.* All communications concerning this Supplementary Order should be addressed to the War Production Board, Social Security Building, Washington, D. C., Reference: M–38–g.

(c) This Order shall take effect immediately. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942; 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 983—DOMESTIC ICE REFRIGERATORS

SUPPLEMENTARY GENERAL LIMITATION ORDER L–7–b

In accordance with the provisions of § 983.1 (*General Limitation Order L–7*) which the following Order supplements:

§ 983.3 *Supplementary General Limitation Order L–7–b*—(a) *Restrictions for the period from April 1 to June 30.* (1) Except as provided in subparagraph (2), during the period of three months from April 1, 1942, to June 30, 1942, inclusive, no manufacturer of domestic ice refrigerators shall use in the production of such refrigerators more steel than the greater of the following two limits:

(i) Three times 60% of the monthly average of steel used by him during the twelve months period ending June 30, 1941.

(ii) Three times 60% of the monthly average of steel used by him during the three years period ending June 30, 1941.

(2) Each manufacturer is specifically authorized to use in addition to the quota set forth above the unused balance of quotas allowed by General Limitation Order L–7 and Supplementary General Limitation Order L–7–a as amended, provided that before doing so he file with the Consumers' Durable Goods Branch of the War Production Board a report setting forth the amount of steel which he intends to use under the provisions of this subparagraph. (No unused quota balances shall be used in production after June 30, 1942, however.)

(b) *Restrictions for the period July 1 to September 30 and for each three months period thereafter.* (1) During the period of three months from July 1, 1942 to September 30, 1942, inclusive, and for each three months period thereafter no manufacturer of domestic ice refrigerators

(i) Shall use in the production of such refrigerators more steel than the greater of the following two limits:

(a) Three times 60% of the monthly average of steel used by him during the twelve months period ending June 30, 1941.

(b) Three times 60% of the monthly average of steel used by him during the three years period ending June 30, 1941.

(ii) Shall use more than 20 pounds of steel and/or iron in the production of any such refrigerator.

(c) *Government orders included.* The restrictions of this Order shall apply to the production of all domestic ice refrigerators including those required to fulfill contracts or orders coming under the provisions of paragraph (a), subparagraph (2) of Supplementary General Limitation Order L–7–a.

(d) *Reports.* No manufacturer shall offer for sale any domestic ice refrigerator produced after June 30, 1942, unless he has first filed with the Consumers' Durable Goods Branch, War Production Board, a report setting forth a bill of material for each model in the production after June 30, 1942.

(e) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(f) *Effective date.* This Order shall take effect on the date of its issuance. (P.D. Reg. 1, as amended; 6 F.R. 6580; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 996—CHLORINATED HYDROCARBON SOLVENTS

AMENDMENT NO. 1 TO GENERAL PREFERENCE ORDER NO. M–41 [1]

Section 996.1 (*General Preference Order M–41*) is hereby amended to read as follows:

Present paragraph (f) is hereby amended to read as follows:

(f) *Effective date.* This Order shall take effect immediately, and unless sooner revoked, shall expire May 15, 1942.

This amendment shall take effect immediately. (P.D. Reg. 1, as amended, 6 F.R. 6580; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.,)

PART 1012—DOMESTIC VACUUM CLEANERS

SUPPLEMENTARY GENERAL LIMITATION ORDER L–18–b

In accordance with the provisions of §§ 1012.1 and 1012.2 (*General Limitation Orders L–18* [2] *and L–18–a* [3]) which the following Order supplements:

§ 1012.3 *Supplementary General Limitation Order L–18–b*—(a) *April restrictions.* During the period beginning April 1, 1942 and ending April 30, 1942, inclusive (1) No Class "A" Manufacturer shall produce more domestic vacuum cleaners than the greater of the following two limits:

(i) 3,900 of such vacuum cleaners, or

(ii) 60% of the monthly average of his factory sales of such vacuum cleaners in the twelve months ending June 30, 1941.

(2) No Class "B" Manufacturer shall produce more domestic vacuum cleaners than 75% of the monthly average of his factory sales of such vacuum cleaners during the twelve months period ending June 30, 1941.

(b) *Production of domestic vacuum cleaners prohibited after April 30, 1942.* No manufacturer may produce any domestic vacuum cleaners after April 20, 1942.

(c) *Appeal.* Any manufacturer who considers that relief from the specific provisions of this Order will affirmatively facilitate his program of conversion from civilian to war work, may apply for relief by addressing a letter to the War Production Board, Washington, D. C., Ref: L–18–b, setting forth the pertinent facts and the reasons why he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate. (P.D. Reg. 1, as amended 6 F.R. 6580; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

This Order shall take effect on April 1, 1942. Issued this 30th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1035—GLYCERINE

GENERAL PREFERENCE ORDER NO. M–58

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Glycerine for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1035.1 *General Preference Order M–58*—(a) *General restriction on deliveries effective May 1, 1942.* Beginning with May 1, 1942, no Refiner, Producer, or Distributor shall in any calendar month deliver to any person, and no person shall in any calendar month accept delivery of, more than 50 pounds of Glycerine, except as may be specifically authorized by the Director of Industry Operations. Prior to the commencement of each calendar month, beginning with May, 1942, the Director of Industry Operations will issue to all Refiners and Producers and directly or indirectly to all Distributors specific directions covering deliveries of Glycerine which may be made by such Refiners, Producers or Distributors during such month. Such directions will be made to insure the satisfaction of all defense requirements and, insofar as possible, to provide an adequate supply for essential civilian uses, and they may be made at the discretion of the Director of Industry Operations without regard to any preference rating assigned to particular

[2] 6 F.R. 6083.
[3] 7 F.R. 117.

contracts or orders. If the Director of Industry Operations shall not have issued by the first day of any month directions covering deliveries of Glycerine during such month, Refiners, Producers or Distributors may make deliveries of Glycerine free of the restrictions provided by this paragraph (a).

(b) *Restrictions on use and inventory*—(1) *Prohibited use.* No person shall use or consume Glycerine in the manufacture of any anti-freeze product or preparation.

(2) *Curtailment in uses.* No person shall use or consume in any calendar month, beginning with April 1942, in any manufacturing process or use other than the use prohibited by paragraph (b) (1) hereof more Glycerine than seventy percent (70%) of one-twelfth of his use or consumption of Glycerine in such process or use during the calendar year 1940; *Provided, however,* That nothing in this paragraph (b) (2) contained shall prevent the continued use or consumption of Glycerine for (i) any use required for the purpose of filling any defense order, or (ii) the manufacturing or processing of Health Supplies, as defined by General Preference Order P–29, as amended from time to time.

(3) *Inventory restrictions.* No person shall in any month except as may be authorized by the Director of Industry Operations accept delivery of Glycerine if his inventory of Glycerine is, or by such acceptance will become, in excess of one-twelfth of the Glycerine used and sold by him during the calendar year 1940 or, if such person was not in the business of using or selling Glycerine continuously during such year, then in excess of such amount as may be fixed by the Director of Industry Operations; *Provided, however,* That to the extent that a person's inventory consists, or through the acceptance of the proposed delivery would consist, of Glycerine used in filling Defense Orders (and the manufacture or processing of Health Supplies as defined in paragraph (b) (2) hereof), deliveries may be accepted if such inventory is not or would not exceed one-eighth of his year's consumption or sales based on his current method and rate of operations; and *Provided further,* That nothing in this paragraph shall be construed to restrict the delivery of crude Glycerine to any Refiner, nor to prevent a person's taking delivery of his normal purchasing unit of Glycerine (for example, can, drum or carload).

(4) *Required certificate.* Except as to deliveries specifically authorized by the Director of Industry Operations, no person shall make delivery of more than 50 pounds of Glycerine in any month to any other person (except delivery of crude Glycerine to a Refiner) unless and until he shall have received from the deliveree a certificate signed by the deliveree or on his behalf by an individual authorized to sign for him, in substantially the following form:

The undersigned hereby certifies to his vendor and to the War Production Board that the Glycerine hereby ordered will not when delivered and taken in conjunction with the Glycerine held by the undersigned constitute an inventory thereof in excess of the quantity permitted by General Preference Order No. M–58, with the terms of which the undersigned is familiar.

Purchaser

By ---:
Signature and title

Date

Provided, however, That Form PD–362 similarly signed by such deliveree and covering the Glycerine to be delivered, may be received in lieu of such certificate.

(c) *No deliveries in violation of use and inventory restrictions.* No person shall hereafter sell or deliver Glycerine if he knows, or has reason to believe, that such Glycerine is to be used, accepted or accumulated in violation of the terms of this Order.

(d) *Applications and reports.* (1) Each person who orders for delivery in any calendar month a quantity of Glycerine in excess of 50 pounds, whether for own consumption or use (including refining) or resale, shall submit to his Supplier with his order a copy of Form PD–362, properly executed by him, and shall send the original thereof to the War Production Board.

(2) Each Refiner or Producer shall in each month submit to the War Production Board Form PD–363, in duplicate, properly executed by him, scheduling the deliveries of Glycerine which he proposes to make during the succeeding month.

(3) Each person who in any one of the six months ending March 31, 1942 used, consumed or resold more than 50 pounds of Glycerine shall report to the War Production Board on or before May 1, 1942, on Form PD–361.

(4) All Refiners, Producers and Distributors and persons ordering or receiving Glycerine from any one or more of them, and such other persons as may be directed by the Director of Industry Operations shall make such other or further reports and furnish such information, at such times, in such form and with respect to such matters as the Director of Industry Operations may from time to time prescribe.

(e) *Miscellaneous provisions*—(1) *Definitions.* For the purposes of this Order.

(i) "Glycerine" means any and all concentrations of glycerol, from whatever source derived and whether crude or refined.

(ii) "Producer" means any person engaged in the production of Glycerine and includes any person who has Glycerine produced for him pursuant to toll agreement but does not include any Refiner of Glycerine.

(iii) "Refiner" means any person engaged in the refining of Glycerine.

(iv) "Distributor" means any person who has purchased or purchases Glycerine for purposes of resale.

(v) "Supplier" means any Refiner, Producer, Distributor or other person who sells or offers for sale Glycerine.

(2) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(3) *Intra-company transactions.* The prohibitions or restrictions contained in this Order, with respect to deliveries shall, in the absence of a contrary direction, apply not only to deliveries to other persons including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single enterprise, to another branch, division, or section of the same or any other enterprise under common ownership or control.

(4) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of Glycerine conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(5) *Violations or false statements.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(6) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: M–58.

(7) *Effective date.* This Order shall take effect immediately and continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, Jan. 16, 1942, 7 F.R. 329; E. O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 1052—KITCHEN, HOUSEHOLD AND OTHER MISCELLANEOUS ARTICLES

GENERAL LIMITATION ORDER L–30

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1062.1 *General Limitation Order L–30*—(a) *Definitions.* For the purposes of this Order:

(1) "Group I Products" means the following: kitchen utensils used primarily in the preparation, cooking, and storage of foods for household, institutional, and commercial uses (except those utensils mentioned in subparagraphs (a) (2), (a) (3) and (b) (4)).

(2) "Group II Products" means the following kitchen, household, and other miscellaneous articles (whether manufactured for household or for any other purpose): wash basins, dish pans, rinsing pans, wash boilers, ash cans, garbage cans and pails (including step-on cans), wringer buckets, clothes wringers, pails (except dairy pails), commodes, chambers and chamber covers, combinets, bread boxes, funnels, liquid measures, galvanized and other portable tubs, wash boards, ironing boards, carpet sweepers, dust pans, refrigerator pans, and all kitchen tools, including (but not limited to) can openers, jar openers, bottle openers, beaters, ice cream dippers or scoops, corers, and mashers.

(3) "Group III Products" means the following kitchen, household, and other miscellaneous articles (whether manufactured for household or for any other purpose): all closet accessories, including, but not limited to, coat and garment hangers and hooks, tie racks, and boot and shoetrees; all articles of fireplace equipment except fire screens; towel bars and racks, toothbrush holders, soap dishes, soap savers, toilet and other paper holders, pot chains, fly swatters, sink drainers, dish drainers, cuspidors, vegetable bins, curtain rods and fixtures, clothespins, candlesticks, carpet beaters, pot cover holders, picnic stoves, camp grids, cup frames, and cake coolers.

(4) "Scarce Materials" means the following: iron, steel, tin, aluminum, nickel, copper and copper base alloys, chromium and lead.

(5) "To Use" a material means to put that material into production for the first time. (When a person is limited to a percentage of the material used in a base period, this limitation applies to the aggregate weight of such material when first put into production by that person, whether in the form of raw materials or as purchased parts.)

(6) "Manufacturer" means any person who produces or assembles any Group I, Group II, or Group III Product.

(7) "Base Period" means the twelve months ending June 30, 1941.

(b) *General restrictions.* (1) During the period from the date of issuance of this Order to the last day of the calendar month in which it is issued, inclusive.

(i) The average daily use of iron and steel by any manufacturer in his total production of Group I, Group II and Group III Products shall not exceed his average daily aggregate use of scarce materials in the production of such products during the base period, and

(ii) The average daily use of zinc by any manufacturer in his total production of Group II and Group III Products shall not exceed his average daily use of zinc in the production of such products during the base period,

Provided, That a manufacturer may use more than his quota of iron and steel or zinc under this subparagraph if, but only if, he reduces his corresponding quota under subparagraph (2) by an equivalent amount of iron and steel or zinc.

(2) During the three months' period beginning with the first day of the first calendar month following the rate of issuance of this Order, no manufacturer shall use

(i) More iron and steel in his total production of:

(a) Group I Products than 22½ per cent of his aggregate use of scarce materials in the production of such products in the base period;

(b) Group II Products than 17½ per cent of his aggregate use of scarce materials in the production of such products in the base period; or

(c) Group III Products than 12½ per cent of his aggregate use of scarce materials in the production of such products in the base period;

Except that a manufacturer may use in the production of Group I or Group II Products any part of his quota of iron and steel for Group III Products, and may use in the production of Group I Products any part of his quota of iron and steel for Group II Products: *Provided*, That he reduces his quota of iron and steel for Group III or Group II Products, as the case may be, by an equivalent amount.

(ii) More zinc in his total production of Group II and Group III Products than 12½ per cent of the zinc used by him in the production of such products during the base period.

(3) Effective the first day of the fourth calendar month following the date of issuance of this Order, no manufacturer shall use any scarce materials or other metals in the production of Group III Products.

(4) Nothing in this Order shall limit the manufacture or production of electrical appliances, cutlery, and silver plated hollow-ware.

(c) *Avoidance of excessive inventories.* Manufacturers of Group I, Group II and Group III Products shall not accumulate for use in the manufacture of such products, inventories of raw materials, semi-processed materials, or finished parts in quantities in excess of the minimum amount necessary to maintain production of such products at the rates permitted by this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file with the War Production Board such reports and questionnaires as said Board shall from time to time prescribe.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any materials subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Applicability of other orders.* Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production of Group I, Group II and Group III Products to a greater extent than the limits imposed by this Order, the restrictions in such other Order shall govern unless otherwise specified therein.

(i) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance therewith would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Application of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Routing of correspondence.* All reports to be filed, appeals, and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., Ref: L–30.

(l) *Effective date.* This Order shall take effect on the date of its issuance, and shall continue in effect until revoked. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub Law 671, 76th Cong. as amended by Pub. Law 89, 77th Cong.)

Issued this 31st day of March 1942.

PART 1076—PLUMBING AND HEATING SIMPLIFICATION

SCHEDULE VI TO LIMITATION ORDER L–42—CAST IRON TUBULAR RADIATORS

§ 1076.7 *Schedule VI to Limitation Order L–42*—(a) *Definition.* For the purposes of this Schedule, "producer" means any person who manufactures, processes, fabricates or assembles cast iron tubular radiators.

(b) *Simplified practices.* Pursuant to Limitation Order No. L–42 the following types and sizes are hereby established for cast iron tubular radiators:

Number of tubes:	Height (inches)	Maximum weight (lbs. per sq. ft. of heating surface)
3	25	4.7
4	19, 22, 25	4.7
5	22, 25	4.7
6	14, 19, 25, 32	4.7

(c) *Effective date of simplified practices; exceptions.* On and after April 16, 1942, no cast iron tubular radiators which do not conform to the sizes and standards established by paragraph (b) hereof shall be produced or delivered by any producer or accepted by any person from any such producer, except with the express permission of the Director of Industry Operations: *Provided, however*, That the foregoing shall not prohibit the delivery by any producer of such cast iron tubular radiators as were in his stock in finished form on April 16, 1942, or which had, on said date, been cast, machined or otherwise processed in such manner that their manufacture in conformity with this Schedule would be impractical, nor the receipt of such radiators from such producer.

(d) *Records covering excepted cast iron tubular radiators.* Each producer shall retain in his files records showing his inventory of excepted cast iron tubular radiators (by types and sizes) as of April 16, 1942, and such records shall be kept readily available and open to audit and inspection by duly authorized representatives of the War Production Board. (P.D. Reg. 1 as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 1076—PLUMBING AND HEATING SIMPLIFICATION

SCHEDULE VII TO LIMITATION ORDER L–42—HOT WATER HEATERS AND PIPING SYSTEMS

§ 1076.8 *Schedule VII to Limitation Order L–42*—(a) *Definition.* For the purposes of this Schedule, "copper base alloy" means any alloy which contains 50% or more copper by weight.

(b) *Limitations.* Pursuant to Limitation Order No. L–42 the following limitations are established for the manufacture of hot water heaters and piping systems.

No copper or copper base alloy may be used in the manufacture of the articles specified below except in the cases noted and then only provided it is limited to the minimum amount practicable:

(1) *Hot water heaters.* Hot water heaters, tanks and coils; except for controls and except for current carrying parts of electric type hot water heaters.

(2) *Piping systems.* Pipe, tube, tubing and fittings therefor; except solder nipples and ferrules.

(c) *General exception.* The prohibitions and restrictions contained in this Schedule shall not apply to the use of copper or copper base alloy in the manufacture of articles or parts thereof which are being produced:

(1) Under a specific contract or subcontract for use in chemical plants, research laboratories or hospitals, where and to the extent that the physical and chemical properties make the use of any other material impractical. Such use is not deemed impractical for ordinary hot water heaters and piping systems and the exception covers only those cases where the technical operation of the plant makes the use of other material impractical.

(2) Under a specific contract or subcontract for use as part of the equipment of vessels other than pleasure craft and of aircraft where corrosive action makes the use of other material impractical.

(d) *Effective date.* This Schedule shall take effect April 1, 1942. (P.D. Reg. 1 as amended 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 1081—ELECTRIC POWER

AMENDMENT NO. 1 TO LIMITATION ORDER L–46 TO PROVIDE FOR THE CURTAILMENT OF ELECTRIC POWER IN THE NIAGARA FRONTIER AREA

Section 1081.1 *General Limitation Order L–46*, issued February 27, 1942,[1] is hereby amended as follows:

That portion of paragraph (c) preceding paragraph (c) (2) is hereby amended to read as follows:

(c) *Limitation on consumption and deliveries of electric power.* In the event that the supply of twenty-five cycle power available in the area served by the Niagara Falls Power Company, Niagara Lockport & Ontario Power Company, Buffalo Niagara Electric Corporation, New York State Electric & Gas Corporation, Central New York Power Corporation, and The Lockport & Newfane Power & Water Supply Co. is insufficient to meet the demand therefor, after full operation and integration of facilities as provided in paragraph (b) above, said Utilities shall reduce deliveries to their Consumers in the following manner:

(1) First, the Niagara Falls Power Company, Niagara Lockport & Ontario Power Company, Buffalo Niagara Electric Corporation, New York State Electric & Gas Corporation, Central New York Power Corporation, and The Lockport & Newfane Power & Water Supply Co. shall reduce deliveries to Consumers who have electric power generating facilities, to the extent that the increased operation of such facilities can directly or indirectly relieve the shortage of twenty-five cycle power. Said Utilities shall notify each such Consumer of the reduction in deliveries required, and no Consumer shall thereupon accept deliveries of twenty-five cycle power unless his electric power generating facilities are being operated at maximum capacity.

Paragraph (c) (4) is amended by inserting after "Buffalo Niagara Electric Corporation," the following: "Central New York Power Corporation, The Lockport & Newfane Power & Water Supply Co.,".

Paragraph (d) (1) is hereby amended to read as follows:

(d) *Limitation on increases in deliveries of electric power.* (1) The Niagara Falls Power Company, Niagara Lockport & Ontario Power Company, Buffalo Niagara Electric Corporation, New York State Electric & Gas Corporation, Central New York Power Corporation, The Lockport & Newfane Power & Water Supply Co., Rochester Gas & Electric Corporation shall not, after the effective date of this Order, increase the rate of deliveries of twenty-five cycle power to any Consumer over the maximum measured demand of such Consumer during any month within the twelve month period ending January 31, 1942, and no Consumer shall accept such increased deliveries of power unless:

(i) The amount of such increase in deliveries for any Consumer is less than 100 kilowatts; or

(ii) Such increase has been specifically authorized in advance by the Director of Industry Operations.

Paragraph (f) (1) is hereby amended by inserting after "Niagara Lockport & Ontario Power Company," the following: "New York State Electric & Gas Corporation, Central New York Power Corporation, The Lockport & Newfane Power & Water Supply Co., Rochester Gas & Electric Corporation." (P.D. Reg. 1 as amended, 6 F.R. 680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 1130—ELECTRICAL APPLIANCES

GENERAL LIMITATION ORDER L–65

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of electrical resistance material and other materials for defense, for private account and for export; and the following Order is

[1] 7 F.R. 1630.

deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1130.1 *General Limitation Order L–65—(a) Definitions.* For the purposes of this Order:

(1) "Electrical appliances" means:

(i) Any domestic or commercial appliances which

(a) have as functional parts electrical heating elements of a total rated wattage not in excess of 2500 watts, or

(b) are powered by an electrical vibrator or electrical fractional horsepower motor, and

(ii) Heating units (of any wattage) to be incorporated in electrical appliances or in new domestic electric ranges.

"Electrical appliances" include articles listed in Schedule "A" attached hereto, but that list is not intended to be exhaustive and all appliances coming within the foreging definition are to be considered "Electrical appliances" for the purpose of this Order, except the following: laundry equipment, vacuum cleaners, refrigerating and air conditioning equipment, commercial dishwashing equipment, fans and electric heating pads, as well as record-players, oil furnaces, vending and gaming machines, clocks, motion picture projectors and other photographic equipment, and other electrical items which are not customarily classified as domestic or commercial electrical appliances.

(2) "Manufacturer" means any person who manufactures parts for electrical appliances as well as any person who produces finished electrical appliances whether or not he manufactures any parts therefor.

(3) "Factory sales value" means the aggregate value of shipments of electrical appliances at regular manufacturers' selling prices.

(4) "Electrical resistance material" means material to be incorporated in electrical appliances in the form of ribbon or wire in which either nickel or chromium, or both, are used to create electrical resistance for the development of heat.

(b) *General restrictions.* (1) From his inventory of electrical resistance material on the effective date of this Order, each manufacturer shall

(i) First, set aside sufficient electrical resistance material to fill all orders on hand on said date bearing a preference rating of A–10 or higher;

(ii) Next, set aside and hold as a reserve for future disposition by the War Production Board 15 percent by weight of his balance of such electrical resistance material (This reserve shall be composed, if possible, of "A" grade round wire containing approximately 80 percent nickel and 20 percent chromium, but if sufficient stocks of "A" wire are unavailable the balance of the reserve shall be composed of "C" grade round wire containing approximately 65 per cent nickel, 15 per cent chromium, and the balance iron);

(iii) Next, at his option, set aside sufficient electrical resistance material to complete the electrical appliances, the production of which is permitted under the terms of paragraph (b) (4);

(iv) Next, at his option, set aside a reserve of electrical resistance material for replacement parts for electrical appliances not to exceed one and one-half times by weight the amount of such material used for such purposes in 1940; and

(v) Finally, set aside all remaining electrical resistance material for future disposition by the War Production Board, except that a manufacturer may sell to other manufacturers additional quantities of electrical resistance material needed by them to complete production of electrical appliances permitted them under the provisions of paragraph (b) (4).

(2) During the period from the effective date of this Order to May 31, 1942, inclusive, no manufacturer in the production of electrical appliances shall

(i) Put into process any tin in pig or block form;

(ii) Use any alloy steel, copper or copper base alloy that was not processed beyond the first blanking stage on the effective date of this Order; or

(iii) Use any aluminum that was not processed beyond the first blanking stage or case in final form on the effective date of this Order.

(3) During the period from April 1, 1942, to May 31, 1942, inclusive, no manufacturer shall use in the production of electrical appliances any nickel for plating.

(4) During the period from the effective date of this Order to May 31, 1942, inclusive, no manufacturer shall produce electrical appliances (except under orders or contracts bearing preference ratings of A–10 or higher)

(i) Having a total factory sales value greater than 25 per cent of the total factory sales value of electrical appliances produced by him in the calendar year 1941; or

(ii) Containing more electrical resistance material by weight than 15 per cent of the aggregate weight of such material contained in the electrical appliances produced by him in the calendar year 1941.

(5) Effective June 1, 1942, no manufacturer shall produce any electrical appliances except in fulfillment of orders or contracts bearing preference ratings higher than A–2.

(6) The restrictions of paragraphs (b) (4) and (b) (5) shall not be construed to limit in any way the manufacture of replacement parts for electrical appliances.

(c) *Inventory restrictions.* No manufacturer shall receive delivery of materials in the form of raw materials, semi-processed materials, finished parts or sub-assemblies for use in the manufacture of electrical appliances in a greater amount than is necessary for completion of production of the electrical appliances and replacement parts permitted under the terms of this Order.

(d) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(e) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports.* Each manufacturer to whom this Order applies shall file a report on Form PD–370 with the War Production Board within 15 days of the effective date of this Order indicating

(i) His total inventory of electrical resistance material as of the effective date of this Order.

(ii) the quantities of such material reserved by him under each of the subdivisions of paragraph (b) (1), and

(iii) his proposed use of electrical resistance material from the effective date of this Order to May 31, 1942, as provided for under the provisions of paragraph (b) (4)

and such other reports and questionnaires as said Board shall from time to time request.

(g) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under Section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Applicability of other orders.* (1) Except as provided in paragraph (i) (2), insofar as any other Order issued, or to be issued hereafter, limits the use of any other material in the production of electrical appliances, the restrictions in such other Order shall govern unless otherwise specified therein.

(2) During the period from the effective date of this Order to May 31, 1942, inclusive, the provisions of Conservation Orders No. M–1–e, M–6–b, M–9–c, M–21–d, and M–43–a restricting the use by manufacturers of aluminum, nickel, copper and copper base alloys, alloy steel and tin in the production of electrical appliances shall no longer apply to such production, but shall be superseded by the provisions of this Order.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this Order should be addressed to the War Production Board, Washington, D. C., REF: L–65.

(l) *Effective date.* This Order shall take effect on the date of issuance, and shall continue in effect until revoked. (P.D. Reg. 1 as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

SCHEDULE "A"

"Electrical appliances" shall be considered as including the appliances listed below, but this list is not intended to be exhaustive and all appliances coming within the definitions contained in paragraph (a) (1) shall be considered "electrical appliances" for the purposes of this Order:

Electric Biscuit and Muffin Bakers.
Electric Bottle Warmers.
Electric Bread Toasters.
Electric Broilers.
Electric Casseroles.
Electric Chafing Dishes.
Electric Coffee Makers.
Electric Corn Poppers.
Electric Deep Fat Fryers.
Electric Double Boilers.
Electric Doughnut Cookers.
Electric Egg Cookers.
Electric Food and Plate Warmers.
Electric Griddles.
Electric Hotplates and Disc Stoves.
Electric Ovens.
Electric Percolators.
Electric Roasters.
Electric Sandwich Toasters.
Electric Steam Tables.
Electric Tea Tables.
Electric Tea Kettles.
Electric Table Stoves.
Electric Urns.
Electric Waffle Irons.
Electric Fireplaces.
Electric Faucet Heaters.
Electric Immersion Heaters.
Electric Unit Radiator Heaters.
Electric Portable Air Heaters.
Electric Fan Type Heaters.
Electric Clothes Dryers.
Electric Curling Irons.
Electric Neckwear and Trouser Pressers.
Electric Permanent Wave Equipment.
Electric Hair Dryers.
Electric Flat Irons.
Electric Smoothing Irons.
Electric Food Mixers.
Electric Domestic Dishwashing Equipment.
Electric Juice Extractors.
Electric Dry Shavers.
Electric Hair Clippers.
Electric Massage Vibrators.
Electric Cigar and Cigarette Lighters.
Electric Hedge Clippers.
Electric Soldering Irons.
Heating Units for:
  Electric Ranges.
  Electric Water Heaters.
  Electric Ironers.
  Electric Radiant Heaters.

PART 1132—PRINTING INK

CONSERVATION ORDER M–53

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials, for the production of printing inks, for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1132.1 *Conservation order M–53—(a) Definitions.* For the purpose of this Order:

(1) "Producer" means any individual, partnership, association, corporation, or other form of business enterprise engaged in the manufacture of printing inks for sale to others or for his own consumption, but does not include the Government Printing Office or the Bureau of Engraving and Printing of the United States.

(2) "Supplier" means any person with whom a contract or purchase order has been placed for delivery of material to a producer or to another supplier.

(3) "Printing ink" includes any fluid or viscous material or composition of materials used in printing, empressing, stamping or transferring upon paper or paper-like substances, wood, fabrics or metals by the recognized mechanical reproductive processes employed in printing, publishing and related service industries.

(4) "News ink" means an ink made from mineral oil and no more than 15% carbon black, used in the production of daily and weekly newspapers.

(5) "Non-scratch ink" means an ink containing resins for the purpose of increasing hardness and reducing abrasion.

(6) "Class of organic pigment" means a basic chemical class of organic pigment such, for example, as Lithols, Red Lake C, and Toluidine.

(b) *Restrictions on deliveries.* (1) No producer shall in any calendar quarter, beginning with the quarter commencing April 1, 1942, accept delivery of a quantity of any one of the following materials (whether in the form of dry color or of dry or wet dispersions) in excess of seventy percent (70%) of one quarter of his use and consumption of such one material in 1941:

Chrome Yellows and Oranges
Molybdate Orange
Chrome Green
Orange Mineral

(2) No producer shall in any calendar quarter, beginning with the quarter commencing April 1, 1942, accept delivery of a quantity of any one class of organic pigment (whether in the form of dry color or of dry or wet dispersions) in excess of seventy percent (70%) of one quarter of his use and consumption of such one class in 1941.

(3) No producer shall in any calendar quarter beginning with the quarter commencing April 1, 1942, accept delivery of a quantity of any iron blue (whether in the form of dry color or of dry or wet dispersions) in excess of one hundred percent (100%) of one quarter of his use and consumption of such material in 1941.

(4) The fact that any of the foregoing materials may have been purchased with the aid of a preference rating shall not enlarge or otherwise affect the restrictions on deliveries provided for by this paragraph (b).

(c) *Restrictions on use.* In the manufacture of printing ink, no producer shall:

(1) Use in any calender quarter, beginning with the quarter commencing April 1, 1942, any one of the materials listed in paragraph (b) hereof (or in the case of organic pigments, any one class of organic pigment) in excess of the rate at which delivery of any such material (or class of organic pigment) is permitted by such paragraph (b).

(2) Use any oil soluble toner in any black ink, nor a toner of any form in news ink.

(3) Use any alkali blue or other organic toner as a toner for black ink in excess of eight percent (8%), by weight, of such black ink where such alkali blue or other organic toner is in paste form or, where in the form of dry color, then in excess of four percent (4%), by weight, of such black ink.

(4) Use any glycerol phthalate resins or phenolic resins for the production of any gloss ink, non-scratch ink or gloss overprint varnish.

(d) *Prohibitions against sales or deliveries of materials.* No person shall hereafter sell or deliver any of the materials named in paragraph (b) hereof to any other person if he knows or has reason to believe such material is to be used in violation of the terms of this Order.

(e) *Miscellaneous provisions—(1) Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Violations or false statements.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(3) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of materials conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the Director of Industry Operations on Form PD–344. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: M-53.

(5) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1 as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1132—PRINTING INK

PREFERENCE RATING ORDER P-94

§ 1132.2 *Preference Rating Order P-94.* For the purpose of facilitating the acquisition of Material for the production of Printing Inks in the public interest and to promote the national defense, preference ratings are hereby assigned to deliveries to the Producer of Printing Ink and to deliveries to his Suppliers, upon the following terms:

(a) *Definitions.* (1) "Producer" means any individual, partnership, association, corporation, or other form of business enterprise engaged in the manufacture of Printing Ink for sale to others or for his own consumption, but does not include a manufacturer of wall-paper.

(2) "Supplier" means any person with whom a contract or purchase order has been placed for delivery of Material to the Producer or to another Supplier.

(3) "Ink Materials" means Chrome Yellows and Oranges, Molybdate Orange, Chrome Green, Orange Mineral, Iron Blues and Organic Pigments (in each case whether in the form of dry color or of dry or wet dispersions) and Easter Gum and Zincated Rosin. The term does not include any Vat Dye Pigments or Phthalocyanine Pigments.

(4) "Printing Ink" includes any fluid or viscrous material or composition of materials used in printing, empreasing, stamping or transferring upon paper or paper-like substances, wood, fabrics or metals by the recognized mechanical reproductive processes employed in printing, publishing and related service industries.

(5) "Class of Organic Pigment" means a basic chemical class of Organic Pigment such, for example, as Lithols, Red Lake C, and Toluidine.

(b) *Assignment of preference rating.* Preference rating A-5 is hereby assigned:

(1) To deliveries to the Producer by his Supplier of Ink Materials, subject to the limitation of paragraph (f) hereof, entering into the production of Printing Ink;

(2) Deliveries to any Supplier of Material which will be delivered by him or by another Supplier to the Producer and will either be physically incorporated in, or, being a chemical, be used in the chemical processing of Ink Materials which will be delivered to the Producer under a rating assigned hereunder, or which will be used within the limitations of paragraph (d) (2) hereof to replace in such Supplier's inventory material so delivered.

(c) *Persons entitled to apply preference rating.* The preference rating hereby assigned, in the manner and to the extent hereby authorized, may be applied by:

(1) The Producer;

(2) Any Supplier who has received from a Producer or another Supplier a purchase order or contract to which such Producer or other Supplier has applied the rating hereby assigned and which such Supplier, subject to paragraphs (b) (2) and (d) (2) hereof, is entitled to extend.

(d) *Restrictions on use of rating.*—(1) *Restrictions on producer.* The Producer may apply the rating only to those quantities of Ink Materials that are authorized by paragraph (f) hereof.

(2) *Restrictions on supplier.* (i) No Supplier may apply the rating to obtain material in greater quantities or on earlier dates than required to enable him to make a rated delivery on schedule or to replace in his inventory material so delivered. If he has an inventory of such material, he shall not be deemed to require such material if he can make his rated delivery and retain a practicable minimum working inventory.

(ii) A Supplier who supplies material which has been manufactured, processed, assembled or otherwise physically changed by him, may not apply the rating to restore his inventory to a practicable working minimum unless he applies the rating before completion by him of the rated delivery which reduces his inventory below such minimum.

(iii) A Supplier who deals in material without manufacturing, processing, assembling or otherwise physically changing the same, may delay applying ratings to purchase orders to be placed by him until he has accumulated such purchase orders to the extent necessary to place a purchase order for the minimum quantity procurable on his customary terms, provided that he shall not apply any rating more than three months after it is applied to the related delivery to be made by him.

(e) *Application of preference rating and procedure in placing rated orders.* (1) The Producer or any Supplier, in order to apply the preference rating assigned hereunder to deliveries to him, must endorse on each purchase order or contract a statement in the following form, signed manually or as provided in Priorities Regulation No. 7 (§ 944.27) by a duly authorized official:

Preference Rating A-5 authorized by Preference Rating Order No. P-94, with the terms of which Order the undersigned is familiar.

(Name of producer or supplier)

By ---
(Duly authorized official)

Such endorsement shall constitute a representative to the War Production Board and the Supplier to whom the purchase order or contract is delivered that such purchase order or contract is duly rated in accordance herewith. Such Supplier to whom the purchase order or contract is delivered shall be entitled to rely on such representation, unless he has reason to believe it to be false.

(2) A Supplier who has received from two or more Producers or Suppliers endorsed purchase orders or contracts for material to the delivery of which the same rating has been applied in accordance with this order, may (within the limitations of paragraph (d) hereof) include in a single purchase order or contract any or all of the material which he in turn requires to make his rated deliveries, but must specify in the endorsement on such single purchase order or contract all the purchase orders or contracts which have been so received by him and to fill which he is applying the preference rating.

(3) Each Producer and each Supplier wishing to obtain material under the rating assigned by this order shall apply in the first instance to his regular Supplier or if such Producer or Supplier has more than one regular Supplier, then to his regular Suppliers in accordance with such Producer's or Supplier's normal business custom; but this paragraph shall not be construed to prevent such Producer or Supplier, if unable to obtain material of the kinds and quantities desired from his regular Supplier or Suppliers, from applying elsewhere.

(f) *Limitation on amount of deliveries of ink materials under assigned rating.* No Producer in any calendar month commencing with April 1942 shall receive delivery of:

(1) A quantity of any one of the following named Ink Materials (whether in the form of dry color or of dry or wet dispersions) under a purchase order or contract to which he has applied a rating under this order in excess of fifty percent (50%) of his average monthly use of such one Ink Material in 1941:

Chrome Yellows and Oranges
Molybdate Orange
Chrome Green
Orange Mineral

(2) A quantity of any one class of Organic Pigment (whether in the form of dry color or of dry or wet dispersions) under a purchase order or contract to which he has applied a rating under this order in excess of fifty percent (50%) of his average monthly use of such one class of Organic Pigment in 1941.

(3) A quantity of any one of the following named Ink Materials under a purchase order or contract to which he has applied a rating under this order, in excess of eighty percent (80%) of his average monthly use of such one Ink Material in 1941:

Ester Gum
Zincated Rosin
Iron Blues (dry color or dry or wet dispersions)

(g) *Records, audits and reports.* (1) Each Producer and each Supplier who applies the preference rating hereby assigned shall keep and preserve for a period of at least two years accurate and complete records concerning purchases (including orders and deliveries) stocks on hand and sales of Material covered by each application of the rating, and shall submit from time to time for audit and inspection to representatives of the War Production Board concerning the matters referred to in paragraph (f).

(2) Each Producer shall on or before the 15th day of each month commencing with April, 1942 report to the War Production Board, Washington, D. C., on Form PD-345, listing among other things the Ink Materials received by him during the preceding month to which such Producer had applied the preference rating assigned hereunder, and the average monthly use of each such Ink Material during 1941. In addition to such report, each Producer and each Supplier shall furnish such information at such times with respect to such matters and on such other forms as may from time to time be prescribed by the War Production Board.

(h) *Restrictions on use of material obtained under the rating.* Each Producer must use the Ink Material delivered to him pursuant to the rating hereby assigned, or an equivalent amount of Ink Material in the manufacture of Printing Inks. In no event shall any Producer use Ink Materials delivered to him pursuant to the rating hereby assigned in violation of the provisions of any Conservation Order issued by the Director of Industry Operations.

(i) *Miscellaneous provisions.*—(1) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: "War Production Board, Washington, D. C. Ref.: P-94"

(2) *Violations.* Any person who wilfully violates any provision of this Order or who falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(3) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(4) *Effective date.* This Order shall take effect immediately, and shall continue in effect to and including June 30, 1942. (P.D. Reg. 1, as amended 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1136—LAWN MOWERS

LIMITATION ORDER L-67

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron or steel for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1136.1 *General Limitation Order L-67.*—(a) *Definitions.* For the purposes of this Order:

(1) "Lawn Mower" means a machine mounted on wheels or rollers used for cutting grass or weeds by means of the shearing or cutting action of a rotating, revolving, or reciprocating blade, but excluding machines used principally for harvesting or cutting crops.

(2) "Iron and Steel Used" means the aggregate weight of iron or steel contained in the finished lawn mowers.

(3) "Manufacturer" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, engaged in the production of lawn mowers.

(4) "Production" means the fabrication or processing of material for lawn mowers or the assembly of finished parts into lawn mowers.

(b) *General restrictions.* From the effective date of this Order until June 30, 1942, no manufacturer shall use in the production of lawn mowers more iron and steel in the aggregate than either (1) three times 50% of the average monthly amount of iron and steel in the aggregate used by him in the production of lawn mowers during the twelve months' period from July 1, 1940 to June 30, 1941, inclusive, or (2) 50% of the total amount of iron and steel in the aggregate used by him in the production of Lawn Mowers during the period from April 1, 1941 until June 30, 1941, inclusive.

(c) *Prohibition of production after June 30, 1942.* No manufacturer shall after June 30, 1942, process, fabricate, work or assemble any materials for use in the production of Lawn Mowers, nor shall any manufacturer produce or assemble any Lawn Mowers after that date.

(d) *Avoidance of excessive inventories.* No manufacturer of lawn mowers shall accumulate for use in the manufacture of such lawn mowers inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production of lawn mowers at the rates permitted by this Order.

(e) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales.

(f) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(g) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(i) *Appeal.* Any person affected by this Order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the "War Production Board, Washington, D. C., Ref: L-67", setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(j) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: L-67.

(k) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(l) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1 as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th

Cong. as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1138—ANTIMONY

GENERAL PREFERENCE ORDER M-112

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of antimony for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1138.1 *General Preference Order M-112*—(a) *Definitions.* For the purposes of this Order:

(1) "Antimony" means and includes:

(i) Ores and concentrates, including beneficiated or treated forms, commercially recognized.

(ii) Antimony metal, otherwise known as "regulus" and the element antimony in commercially pure form.

(iii) Liquated antimony, sometimes known, respectively, as "needle antimony", "crude antimony", or "crudum", which is in any case the result of separating antimony sulphide from antimony ores by fusion, without essential chemical change.

(iv) Any alloy containing 50 per cent or more by weight of antimony, as defined in (i), (ii), and (iii) above.

(v) All chemical compounds containing antimony as an essential and recognizable component.

(b) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Restrictions on deliveries*—(1) *Allocations.* Hereafter, no person shall deliver or accept delivery of antimony as defined herein except as specifically authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of antimony and specifically direct the manner and quantities in which deliveries to particular persons and for particular uses shall be made or withheld. The Director may also, in his discretion, require any person seeking to place a purchase order for antimony to place the same with one or more particular suppliers. Such allocations and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(2) *Reports.* (i) Unless otherwise ordered by the Director of Industry Operations, and except as permitted by the provisions of paragraph (c) (2) (iii) hereof, no person shall be entitled to receive an allocation of antimony unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board and with any supplier with whom he may place an order for antimony, an application on Form PD-361, and in addition shall have filed with the War Production Board a report on Form PD-360.

(ii) Every person who, on the effective date of this Order has in his possession or under his control a quantity of antimony as herein defined, in excess of 100 pounds (in antimony content), shall file with the War Production Board a report on Form PD-360 on or before April 20, 1942, whether or not such person applies for an allocation of antimony.

(iii) Any person who shall have filed with the War Production Board a report on Form PD-360 as required by paragraph (c) (2) (ii) on or before April 20, 1942, and who thereafter makes application in accordance with the provisions of paragraph (c) (2) (i) for an allocation of 446 pounds or less of contained antimony, need not file a further report on Form PD-360 with such application: *Provided*, That such person's inventory of antimony for the calendar month in which delivery is requested on his application, including the quantity applied for, will not exceed 672 pounds of contained antimony.

(iv) Failure by any person to file an application as required by paragraph (c) (2) (i) may be construed as notice to the Director of Industry Operations and to all suppliers of antimony that such person does not desire an allocation of antimony for the succeeding month.

(d) *Special directions.* The Director of Industry Operations may from time to time issue specific directions with respect to the permissible kind or quantity of antimony in the composition of any material or product, and he may also in his discretion, direct the use of antimony-bearing lead scrap, secondary antimony-bearing lead alloys, or any other practicable substitute, in lieu of antimony in the production of any materials or products.

(e) *Restrictions on use of antimony in certain products*—(1) *Prohibited uses.* Effective July 1, 1942, no person shall use antimony in any form, including the antimony content of any alloys, scrap or secondary material, in the preparation, processing, or manufacture:

(i) Of pigments or opacifiers for paints, lacquers or enamels, including ceramic enamels.

(ii) Of toys, or decorative or ornamental objects or parts thereof.

(2) *Limitation on use in metals and alloys.* Hereafter, no person shall use more than 0.5 % by weight of antimony in the composition of any metal or alloy, unless a higher percentage of antimony content is required by specification, and in no event shall such antimony content exceed by more than 0.5%, the minimum specified.

(3) *Limitation on use of new antimony for automotive batteries.* Effective July 1, 1942:

(i) The quantity of new antimony which may be used by any person in the production of alloys for automotive batteries shall be limited in any calendar month to not more than 7 per cent of the total contained antimony used by him for such purposes during the same period. (The balance of antimony required by such person in the production of such alloys shall be obtained from antimony-bearing scrap or secondary alloys.)

(ii) The antimony content of alloys used by any person in the production of grids for automotive batteries shall be limited as nearly as practicable to a maximum of 7% by weight, and shall in no event exceed 7.5% by weight.

(f) *General exceptions.* Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (e) (1) and (e) (3) shall not apply to the use of antimony in the manufacture of any item which is being produced:

(1) For delivery under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act) if in any such case the use of antimony to the extent employed is required by the specifications of the prime contract.

(g) *Violations or false statements.* Any person who wilfully violates this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under Section 35A of the Criminal Code (18 U.S.C. 80).

(h) *General imports order M-63 unaffected.* Nothing contained in this Order shall be construed as altering or modifying in any way the provisions of General Imports Order N-63[1] applicable to antimony.

(i) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall unless otherwise directed, be addressed to the Antimony Branch, War Production Board, Temporary R Building, Washington, D. C., Reference: M-112.

(j) *Effective date.* This Order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 31st day of December, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 3 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March, 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1156—TOYS AND GAMES

LIMITATION ORDER L-81

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other critical materials for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1156.1 *General Limitation Order L-81*—(a) *Definitions.* For the purposes of this Order:

(1) "Toy or Game" means any device, play thing, article, or material commonly referred to as a toy or game, including but not limited to dolls, doll accessories, stuffed animals, adults' and children's games, (including but not limited to playing cards, dice, poker chips, mahjong and Ouija boards), juvenile art sets and materials, juvenile craft sets and materials, juvenile science sets and materials, masquerade costumes or accessories, tricks, puzzles, puzzle sets, magic sets, children's play vehicles, Christmas lighting decorations (including but not limited to series circuit strings, parallel circuit strings, candles, wreaths, etc., for decorative purposes), non-illuminated Christmas tree ornaments or stands, sleds, models, model building parts, accessories or kits, and juvenile playground and gymnasium equipment (other than that used by clubs, schools, and institutions), but not including sporting goods or athletic equipment.

(2) "Class A Product" means any toy, game or any part made specifically for incorporation into such a toy or game containing critical material equal to more than 7% by weight of the toy, game or part. (Containers, fillers, wrappers, and other packaging materials are not to be considered as part of the product for the purposes of determining its weight.)

(3) "Person" means any individual, partnership, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(4) "Critical material" means:

(i) Iron.
(ii) Steel.
(iii) Zinc.
(iv) Rayon.
(v) Silk.
(vi) Urea Plastics.
(vii) Phenolic plastics.
(viii) Any organic or inorganic pigment or dry color other than: (*a*) Domestic earth colors, (*b*) Ultramarine blue, (*c*) Carbon black, (*d*) Lamphlack, (*e*) Boneblack, (*f*) Titanium dioxide, (*g*) Lithopone,
(ix) Perrilla oil.
(x) Oiticica Oil
(xi) Cellulose Esters or Ethers (except for banding and decorative purposes limited to a single coat covering not more than 10% of the surface area).
(xii) Polyhydric Alcohols, combinations or modifications thereof (except where required in the formulation of permissible Cellulose Ester and Ether combinations under (xi) above).
(xiii) Polybasic Acids, combinations or modifications thereof (except where required in the formulation of Cellulose Ester and Ether combinations permitted under (xii) above).
(xiv) Acrylic acid or Acrylic derivatives.
(xv) Vinyl Chloride, Acetate or Copolymer.
(xvi) Solvesso #1.
(xvii) Natural resins (except pine rosin and its derivatives).
(xviii) Urea Formaldehyde or Melamine containing compounds.
(xix) Trycresyl Phosphate, Triphenyl Phosphate, Dibutyl Phthalate, Diethyl Phthalate, and other chemical plasticizers other than raw or blown Caster Oil.
(xx) Copper Naphthanate.
(xxi) Antimony.
(xxii) Tin.

(5) "Prohibited material" means:

(i) Alloy steels (as defined in Order M-21-a).
(ii) Chromium plating.
(iii) Copper whether or not used for the conduction of electricity.
(iv) Cork.
(v) Silk.
(vi) Urea Plastics.
(vii) Phenolic plastics.
(viii) Any organic or inorganic pigment or dry color other than: (*a*) Domestic earth colors, (*b*) Ultramarine blue, (*c*) Carbon black, (*d*) Lamphlack, (*e*) Boneblack, (*f*) Titanium dioxide, (*g*) Lithopone,
(ix) Perrilla oil.
(x) Oiticica Oil
(xi) Cellulose Esters or Ethers (except for banding and decorative purposes limited to a single coat covering not more than 10% of the surface area).
(xii) Polyhydric Alcohols, combinations or modifications thereof (except where required in the formulation of permissible Cellulose Ester and Ether combinations under (xi) above).
(xiii) Polybasic Acids, combinations or modifications thereof (except where required in the formulation of Cellulose Ester and Ether combinations permitted under (xii) above).
(xiv) Acrylic acid or Acrylic derivatives.
(xv) Vinyl Chloride, Acetate or Copolymer.
(xvi) Solvesso #1.
(xvii) Natural resins (except pine rosin and its derivatives).
(xviii) Urea Formaldehyde or Melamine containing compounds.
(xix) Trycresyl Phosphate, Triphenyl Phosphate, Dibutyl Phthalate, Diethyl Phthalate, and other chemical plasticizers other than raw or blown Caster Oil.
(xx) Copper Naphthanate.
(xxi) Antimony.
(xxii) Tin.

(6) "To Use" means to fabricate, process, manufacture or assemble raw materials, semi-finished materials or finished parts in the production of toys, and games.

(b) *General restrictions.* (1) From the effective date of this Order until June 30, 1942, no Person shall put into process in the production of Class A Products more critical material which is in a raw material form than three times 25% of the average monthly amount of critical materials in a raw material form put into process by him in the production of such Class A Products during the calendar year 1941.

(2) From the effective date of this Order, no Person shall put into process any Prohibited Material which is in a raw material form for the purpose of using such Prohibited Material in the production of toys or games.

(3) From the effective date of this Order, no Person who manufactures toys or games shall sell, lease, trade, lend, deliver, ship, or transfer any Prohibited Material which is in a raw material form to any person whatsoever, except pursuant to specific authorization of the Director of Industry Operations.

(4) From the effective date of this Order, no Person who manufactures toys or games shall procure or acquire any Prohibited Material in any form, or from any source whatsoever, if he intends to use such Prohibited Material in the production of any toys or games, except such Prohibited Material other than in a raw material form contained in the inventories of other persons who manufacture toys, or pursuant to specific authorization of the Director of Industry Operations.

(5) From the effective date of this Order, no Person who manufactures toys or games shall sell, lease, trade, lend, deliver, ship, or transfer any Prohibited Material in any form other than in a raw material form to any other Person, except:

(i) if such Prohibited Material is contained in a completed toy, game or component part thereof, or
(ii) such Prohibited Material is sold, leased, traded, lent, delivered, shipped, or transferred to other persons who manufacture toys, or
(iii) pursuant to specific authorization of the Director of Industry Operations.

(6) No Person shall, after June 30, 1942, process, fabricate, work on or assemble any Prohibited Materials for use in the production of toys or games, or process, fabricate, work on or assemble any critical materials for use in the production of Class A Products.

(7) After June 30, 1942, no Person who manufactures toys or games shall sell, lease, trade, lend, deliver, ship, or transfer any critical material which is in a raw material form to any person whatsoever, except pursuant to specific authorization of the Director of Industry Operations.

(c) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, and sales.

(d) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(e) *Violations.* Any person who wilfully violates any provision of this Order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Reports.* All persons affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Appeal.* Any person affected by this Order, who considers that compli-

ance therewith would work an exceptional and unreasonable hardship upon him, that it would result in a serious problem of unemployment in the community, or that compliance with this Order would disrupt or impair a program of conversion from non-defense to defense work may appeal to the "War Production Board, Washington, D. C., Ref.: L-81", setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(h) *Communication to War Production Board.* All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: L-81.

(i) *Applicability of other Orders.* Insofar as any other order issued by the Director of Priorities or Director of Industry Operations, or to be issued hereafter by the Director of Industry Operations, limits the use of any material in the production of toys to a greater extent than the limits imposed by this Order, the restrictions in such other order shall govern unless otherwise specified therein.

(j) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(k) *Effective date.* This Order shall take effect on April 1, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 1172—ASBESTOS TEXTILES

CONSERVATION ORDER M-123

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Asbestos Textiles for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1172.1 *Conservation Order M-123.* (a) Unless otherwise specifically authorized by the Director of Industry Operations, after April 4, 1942, no manufacturer of Asbestos Textiles shall deliver Asbestos Textiles except

(1) For use in the manufacture of industrial packings or

(2) On orders bearing a preference rating of A-10 or higher.

(b) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected hereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Appeals.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board, setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(d) *Communications.* All communications concerning this Order, shall, unless otherwise directed, be addressed to:

War Production Board, Washington, D. C. Ref: M-123.

(e) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(f) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

Issued this 30th day of March 1942.

PART 1173—RUBBER YARN AND ELASTIC THREAD

CONSERVATION ORDER NO. M-124

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rubber for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1173.1 *Conservation Order No. M-124—(a) Definitions.* For the purpose of this Order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(b) *Restrictions on sales and deliveries.* Except as specifically authorized by the Director of Industry Operations, no Person shall, during the period beginning at 12:01 o'clock A. M. on March 29, 1942 and ending at 12:01 o'clock A. M. on April 30, 1942, sell or make delivery or purchase, order or accept delivery of any rubber yarn or elastic thread, except for the purposes of filling defense orders.

(c) *Restrictions on knitting, weaving and other uses.* Except as specifically authorized by the Director of Industry Operations, no Person shall, during the period beginning at 12:01 o'clock A. M. on March 29, 1942, and ending at 12:01 o'clock A. M. on April 30, 1942, knit, weave or otherwise process or use any rubber yarn or elastic thread, except for the purposes of filling defense orders.

(d) *Appeal.* Any Person affected by this Order, who considers that compliance herewith would work an exceptional or unreasonable hardship upon him, may appeal to the War Production Board, Washington, D. C. by letter or telegram, Ref: M-124, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(e) *Violations.* Any Person who violates any provision of this Order and who by any act or conduct falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate including a recommendation for prosecution under Section 35 (a) of the Criminal Code (18 U. S. C. 80).

(f) *Effective date.* This Order shall take effect immediately. (P.D. Reg. 1 as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561, E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Law 89, 77th Cong.)

PART 1306—IRON AND STEEL

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 49[1]—RESALE OF IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been prepared and is issued simultaneously herewith.[2]

A new paragraph (r) is added to § 1306.157; a new paragraph (n) is added to § 1306.159; and a new § 1306.158a is added as set forth below:

§ 1306.157 *Definitions.*

• • • • • •

(r) "Distress or stranded material" means any iron or steel products which:

(1) Were intended for an export shipment

(2) Were shipped to a port of exportation prior to March 1, 1942; and

(3) Have incurred charges for ocean freight, marine or war risk insurance or storage charges directly attributable to failure to secure shipping space as a result of war or of stoppage or diversion by act of a governmental agency in the interests of national defense.

§ 1306.159 *Appendix A: Domestic and export maximum prices for iron and steel products.*

• • • • • •

(n) *Special provisions for certain export cases and for the sale of distress and stranded materials.* (1) (i) Despite the provisions of any other section of this

[1] 7 F.R. 1300.

[2] Filed with the Division of the Federal Register; requests for copies should be addressed to the Office of Price Administration.

Revised Price Schedule No. 49, the maximum price on a sale for export by any person other than a producer of iron or steel products, for an inventory of iron or steel products which was actually acquired by the holder prior to December 15, 1941, shall be:

(a) The maximum price for an export sale as established by Revised Price Schedule No. 6 or Revised Price Schedule No. 49, exclusive of fees and commissions payable to an export agent or an export merchant; plus

(b) Storage or demurrage charges which have accumulated because of failure to secure shipping space as a result of war or of stoppage or diversion by act of a governmental agency in the interests of national defense; plus

(c) Commissions as stated in and subject to the conditions and limitations of paragraph (e), *Maximum prices for exports of iron or steel products*. Such commissions may be computed on the basis of the total of (a) and (b), above.

(ii) In the case of any export sale of inventory actually acquired by the holder prior to December 15, 1941, in which the invoiced cost of the inventory to the holder exceeds the maximum price established by (i) above, a petition for exception may be filed with the Office of Price Administration. Such a petition must clearly demonstrate:

(a) Actual delivery to the holder prior to December 15, 1941;

(b) Invoiced cost of inventory exceeding the maximum price established by (i) above; and

(c) The presence of unusual financial hardship resulting from inability to absorb a loss which would be occasioned by sale at the maximum price established by (i) above.

(iii) A brief statement of the details of any sale made pursuant to (i) above shall be filed with the Office of Price Administration within 10 days of such sale.

(2) (i) In the case of distress or stranded material, the maximum price which may be charged by any person other than a producer of iron or steel products for export to any place outside the territorial limits of the United States shall be:

(a) The export ceiling price as established by this Revised Price Schedule No. 49 or Revised Price Schedule No. 6 at the place at which the material is located, exclusive of any fees, commissions or charges for any export agent, export merchant, or other intermediary; plus

(b) Ocean freight and marine or war risk insurance incurred since November 15, 1941, to the extent actually paid on such material; plus

(c) Storage or demurrage charges directly attributable to failure to secure shipping space as a result of war or of stoppage or diversion by act of a governmental agency in the interests of national defense, not however to exceed 5% of the export ceiling price (as calculated without reference to this subparagraph (2)) at the place at which the material is stored.

(d) On export sales, commissions as stated in and subject to the conditions and limitations of paragraph (e), *Maximum prices for exports of iron or steel products*, may be charged. Such commissions in all cases shall be computed on the basis of ceiling prices without regard to this paragraph (r).

(ii) In the case of distress or stranded material, the maximum price which may be charged by any person for resale within the United States shall be:

(a) The domestic ceiling price as established by this Revised Price Schedule No. 49 or Revised Price Schedule No. 6 at the place at which the material is located, exclusive of any fees, commissions or charges for any agent, broker, or other intermediary, whether such agent, broker, or other intermediary act in a domestic or export transaction; plus

(b) Ocean freight and marine or war risk insurance insurance incurred since November 15, 1941, to the extent actually paid on such material; plus

(c) Storage or demurrage charges directly attributable to failure to secure shipping space as a result of war or of stoppage or diversion by act of a governmental agency in the interests of national defense, not however to exceed 5% of the domestic ceiling price (as calculated without reference to this subparagraph (2) at the place at which the material is stored.

(iii) The maximum price as established in (i) and (ii) may be an f. o. b. price at the place at which such material is stored.

(iv) In any case in which a sale is made pursuant to the terms of this subparagraph (2), a statement of the source of such material, the charges incurred upon it, and the destination and price actually charged shall be filed with the Office of Price Administration. Where a domestic sale is to be made, the statement shall include the name of the purchaser, the priority rating applicable to the sale, and an affirmation that the material so sold has not been otherwise allocated or set aside by the War Production Board. Where the sale is for export, the statement shall include a copy of the application for an export license, and a notation of the date upon which such application was granted, and the terms of any conditions imposed upon the grant of a license. Any such statement shall be in affidavit form.

(v) This subparagraph (2) shall affect only voluntary sales, and shall not affect the maximum price at which any iron or steel products may be requisitioned.

(vi) This subparagraph (2) shall be in effect until July 1, 1942, and shall be of null effect and validity after that date, unless specifically extended by the Office of Price Administration.

(3) Shipments which fall within the terms of both subparagraphs (1) and (2) of this paragraph (n) may be priced at the maximum price established under either, at the option of the seller.

(4) An exception to the export provisions of this Revised Price Schedule No. 49 may be granted by the Administrator either upon petition or upon his own motion, in any case in which a certificate is received by the Administrator from the Board of Economic Warfare, certifying that such exception is necessary for considerations of political or military necessity, or because of the requirements of economic warfare. Such exception may be granted by the Administrator upon such terms and conditions as shall appear reasonable under all of the circumstances.

§ 1306.158a *Effective dates of amendments.* (a) Amendment No. 1 §§ 1306.157 (r), 1306.159 (n), 1306.158a) to Revised Price Schedule No. 49 shall become effective March 28, 1942, except that §§ 1306.159 (n) (2) and 1306.159 (n) (3) shall expire July 1, 1942.

PART 1363—FEEDINGSTUFFS

REVISED PRICE SCHEDULE NO. 73[1] AS AMENDED—FISH MEAL AND FISH SCRAP

A statement of the considerations involved in the issuance of Revised Price Schedule No. 73 as amended, has been prepared and is issued simultaneously herewith.[2]

The title, preamble, and §§ 1363.1 to 1363.10, inclusive, are renumbered and amended to read as set forth herein:

The Office of Price Administration has now completed its investigation of the fish meal industry. Upon the basis of this investigation it is the judgment of the Price Administrator that the maximum prices for fish meal established by Revised Price Schedule No. 73 are consistent with the standards and limitations of the Emergency Price Control Act of 1942, applicable to a permanent maximum price regulation. Accordingly, such prices have been continued in effect.

However, the Price Administrator has determined that Revised Price Schedule No. 73 should be amended to make certain minor adjustments and to clarify certain provisions. Moreover, the investigation disclosed that the prices for fish scrap, which is the raw material for fish meal, have risen in some cases above the maximum prices established for fish meal. In order to correct this situation, the Administrator has further determined that Revised Price Schedule No. 73 should be amended to establish maximum prices for fish scrap.

Should unwarranted price rises occur at stages of distribution not covered by Revised Price Schedule No. 73 as amended, appropriate action will be taken by this Office.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1[3] issued by the Office of Price Administration, Revised Price Schedule No. 73 as amended, is hereby issued.

AUTHORITY: §§ 1363.1 to 1363.12, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1363.1 *Maximum prices for fish meal and fish scrap.* On and after March 28, 1942, no person shall sell or deliver fish meal or fish scrap, and no person shall buy or receive fish meal or fish scrap in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1363.12, and no person shall agree, offer, solicit or attempt to do any of the foregoing, except that contracts entered into prior to January 20, 1942, providing for prices for fish meal higher than the maximum prices and contracts entered into prior to March 28, 1942, providing for prices for fish scrap higher than the maximum prices may be carried out at the contract prices. Maximum prices shall include commissions and all other charges and shall not be increased by any charges for the extension of credit.

§ 1363.2 *Exempt sales.* The provisions of this Revised Price Schedule No. 73 as amended, shall not apply to sales at retail.

§ 1363.3 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1363.12) may be charged, demanded, paid or offered.

§ 1363.4 *Conditional agreements.* No seller of fish meal or fish scrap shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1363.12, in the event that this Revised Price Schedule No. 73 as amended, is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or exception) has been duly filed, and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendments (or for adjustment or exception as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or exemption).

§ 1363.5 *Evasion.* The price limitations set forth in this Revised Price Schedule No. 73 as amended, shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to fish meal or fish scrap alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or tying-agreement or trade understanding, or otherwise.

§ 1363.6 *Records and reports.* (a) Every person making a purchase or sale of fish meal or fish scrap (except purchases or sales at retail) in the course of trade or business or otherwise dealing therein after January 20, 1942, in the case of fish meal, and after March 28, 1942, in the case of fish scrap, shall keep for inspection by the office of Price Administration, for a period of not less than one year, complete and accurate records of each such purchase or sale, including the date thereof, the name of the seller or purchaser, the amount sold or purchased, the price paid or received, and the grade of fish meal or fish scrap sold or purchased.

(b) Such persons shall submit such reports to the Office of Price Administration, and keep such other records in addition to or in place of the records required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

§ 1363.7 *Enforcement.* (a) Persons violating any provision of this Revised Price Schedule No. 73 as amended, are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Revised Price Schedule No. 73 as amended or any price sched-

ule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1363.8 *Petitions for amendment.* Persons seeking any modification of this Revised Price Schedule No. 73 as amended, or any adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1363.9 *Definitions.* (a) When used in this Revised Price Schedule No. 73 as amended, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Fish meal" means clean, dry, ground tissues of undecomposed whole fish, fish cuttings, or fish scraps with or without the extraction of part of the oil.

(3) "Fish scrap" means clean, dry, unground tissues of undecomposed whole fish or fish cuttings with or without the extraction of part of the oil.

(4) "Grade" refers to the percentage of protein content per ton of fish meal or fish scrap.

(5) "Sale at retail" means a sale to the ultimate user: *Provided*, That no manufacturer, processor, or purchaser for resale shall be deemed to be an ultimate user.

(6) "Point of delivery" means f. o. b. conveyance at or in the vicinity of the buyer's warehouse or place of business.

(7) "Commercial distributor" means a person performing a recognized function in the physical distribution of fish meal or fish scrap: *Provided*, That no manufacturer or processor shall be deemed to be a commercial distributor of fish meal or fish scrap manufactured or processed by him.

(8) "Locality" means an area in which the seller customarily sells, sold, or would have sold fish meal or fish scrap at the same prices.

(9) In the phrase "similar amount to a similar purchaser" the word "similar" means that amount and that type of purchaser with respect to which the same mark-up applied or would have applied under the seller's trade practices on January 17, 1942.

(b) Unless the context otherwise requires, the definitions set forth in Section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1363.10 *Effective date of Price Schedule No. 73.* This schedule (§§ 1363.1 to 1363.10, inclusive) shall become effective January 20, 1942.[4]

§ 1363.11 *Effective dates of amendments.* (a) This Revised Price Schedule No. 73 as amended, (§§ 1363.1 to 1363.12, inclusive) shall become effective March 28, 1942.

§ 1363.12 *Appendix A: Maximum prices for sales of fish meal and fish scrap*—(a) *Maximum prices for sales of fish meal f. o. b. conveyance at fish reduction plant*—(1) *Maximum prices for sales of fish meal in new burlap bags.*

Guaranteed minimum percentage of protein	Pacific coast	Atlantic and Gulf coasts
	Dollars per ton	*Dollars per ton*
55	$64.00	$66.50
60	67.50	70.00
60	69.50	72.50
62	72.00	75.00
65	75.50	78.50
67	77.50	81.00
70	81.00	84.50

For sellers customarily guaranteeing percentages of protein other than those specified above, the maximum price per ton shall be calculated in the following manner:

(i) For Pacific Coast fish meal, multiply the guaranteed minimum percentage of protein by one dollar and sixteen cents ($1.16) and round to the nearest half dollar.

(ii) For Atlantic and Gulf Coast fish meal, multiply the guaranteed minimum percentage of protein by one dollar and twenty-one cents ($1.21) and round to the nearest half dollar.

(2) *Maximum prices for sales of fish meal in used burlap bags.* To determine the maximum price per ton for fish meal sold in used burlap bags, deduct one dollar ($1.00) from the prices specified in subparagraph (1) of this paragraph.

(3) *Maximum prices for sales of fish meal sold in bulk.* To determine the maximum price per ton for fish meal sold in bulk, deduct three dollars ($3.00) from the prices specified in subparagraph (1) of this paragraph.

(4) *Maximum prices for sales of fish meal sold in bags other than burlap bags.* To determine the maximum price per ton for fish meal sold in bags other than burlap bags, and the cost of the bags at replacement value to the prices specified in subparagraph (3) of this paragraph.

(b) *Maximum delivered prices for sales of fish meal.* The maximum delivered price per ton at any point of delivery shall be the maximum price determined under paragraph (a) of this section, plus the transportation charge at the lowest established rate for the mode of transportation employed, for an identical shipment to such point.

(c) *Maximum prices for sales of fish scrap f. o. b. conveyance at fish reduction plant.* The maximum price for sales of fish scrap f. o. b. conveyance at fish reduction plant shall be three dollars ($3.00) per ton less than the prices specified in paragraph (a) of this section

(d) *Maximum delivered prices for sales of fish scrap.* The maximum delivered price per ton at any point of delivery shall be the maximum price determined under paragraph (c) of this section, plus the transportation charge at the lowest established rate for the mode of transportation employed, for an identical shipment to such point.

(e) *Maximum prices for sales of fish meal manufactured at points other than fish reduction plants f. o. b. conveyance.* To determine the maximum price per ton f. o. b. conveyance for fish meal manufactured at points other than fish reduction plants, add three dollars ($3.00) per ton to the maximum delivered price, determined under paragraph (d) of this section, for the fish scrap actually used in the production of such fish meal. The manufacturer shall at all times use first the quantities of each grade of fish scrap (or quantities equivalent thereto) which were purchased first.

(f) *Maximum delivered prices for sales of fish meal, manufactured at points other than fish reduction plants.* The maximum delivered price per ton at any point of delivery shall be the maximum price determined under paragraph (e) of this section, plus the transportation charge at the lowest established rate for the mode of transportation employed for an identical shipment to such point.

(g) *Maximum prices for sales of fish meal or fish scrap by commercial distributors.* The maximum price for fish meal or fish scrap sold by commercial distributors shall be (1) the maximum price established under paragraphs (a) to (f) of this section, inclusive, whichever is applicable, plus the mark-up in terms of dollars per ton charged or that would have been charged by the seller on January 17, 1942, in selling in the same locality the same grade of fish meal or fish scrap in a similar amount to a similar purchaser or (2) if purchased from another commercial distributor, the maximum price established under (1) above, plus the mark-up in terms of dollars per ton charged or that would have been charged by the seller on January 17, 1942, in selling in the same locality the same grade of fish meal or fish scrap in a similar amount to a similar purchaser.

(h) *Maximum prices for sales of imported fish meal or fish scrap.* In computing the maximum prices for fish meal and fish scrap imported from outside of the several States of the United States, the term "fish reduction plant" in subparagraphs (a) and (c) of this section, shall be deemed to read "United States port of entry."

Issued this 27th day of March 1942.

AUTHORITY: §§ 310.1 to 310.42, inclusive, issued under authority contained in the Act approved March 6, 1942 (Pub. Law 482, 77th Cong.)

SUBPART A—GENERAL RULES

§ 310.1 *Submission of risks.* All risks should be submitted by letter or telegram addressed to the War Shipping Administration, Washington, D. C. and directed to the attention of the Wartime Insurance Committee. Where risks are offered by telephone, telegraphic confirmation must also be received by the Wartime Insurance Committee before any quotation will be made.

§ 310.2 *Requests for quotations.* Requests for quotations should be received by the Wartime Insurance Committee not later than 4:00 P. M. (Eastern War Time) on the date quotation is desired.

§ 310.3 *Expiration of quotations.* Unless otherwise stipulated by the Wartime Insurance Committee, quotations will hold good until 3:00 P. M. (Eastern War Time) of the first business day following quotation and will expire at that time if not accepted.

§ 310.4 *Acceptance of quotations and evidence thereof.* Acceptance of quotation must be evidenced by (a) telegraphic notice to the Wartime Insurance Committee filed prior to 3:00 P. M. (Eastern War Time) of the first business day following quotation, and (b) delivery of a certified check, cashier's check or money order, made payable to the War Shipping Administration and bearing the serial number of the binder for identification, to War Shipping Administration, Washington, D. C., or any of the following district agents, managers and/or representatives: Baltimore, Md., Boston, Mass., Galveston, Texas, Los Angeles, Calif., Mobile, Alabama, New Orleans, La., New York, N. Y., Norfolk, Va., Philadelphia, Pa., Seattle, Wash., not later than 3:00 P. M. (Eastern War Time) of the first business day following quotation.

§ 310.5 *Attachment of insurance.* No insurance will attach until acceptance of risk has been effected as provided above.

§ 310.6 *Reservation of right to decline quotation.* The Administration reserves the right to decline to quote on any risk submitted, or to defer quoting on risks where prompt sailing of the vessel is not anticipated.

SUBPART B—SPECIAL RULES APPLICABLE TO WAR RISK INSURANCE ON CARGO

§ 310.11 *Information required for cargo quotations.* All requests for quotations, if forwarded by mail, should contain the following information: (a) Name of party to be insured; (b) Payee in event of loss; (c) Description and quantity of goods; (d) Identification of goods insured (i. e. marks and numbers, bill of lading number, or other specific identification); (e) Voyage to be insured; (f) Amount of insurance; (g) Name of vessel or steamship line, if known; (h) Anticipated date of shipment from point of origin; whether port or interior. *Requests for quotations made by telegram should not contain vessel's name or anticipated date of shipment*, but such information should be included in an air mail letter of even date and telegram should state that such a letter has been sent. Copy of said air mail letter should be attached to check delivered to Administration for payment of premium.

§ 310.12 *Time for shipment.* Risks insured by the Administration must be shipped and in transit within 30 days of date of binder, unless extension of this period is granted by the Wartime Insurance Committee.

§ 310.13 *Interruption or termination of transit.* If transit of goods is interrupted or terminated by the shipper, the consignee, or the assured, or any party acting under their instructions, the insurance shall forthwith terminate unless otherwise agreed on behalf of the Administration by the Wartime Insurance Committee.

§ 310.14 *Special clauses.* All insurances shall be subject to the following clauses, unless otherwise stipulated by the binder;

(a) *Valuation of goods.*

In event of loss the valuation of the goods insured hereunder shall not exceed the invoice cost, or if there be no invoice the value of the goods at time and place of shipment, plus transportation and insurance costs actually incurred with respect to the shipment, plus 10%.

(b) *Not water-borne warranty.*

Warranted that the goods insured hereunder have not become water-borne on overseas vessel on or prior to the date of this insurance.

Provided, however, That on shipments attaching in United States ports, the following clause may, upon application, be substituted for clause (b)

(c) *Good safety warranty.*

Warranted that the interest insured is in good safety in a United States port at day and hour of attachment of risk.

§ 310.15 *Cancellation of insurance.* Insurance once bound is not subject to cancellation unless the goods insured are not shipped and unless policies and binder are returned for cancellation.

§ 310.16 *Coverage at intermediate ports.* Where application therefor is made at the time insurance is bound, the Administration will consider granting, at additional premium, the following indorsement:

In consideration of an additional premium of $---------- it is understood and agreed that Clause 4 (c) of this policy is deleted. It is further understood and agreed that if, owing to circumstances beyond the control of the Assured, the merchandise insured hereunder is landed at an intermediate port other than the intended port of discharge, this insurance shall continue in force subject to all of its terms until the Assured has had a reasonable opportunity to forward the goods to their intended destination, or substituted destination, or to dispose of said goods at port of landing. In the event that prior to the termination of this insurance said goods are forwarded to substituted destination as aforesaid this policy shall continue to cover, subject to its terms, to such substituted destination without further additional premium.

SUBPART C—SPECIAL RULES APPLICABLE TO WAR RISK INSURANCE ON HULL

§ 310.21 *Information required for hull quotations.* All requests for quotations, if forwarded by mail, should contain the following information: (a) Flag of vessel; (b) Name of owner; (c) Voyage for which quotation requested and anticipated number of days involved; (d) Amount of insurance requested and total value of vessel for war risk insurance purposes; (e) Statement as to commercial war risk insurance rates; (f) Name of vessel; (g) Expected sailing date. If such requests are forwarded by telegram, name of vessel and sailing date must not appear in the telegram; but such telegram must be supplemented by an air mail letter of even date providing such information, and the telegram must state that such a letter has been sent. Copy of said air mail letter should be attached to check delivered to Administration for payment of premium.

§ 310.22 *Time for sailing.* Vessels insured by the Administration must sail within 30 days of acceptance of risk unless an extension is granted by the Administration and an additional premium paid, if required, or unless some shorter period of time is stipulated by the Administration at time of quotation.

§ 310.23 *Rules accepted subject to current rules, etc.* All risks accepted by the Administration will be subject to the current rules, regulations, conditions and policy forms as prescribed by the Administration, and to the possession by the Assured of a United States Warrant, and in certain instances of a British Ship Warrant.

§ 310.24 *Safe in port warranty.* Unless otherwise specially agreed, all insurances shall be subject to the following warranty: "Warranted vessel safe in port at time of attachment of this insurance."

§ 310.25 *Fixed rates on fleets.* Where an owner desires to insure all of his vessels, or all of his vessels operating in a stated trade, with the War Shipping Administration, the Administration will give consideration to naming fixed rates for all risks attaching within a period of 30 days or 60 days. Where such rates are named by the Administration they must be accepted within 48 hours or such other period as may be stipulated by the Administration. Thereafter, the owner has an obligation to report all such risks to the Administration but no insurance shall attach until such report is made and premium paid as hereinbefore specified. Such reports, containing name of steamer and attachment date, should not be sent by telegram but should be mailed in sufficient time to permit receipt by the War Shipping Administration prior to date of attachment of risk.

SUBPART D—RULES APPLICABLE TO WAR RISK INSURANCE ON CREW INTERESTS

§ 310.31 *Information required for crew interests quotations.* Insurances on crew interests must be submitted to the Administration in accordance with the rules specified for insurance on hulls but the request for quotation should include: (a) Where crew life and dismemberment insurance is required, a statement of the total number of master, officers and crew and total amount of insurance desired; (b) Where insurance covering crew's personal effects is required, a statement of the total amount of such insurance desired, and (c) Where insurance covering owners liability for wages and emergency wages during repatriation or detention is required, a statement as to the annual payroll and as to the total amount of insurance desired. Where insurance is desired for more than one year's wages, the rate quoted by the Administration will be applied to the annual payroll.

§ 310.32 *Decisions of Maritime War Emergency Board.* Subject to the limits of insurance requested by the owners of the vessel in each case, insurances on crew interests will be in accordance with the decisions of the Maritime War Emergency Board, in effect at time of binding risk.

SUBPART E—AMENDMENTS TO RULES

§ 310.41 *Incorporation of amendments in bulletins.* Amendments to these rules and regulations will be incorporated in a series of bulletins which will be issued by the Administration from time to time and which will be numbered consecutively. Copies of these bulletins will be available upon request to parties properly interested therein. The foregoing rules and regulations will be incorporated in Bulletin No. 1 of such series.

§ 310.42 *Schedules of war risk rates.* Schedules of war risk rates will be similarly issued by the Administration. Where special circumstances exclude particular ships or cargoes from the rates quoted in the bulletins, rates may be named upon application to the Wartime Insurance Committee.

By Order of the War Shipping Administration.

[SEAL] W. C. PEET, Jr.,
Secretary.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service

Subchapter Q—Alaska Commercial Fisheries

PART 201—ALASKA FISHERIES GENERAL REGULATIONS

Section 201.5 is hereby amended to read as follows:

§ 201.5 *Time used in various fishing areas.* The time used in the various areas for the enforcement of the law and the regulations that specify hours and days shall be as follows:

(a) In the southeastern Alaska area: War time of the 135th meridian of west longitude, which is one hour slower than Seattle time (or Pacific war time).

(b) In the Bering River, Copper River, Prince William Sound, Resurrection Bay, Cook Inlet, Kodiak, Chignik, Alaska Peninsula, and Bristol Bay areas: War time of the 150th meridian of west longitude, which is two hours slower than Seattle time (or Pacific war time).

(c) In the Aleutian Islands and Yukon-Kuskokwim areas: War time of the 165th meridian of west longitude, which is three hours slower than Seattle time (or Pacific war time).

Section 201.9 is hereby amended to read as follows:

§ 201.9 *Traps must be made inoperative within 12 hours after close of season.* Within 12 hours after the beginning of any seasonal closed period, the wire on the entire long wall of the small heart from the pot tunnel to the first corner, on both sides, shall be cut down, and any lead within 50 feet of the small heart gap shall be cut down. Within 24 hours after the beginning of any seasonal closed period (a) the tunnels from pots to spillers of all traps shall be entirely disconnected, and (b) the spillers of all driven traps shall be raised to within 4 feet of the capping and the spillers of floating traps shall be raised to within 4 feet of the surface. With respect to traps not provided with spillers, the requirements with regard to spillers shall apply to the pots.

Section 201.15 is hereby amended to read as follows:

§ 201.15 *Trawls prohibited in fishing for certain species.* The use of any trawl in commercial fishing for salmon, herring, and Dungeness crabs is prohibited.

New sections, to be known as §§ 201.21a and 201.21b are hereby inserted, following § 201.21, to read as follows:

§ 201.21a *Protection of female and small male king or spider crabs.* No female king or spider crab (Paralithodes) shall be taken at any time in the waters of Alaska, and no male of this species measuring less than 5½ inches in greatest width of shell shall be taken for commercial purposes.

§ 201.21b *Native fishing rights.* No trap shall be established in any site in which any Alaskan native or natives has or have any rights of fishery, by virtue of any grant or by virtue of aboriginal occupancy, by any person other than such native or natives. Any native or natives claiming such rights may petition the Secretary of the Interior for a hearing with respect to the validity of such claim, and prior to any such determination such claimant and any interested parties desiring to appear in opposition to such claim shall have an opportunity to be heard.

PART 204—BRISTOL BAY AREA SALMON FISHERIES

§ 204.2 is hereby amended to read as follows:

§ 204.2 *Districts open to salmon fishing.* Commercial fishing for salmon is prohibited except within the following-described districts:

(a) Hagemeister district: Waters of Hagemeister Strait from 161 degrees 40 minutes west longitude to 160 degrees 38 minutes west longitude.

(b) Nushagak district: Waters of Nushagak Bay within a line from Point Protection to Etolin Point.

(c) Kvichak-Naknek district: Waters of Kvichak Bay within a line from Etolin Point to Middle Bluff Light on the eastern side of Kvichak Bay.

(d) Ugashik district: Waters between an east and west line at 58 degrees north latitude and the southern limit of the area at a point on the coast 3 statute miles south of Cape Menshikof.

Section 204.6 is hereby amended to read as follows:

§ 204.6 *Districts open to stake and set nets.* Commercial fishing for salmon with stake nets or set or anchored gill nets shall be limited to beach areas between high and low watermarks, exclusive of bars or flats that at low tide are not connected by exposed land to the shore or places not covered at high tide, and shall be confined to the following places:

(a) Nushagak district: Along the beach, except on the west side of Nushagak Bay from a point 2 statute miles south of Bradford Point to Coffee Point, and except along the east side of that bay from a point 2,500 yards southeast of Ekuk Bluff Light to Etolin Point.

(b) Kvichak Bay: Along the beach on the southeast shore of the bay from Prosper Creek to Coffee Creek.

(c) Naknek Bay: Along the beach on the north side of the bay from a point 1,200 yards above the drift gill net prohibitive markers to a point 1,500 yards outside such markers, and along the beach on the south side of the bay from a point 1,200 yards above the drift gill net prohibitive markers to a point 3,000 yards outside such markers.

(d) Ugashik Bay and River: Along the beach on the north side of the bay from Pilot Station to a point 500 yards south of Dago Creek, and along the beach on the east side of the river from a point 200 yards north of the Red Salmon Canning Co.'s cannery to a point 1,200 yards north of that cannery.

Section 204.20 is hereby amended to read as follows:

§ 204.20 *Waters closed to salmon fishing.* All commercial fishing for salmon is prohibited as follows:

(a) Nushagak Bay: All waters northward of a line from a marker 2 statute miles below Bradford Point to a marker on the opposite shore at Nushagak Point: *Provided,* That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks will be permitted to the old prohibitive line from Snag Point to the old village on the east bank.

(b) Kvichak Bay: All waters above a line extending across Kvichak Bay from the Squaw Creek Light to a marker on the opposite side at Coffee Creek Point: *Provided,* That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks will be permitted on the southeast shore from Prosper Creek to Coffee Creek.

(c) Naknek Bay: All waters within 1 statute mile of the mouth of the Naknek River: *Provided,* That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks will be permitted on each side of the bay to a point 1,200 yards above the drift gill net prohibitive markers.

(d) Ugashik River and Bay: All waters above a line extending at right angles across said river 500 yards below the mouth of King Salmon River: *Provided,* That stake nets or set or anchored gill nets limited to beach areas between high and low watermarks will be permitted on the east side of the river from a point 200 yards north of the Red Salmon Canning Co.'s cannery to a point 1,200 yards north of that cannery.

PART 205—ALASKA PENINSULA AREA FISHERIES

SALMON FISHERY

Section 205.11 is hereby amended to read as follows:

§ 205.11 *Waters open to seines; size of seines.* Commercial fishing for salmon by means of any purse seine more than 200 fathoms in length and 350 meshes in depth is prohibited in the waters between Castle Cape and Cape Pankof, including Ikatan Bay and the waters of the Shumagin Islands.

Section 205.14 *Catch limitation, entrance point to Cape Seniavin,* is hereby revoked and deleted.

Section 205.15 is hereby amended to read as follows:

§ 205.15 *Open seasons, salmon fishing.* Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian May 27 in each calendar year and during the remainder of each calendar year after 6 o'clock postmeridian August 10, except that beach seines and gill nets may be used from September 5 to September 30, both dates inclusive.

A new section, to be known as § 205.16a, is hereby inserted following § 205.16, to read as follows:

§ 205.16a *Gear restriction, Swanson Lagoon.* Commercial fishing for salmon is prohibited in Swanson Lagoon, except by means of gill nets.

Section 205.18 is hereby amended to read as follows:

§ 205.18 *Waters closed to salmon fishing.*

* * * * *

(b) Thin Point Lagoon, East Bay (Long John Lagoon), Kinzaroff Lagoon, Mortensen Lagoon, Big Lagoon, and Middle or Lambsport Lagoon: All waters within the lagoons and their streams and within a distance of 500 yards outside the entrance to the lagoons.

PART 207—CHIGNIK AREA FISHERIES

SALMON FISHERY

Section 207.4 is hereby amended to read as follows:

§ 207.4 *Length of set nets.* No set or anchored gill net shall be less than 50 fathoms or more than 75 fathoms in length measured on the cork line.

PART 208—KODIAK AREA FISHERIES

SALMON FISHERY

Section 208.4 *Size of mesh and length of beach seines,* is hereby revoked and deleted.

Section 208.5 is hereby amended to read as follows:

§ 208.5 *Operation of beach seines.* Beach seines shall be set from the beach only. No beach seine shall be set as a trap or as a lead and left without reasonably prompt completion of the seining operation. No beach seine shall be more than 200 fathoms in length.

Section 208.17 (*Closed season, Karluk fishery*), is hereby revoked and deleted.

Section 208.20 is hereby amended to read as follows:

§ 208.20 *Closed season, August 14 to September 1; exceptions.* Commercial fishing for salmon is prohibited from 6 o'clock postmeridian August 14 to 6 o'clock antemeridian September 1: *Provided,* That this prohibition shall not apply (a) to all gear on the west coast of Kodiak Island from Cape Alitak to Cape Karluk, (b) to beach seines and purse seines on the north coast of Kodiak Island from Cape Karluk to Cape Uyak, and (c) to set or anchored gill nets on the north coast of Kodiak Island from Cape Uyak to West Point.

A new section, to be known as § 208.20a, is hereby inserted following § 208.20, to read as follows:

§ 208.20a *Traps prohibited, September 1 to 30.* Commercial fishing for salmon by means of any trap is prohibited in the period from 6 o'clock antemeridian September 1 to 6 o'clock postmeridian September 30.

PART 208—KODIAK AREA FISHERIES

HERRING FISHERY

A new section, to be known as § 208.24, is hereby inserted following § 208.23, to read as follows:

§ 208.24 *Closed seasons, herring fishing.* In the waters of Shelikof Strait southeast of a line extending down the middle of the Strait from the latitude of Point Banks to the latitude of Cape Alitak and in all contiguous waters, including the waters of Kupreanof and Raspberry Straits eastward to the western extremity of Whale Island and the waters of Shuyak Strait, commercial fishing for herring, except by gill nets, is prohibited from 6 o'clock antemeridian July 12 to 6 o'clock postmeridian July 18, from 6 o'clock antemeridian August 16 to 6 o'clock postmeridian August 22, and from 6 o'clock antemeridian September 20 to 6 o'clock postmeridian September 26.

Section 208.25 is hereby amended to read as follows:

§ 208.25 *Herring catch limitations; exceptions.* In the period from July 1 to October 15, both dates inclusive, the total take of herring for commercial purposes, except for bait and except by gill nets, shall not exceed 150,000 barrels, upon the basis of 250 pounds per barrel, in the waters of Shelikof Strait southeast of a line extending down the middle of the Strait from the latitude of Point Banks to the latitude of Cape Alitak and in all contiguous waters, including the waters of Kupreanof and Raspberry Straits eastward to the western extremity of Whale Island and the waters of Shuyak Strait. In the period from October 16 of one year to June 30 of the succeeding year the total take of herring in these waters for commercial purposes, except for bait and except by gill nets, shall not exceed 10,000 barrels, upon the basis of 250 pounds per barrel, of which not more than 2,000 barrels shall be taken in the period October 16 to November 15, both dates inclusive, and not more than 4,000 barrels shall be taken in any succeeding 30-day period.

PART 209—COOK INLET AREA FISHERIES

SALMON FISHERY

Section 209.2 is hereby amended to read as follows:

§ 209.2 *Open seasons, salmon fishing.* (a) Between the latitude of the established stream marker marking the south limit of the closed area around the mouth of Kasilof River at approximately 60 degrees 22 minutes 23 seconds north latitude to the latitude of Anchor Point Light, exclusive of all waters adjacent to Kalgin Island, commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian May 25 and after 6 o'clock postmeridian August 8 in each year: *Provided,* That this prohibition shall not apply to the use of gill nets from 6 o'clock antemeridian August 20 to 6 o'clock postmeridian September 10.

(b) South of the latitude of Anchor Point Light Commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian May 25 and after 6 o'clock postmeridian August 10 in each year: *Provided,* That this prohibition shall not apply to the use of beach seines or gill nets from 6 o'clock antemeridian August 22 to 6 o'clock postmeridian September 10.

(c) North of the latitude of the marker marking the south limit around the mouth of Kasilof River, as described herein under paragraph (a), including all waters adjacent to Kalgin Island, commercial fishing for salmon is prohibited prior to 6 o'clock antemeridian June 25 and after 6 o'clock postmeridian August 8 in each year: *Provided,* That this prohibition shall not apply (1) after 6 o'clock antemeridian May 25 to the use of gear having mesh not less than 8½ inches stretched measure between knots, or to gill nets of which not to exceed 35 fathoms in use by any individual or on any boat may have mesh less than 8½ inches stretched measure between knots, and (2) from 6 o'clock antemeridian August 20 to 6 o'clock postmeridian September 10 to the use of gill nets.

Section 209.10 is hereby amended to read as follows:

§ 209.10 *Total aggregate length of set nets.* No set or anchored gill net shall exceed 35 fathoms in length measured on the cork line. The total aggregate length of set or anchored gill nets used by any individual or operated from any boat shall not exceed 105 fathoms. South of the latitude of Anchor Point, seine webbing not exceeding 30 fathoms in length may be used on the shore end of any set or anchored gill net between the lines of high and low water.

Section 209.16 is hereby amended to read as follows:

§ 209.16 *Areas open to salmon traps.*

* * * * *

(e) Along the west coast of Kalgin Island within 1,000 feet of a point at 60 degrees 21 minutes 33 seconds north latitude, 152 degrees 4 minutes 18 seconds west longitude.

* * * * *

(s) Along the mainland coast on the east side of Cook Inlet east of Flat Island within 1,200 feet of a point at 59 degrees 19 minutes 36 seconds north latitude, 151 degrees 58 minutes 4 seconds west longitude.

CRAB FISHERY

Section 209.34, *Protection of female and small male crabs,* is hereby revoked and deleted.

PART 210—RESURRECTION BAY AREA FISHERIES

SALMON FISHERY

Section 210.7 is hereby amended to read as follows:

§ 210.7 *Opening date for red salmon fishing.* Prior to 6 o'clock antemeridian May 25 in each year, commercial fishing for salmon with nets of mesh less than 8½ inches stretched measure between knots is prohibited.

PART 211—PRINCE WILLIAM SOUND AREA FISHERIES

SALMON FISHERY

Section 211.3 is hereby amended to read as follows:

§ 211.3 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 125 meshes nor more than 350 meshes in depth, nor less than 90 fathoms nor more than 150 fathoms in length measured on the cork line. For the purpose of determining depth of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

Section 211.12 is hereby amended to read as follows:

§ 211.12 *Areas open to salmon traps.*

* * * * *

(m) Mainland coast, near Knowles Head, within 2,500 feet of a point at 60 degrees 41 minutes 30 seconds north latitude, 148 degrees 40 minutes 22 seconds west longitude.

* * * * *

HERRING FISHERY

A new section, to be known as § 211.14, is hereby inserted following § 211.13, to read as follows:

§ 211.14 *Herring catch limitations, June 24 to August 20.* In the period from June 24 to August 20, both dates inclusive, the total take of herring for commercial purposes, except for bait and except by gill nets, shall not exceed 25,000 barrels, upon the basis of 250 pounds per barrel, in the waters of the Prince William Sound area within a line from Cape Cleare on Montague Island to Cape Puget on the mainland, thence along the mainland shore to the point on the south side of the entrance to Falls Bay, thence to the eastern extremity of Storey Island, and thence to Zaikof Point, including also all waters contiguous to the

southeastern shore of Montague Island between Zaikof Point and Cape Cleare.

Section 211.15 is hereby amended to read as follows:

§ 211.15 *Herring catch limitations, August 21 to June 23.* In the period from August 21 to October 15, both dates inclusive, the total take of herring for commercial purposes, except for bait and except by gill nets, shall not exceed 50,000 barrels, upon the basis of 250 pounds per barrel, in the waters of the Prince William Sound area within a line from Cape Cleare on Montague Island to Cape Puget on the mainland, thence along the mainland shore to the point on the south side of the entrance to Falls Bay, thence to the eastern extremity of Storey Island, and thence to Zaikof Point, including also all waters contiguous to the southeastern shore of Montague Island between Zaikof Point and Cape Cleare. In the period from October 16 of one year to June 23 of the succeeding year, the total take of herring in these waters for commercial purposes, except for bait and except by gill nets, shall not exceed 10,000 barrels, upon the basis of 250 pounds per barrel, of which not more than 2,000 barrels shall be taken in the period October 16 to November 15, both dates inclusive, and not more than 4,000 barrels shall be taken in any succeeding 30-day period.

PART 212—COPPER RIVER AREA FISHERIES

SALMON FISHERY

Section 212.6, *Identification of salmon-fishing boats*, is hereby revoked and deleted.

PART 213—BERING RIVER AREA FISHERIES

SALMON FISHERY

Section 213.4 is hereby amended to read as follows:

§ 213.4 *Closing date for salmon fishing.* Commercial fishing for salmon is prohibited after 6 o'clock postmeridian September 18 in each calendar year.

Section 213.6 is hereby amended to read as follows:

§ 213.6 *Salmon fishing limited to drift gill nets.* Commercial fishing for salmon shall be conducted solely by drift gill nets without the attachment of anything to obstruct their free movement through the water at all times: *Provided*, That gill nets attached to anchored boats or other anchored floating equipment may be used from 6 o'clock antemeridian August 10 to 6 o'clock postmeridian September 18 in each calendar year.

PART 220—SOUTHEASTERN ALASKA AREA FISHERIES OTHER THAN SALMON

Section 220.3 is hereby amended to read as follows:

§ 220.3 *Herring catch limitations; exceptions.* In any calendar month the total take of herring for commercial purposes, except for bait and except by gill nets, shall not exceed 2,000 barrels upon the basis of 250 pounds per barrel.

Section 220.10a, *Waters of Chatham Strait in which herring fishing is prohibited or restricted*, is hereby revoked and deleted.

Section 220.10c, *Herring fishing restricted in Sitka Sound*, is hereby revoked and deleted.

PART 220—SOUTHEASTERN ALASKA AREA FISHERIES OTHER THAN SALMON

SHRIMP FISHERY

Section 220.16 is hereby amended to read as follows:

§ 220.16 *Closed season, shrimp fishing.* Commercial fishing for shrimp is prohibited in the period from February 1 to April 30, both dates inclusive, in each year.

Section 220.17 is hereby amended to read as follows:

§ 220.17 *Protection of immature shrimp.* Not more than 25 percent of the number of shrimp in any box or container taken at any time for commercial purposes shall be less than 3 inches in length, measured from the tip of the horn to the tip of the tail.

PART 222—SOUTHEASTERN ALASKA AREA, ICY STRAIT DISTRICT, SALMON FISHERIES

Section 222.3 is hereby amended to read as follows:

§ 222.3 *Total aggregate length of gill nets.* The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure. No gill net shall be less than 50 fathoms in length, and mesh shall be not less than 5⅜ inches stretched measure between knots.

Section 222.7 is hereby amended to read as follows:

§ 222.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

PART 223—SOUTHEASTERN ALASKA AREA, WESTERN DISTRICT, SALMON FISHERIES

Section 223.3 is hereby amended to read as follows:

§ 223.3 *Total aggregate length of gill nets.* The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure. No gill net shall be less than 50 fathoms in length, and mesh shall be not less than 5⅜ inches stretched measure between knots.

Section 223.7 is hereby amended to read as follows:

§ 223.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

Section 223.9 is hereby amended to read as follows:

§ 223.9 *Closed seasons, south of Point Couverden.* Commercial fishing for salmon, other than trolling, south of a true line eastward from the southeastern extremity of Point Couverden is prohibited prior to 6 o'clock antemeridian July 5, from 6 o'clock post meridian August 18 to 6 o'clock antemeridian October 1, and for the remainder of each calendar year after 6 o'clock post meridian October 20.

PART 224—SOUTHEASTERN ALASKA AREA, EASTERN DISTRICT, SALMON FISHERIES

Section 224.3 is hereby amended to read as follows:

§ 224.3 *Total aggregate length of gill nets.* The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure. No gill net shall be less than 50 fathoms in length, and mesh shall be not less than 5⅜ inches stretched measure between knots.

Section 224.7 is hereby amended to read as follows:

§ 224.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

Section 224.9 is hereby amended to read as follows:

§ 224.9 *Seasonal closing dates, salmon fishing.* Commercial fishing for salmon, other than trolling, is prohibited for the remainder of each calendar year after 6 o'clock postmeridian August 18: *Provided*, That this prohibition shall not apply to the use of drift gill nets in Taku Inlet from 6 o'clock antemeridian September 5 to 6 o'clock postmeridian September 30; *And provided further*, That this prohibition shall not apply to commercial fishing for salmon south of 58 degrees north latitude from 6 o'clock antemeridian October 1 to 6 o'clock postmeridian October 20.

PART 226—SOUTHEASTERN ALASKA AREA, SUMNER STRAIT DISTRICT, SALMON FISHERIES

Section 226.7 is hereby amended to read as follows:

§ 226.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

Section 226.9 is hereby amended to read as follows:

§ 226.9 *Closed seasons; exceptions.* Commerical fishing for salmon other than trolling is prohibited, except in Ernest Sound, Zimovia Strait, and Bradfield Canal, prior to 6 o'clock antemeridian July 20 in each calendar year, from 6 o'clock postmeridian August 22 to 6 o'clock antemeridian October 5 in each year, and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

PART 227—SOUTHEASTERN ALASKA AREA, CLARENCE STRAIT, SALMON FISHERIES

Section 227.3 is hereby amended to read as follows:

§ 227.3 *Total aggregate length of gill nets.* The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure. No gill net shall be less than 50 fathoms in length, and mesh shall be not less than 5⅜ inches stretched measure between knots.

Sections 227.7 to 227.11, inclusive, are hereby amended to read as follows:

§ 227.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

§ 227.8 *Closed seasons, northern section.* Commercial fishing for salmon, other than trolling, north of a line extending from Narrow Point to Ernest Point is prohibited prior to 6 o'clock antemeridian July 25, from 6 o'clock postmeridian August 28 to 6 o'clock antemeridian October 5, and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

§ 227.9 *Closed seasons, central section.* Commercial fishing for salmon, other than trolling, between a line extending from Narrow Point to Ernest Point and a line extending from Approach Point to Caamano Point is prohibited prior to 6 o'clock antemeridian July 20, from 6 o'clock postmeridian August 25 to 6 o'clock antemeridian October 5 and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

§ 227.10 *Closed seasons, southeast section.* Commercial fishing for salmon, other than trolling, south of a line extending from Approach Point to Caamano Point and east of a line extending down the middle of Clarence Strait is prohibited prior to 6 o'clock antemeridian July 20, from 6 o'clock postmeridian August 23 to 6 o'clock antemeridian October 5, and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

§ 227.11 *Closed seasons, southwest section.* Commercial fishing for salmon, other than trolling, south of a line extending from Approach Point to Caamano Point and west of a line extending down the middle of Clarence Strait is prohibited prior to 6 o'clock antemeridian July 20, from 6 o'clock postmeridian August 24 to 6 o'clock antemeridian October 5, and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

Section 227.15 is hereby amended to read as follows:

§ 227.15 *Areas open to salmon traps.*

* * * * *

(n) Gravina Island: East coast (1) within 2,500 feet of a point at 55 degrees 10 minutes 30 seconds north latitude, including adjacent rocks, and (2) within 2,500 feet of a point at 55 degrees 12 minutes north latitude near the south side of the entrance to Bostwick Inlet.

PART 228—SOUTHEASTERN ALASKA AREA, SOUTH PRINCE OF WALES ISLAND DISTRICT, SALMON FISHERIES

Sections 228.7 and 228.8 are hereby amended to read as follows:

§ 228.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind except leads and unhung web for mending purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 75 fathoms in length and having mesh less than 7 inches stretched measure between knots is prohibited.

§ 228.8 *Closed seasons, salmon fishing.* Commercial fishing for salmon, other than trolling, is prohibited prior to 6 o'clock antemeridian July 25 in each calendar year, from 6 o'clock postmeridian August 29 to 6 o'clock antemeridian October 5 in each year, and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

PART 229—SOUTHEASTERN ALASKA AREA, SOUTHERN DISTRICT, SALMON FISHERIES

Section 229.3 is hereby amended to read as follows:

§ 229.3 *Total aggregate length of gill nets.* The total aggregate length of gill nets on any salmon-fishing boat, or in use by such boat, shall not exceed 250 fathoms hung measure. No gill net shall be less than 50 fathoms in length, and mesh shall be not less than 5⅜ inches stretched measure between knots.

Section 229.7 is hereby amended to read as follows:

§ 229.7 *Operation of purse seines and leads.* No salmon-fishing boat shall carry or operate more than one seine of any description, and no additional net of any kind, except one lead having mesh not less than 7 inches stretched measure between knots and unhung web for mend-

ing purposes, shall be carried on such boat. The carrying of any additional seine or net of any kind on a boat towed by any salmon-fishing boat is prohibited. No purse seine shall be less than 175 meshes nor more than 350 meshes in depth nor less than 150 fathoms nor more than 200 fathoms in length, measured on the cork line. For the purpose of determining depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots. The extension to any seine in the way of leads exceeding 25 fathoms in length is prohibited. A lead having mesh not less than 7 inches stretched measure between knots may be detached from the seine.

Section 229.8 is hereby amended to read as follows:

§ 229.8 *Closed seasons, salmon fishing.* Commercial fishing for salmon, other than trolling, is prohibited prior to 6 o'clock antemeridian July 15, from 6 o'clock postmeridian August 18 to 6 o'clock antemeridian October 5, and for the remainder of each calendar year after 6 o'clock postmeridian October 25.

Section 229.15 is hereby amended to read as follows:

§ 229.15 *Areas open to salmon traps.*

[Docket No. B-236]

IN THE MATTER OF W. G. MOORE, 3D, AND H. S. MOORE, INDIVIDUALLY AND AS PARTNERS DOING BUSINESS UNDER THE NAME AND STYLE OF W. G. MOORE AND SON, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 14, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 18, 1942, by the Bituminous Coal Producers Board for District No. 1, a District Board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by W. G. Moore, 3d, and H. S. Moore, individually and as partners doing business under the name and style of W. G. Moore and Son (the "Code Member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 29, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Community Room, City Hall, Altoona, Pennsylvania.

It is further ordered, That Joseph A. Huston or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above named Code member as follows:

That said Code member, whose code membership became effective as of August 13, 1940, whose address is 11th Street, Phillipsburg, Pennsylvania, and who operates the W. G. Moore and Son Mine, Mine Index No. 634, located in Centre County, Pennsylvania, in Subdistrict No. 8, in District No. 1, wilfully violated section 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code by selling and delivering, subsequent to October 8, 1940, for truck shipment, coal produced at the aforesaid mine at prices below the effective minimum prices for said coal, plus the transportation charges, handling charges or incidental charges from the transportation facilities at the mine to the point from which all such charges were assumed and directly paid by the purchasers, including the following transactions:

(a) The sale and delivery during the period from October 8, 1940 to December 16, 1940, both dates inclusive, of substantial quantities of mine run coal, Size Group No. 3, to the Clyde Coal Company, delivered at the tipple facilities of said Clyde Coal Company, a distance of approximately ten miles, at delivered prices ranging from $1.80 to $1.85 per net ton, whereas the effective minimum f. o. b. mine price of said coal, as established by Order of the Director dated October 8, 1940, in Docket No. A-57 was $2.30 per net ton, to which minimum price there should have been added the transportation, handling or incidental charges of whatsoever kind or character for the transportation of said coal from the aforesaid mine to the tipple facilities of the Clyde Coal Company, as required by Price Instruction No. 6, as amended and contained in Supplement No. 1 to the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments;

(b) The sale and delivery, during the period from December 17, 1940 to March 6, 1941, both dates inclusive, of substantial quantities of mine run coal, Size Group No. 3, to the Clyde Coal Company, delivered at the tipple facilities of said Clyde Coal Company, a distance of approximately ten miles, at delivered prices ranging from $1.80 to $1.85 per net ton, whereas the effective minimum f. o. b. mine price of said coal, as established by Order of the Director dated December 17, 1940, in Docket No. A-426 was $2.15 per net ton, to which minimum price there should have been added the transportation, handling or incidental charges of whatsoever kind or character for the transportation of said coal from the aforesaid mine to the tipple facilities of the Clyde Coal Company, as required by said Price Instruction No. 6;

(c) The sale and delivery during the period from October 8, 1940 to November 30, 1940, both dates inclusive, of substantial quantities of mine run coal, Size Group No. 3, to the Banner Coal Company, delivered at the tramway of said Banner Coal Company, a distance of approximately five miles, at a delivered price of $1.75 per net ton, whereas the effective minimum f. o. b. mine price of said coal, as established by Order of the Director dated October 8, 1940, in Docket No. A-57 was $2.30 per net ton, to which minimum price there should have been added the transportation, handling or incidental charges of whatsoever kind or character for the transportation of said coal from the aforesaid mine to the tramway of the Banner Coal Company, as required by said Price Instruction No. 6; or

That said Code member operating the aforseaid mine wilfully violated the Order of the Director dated October 9, 1940, entered in General Docket No. 19,

(a) By selling, subsequent to October 14, 1940, substantial quantities of unpriced coal, produced at the aforesaid mine, including sales of substantial quantities of run of mine coal during the period October 14, 1940 to March 6, 1941, both dates inclusive, to the Clyde Coal Company, Code member, for rail shipment, and delivering said coal by truck at the loading and tipple facilities of the Clyde Coal Company at prices ranging from $1.80 to $1.85 per net ton, although at the time of said transactions no rail classifications or prices, temporary or final, had been established for the coal produced at the aforesaid mine for rail shipment from said facilities;

(b) By selling subsequent to the period October 14, 1940, substantial quantities of unpriced coal, produced at the aforesaid mine, including sales of substantial quantities of run of mine coal during the period October 14, 1940 to November 30, 1940, to the Banner Coal Company, Code member, for rail shipment, and delivering said coal by truck to the tramway of the Banner Coal Company at a price of $1.75 per net ton, although at the time of said transactions no rail classification or prices, temporary or final, had been established for the coal produced at the aforesaid mine for rail shipment from said tramway.

[Docket No. B-228]

IN THE MATTER OF SINAIKO BROS. COAL AND OIL CO., REGISTERED DISTRIBUTOR

NOTICE OF AND ORDER FOR HEARING

The Bituminous Coal Division (the "Division") finds it necessary in the proper administration of the Bituminous Coal Act of 1937 (the "Act") and the Bituminous Coal Code (the "Code") promulgated thereunder to determine:

A. Whether or not Sinaiko Bros. Coal and Oil Co., registered distributor, Registration No. 8430 (hereinafter sometimes referred to as the "Registered Distributor"), whose address is 132 N. Frances Street, Madison, Wisconsin, has violated any provisions of the Act, the Code, and orders and regulations of the Division, including the Marketing Rules and Regulations, Rules and Regulations for the Registration of Distributors and the Distributor's Agreement (the "Agreement") dated August 3, 1939, and filed by Sinaiko Bros. Coal and Oil Co., pursuant to an Order of the National Bituminous Coal Commission dated March 24, 1939, in Docket No. 12, which was adopted as an Order of the Division on July 1, 1939, and more particularly whether or not subsequent to September 30, 1940, said registered distributor:

1. during the period October 25, 1940, to August 7, 1941, both dates inclusive, paid the transportation charges from the producing mines to Madison, Wisconsin, on all-rail shipments of coal purchased and resold by it as follows:

(a) 1001.25 net tons of 1¼" screenings coal produced by Pyramid Coal Corporation, code member, at its Pyramid Mine, Mine Index No. 142, located at Pinckneyville, Illinois, purchased by the registered distributor from Binkley Coal Company as sales agent for said code member; 98.90 net tons of 2" x 4" egg coal purchased by the registered distributor from and produced by The United Electric Coal Companies, code member, at its Buckheart Mine, Mine Index No. 17, located at Dunfermline, Illinois; and 175.80 net tons of 1¼" washed, oil-treated screenings coal purchased by the registered distributor from and produced by Sahara Coal Company, code member, at its Bankston Creek No. 6 Mine, Mine Index No. 4, located near Harrisburg, Illinois; all of which coal was resold by registered distributor to Ray-O-Vac Company, 2317 Winnebago Street, Madison, Wisconsin;

(b) 543.45 net tons of 1" dedusted screenings coal purchased by the registered distributor from and produced by Old Ben Coal Corporation, code member, at its Old Ben No. 8 Mine, Mine Index No. 118, located at West Frankfort, Illinois, and 48.90 net tons of 1" dedusted screenings coal purchased by registered distributor from and produced by Chicago, Wilmington, and Franklin Coal Company, code member, at its Orient Mine, Mine Index No. 124, located at Orient, Illinois; all of which coal was resold by registered distributor to Scanlan-Morris Company, 1902 East Johnson Street, Madison, Wisconsin; resulting in violations of section 4 II (i) 3 and 6 of the Act, Rule 1 (J) of section VII, Rules 3 and 6 of section XIII of the Marketing Rules and Regulations, and Paragraphs (c) and (e) of the Agreement; and

2. During the period commencing November 7, 1940, and ending November 24, 1941, both dates inclusive, accepted and retained distributor's discounts from the effective minimum prices on approximately 761.05 net tons of coal purchased by said distributor from and produced by Old Ben Coal Corporation, and Chicago, Wilmington, and Franklin Coal Company, at their aforesaid mines, resold by registered distributor to Scanlan-Morris Company, and physically handled by said distributor, resulting in a violation of paragraph (d) of the Agreement.

B. Whether or not the registration of said Sinaiko Bros. Coal and Oil Co., should be revoked or suspended or other appropriate penalties should be imposed.

It is, therefore, ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether or not the aforementioned Sinaiko Bros. Coal and Oil Co., has committed violations in the respects heretofore described and whether or not the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on April 29, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Federal Court Chamber, Federal Building, Madison, Wisconsin.

It is further ordered, That J. D. Dermody or any other officer or officers of the Bituminous Coal Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Sinaiko Bros. Coal and Oil Co. and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer setting forth the position of the aforementioned Sinaiko Bros. Coal and Oil Co., with reference to the matters hereinbefore described, must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service hereof on Sinaiko Bros. Coal and Oil Co., and that failure to file an answer herein within such period, unless the presiding officer shall otherwise order, shall be deemed to be an admission by Sinaiko Bros. Coal and Oil Co., of the commission of the violations hereinbefore described and a consent to the entry of an appropriate order thereon.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: March 28, 1942.

IN THE MATTER OF ROBERT BURNS AND IRVIN R. BURNS, INDIVIDUALLY AND AS CO-PARTNERS, DOING BUSINESS UNDER THE NAME AND STYLE OF THE BURNS MINE (BURNS MINE, ROBERT BURNS, MGR., IRVIN R. BURNS), CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 5, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 9, 1942, by Bituminous Coal Producers Board for District No. 22, a district board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Robert Burns and Irvin R. Burns, individually and as co-partners, doing business under the name and style of Burns Mine, (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on May 18, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Billings Commercial Club, Billings, Montana.

It is further ordered, That Edward J. Hayes or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above-named Code member as follows:

1. The defendants, Robert Burns and Irvin R. Burns, individually and as co-partners, doing business under the name and style of the Burns Mine of Red Lodge, Montana, whose code membership became effective as of June 26, 1937, operator of the Burns Mine, Mine Index No. 121, located in Carbon County, Montana, Subdistrict No. 2 of District No. 22, sold, subsequent to September 30, 1940, below the effective minimum price therefor, coal produced at the above-named mine for truck shipments including sales:

(a) to various purchasers during the months of September, October and November 1941, of approximately 404.325 net tons of 2½" and 3" lump coal at $3.75 per net ton f. o. b. said mine, whereas said coal was classified as Size Group No. 1 for said mine and priced at $4.00 per net ton f. o. b. said mine as set forth in the Schedule of Effective Minimum Prices for District No. 22 for All Shipments, pursuant to Price Instruction and Exception No. 5 of said schedule, resulting in violation of section 4, Part II (e) of the Act and Part II (e) of the Code;

(b) to various purchasers during the months of September, October and November 1941, of approximately 48.575 net tons of 3" x 1¼" nut coal at $2.50 per net ton f. o. b. said mine, whereas said coal falls within Size Group No. 5 for said mine and is priced at $3.50 per net ton f. o. b. said mine as set forth in said schedule, pursuant to Price Instruction and Exception No. 5 of said schedule, resulting in violation of section 4, Part II (e) of the Act and Part II (e) of the Code.

2. The aforesaid defendants falsely billed the coal referred to in paragraph 1 (a) hereof as 2" lump coal in violation of section 4 II (i) 8 of the Act, Part II (i) 8 of the Code, Rule 2 of section XII and Rule 8 of section XIII of the Marketing Rules and Regulations.

Dated: March 28, 1942.

[Docket No. B-235]

IN THE MATTER OF C. L. PENCE, AND E. H. PENCE, INDIVIDUALLY AND AS CO-PARTNERS, TRADING AND DOING BUSINESS AS PENCE COAL COMPANY (E. H. PENCE), CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated March 14, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 (the "Act"), having been duly filed on March 18, 1942, by Bituminous Coal Producers Board for District No. 1, a District Board, complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by C. L. Pence, and E. H. Pence, individually and as co-partners, trading and doing business as Pence Coal Company (E. H. Pence), (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 30, 1942, at 10 a. m., at a hearing room of the Bituminous Coal Division at the Community Room, City Hall, Altoona, Pennsylvania.

It is further ordered, That Joseph A. Huston or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violations by the above named Code member as follows: That the said C. L. Pence (New Bethlehem, Pennsylvania), and E. H. Pence (Fairmount City, Pennsylvania), individually and as co-partners trading and doing business as Pence Coal Company,

(1) Wilfully violated section 4 II (e) and (g) of the Act and Part II (e) and (g) of the Code by selling and delivering subsequent to September 30, 1940, for truck shipment, coal produced by said code member at the Pence Coal Company Mine, Mine Index No. 1887, located in Clarion County, Pennsylvania, in Subdistrict No. 4 of District No. 1 at prices below the effective minimum prices for said coal, plus the transportation charges, handling charges, or incidental charges from the transportation facilities at the mine to the point from which all such charges were assumed and directly paid by the purchaser, including the sale and delivery during the period January and February 1941 of approximately 2753.85 net tons of run of mine coal, Size Group No. 3, to Pittsburg and Shawmut Coal Company, at Colwell Siding of the Freebrook Corporation, an affiliate of said Pittsburg and Shawmut Coal Company, at Colwell, Pennsylvania, a distance of approximately 17 miles, at a delivered price of $1.50 per net ton, whereas the effective minimum f. o. b. mine price of said coal, as set forth in the Schedule of Effective Minimum Prices for District No. 1 For Truck Shipments, was $2.15 per net ton, to which minimum price there was not added an amount at least equal, as nearly as practicable, to the transportation charges, handling charges or incidental charges from the transportation facilities at the mine, to said Colwell Siding, located at Colwell, Pennsylvania, as required by Price Instruction No. 6, as amended and contained in Supplement No. 1 of said Schedule; or

(2) Wilfully violated the Order of the Director dated October 9, 1940, entered in General Docket No. 19, by selling during the months of January and February 1941, approximately 2753.85 net tons of run of mine coal produced by said code member at the aforesaid mine, to Pittsburg and Shawmut Coal Company, for rail shipment and delivering said coal by truck to a ramp on a rail siding of said Freebrook Corporation, located at Colwell, Pennsylvania, at a price of $1.50 per net ton, although at the time of said transactions rail classifications or prices, temporary or final, had not been established for the coal produced at the aforesaid mine.

IN THE MATTER OF IRWIN SHAFFER, DEAN SHAFFER, GLEN SHAFFER AND ROY MELLEN SHAFFER, INDIVIDUALLY AND AS PARTNERS DOING BUSINESS UNDER THE NAME AND STYLE OF I. SHAFFER AND SONS, CODE MEMBER

NOTICE OF AND ORDER FOR HEARING

A complaint dated January 8, 1942, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, (the "Act"), having been duly filed on January 24, 1942, by the Bituminous Coal Producers Board for District No. 1, a District Board complainant, with the Bituminous Coal Division (the "Division"), alleging wilful violation by Irwin Shaffer, Dean Shaffer, Glen Shaffer and Roy Mellen Shaffer, Individually and as Partners Doing Business Under the Name and Style of I. Shaffer and Sons, (the "Code member"), of the Bituminous Coal Code (the "Code"), or rules and regulations thereunder;

It is ordered, That a hearing in respect to the subject matter of such complaint be held on April 30, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division at the Community Room, City Hall, Altoona, Pa.

It is further ordered, That Joseph A. Huston or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said Code member and to all other parties herein and to all persons and entities having an interest in such proceeding. Any person or entity eligible under § 301.123 of the Rules and Regulations Governing Practice and Procedure Before the Division in Proceedings Instituted Pursuant to sections 4 II (j) and 5 (b) of the Act, may file a petition for intervention not later than five (5) days before the date herein set for hearing on the complaint.

Notice is hereby given that answer to the complaint must be filed with the Division at its Washington Office or with any one of the statistical bureaus of the Division, within twenty (20) days after date of service thereof on the Code member; and that failure to file an answer within such period, unless otherwise ordered, shall be deemed to be an admission of the allegations of the complaint herein and a consent to the entry of an appropriate order on the basis of the facts alleged.

Notice is also hereby given that if it shall be determined that the Code member has wilfully committed any one or more of the violations alleged in the complaint, an order may be entered either revoking the membership of the Code member in the Code or directing the Code member to cease and desist from violating the Code and regulations made thereunder.

All persons are hereby notified that the hearing in the above entitled matter and orders entered therein may concern, in addition to the matters specifically alleged in the complaint herein, other matters incidental and related thereto, whether raised by amendment of the complaint, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

The matter concerned herewith is in regard to the complaint filed by said complainant, alleging wilful violation by the above named Code member as follows:

That said Code member, whose address is R. D. #1, Rummel, Pennsylvania, and who operates the Shaffer Mine, Mine Index No. 457, located in Cambria County, Pennsylvania, in Subdistrict No. 29 of District No. 1, wilfully violated section 4 II (e) and (g) of the Act and Part

II (e) and (g) of the Code, (1) by selling at $2.45 per net ton, approximately 785 tons of mine run coal produced at said mine to Donald Holsopple, an independent trucker, during the month of July 1941, who resold and transported said coal by truck to the Johnstown Traction Company, located in the Greater Johnstown Area, Johnstown, Pennsylvania. Said coal was resold by said trucker at approximately $2.759 per net ton to said purchaser, which was less than the adjusted minimum f. o. b. mine price plus the actual transportation costs for delivery of such coal, which was classified as Size Group No. 3, and priced at $2.20 per net ton f. o. b. said mine in the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments, as amended by "Temporary Supplement to Price Schedule No. 1 for District No. 1," which was made a part of the Order of the Director dated November 27, 1940, entered in Docket No. A–268, as amended by Order of the Director dated June 12, 1941, entered in Docket No. A–130, according to which said coal should have been sold and delivered to the said purchaser at a price of not less than $3.00 per net ton; and (2) by selling the bituminous coal mentioned in item (1) hereof for truck shipment to the said Greater Johnstown Area, without first obtaining from said trucker a statement that said trucker would deliver and resell said coal at prices no less than the effective minimum prices adjusted as prescribed in said Order in Docket No A–130, dated June 12, 1941, and a certified statement of the actual transportation costs for transportation of said coal into the Greater Johnstown Area, as required by the said Order of the Director in Docket No. A–130, dated June 12, 1941.

[Docket No. B–147]

IN THE MATTER OF EAST KENTUCKY COAL SALES, INC., REGISTERED DISTRIBUTOR, REGISTRATION NO. 2612, DEFENDANT

ORDER AMENDING NOTICE OF AND ORDER FOR HEARING

The above-entitled matter having been scheduled for hearing on April 15, 1942, at 10:00 a. m. at a hearing room of the Bituminous Coal Division at Room 820, United States District Court, Cincinnati, Ohio, before Travis Williams or any other officer or officers of the Bituminous Coal Division duly designated for that purpose, pursuant to Order dated March 11, 1942; and

The Acting Director deeming it advisable that said Notice of and Order for Hearing dated March 11, 1942, should be amended;

Now, therefore, it is ordered, That the Notice of and Order for Hearing dated March 11, 1942, in the above-entitled matter be and the same is hereby amended by inserting after paragraph (l) and before the next succeeding paragraph thereof, the following paragraphs:

(m) whether or not the East Kentucky Coal Sales, Inc., purchased coal for resale from certain code members as more particularly set forth herein and accepted and retained discounts thereon in said transactions in excess of the maximum allowable discounts, as prescribed by Order of the Director in General Docket No. 12 dated June 19, 1940, thereby participating in a violation of Rule 1 of Section III of the Marketing Rules and Regulations and in violation of Paragraphs (a) and (e) of the Agreement;

During the period October 1, 1940, through June 30, 1941, the registered distributor sold to various purchasers the number of cars of various sizes of coal produced by the identified code members set forth herein below, and retained discounts on the cars of coal involved in excess of the maximum allowable discounts:

Mine Index No.	District No.	Code member	Address	Number of cars	Tons
42	8	Bertha Jellico Coal Co.	Gray, Ky.	8	432.40
1585	8	Webb Branch Coal Co.	Lineville, Ky.	75	4,022.35
427	8	Roscoe Shackelford	Barwick, Ky.	40	2,146.05
1606	8	Manchester Coal Co.	Hima, Ky.	106	5,428.05
401	8	Rennebaum Coal Co.	Middlesboro, Ky.	33	1,698.60
477	8	New Horse Creek Coal Co.	Hima, Ky.	61	3,006.85
515	8	Marcum Coal Co.	Hima, Ky.	25	1,339.00
		Total		350	17,973.30

(n) whether or not in the transactions described in the tabulation contained in paragraph (m) hereof, East Kentucky Coal Sales, Inc., acted as a Sales Agent on behalf of the several code members, without there having been filed with the Statistical Bureau or Bureaus of the Division, certified copies of all such agency contracts or certified copies of agreements modifying any such sales agency contracts by setting forth therein the basis for the retention by the Sales Agent of the amount of commissions which East Kentucky Coal Sales, Inc., retained in said transactions, as required by Rules 4 (A), 4 (B), 4 (C), and Rule 9 (a) of section II of the Marketing Rules and Regulations, in violation of said rules, or any of them, and of Paragraph (e) of the Agreement;

(o) whether or not in the transactions described in the tabulation contained in paragraph (m) hereof, East Kentucky Coal Sales, Inc., acted as a Sales Agent on behalf of the several code members, and retained commissions in excess of the maximum discounts which it could receive if it purchased and resold such coal as a distributor, without there having been filed with the Division an application for permission to pay such commissions or without having been granted such permission, resulting in violations of Rule 13 (A) and Rule 13 (B) of section II of the Marketing Rules and Regulations, or either of said rules, and Paragraph (e) of the Agreement;

It is further ordered, That the Notice of and Order For Hearing dated March 11, 1942, in the above entitled matter, shall, in all other respects remain in full force and effect.

Dated: March 28, 1942.

IN THE MATTER OF BOYD-SICARD COAL COMPANY, CODE MEMBER

ORDER OF DISMISSAL

District Board 14 having filed a complaint with the Bituminous Coal Division, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, alleging wilful violation by Boyd-Sicard Coal Company, a code member in District 14, of the Bituminous Coal Code, and rules and regulations thereunder by shipping on or about February 5, 1941, a railroad car of 10" lump coal produced at its Boyd #3 Mine (Mine Index No. 14), without having received orders for said coal, to each of the following consumers: Lewis Cinek, South Omaha, Nebraska, and Chicago Lumber Company, Omaha, Nebraska;

Pursuant to an Order of the Acting Director, and after due notice to interested persons, a hearing in this matter having been held on October 3, 1941, before a duly designated Examiner of the Bituminous Coal Division, at a hearing room thereof in Fort Smith, Arkansas, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard;

Appearances having been entered at the hearing by District Board 14 and the code member;

The preparation and filing of a report by the Examiner having been waived and the matter thereupon having been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and having rendered an Opinion in this matter, which are filed herewith;

Now, therefore, it is ordered, That the complaint filed herein against Boyd-Sicard Coal Company be, and it hereby is, dismissed.

Dated: March 28, 1942.

IN THE MATTER OF DAVIS & DAVIS (HOMER DAVIS AND CHARLES DAVIS), A PARTNERSHIP, CODE MEMBER

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATIONS OF THE EXAMINER, AND ORDER OF DISMISSAL

This proceeding having been instituted upon a complaint filed with the Bituminous Coal Division on July 24, 1941, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 11, alleging that Davis & Davis, a code member in District 11, had wilfully violated the effective minimum prices established for the coals produced by its Little Wonder Mine (Mine Index No. 638) located in Jackson Township, Sullivan County, Indiana, by selling certain quantities of these coals at a price below the effective minimum price, and praying that the Director enter an Order directing the code member to cease and desist from violations of the Bituminous Coal Code and the effective minimum prices established thereunder;

Upon motion of the complainant, leave to amend the complaint having been granted by Order of the Director dated September 8, 1941;

Pursuant to an appropriate order, and after due notice to all interested persons, a public hearing in this matter having been held on December 16, 1941, before Joseph D. Dermody, a duly designated Examiner of the Division, at a hearing room thereof in Terre Haute, Indiana;

The Examiner having made Proposed Findings of Fact, Proposed Conclusions of Law and a Recommendation in this matter, dated February 20, 1942, recommending that an order be entered dismissing the complaint for failure of the evidence to show that the coal alleged to have been sold by the code member in violation of the Act was produced at Mine Index No. 638, as alleged;

An opportunity having been afforded to all parties to file exceptions thereto and supporting briefs, and no such exceptions nor supporting briefs having been filed;

It having been determined by the undersigned from a consideration of the record that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is therefore ordered, That the Proposed Findings of Fact, and Proposed Conclusions of Law of the Examiner be, and the same hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That the complaint in this proceeding be, and it hereby is, dismissed without prejudice to the complainant, District Board 11, however, to institute further proceedings against this code member for violations not covered by the complaint herein.

Dated: March 27, 1942.

[Docket No. 1704–FD]

IN THE MATTER OF SANDY VALLEY COAL COMPANY, DEFENDANT

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATIONS OF THE EXAMINER, AND REVOKING AND CANCELLING CODE MEMBERSHIP

This proceeding having been instituted upon a complaint filed with the Bituminous Coal Division on June 11, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 4, alleging in substance that the Sandy Valley Coal Company, the defendant, a code member in District 4, wilfully violated the provisions of the Bituminous Coal Code or rules and regulations thereunder by selling during the month of December 1940 (1) approximately 2200 tons of 2" nut and slack coal produced at its Nos. 1 and 5 Mines for shipment in trucks owned and controlled by the defendant to the plant of the Republic Steel Corporation at East Canton, Ohio, at a delivered price of $2.00 per ton; and (2) approximately 460 tons of 2" nut and slack coal produced at its No. 1 Mine for shipment via trucks owned and controlled by the defendant to the plant of the Cleveland Worsted Mills Company at Ravenna, Ohio, at a delivered price of $2.10 per ton, whereas the effective minimum price for defendant's 2" nut and slack coal is $1.90 per ton f. o. b. the mine plus not less than the actual cost of delivering the coal from the mines to the points from which such charges are assumed and directly paid by the purchaser; and praying that the Division either cancel and revoke the defendant's code membership or, in its discretion, direct the defendant to cease and desist from violations of the Code and rules and regulations thereunder;

The defendant having filed an answer to the complaint denying, *inter alia*, that it wilfully violated the provisions of the Code or the rules and regulations thereunder;

Pursuant to an Order of the Acting Director and after due notice to interested persons, a hearing in this matter having been held on September 25, 26, and 27, 1941, before W. A. Cuff, a duly designated Examiner of the Division, at a hearing room thereof in Canton, Ohio, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard;

The Examiner having made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in this matter, dated March 3, 1942, in which it was recommended that the defendant's code membership be revoked and cancelled;

An opportunity having been afforded to all parties to file exceptions to the Examiner's Report and supporting briefs, and no such exceptions or supporting briefs having been filed;

The undersigned having determined, after a consideration of the record, that the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is, therefore, ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That, pursuant to section 5 (b) of the Act, the code membership of the defendant, The Sandy Valley Coal Company, a corporation, operating Mine Index Nos. 1810 and 1811 in Tuscarawas County, Ohio, in District 4, be, and it hereby is, revoked and cancelled.

It is further ordered, That, prior to any reinstatement of the defendant, The Sandy Valley Coal Company, a corporation, to membership in the Code, the defendant shall be required to pay to the United States a tax in the amount of $738.56, as provided in section 5 (c) of the Bituminous Coal Act of 1937.

Dated: March 27, 1942.

[Docket B-21]

IN THE MATTER OF WILLIE MUFFETT, DEFENDANT

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATIONS OF THE EXAMINER, AND ORDER TO CEASE AND DESIST

This proceeding having been instituted upon a complaint filed with the Bituminous Coal Division on September 9, 1941, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 9, alleging that Willie Muffett, Defendant, a code member producer in District 9, wilfully violated the provisions of the Bituminous Coal Code or the Rules and Regulations thereunder, and requesting that the Division either cancel and revoke the defendant's code membership, or, in its discretion, direct the defendant to cease and desist from violations of the code, or the rules and regulations thereunder;

A hearing having been held before Charles S. Mitchell, a duly designated Examiner of the Division at a hearing room thereof in Owensboro, Kentucky, on November 24, 1941;

The Examiner having made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in this matter dated February 25, 1942, in which it was recommended that an order be entered directing the defendant to cease and desist from violating the Act, the Code, the Schedule of Effective Minimum Prices for District No. 9 For Truck Shipments, and the Marketing Rules and Regulations;

An opportunity having been afforded to all parties to file exceptions to the Examiner's Report and supporting briefs and no such exceptions or supporting briefs having been filed;

The undersigned having determined after a consideration of the record that the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

Now, therefore, it is ordered, That the Proposed Findings of Fact, and Proposed Conclusions of Law of the Examiner be and the same are hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That the defendant, Willie Muffett, his representatives, agents, servants, employees, and attorneys and all persons acting or claiming to act on his behalf or interest, cease and desist and they are hereby permanently enjoined and restrained from selling or offering to sell coal produced by the defendant at less than the applicable effective minimum prices established therefor, contrary to the provisions of section 4 II (e) of the Act and any rules and regulations promulgated thereunder, the Bituminous Coal Code, the Marketing Rules and Regulations, and the Schedule of Effective Minimum Prices for District 9 For Truck Shipments.

It is further ordered, That upon the failure or neglect of the defendant to comply with this Order, the Division may forthwith apply to the Circuit Court of Appeals of the United States where such defendant carries on business, or to the United States Circuit Court of Appeals for the District of Columbia for the enforcement thereof, or may take any other appropriate action.

FEDERAL TRADE COMMISSION.

[Order No. 4740]

IN THE MATTER OF BENJAMIN L. GRABOSKY AND SAMUEL GRABOSKY, INDIVIDUALS, TRADING AS GABROSKY BROTHERS

COMPLAINT AND NOTICE

The Federal Trade Commission, having reason to believe that the parties respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsection (d) of section 2 of the Clayton Act (U.S.C. Title 15, Section 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondents, Benjamin L. Grabosky and Samuel Grabosky, are copartners trading as Grabosky Brothers, having their principal office and place of business at Northeast Corner 11th and Wood Streets, Philadelphia, Pennsylvania. Respondents operate and maintain manufacturing plants at Philadelphia, Pennsylvania, and at Perth Amboy, New Jersey.

PAR. 2. Respondents are now, and have been since June 19, 1936, engaged in the manufacture, sale and distribution of cigars. Respondents sell and distribute their cigars to purchasers in the various states of the United States and in the District of Columbia, and cause the said cigars, when sold, to be shipped and transported from the states in which they are manufactured across state lines to the purchasers thereof in other states of the United States and in the District of Columbia. There is, and has been at all times mentioned herein, a constant current of trade and commerce in the said cigars between the respondents and purchasers in other states. Respondents' cigars are sold by them for use, consumption or resale within the United States and in the District of Columbia.

PAR. 3. In the course and conduct of their business respondents sell their cigars to retail drug chains and to independent retailers, who in turn sell to the consuming public. Respondents, since June 19, 1936, have contracted to make and have made, and are now making, valuable payments to some of their chain store customers selected by respondents, as compensation or in consideration for the furnishing by the said selected customers of services or facilities, such as counter, show case or window displays, for the advertising of respondents' cigars. Respondents have not made such payments or considerations available on proportionally equal terms to all of their customers competing with the aforesaid compensated customers in the distribution of respondents' cigars.

As example of these practices respondents, during such period, as consideration for the aforesaid displays, have contracted to pay and have paid some chain store customers $1.50 per month per branch store, the total monthly payments amounting to as much as $255.00 to a single customer. With other chain store customers respondents have contracted to pay and have paid, during such period, flat sums for the said displays amounting to as much as $500.00 per month to a single customer. Although often requested so to do by respondents' independent retailer customers and other chain store customers competing with these compensated customers, and who are able and willing to furnish the same services and facilities, respondents have refused to make such payments available to them on proportionally equal terms, or on any terms.

PAR. 4. The above-described acts and practices of respondents are in violation of subsection (d) of section 2 of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. Title 15, section 13).

Wherefore, the premises considered, the Federal Trade Commission, on this 26th day of March, A. D. 1942, issues its complaint against said respondents.

Notice

Notice is hereby given you, Benjamin L. Grabosky and Samuel Grabosky, individuals, trading as Grabosky Brothers, respondents herein, that the 1st day of May, A. D. 1942, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission

such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission, may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 26th day of March, A. D. 1942.

By the Commission.

NOTICE OF CALL FOR PARTIAL REDEMPTION, BEFORE MATURITY, OF 2¾ PERCENT MUTUAL MORTGAGE INSURANCE FUND DEBENTURES, SERIES B

MARCH 25, 1942.

To holders of 2¾ percent Mutual Mortgage Insurance Fund debentures, Series B:

Pursuant to the authority conferred by the National Housing Act (48 Stat. 1246; U.S.C., title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Mutual Mortgage Insurance Fund debentures, Series B, of the denominations and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on July 1, 1942, on which date interest on such debentures shall cease:

Denomination:	*Serial numbers (all numbers inclusive)*
$50	1,161 to 1,942
$100	4,049 to 4,786
$500	1,404 to 1,992
$1,000	5,000 to 5,222
$5,000	329 to 411
$10,000	40 to 44

The debentures first issued, as determined by the serial numbers, were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after April 1, 1942. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after April 1, 1942, and provision will be made for the payment of final interest due July 1, 1942, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from April 1 to June 30, 1942, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after July 1, 1942, or for purchase prior to that date will be given by the Secretary of the Treasury.

ABNER H. FERGUSON,
Commissioner.

Approved: March 27, 1942.

SECURITIES AND EXCHANGE COMMISSION.

IN THE MATTER OF RICHARD MAHONEY COMPANY, INCORPORATED, 606 EMPIRE STATE BUILDING, SPOKANE, WASHINGTON

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of March, A. D. 1942.

1. Richard Mahoney Company, Incorporated, a Washington corporation, is registered with this Commission as an over-the-counter broker-dealer pursuant to section 15 of the Securities Exchange Act of 1934. We instituted this proceeding under section 15 (b) to determine whether its registration as such should be suspended or revoked.

2. George Fitzgerald is president and director of the registrant, the owner of all of its outstanding stock (except for the qualifying shares), and is in full control of the registrant.

3. The order instituting this proceeding stated that members of the staff had reported to the Commission information obtained as a result of an investigation, which tended to show that:

A. During the period extending through March and April 1940, registrant sold stock of Callahan Consolidated Mines, Inc., to various persons. In making and inducing such sales, registrant, through Fitzgerald and others, falsely represented to purchasers that:

(1) The current market price of the stock was 17½ cents per share, when the fact was, as registrant well knew, that the current market price was considerably less than that figure;

(2) Registrant had advance "inside" information that Callahan Consolidated Mines, Inc., was about to open up a rich body of ore, when the fact was, as registrant well knew, that no such rich body of ore had been discovered and registrant had no information from which it could have been reasonably concluded that such a discovery would be made;

(3) Callahan Consolidated Mines, Inc., was ready to go into production, when the fact was, as registrant well knew, that the company was not ready to go into production and has not yet gone into production;

(4) It was certain that the price of the stock would reach 50 or 75 cents a share within 60 or 90 days from the date of purchase, when the fact was, as registrant well knew, that under the circumstances then existing there was no reasonable basis for such an assertion;

(5) Only a limited amount of stock was available, when the fact was, as registrant well knew, that the stock was freely obtainable and was obtained with apparent ease by the registrant to fill orders.

B. In inducing certain of these sales, registrant stated to prospective purchasers that the price of the stock would increase to 19 cents a share within 10 days or 2 weeks, but omitted to state that the price of the stock would be arbitrarily and artificially stepped up by registrant for the purpose of stimulating sales.

C. The transactions referred to were effected by the use of the mails and instrumentalities of interstate commerce and otherwise than on a national securities exchange.

The Commission's order further stated that the information reported by its staff, as set forth above, tended, if true, to show that the registrant had wilfully violated section 17 (a) of the Securities Act of 1933, section 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 of the Commission's rules thereunder.

4. The registrant, by George Fitzgerald, its president, has submitted a document entitled "Answer and Consent to Revocation of Registration pursuant to section 15 (b) of the Securities Exchange Act of 1934" in which it acknowledges receipt and service of adequate notice of the proceeding, waives opportunity for hearing, "admits and acknowledges the existence of the facts and the cause of action set forth in the Commission's order for proceedings," and consents to the entry of an order by the Commission revoking its registration as an over-the-counter broker and dealer.

5. We find that the registrant has wilfully violated section 17 (a) of the Securities Act of 1933, section 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 thereunder, and that it is in the public interest to revoke its registration as a broker and dealer.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of Richard Mahoney Company, Incorporated, as an over-the-counter broker and dealer be, and it hereby is, revoked.

By the Commission (Chairman Purcell and Commissioners Healy, Pike and Burke), Commissioner O'Brien being absent and not participating.

IN THE MATTER OF WILLIAM E. HOUSEL, 11 EAST 44TH STREET, NEW YORK, NEW YORK

FINDINGS AND ORDER REVOKING REGISTRATION AS BROKER AND DEALER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of March, A. D. 1942.

1. William E. Housel is registered with this Commission as an over-the-counter broker-dealer pursuant to section 15 of the Securities Exchange Act of 1934. We instituted this proceeding under section 15 (b) to determine whether his registration as such should be suspended or revoked.

2. The order instituting this proceeding stated that members of the staff had reported to the Commission information obtained as a result of an investigation which tended to show that:

A. During the period from May 10, 1937, to about June 28, 1938, respondent sold to various persons Syndicate Membership Interests in Investors Petroleum Syndicate No. 1, an unincorporated association organized by respondent. In making and inducing such sales, respondent falsely represented to purchasers:

(1) That the Syndicate operated entirely for the benefit of its members, when in fact the Syndicate was controlled and operated by respondent for his own benefit;

(2) That the management of the Syndicate was vested in the Chairman of a managing committee assisted by members of that committee and a Trustee who held the property of the Syndicate in trust, when in fact respondent personally and exclusively managed the affairs and controlled the property of the Syndicate at all times;

(3) That all the property of the Syndicate was held by a Trustee, subject to the control of the Chairman and members of the managing committee, when in fact the property was never turned over to a Trustee and remained exclusively under the management and control of the respondent;

(4) That the Syndicate would purchase better quality oil investments for its own account directly from owners of oil lands through its own field organization at "rock bottom prices" thereby saving the usual dealers' profits, when in fact the Syndicate did not and could not so purchase oil investments since it did not have a field organization and all its oil investments were purchased from the respondent himself or from William E. Housel, Inc. (a corporation controlled by respondent); and further that neither respondent nor the said William E. Housel, Inc., was an owner of oil lands and that respondent directly or indirectly realized large dealer profits out of transactions involving the oil investments made by the Syndicate;

(5) That the Syndicate members in their individual purchases of oil investments could eliminate dealers' profits by making such purchases directly from landowners through the Syndicate's field supervisor, when in fact such a procedure was not possible since the Syndicate did not have an active field supervisor and since all purchases of oil investments by the Syndicate for the accounts of its members were made not from landowners but from respondent or William E. Housel, Inc., in which purchases respondent directly or indirectly received substantial dealer profits;

(6) That the Syndicate received commissions of only 10% of the actual cost of oil investments made by it for its members, when in fact in several instances the Syndicate's profit exceeded that percentage and in one such purchase the Syndicate's profit was in excess of 175% of cost;

(7) That the Syndicate purchased oil investments only for its permanent investment account, when in fact the Syndicate was actively trading at the time in oil investments;

(8) That the Syndicate had statistical facilities, maps, drilling reports, and a reporting service of its own, which were available for general consultation by its members, when in fact the Syndicate did not have any such facilities or service of its own but relied on those owned or controlled by respondent;

(9) That the advice given by the Syndicate to its members in the purchase of oil securities was impartial, when in fact such advice was not and could not have been impartial in that the Syndicate relied entirely upon respondent for such advice and respondent managed and controlled the Syndicate for his own profit, and, directly or through corporations controlled by him, bought from and sold to the Syndicate and its members oil investments at large profits to himself;

(10) That prior to September 17, 1937, the Syndicate had purchased oil investments for its members at prices 30% to 40% below those asked by retail dealers, when in fact the Syndicate had not engaged in any such transactions at that time.

B. During the period from March 1, 1938, to about April 1, 1940, respondent sold to various persons Class A stock of Petroleum Investment Service, Inc., a corporation which respondent caused to be incorporated as a successor to the Syndicate and which respondent controlled through the ownership of the entire issue of 100 shares of Class B common stock, which had the right to elect a majority of the board of directors. In making and inducing such sales, respondent falsely represented to purchasers:

(1) That the Service Company was operated solely for the benefit of the stockholders, when in fact the Service Company was managed, controlled, and operated by respondent solely for his own benefit;

(2) That the Service Company furnished free and unbiased statistical reports to its members and advised them regarding oil investments, when in fact the Service Company did not and could not furnish unbiased reports since it relied entirely on information and advice obtained from the respondent and William E. Housel, Inc., at a time when respondent, directly and through corporations controlled by him, sold to and purchased from the Service Company and its members oil investments at large direct and indirect profits to respondent;

(3) That the only profits made by the Service Company on purchases for its stockholders would be a 10% service charge based on actual cost, when in fact the Service Company had previously sold and continued to sell securities to its stockholders at profits in excess of 10% of the actual cost of such securities.

C. In making and inducing the sales described in subdivision B, respondent stated to purchasers:

(1) That the Service Company had arranged to acquire 5,000 shares of the common stock of Housel Oil Corporation at $2.50 per share, that the book value of the stock as of March 15, 1938, was in excess of $4.00 per share, when in fact, as respondent knew but omitted to state, the price of the stock had been arbitrarily fixed by respondent at $2.50 per share and the book value of $4.00 per share had been falsely created by respondent in that he controlled Housel Oil Corporation and had arbitrarily reappraised on the books of that corporation at $116,817.40 certain property acquired by the corporation for $24,796.59;

(2) That the Service Company was earning 20% or more on its invested capital, when in fact, as respondent knew but omitted to state, such earnings as the Service Company had were those created by the respondent through security dealings which respondent had with the Service Company;

(3) That the Service Company had nothing to sell but service, when in fact, as respondent knew but omitted to state, the Service Company had no facilities of its own for rendering service but relied in rendering such service on information and advice obtained from respondent or corporations controlled by him;

(4) That in the purchase of securities from respondent or William E. Housel, Inc., the cost to the Service Company of such securities would be no more than 110% of the cost to the respondent or William E. Housel, Inc., when in fact, as respondent knew but omitted to state, respondent and corporations controlled by him had sold and intended to sell to the Service Company and its stockholders securities at prices which were greatly in excess of 110% of the cost to respondent or the controlled corporations.

D. Respondent used the mails and instrumentalities of interstate commerce in effecting the transactions and inducing the purchases of securities referred to in subdivisions A, B, and C.

The Commission's order further stated that the information reported by its staff, as set forth above, tended, if true, to show that the respondent had wilfully violated section 17 (a) of the Securities

Act of 1933, section 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 of the Commission's rules thereunder.

3. The respondent has filed a document entitled "Consent to Revocation of Registration Pursuant to section 15 (b) of the Securities Exchange Act of 1934" in which he acknowledges receipt and service of adequate notice of the proceeding, waives opportunity for hearing, "admits and acknowledges the existence of the facts and/or the cause of action set forth in the Commission's order for proceedings, but denies any intent to violate any law either state or federal in connection therewith," and consents to entry of an order by the Commission revoking his registration as an over-the-counter broker and dealer.

4. We find that the respondent has wilfully violated section 17 (a) of the Securities Act of 1933, 15 (c) (1) of the Securities Exchange Act of 1934 and Rule X-15C1-2 thereunder, and that it is in the public interest to revoke his registration as a broker and dealer.

Accordingly, it is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of William E. Housel as an over-the-counter broker and dealer be, and it hereby is, revoked.

By the Commission (Chairman Purcell and Commissioners Healy, Pike and Burke), Commissioner O'Brien being absent and not participating.

[File No. 70-519]

IN THE MATTER OF COLUMBIA GAS & ELECTRIC CORPORATION, THE OHIO FUEL GAS COMPANY, AND NORTHWESTERN OHIO NATURAL GAS COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of March, 1942.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named parties; and

Notice is further given that any interested person may, not later than April 10, 1942 at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declarations or applications, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transactions, as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declarations or applications, which are on file in the office of said Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

The parties propose to merge Northwestern Ohio Natural Gas Company, a wholly-owned subsidiary of Columbia Gas & Electric Corporation, into The Ohio Fuel Gas Company, also a subsidiary of Columbia Gas & Electric Corporation, all of whose outstanding shares and indebtedness other than current indebtedness and $3,000,000 principal amount of 4% Serial Notes (guaranteed as to principal and interest by its parent) are owned by the parent. As stated in the applications or declarations, the following steps will be necessary or incidental to the consummation of the proposed transaction:

(a) Northwestern will declare and pay a dividend on its common stock in an amount equal to its Earned Surplus since December 31, 1937 (as of December 31, 1941, such surplus amounting to $66,714.88).

(b) Northwestern will be merged into Ohio Fuel pursuant to the provisions of the Ohio General Corporation Law, with Ohio Fuel containing as the surviving corporation. Such merger is to be carried out pursuant to the provisions of the Agreement of Merger which is filed with the applications or declarations.

(c) In the merger, Ohio Fuel will issue 58,354 shares of common stock, par value $45, in exchange for the 55,505 shares of common stock, par value $50, of Northwestern, presently outstanding. Ohio Fuel presently has 442,517 authorized but unissued shares of common stock.

The proposed merger involves the following transactions which are covered by this combined application:

(a) The issue by Ohio Fuel of 58,354 shares of common stock, par value $45.

(b) The transfer by merger of all of the assets of Northwestern to Ohio Fuel.

(c) The assumption, by operation of law, by Ohio Fuel of all of the liabilities of Northwestern, which at the date of the merger will consist of current liabilities only.

(d) The acquisition by Columbia Gas of 58,354 shares of common stock, par value $45, of Ohio Fuel in exchange for 55,505 shares of common stock, par value $50, of Northwestern.

The number of shares to be issued by The Ohio Fuel Gas Company in exchange for the outstanding shares of Northwestern Ohio Natural Gas Company is said to have been determined by dividing the capital stock and special capital surplus of The Ohio Fuel Gas Company by the number of shares outstanding and dividing the result into the sum of the capital stock and surplus prior to January 1, 1938 of Northwestern Ohio Natural Gas Company. The earned surplus of The Ohio Fuel Gas Company prior to January 1, 1938, in the amount of $6,949,606.37, and the earned surplus of that company since December 31, 1937, in the amount of $1,407,974.08, as well as the earned surplus of Northwestern Ohio Natural Gas Company since December 31, 1937 of $66,714.88 are stated not to have been used in the computation referred to.

By the Commission.
